This Book is brought to you for free and open access by the University Advancement at LOUIS. It has been accepted for inclusion in Bulletin Board by an authorized administrator of LOUIS.
March 29 - 30 - The Children's Dance Theater, founded by Deanne Collins, instructor in creative dance, will present "Movement by Children for Children" in Recital Hall, Humanities Building. Performances will be at 7 p.m. Friday and 10:30 a.m. and 7 p.m. Saturday. Each performance will last 35 minutes and tickets are $.75 for young and old.

March 30 - The Music Department will hold scholarship auditions.

April 5 - The University Arts Series will present Herrick and Handler, flute and guitar duo, at 8:15 p.m. in Recital Hall, Humanities Building. Admission is free to UAH students with identification card. Tickets are $2.50 for adults and $1.25 for students.

The Southern Regional Education Board, Atlanta, Ga., has announced that students in several Southern states can now enroll on a resident-tuition basis in selected graduate programs in other states.

The arrangement, which will become effective this fall, is made possible through the Academic Common Market, a project of the Southern Regional Education Board. The interstate agreement provides for the reciprocal sharing of academic graduate programs.

Students from participating states will have access to master's or doctoral degree work in such fields as African history, home economics, radio astronomy, water pollution ecology or nuclear engineering—t o name a few of the program entries.

Thus far, Alabama, Arkansas, Florida, Georgia, Kentucky, Mississippi, South Carolina and Tennessee have joined the Market. The participation of Maryland, North Carolina, Virginia and West Virginia is tentative but expected in the next several weeks—pending, in some cases, only the almost certain ratification of the agreement by state legislatures or boards of trustees.

The programs in which residents of a participating state can enroll depend upon their state's agreement. Under the Common Market agreement, each member state puts a number of its programs in a "market pool" and then arranges for its residents to have access to out-of-state programs not offered in its own institutions.

The number of out-of-state programs thus made available at in-state rates ranges from Maryland's five to the 80 West Virginia will offer its residents, provided pending legislation there allows that state's entry into the Market.

(continued)
As the examples illustrate, the typical Common Market program is one that is somewhat unusual, both in excellence and program specialization, and one that is needed by residents in one or more of the other states. By making such programs available to students, needless duplication of graduate programs will be avoided.

As Dr. William Hovenden, who directs the regional administration of the program, phrased it, "It is not only impractical and expensive, but also nearly impossible for any single state to provide the full array of programs required to meet the diverse higher education needs of its citizenry."

On the other hand, by offering highly specialized programs to out-of-state students at in-state rates, participating institutions will increase enrollments in such "uncommon" programs which, in many cases, have the capacity for additional students.

Dr. Hovenden compares the arrangement to that of the airlines industry, which for years has offered tickets on a standby basis at a reduced rate to fill flights.

As a result of the Common Market, additional educational opportunities will be available to many students and existing programs in the Southern region will be more efficiently utilized—all at a savings to the students, institutions and taxpayers.

Posters, soon to appear on campus, will indicate sources of additional information about the Common Market and the names of state coordinators, who will provide information about application procedures.

For information concerning programs which are available through the Academic Common Market, contact the dean of the appropriate school or the Office of Academic Affairs at The University of Alabama in Huntsville.

PROGRAMS AVAILABLE TO ALABAMA RESIDENTS

Philosophy, Ph.D., University of Arkansas
Astronomy, Ph.D., University of Florida
Coastal and Oceanography Engineering, Ph.D., University of Florida
Criminology, Ph.D., Florida State
Home Economics, Ph.D., Florida State
Hotel and Food Service Management, M.S., Florida International
Music Performance, D.M., Florida State
Nuclear Engineering Sciences, Ph.D., University of Florida
Ocean Engineering, M.S., M.E., Florida Atlantic
Theatre Arts, Ph.D., Florida State
Urban and Regional Planning, Ph.D., Florida State
Actuarial Science, M.A.S., Georgia State
Nuclear Engineering, Ph.D., Georgia Tech
Community Development, M.S., University of Louisville
Expressive Therapies, M.A., University of Louisville
Musicology, Ph.D., University of Kentucky
Music Education, D.M.A., University of Kentucky
Toxicology, Ph.D., University of Kentucky
Business Administration-Transportation, Ph.D., University of Maryland
Computer Science, Ph.D., University of Maryland
Radio Astronomy, Ph.D., University of Maryland

(continued)
Bulletin Board (cont.)

Horticulture, Ph.D., Mississippi State
Marine Law and Science, M.M.L.S., University of Mississippi
Performing Arts and Pedagogy, D.M.S., University of Southern Mississippi
Petroleum Engineering, Ph.D., Mississippi State
Seed Technology, Ph.D., Mississippi State
Acoustical Studies-Mechanical Engineering, Ph.D., North Carolina State
Classics, Ph.D., University of North Carolina
Fiber and Polymer Science, Ph.D., North Carolina State
Music Education, Ed.D., UNC, Greensboro
Nuclear Engineering, Ph.D., North Carolina State
Wood and Paper Science, Ph.D., North Carolina State
Agricultural Mechanization, Ph.D., Clemson
Bioengineering, M.S., Clemson
Ceramic Engineering, M.S., M.E., Clemson
International Studies, Ph.D., University of South Carolina
Natural Resource and Environmental Economics, Ph.D., Clemson
Textile and Polymer Science, Ph.D., Clemson
Aerospace Education, M.Ed., Middle Tennessee State
Engineering Science-Biomedical, Ph.D., University of Tennessee
Home Economics, Ph.D., University of Tennessee
Nuclear Engineering, Ph.D., University of Tennessee
Organizational Psychology, Ph.D., University of Tennessee
Speech and Hearing Sciences, Ph.D., University of Tennessee
Biomedical Engineering, Ph.D., University of Virginia
Marine Science, Ph.D., William and Mary
Nuclear Science and Engineering, Ph.D., VPI
Oceanography, Ph.D., Old Dominion
Physical Therapy, M.S., Medical College of Virginia
Water Pollution Ecology, Ph.D., VPI
African History, Ph.D., West Virginia
Music, Ph.D., West Virginia
Music, D.M.A., West Virginia
