HUNTSVILLE, ALABAMA

On behalf of the University of Alabama in Huntsville Soccer Team and the University, I would like to welcome you to the 1st UAH Soccer Tournament. In its first year of intercollegiate competition the UAH Soccer Team lost only one game, the season opener, and went undefeated the rest of the year. The Chargers rolled over such outstanding teams as Murray State University, Athens College, University of the South, Bryan College, and St. Bernard College, and proved that they were indeed a Southern soccer power.

For you who are seeing soccer for the first time in Huntsville, I hope you will enjoy the games and that you will continue to support the UAH team as they represent the university and the community in the sphere of intercollegiate competition.

INTERNATIONAL ATOMS

The International Atoms Soccer Team is a group of students from Oakwood College who hail from two African states, Liberia and Nigeria, the West Indies, Bermuda and the United States. The club members were occasionally engaged in other soccer matches in their home towns before migrating to the U. S. A. However, most of these students met here at Oakwood for the first time. They are playing soccer together, each representing his nationality—henceforth the name International Atoms. They strive to maintain good physical fitness and an enjoyable relationship between their fellowmen. They are also interested in promoting soccer here on Oakwood's campus while trying to incite a new sensation for entertainment.

It should be noted, however, that this club has recently been organized (four weeks) and has just been engaged in strenuous practice to achieve their goal.
