Green appointed interim Exponent editor

by Jane M. Dudley
for the Exponent

Cynthia Green, who was poetry editor of the 1989-90 edition of "Shadows," has become editor of the Exponent. Upon the resignation of the former editor, the Publications Board appointed her to serve until the fall of 1990, at which time applications will be accepted for the position of editor for the 1990-91 school year.

Ms. Green is a junior studying communications. Though the term has just begun, she says that the communications course she is taking now, "Mass Media," is already one of the most interesting courses she has taken. "It gives such a broad perspective of why we write what we write and think what we think," she says.

As for the Exponent, she says, "I want to broaden the coverage of liberal arts, to dig a little bit, so the UAH community itself will start combining the sciences with the liberal arts. They're so segregated right now. I'd like to work toward the goal of open communication between the two... Without engineers we wouldn't progress, but without the liberal arts we wouldn't understand the engineers."

"I hope the paper can serve as an informative mediator between opposing opinions and opposing 'religions,' as such. Maybe we can quit a little of the bickering between the colleges," she says.

She also feels that much of the progress brought about by engineers is actually carried out by those who have not pursued education beyond high school. This can and does create problems. The liberal arts, she believes, can serve as a buffer between these two groups.

For now, some stories she is planning to cover are the abortion issue, on which UAH will be holding a debate April 24 at 8 p.m., and on Earth Day, coming up on April 22. Of course, the controversial dorm to be built in the summer is of interest to students (whether to live in or to read about).

Some time in the future, Green says, she would like to work on a major magazine, perhaps editing on a news magazine. For now, she is busy raising three children, "I'm not one of your younger students," and working part time as a clerk for the General Motors chairman Roger Smith.

Cynthia Green says she will probably apply in the fall to be the editor again, "I think I'm really going to enjoy this," she says.

Smith visits UAH to donate aerophysics equipment

General Motors chairman Roger Smith presented the firing keys for a unique aerophysics facility to UAH during a morning ceremony Wednesday, March 28.

Smith made the presentation to UAH President Louis Padulo. Delco Electronic Corporation, a subsidiary of GM Hughes Electronics, is donating the assets of its aerophysics facility in Santa Barbara, California, to UAH. Delco's 1,000-foot-long facility has provided major support for nearly three decades to the U.S. Department of Defense in the development of ballistic missile defense and aerospace systems.

In a brief speech Smith described American businesses and universities as "partners in innovation and development of ballistic missile defense systems, tactical missile systems, and strategic offensive systems. It can assist in the development of armor for spacecraft against meteoroids and other space debris."

Smith said that in addition to the equipment given to UAH, GM would donate about $35 million to various colleges and universities, mostly in support of scientific and engineering activities. He added that GM would continue to page 2.
The AIAA Space Program and Technologies Conference will be held in Huntsville, Alabama, September 25-27, 1990 at the Von Braun Civic Center. There will be two student paper sessions entitled "New Scientists and Engineers: Contribution to Space Technology" and "New Scientists and Engineers: Research Initiatives". The sessions were organized by Dr. William Vaughan, Research Professor and Director, Research Institute. The following students at UAH have papers selected for their presentation in one or the other of these two sessions:

Bill Carswell (with Dr. Maria Zugrav and Dr. Franz Rosenberger), "Physical Vapor Transport of Organic Solids in Microgravity", Center for Microgravity and Materials Research

John Cashon and David Lehner (with Dr. Mark Bower and Dr. John Gilbert), "Embedded Fiber Optic Strain Sensors in a Beam of Composite Materials: An Investigation of Structural Monitors", Department of Mechanical Engineering.

Jeffery Randorf, "Rotatable Accelerometer Mounting Adapter Prototype", Department of Mechanical Engineering.

Dora Gonzalez, "Magnetic Insulation for Plasma Propulsion Devices", Department of Mechanical Engineering.

Michael Gibson, (with Dr Donnie Ford and John Rogers), "Exploring Domain Limiting Techniques in Space Station Resource Allocation", Johnson Research Center.

T.L. Rhoads (with Dr. A.T. Mikell, Dr. S.M. Hayden and Mr. Melvin Kilgore), "Bacteriocidal Efficacy of Ultrasonication", Consortium for Space Life Sciences.

Lecture series addressing ethical questions of space exploration

"Ethical Dimensions of Space Science and Space Technology" is the theme for a series of lectures and public discussions to be held here during April. The lecture series is designed to provide a forum for the discussion of ethical questions raised by the exploration and development of space.

Dr. James P. Sterba will address "Strategic Defense and Social Justice" at 7:30 p.m., April 10, in the University Center Exhibit Hall. Sterba's lecture will note the significant investment on the part of the U.S. in the development of a space-based defensive shield against nuclear weapons.

"In Search of Brave New Worlds: Expanding the Human Presence in Space" will be the topic of Dr. Ray Williamson, Senior Associate for the Office of Technology Assessment and project director for the Advanced Space Transportation Technologies. He will examine the space frontier as compared to frontiers of the past and whether widely shared cultural values can be used to justify the exploration and development of the space frontier. Williamson's lecture will begin at 7:30 p.m., April 24, in the University Center Exhibit Hall.

The lecture series is sponsored by the UAH Philosophy Program; the GTE Foundation; Sigma XI, the Scientific Research Society; and the Daedalus XXI Humanities Project. The lecture series is supported by a generous grant from the GTE Foundation and by a grant from the Alabama Humanities Foundation, a state program of the National Endowment for the Humanities.

Smith

continued from page 1

also spend about $3 million for research and development projects at 35 colleges and universities, while donating more than $20 million worth of automotive and scientific equipment to academic institutions all over the U.S.

Worth saving.

TAKE CARE OF YOUR LUNGS.
THEY'RE ONLY HUMAN.

AT&T
The right choice.
Yost appointed Provost and VP of Academic Affairs

Dr. John K. Yost, Vice Chancellor for Research and Dean of Graduate Studies at the University of Nebraska-Lincoln (UNL), has been appointed Provost and Vice President for Academic Affairs at UAH by Dr. Padulo.

Dr. Yost has served in his present position since 1985. He has been a member of the UNL faculty since 1967 when he began as an assistant professor of history following two years on the faculty of the University of Arizona. Dr. Yost will succeed Dr. Elmer Anderson, who served as interim Vice President for Academic Affairs and Provost since July 1989. Dr. Yost begins his duties August 1.

Born in Pullman, Washington, Yost earned his bachelor's degree in history from Washington State University graduating with highest honors in 1958. He furthered his education with a master's degree from Stanford University and his Ph.D at Duke in 1965. He also holds a master's degree in divinity from Harvard University. He and his wife, Linda, have two sons, Jonathan and Jeffrey.

Dr. John K. Yost

Editorial

"...recycling is something everyone needs..."

RCY 099 really isn’t a new course at UAH, but the way some people are using the UAH Recycling Program containers, maybe it should be added as a required course for graduation. After all, recycling is something everyone need to know how to do and in the future, recycling is something everyone is going to have to do anyway.

Now, let’s look at some of the problems we are having with the Recycling Program containers and how you can help us correct these problems. There are currently over 50 labeled barrels and over 120 labeled cardboard boxes for collecting aluminum cans located all over the campus. These containers are all clearly marked, “Aluminum Result: Why?” However, some people either can’t read or they simply don’t care. These people put their candy wrappers, potato chip bags, chewing gum, glass bottles, coffee cups, fast food cups, lunch bags, and other trash in the containers. Now really folks, the Program is staffed only by one student working 20 hours per week and myself, and we could certainly use some help in stopping such nonsense. We have enough problems just trying to collect the cans before they “disappear” and keeping the barrels and boxes clean from spilled drink syrup. We sure would appreciate your cooperation and assistance in eliminating these contaminating items from the aluminum can container. We have tried in most cases to put the barrels and boxes in convenient locations to make it easy for you to participate, and most of the containers are located only a few feet, and in some cases, only a few inches, from a regular trash can. So please put your aluminum cans in the marked containers and put your regular trash in regular trash cans. Also, if you see someone contaminating the containers, complain to them for us and maybe they will do better next time.

We also have over 50 barrels labeled “White Paper Only” and over 20 labeled “Computer Paper Only” located all over the campus. We are also having some similar problems with contamination in these barrels. We find candy wrappers, coffee filters (complete with coffee grounds), colored paper, etc. mixed in with the white and computer paper. This makes it more difficult to recycle the paper without spending a great deal of unnecessary time hand-sorting the paper before it can be recycled. White paper is just that; it includes white bond, Xerox paper, white notebook paper, computer paper, and printed materials on these types of paper. White paper does not include junk mail, envelopes, colored paper, stationery (glossy finish), newspaper, or magazines, so please do not put these non-white paper materials in the white paper barrels.

If you have newspapers, magazines, books, colored paper, or sulfite paper, hold on to them until you have a nice stack or box full and then either place them neatly by one of our barrels or bring them over to the Johnson Research Center and put them in the large green barrel chained to the fence at the east end of the building (next to Central Receiving). Your cooperation and assistance will be greatly appreciated.

By the way, if you are really interested in recycling or if you are a member of a campus organization in need of a community service project, the UAH Recycling Program could really use some volunteer help. Call Dr. Eley at 895-6361 for more information.

by Dr. Michael H. Eley, Associate Professor & UAH Waste and Recycling Coordinator

“Huntsville has taken recycling one step farther.”

During March I had the honor to speak at two news conference about a program that will place money into the pockets of Alabama residents and also improve our environment.

On March 24, I visited Mobile Paperboard which is the oldest working paper mill in the state. They just bought a paper recycling machine from Scott Paper Company for one silver dollar. Then they spent $10 million to refurbish the machine.

With this machine, Mobile Paperboard will be doubling the amount of wastepaper they purchase from local and out-of-town businesses, service organizations, and private citizens. The paper will be broken down to a “mush-like” substance, re-mixed, and laid out on a conveyor belt for a dehydration process that turns it into paperboard. The paperboard then is cut, rolled and shipped to other companies that use it to make, for example, shoe boxes, cereal boxes, and the backings of notepads. As a result of this expansion, the company will be doubling its production of paperboard to a total of 400 tons per day.

Huntsville has taken recycling one step farther. Less than one week later, local citizens started a voluntary curbside recycling program to service about 50,000 homes. The program will begin this April and will be the first such program in Alabama and one of the 10 largest in the nation. There also is a permanent program for proper disposal of harmful household waste to begin this year in Huntsville. Materials that cannot be recycled will be disposed of at a permitted waste facility.

These two recycling programs will help our environment and also will put money back into our economy.
Sigma Chi Gamma

The brothers of Sigma Chi Gamma would like to thank everyone who helped make the rush party of last Friday a success. We would like to thank the rush party that we have coming up on Saturday, and we hope to see everyone out again.

Congratulations are in order to our new officers. Elections were held during the last week of winter quarter. Our new officers are: Patrick Curry-Counsel, Matt Youngkin-Pro- Counsel, Sean Platt-Quaestor, Scott Dickinson-Magister, William Powell-Announcer, Dennis Demirjian-Social Chairman, Chris "Mickey" Jones-Rush Chairman, and Nathan Johnson-Scholarship Chairman. We would like to wish them the best of luck during their terms of office.

We DID IT! Sigma Chi Gamma earned the highest active GPA during winter quarter, 2.77. The GPA is actually higher than that, since several grades not turned in on time by professors were recorded as "F's". We would like to encourage Tony Montoya to change her policy regarding grading, since it is in the best interest of all greek organizations to record the highest GPA's possible, and it is not fair to penalize the Greeks when the faculty do.

We would like to announce the first members of our spring pledge class, Brandt, Jason Jones, and Brody Fredrickson. We would like to welcome them all and hope that they enjoy brotherhood in Sigma Chi Gamma.

Sigma Chi Gamma thought for the week: Steal your face!!

Pi Kappa Alpha

The brothers of the Theta Pi chapter of Pi Kappa Alpha are proud to announce the donation of over five thousand dollars to the Cerebral Palsy from the latest penny drop in the University Center. We would like to thank everyone who participated last Saturday night at our rush party for another success. The 4th Annual Miss Greek pageant was sponsored by Pi Kappa Alpha, and will be held May 5. We would like to encourage all Greek and Greek sponsored ladies to participate. For an application or information please contact Joseph Hallmark or Andy Mote.

Alpha Tau Omega

The brothers of the Alpha Tau Omega chapter would like to invite everyone to our Spring Rush parties that will be held on April 7, and April 14. They will be held at the ATC house, so don't miss out on the fun. Thanks to all of those who participated in the penny drop last quarter; it was a huge success. The winner will be announced in next week's Exponent along with what charity they will donate the money to. During Spring Break some of the Taus went on a roadtrip to Florida. It was a total blast, and everyone had a great time. Taus, good luck in school this quarter and get ready for the Viking Party.

Circle K

The UAH chapter of Circle K International recently took home nearly every award offered at the 32nd Annual Alabama District Convention. Fourteen members of the club attended the convention in Mobile on March 2-4. With over thirty clubs in the Alabama District, including the University of Alabama in Tuscaloosa and Auburn University, UAH's club had a lot of competition. Several honors were given to individuals in the club, Chris Lynch received the Governor's Cup for outstanding leadership for her position of Treasurer on the District past this year. For outstanding work dealing with the finances of the club, Lynch went on to win the Treasurer Award. For the second year in a row, UAH received the Steve A. Means Most Distinguished President, and David E. Womack Administration Award for Vice-President for Jamie Cornelison and Dai Chu respectively. Son Nguyen, past president of the UAH club, was inducted into the Society of Distinguished Collegians. To qualify for this honorary society, one must complete 300 hours of service to the community and maintain a 3.0 GPA. Chuck McEniry was elected as Lieutenant Governor to the Alabama District Board. Because UAH sent fourteen members from their CKI club to Mobile, they received both the Man-Mileage Award and Percent Attendance Award. UAH placed third in the Scrapbook Competition, which was awarded the Service Award for the Cerebral Palsy Benefit Dance that raised over $1500 for UCP. The greatest honor received for UAH was the Club Achievement Award - 1st Place. This is awarded to the club that has performed the greatest amount of service to the community over the past year. If any UAH student is interested in joining the Circle K club, he or she can attend any of their meetings on Tuesday nights at 8:15 P.M. in the University Center 126 B & C. For more information, call Jamie Cornelison at 776-2974.

Phi Beta Lambda

Phi Beta Lambda is a national organization for college students interested in becoming more successful in the business world. Join Phi Beta Lambda now and: Learn about how you can increase the money expected of you in the workplace, meet representatives of the business community, discover the secret of being able to talk confidently with a prospective employer, experience opportunities to test your business skills at state and national competitions, attend leadership training conferences with students from across the country, and feel the satisfaction of belonging to a group that is not afraid to have fun as it prepares for the world after school.

Now is the time to get involved with Phi Beta Lambda! April 9-13 Phi Beta Lambda will be having a membership drive. Throughout the week there will be someone stationed in Morton Hall on the third floor to provide interested persons with club information and a membership application. Also in April after the membership drive, new club officers will be elected. Get involved; be an officer; become a leader! For more information, contact Sandra Malone at 837-6555.

Le Cercle Francais

Le Cercle Francais, the UAH French club, will meet tonight at 7:30 p.m. at the Noojin House. Dr. White is scheduled to lecture on the French Revolution. Everyone is invited to attend.

Southern Students For Choice

Southern Students for Choice will be holding meeting on Wednesday of this week's Exponent along with what charity they will donate the money to. The meeting will be held on April 9th at 8:15. Please meet in the lobby of the U.C. The legislative sessions are coming to an end. We need to get many letters out to the senate. We will be working on activities planned for Spring fest. Everyone is welcome to attend! Be a voice for choice.

Slovo-Slavic Club

The Slovo-Slavic club will be holding a meeting in room 106 (the SGA office) of the University Center on April 4th at 6:00 p.m. All UAH students and faculty interested in Russian and Slavic culture are invited to attend.

UAH Women's Club

The University of Alabama in Huntsville Women's Club cordially invites you to attend a luncheon honoring Chancellor Phillip E. Austin, Thursday, April 12, 1990. at 12:15 p.m. University Center Exhibit Hall Tickets are available at the Information Desk. $7 for students and Information Desk. $7 for students and $8 for non-students.

Board of Registrars

The Madison County Board of Registrars will be on campus Wednesday, April 11th, from 10 a.m. to 1 p.m. in the University Center lobby. All eligible persons who desire to register to vote may do so at this time. Qualifications for registration are: citizen of the United States, 18 years of age or older, resident of Madison County, Alabama, and free of conviction of a felony. All persons applying for voter registration will need to know their Social Security Number and will need the names, addresses and phone numbers of two persons who live in Madison County, Alabama (other than those living at the same address as the one registering) who can confirm they live in the county.
Faculty Senate

Faculty Senate Meeting No. 287 will be held on Thursday, April 5, 1990, at 12:30 p.m. in room 100 of the Nursing Building.

ISO

The Indian Students Organization welcomes everyone back to the Spring Quarter 1990. We would like to invite everyone for our first foreign language film (Hindi): TRISHUL— to be shown on April 6 at 8 p.m. at the UC Deli, Room 146. This is on the big screen TV. Anyone needing further information call Mantu at 830-5305.

FMA

GOOD NEWS EVERYONE!! Spring quarter has just begun and now is the perfect opportunity for you to join the Financial Management Association! Anyone is welcome to join as the FMA is not just an organization for finance majors. FMA's purpose is to assist in the professional, educational, and social development of college students interested in finance, management, banking, and investments. FMA provides the opportunity to make professional contact in these fields because FMA provides interaction between business executives, faculty, and students of business. If you are interested contact Toni Morgan, assistant director of the Career Planning and Placement Office, Kim Morris, also from the CPPRO, and Sandra Malone, president of Phi Beta Lambda.

Lecture Series

The Ethical Dimensions of Space Science and Space Technology Lecture Series is holding its second edition of their three part series on Tuesday, April 10 in the UC Exhibit hall at 7:30.

Strategic Defense and Social Justice is the topic for Professor James Serber a professor of philosophy at Notre Dame University.

This three part series is sponsored by the UAH Philosophy Department, the GTE Foundation, The Alabama Humanities Foundation, and other associated organizations.

The third part of the series will take place on April 24, and is entitled The Search of Brave New Worlds: Expanding the Human Presence in Space.

The series is open to all students and the general public interested parties are encouraged to attend and participate. For more information call the Philosophy Dept. at 895-6555.

AI

Amnesty International will hold a forum on the policy of Apartheid in Southern Africa at their next meeting Thursday night at 8:15 p.m. Guest speaker will be David Molapo, a South African minister and opponent of Apartheid. For more information call Denise at 895-6572.

Pol. Science Club

The Political Science Club will have its first meeting of the Spring term this Wednesday, April 4th, at 12:15 p.m. in Morton Hall Room 238. The organization is open to all students interested in government, politics and public policy. Past events which the club has sponsored have included featured speakers, political forums, a faculty-student picnic and a trip to Atlanta to visit the Carter Presidential Library. All interested persons are encouraged to attend as plans for the rest of the school year will be discussed. For more information contact the Political Science office in Morton Hall, Room 250.

Win the computer you need to succeed in the real world and a chance to use it there.

It's easy. Just try our Real World Demo on a Macintosh® computer to enter Apple's Real World Sweepstakes. If you're one of 14 Grand Prize winners, you'll get to spend a week this summer at the organization of your choice listed below, where you'll see Macintosh computers hard at work. And when you get home, you can use your own new Macintosh SE/30 to write your resume and follow-up letters. There will also be 20 First Prize winners who will receive Macintosh SE computers and 1,000 Second Prize winners who will get Apple T-shirts.

If you're one of 14 Grand Prize winners, you'll be seeing the world sooner than you think. You really can't lose if you come in and get your hands on a Macintosh today! Because once you do, you'll see how easy it is to use and how much one could do for you now.

You'll appreciate the value of a Macintosh computer after you leave campus and head out into the real world, too. But don't take our word for it. Come in and try a Macintosh and see for yourself. And if you win the Grand Prize, you'll be seeing the real world sooner than you think.

Enter Apple's Real World Sweepstakes and you could win a week at one of these leading organizations and a Macintosh computer.

Essay contest open to all UAH undergraduate students

An essay contest open to all UAH undergraduate students by the College of Science, the undergraduates will be held as part of Honors Program, this contest is designed to encourage students to reflect on the value of a broad general education.

The overall subject is the value of a broad general education for students of all disciplines, with the following twist:

a) Students who major or plan to major in one of the science or engineering disciplines should write on the importance of learning in the humanities and social sciences for a citizen of the 21st century.

b) Students who major or plan to major in one of the liberal arts, nursing, or business should write on the importance of learning in science and technology for a citizen of the 21st century.

Any currently enrolled UAH undergraduate may submit an essay which should be three to five typed, double-spaced pages and should be turned in to any Dean's office no later than April 12, 1990.

Essays will be judged on the ideas presented, how well the ideas are developed and defended, and clarity and style of presentation. All entries will be judged by a three member panel consisting of: Dr. Richard Gerberding (History); Dr. Robert Lawton (Biological Sciences); and Dr. Jerry Mebane (English).

A prize of $50 will be awarded for the best essay in each of the categories. Judges reserve the right not to award a prize if no entry meets expected quality standards, based on the criteria stated. For more information, contact Dr. Hugh Comfort at 895-6663 or Dr. Ann Boucher at 895-6450.

Hogan to give free seminar on depression

"Depression is a poorly understood illness," according to Deborah Morgan, M.D., assistant professor of psychiatry at the UAH School of Primary Medical Care. "Part of the confusion lies in the fact that while depression can be part of a normal mood state, it can also be a serious medical illness which is very amenable to treatment."

Dr. Hogan will give a free public seminar on "Depression" on Tuesday evening, April 17, at 7:30 p.m. in the CSC Lecture Hall. "Depression is a result of dysfunction in the brain," she observes. "Medication is extremely helpful in returning the functioning of the brain to normal."

"Mood disorders are extremely common," Dr. Hogan notes. "The lifetime expectancy of developing depression is approximately 20 percent for women and 10 percent for men. It is estimated that only 20-25 percent of those with major depression receive treatment. In the seminar, we'll talk about the difference between depression as a medical illness and depression as a normal mood state that everyone experiences occasionally, and the symptoms of each."

Dr. Hogan's seminar on "Depression" is part of the PRESCRIPTION FOR HEALTH free public lecture series presented monthly by the UAH School of Primary Medical Care. The seminars are held in the UAH Clinical Science Center Lecture Hall, at Governors Drive and Gallatin Street across from Huntsville Hospital. The parking lot is entered from Gallatin Street. Please phone the UAH School of Primary Medical Care Communications Office, 551-4424, for further information.

Offbeat comic creation transfers well to silver screen

by Lawrence F. Specker
features editor

About four years ago, two comic artist named Eastman and Laird created a monster. More accurately, they created a whole cast of monsters, centered around four in particular. Displaying an whimsical irreverence which was to become a hallmark of their production, they named their creations Leonardo, Donatello, Michelangelo, and Raphael. The Teenage Mutant Ninja Turtles.

The name at once satirized every stock comic-book hero in existence: Many heroes were young because many comic readers were young. Many, like Marvel’s X-Men, were mutants. Many were gifted with mystical martial arts powers. Many were animals. The turtles were all of the above, and the Eastman-Laird team’s tongue-in-cheek approach was a breath of fresh air. Strangely enough, the turtles had staying power: the concept was whimsical but the execution was gritty, often dark. The turtles lived in a violent and confused world. They reacted realistically, and developed characters more three-dimensional and believable than “serious” comic heroes.

In spite of this often confused duality, or because of it, the independently published, black and white comic thrived. Like the turtles themselves, the comic became an underground success and then burst upon the world at large. Shedding the dark, bloody side of their style for a gloss of California attitude, the Turtles became the darlings of the grade-school set. Through merchandising and animation they became the G.I. Joes of the late eighties.

The movie was inevitable, especially now that putting comic-book heroes on the big screen has been found to be a charmingly profitable activity. If Batman, Captain America, and Dick Tracy can do it, why not the Teenage Mutant Ninja Turtles? Now that the movie exists, the only question is whether or not the Turtles can entertain a college-age brain. The answer is yes. Seeing this movie now is like seeing Disney twelve or fifteen years ago. The feeling is the same. Furthermore, it is a genuine pleasure to see a movie where the harshest language is the occasional “damn” and the action stays within the limits, however bizarre those limits might be. The movie makes the audience laugh, clap, cheer, and gasp in fear, reactions most “serious” movies never inspire. It is pleasing to see the Turtles continuing their satirical, subversive course of action.

If it is nothing else, “Teenage Mutant Ninja Turtles” is certainly the best martial-arts movie ever shown in this country. Cowabunga!

Huntsville Museum of Art planning several spring exhibits

by Eric L. Schlegal

features reporter

The Huntsville Museum of Art has several exciting exhibitions planned for March, April and May. The exhibits vary from the simple and charming work of children to the surrealism of Emily Wilson. If you appreciate art be sure to check out all the exhibits. The museum is open on Tuesdays 10 am - 9 pm, on Wednesdays through Fridays 10 am - 5 pm, on Saturdays 9 am - 5 pm and on Sundays 1-5 pm. The museum is closed on Mondays. It is located in the VBCC. The following is the museum's intended spring calendar.

March 11-April 22: The first show on the schedule is "YAM 90: Exhibition for Youth Art Month". The third annual event is being promoted by the National Art Education Association. The artists range from kindergarten to 12th grade students from Huntsville, Madison County, Decatur and Scottsboro schools. The show includes the blue ribbon finalists in the Visual Arts Achievement Program of the Alabama State Council on the Arts.

May 6-June 17: Three exhibitions are planned during this period. The first show is "O, Appalachia: Artists of the Southern Mountains." The Huntington Museum of Art, West Virginia organized this exhibit of Appalachian folk art, which includes quilts, baskets, bowls, knives, carved wood figures ("critters") and paintings. Works by more than 20 artists will be on display. These artisans find their influences in history, religion, mythology and oral traditions.

May 11-13: Don't forget the annual festival of the arts, Panoply 1990. The museum will have a tent set up in Big Spring Park. The tent will be open on Friday 6-8 pm, on Saturday 10 am - 8 pm and on Sunday 1-6 pm. Hands-on art activities are also planned.

To fully appreciate the exhibits visitors may want to attend tours. The tours are conducted by a museum docent and begin at 2 pm at the reception desk. A tour for "Stritched from the Soul" is scheduled for April 22, the final day of the slave quilt exhibit. Continued to page 12.
THE ASSOCIATION FOR CAMPUS ENTERTAINMENT
is now accepting applications for 1990-91

All applicants must be enrolled at UAH for three of the upcoming four terms, and work year-round. Directors must maintain a minimum GPA of 3.0, attend weekly meetings, and abide by the policy and procedure of A.C.E. and the University. Terms last from June 1, 1990 through May 31, 1991. Accepted candidates must attend a mandatory orientation session and begin a month-long training period in May 1990.

Applications must be picked up at the University Center Information Desk or in the A.C.E. office, room 100 of the University Center. If you have questions about any of the positions, contact Brian Collins, A.C.E. President, at 89S-M28.

DEADLINE FOR ALL APPLICATIONS IS 5:00 p.m., FRIDAY, APRIL 13.

The following positions are available and have a salary of $120.00 a month:

CABARET DIRECTOR: The Cabaret Series recently launched Mom’s Coffehouse, which presents new entertainers each week. In the past, Cabaret has also presented other forms of live entertainment and produced concerts such as Hoodoo Gurus and others. The position requires a dedicated individual who enjoys working in the field of contemporary entertainment.

FILM AND VIDEO DIRECTOR: The Film Series provides a wide variety of films for the student body on a regular basis and organizes large events such as outdoor movies, free food nights, and theatre buyouts. The position requires a creative individual who can program events that appeal to a wide variety of people.

LECTURES AND SYMPOSIUM DIRECTOR: The Lecture Series presents a wide variety of speakers, from educational and serious issues, such as the upcoming debate between Phyllis Schlafly and Sarah Weddington, to popular entertainers such as Mr. Sulu from Star Trek, George Takei.

PERFORMING ARTS DIRECTOR: University Playhouse presents a wide variety of plays throughout the year. As Performing Arts Director, you will be responsible for producing these plays from auditions through the final curtain. This position requires some theatre experience and extreme devotion.

PUBLICITY DIRECTOR: The Publicity Director coordinates promotional support for all activities presented by A.C.E. A wide variety of advertising mediums are used, including radio, cablevision, direct mail, newspapers, and flyers. This position requires an energetic individual with new ideas.

SPECIAL EVENTS DIRECTOR: Traditionally, this position supervises the planning and organization of Fall Fest, Homecoming, and Spring Fest, while planning several smaller events throughout the year. However, Special Events covers a wide variety of events and requires an individual with good planning and organization skills, as well as ideas for new activities to present for the student body.

Additionally, A.C.E. is always looking for volunteer members. If you are not interested in a Director’s position, but want to get involved in campus events, please submit an application and note that you are applying for a volunteer position.

The protests in France and was banned from performance for years. Eventually the king intervened and allowed it to be publicly performed, at which time the comedy triumphed.

Opening in the Octagon, April 18 through July 15, is George Bernard Shaw's strongest social satire, Major Barbara. The play pits a tough-minded idealist against an equally tough-minded realist in a battle of wit and will over the issues of poverty, philanthropy, and moral responsibility. Barbara Undershaw, a member of the Salvation Army, agrees to visit her father's munitions factory if he will, in turn, visit her Salvation Army shelter. Shaw deliciously turns the art of repartee into a dangerous weapon, exploring the contradictions of a society in which moral purity collides with material need.

Tickets range in price from $15 to $25 and are available by contacting the ASF Box Office at (205) 277-BARD. Special discount rates are available to senior citizens, students, and military personnel. Group rates are also available. ASF Box Office hours are Tuesday-Sunday, 10 am to 6 pm and until 9 pm on performance nights. For further information on performance times and dates for Tartuffe and Major Barbara, call (205) 277-BARD. Tickets may also be purchased through FASTIX, 1-800-277-1700 or by visiting any FASTIX outlet.

THIS WEEK "AT THE MOVIES"

YAM tours are planned for April 1, 8, and 15. Also, on Sunday, May 20 at 2 pm Martha Stamn Connel, guest curator, will conduct a tour/discussion of the "Contemporary Works in Wood" and collecting wood objects in general.

EATING RIGHT CAN HELP REDUCE THE RISK OF CANCER.

It can also help you reduce your weight.

And since a 12 year study shows that being 40% or more overweight puts you at high risk, it makes sense to follow these guidelines for healthy living!

Eat plenty of fruits and vegetables rich in vitamins A and C—oranges, cantaloupe, strawberries, peaches, apricots, broccoli, cauliflower, brussel sprouts, cabbage. Eat a high-fiber, low-fat diet that includes whole-grain breads and cereals such as oatmeal, bran and wheat. Eat lean meats, fish, skinned poultry and low-fat dairy products. Drink alcoholic beverages only in moderation.

For more information, call 1-800-ACS-2345.

Tennis team gets long-awaited victory against DuPage

The UAH men’s tennis team gained a long awaited win last Friday as they defeated DuPage Junior College of Illinois. The Chargers triumphed by a score of 7-2, winning all three of their doubles matches and four singles matches.

The doubles matches were played first for fear of bad weather pushing the match indoors. At the number one doubles position for UAH, Darren Otten and Milo Cameron defeated Brad Purper and Aaron Mascarella of DuPage 6-3, 7-5. Don Cameron and Lloyd Kluendorf won the second doubles contest 6-3, 6-2, while Kevin Bice and Herb Burton won at number three 6-0, 6-4.

In singles, Darren Otten defeated former teammate Brad Purper of DuPage, from which Otten recently transferred. Their score was 6-3, 7-5. Milo Cameron defeated James Koop 6-4, 6-3 at number two. The two other singles matches claimed by the Chargers were in the number three and five positions, won by, respectively, Don Cameron 6-0, 6-4, and Kevin Bice 6-1, 6-4.

Kathy Herrell, who witnessed the entire match, commented at its conclusion, “I feel this could be the turning point of our season.”

The UAH women’s tennis team did not play their scheduled matches last Friday and Saturday due to weather conditions. The women did travel to the University of North Alabama last Wednesday and defeated two players, Sybil Petersen and Tracy Turverbile, won impressive matches against the Lady Lions. The Lady Chargers have been playing without number one seed Kelly Flowers for several weeks. Flowers is suffering from a back injury and may be back for match play this week.

Intramural Softball and volleyball registration ends today

The UAH Intramural Department will be holding registration for Softball and Volleyball until 5:00 p.m. on April 4. Blank rosters can be picked up at the front desk in Spragins Hall and must be returned to the front desk with the team name, team captain, and preliminary roster by the above date and time. The season will begin on April 8 and conclude with a tournament on the weekend of May 20th. Team rosters must be finalized by the end of play on April 15.

The First Annual UAH Evening Tennis Tournament is scheduled for May 30 — June 2. Registration will take place from May 1 until 5:00 p.m. on May 15. Entry forms can be picked up at the front desk during registration period.

In addition, the Third Annual Intramural Power Lifting Competition will be held June 2 in Spragins Hall beginning at 12:00 p.m. Registration times are the same as those for the Tennis Tournament. The competition will consist of dead lift, squat, and bench press.

Sports Festival Night with the Stars planned for April 6

Alabama Sports Festival Night with the Huntsville Stars is April 6 when the Stars open their season against Charlotte. The Alabama Sports Festival is selling advance general admission tickets. All proceeds from the advance sales will benefit the festival. The state games will be in Huntsville on June 21-25. The general admission tickets can be upgraded for reserved or box seats at the Star’s ticket gate. Game time is 7:30 p.m. Advance tickets can be purchased from members of the Grissom, Johnson and Lee High School bands or at the three Mr. Gatti’s locations in Huntsville. For further information contact the Alabama Sports Festival at 539-9345.

"Do something positive...for someone who loves you."

The following was submitted for publication by Russell and Eleanor Nicholson, parents of Linda Lancaster:

You have plans for your life — goals to reach — a brilliant future...

So did Linda Lancaster, a doctoral candidate at the University of Maine, Orono. On February 18, 1989, the drunken driver of a pickup truck struck her down as she and a classmate walked along a sidewalk in

Recycling continued from page 4 much as six million gallons of used oil annually. If reclaimed, the oil could power about twelve-thousand cars for one year.

In 1989 we passed a law that calls upon each county government to develop a comprehensive waste management plan asking for a 25 percent recycling goal in source separation and recycling.

In the Governor’s Office we are recycling newsmprint from newspapers after they are clipped, and glass bottles also are recycled.

My wife Helen also is a fan of recycling. She has established a recycling program at the mansion and at our home in Holly Pond. We all understand that recycling alone will not solve the pressures created by the growth of solid waste, but understanding the role of recycling as a part of the solution requires a major educational effort and a commitment from government, the business community, private citizens and the media.

I hope you will join the citizens of Huntsville and Mobile and establish a local recycling program, or support the program in your community. It can mean a prettier environment and money in your pocket!
