Springfest Calendar

Wed., May 7
Talent Show (Exhibit Hall)
7:00 p.m.

Thurs., May 8
Karate Club Self-Defense Seminar (Exhibit Hall; come in sweats)
12 noon-2 p.m.

MOVIES:
Batman—Attack of the Killer Tomatoes
8:15 p.m.

Fri., May 9
Karate Club Self-Defense Seminar
2 p.m.-4 p.m.

Springfest All-Nighter
Tom Parks/comedian
Innovation—Dance Band
Instant Karma—Rock-n-Roll
8 p.m. till 2 a.m.

MOVIES: Fritz the Cat—Marijuana-Weed With Roots in Hell
8 p.m. and 11 p.m.

Games
(sponsored with Jr. Panhellenic)
2 a.m.-5 a.m.
Alumni goes dialing for dollars

by Judith Baer
staff writer

During the weeks of April 6 through April 24, the UAH Alumni Association held its 5th annual Alumni Phonathon to raise funds for scholarships and other school projects. The event was hosted by Alumni Assistant Pat Smith and Director of Alumni Affairs Brett Baird. Held in room 126 of the University Center, the phonathon brought many clubs and organizations together in a busy congregation of people. Among the various organizations represented were the English Department, the Athletic Department, the Music Department, Delta Zeta Sorority and Pi Kappa Alpha Fraternity.

The turn out, as quoted from Pat Smith, was "utterly fantastic." In all, over 300 people turned out to man the phones during the 13 nights of the event. Over 500 alumni across the nation were reached, bringing in nearly $25,000 in pledges. This year's goal of $25,000 will easily be reached through other alumni fund raising activities such as the gift club, according to Baird.

In the past, funds raised during the phonathon have benefitted such campus organizations as the Village Singers, the Career Planning and Placement Office, as well as helped to purchase such needed items as athletic equipment, library books and music equipment.

This year's funds will be spent for such things as scholarships, the Job Fair, and various departments depending on where the need is greatest, according to the Alumni Board of Directors.

First-graders' fears eased

by Vera Bachtel
staff writer

"Let's Pretend Hospital" gave seven hundred Huntsville first-graders a therapeutic adventure through a make-believe hospital visit—a real source of fear and anxiety for children this age. Sponsored by the UAH School of Nursing, the Huntsville Hospital Auxiliary, Red Cross Volunteers, and the Huntsville Hospital, this program was held at the UAH Medical Clinic Auditorium on April 22-24.

Melissa Lowallen, instructor of nursing, said the experience "went smoothly" and "the children seemed to enjoy it and appreciate it." It was also a learning experience for the nursing students involved as well.

Peggy Johnston, a UAH junior nursing student, related that "a lot of the children) were afraid when they first approached us, but their anxiety was eased." She felt it was a "good program." Stephanie Stricklin, also a UAH junior nursing student, expressed the same sentiments, saying that the kids "really tuned into it."

This exercise in community awareness may become an annual event. The kids in Huntsville had a great time and found out that a visit to the hospital isn't as frightening as they may have imagined.

UAH seeking orientation leaders

UAH is accepting applications for Orientation Leaders to escort groups of students and parents during Summer '86 Orientation and lead discussion groups. Orientation leaders will also assist in the organization and preparation of orientation activities and materials, acquaint new students with campus services, activities and building locations, and serve as peer counselors to entering students. Applicants must be upperclassmen with respectable GPAs. They must also be reliable, responsible, confident, sincere, flexible, display a willingness to help and have good communication skills. Orientation leaders must understand and believe in the purpose of orientation. Leaders should relate well with students, parents, faculty and administration. The orientation leader should demonstrate a desire to learn about UAH-its regulations, its people and its programs. Leaders must maintain a 3.0 grade point average.

UAH student orientation leaders will be expected to work during three one-day and two-evening sessions scheduled July 9, August 14 and September 15.

Applications may be obtained in the Office of Student Development, room 113, University Center. Application deadline is May 15.

OrIENTATION leaders will be required to attend training sessions. All student orientation leaders will participate in a follow-up evaluation.

All students selected as orientation leaders will receive monetary compensation. Applications may be obtained in the Office of Student Development Services, room 113, University Center. Application deadline is May 15.

For more information, contact Pat Humphrey at 895-6053.

National Nurse Day

is May 6.

Tapes of German space pioneers donated

The thoughts and visions of German pioneers of the space and rocket age can now be viewed on video cassette tape.

The tapes are a project undertaken by UAH associate professor of sociology Dr. Donald Tartar, who was assisted by Konrad Dannenberg. Copies of the video tapes, done in a question-and-answer format, have been donated by the UAH Library and the Alabama Space and Rocket Center. They are available to the public for viewing at each location.

Dr. Tarter said the objective of the project was to produce an audiovisual record of the recollections and the anticipations of members of the German Peenemunde Rocket Development team directed by the late Dr. Wernher von Braun. The project not only provides historical data but offers insight into the future.

The interviews detail the reconstruction of significant social events which led to and influenced the development of the basic World War II German rocket program. The interviews also look at the role space will play in the future and compare the nature of the early anticipations of these individuals with regards to the future role of rocketry and space flight.

"These folks were at the real beginning of the space age," said Dannenberg, a member of the rocket team who later joined the NASA program. "All of these people are getting old and there may never be the opportunity to talk with them again."

Those interviewed include Dannenberg, Helmut Zeise, Dr. and Mrs. Fritz K. Mueller; Dr. Rudolph Herrmann; Wernher K. Rosinski; Dr. Georg von Tiesenhausen; Dr. Ernst Stuhlinger; Otto Hirschler; Dr. Eberhard Rees; Dr. Gerhard Reissig; Willibald Prusschofer; Dieter Huzel; and Jim Fagan, an American liaison officer at the end of World War II.

"It should be interesting to look at these 100 years in the future to see what those at the beginning of the space age thought," said Tarter.

Dr. Delmas Williams, director of the UAH Library, accepts the videotapes of the space age pioneers' early days from Dr. Donald Tarter, UAH professor of sociology, and Konrad Dannenberg, a former member of the Von Braun rocket team and NASA. (photo by Bill Pettiman)

All of the interviews took place before the ill-fated Challenger mission, but Dannenberg said the mishap would likely have had little effect on their views of the future in space. Most, he said, envision a space station, while others would like to see more activity take place on the moon.

I don’t like Ronald Reagan. I don’t like...
Mowery's student life comes full circle

Bruce Mowery's student life has come full circle. When he was in junior high school, Mowery's dream was to become a doctor. In college he decided to set that dream aside and become an engineer. After graduation he turned down engineering job offers and decided to pursue his childhood dream of becoming a doctor. He returned to the University of Alabama in Huntsville to prepare to enter medical school.

After graduating from Johnson High School, Mowery enrolled at UAH in engineering and transferred to Auburn University to complete his requirements for graduation. Mowery explained that he often thought about being a doctor while he was at Auburn. "One reason I went into engineering was because I thought it was a tough program and if I ever did decide to become a doctor, it would show I could do it."

Mowery talked to several medical educators to get information. Then he met with Dr. Clyde Riley, UAH's medical advisor. Riley told him what courses he lacked and what he needed to be doing, said Mowery.

In the fall quarter of 1984, Mowery completed all of his course requirements. He explained that "to go to medical school, it doesn't matter what your degree is, but you do have to take certain courses."

He began interviewing for medical schools and working full-time at the apartment complex of a UAH engineering professor. Mowery knew that he wouldn't find out for several months whether or not he was accepted at medical school. He wasn't. "At that point I didn't know what to do. It was the first time I had ever failed at something academically," says Mowery. Riley offered his help and got Mowery involved in mock interviews with medical school officials to help him because Mowery says he "blew it the first time." He also got a job as a natural science lab instructor to help improve his communication skills.

In the past few months, Mowery has continued to take courses at UAH. Some of the courses he has taken will receive credit for at medical school. But there are other courses he has taken simply to help himself personally or professionally.

Before going to medical school, an applicant has to be approved by a Pre-Professional Advisory Committee. This includes three recommendations from three instructors and interviews with at least two people on the committee who will submit evaluations of the applicants. Then the entire committee meets with the applicants and "you don't tell them they'll do," says Mowery. Mowery credits members of the Pre-Professional Advisory Committee and Riley with helping him and supporting him through his medical school interviews. When Mowery first met Riley "he was kind of scary of me...here's another guy, an engineering student who thinks he can do medical stuff."

Once Mowery proved he was sincere, though, Riley and other committee members began devising ways to help him. "They help you and encourage you, but they don't try to build your hopes up," explains Mowery.

Last year, Mowery reapplied to medical school. Although he had practiced and prepared, the experience was still scary, said Mowery. Instead of just one school accepting him, Mowery had the luxury of selecting from two schools. He was accepted by the University of South Alabama and the University of Alabama in Birmingham. He opted to attend UAB in July and will complete his final two years at UAH. Mowery feels his experience at UAH has been a good one. "I have really enjoyed the classes—I feel more a part of UAH than a 'student' might."

Mowery's attitude and interest in becoming a doctor can best be summed up by the following:

When asked what kind of doctor he would like to be, Mowery replied: "I can tell you if I went into it right now, I would go into general practice or become a pediatrician. But, I'm really trying to be open to what's going to happen, because I know when I get into medical school I'm going to see an awful lot that I haven't been exposed to and hopefully I'll find one there. I might find a better one, so I'll keep an open mind."

Stress: It's killing us!

The following is a list of activities and programs for the Stress Symposium scheduled for today in the University Center. These activities are open to the public and child care will be available for all morning events.

9:30 a.m. Registration, UAH University Center Lobby
9:30-10:40 a.m. Seminar "Stress: Separating Fact from Fiction;" Audio-visual presentation on managing stress, frustration, and anxiety, coordinated by APL/META $3.50 for lunch.
10:50-12:00 Seminar "Making Stress Work for You!" Panel discussion--PROJECT DIALOGUE Spring gathering
12:15-1:30 Panel discussion--AXIS is here!!
7:30-9:00 p.m. Special Adventure "Laughter: The Best Medicine for a Stressed Society" with Ralph Hood and Beth Thanes

Axis is here!!

Copies of UAH's literary magazine can be picked up beginning today. Copies are available in the University Center at the Information Desk in the lobby and in the AXIS office, room 103, in Madison Hall in Project ACCESS office; and, in the Humanities Building in the English Department Office.
Whatever happened to Ole Henry?

by Chris H. Jackson
staff writer

It is... have in the past. Classes are to begin SEPTEMBER 22 rather than right after Labor Day. Keep SEPTEMBER 22 in mind.

Bad weather is something that Binford has learned to put up with. The wall of the Madison Garden tornado that tore the roof and brick has worked for the last year.

The Circle 'K' Club is for you! Meetings are held every... working on cars.

Circle K ‘celebrities’ visit local nursing home

Residents of Blue Springs Manor Retirement Home were visited by the Pointer Sisters, Louise Mandrell, Brooke Shields, Fame Dancers and more award-winning stars on Thursday night.

The senior citizens and their visiting families seemed to have enjoyed the entire evening. Overall, the night was a success.

The Circle ‘K’ Club does many other volunteer functions for the needy.

Binford is also a church musician, playing the piano and bass guitar for the "Might Determined" gospel group.

If you see Henry Louis Binford somewhere around Huntsville directing traffic, you can recognize him if he’s the guy with moves similar to Mohammed Ali and Bruce Lee all rolled up into one. Please remember to stop, look and listen to what he directs you to do. Your life may depend on it and it is your life he is protecting.

Binford, 38, is a traffic director that no street light will ever replace. He has worked the Madison Pike and Wynn Drive intersection for over a year.

But the last two months I have seen two female traffic cops working his old intersection. He may have transferred because I saw him helping the ladies out the other day.

Does anyone know what ever happened to Henry Louis Binford?

This academic calendar is printed for the information of all UAH students.
Copies of the calendar have been circulated throughout the campus, but if you have failed to get a copy, be sure to keep this one for a handy reference during the coming 1986-87 year.

Please note that classes beginning with the fall quarter will start nearly three weeks later than they have in the past. Classes are to begin SEPTEMBER 22 rather than right after Labor Day. Keep SEPTEMBER 22 in mind.
BUO sponsors luncheons

Many students are taking advantage of a program being offered twice a week at the Baptist Student Center. "Lunchoncounter" is offered every Monday and Wednesday at 12:15 p.m. and is sponsored by the Baptist Student Union.

The program includes a good hot meal cooked by Major Adams (of local Baptist Church) and a variety of sacred and secular works. Video tapes, texts, lectures and simulations are used to assist students in determining their own strengths and weaknesses.

Students receive three semester credit hours or graduate credit, $194.50 for graduate credit. The cost is $146.50 for undergraduate credit and $199.50 for graduate credit.

Chi Omega plans swing-a-thon

What the girls do is ask for pledges and donations for how long they can swing. If someone pledges 50 cents per hour and a girl swings for eight hours, that person will owe $4. These donations are tax deductible and are for a worthy cause.

Be sure and look for any of the Chi Omega's wearing their colors of cardinal (red) and straw (yellow) and give your pledge or donation.

Chi Omega students will perform May 1 at Butler High School in Alabaster. On May 2, they will perform at Theodore High School and will also have performances at Wallace State Junior College in Hanceville and Thompson High School in Alabaster. On May 2, the choir will be in Mobile to perform at Theodore and Davidson High Schools.

The choir director Dr. R. Paul Crabb and the 40-voice UAH choir will begin a three-day tour that will include six performances and take them to Mobile, Ala.

The tour will be May 1-3. The choir will perform May 1 at Butler High School in Hanceville and will also have performances at Wallace State Junior College in Hanceville and Thompson High School in Alabaster. On May 2, the choir will be in Mobile to perform at Theodore and Davidson High Schools.

Dr. Crabb said the choir will include a variety of sacred and secular works. Works from well-known composers like Casals, Fisinger and Rosini will be performed.
Campus housing: An important part of student life

by L. E. Allen
staff writer

The staff at housing is probably closer to the pulse of a student's life than their professors and instructors. Housing is concerned with all aspects of the student residents' experience at UAH. They provide not only safe and secure shelter, but counseling and help on a personal basis.

The housing office is a fountain of information for the student. Their walls and bulletin boards are plastered with information on university and outside activities, and places where professional help and guidance can be found for academic as well as personal concerns.

Someone who has been around housing for a while can see improvement. Off-campus housing has been brought to a high state of maintenance compared to only a few years ago. Further improvements are presently being planned.

The maintenance crew is quick to respond to residents' problems, and carry on of their own initiative, keeping up with any necessary maintenance services that residents may be largely unaware of. Though some of the students have griped about "these people" letting themselves in, most are enjoying the benefits and comforts of their efforts. Most recently, a gentleman has been observed quietly and methodically servicing air conditioners and changing air filters in preparation for the summer months.

The University Housing office is a busy place, probably one of the busiest at UAH. The administrative staff is not only concerned with the day-to-day routine of conducting housing's business, but is also busy responding to residents. Their job is probably anything but routine.

Housing has its own program of Student Development Services under the direction of Pat Humphrey. The Campus Ministry and other spiritual organizations are active in UAH housing. Each of these areas will be covered in upcoming installments.

As this series of articles continues, hopefully every possible avenue of the UAH experience will be afforded its opportunity to be presented to the UAH community. This present portion is intended to put a spotlight on UAH Housing and its place in the UAH community. This endeavor cannot be achieved objectively by presenting only the positive aspects; of which there are many, and these too will be brought out as this series continues.

The effect of this series will hopefully be positive in affirming housing's integral position to this university and making the community aware of some of the situations with which housing is coping. This series will continue to attempt to present all points of view, in a public forum, for informational purposes, which may perhaps lead to resolution, and garner more support and understanding for housing in all of its endeavors.

Residents do not come to the housing office with complaints all the time. Many of them will come to the housing staff with personal problems where they find a receptive ear. Housing is not small enough to know each resident personally, but each member of the staff is acquainted with a good number of them.

A housing director's job is probably not the most sought-after position at any university. The responsibility brings with it cares, not only about physical assets and economic concerns, but worries about people and their well-being. Anglin, with the whole-hearted support of the housing staff, has brought marked improvements to the overall standard and condition of the university living experience. They are dedicated to providing the best effort and providing this quality and important service to UAH and its community.

NEXT WEEK: Resident Assistances Meeting. Each week a new installment will present another facet of housing and soon proceed to other University activities.

Active NMA club seeks members, business majors

by Angie Gardner
staff writer

The National Management Association, UAH's only active business club, is looking for interested students of all fields of study.

NMA is UAH's business honorary society and is listed in the student directory under the name of Collegiate Management Club. Kat Yarbrough, president, is assisted by John Barber, Vice President for Corporate Development and Brian Speer, vice president for Community Relations.

A student must take two business courses and must have a current 2.7 GPA before membership is granted.

Dr. Ben Gross, professor of management, is the faculty sponsor and Rockwell International is the corporate sponsor. Rockwell provides professional development courses for NMA members as well as volunteer as junior achievement consultants, for the business world.

Once a student becomes a member of NMA, he or she is a member for life. Lifetime dues are $15. Members are involved in community activities, projects, field trips and seminars. Members meet every other Thursday at 12 noon in the Deli Room of the University Center. Their next meeting will be May 8.

For more information, please contact John Barber at 881-2049 or Kat Yarbrough at 882-2727.

Do you know where the fire extinguishers, fire alarms and fire exits are where you work or where you go to school? How about these same emergency safeguards in your home?
Player of the Week

Harvilla named to All-District team

by Todd Kirk
sports editor

Last Wednesday, Thursday and Friday at the National Association of Intercollegiate Athletics District 27 Championships at Huntington College in Montgomery John Harvilla had rounds of 72-72-73 for a total of one-over par 217. The score put him in second place in the individual competition for the tournament, barely missing qualification for the national championships. Harvilla's biggest moment came with a hole-in-one during the tournament. He was also named to the All-District team.

Head coach Jim Krause said of the hole-in-one, "It is very rare but even more so in competition," and he went on to praise his player by saying, "John Harvilla played extremely well in the tournament."

Harvilla also earned the Player of the Week award by finishing first in the individual competition at the Point Mallard Collegiate Invitational held this past weekend. He shot a 74 in the first round and a two-under par 70 in the second round for a total of 144 for the tournament.

Iron Bowl of baseball scheduled for May 6

The Iron Bowl of college baseball will be played Tuesday, May 6, at 7 p.m. in Joe Davis Stadium. The teams playing are, of course, the Alabama Crimson Tide and the Auburn Tigers.

Auburn vs. Alabama

The following is a list of activities and programs presented in the Stress Symposium. These activities are scheduled for Thursday, May 1 at the University Center and is open to the public. Child care will be available for all morning events.

8:30-10:45 a.m. WORKSHOPS
"Identifying Your Personality Temperament = You and Stress."
Participants will learn how to profile their tendencies towards certain kinds of stress.

"Cross Cultural Revelations: Why Do Some of Us Live Longer?" A panel of international students and faculty share cultural experiences.

"Out of Control: Insights on Stress for When We Lose," by Rev. John Woodall, Pastoral Psychotherapist, The Key.

10:50-12:00 WORKSHOPS
"Issues in Stress and Family Life," Sue Barbara, M.S.W., Psychotherapist, The Key; Helina Hayle, Ph.D., Clinical Psychology, Mental Health Center; Cornelia Turnbow, M.S.S.W., Psychotherapist, The Key. "Managing our Time and Money," the UAH Alumni Affairs Office, and all locations of South Trust Bank.

Tickets may be purchased at the University Center Information Booth, the UAH Alumni Affairs Office at 885-6466 or at the UAH Alumni Affairs Office at 885-6000.

8:30-10:45 a.m. WORKSHOPS
"Identifying Your Personality Temperament = You and Stress."
Participants will learn how to profile their tendencies towards certain kinds of stress.

"Cross Cultural Revelations: Why Do Some of Us Live Longer?" A panel of international students and faculty share cultural experiences.

"Out of Control: Insights on Stress for When We Lose," by Rev. John Woodall, Pastoral Psychotherapist, The Key.

10:50-12:00 WORKSHOPS
"Issues in Stress and Family Life," Sue Barbara, M.S.W., Psychotherapist, The Key; Helina Hayle, Ph.D., Clinical Psychology, Mental Health Center; Cornelia Turnbow, M.S.S.W., Psychotherapist, The Key. "Managing our Time and Money," the UAH Alumni Affairs Office, and all locations of South Trust Bank.

Tickets may be purchased at the University Center Information Booth, the UAH Alumni Affairs Office at 885-6466 or at the UAH Alumni Affairs Office at 885-6000.

Iron Bowl of baseball scheduled for May 6

The Iron Bowl of college baseball will be played Tuesday, May 6, at 7 p.m. in Joe Davis Stadium. The teams playing are, of course, the Alabama Crimson Tide and the Auburn Tigers.

Auburn vs. Alabama

The following is a list of activities and programs presented in the Stress Symposium. These activities are scheduled for Thursday, May 1 at the University Center and is open to the public. Child care will be available for all morning events.

Soccer team is ready for action

by Barry Hill
for The Exponent

The UAH soccer team is ready for action. The team finished its spring training this past weekend by winning the Birmingham Indoor Soccer Tournament. The Chargers were one of five schools competing in the tournament. Along with the Chargers were UAB, Birmingham Southern, Berry College, and Tennessee Wesleyan.

The Chargers won all five games to take the tournament defeating Berry 4-2, UAB 5-1, Tennessee Wesleyan 9-2, Birmingham Southern 7-0 and Birmingham Southern again in the Championship game 2-1.

The MVP of the tournament went to UAH's Emmanuel Awaitam for his outstanding play in the five matches.

The Chargers were 4-2 before playing in the Birmingham tournament and these games were played in the tournament at Berry College in Georgia on April 12. The Chargers' five straight victories in Birmingham improved their spring record to 11-2.

If spring training is any indication of what will happen in regular season play, the UAH soccer fans have a lot to look for in the upcoming season.

Harvilla leads golf team in district championships

by Todd Kirk
sports editor

The UAH golf team had two very respectable showings in its final matches of the year this past week. Last Wednesday, Thursday and Friday the team travelled to Montgomery to compete in the District 27 Championships and came in third behind Huntingdon College and the University of West Florida.

John Harvilla led the team with a total of 27 and had a hole-in-one during the competition.

This past weekend the team competed in the Point Mallard Collegiate Invitational and again finished third. Harvilla placed first among individual competitors with rounds of 74 and 70 for a 144 total.

"The team played far better than I expected. We were in position all the way to qualify for the nationals, but it just didn't happen," said head coach Jim Krause, about his team's performance in Montgomery.

Tennis teams finish season by winning bragging rights

by Barry Hill
for The Exponent

The UAH men’s and women’s tennis teams finished their seasons April 22 with a match against crosstown rival Alabama A&M. Both the men and women won bragging rights as far as tennis goes because they swept the Bulldogs for the second time this year.

The men defeated Alabama A&M by a score of 7-2, which is better than the 6-3 victory they served the Bulldogs earlier in the season. The Chargers were led by number one seed Steve Williams and number two seed Jeff Roberts. Also picking up victories for the Chargers were Mark Judge, Tim Phillips and Chuck Higgins.

The women won the second match of the year against the Bulldogs by a score of 7-0, which also bettered their earlier match-up where they won 5-4. Picking up victories for the Lady Chargers were Toy McLemore, Malinda Inglis, Renee Hinkle, Jennifer Burgess and Erika Haist.

The UAH tennis program is one that is just getting off the ground, but with victories like these, it will not stay on the ground for long. The tennis program is in its first year at NCAA level of competition and is growing fast. With the help of everyone involved it can become a major sport for the UAH Chargers.

If you are interested, please contact Nancy Parker at the Exponent Office at 895-6090.
Stress symposium slated for tonight

Laughter: The Best Medicine for a Stressed Society will be presented in the University Center Exhibit Hall tonight at 7:30 p.m.

The program is being sponsored by the SGA Symposium and Lecture Series, the University Counseling Advocacy Network, and the Alumni Association.

The two featured speakers will be Ralph Hood and Beth Thames. Ralph Hood is a renowned speaker whose humorous and inspiring platform performances have taken him from Las Vegas to Miami. He will relate flying to handling the stresses of life in his uniquely humorous style. Beth Thames is a regular contributor to National Public Radio's All Things Considered and to The New York Times. A part-time social worker with UAH medical school and co-founder of the city's shelter for battered women, Thames has been writing for about 20 years.

Thames' topics range from the eccentricities of cats she has known to the charm and elegance of regional accents. Her words are good medicine for us all—"In spite of misery, there really is joy in life, there really is hope, it's good to laugh."

This evening of entertainment is free. It is part of a series of programs, activities, and adventures offered all day April 30 and May 1. Call the University Center for details.
