Recommended Citation

This Book is brought to you for free and open access by the Registrar's Office at LOUIS. It has been accepted for inclusion in Course Catalogs by an authorized administrator of LOUIS.
The University of Alabama in Huntsville is committed to equal opportunity in employment and education. The University does not discriminate in any program or activity on the basis of race, color, religion, sex, age, or national origin, or against any qualified individual with a disability/handicap, and it maintains an affirmative action program for protected minorities and women.

Although this catalog intends to reflect currently any policies or rules of The Board of Trustees of The University of Alabama referred to or incorporated herein, users are cautioned that changes or additions to such policies, rules, tuition and fees may have become effective since the publication of this material. In the event of such a conflict the current statements of Board policy contained in the official minutes and manual of rules, by-laws, and guidelines shall prevail.

The University of Alabama in Huntsville also reserves the right to modify its institutional policies from time to time. Students enrolling in the University are subject to current policies and rules as contained herein and as subsequently stated or modified by official institutional action.

General Information

Mission of the University of Alabama in Huntsville

The University of Alabama in Huntsville (UAH) is an autonomous campus of The University of Alabama System dedicated to excellence in teaching, research, and service. UAH is a key participant in one of the nation’s major international centers for advanced technological research and utilizes its position in this environment to provide unique opportunities and creative programs for students, faculty, and the community. UAH is committed to maintaining a diverse academic community of the highest quality, and to providing an environment that facilitates intellectual, cultural, personal, and professional growth. UAH fosters leadership, creative and critical thinking, clear communication, a respect for knowledge and the pursuit of truth, and an engagement in the challenge and pleasure of a lifetime of learning. UAH, through its graduates and its programs, contributes to economic advancement, health care, cultural enrichment, and the quality of life of the region, state, and nation.

History

The University of Alabama in Huntsville (UAH) is a part of the University of Alabama System. In June 1969, the University of Alabama Board of Trustees established the University of Alabama System with three independent, autonomous campuses at Huntsville, Birmingham, and Tuscaloosa. Each campus has a separate president who reports to the Board of Trustees through the chancellor of the system. Academic programs were initiated in Huntsville in 1950; in 1963 degree opportunities at the master’s level were provided and in 1964, at the baccalaureate level. The first master’s degree based on work begun and completed in Huntsville was awarded in 1964 and the first undergraduate degrees in 1968. Doctoral programs were initiated in physics and engineering in 1971, and the School of Nursing was established the same year. In 1974, in a component of the Alabama School of Medicine, the first full-time medical students began their core clinical experience in Huntsville. (These programs were transferred to direct UAB management in 1995.) In the two decades of the 1970s and 1980s, UAH implemented a broad range of undergraduate degree programs; established master’s programs in the liberal arts, nursing, and administrative science; initiated professional degree programs at both the graduate and undergraduate levels; and inaugurated selected Ph.D. programs in high-technology fields in the sciences and engineering.

UAH is focused to meet the specific needs of scientific and technological enterprises and the cultural and intellectual needs of a rapidly expanding region. It is UAH’s intention to be innovative, even experimental, to explore what is new, to evaluate existing programs continually, to develop and establish curricula and pedagogical techniques calculated to help students live and perform well in a complicated environment.

Accreditation

The University of Alabama in Huntsville is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award bachelor’s, master’s, and doctoral degrees.

Several UAH programs are accredited by their respective accrediting agencies. Academic programs in chemistry are accredited by the American Chemical Society. Six undergraduate engineering programs (chemical, civil, computer, electrical, industrial and systems, and mechanical) are accredited by the Accreditation Board for Engineering and Technology (ABET). Both undergraduate and graduate programs in nursing are accredited by the National League of Nursing (NLN). Computer science holds accreditation from the Computer Sciences Accreditation Board (CSAB). Programs in music and music education are accredited by the National Association of Schools of Music (NASM). Both the Bachelor of Science in Business
Administration program and the Master of Science in Management program offered by the College of Administrative Science are accredited by the American Assembly of Collegiate Schools of Business (AACSB).

**Facilities**

The 354-acre UAH campus is in northwest Huntsville adjacent to Cummings Research Park. The University has 31 major buildings, including the Central Campus Residence Hall and the nine-building Southeast Campus Housing Complex, all of which have been constructed since 1960. The buildings contain modern equipment and exemplify modern functional design.

Morton Hall, which is the oldest building on campus, houses classrooms, computer laboratories, and offices for the Dean and several of the departments in the College of Liberal Arts. It also houses the offices of Multicultural Affairs, the Institute for Science Education, the Honors Program, and International Education.

Wilson Hall contains classrooms, computer laboratories and instructional laboratories for programs in biological, environmental, and physical sciences as well as offices for the Department of Biological Sciences. The Division of Continuing Education also has offices, classrooms, and computer laboratories in the building to support its programs.

The Kenneth E. Johnson Research Center contains research laboratories and offices for that Center, the Alabama Solar Energy Center, and the Office of Environmental Health and Safety.

Madison Hall contains executive administrative offices, classrooms, and the Department of Mathematical Sciences.

The Research Institute contains offices for Research Administration, and offices and research laboratories for the Center for Microgravity & Materials Research. Additionally, it houses the University’s mainframe computer facility and the Information Services Department.

The Engineering Building contains classrooms, computer laboratories, and instructional and research laboratories as well as offices for the Dean and the various engineering departments that comprise the College of Engineering. It also houses the Center for Space Plasma and Aeronomic Research (CSPAR) and the Center for Automation and Robotics.

The Materials Science Building contains offices, classrooms, and state of the art research laboratories for programs in chemistry and materials science, as well as administrative offices for the Dean of the College of Science and the Dean of the School of Graduate Studies. It also has a 350-seat auditorium/lecture hall.

The Optics Building is a four-story building designed and constructed for research and graduate studies in the field of applied optics. The building contains research laboratories, clean rooms, meeting rooms, and offices for the Center for Applied Optics and the Department of Physics.

The contemporary University Center houses the Division of Student Affairs, the Office of Admissions and Records, the Academic Advisement and Information Center, Career Services, Cooperative Education, Bursar’s Office, Student Government Association, Wellness Center and Exponent. It has facilities for dining, assemblies, meetings, dramatic presentations and recreational activities as well as housing the University Bookstore.

The Frances C. Roberts Hall, a two-unit complex, contains classrooms, laboratories, and offices for the art, history, and music departments in the College of Liberal Arts. The Humanities Center is located here, and there is a large auditorium/lecture room for varied university programs.

The College of Nursing Building is a contemporary triangular structure that houses the College of Nursing. Its four levels contain administration and faculty offices, classrooms, an auditorium, laboratories and service areas, and a large and well equipped Learning Resources Center.

The modern Administrative Science Building contains classrooms, computer laboratories, and offices for the Dean and the departments of the College of Administrative Science. This
well designed teaching facility also has a large auditorium/lecture hall and several student lounge areas. The Office of Instructional and Testing Services is also housed in this building.

The Computer Science Building is located across Sparkman Drive and contains offices and computer classrooms and laboratories for the Computer Science Department as well as computer classrooms for the Division of Continuing Education.

Alumni House contains the offices of alumni affairs, development, university relations and special events of the Office of University Advancement.

Marion Beirne Spragins Hall has classrooms and offices for Health and Physical Education and Athletic Department faculty and staff, a gymnasium with a seating capacity of 2800, a swimming pool, racquetball courts, and other physical education and recreational facilities.

The Central Receiving and Shipping Building houses the shipping and receiving office and storage facility, the central mail room, and telephone services.

The Physical Plant Building contains offices, shops, and storage areas for the Facilities and Operations Department, which include administrative offices, custodial services, public safety facilities, maintenance, grounds maintenance services, stockroom and the University motor vehicle pool.

The Tom Bevill Center has 100 hotel rooms, a restaurant, offices for the U.S. Army Corps of Engineers Training Division, meeting rooms, and computer laboratories. It also has sophisticated audio-visual systems, computer networking, links to Huntsville’s super computer and easy access to other facilities on campus and in the nearby Cummings Research Park.

The WLRH Radio Station facility is located on the south end of the University campus and houses public radio station WLRH-FM. The University leases the facility to the Alabama Educational Television Commission but has no involvement in the operation of the radio station.

The Printing Services Building houses Printing Services and provides offices, darkrooms, print shop, and other special facilities to meet the University’s printing needs.

Library

The UAH Library supports the academic and research programs of the University. It has a collection of 412,571 volumes along with collections of U.S. Government Documents, sound recordings, materials in microform and microfiche, and manuscript collections designed to support the efforts of students and faculty. In addition, the library currently receives some 2,766 periodicals. For students in the social sciences and humanities, microfiche collections such as the Evans Imprint series and the Library of American Civilization and slide collections on Afro-American art are of particular value. For students in the sciences, work at UAH is supported by the Redstone Scientific Information Center which is located five miles from campus. This library was developed to support the wide-ranging research interests of NASA and the United States Army Missile Command, and its collections of 351,967 volumes and 6,596 journal subscriptions along with more than 1.9 million research reports make it one of the finest scientific libraries in the southeast. It is available without charge to faculty members and graduate students of the University. Reciprocal borrowing agreements are also in force with Alabama A&M University, the University of Alabama, UAB, and Auburn University to allow UAH students free access to those libraries.

The library is also a member of several consortia that are designed to make available research materials not owned by libraries in north Alabama. Its membership in OCLC and the Network of Alabama Academic Libraries facilitates rapid document delivery/interlibrary loan service to faculty and students without charge.

Library services, including study rooms, orientations for classes, and on-line bibliographic database searching, assist faculty and students in their research. The library catalog is available on-line through Internet. Guides and handouts detailing individual services of the library are available without charge at the library’s reference desk.
The University Noojin House

Built in 1950 as the private residence of F. Kenneth Noojin, the house became available to the community through acquisition by the University of Alabama Huntsville Foundation, which in turn gave the facility to the University. The house is available for receptions, conferences, luncheons, parties, and workshops. The faculty, staff, students and community are encouraged to utilize this gracious facility.
Student Information

Student Affairs

The Division of Student Affairs provides services to individual students that facilitate the student’s attainment of academic, cultural, social and personal goals. It also coordinates and supports group activities and campus events that enhance the quality of student life at the University. The Division of Student Affairs also supports Student Government Association activities and programs, as well as interprets and administers the Student Judicial Code, which protects student rights and assists students in their awareness of student responsibilities. These student needs and interests are served by the university center, housing, athletics, club sports, student life, auxiliary services, career services, intramurals, student development programs and leadership training.

Tutoring Services

Tutoring services are available in academic subjects such as: mathematics, English, chemistry, foreign languages, history, computer science, physics, accounting, biological sciences, and engineering. Contact the Student Development Services Office, located in the University Center, Room 113. Services are free to all UAH students. Students desiring to tutor or receive help may call 890-6203 for information or make application at UC 113.

Mathematics Lab

The mathematics lab is available for students who need tutorial help in MA 004, 033, 105, 117, 119, 121, 143, and 145. Located in Madison Hall, Room 207, the mathematics lab is staffed 20 hours every week by graduate teaching assistants.

Calculus Workshop

For students enrolled in more advanced mathematics classes, the Calculus Workshop provides enrichment and experience working together in groups to solve challenging problems in calculus. It is located in Madison Hall, Room 207.

English Writing Center

The Writing Center, located in Morton Hall, is designed to increase opportunities for student-centered learning through peer tutoring. Students work one-on-one and in small groups to help each other understand college-level assignments; plan, organize, revise, and edit papers; prepare oral presentations; and develop critical thinking skills. The Writing Center is open to all students. For more information, call 890-6592.

Counseling Services

Personal counseling is available to all UAH students through the Student Development Services Office. In keeping with accepted professional practice, all counseling is confidential. No information is released to University officials, faculty, parents or outside agencies without the explicit written authorization of the student, except when such information is required by law. Students may be referred by faculty or staff members or they may contact the Student Development Services office directly at 890-6203.

Services for Students with Disabilities

The Student Development Services Office provides a professional counselor for students with disabilities.
Services offered to students with disabilities include: priority registration during advance registration periods, classroom accommodations, assistance locating note-takers and readers, ordering textbooks on tape, counseling, auxiliary equipment, assistance during orientation, liaison to UAH faculty, free tutors for most subjects, liaison to Admissions, Housing and Financial Aid Offices, UAH accessibility guide and maps, and liaison to community resources.

In addition, the staff provides educational “Awareness” programs for students, faculty and staff as well as inservice faculty training on accommodating students with disabilities.

Before enrolling, students with disabilities must contact this office so that preparation can be made in advance to provide assistance needed. Official documentation of stated disability is required. Appointments may be made in person or by calling the SDS office, Room 113, University Center, voice/TDD 890-6203.

Multicultural Affairs

The Office of Multicultural Affairs assists the University in providing an atmosphere that is welcoming, supportive and rewarding as students prepare to become responsible adults. Students are encouraged to achieve and aided in attaining academic excellence while learning to be competitive with their peers. OMA endeavors to foster an understanding and a respect for cultural diversity throughout the UAH community. Programs are designed for minority as well as non-minority students in order to promote a sense of community and an acceptance of multiculturalism and racial tolerance on the UAH campus. Students may contact the Office of Multicultural Affairs in Morton Hall, Room 220, or telephone (205) 890-6822.

UAH Wellness Center

Currently enrolled UAH students with valid ID’s, may be seen for minor illnesses and injuries on an appointment basis at the Wellness Center located in the University Center, Room 203.

Basic services are fee-based; however, laboratory costs will be billed to the student at a modest charge. The Wellness Center is open Monday through Friday 8:00 a.m. to 4:45 p.m. The telephone number is 890-6775.

Career Services

The Office of Career Services provides students valuable resources throughout all aspects of the career development process. Career development includes self assessment (discovering personal interests, values and abilities), career exploration (applying self-assessment to career choices and exploring options), and job search (developing the skills to conduct a successful job search).

To help students and graduates discover both their individual abilities, interests and values and relate these factors to relevant career choices and college majors, Career Services offers several assessment tools. FOCUS, a computer assisted career guidance system, allows students to determine individual values, skills, and interests. FOCUS also contains information concerning occupational and educational programs. One unique feature of FOCUS is that it provides information regarding careers that closely match the student’s personal preferences. Another option is the COPSystem. This comprehensive, written inventory is comprised of three parts: Values, Abilities, and Interests. It is designed to increase self-awareness and facilitate connecting personal preferences with appropriate career choices. The Strong Interest Inventory compares the student’s similarities and dissimilarities with those of persons currently employed in specific career fields. In addition to career assessment and individual career counseling, the office also teaches a Career Exploration (ED 111) class twice each year. Career Services encourages students to start exploring possibilities early in their college tenure.

Career exploration resources are available in the Career Resource Center, including reference books, videos, articles, and other occupational information. In addition, the Career
Resource Center houses numerous books on job search issues, salary information, company literature, employer directories, and graduate school information. The Job Location and Development (JLD) program provides part-time employment referrals to currently enrolled students. Gaining work experience while in school can be a big advantage upon graduation. The annual Fall and Spring Career Fairs offer an excellent exploration tool, as potential future employers talk with students about their companies, profession, and the types of employees they hire.

A student credential file facilitates the job search process. Each senior, degree-seeking graduate student, and UAH alumnus who registers with the office establishes a credential file. The file includes 10 resumes, an authorization form and a candidate registration form. Register with OCS at least 9 months prior to graduation. Participants receive a monthly newsletter which provides current employment trends, job search tips, and the monthly on-campus interview schedule. Registered individuals have access to the Resume Referral program, the full-time employment opportunities listings, and on-campus interviews. Held in conjunction with the Fall and Spring Career Fairs, Job Fairs provide the opportunity for students to interview with companies one-on-one in pre-scheduled interviews. Other job search resources include workshops conducted each semester on Resume Writing, Interviewing Skills, and Job Search Strategies, in addition to individual appointments on these issues.

The Office of Career Services seeks to provide students and alumni the knowledge to make informed career choices and the personal skills to reach their career objectives. Students may make appointments by contacting the Office of Career Services, 212 University Center, 890-6612, between 8:15 a.m. and 5:00 p.m. Monday through Friday.

University Housing

The University of Alabama in Huntsville offers a variety of housing facilities to meet the needs of its diverse student population. All first-year and sophomore students under 21 years of age who apply for University housing are assigned to the Central Campus Residence Hall, which opened in the fall of 1991. This seven-story traditional residence hall in the center of campus is connected to the University Center by an enclosed walkway. It is close to the library, the gym, and to classrooms for liberal arts, nursing, administrative science, and natural sciences. Each CCRH resident has an air-conditioned, carpeted private room in a four-person suite and shares a bath with one other suitemate. Suites are furnished with a mini-kitchen (small refrigerator, microwave oven, and sink), study table and chairs, small sofa, and easy chairs.

Each student room has an extra-long twin bed, a wardrobe, a desk, a bookshelf, and a three-position study chair. Rooms for disabled students are available. Access to the building is by electronic access card. Laundry facilities, a recreation room, a study room, and mail service are available in the hall. The “bridge” to the University Center provides all-weather access to the cafeteria, a convenience store, the game room, the bookstore, and various student activities, offices, and meeting rooms.

Southeast Housing consists of a cluster of nine three-story buildings located on South Loop Road near Madison Hall and most engineering and science classrooms. Both double-occupancy (shared) and single (private) rooms in three-bedroom suites are available in Southeast Campus Housing for upperclass students and graduate students. In addition, one-bedroom private apartments are available for graduate students and married couples without children. Several of the one-bedroom apartments are accessible to disabled students. Some unfurnished units are available.

Each three-bedroom suite in Southeast Housing has a living room, full kitchen with refrigerator, range, oven and sink, dining area, and double bathroom with an adjoining vanity area. The units are air-conditioned, carpeted and are furnished with a loveseat, lounge chairs, end tables, and a dining table and chairs. Bedrooms have extra-long twin beds, study desks and chairs, nightstands, and a built-in closet. Some unfurnished units are available. All Southeast Campus Housing residents have the use of a laundry room with coin operated washers and dry-
ers and a pay telephone, a mailroom, and a study lounge. Ample parking is available in the large lot east of the residences. A sandpit volleyball court in the center of the Southeast complex and grassy fields surrounding the area provide recreational spaces for residents.

Central Campus Residence Hall has a Resident Director and, on each floor, a student Resident Advisor (RA); Southeast Campus is staffed with a team of RAs. These staff members and RAs develop activities and programs, provide assistance to student residents, and help create a residential community that contributes to effective student learning, personal and social growth, and responsibility.

Anyone admitted as a student to UAH is eligible for University Housing. A Housing Application Packet is mailed to every student who applies for admission. Final housing assignments are contingent upon confirmation of admission; assignment priority is based upon academic class standing (first year student, graduate student, etc.) and the date of receipt of the application and housing deposit. All single students sign a nine-month academic year housing lease (August-May); housing charges are due when tuition is due each academic semester. Summer housing for single students is available in the Southeast area (not in CCRH) under a separate summer lease. The lease for family and graduate student apartments is for twelve months (late August through mid-August) and rent payments are due monthly.

Current rates, and additional information are all available from the Housing Office, 606-A South Loop Road (205/890-6108). Individual and group tours of UAH Housing may be arranged by appointment through the Admissions Office.

Preschool Learning Center

There is an on-campus preschool provided by the University Preschool Parents Association to accommodate students, faculty, and staff, as well as the public. A stimulating environment is provided daily at the center, according to a fundamental philosophy that learning should be fun. In addition to cognitive development, the center focuses attention on the social, physical, and emotional development of the children enrolled. The center is staffed by professional teachers and well-qualified teacher aides, each of whom is attentive to the needs of individual students. The center has several attendance plans to accommodate the various schedules of student parents. Call 837-9553 for information.

The University Center

The University Center is a part of the co-curricular educational program of the University and is a focal point of the campus. Designed for the entire campus community, it offers facilities and programs to meet the intellectual, social, recreational, and cultural needs of students, faculty, staff, alumni, and the entire Huntsville community.

The facility offers meeting rooms, a dining room, a cafeteria, lounges, a game room, TV viewing rooms, an information desk, an art gallery, and the University Bookstore.

The offices of the Vice-President for Student Affairs, the Student Government Association, Association for Campus Entertainment, the Exponent, Admissions and Records, Financial Aid, Academic Advisement, Co-op, Career Services, Student Activities, Student Development Services and the Bursar are also located in the University Center.

Student Identification Cards

All students must have a valid photo I.D. for the semester in order to use the library, to participate in student elections, athletic events, and all functions for which a student may be entitled to special privileges. Photo I.D. cards are issued once and only need to be validated each semester enrolled. Validation is done at the University Center, Information Desk. Photo I.D. cards are made on the lower level of the University Center during announced hours.
Information Desk
In addition to having general campus information, the information desk sells a variety of items. The university community may pick-up or purchase tickets for campus events, or receive directions to campus or community points.

Lounges
Two well lit, spacious lounges, designed as a place to relax and meet friends, are equipped with comfortable furniture.

Game Room
Located in the lower level of the Center, the game room has pool tables and ping-pong tables as well as a wide variety of pinball machines and video games. A large number of board games are also available. Two TV lounges, with cable TV, are located in the game room.

Meeting Rooms
The Center has up to 13 meeting rooms designed for multipurpose functions. The rooms can accommodate meetings from 10 to 500 people. The Center has a large number of tables, chairs, portable stage and audio-visual equipment and can assist in designing set-up to make any conference or meeting a success.

University Bookstore
Located on the lower level in the University Center, the University Bookstore is a full-service college bookstore operating for the needs and convenience of the UAH Community. The University Bookstore provides required and supplemental textbooks, a large selection of technical and reference books, various study aids, and educationally priced software. The bookstore also buys used texts from students during the store hours year round. In addition to these services, the bookstore will special order any book in print.

In the University Bookstore, students can find UAH Campus sportswear, UAH insignia gifts, cards, imprinted notebooks, a wide variety of school supplies, calculators, and a choice of Artcarved or Josten's class rings.

University Food Service
A helpful and friendly staff provides customers of the University Cafeteria with a variety of hot entrees, grilled fare, and deli sandwiches. Also provided is a diverse convenience store located within the cafeteria. A spacious dining area is available for all guests and a more formal dining area, located behind the cafeteria, is available for luncheon buffets and catered dinners. The Food Service will cater to all areas of the Center as well as other parts of the campus. Additionally, several types of meal plans are available for purchase by students, faculty, and staff. Cafeteria hours of operation are posted outside the cafeteria entrance.

Activities
The Student Activities office offers a wide variety of activities in which students may become involved. The advisor to the sororities and fraternities and the Association for Campus Entertainment is located in this office. The Student Activities office organizes activities for students and their families such as Family Night Out and College Bowl Program. The Student Activities office also maintains a complete listing of clubs and organizations.

Student Government Association (SGA)
The Student Government Association promotes the welfare of students in all areas of University life. Its primary purpose is to help improve the educational environment. This includes promoting academic innovation and working closely with faculty and administration toward making desirable changes in institutional policies.

The SGA is responsible for developing and sponsoring programs which will enrich the student’s cultural, intellectual, and social life. Each student enrolled in UAH is automatically a
member of the SGA. An executive branch, a fifteen member legislature, and a five member arbitration board are responsible for carrying out the official business of the organization.

The association sponsors over ninety clubs and organizations across campus in addition to providing many student services such as health insurance, special rates for community cultural events, and a student directory.

**Association for Campus Entertainment (ACE)**

The Association for Campus Entertainment presents student activity programs for UAH through its activity boards. The purpose of ACE is to provide entertainment and to enhance the cultural, intellectual and social life of students.

ACE also provides the students with a telephone information service known as “The Source”, which can be reached at 890-6666.

**Cabaret**

The ACE Cabaret Series presents various types of live performers to UAH, from comedians to magicians. Past entertainers have included Paula Poundstone, Renee Hicks, Del Suggs, The Spencers, and Dan LaRosa.

Cabaret operates “Mom’s”-UAH’s only nightclub. Each Thursday night, Mom’s provides live entertainment, a selection of coffees, soft drinks, and assorted chips for just $1.00. Mom’s is located in Room 146 of the University Center-just look for the stained glass window.

**Film and Video**

The Film Series presents weekend movies, “The Rocky Horror Picture Show”, outdoor movies, and film festivals. Previous movies have included “Pulp Fiction”, “While You Were Sleeping,” and “Powder.”

**Lectures**

The ACE Lecture Series helps bring together the academic and social environments within the University, presenting speakers on the serious issues of today. The Lecture Series also brings stars and speakers from popular television shows and motion pictures. Past guests have included Billy West (voice of Ren & Stimpy), Barry Williams (Greg Brady), Fusion Dance Group (performing in 1996 Olympics Openings), and Brent Staples (editorialist for The New York Times).

**Publicity**

The Publicity and Promotions Director informs potential audiences of all programs that the other ACE Activity Boards are bringing to campus through the Source Hotline and quarterly ACE calendars that are distributed across campus. Radio, television, and printed materials are all utilized in the effort to publicize ACE programs.

**Special Events**

The Special Events Committee is responsible for planning annual events such as Homecoming, Octoberfest, and Springfest, which is the culmination of a year’s activities. Additionally, monthly events include Human Foosball, Virtual Reality, and Murder Mysteries On Campus.

**Student Organizations**

UAH has more than ninety special-interest organizations and clubs. For a complete listing, see the student organization booklet available at the University Center Information Desk.
Greeks

Interfraternity Council (IFC)
IFC serves as the governing body of the six fraternities at UAH in order to develop cooperation and coordination of activities among the member fraternities. The six national social fraternities on campus are Alpha Phi Alpha, Alpha Tau Omega, Delta Chi, Kappa Alpha Psi, Pi Kappa Alpha and Sigma Nu. For more information contact the Interfraternity Council Advisor at 890-6445.

Panhellenic Council (Panhel)
The Panhellenic Council is the organization which coordinates sorority activities at UAH. The five social sororities available to young women at UAH are Alpha Kappa Alpha, Chi Omega, Delta Sigma Theta, Delta Zeta, and Kappa Delta. For more information contact the Panhellenic Advisor at 890-6445.

Academic Honor Societies

Alpha Epsilon Delta (Pre-Health)
The UAH chapter of Alpha Epsilon Delta, the national pre-health professional honor society, was established on campus in the fall of 1978 and was chartered in the spring of 1979. Membership in Alpha Epsilon Delta is an honor bestowed in recognition of superior scholarship achievement and affords the student an opportunity to develop initiative, leadership, and self education by participating in the activities of the chapter.

Alpha Kappa Delta (Sociology)
The Epsilon of Alabama chapter of Alpha Kappa Delta was chartered by the National Sociology Honorary Society in the Spring of 1976. Membership in AKD is limited to students who have maintained a high standard of excellence in their courses of study in sociology and who show serious interest in this academic field. The candidate for membership in the chapter must be a junior with an overall GPA of 3.0, must maintain a 3.0 GPA in sociology courses taken at UAH, and must have completed at least 4 regular courses in sociology prior to initiation.

Alpha Lambda Delta (Freshman)
The UAH chapter of Alpha Lambda Delta, national scholastic honor society for freshmen, was installed in the fall of 1974. The purposes of the society are to encourage superior scholarship attainment among students in their first year in institutions of higher education, to promote a continued high standard of learning, and to assist students in recognizing and developing meaningful goals for their roles in society. To become a member, a student must earn a scholastic average of 3.5 during the first and second semester of enrollment.

Alpha Pi Mu (Industrial Engineering)
The national honor society for industrial engineers, Alpha Pi Mu was founded at the Georgia Institute of Technology in 1959 to recognize industrial engineering students of distinguished scholarship.

Beta Alpha Psi (Accounting)
The society encourages and recognizes scholastic and professional excellence in the field of accounting.

Beta Gamma Sigma (Business or Management)
Founded as a national organization in 1913, membership in this society is the highest national recognition a student can receive in an undergraduate or master's program in business or management accredited by the American Assembly of Collegiate Schools of Business. To be eligible, a student must rank in the upper seven percent of the junior class, upper ten percent
of the senior class, or upper twenty percent of the graduating master’s class. Members are elected to membership. The mission of the organization is to encourage and honor high academic achievement and personal excellence in the study and practice of business.

**Eta Kappa Nu (Electrical Engineering)**

The Theta Eta (UAH) Chapter of Eta Kappa Nu was chartered on April 29, 1978. The objectives of Eta Kappa Nu are to honor those students in electrical engineering who have excelled in scholarship, leadership, and exemplary character and to unify them with graduates and faculty who have attained prominence in the field of electrical engineering. Membership is open by chapter invitation only to graduates, faculty, professionals, juniors in the top fourth of the electrical engineering class, and seniors in the top third of the electrical engineering class.

**Omicron Delta Kappa (Leadership)**

The purpose of the Omicron Delta Kappa Society is to recognize individuals who have attained a high degree of leadership in collegiate and related activities, to encourage them to continue along this line, and to inspire others to strive for similar conspicuous attainment; to bring together representative individuals in all phases of collegiate life and thus create an organization which will help mold the sentiment of the institution on questions of local and intercollegiate interest; and to bring together members of the faculty and student body of the institution on a basis of mutual interest, understanding, and helpfulness.

**Phi Alpha Theta (History)**

UAH has a chapter of Phi Alpha Theta, international history honorary society. Membership is open by invitation only to students who have completed a minimum of 12 hours in history with a grade point average of 3.5 and an overall average of 3.0 in all courses.

**Phi Kappa Phi (Multi-discipline)**

The primary objective of the national honor society of Phi Kappa Phi is the recognition and encouragement of superior scholarship in all academic disciplines. The society is convinced that in recognizing and honoring those persons of good character who have excelled in scholarship in whatever field, it will stimulate others to espouse excellence. The society promotes an atmosphere conducive to academic excellence.

**Phi Sigma Iota (Foreign Language)**

Phi Sigma Iota recognizes outstanding ability and high standards in the field of foreign languages, literatures, and cultures, including classics, linguistics, philology, comparative literature, bilingual education, and other related areas. It promotes international communication and understanding, and a sentiment of amity among nations. Membership is open by nomination to any UAH student who is at least a junior; has a B average overall, as well as in foreign languages; has completed at least one foreign language course at the 300 level; is enrolled at UAH at the time of being offered membership; and who plans to take at least two 300 level courses in foreign languages.

**Pi Sigma Alpha (Political Science)**

Pi Sigma Alpha is the national honorary society for political science students with junior standing having a minimum of ten semester hours and a B average or higher in political science courses.

**Pi Tau Sigma (Mechanical Engineering)**

Pi Tau Sigma is the national Mechanical Engineering Honor Society. The purposes of Pi Tau Sigma are to foster the high ideals of the engineering profession, to stimulate interest in departmental activities, to promote the mutual professional welfare of its members, and to develop in students of mechanical engineering the attributes necessary for effective leadership. Eligibility extends to the top quarter of the juniors and the top third of the seniors in mechanical engineering.
Psi Chi (Psychology)

Psi Chi is a national recognition society for students in the field of psychology. The purposes of Psi Chi are to encourage, stimulate, and maintain scholarship of the individual members in all fields, particularly in psychology, and to advance the science of psychology. To achieve these goals Psi Chi offers a wide range of programs at the local, regional, and national levels. The requirements for admission are a 3.0 overall grade-point average and a 3.0 in psychology, and 12 hours of psychology for a minor or 15 hours for a major.

Sigma Pi Sigma (Physics)

The Sigma Pi Sigma honorary society operates within the Society of Physics Students. Membership is based on general scholarship. An overall GPA of 2.75 and a GPA of 3.2 in at least 5 courses in physics are required for membership in Sigma Pi Sigma.

Sigma Tau Delta (English)

The UAH chapter of Sigma Tau Delta, a national English honorary society, is Upsilon Mu. Its purposes are to assist in developing, maintaining, and promoting literary and educational activities for students and alumni of the chapter, as well as the entire University and civic community. Membership is open by chapter invitation only to English majors and minors of junior standing who have a 3.0 grade-point average.

Sigma Theta Tau (Nursing)

Sigma Theta Tau is the international honor society of nursing. The purposes of Sigma Theta Tau include the recognition of superior achievement and leadership qualities, the fostering of high professional standards and creative work, and the strengthening of the individual’s commitment to the ideals and purposes of the nursing profession. Invitation to membership may be extended to junior and senior nursing students who have completed at least one-half of the required nursing component with a grade point average of 3.0. Graduate students in nursing who have completed one-fourth of the required graduate curriculum may be eligible for membership with a grade point average of 3.3.

Society of Sigma XI (Science Research)

Sigma Xi, founded in 1886, is a scientific honor society which was organized to reward excellence in scientific research by graduates, undergraduates and faculty researchers and to encourage a sense of cooperation among scientists in all fields.

Tau Beta Pi (National Engineering Honor Society)

The Tau Beta Pi Association was founded at Lehigh University in 1885 to mark in a fitting manner those who have conferred honor upon their alma mater by distinguished scholarship and exemplary character as students in engineering, or by their attainments as alumni in the field of engineering, and to foster a spirit of liberal culture in engineering colleges. Scholastic requirements include: class standing of the top eighth of the junior class or the top fifth of the senior class and demonstration of exemplary character.

Upsilon Pi Epsilon (Computer Science)

The Computer Science Honor Society is for both graduates and undergraduates.

Art Programs and Exhibitions

The Department of Art and Art History sponsors exhibitions and activities throughout the year which are important to the cultural growth and enrichment of campus life at UAH. Students and faculty are welcomed and encouraged to participate in and contribute to these worthwhile opportunities.

The UAH Galleries of Art

The Art Department organizes exhibitions and events in two galleries on the UAH campus.
The Old Church Gallery, located just west of the University Center, and the University Center Art Gallery, located off the main lobby of the UC, provide opportunities for the University and Huntsville communities to view the work of local, regional, and nationally recognized artists. The exhibitions change monthly and offer a wide range of artistic perspectives.

The Annual Student Exhibition
Each spring the Art Department sponsors an exhibition, juried by the faculty, dedicated solely to showcasing the work and talents of UAH students. Any student enrolled in the University is eligible to participate.

The Faculty Exhibition
During the Spring Semester, visitors to the UC Gallery have an opportunity to study the outstanding work recently produced by UAH’s own studio faculty members.

The Visiting Artist Program
This program offers opportunities for the public to meet, listen, and talk with the artists exhibiting their work in the UAH galleries. Presentations by distinguished artists visiting the campus often include studio and classroom sessions as well as public lectures.

The UAH Southeastern Student Biennial Exhibition
This exhibition, juried by noted artists or art professionals, is open to all college art students in the southeastern United States, undergraduate and graduate. This is a unique opportunity for students to see excellent work being done by up and coming young artists in the region.

Music Organizations
All musical organizations are open to all students, music and non-music majors. Students should be able to make a place for themselves in some performing group, regardless of musical background and tastes. Credit is offered for most ensemble experience, and participation may be repeated with approval of the conductor.

UAH Choral Organizations
The Concert Choir, the Chamber Choir, and the Tenor-Bass Chorale perform choral literature of the great masters of music history as well as folk music of various countries. Admission is by audition with the conductor and attendance at all rehearsals and performances is required.

Huntsville Symphony Orchestra
The Huntsville Symphony Orchestra, a semiprofessional blend of University and community talent, prepares nine formal concerts each year. International artists perform with each annual concert series. Audition with conductor is required. Attendance at rehearsals and performances is also required.

UAH Jazz Ensemble
A workshop experience providing students with instruction in jazz arranging and composition and in improvised jazz is stressed. Attendance at rehearsals and performances is required. Audition with instructor is also required.

UAH Wind Ensemble
A select group of experienced musicians who perform the best available music literature for wind ensemble and concert band. Attendance at all rehearsals and concerts is required. An audition with the conductor is also required.

UAH Pep Band
The Pep Band is a musical organization of students that promotes spirit and enthusiasm at a variety of athletic events. Members and scholarship recipients are chosen by audition and may elect to enroll in the group for class credit.
Intercollegiate Athletics

UAH is an NCAA Division II school and a member of the Gulf South Conference. The athletic department sponsors intercollegiate sports with the goal of providing the student-athlete with the opportunity to compete intercollegiately within a structured sporting environment that enhances personal growth and development in parallel with institutional goals. UAH offers ice hockey, basketball, baseball, soccer, cross country, and tennis for men, and basketball, softball, volleyball, cross country, and tennis for women. Club teams are offered in other sports.

Baseball (Men)

Baseball was added as an intercollegiate sport to UAH athletics in the spring of 1996. All home games are played at Joe Davis Stadium in Huntsville, the home of the Huntsville Stars, the AA affiliate of the Oakland A's organization. The Gulf South Conference is nationally known as a premier conference for baseball.

Basketball (Men and Women)

The NCAA Division II tournaments are a season highlight, along with the Mayor's Cup Classic against cross-town rival Alabama A&M University. The winner of the Mayor’s Club claims the city's basketball boasting rights for a year. All home games are played on campus in Spragins Hall.

Cross Country (Men and Women)

While running is basically an individual sport, cross country at UAH is founded on a philosophy of team effort and spirit. The team hosts an annual invitational competition.

Hockey (Men)

UAH is the "Hockey Capital of the South," building a very strong hockey program with local players as well as skaters from points north. The Chargers hosted the NCAA Division II Championship in 1996 at the Von Braun Civic Center, the site of all home games, and won the national championship.

Soccer (Men and Women)

The soccer teams attract players from around the world. Matches are played on Charger Field located on the UAH campus.

Softball (Women)

Spring 1996 saw the addition of women's softball to UAH varsity sports. Home games are played at the Kiwanis Metro Sports Complex in Huntsville. As a member of the Gulf South Conference, competition is always on a quality level.

Tennis (Men and Women)

The Charger tennis programs provide an opportunity for competition at both singles and doubles levels. Home matches are played on campus next to Spragins Hall.

Volleyball (Women)

The volleyball team has been a consistent leader in Gulf South Conference competition. The program annually hosts a tournament on campus which attracts many outstanding teams.

Cheerleading (Men and Women)

The UAH cheerleading squads are composed of students whose primary purpose is to promote spirit and enthusiasm for intercollegiate athletics. Try-outs are conducted for any interested students.

Mascot

The UAH mascot, Charger Blue, brings recognition to the University through appearances at athletic and community events throughout the calendar year.
Intramural Sports Program
The intramural sports program serves the recreational needs of UAH students through a planned program of intramural athletics and other forms of recreational activities. It provides opportunities for the development of positive attitudes toward recreational activities throughout life, thus deriving optimum benefits of enjoyment, health, social contacts, and sportsmanship. The philosophy of intramural activities at UAH is based on the concept that students should have freedom of choice and responsibility for sharing in planning, supervising, and administering the program.

All students and members of the faculty and staff are eligible to participate in intramural activities. The sports offered include basketball, 3 on 3 basketball, flag football, floor hockey, racquetball, indoor soccer, 6 pac soccer, softball, tennis, volleyball, 4 on 4 volleyball, and weightlifting.

Student Publications
The Exponent is the UAH student newspaper. The paper is published weekly except during exams and holidays. The Exponent office is located in Room 104 of the University Center, telephone: 890-6090. The Publications Board, a joint faculty-student board, is responsible for the policies, planning, (selection of editors) coordinating and overseeing of the Exponent and the student publications under its jurisdiction.

An art and literary magazine, the printed campus forum for art and literature, is sponsored by the Publications Board. All UAH students are eligible to submit their work for publication. Anyone wishing to submit art or literature for consideration for the next issue, can bring or mail their work to the Exponent office, Room 104, University Center.
The University of Alabama in Huntsville welcomes inquiries and applications from interested persons who wish to further their education. The student body is composed of individuals of all ages—traditional full-time college students and other adults who are combining their educational pursuits with work, family, and various activities. Prospective students should apply well in advance of the date of proposed entrance.

Application forms, detailed application instructions, and information brochures are available at the Office of Admissions in the University Center. A copy of the UAH catalog is mailed to each new student upon admission to the University; additional copies are available for purchase in the UAH bookstore.

Information for prospective students is available through the Office of Admissions. Campus tours on an individual or group basis may be arranged (phone 890-6070). Faculty members and academic advisors (phone: 890-6290) are eager to confer with interested individuals to discuss their enrollment plans and opportunities at UAH.

**Undergraduate Admissions Information**

Admission policies at UAH provide for a diversity of educational backgrounds. Admission procedures accommodate:

- students who are seeking degrees (regular)
- individuals who have never attended any college (freshmen)
- those who are transferring from one or more previous colleges (transfers)
- students who have passed the high school equivalency examination (GED)
- students who are presently in high school, are academically talented, wish to enroll concurrently in courses at UAH (Early Start Program)
- students who have already earned a baccalaureate degree and are seeking another baccalaureate degree (second bachelor's degree) or
- those who are taking courses on a nondegree or preparatory basis for graduate school (nondegree postgraduate)
- those who have no immediate degree plans (nondegree)
Eligibility for Admission as a Regular Student

Admission as a regular student is based upon high school and previous college performance, if applicable, as well as scores on specified tests. A non-refundable $20 application fee must accompany all applications. See table below.

See International Student Admissions section.

High School Graduates

High school graduates may be admitted as regular freshmen on the basis of acceptable high school records and scores achieved on the American College Testing (ACT) program examinations (SAT is accepted as substitute for ACT). The two factors of grades and scores are considered together. Higher results in one area are able to offset lower performance in the other. For example, an applicant who earns an ACT score of 22 must have at least a 2.25 average on high school academic units in order to qualify for admission. See the chart below for further definition.

High School Grade Point Averages and ACT Scores Required for Regular Admission to the Freshman Class

<table>

Applicants should present a minimum of 20 Carnegie high school units. These should include:

- 4 years of English
- 3 years of social studies
- 1 year of algebra
- 1 year of geometry
- 1 year of biology (recommended)
- 1 year of chemistry/physics (required by the Colleges of Engineering and Science; recommended by all other Colleges)
- 1 year of algebra II/trigonometry (recommended by all Colleges; the College of Engineering specifies 1 year of each)

Sufficient academic electives to meet the required 20 units

(The State of Alabama requires 3.0 units of physical education and 0.5 units of health)

Current high school students will find it to their advantage to follow the advanced diploma curriculum.

Prospective freshmen currently attending high school should apply during their senior year in high school. Tentative admission will be granted on the basis of ACT (or SAT) scores and high school records through the junior year. Work completed in the senior year and confirmation of graduation will be reviewed before a student’s final admission.

Applicants having deficiencies in the required high school courses may be admitted in good standing. The deficiencies, however, must be removed during the first year of enrollment in a manner approved by the department concerned. Courses taken to remedy entrance deficiencies cannot be used to satisfy degree requirements.

High school graduates who have never attended college and who have been out of high school five or more years do not need to submit ACT test scores.

General Education Development (GED) Recipients

Persons who have not graduated from high school may be admitted on the basis of a satisfactory score on the GED test. A score of 45 is required for regular admission status. (Beginning in 1997, the minimum score required will be 50.) UAH is a testing center for the GED program. Anyone seeking additional information or wishing to take the GED examination should contact the Office of Testing Services (890-6725).

Early Start Program

UAH welcomes inquiries from academically talented high school students who wish to enroll in courses for college credit during the summer term between their junior and senior years of high school or concurrently with their senior year in high school. For detailed information, such students should see their high school counselor or personnel in the Office of Admissions.

Transfer Students

Students who have previous academic records at a college or university level may be admitted to UAH as transfer students. A student who is currently on suspension from another college or university is not eligible for enrollment until his or her suspension period has terminated. Admission to the College of Engineering and the College of Nursing is an independent action from admission to the University.

Once a student has enrolled and has accumulated a total of 64 semester hours of credit from all sources, no additional credit may be transferred to UAH from a two-year institution. Exceptions to this policy must be approved prior to taking additional course work. Requests for exceptions must be in writing and approved by the chair of the UAH department where the course is taught, and by the dean of the college in which the student is enrolled.
Transfer students seeking admission to the College of Administrative Science are admitted with a pre-business classification (code 07) and remain in this classification until they are admitted to the upper division of the College. Transfer students who intend to pursue the BSBA degree should read carefully the College’s section on, “Admission as a Transfer Student” and “Admission to the Upper Division”. A prospective transfer student who has attempted fewer than 18 semester hours of work at an accredited college or university and who has at least a 1.0 average on a 4.0 scale will be considered for admission on the basis of high school grades and ACT scores. Applicants with previous records showing 18 semester hours or more of work attempted at accredited colleges or universities must have a minimum overall C (2.0) average on all work attempted in order to qualify for regular admission.

**Evaluation of Transfer Credit**

Transfer admissions decisions will be based on a full evaluation of transcripts from all colleges and universities attended. Transfer credit evaluations will be completed before or during the first semester of enrollment.

Courses in which the subject matter is not acceptable at UAH will be disregarded when determining admissibility and status at UAH.

In instances where disallowance of courses reduces the total number of hours of acceptable credits below 18 semester hours with at least a 2.0 average on a 4.0 scale, the applicant will be considered for admission on the basis of high school grades and ACT scores.

Transferred courses in subject matter accepted by UAH with grades of less than C will not be awarded credit but will be utilized in calculating the grade point average for admission criteria.

An individual who enrolls as a non-degree student and later decides to work toward a degree must request an evaluation of transfer credits. The application of such accepted credits to a particular program of study will be made and approved at the time of official determination of the individual’s program of study.

Acceptance of credit and application of credits to a specific degree program are two separate and distinct processes. Consult an academic advisor for degree applicability within the desired degree program.

Credits earned in quarter hours will be converted to semester hours on the basis of two-thirds of one semester hour for each quarter hour.

A maximum of 64 semester hours of credit from a junior college may be applied toward a degree. Exceptions to the 64-hour maximum must be justified and approved in writing by the dean of the college in which the student is enrolled.

The University of Alabama in Huntsville follows the practices specified in Transfer Credit Practices of Selected Educational Institutions, published by the American Association of Collegiate Registrars and Admissions Officers, in evaluating college level courses from other recognized colleges and universities for the purpose of transfer of credit to UAH.

If the previous record was earned at an institution not holding regional accreditation, a decision on acceptance of credits will be made on an individual basis. If credits are accepted, they will be classified as provisional. Full credit for a provisional credit will be based upon performance during the first 30 semester hours attempted at UAH. In order to receive full credit for provisional credit, a student must earn a C or better in each course attempted during the first 30 hours. Each student with credits in this category should see the registrar concerning his or her status at the end of the semester in which he or she has completed 30 semester hours at UAH.

Credit for engineering courses taken at schools accredited by the Accrediting Board for Engineering and Technology (ABET) is transferable to UAH. Engineering courses taken in non-ABET accredited institutions may also be applied toward a BSE degree based upon an appropriate examination (written or oral) at the discretion of the respective department. All
inquiries concerning applicability of credit should be made to the UAH engineering department chair where the course, or its equivalent, is taught.

Credit for Business Administration courses taken in schools with American Assembly of Collegiate Schools of Business (AACSB) accredited programs is transferable to UAH. Credit in courses taken in programs without AACSB accreditation may be accepted with approval of the Dean of the College of Administrative Science. Transfer credit will be granted for administrative science courses only with a “C” or better. This policy applies to students entering or re-entering UAH after Winter Term 1983-84. All inquiries concerning applicability of transfer credit should be made to the Office of Academic Assistance, College of Administrative Science, (205) 890-6024.

Transfer Students from Alabama Junior/Community Colleges

A student transferring from an Alabama junior college may choose to fulfill the degree requirements of the UAH catalog which was in effect at the time of the student’s initial enrollment at the Alabama junior college, provided that the date does not exceed the seven year limit. (See time limits section of the catalog.) This policy enables students enrolled at Alabama junior colleges to plan degree programs effectively and to be assured that degree requirements specified for UAH students will be equally applicable, within specified limits, to transfer students. UAH participates in the Alabama Articulation Agreement. Students intending to transfer to UAH from Alabama junior colleges are encouraged to consult with their advisors when planning their programs of study.

Admission of International Students

International students are expected to meet all established requirements for admission from secondary schools or from other colleges and universities. All international applicants must apply for admission at least three months in advance of desired attendance date.

Admission Requirements

An undergraduate international applicant must submit:

1. Completed application form.
3. Official copies in English of secondary school and college or university transcripts forwarded to the University of Alabama in Huntsville directly from the institution(s) attended. Personal copies are not accepted.
4. American College Test (ACT) scores sent directly to UAH from ACT headquarters. (ACT is not required of an applicant who has earned more than 18 semester hours of college work or was graduated from high school more than five years ago.) SAT may be used as a substitute for the ACT.
5. Scores from the Test of English as a Foreign Language (TOEFL) sent directly to UAH from Educational Testing Service. A minimum score of 500 is required.
6. Since the TOEFL does not measure all language skills necessary for academic success, all international students enrolled at UAH must also take the university’s English Language Placement Test and complete any course work in English as a Second Language which the test indicates is required.
7. A certified financial statement submitted as evidence of sufficient finances to cover university and personal expenses while attending UAH.
8. Evidence of University-approved health insurance coverage. Proof of continued coverage must be presented by the student each semester he or she is enrolled.
9. Individuals in the U.S. on student visas who are transferring from another college or university in the U.S. must also show evidence of release from the previous program by the international student advisor at their previous school. Transfer students must have completed the equivalent of one academic semester at those institutions before being admitted to UAH.
Non-degree Students

UAH provides simplified admission procedures for students who want to pursue their educational goals, but who have no immediate degree plans. These students, sometimes called "casual course takers," may choose to apply as special non-degree students. For information, call 890-6070.

Any adult who has completed high school or completed the GED with a minimum score of 45 (50 beginning in 1997) may apply for admission as a non-degree student. Credits earned or courses audited as a non-degree student are recorded on the student's permanent record and will count if applicable in a regular undergraduate degree program when the individual qualifies for admission as a regular student.

A student enrolled in this category is subject to the same periodic review of his or her record as a regular student and is subject to the University's regulations regarding scholastic probation and suspension. (See Academic Information.) If a non-degree student becomes subject to academic suspension, the suspension is for a minimum of one semester, and the student must petition the Admissions Committee for approval to re-enroll.

A student enrolled as a non-degree student must satisfy course prerequisites for each course taken.

Conditional Admission for High School Graduates

An individual who has applied under the regular admission plan and who does not meet the criteria for regular admission may be admitted to UAH as a conditional admit. The conditional admit will be required to carry a light course load until he or she has completed a total of 15 semester hours of work. If the student has achieved an overall C average at the completion of 15 or more hours of work, he or she will be admitted as a regular degree-seeking student. Credits earned as a conditional admit are recorded on the student's permanent record and will count if applicable in a regular undergraduate degree program when the individual has qualified for admission as a regular student.

A student enrolled in this category is subject to the same periodic review of his or her record as a regular student and is subject to the University's regulations regarding scholastic probation and suspension. (See Academic Information.) If a student becomes subject to academic suspension, the suspension is for a minimum of one semester, and the student must petition the Admissions Committee for approval to re-enroll.

Probational Admission for Transfer Students

An individual who has applied and who does not qualify as a regular transfer student may be admitted on probation. A transfer student enrolled in this category is subject to the same periodic review of his or her academic record as a regularly admitted student who is on scholastic probation. (See Academic Information.) If at such a review point the student becomes subject to academic suspension, the suspension is for a minimum of one semester, and the student must petition the Admissions Committee for approval to re-enroll.

Re-Entry

A student who has not attended UAH for one or more semesters and who wishes to return should consult with the Office of Admissions to determine enrollment status and the conditions under which studies may be resumed.

### Laboratory and Studio Instruction Fees

Laboratory fees are assessed as applicable and are specified in course descriptions.

### Cooperative Education Fees

Study semester is $40
Work semester is $80
Engineering Equipment Fees

Equipment fees are assessed at $12 per credit hour.

Schedule Adjustment Charges

- Drop of Course Fee ................................................................. $20
- Addition of Course Fee ........................................................... $20
- Change from Credit to Audit ................................................... $20
- Section Change Fee ................................................................. $20
- Audit fee - same as for Credit

The University reserves the right to change its fees, charges, rules and regulations at the beginning of any semester and without prior notice. Generally, the Board of Trustees of the University of Alabama System considers proposals for changes in fee structure at its May or June meeting.

These fees do not apply to any short-term, off-campus, or noncredit offering. For additional information on these courses, see section on Division of Continuing Education

ACCEPTABLE FORMS OF PAYMENT

Payment can be made in cash, by check or money order, or can be charged to a VISA, MasterCard or Discover charge card. Sponsoring agencies, faculty/staff or University tuition assistance supported by written documentation, or anticipated financial aid verified by the Student Financial Aid Office are also valid payment forms. Awards may be applied directly to a student's account for charges incurred.

BILLING AND PAYMENT PROCEDURE

Tuition and fees should be paid in full by the first day of classes. Payments may be charged to VISA, MasterCard, or Discover by calling (205) 890-7321. Accounts with an amount due by the first day of classes will be subject to a $50.00 late fee.

Send payments to The University of Alabama in Huntsville, Cashier's Office, University Center Room 213, Huntsville, AL 35899-5050.

DEFERRED PAYMENT PLAN

Students enrolling for at least six semester hours of credit are eligible for the deferred payment plan. This plan enables total tuition, housing, and other current charges to be divided into two payments each semester. The first payment of at least half of the total amount of charges is due by the first day of class. The second payment of the remaining balance is due the end of the sixth week of the semester. There is a $20.00 non-refundable administration fee that must accompany the deferment agreement form. Deferment agreement forms are available in the Bursar's Office, Financial Aid Office and the Office of Student Records. After completion and authorization, the deferment agreement form should be presented with the first payment to the Cashier's Office. The deferred payment is only offered for the Fall and Spring semesters and a deferment agreement form must be completed each semester.

Other Charges

- Credit by examination or validation, per semester hour .............................................. $10.00
- Replacement of I.D. card ............................................................................. $15.00
- Transcript ....................................................................................................... $4.00
- Duplicate Diploma ....................................................................................... $7.50
- Thesis binding (6 copies):
  - Master's degree .................................................................................. $90.00
  - Ph.D. degree ......................................................................................... $100.00
- Microfilming ................................................................................................. $35.00
Vehicle registration
(Regulations concerning traffic and parking are available at the Campus Safety Office) ................................................................. 15.00
Summer only ........................................................................... 5.00

College of Nursing
Liability Insurance (per year) ........................................................ approximately 60.00
College of Nursing Pin (graduation) .................................................. 39.00 - 130.00
Annual health examinations ............................................................ variable

REFUNDS
Students may withdraw through the second week of classes and receive a 100% tuition refund. A student desiring to withdraw from one or more classes must complete a withdrawal request form at the Office of Student Records, University Center Room 116. The date of withdrawal is the date the written request is received at the Office of Student Records and the date of withdrawal will determine the amount of refund.

No fee is charged for withdrawals prior to open registration day. On and after registration day, a $20.00 fee is charged.

HOUSING CHARGES
Students assigned to suites (Central Campus Residence Hall or Southeast Campus Housing) must pay the full semester’s rent at the beginning of the semester. A student who fails to complete payment of fees due or fails to file a payment deferment request with the Cashier’s Office by the close of registration for any semester will have his or her registration canceled. Students assigned to private apartments (family units in Southeast Campus Housing) may pay their rent in equal installments on a monthly basis. Rent payments are due the first day of each month.

All freshmen residents of Central Campus Residence Hall are required to purchase a Food Contract which is due with rent at the beginning of each semester.

If a student officially withdraws from the University while residing in University Housing, he or she may qualify for a prorated refund of rent. This is determined by the date of the student’s official check-out from Housing.

- During the first week of the academic semester - 80% refund
- During the second week - 60% refund
- During the third week - 40% refund
- During the fourth week - 20% refund
- After the fourth week - no refund.

Financial Aid
Students who are receiving financial aid are responsible for completing the necessary paperwork far enough in advance to assure the proper credits to their accounts. For further information, please check with the Office of Financial Aid, University Center, Room 124, or the Cashier’s Office, Room 213.

Undergraduate Student Aid
UAH has several programs to assist students in financing their college education. Comprehensive, updated information on all financial aid offered through the Office of Financial Aid is available in a booklet published annually. It includes detailed information about kinds of aid, eligibility guidelines, application procedures, criteria for awards, disbursement methods and regulations, and institutional policy followed in administration of aid. These booklets and necessary forms are available in the Office of Financial Aid.
Students of academic promise who can demonstrate financial need are encouraged to apply for assistance. Realistic financial planning is an essential part of college preparation. UAH helps qualified students find employment, scholarships, and loans as its resources permit. In planning a program of financial assistance, consideration should be given to the advisability of combining scholarships, loans, and part-time employment since one kind of aid alone is inadequate in most cases.

Students should make financial plans well in advance of entering the University. They are advised to write the Office of Financial Aid requesting a copy of the financial aid booklet at the time of application to the University. Applications for student aid should be filed at the Office of Financial Aid before the priority deadline April 1, for the following school year. A new application must be submitted by this deadline each year.

Types of Financial Aid

SCHOLARSHIPS

Listed below are permanently endowed scholarships held by or for the benefit of the university. Distributions are made from these endowments to make annual awards to students. Scholarships are designated for a particular college or academic program or may be available university-wide. Many are subject to additional restrictions and are awarded based on a student's demonstrated financial need and/or academic merit. Every attempt has been made to reflect accurately the donor designations, but the awards will ultimately be directed by the respective fund agreements.

In addition to endowed scholarships, there are a number of expendable scholarships which are funded on an annual basis, for which information is available through the Office of Financial Aid.

University-Wide Scholarships

Carolyne Pride Bell and Robert Kirk Bell Memorial Scholarship was established in 1988 by bequest to the university in memory of Robert K. Bell, a long-time resident of Huntsville, and Carolyne P. Bell, also a resident with a strong desire to help needy students who wish to attend UAH. It is awarded to a deserving full-time student with preference given to students with financial need.

Ehney Addison Camp, Jr. Scholarship was established in 1994 by family members in memory of Ehney A. Camp, Jr., University of Alabama Trustee Emeritus. It is awarded to a full-time student with demonstrated leadership potential in his or her field. Area of academic study is open. Candidate must submit a one- to two-page statement on his or her career goals. Preference is given to students with demonstrated financial need. Renewable.

Bill Dale Wind Ensemble Endowed Scholarship was established in 1984 by Mr. and Mrs. William Dale, friends of UAH who exhibited a life-long interest in music. No specific major is required. Student must be a participant in the UAH Wind Ensemble for two years. Preference is given to students with financial need. Award is for one year.

Decatur Scholarship was established in 1981 and is awarded each year to one student from each of the two Decatur high schools. Student must demonstrate outstanding academic and leadership qualities. Preference is given to students with financial need. Award is for one year.

George W. Ditto Memorial Scholarship was established in 1988 by Mrs. J. O. Hughes to honor the memory of her brother, George W. Ditto, who devoted his life to the teaching profession. It is awarded to a deserving student with demonstrated financial need.

Bobby Austin Lethco Memorial Scholarship was established in 1992, in memory of Bobby A. Lethco, by his guardians, Mr. and Mrs. Ted Randolph, and close friends. It is available to an entering freshman who is a Huntsville High School graduate where he or she must have demonstrated academic achievement and accomplishment. Recipient must be admitted to one of the campuses in the University of Alabama System. Preference is given to students with financial need. Renewable.
McDonnell Douglas Presidential Scholarship was established in 1994 and is designed to recruit the most highly qualified students in Alabama and the region to attend UAH. It is available to an entering freshman who has demonstrated academic achievement, leadership potential, and participation in community and professional activities. Renewable.

William Penn Nichols Memorial Scholarship was established in 1982 with a gift from Vivian Josephine Holliman to honor the memory of her father, William P. Nichols, respected community leader and advocate of education. It is awarded to a full-time undergraduate student in any area of study. Student must exhibit leadership qualities and have a 3.0 gradepoint average. Award is based on academic merit with consideration given to students with demonstrated financial need. Renewable.

Samuel Palmer Memorial Scholarship was established as the university’s first endowed scholarship in 1968 by the bequest to UAH of real estate which has been in the Palmer family for more than 100 years. It is awarded to a full-time undergraduate student with at least a 3.0 gradepoint average, and is available for one year.

Thomas and Minnie Rast Scholarship was established in 1981 by Thomas Rast, a Trustee of the University of Alabama, and his wife, Minnie. It is awarded to a junior or senior student pursuing an undergraduate degree.

M. Louis Salmon Scholarship was established initially in 1988 by members of the Watts family in recognition of Mr. Salmon’s distinguished service to higher education and leadership in civic affairs. Mr. Salmon served as chairman of the UAH Foundation and was a founding member of Research Sites Foundation, Inc. which provided the groundwork for Cummings Research Park, known today nationally and internationally for its corridor of high technology businesses and research and development laboratories. It is available to a junior with at least a 3.0 gradepoint average. Area of academic study is open, with preference given to pre-law majors. Merit consideration is the primary criteria, with financial need being given careful consideration. Renewable.

R. Wayne Sanders Memorial Scholarship was established in 1979 by family and friends in memory of R. Wayne Sanders, an outstanding student and a former employee of Teledyne Brown Engineering. It is awarded to a junior or senior student, with a minimum 2.0 gradepoint average, in any academic area of study.

Charles E. Shaver, Sr. Presidential Scholarship was established in 1987 by the UAH Foundation in memory of Charles E. Shaver, Jr., a prominent Huntsville attorney and original member of the Board of Trustees of the UAH Foundation where he served as chairman for over 13 years. This scholarship recognizes entering freshmen of exceptional ability. Renewable.

Leroy Simms Scholarship was established in 1981 to honor the memory of Leroy Simms, former publisher of The Huntsville Times, and respected advocate and loyal supporter of UAH. It is available to an entering freshman from Huntsville who is a National Merit Semifinalist. It is awarded to the student with the highest ACT composite score among all eligible National Merit Semifinalists.

Spencer Endowed Scholarship was established in 1983 and is available to a junior or senior student with a 3.0 gradepoint average, in any area of academic study. The award is based on leadership potential with consideration of financial need.

Dorothy Wright Thrasher and Tom Goodman Thrasher Presidential Scholarship was established in 1994 by Tom G. Thrasher, Trustee of the UAH Foundation, and his wife Dorothy. It is awarded to a full-time student who has demonstrated leadership potential and participation in community activities. Preference is given to the renewing Thrasher Presidential recipient and to students with demonstrated financial need. Renewable.

UAH Alumni Association Scholarships are awarded to full-time undergraduate students based on leadership ability, academic achievement, and demonstrated financial need.

University Women’s Club Scholarship was established in 1980 by friends and supporters of the UAH Women’s Club. It is awarded to an academically deserving sophomore student with demonstrated leadership potential. The award period is one year.
Dr. J. E. Whitaker Scholarship was established in 1989 by Ann Shrader Whitaker in memory of her husband, J. E. Whitaker, a native of North Alabama who was active in the local medical community for over 50 years. It is awarded to an undergraduate student with a 3.0 grade-point average in any area of study. Recipient must demonstrate financial need. Renewable.

Dr. Harold J. Wilson Memorial Scholarship was established in 1991 with gifts from family, friends, and colleagues in memory of Dr. Wilson who served as Dean of the College of Science from 1984 to 1991. It is awarded to a full-time student who has demonstrated academic achievement in high school. Candidate must submit a one- to two-page statement on his or her career goals and obtain a minimum of two written recommendations from individuals familiar with the student’s academic performance and community activities. Preference is given to minority students. Renewable.

Isadore and Mamie Wind Scholarship was established in 1983 by trust. Awarded to full-time students in any area of academic study.

M. Carl Ziemke Memorial Research Scholarship was established in 1995 by Betty Ziemke in memory of her husband, M. Carl Ziemke, a research faculty member whose love of research was a lifelong commitment. This scholarship is awarded to a full-time undergraduate who exhibits a commitment to research, based on academic merit, citizenship, and leadership. Renewable.

College of Administrative Science Scholarships

Barbara Cooper Bleier and Josephine Cooper Dark Presidential Scholarship was established in 1994 by Billie (class of 1991) and Edwin Bleier, Jr. Preference is given to students with demonstrated financial need over age 25 enrolled in the College of Administrative Science as an undergraduate or graduate student. Renewable.

Margaret Bond Economics Scholarship was established in 1978 and is awarded to a junior or senior economics major with a grade-point average of 3.0.

Josephine Cooper and Henry W. Dark Presidential Scholarship was established in 1994 by Billie (class of 1991) and Edwin Bleier, Jr. This scholarship is awarded to an undergraduate student admitted to the College of Administrative Science. Student must be working toward his or her first degree and demonstrate a need for financial assistance. Renewable.

W. L. and Lucille Howard Memorial Scholarship was established in 1984 in memory of William and Lucille Howard, long-time residents of Huntsville. Mr. Howard spent his career in banking and was Vice President of State National Bank in Huntsville. This scholarship is awarded to students majoring in finance or a related area.

Gregory David Johnston Scholarship was established in 1980 by the UAH Foundation in memory of Gregory D. Johnston who was killed in an automobile accident. Mr. Johnston was a graduate of Huntsville High School and had completed his freshman year at the University of Alabama in Tuscaloosa. This scholarship is awarded to an entering freshman who is a graduate of Huntsville High School and plans to study accounting, economics, management, or business.

W. F. Sanders, Jr. and Paula C. Sanders Scholarship was established in 1995 by W. F. Sanders, a trustee of the UAH Foundation, and his wife, Paula. This scholarship is awarded to a full-time student enrolled in the College of Administrative Science, with preference given to students majoring in finance. Demonstrated financial need is a consideration. Renewable.

Guy J. Spencer, Jr. and Sally C. Spencer Scholarship was established in 1994 by Guy Spencer, a Trustee of the UAH Foundation, and his wife, Sally. This scholarship is available to a full-time student with demonstrated leadership potential enrolled in the College of Administrative Science. Preference is given to students with financial need. Renewable.
College of Engineering Scholarships

William T. and Joe Ann Brooks Scholarship was established in 1995 by William T. Brooks, a Trustee of the UAH Foundation, and his wife, Joe Ann. This scholarship is awarded to a student with demonstrated financial need who is majoring in engineering or the sciences and is based on academic merit, citizenship, and leadership. Renewable.

Dr. Robert A. Brown Scholarship was established in 1990 by colleagues, students, and friends of Dr. Brown, a retired professor in the College of Engineering, who served as a department chairman, advisor, and researcher for 23 years. It is awarded to a junior or senior student in industrial and systems engineering who must maintain a cumulative grade point average of 3.0. Renewable.

Harry C. Crews, Jr. Memorial Scholarship was established in 1992 with memorial gifts by family and friends in memory of Harry C. Crews, Jr., an engineer at Teledyne Brown Engineering. Recipient must be a junior or senior enrolled in the College of Engineering, with a 3.2 grade point average, who has completed two years of study at UAH. Preference is given to co-op students. Candidate must submit a one- to two-page statement on his or her career goals. Renewable.

Dynetics Incorporated Scholarship was established in 1992 with a gift from Dynetics, Inc. It is available to graduate students in the College of Engineering or the College of Science who are pursuing an advanced degree in electrical and computer engineering, optical science and engineering, or computer science. Renewable.

Valmore and Frank R. Fogle Scholarship was established in 1991 by Valmore Fogle, a former NASA employee and active participant in the nation’s space program, and his son, Frank, who received his bachelor’s master’s and doctoral degrees from the College of Engineering. This scholarship is awarded to a full-time junior or senior majoring in industrial and systems engineering or electrical engineering. Recipient must have a cumulative grade point average of 3.0 or have demonstrated academic achievement and accomplishment. A one- to two-page statement of career goals is required. Renewable.

Reggie F. Gilland Memorial Scholarship was established in 1991 by Reginald and Hazel Gilland in memory of their son, Reggie Gilland, the first student known to enter UAH after completing the eleventh grade at Lee High School in Huntsville, Alabama, and who received his bachelor of science degree in 1979. This scholarship is awarded annually to a full-time junior with a 3.0 grade point average who is majoring in electrical and computer engineering. Renewable.

Kenneth E. and Sharon H. Harwell Scholarship was established in 1995 by Dr. Kenneth Harwell, Senior Vice President for Research, and Dr. Sharon Harwell, faculty member at UAH. This scholarship is awarded to a full-time student based on academic merit, citizenship, and leadership, with preference given to students majoring in engineering. Renewable.

James D. Hays Scholarship was established in 1982 and named in honor of James Hays, a highly respected advocate and loyal supporter of UAH who gave generously of his time and energy to ensure the growth of the university. This scholarship is awarded to a full-time junior majoring in engineering.

Brian J. Helmrich Memorial Scholarship was established in 1993 by friends and family in memory of Brian J. Helmrich. This scholarship is awarded to a student with demonstrated financial need who is enrolled in the College of Engineering. Preference is given to a computer engineering major or minor with a grade point average between 2.0 and 3.0.

Carl T. Jones Engineering Scholarship was established in 1968 with an initial gift from the Huntsville Industries Association. Carl Jones was a respected community leader, businessman, and loyal supporter of UAH. This scholarship is available to a junior majoring in civil engineering. The award is based on academic merit and preference is given to native Alabamians.

Yvonne M. Kheir Scholarship was established in 1988 by members of the Kheir family in memory of their mother, Yvonne Kheir. This scholarship is awarded to a student majoring in electrical and computer engineering.
Gary S. Lindsay Memorial Scholarship was established in 1988 by friends and co-workers in memory of Gary Lindsay, a former engineer with Teledyne Brown Engineering. This scholarship is available to a junior with a 3.0 gradepoint average who is majoring in engineering or computer science. Preference is given to students with demonstrated financial need. Renewable.

Dr. Frank C. Liu Memorial Scholarship was established in 1995 by friends and family in memory of Dr. Liu who served as a professor in the College of Engineering’s Department of Mechanical Engineering for over 23 years. This scholarship is available to students majoring in mechanical and aerospace engineering, and the award is based on academic merit. Renewable.

Lockheed Martin Corporation Scholarship was established in 1995 with a gift from Lockheed Martin Corporation. It is available to a full-time student in the College of Engineering. The award is based on academic merit, citizenship, and leadership. Renewable.

NEC Electronics, Inc. Scholarship was established in 1988 with a gift from NEC. This scholarship is available to an incoming freshman majoring in electrical engineering. The award is based on academic merit, leadership, personal integrity, and commitment to excellence. Renewable.

Society of American Military Engineers-Huntsville Post Scholarship was established in 1995 and is available to a full-time junior or senior with a minimum gradepoint average of 2.5, with preference given to students majoring in engineering. The award is based on academic merit, citizenship, and leadership.

College of Liberal Arts Scholarships

Bromberg Scholarship was established in 1986 by Frank Bromberg, Jr., President of Bromberg and Company, Inc., and a Trustee of the University of Alabama. The endowment was funded by Bromberg and Company. It is awarded to an outstanding student majoring in fine arts. The award period is one year.

Broadus Adair and Leila Roberts Fincher Scholarship was established in 1995 by Dr. Samuel P. McManus, Provost, and his wife, Nancy Fincher McManus (Class of 1972), in memory of her parents. It is awarded to deserving students with demonstrated financial need, with preference given to students majoring in the arts and sciences.

Suzanne, Kay, and Gregory Ford Memorial Scholarship was established in 1984 by Melissa Ford Thornton (Class of 1984) in memory of her mother, grandmother, and brother. It is awarded to a student enrolled in the College of Liberal Arts who has earned a minimum score of 30 on the English portion of the ACT. Renewable.

Dr. Daniel G. Hays Memorial Scholarship was established in 1982 by friends, former students, and family in memory of Dr. Hays, former Associate Professor of Psychology at UAH. It is available to an undergraduate or graduate student in the College of Liberal Arts who has a demonstrated financial need. Renewable.

Felix L. Newman Scholarship was established in 1977 by Felix Newman, a devoted and supportive friend of UAH. It is awarded to a junior or senior enrolled in the College of Liberal Arts who is majoring in the humanities or behavioral sciences. An additional scholarship may be awarded to a junior or senior in any area of study.

John Carl Powell Memorial Scholarship was established in 1995 by Ms. Laurel Brown (Class of 1981) in memory of her husband. It is available to sophomore, junior, or senior students enrolled in the College of Liberal Arts. Preference is given to students majoring in history, political science, or English. The award is based on academic merit, citizenship, and leadership. Demonstrated financial need may also be considered. Renewable.

Frances Cabaniss Roberts Scholarship was established initially by the History Department to honor the many contributions of Dr. Roberts, a professor who devoted 29 years of unreserved and dedicated service to the university dating from the time of its inception. It is available to full-time junior or senior, with preference given to history majors. The award is based on academic merit, and the award period is one year.
David Lee Wells Memorial Scholarship was established in 1986 with memorial gifts from his parents, Mr. and Mrs. David Wells, and two older brothers. David L. Wells had dreams of becoming a professional musician. It is available to a full-time student enrolled in the College of Liberal Arts who has demonstrated leadership potential in the field of music through participation in professional or community activities and personal accomplishments. Preference is given to students with demonstrated financial need. Renewable.

Kelly Zettle Memorial Scholarship was established in 1974 by Mr. and Mrs. Robert Zettle in memory of their daughter, Jacqueline Kelly Zettle, a former violin student at UAH. It is awarded to a full-time student majoring in music. Preference is given to students with demonstrated financial need.

College of Nursing Scholarships

James Allan Clark Memorial Scholarship was established in 1990 from gifts to the UAH College of Nursing in memory of James Allan Clark who participated in the design of the College of Nursing Building. It is awarded to a College of Nursing student, preferably an R.N., L.P.N. or L.R.N. who has returned for a degree. Preference is given to students with demonstrated financial need.

Elizabeth M. Fisher Memorial Scholarship was established in 1985 with memorial gifts from friends and family of Elizabeth Fisher, a woman who studied nursing and remained interested in the health care profession and higher education throughout her life. This scholarship is available to a full-time graduate student in nursing who has a demonstrated financial need. Preference is given to minority candidates. Renewable.

Huntsville Hospital Scholarship, formerly Humana Hospital Scholarship, was established in 1987 with a gift from Humana. It is available to a junior who has maintained a 3.0 grade-point average. Preference is given to students majoring in nursing. Renewable.

Christine Martin Pruitt Memorial Scholarship was established in 1987 by Fay and Roland J. Martin in memory of their daughter, Christine Martin Pruitt, a 1977 graduate in nursing. It is available to a senior nursing student who has an overall grade-point average of 3.0. Financial need may be considered but is not a primary factor. The award is for one year.

Mildred D. Simmons Memorial Scholarship was established in 1979 by a gift from William K. Simmons, Jr. and other devoted friends and relatives in memory of Mildred D. Simmons, a graduate of the Crawford W. Long School of Nursing who practiced in Huntsville for many years. It is awarded to a student in the College of Nursing, based on clinical competency as judged by a committee of the faculty.

JoAnn Sloan Memorial Scholarship was established in 1976 from gifts to the university in memory of JoAnn Sloan. It is awarded annually to a full-time student in the College of Nursing.

College of Science Scholarships

William T. and Joe Ann Brooks Scholarship was established in 1995 by William T. Brooks, a Trustee of the UAH Foundation, and his wife, Joe Ann. This scholarship is awarded to a student with demonstrated financial need who is majoring in engineering or the sciences and is based on academic merit, citizenship, and leadership. Renewable.

Broadus Adair and Leila Roberts Fincher Scholarship was established in 1995 by Dr. Samuel P. McManus, Provost, and his wife, Nancy Fincher McManus (Class of 1972), in memory of her parents. It is awarded to deserving students with demonstrated financial need, with preference given to students majoring in the arts and sciences.

Dynetics Incorporated Scholarship was established in 1992 with a gift from Dynetics, Inc. It is available to graduate students in the College of Engineering or the College of Science who are pursuing an advanced degree in electrical and computer engineering, optical science and engineering, or computer science. Renewable.

Harry C. Fisher Memorial Scholarship was established in 1990 with memorial gifts from family and friends in memory of Harry C. Fisher, a former executive with the Ford Motor
Company, who had a keen interest in aiding students, especially minorities, in the study of science. It is awarded annually to a student in the College of Science. Recipient must demonstrate financial need, and preference is given to minority students. Renewable.

Gerhard B. Heller Memorial Scholarship was established in 1972 with memorial gifts from family and friends in memory of Gerhard B. Heller, part of the Peenemuende team under the direction of Dr. Wernher von Braun. It is awarded to a full-time junior or senior who is majoring in physics or chemistry. Candidate must have an overall 3.0 grade point average, with a 3.5 in the major. Award period is one year.

Gerry Higgins Scholarship for Excellence was established in 1994 with gifts from family and friends in memory of Gerry Higgins (M.S., 1989). It is available to an undergraduate or graduate student majoring in computer science who has demonstrated academic achievement and accomplishment. Renewable.

Gary S. Lindsay Memorial Scholarship was established in 1988 by friends and co-workers in memory of Gary Lindsay, a former engineer with Teledyne Brown Engineering. This scholarship is available to a junior with a 3.0 grade point average who is majoring in engineering or computer science. Preference is given to students with demonstrated financial need. Renewable.

Calvert Franklin Sammons Memorial Scholarship was established in 1993 with a gift from Dr. Robert A. Sammons in memory of his wife, Calvert F. Sammons, a long-time resident of Huntsville who was a strong advocate of higher education. It is awarded to a student who is a graduate of a Huntsville city high school and who is enrolled in the College of Science, with preference given to female students. Renewable.

State Nursing Scholarships

An act was passed by the Alabama legislature in 1957 to provide scholarships for basic nursing education. These scholarships are awarded to applicants from the state-at-large. Applicants must be Alabama residents and accepted for admission by the UAH College of Nursing. Continuation of the scholarship for three years after the first year is subject to annual review and contingent upon the student’s progress and aptitude. A scholarship student must agree to practice professional nursing in Alabama for at least one year immediately after graduation from the UAH College of Nursing. If the recipient is unable to fulfill the obligation, it may be satisfied by repaying the amount of the scholarship received to the UAH Scholarship Fund.

Loans

Although it is sometimes necessary to borrow money to finance an education, caution is advised. Generally, a student should not rely primarily on loans and is advised not to borrow more than half of what is needed to meet expenses.

The Federal Perkins Loan Program is available to all students enrolled at least half-time and who have exceptional financial need as determined by the Free Application for Federal Student Aid (FAFSA). An undergraduate may be eligible to borrow a maximum of $15,000 over several years. Graduate or professional students may be eligible to borrow a maximum of $30,000, including their undergraduate loans. The program contains a provision that part of the loan plus interest may be canceled if the borrower performs military service in hostile areas. Forgiveness is also provided for teachers of handicapped or disadvantaged students and for those teaching in other special programs designated by the U.S. Office of Education.

The Federal Stafford Loan Program (subsidized and unsubsidized) provides federal backing for loans made through private lending agencies such as banks, savings and loans, and credit unions. A maximum of $2,625 per academic year may be applied for in most states for freshmen, $3,500 for sophomores, $5,500 for juniors and seniors, and $8,500 for students enrolled in graduate school if the educational costs warrant borrowing this much money. Total loans outstanding may not exceed $23,000 for undergraduates. The aggregate maximum may be extended to $65,500 for students who borrow for graduate study.
Federal PLUS Loans. Federal PLUS Loans are for parents to assist with payment of education expenses for sons and daughters. These loans provide additional funds for education expenses and are not need-based. Funds are provided by banks, credit unions, or savings and loan associations. Each year parents may borrow up to the cost of education less financial aid.

Grants

A Federal Supplemental Educational Opportunity Grant provides aid to undergraduate students who would not otherwise be financially able to attend college. A student must be accepted for enrollment, show evidence of academic promise, and be capable of maintaining good standing in the chosen course of study. Grants may be renewed for the four years of undergraduate study, subject to the availability of funds, unless a major change in the family's financial condition causes the student to be ineligible. Grants are awarded in compliance with eligibility based on federal guidelines.

The Federal Pell Grant Program assists eligible students by providing help in meeting the cost of postsecondary education. To be eligible, a student must meet the following criteria: (1) establish financial need; (2) be enrolled in an eligible program; (3) be a U.S. citizen or in the U.S. for other than a temporary purpose and intend to become a permanent resident or be a permanent resident of the Trust Territories of the Pacific Islands.

The Alabama Student Assistance Program is a state/federal aid program designed to provide Alabama residents financial assistance for undergraduate postsecondary education. Grants are awarded for one year. The grants are renewable, but new applications must be made each year. All awards are determined by student eligibility requirements, available funds, and student need. Students should contact the Office of Financial Aid for information regarding eligibility, application, selection, and awards procedures.

Federal Financial Aid Repayment

Federally funded student financial aid (Pell, SEOG, Stafford) awarded to a student who withdraws after registration but before the end of the refund period will be repaid to the respective program source. When withdrawal or reduction of class load occurs after the end of the refund period, full-tuition charges will be paid from the aid source. The unused portion of the aid will be repaid to the respective aid source. Specific regulations governing this policy may be found in Student Financial Aid, a brochure available in the Office of Financial Aid.

Federal Work-Study Program

The College Work-Study Program provides employment for students who need financial assistance. A student works part-time while attending the University and during vacation periods. Students engaged in this program work on campus or in a non-profit agency. In determining eligibility, preference will be given to students with the greatest financial need.

Tuition Assistance

Some businesses and industries provide tuition assistance to employees attending UAH. An employed student should consult the personnel office of his or her place of employment to determine its policy regarding tuition assistance.

Vocational Rehabilitation

Students with a physical disability may obtain grants-in-aid covering fees, books, and supplies through the Vocational Rehabilitation Service, which is supported by federal and state appropriations. For further information, write to: Alabama Vocational Rehabilitation Service, 407 Governors Drive, S.W., Huntsville, Alabama 35801 or the Director of Vocational Rehabilitation, Room 416, State Office Building, Montgomery, Alabama 36104.
Veterans Affairs

UAH offers a full range of services to the student attending under the Veterans Administration Educational Assistance Program. These services include veterans' advisement, educational loans, and the Veteran Tutorial Program.

Under the current Veterans Educational Assistance Programs, which affect most veterans, the veteran receives an allowance directly from the government. The veteran is responsible for paying fees directly to the University and meeting payment deadlines applicable for all students.

The Veterans Administration will make full payment only when the student carries a full academic load. To facilitate the prompt and accurate reporting of the student's status and course load, the veteran must complete a brief form every semester enrolled. This form must be turned in to the veterans affairs clerk in the Office of Financial Aid, Room 124, University Center.

It is the student's responsibility to remain in good standing with the Veterans Administration and to respond to notification of changes in regulations. For additional information, write to: Veterans Administration Regional Office, 474 South Court Street, Montgomery, Alabama 36104.

Many students who are children of veterans of World War I, World War II, or the Korean War may be eligible for benefits under the War Orphans Educational Assistance Act (PL 634). Write the nearest Veterans Administration Regional Office for additional information.

The Alabama G.I. and Dependents Education Benefits Act grants tuition assistance to eligible veterans, their children, widows and wives. Tuition is paid directly to the school. For additional information, write to: Assistant to the Director, Department of Veteran's Affairs, P.O. Box 1509, Montgomery, Alabama 36102.
Academic Information

Academic Advisement and Information Center

Academic advising is available to students in the Academic Advisement and Information Center, in advising offices in the Colleges of Nursing, Engineering, and Administrative Science and in the department or program in which a major has been declared. Special advising is provided in the professional areas of law and medicine, and career counseling is available through the Office of Career Services. Freshmen and undeclared majors are advised in the Academic Advisement Center or, in the case of engineering, nursing, and administrative science freshmen, in the advising offices of the colleges. When students declare a major (program of study), they are assigned a faculty advisor in their major department or program. All students are encouraged to maintain contact with their advisors and to take advantage of the opportunities for academic advising which the University provides.

Located in Room 118 University Center, the Academic Advisement and Information Center is staffed by a team of experienced faculty. They assist prospective and enrolled students in course and program planning, disseminate accurate information about academic programs and procedures, make referrals to appropriate offices and services, and advise and register students during registrations and orientations. Appointments may be made by calling 890-6290.

All freshmen and undeclared students in liberal arts and sciences are required to visit the Advisement Center at least once each semester to review their academic progress and to plan their schedule of courses for the next semester. These schedules must be signed by an advisor in the AAIC in order to be processed by the Office of Student Records. Undergraduates enrolled as conditional students must also have schedules validated each semester in the Academic Advisement Center as long as they remain in the conditional student category. Sophomore students outside of the three professional colleges (Administrative Science, Engineering, and Nursing) who have not declared a major will be advised in the Advisement Center and will continue to have their registration cards signed by advisors in the AAIC.

Prospective transfer students who wish to gain information concerning the general requirements of various undergraduate degree programs may seek the services of the Academic Advisement and Information Center. These students are further referred to department chairs who can aid them in program planning in their major fields of interest. Transfer students will be advised and registered by the appropriate faculty advisor. Once enrolled at the University, transfer students beyond the freshmen level who are not enrolled in the Colleges of Engineering, Nursing, and Administrative Science, are advised by the Academic Advisement and Information Center for the first semester.

Academic rules and regulations stated in this catalog are subject to review for extenuating circumstances. Students are encouraged to use the services of the Academic Advisement and
Information Center for the appropriate procedure of appeal. Academic appeals originate with the student and will be processed through the student’s major department, the dean of the college and the Office of the Provost and Vice President for Academic Affairs, in that order.

Non-discrimination Policy

The University of Alabama in Huntsville is committed to making employment opportunities available to qualified applicants and employees without regard to race, color, religion, sex, age, national origin, or disability. All personnel actions and programs, including recruitment, selection, assignment, classification, promotion, demotion, transfer, layoff and recall, termination, determination of wages, conditions, and benefits of employment, etc., shall be administered in accordance with this equal opportunity policy. It is the intent of the University that, in all aspects of employment, individuals shall be treated without discrimination on any of the foregoing bases, and that employment decisions shall instead be premised upon a person’s ability, experience, and other job-related qualifications.

Additionally, the University is an affirmative action employer of women, minorities, qualified individuals with a disability, and covered veterans. It is committed to making sustained, diligent efforts to identify and consider such individuals for employment and for opportunities arising during employment.

UAH is also committed to equal educational opportunity for all qualified students and does not discriminate in its educational policies, practices, programs, or activities on the basis of race, color, religion, sex, age, or national origin, or against qualified disabled persons. Its admissions, financial aid, athletics, student services, and other programs are administered in accordance with this policy.

These commitments are designed to meet nondiscrimination/affirmative action requirements imposed by the following federal and state sources of legal obligation, as amended: Title VI and VII, Civil Rights Act of 1964; Executive Order 11246; Title IX, Education Amendments of 1972; the Rehabilitation Act of 1973; the Equal Pay Act of 1963; the Age Discrimination in Employment Act of 1967; the Vietnam Era Veterans’ Readjustment Assistance Act of 1974; the Immigration Reform and Control Act of 1986; the Age Discrimination Act of 1975; the Americans with Disabilities Act of 1990; contract and grant agreements with governmental agencies; and the Alabama Constitution of 1901. The University’s equal opportunity policies pertaining to its employees and students include specific administrative procedures and implementing measures designed to carry out these pledges and to ensure compliance with the foregoing laws.

Inquiries or complaints concerning the application to these federal and state requirements and this policy should be directed to one of the following persons:

Dr. Jeanne Fisher
Student Equal Educational Opportunity Officer
114 University Center
The University of Alabama in Huntsville
Huntsville, AL 35899 (205-890-6700)

Dr. Carolyn White
Faculty Equal Employment Coordinator
123 Madison Hall
The University of Alabama in Huntsville
Huntsville, AL 35899 (205-890-6734)

Ms. Gerry Moore
Staff Equal Employment Coordinator
135 Madison Hall
The University of Alabama in Huntsville
Huntsville, AL 35899 (205-890-6545)
Marital, Parental, or Temporary Disability Status

The University does not discriminate against any student or exclude any student from its educational program or extracurricular activity on the basis of a student's sex, marital, or parental status. Pregnancy or related conditions are treated the same as other temporary disabilities. The University may require written approval of a student's physician regarding participation in an activity or educational program which might adversely affect the safety or health of a student with a temporary disability.

Confidentiality of Student Records

The Family Educational Rights and Privacy Act of 1974 is a federal law which protects the confidentiality of student educational records. To implement this law UAH has formulated and adopted a written institutional policy governing the handling of these records. Copies of this policy document are available to students at the Office of Admissions and Records, and it should be referred to for a more comprehensive treatment of this subject than is given in the summary statement here.

Under this law and university policy, a student has a right of access to his or her educational records and may inspect and review the information contained in them. The term "educational record" generally refers to any record maintained by the institution directly pertaining to an individual as a student, other than that made by institutional, supervisory, or administrative personnel remaining in the sole possession of the maker; by campus security; or by a physician, psychiatrist, or any other such professional medical personnel. This right of access does not extend to financial information submitted by the student's parents or to confidential letters and recommendations collected under established policies of confidentiality and placed in student files before January 1, 1975. Furthermore, the student may at his or her discretion waive the right to any confidential letters of recommendation.

If a student believes his or her records contain inaccurate, misleading, or otherwise inappropriate data, he or she may bring the matter to the attention of the records official concerned. If by informal discussion with this official the student does not obtain the corrective action desired, he or she is entitled to a hearing at which he or she may challenge the item he or she finds objectionable. The decision of the hearing official or panel shall be final. If the decision is adverse to the student, he or she may insert in his or her educational record an explanatory statement relating to the contested item.

A student's privacy interest in his or her records is further protected by the rule against unauthorized disclosure. The University may not without the student's consent release his or her educational records or any personally identifiable information contained in them to other individuals or agencies. Disclosure to the following parties, however, is specifically excepted by the Privacy Act from this rule: (a) administrative and academic personnel within the institution who have a legitimate educational interest; (b) officials of institutions in which the student seeks to enroll; (c) persons or organizations to whom the student is applying for financial aid; (d) accrediting agencies; (e) organizations conducting studies relating to tests, student aid programs, instruction; (f) certain federal and state government officials; (g) any person where the disclosure is required for compliance with a judicial order to proper subpoena; (h) appropriate persons where a health or safety emergency affecting the student exists; and (i) parents of a dependent student. As to some of these parties, additional conditions must be met in order for the disclosure to be allowable in the absence of a written consent from the student. Personally identifiable information will be transmitted by the University to a third party only on the condition that the recipient not permit any other party to have access to it without the student's consent.

The University may release directory information to others without the necessity of obtaining permission from the student. Directory information is limited to the student's name, address (local and permanent), telephone number, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height statistics if he or she is an athletic team member, date of attendance, degrees and awards received, and the previous
educational institution most recently attended. If the student does not wish this information to be released, he or she may so indicate on the form provided at the time of registration, and the university will withhold it during that particular semester. This request for nondisclosure of directory information must be renewed each semester.

The following officials have been designated as records officials for student records within their respective area:

- Associate Provost
- Assistant Vice President for Enrollment Management (Admissions and Records)
- Director, Academic Advisement and Information Center
- Director, Cooperative Education
- Assistant Dean, College of Administrative Science
- Engineering Department Chairs
- Associate Dean, College of Nursing
- Director of Student Affairs, College of Nursing
- Director, Continuing Education
- Vice-President, Student Affairs
- Director, Financial Aid
- Director, Student Development Services

Requests concerning educational records should be directed to the appropriate official listed above. Any student who believes that his or her rights under the Privacy Act have been violated by the University may notify and request assistance from the Provost and Vice President for Academic Affairs and may file a complaint with the Family Educational Rights and Privacy Act Office, Department of Health, Education, and Welfare, Washington, DC 20201.

**Academic Responsibility**

Students at the University of Alabama in Huntsville have the following academic responsibilities:

1. To enroll in only those courses for which the stated prerequisite(s) (if there are any) have been satisfactorily completed. Failure to comply with this procedure may result in administrative withdrawal.
2. To attend all meetings of each class in which they are enrolled. Instructors will announce at the beginning of the semester if they consider attendance in computing final grades.
3. To observe all regulations of their college and select courses according to the requirements of that college.
4. To consult their advisors on all matters pertaining to their academic careers, including changes in their programs.
5. To answer promptly all written notices from advisors, faculty, deans and other University officers.
6. To maintain the integrity of the classroom by practicing academic honesty. Students should refer to the student handbook for details regarding academic dishonesty.
7. To file an “Application for Degree” in the Office of Student Records one semester before the expected date of graduation.
8. To be personally responsible for fulfilling all requirements for graduation and observing all regulations at UAH.

**Academic Honesty**

Plagiarism and other forms of cheating are subject to penalties as outlined in the student handbook. A graduate student found guilty of plagiarism or falsification of research data/results is subject to dismissal from the University.
Instructional and Testing Services

The tests used for admissions, credit by examination, and placement which are administered through this office include: the Accounting Program Admissions Test (APAT), the American College Testing (ACT), the Alabama Basic Skills Test (BST), the College Level Examination Program (CLEP), the Graduate Record Examination (GRE), the Miller Analogies Test (MAT), the Medical College Admissions Test (MCAT), and the UAH Chemistry and Mathematics Placement Tests. Applications and information pertaining to the following testing programs are also available: the Graduate Management Admissions Test (GMAT), the Law School Admission Test (LSAT), the PRAXIS Series for beginning teachers, and the Test of English as a Foreign Language (TOEFL).

Testing calendars with dates and deadlines, as well as information pertaining to testing, are available in the Office of Instructional and Testing Services located in Room 226 of the Administrative Science Building, telephone 890-6725.

Placement Tests

All students who are beginning college-level course work in English, mathematics, chemistry, or a foreign language (if taken in high school) are placed at the level best suited to their academic preparation and background.

Placement in English and mathematics is determined by ACT scores and high school grades. A placement test may also be required for entry into some mathematics classes.

To register for Chemistry 121, a student must be placed in CH 121 from results of the Chemistry Placement Test, or must have taken CH 101 or its equivalent.

A student who has had formal training in French, German, Spanish, or Latin is placed on the level of that language according to the number of units and grades earned in high school. A student who takes a language other than the one in which he or she has had formal training will begin with level 101.

The Chemistry and Mathematics Placement Tests are scheduled regularly. The Residual ACT Test is administered once each semester. Students wishing to take these tests should register in the Office of Instructional and Testing Services (890-6725) at least three days before the tests are to be given. Students will be notified at the time of the tests when they can expect to receive the results of the tests. There is a charge for the Residual ACT. The Chemistry Placement Test and Mathematics Placement Test are free. If a student has not received placement recommendations before enrollment, he or she should contact the Office of Admissions.

Credit by Examination

At UAH a student may obtain up to one-fourth (32 semester hours) of required degree credits by examination. There are three alternatives by which a student may gain credit through examination at UAH: 1) departmental examinations, 2) the Advanced Placement (AP) Program, 3) the College Level Examination Program (CLEP). These alternatives are subject to the following restrictions. Credit by examination is not allowed: 1) to receive credit when a student has successfully completed a course at a higher level than the one being challenged, 2) to raise a passing grade, 3) to remove failures received in a course during the period of current enrollment, or 4) to satisfy the residence requirements for graduation.

1) Credit by Department Examination

Departmental examinations for credit in specific courses may be given by a department upon application by the student and with the approval of the department chair. Students may apply for such a test if they have taken college-level work in secondary school, in a non-collegiate class or on a tutorial basis, or through private study. Credit, if awarded, will be recorded without grades or quality points and will not, therefore, be included in calculation of the grade point average. The amount of credit allowable through departmental examinations is determined by the appropriate academic dean and the department chair concerned.
Departments offering credit by examination on tests constructed by the department:

Biological Sciences..........................................................Contact Department Chair
Computer Science..............................................................All 100 and 200 level courses
Foreign Languages..........................................................Contact Department Chair
Mathematics........................................................................MA 033
Music..........................................................MU 100, 201, 202, 203, 204, 301, 302, 303, 304, 311, 312
Nursing ...............................................................................Contact Nursing Student Affairs Office
Philosophy ...........................................................................PHL 201, 320

2) Advanced Placement Program

Several UAH departments award credit to students who have earned designated scores on Advanced Placement (AP) Program examinations of the College Entrance Examination Board. AP examinations are usually taken at the end of an AP-designed course of study in high school. The subjects in which credit is presently awarded are biological sciences, chemistry, computer science, English composition and literature, American and European history, mathematics, music, physics, political science, and some foreign languages. Credit, if awarded, will be recorded without grades or quality points and will not, therefore, be included in calculation of the grade point average.

3) College Level Examination Program (CLEP)

The College Level Examination Program is a national program under which a person can receive credit for college level achievement. Anyone who has practical knowledge in an area through independent study, work experience, cultural exposure, and intensive reading, may substantially reduce the cost in both time and money spent on a college degree by taking one or more of these tests. The policy for CLEP credit varies with each institution. The policies listed herein are those of UAH. These tests are given regularly but must be registered for approximately three weeks before the testing date. For a complete listing of dates and deadlines, contact the Office of Instructional and Testing Services in Room 226, Administrative Science Building.

### CLEP General Examinations

The General Examinations are objective tests that measure achievement in five basic areas of the liberal arts: English composition, humanities, mathematics, natural sciences, and social sciences and history. Credit by General Examination can be given only if examinations were taken before entering college or during first semester in college, providing the student has not been enrolled in a comparable course for more than three weeks. The student may be awarded six hours elective credit per examination. To achieve credit for any of the general tests, the student must score a minimum of 549. No credit is awarded for scores below 549. Credit is recorded without grades or quality points and is counted as elective credit only.

### CLEP Subject Examinations

Credit by CLEP subject examination is allowed only if the appropriate academic department has approved the CLEP test for use by the University. Credit awarded for CLEP subject examinations will be recorded on the student's record without grades or quality points and will not, therefore, be included in calculation of the grade point average. If a student does not pass a CLEP test(s), no record is placed on his or her transcript. Subject examinations may be retaken six months after initial testing. The CLEP subject tests and minimum score for credit which are accepted as substitutes for UAH courses are listed below: (See Foreign Language section for additional information on CLEP.)

<th>Senior</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-29</td>
<td>30-59</td>
<td>60-91</td>
<td>92 up</td>
<td></td>
</tr>
</tbody>
</table>

**Student Course Loads**

The typical full-time undergraduate course load is 15-18 semester hours each semester. Students should take between 30 and 33 hours annually in order to graduate in four years. The minimum full-time load for an undergraduate student is 12 semester hours a semester. A part-time undergraduate student is one who is enrolled in less than 12 semester hours. Permission of the student’s dean is necessary to enroll in 21 hours or more, including simultaneous correspondence courses. A student enrolling for a minimum load each semester should not expect to graduate in four years unless he or she enrolls in four summer terms in addition to the regular academic year.

**Orientation**

A new student orientation program is held before the beginning of each semester or during the first week of classes. Students accepted for admission will be invited to attend.

**Registration**

Dates of priority and open registration are listed in the UAH calendar. Any continuing or returning student eligible to register may take part in priority registration. All past financial obligations to the University must be cleared before a student may register for courses.

A student who schedules courses during any registration period (priority or open) will have made a financial commitment to the University. If courses are dropped or changed, the student must submit these changes in writing to the Office of Student Records. Adjustments in fees, if any, will be made by the Bursar’s Office.

**Schedule Adjustments**

After a student has completed registration, all changes in his or her schedule must be made on a change-of-course form and recorded in the Office of Student Records. Advisor signature may be required.

**Credit to Audit**

A student is permitted to change a course from credit to audit only during the first three weeks of classes.

**Removal of Course from Schedule**

1. In the case of a canceled class, submission of a change-of-course form by the student helps to correct the record.
2. In the case of a drop before class begins, a change-of-course form must be submitted before the first day of the semester.
3. Except in the case of (1) or (2), removal of a course after the first scheduled meeting of a class is considered a withdrawal (see below).

Other Kinds of Changes
The following kinds of changes may be accomplished only during the designated hours of open registration and the schedule adjustment period.
1. Change from one course to another.
2. Change from one section to another section of the same course.
3. Addition of course to schedule.
4. Change from audit to credit. Only students who are otherwise eligible to take the work for credit will be permitted to make this kind of change.

Withdrawal Policy
Through the eighth week of the Fall or Spring Semester a student may withdraw from any course. After the eighth week, a student may withdraw from a course only under extenuating circumstances and with the approval of the dean of the college in which the student is enrolled. In any case the student must initiate a formal request for withdrawal through the Office of Student Records. Class non-attendance does not constitute withdrawal nor does notification to the instructor. Any student failing to follow the established procedure for withdrawal will continue to be enrolled in the class and may receive a failing grade in that course.

Recording of Withdrawals
If the withdrawal process is completed during the first two weeks, the withdrawing student's name does not appear on the final rolls of the class from which the student withdrew, and that course does not appear on the student's permanent record. If the withdrawal process is completed after the first two weeks, then the withdrawing student's name will be on the final roll of the class from which the student withdrew, and that course will be recorded on the student's permanent record with a final grade of W. It is the responsibility of the Office of Student Records to inform each instructor in a timely manner (in writing) when a student appearing on the instructor's final class roll withdraws from that course. The University does not use grades of W to compute grade point averages.

Approvals Required
The University does not require that the student justify any course withdrawal completed before the end of the eighth week. After the eighth week, the student must give evidence of extenuating circumstances to justify withdrawal from a course. Avoidance of an undesirable grade does not justify withdrawal. It is the duty of the dean of the college in which the student is enrolled to verify that the circumstances justify withdrawal from a course. In addition, students participating in certain programs must secure approval or give adequate notification to the appropriate officers of these programs. It is the joint duty of these programs and the Office of Student Records to insure that students participating in these programs are aware of any such requirements.

Counseling
Students need to be aware that many potential employers, as well as graduate and professional schools, view an excessive number of W's on a transcript as a flag that the student cannot be counted on to complete demanding projects. Advisors should be informed of this fact and students should be encouraged to discuss with their advisors any plans to withdraw from a course, especially after the first two weeks of the semester.

Retroactive Withdrawal Policy
Undergraduate students may at times experience extraordinary problems during an academic semester. Within two years of having completed such a semester, a student may petition the Vice President for Student Affairs to withdraw retroactively from ALL classes taken
during that semester. A retroactive withdrawal is granted only under exceptional circumstances, such as extraordinary medical or personal problems. The petition should include clear and documented evidence whenever possible. If a retroactive withdrawal is granted by the Vice President for Student Affairs, the grades for all courses taken during the semester in question will be changed to W's.

Course Repeat Policy

The course repeat policy allows students to repeat courses on a limited basis in order to improve the grade in a course. Undergraduate students may have up to five separate course repeats in courses in which they have earned a grade of C, D, or F at UAH. Courses taken at UAH must be repeated at UAH. For courses selected as repeats under this policy, the transcript will show both the original grade and the course repeat grade, but only the grade points and credit hours earned in the repeat enrollment will count toward graduation and will be averaged into the student's overall grade point average. Prerequisite courses for other courses in which the student has earned academic credit are ineligible for application of this course repeat policy. For example, MA 119 may not be repeated if the student has credit for calculus. Concurrent registration for multiple sections of a course is not allowed.

For all other courses repeated at UAH, both the original grade and the repeated grade will show on the transcript and will be calculated in the student's grade point average. A student wishing to exercise the Course Repeat option must file the intent to do so in the Office of Records (UC 116) before the end of registration.

Class Attendance

Education at UAH depends upon the cooperation of students and faculty. Students are held responsible for the full work of the course in which they are registered, including participation in the discussion and work of the class at each class meeting.

A student's final grade in each course is determined on the basis of identified course requirements; therefore, regular class attendance is important.

Examinations

During each semester, one or more announced examinations of class period length may be held. At the end of each semester, a final examination period is scheduled for each course. Absences from a scheduled final examination without previous arrangement with the course instructor (except in extenuating circumstances) will be classified unexcused and a failing grade in the course will be assigned.

Any student whose final examination schedule is such that he or she is scheduled to take three examinations during a single day shall have the right to have the middle examination rescheduled. The date and time of the rescheduled examination shall be by mutual agreement between the student and the affected faculty member and must be agreed upon prior to the final week of the semester. It is the student's responsibility to notify the instructor of this type of conflict, and it is the instructor's responsibility to verify that the conflict actually exists. If a student is scheduled to take four examinations during a single day, then the same procedure shall apply except that the student shall now have the right to have both the second and third examinations rescheduled.

Grading System

The University of Alabama in Huntsville's grading system includes grades of A, B, C, D, F, I, X, W, S, U, P, AU, and N.

A Superior achievement. Four quality points given per semester hour.

AU Audit. Course attendance as a listener. No credit given, no quality points assigned, no attendance requirement.

B Above average achievement. Three quality points given per semester hour.
C Average achievement. Two quality points given per semester hour.
D Passing work. One quality point given per semester hour.
F Failing work. No credit given; no quality points assigned.
I Incomplete. Assigned by the instructor when a student, due to circumstances beyond his or her control, has not satisfied some requirement of the course. The deadline for a student to remedy a grade of I is the last day of class of the next semester enrolled or one calendar year from the date of the grade whichever occurs first. If the grade of I is on a student's record at the time of graduation, it is treated as an F.
N No grade. Assigned by the Office of Student Records when a grade is not reported by the instructor.
NC No credit.
P Passing work. Assigned in some courses. See Pass-Fail Option.
S Satisfactory work. Applicable to noncredit courses and to some specified credit courses, and will not be counted in the GPA.
U Unsatisfactory work. Applicable to noncredit courses and to some specified credit courses. It will be counted as an F and computed in the GPA for undergraduates, but not graduate students.
W Withdrawal. Recorded by the Office of Student Records when a student withdraws from a course with passing work. (See Withdrawal.)
X Excused absence from examination. Assigned by the instructor when a student completes all course requirements except the final examination. This grade becomes an F unless the examination is completed by the time of the announced deferred examination date at the beginning of the semester of next regular enrollment of the student. (See Examinations and UAH calendar.) Time schedule permits a student to take only one examination on this date. If a student receives more than one grade of X, he or she should make arrangements directly with other instructors for additional make-up examinations.

Change of Grade
A student is permitted a maximum of one semester from the date a grade is assigned to request a change of course grade. Grades submitted to the Office of Student Records can normally be changed only by submission by the instructor of a Change of Grade form containing a written explanation of the error. The Change of Grade form must be approved by the department chair and received in the Office of Student Records no later than two semesters from the date the original grade was assigned.

Student Grade Report
At the completion of each semester, a report of final grades is mailed to the address furnished by the student.

Grade Point Average
The grade point average (GPA) is computed by dividing the total number of quality points earned by the total number of semester hours attempted. Courses in which a grade of W, P, S, or AU is assigned are not included.

Academic Achievement
Honor Scholar
An undergraduate student in good standing earning 12 or more semester hours in a semester with a GPA of 3.50-4.00 is distinguished by being identified as an honor scholar. A GPA of 4.00 is noted with an asterisk "*".
Scholar
An undergraduate student in good standing earning 12 or more semester hours in a semester with a GPA of 3.00-3.49 will be designated on the list of scholars.

Graduation with Honors
A student graduating at the bachelor’s level will have honors determined by identifying the academic sessions containing the last 64 hours of coursework taken to fulfill graduation requirements, and the GPA of all courses taken by the student at UAH to satisfy degree requirements during those terms will be computed and the honors will be determined as follows:

If the GPA computed as above is 3.90 or above, the student graduates *summa cum laude*.
If the GPA computed as above is 3.70 or above (but below 3.90), the student graduates *magna cum laude*.
If the GPA computed as above is 3.40 or above (but below 3.70), the student graduates *cum laude*.

Honors Convocation
The University faculty recognizes and honors those students who have attained academic excellence at a convocation held in the spring of each year. At the Honors Convocation, students who have been inducted into the honor societies, who have been named to the dean’s list in each college, and who have attained excellence in academic programs are recognized.

Academic Warning, Probation, and Dismissal
An undergraduate student must maintain an average of 2.0 (C) grade point average (GPA) on all work attempted at UAH to be in good academic standing.

A student whose semester GPA at UAH falls below 2.0 (C) will be placed on academic warning, probation, or dismissal.

Academic Warning. Students are subject to academic warning
1. if they are in good standing and earn less than 2.0 for the semester; or
2. if they earn 2.0 or greater for the semester but the UAH cumulative is less than 2.0.

Probation. Students are subject to academic probation if they are on academic warning and the current semester GPA is less than 2.0 and the UAH cumulative is less than 2.0.

Dismissal. Students are subject to academic dismissal if they are on academic probation and the current semester GPA is less than 2.0 and the UAH cumulative is less than 2.0.

A regularly admitted student dismissed for the first time is automatically eligible to re-enter after being out of school one semester. A student admitted in any special category and dismissed for the first time must petition the Admissions Committee for permission to re-enter after an absence of at least one semester.

A student dismissed for the second time is disqualified for readmission. After a period of one year, such student may petition for re-admission.

Individual colleges may have additional requirements specific to their programs. Refer to college sections.

Indeterminate Academic Status Policy
For the purpose of determining academic status of those students on academic probation, a grade of I or X will be treated as a grade of F. Credit hours attempted will be charged to the student and zero quality points will be earned for the I and/or X. The action of academic dismissal will be exercised when the results of calculation of grade point average (with the I or X treated as a F) indicates such action to be appropriate. (See Academic Warning, Probation, and Dismissal section of the catalog.) When the I or X is remedied and the grade change reported to the Office of Records, grade point average and subsequent standing will again be determined.
Academic Bankruptcy Policy

An undergraduate student may petition the Admissions and Scholastic Affairs Committee to declare academic bankruptcy. The Scholastic Affairs Committee, after reviewing the petition and consulting with the Office of Admissions and Records, will decide whether to grant the student academic bankruptcy. Under this policy, all college-level work completed at UAH prior to a date specified by the student is eliminated from computation of grade point averages and will not be applied toward a degree at UAH. Such work will not be expunged from the student’s scholastic records and transcripts, although it will be designated as work not included in the computation of grade point averages or applied toward degree requirements. There must be a minimum of two calendar years between the date of petition and the date specified by the student in the bankruptcy petition. Academic bankruptcy will only be granted once during a student’s academic career at UAH.

Conditional/Probational to Regular Status

Students admitted conditionally or on probation will be evaluated for regular student status after earning 15 hours or 30 quality points with no more than 15 hours at UAH. If the student at that time has earned a 2.00 on all UAH coursework, the conditional/Probational classification will be changed to regular student status.

Nondegree to Regular Status

A nondegree student will be evaluated for regular admission when all necessary regular admission application materials are received by the Office of Admissions.

Academic Appeals Process

Academic appeals will originate in written form by the student and will be processed through the chair of the student’s major department, the dean of the college, and the Office of the Provost and Vice President for Academic Affairs, in that order. Students classified as “special” will be routed through the most appropriate academic dean, but should begin by contacting the Academic Advisement and Information Center, 890-6290. Students should contact their major advisor for assistance.

Pass-Fail Option

To be eligible to take courses on a P-F basis, a student must: (1) have junior or senior standing; (2) not be on probation; (3) have an approved major or program plan appropriately filed. A student is limited to 12 semester hours of credit on a P-F basis. P-F system applies only to courses chosen as electives. Some departments limit P-F option to electives outside the department or school.

A grade of P may be changed to a regular grade only if the student changes his or her program to an area in which a regular grade is required. The change must be initiated at the dean’s office and must go through the normal grade change procedures. Once a P grade has been changed to a regular grade, it must remain.

Under the P-F system, a grade of P will not be counted in a student’s grade-point average; a grade of F will be counted in a student’s grade-point average.

A student wishing to exercise a P-F option must make apply to the Office of Registrar (UC 119) when registering or before the end of the third week of classes.

Even though a student chooses to take elective courses on the P-F basis, instructor’s grade sheets will reflect the actual grade and the student may be informed of the regular grade upon request.

52
Visiting Student Program

Undergraduate

A cooperative arrangement exists with Alabama A&M University, Athens State College, Calhoun Community College, Oakwood College and the University of Alabama in Huntsville. A similar arrangement exists with the University of Alabama at Birmingham and the University of Alabama. Under either of these arrangements, a student at any of the participating institutions may request permission to attend a course at one of the other schools. Conditions governing the granting of permission include the following:

1. The student must be a full-time student or a full-time University employee who is a part-time student.
2. The course desired must be unavailable at the student's home institution.
3. Visiting students are limited to one undergraduate course a semester at the host institution except where the second course is a laboratory required to accompany the first course or the second course is a one hour course in basic military science.
4. The student must have an overall C average.
5. The student's request must be approved by his or her advisor and other appropriate personnel.
6. Permission of the host institution is dependent upon availability of space for the visitor after its own students are accommodated.

Any student interested in participating in the Visiting Student Program should contact the Office of Student Records for information regarding the procedures to be followed.

Graduate

A cooperative arrangement exists with Alabama A&M University. Any student interested in participating in this program should consult the Graduate Catalog.

Transcripts

Official transcripts are issued and sent by the Office of Student Records to recognized institutions and agencies which require such documents. Transcripts are issued upon the written request (on a form available in the Office of Student Records) of the student involved and payment of a transcript fee.

Transcripts may be issued to individual students; however, they will be marked as issued to student.

No transcript will be issued for a person who has a financial obligation to the University.

64 Hour Transfer Limit

Once a student has enrolled and has accumulated a total of 64 semester hours of credit from all sources no additional credit may be transferred to UAH from a two-year institution. Exceptions to this policy must be approved prior to taking additional course work. Requests for exceptions must be in writing and approved by the UAH chair of the department where the course is taught, and by the dean of the college in which the student is enrolled. This policy is not intended to apply to those students working on a second baccalaureate degree.

Correspondence Study and Other Non-resident Credit

Up to 25 percent of the credit applied toward a baccalaureate degree may be earned by means other than residence credit at an approved institution. Examples of other means are credit by examination, correspondence study, educational experiences in the armed forces, and professional certificate programs. Persons interested in taking correspondence study courses through the University of Alabama in Tuscaloosa may obtain a catalog from the Office of Instructional and Testing Services, Room 226, Administrative Science Building, or by writing to the College of Continuing Studies, Independent Study Division, University of Alabama, P.O. Box 870388, Tuscaloosa, AL 35487.

Undergraduate Colleges, Majors and Degrees

The undergraduate academic programs of the University of Alabama in Huntsville are administered by five colleges with the following approved major programs:

College of Administrative Science

Areas of study in which majors are currently offered are:

- Accounting
- Economics
- Finance
- Management

- Management Information Systems
- Marketing
- Procurement Management

Courses are also offered in business law and management science.

College of Liberal Arts

Areas of study in which majors are currently offered are:

- Art
- Communication Arts
- Elementary Education
- English
- Foreign Language/International Trade
- French
- German
- History
- Music
- Music Education
- Philosophy
- Political Science
- Psychology
- Slavic Area Studies
- Sociology
- Spanish

Other areas with course offerings are Japanese, Latin, linguistics, Russian, statistics, women’s studies, and physical education.

College of Engineering

Areas of study in which majors are currently offered are:

- Chemical Engineering
- Civil and Environmental Engineering
- Computer Engineering
- Electrical Engineering
- Industrial and Systems Engineering
- Mechanical and Aerospace Engineering
- Optical Engineering

College of Nursing

All majors receive instruction in the theory of nursing as well as laboratory practice in a variety of clinical settings to prepare them for beginning-level practice in professional nursing. Graduates of this first professional degree are qualified to apply for licensure as registered nurses.
**College of Science**

Areas of study in which majors are currently offered are:

- Biological Sciences
- Mathematics Education
- Chemistry
- Optical Science
- Computer Science
- Physics
- Mathematics

Courses are also offered in atmospheric and environmental science, and statistics.

**Degrees Offered**

Programs are provided as indicated below for the undergraduate degrees of Bachelor of Arts, Bachelor of Science, Bachelor of Science in Business Administration, Bachelor of Science in Engineering, and Bachelor of Science in Nursing.

**Bachelor of Arts**—art, biological sciences, communication arts, elementary education, English, foreign language/international trade, French, German, history, mathematics, mathematics education, music, music education, philosophy, political science, psychology, Slavic area studies, sociology, Spanish.

**Bachelor of Science**—biological sciences, chemistry, computer science, mathematics, mathematics education, optical science, physics.

**Bachelor of Science in Business Administration**—accounting, economics, finance, management, management information systems, marketing, procurement management.

**Bachelor of Science in Engineering**—unified programs with professional specializations.

**Bachelor of Science in Nursing**—unified professional curriculum.

**Second Bachelor’s Degree**

A student who holds a bachelor’s (or higher) degree from another institution and who wishes to earn a second bachelor’s degree at UAH, must request a detailed evaluation of his or her previous record before officially declaring a major.

The program for the second bachelor’s degree must have a new major and meet all requirements imposed on transfer students. A new minor is not required.

After a student has earned one bachelor’s degree at UAH, he or she may qualify for a second bachelor’s degree by completing (in addition to credits earned while pursuing the first degree) in residence a minimum of 25 percent of the total degree requirements for the second degree. The second degree must include a new major. The student must meet all other applicable requirements for the degree. Excess credits earned while pursuing the first degree are not applicable to the second degree.

**Declaring a Major**

When a student in liberal arts or science declares a major, the student will be assigned an advisor by the department chair. At that time the complete advising folder will be transferred from the Academic Advisement and Information Center (AAIC) to the relevant department chair for permanent retention. Sophomores who have not declared a major will continue to have their registration cards signed in the AAIC. For procedures in the Colleges of Administrative Science, Engineering, and Nursing, contact the advising office of the college.

**Program of Study**

The Program of Study form is a document prepared cooperatively by a student and a responsible faculty advisor, with the prior assistance of the Office of Student Records in preparing the evaluation of transfer credits and reviewing general education requirements. Academic departments and colleges must assume responsibility for ensuring that each of their students has an opportunity to develop a Program of Study form before the end of the student’s sophomore year. Once the Program of Study form has been accurately completed and signed by the appropriate individuals, it becomes a contract between the student and the university with responsibilities bearing on both parties.
Double Major

With approval of the two appropriate departments, a student who wishes to concentrate in two disciplines may pursue a program of study that leads to a B.A. or B.S. degree with a double major. The minor requirement is waived for students with double majors. General education requirements and all requirements stipulated for each of the two majors must be completed. The total requirements of some programs may exceed 128 semester hours.

Change of College

Students who are pursuing a program of study in one college at UAH and desire to change to a program in another college may petition to do so by making application at the Office of Student Records. Academic advisement before changing programs may help students avoid losing credits. Application of previously earned credits toward the new program will be determined after the transfer has been approved.

Application for Graduation

Candidates for graduation must file their application at least one semester prior to the time requirements are expected to be completed. Application forms may be obtained at the Office of Student Records. Early application will assist the student by confirming requirements remaining to be completed.

Total Degree Requirements

1. Minimum requirements for the Bachelor of Arts, Bachelor of Science, Bachelor of Science in Business Administration, and Bachelor of Science in Nursing degrees are 128 semester hours; for the Bachelor of Science in Electrical and Industrial and Systems Engineering degree, 129 semester hours; for the Bachelor of Science in Chemical Engineering, 134 semester hours; for the Bachelor of Science in Civil and Mechanical Engineering degree, 133 semester hours; for the Bachelor of Science in Optical Engineering degree, 137 semester hours; and for the Bachelor of Arts in Music, 134 semester hours. A minimum of 25 percent of the total requirements and 12 of the last 18 hours must be completed at UAH. Also, unless otherwise specified by the department involved, a minimum of 12 semester hours of upper-level courses numbered 300 or above must be completed at UAH in a student’s program (6 hours in the major and 6 hours in the minor or cognate studies). A minimum of 30 percent of the total degree requirements must be taken in courses numbered 300 or above.

2. The maximum amount of correspondence or credit by examination allowed towards a bachelor’s degree is 25 percent of the degree requirements.

3. An overall average of C is required for all courses taken at UAH; and in all courses in the major discipline taken at UAH; and in all courses in the minor discipline taken at UAH or in all courses listed in the cognate studies option taken at UAH.

4. Additional degree requirements for each degree are described in the appropriate sections of this catalog.

Requirements for Programs Leading to the B.A. Degree

Requirements for the B.A. Degree are described in the College of Liberal Arts section of this catalog.

Requirements for Programs Leading to B.S. Degree

Requirements for the B.S. Degree are described in the College of Science section of this catalog.
Requirements for Programs Leading to B.S.B.A., B.S.E., and B.S.N. Degrees

Requirements for professional programs offered are described in the appropriate sections of this catalog. These programs include the Bachelor of Science in Business Administration, the Bachelor of Science in Engineering, and the Bachelor of Science in Nursing.

Time Limit

The degree requirements for graduation are normally those specified in the catalog in effect when a student first enters UAH as a degree seeking student. At any time during the student’s enrollment that requirements for graduation are changed, a student may elect to graduate under the new requirements.

If the student does not complete requirements for graduation within seven years from the date of entry or seven years from the date of the catalog chosen, the student must then change to the catalog in effect and meet the requirements as specified. If a student breaks enrollment for a period of at least 24 months, the student must then change to the catalog in effect at the time of re-enrollment and meet the requirements as specified.

Any exceptions to this policy must be approved by the student’s advisor and college dean with the proper notation filed in the student’s program of study in the Office of Student Records. At any point at which a change in catalog becomes necessary, a new program of study must be completed and proper notation filed in the Office of Student Records.

ROTC Programs

Army ROTC

Through the visiting student program, students at the University of Alabama in Huntsville may enroll in the ROTC Program in the Department of Military Science at Alabama A & M University. A prescribed course of study under the program prepares graduates for positions of officer leadership within the national defense structure. Depending upon qualifications students may enroll either in a basic or advanced course of study in the ROTC Program. Specific requirements and a description of the courses of study are provided in the current Alabama A&M catalog. Students interested in participating in this program should contact the Office of the Professor of Military Science at Alabama A & M University and the Office of Student Records at the University of Alabama in Huntsville.

Air Force ROTC

Air Force ROTC is available to students through a cooperative program with Samford University.

The Air Force Reserve Officer Training Corps program provides college men and women the opportunity to compete for and attain a commission as a second lieutenant in the U.S. Air Force upon graduation from college. The general military course includes the courses offered during the first two years of the program and is open to all students without military obligation. The professional officer course includes the junior- and senior-level courses and is restricted to those who meet entry requirements or through special permission from the Aerospace Studies Department at Samford.

Call (205) 870-2859 or 1-800-611-3531 for complete enrollment, course, and scholarship information.
Cooperative Education (Co-op) Program
Ms. Suzanne Norris, Director
212 University Center

The UAH Cooperative Education (Co-op) Program provides the opportunity for the academic work of qualified students to be enriched with periods of practical work experience in business, industry, and government. It provides formal on the job training and professional contacts that will supplement the baccalaureate degree. Most students participating in the UAH Co-op Program alternate semesters of full-time study with semesters of full-time work directly related to their majors. Some students may complete continuous part-time work assignments concurrently with a reduced class load.

A distinct feature of the UAH Co-op Program is the ability to find work assignments in the local Huntsville area, although opportunities exist in other locales or states. Co-op students earn sufficient money to pay a substantial portion of their university expenses. At graduation, Co-op students are better prepared to secure full-time employment than students who do not Co-op. Over 2000 UAH students have completed the Co-op Program and gone on to successful careers.

Students majoring in all undergraduate disciplines are potential candidates for Co-op positions. There are nominal grade and credit hour requirements. While the highest demand is for engineering and technical fields, there are interesting opportunities available for administrative science, liberal arts, and nursing students. The UAH Co-op Program is accredited by the Accreditation Board for Engineering and Technology, Inc. (ABET).

The UAH Co-op Program is open to qualified UAH students, regardless of race, color, religion, sex, age, national origin, disability or veteran status. For more information, contact the Cooperative Education Office, University Center, Room 212, Huntsville, AL 35899. The telephone number is (205) 890-6741.

Honors Program
Dr. Richard Modlin, Director
336 Morton Hall

The Honors Program at The University of Alabama in Huntsville provides academically talented undergraduate students with opportunities to develop their special talents and skills within an expanded and enriched version of the curriculum. Honors coursework parallels regular offerings. The courses include special interdisciplinary seminars, and opportunities for independent study and research, including the opportunity to work closely with faculty on special student projects. Participating students also benefit from the interaction the Honors Program affords with other talented and highly-motivated students.

Students who wish to participate fully in the program will earn by graduation a minimum of 28 hours in honors coursework. Individual courses of study will vary; however, all students should plan to take four hours of Honors Forum, and many honors students, depending upon their points of entry into the program, will take Honors English Seminar (EH 105H), two Honors interdisciplinary seminars, and an Honors Senior Project. Other applicable courses include honors designated courses in other disciplines such as philosophy, music, and economics.

The Honors Program serves excellent students in all the colleges. Entering freshmen are invited to participate based on an evaluation of ACT or SAT scores and high school grades. Other students are admitted based on outstanding college performances. Students with cumulative college grade point averages of 3.3 or higher after earning 12 hours of credit at UAH are urged to discuss with the director how they may best participate in the Honors Program.

To review the honors offerings, students should check the listings of courses provided in this catalog for each department. Other courses developed for the Honors Program are listed below. University students who meet appropriate admissions standards for the Honors Program may enroll in honors courses.
Honors courses include:

H 100 Honors Forum 1 hour
Regularly scheduled enrichment experiences for Honors Program students using lectures, concerts, exhibits, and other events. Provides exposure to a broad range of University disciplines. Prerequisite: admission to Honors Program.

EH 105(H) Honors English Seminar 3 hours
(See offerings of the Department of English) Required for all students who enter the Honors Program before completing freshman English.

EH 250(H) Honors World Literature I 3 hours
Focuses on major texts from the ancient world to 1700. Honors English 250 and 251 meet sophomore level literature requirements for the BS and BA degrees and constitute a sequence for engineering students.

EH 251(H) Honors World Literature II 3 hours
Focuses on major texts from 1700 to the present.

H 399 Honors Interdisciplinary Seminar 3 hours
Interdisciplinary study of a selected topic. The seminar will facilitate serious appraisal of an issue that crosses disciplinary boundaries and that can be explored using different scholarly methodologies.

For more information concerning the Honors Program, please write the Director of the Honors Program, The University of Alabama in Huntsville, Huntsville, Alabama 35899; or telephone 205-890-6450.

Professional Preparatory Programs

Prelaw Program
To be admitted to an accredited law school, the student must have a bachelor's degree, an acceptable score on the Law School Admissions Test (LSAT), and, in most cases, an accumulative grade point average of B or better. The LSAT should be taken in June or October of the year before the student plans to enter law school. Applications to law school, together with test scores, transcripts, and recommendations, should be submitted to law schools no later than January 1 of the year the student plans to begin law school. For specific admission requirements, the student should consult the catalog of the law school he or she wishes to attend.

In pursuing a prelaw program at the University of Alabama in Huntsville, the student will find that the best preparation during the first two years is the completion of the general education requirements. The Statement on Prelegal Education of the Association of American Law Schools notes that "What law schools seek in their entering students is not accomplishment in mere memorization but accomplishment in understanding, the capacity to think for themselves, and the ability to express their thoughts with clarity and force." The prelaw student therefore must develop perception and skill in the English language, insight into the institutions and values with which people are concerned, and the power to think clearly, carefully, and independently. Since these skills are fostered by the general education requirements, completion of them should be the primary concern of the beginning prelaw student.

No law school recommends a particular major or minor as preparation for admission. Students should therefore design their program of study with the aim of further development and promotion of the skills listed above. Care should be taken in choosing electives. Aside from the courses in the general education requirements, the prelaw program often includes courses in political science, economics, philosophy (especially logic), American history, English, statistics, and computer science. One course in accounting is recommended. Since admission to law school is highly competitive, completion of recommended programs and requirements will not necessarily insure admission.
All prelaw students should seek academic counseling from prelaw advisors in the Departments of English, History, Political Science, and the College of Administrative Science. Materials and information are available in these departments or in the Academic Advisement and Information Center. The official Prelaw Handbook may be consulted in these offices or ordered from the Law School Admissions Services, Box 2000, Newtown, PA 18940. (p. 75)

Premedical and Predental Programs

Most students entering medical or dental schools do so after earning an undergraduate degree. After consulting the specific requirements of the desired medical or dental school, applicants interested in careers in medicine or dentistry will find that UAH offers programs that prepare them for admission to the professional school. No particular major or minor is preferred.

Competition for admission to medical and dental schools is intense and students should realize that completion of the admission requirements does not insure acceptance. Since admission to the schools is not assumed, students are advised to complete undergraduate degree requirements. Additionally, most schools require an acceptable score on the Medical College Admission Test (MCAT) or the Dental Admission Test (DAT).

Typical of the requirements for admission to medical colleges are those which follow for the University of Alabama School of Medicine:

<table>
<thead>
<tr>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>2. General chemistry with laboratory 8 hrs.</td>
</tr>
<tr>
<td>3. Organic chemistry with laboratory 8 hrs.</td>
</tr>
<tr>
<td>4. General biology with laboratory 8 hrs.</td>
</tr>
<tr>
<td>(Additional biology electives recommended: genetics, embryology, cell biology.)</td>
</tr>
<tr>
<td>5. General physics with laboratory 8 hrs.</td>
</tr>
<tr>
<td>6. Two semesters of mathematics may include statistics or computer science 6 hrs.</td>
</tr>
</tbody>
</table>

Students are advised to choose programs of study according to individual interests and abilities so that they may fulfill their maximum academic potential.

Typical of the requirements for admission to dental schools are those which follow for the School of Dentistry of the University of Alabama in Birmingham:

<table>
<thead>
<tr>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Biological sciences 12 hrs.</td>
</tr>
<tr>
<td>2. Inorganic chemistry (including qualitative analysis) 8 hrs.</td>
</tr>
<tr>
<td>3. Organic chemistry 8 hrs.</td>
</tr>
<tr>
<td>4. Biochemistry is strongly recommended 4 hrs.</td>
</tr>
<tr>
<td>5. Physics (including laboratory) 8 hrs.</td>
</tr>
<tr>
<td>6. Analytic geometry and calculus 6 hrs.</td>
</tr>
<tr>
<td>7. 30 semester hours of non-science courses to include English (6 hrs.), history, political science, economics, philosophy, psychology, and sociology. Courses to enhance manual dexterity (sculpture, painting, etc.) are encouraged. 30 hrs.</td>
</tr>
<tr>
<td>8. The completion of a minimum of 90 semester hours of collegiate work with a maximum of 60 semester hours earned at an accredited junior college.</td>
</tr>
</tbody>
</table>

Students interested in preprofessional health programs (predentistry, premedicine, preoptometry, preveterinary medicine) are encouraged to contact the preprofessional advisor early in their college career by calling the Office of the Dean, College of Science, telephone 890-6605.
Dean C. David Billings, B.S., Ph.D., Professor of Finance
Assistant Dean Dorla A. Evans, B.S., M.B.A., Ph.D., Professor of Finance

Accreditation

The Bachelor of Science in Business Administration (BSBA) and the Master of Science in Management (MSM) programs offered by the College of Administrative Science are accredited by the American Assembly of Collegiate Schools of Business (AACSB).

Mission

The College of Administrative Science is a professional school with the mission of providing a high quality business education primarily to students from north Alabama. This education leads to the Bachelor of Science in Business Administration (BSBA) degree and to the Master of Science in Management (MSM) degree with an emphasis on the management of technology. The College produces research which furthers knowledge in its disciplines and in the interdisciplinary area of technology management. The College provides service to the University, to the public, and to professional and academic organizations.

Accreditation and Membership

The College of Administrative Science is accredited by the American Assembly of Collegiate Schools of Business (AACSB). The AACSB is a not-for-profit corporation comprised of member organizations and institutions devoted to the promotion and continuous improvement of higher education for business administration and management. Organized in 1916, AACSB is recognized by the Council on Postsecondary Education of the U.S. Department of Education as an accrediting agency for programs in business administration and accounting.
The College is a member of the Association for University Business and Economic Research (AUBER). Organized in 1947, AUBER is the professional association of business and economic research organizations in universities.

The College is a member of the Alabama Small Business Development Consortium (ASBDC). The ASBDC provides management counseling and training to small business owners throughout Alabama.

Center for the Management of Science and Technology (CMOST)

The Center for the Management of Science and Technology (CMOST) is devoted to improving the state-of-the-art in the management of science and technology. CMOST funds and conducts research to develop new management techniques, is a "window on the world" source of the latest practices and a world-wide center for scientists, researchers and managers interested in the management of science and technology. CMOST focuses on the management of R&D, engineering, innovation, manufacturing, high-technology marketing and new product development. CMOST is staffed by personnel with degrees and backgrounds in science and engineering, who also have advanced degrees in management. Most of the staff have several years of business experience in managing science and technologies.

Center for Management and Economic Research (CMER)

The Center's broadest goal is to stimulate expansion of the economy of north Alabama by helping local managers define and realize growth opportunities and solve specific problems. The Center's mission is to serve the business community, federal, state and local governments, individuals and the University through management and technical assistance, dissemination of economic and socio-economic information, and support for faculty in seeking funding for research projects. Special emphasis is placed on businesses in technological fields. In addition, the center staff does contract research on business and economic problems for governmental organizations and private industry.

NorthEast Alabama Regional Small Business Development Center

The NorthEast Alabama Regional Small Business Development Center (NEAR SBDC) provides assistance to small businesses and aspiring entrepreneurs. The mission of NEAR SBDC is to "Help small businesses survive and grow." The center provides four types of assistance: business management counseling, startup counseling, training/workshops, and a resource library.

Small business owners or managers receive professional assistance and direction in operating a business profitably. This may include counseling in one or more of the following areas: financial capital, business planning, personnel, record keeping, licensing, taxes, intellectual property, government procurement, governmental regulations, marketing, commercialization, Small Business Innovation and Research programs, market research, inventory control, or how to conduct a feasibility study. Small business reference materials (books and videos) are maintained in the NEAR SBDC reference library. Small business owners and entrepreneurs may visit the center and use business planning guides, watch or check out one of more than two dozen videos on business management, or work interactively with Internet, Electronic Data Interchange demos, and Electronic Commerce demos. For additional information, contact the NEAR SBDC at 225 Church Street, Huntsville, AL 35801. Mailing address: P. O. Box 168, Huntsville, AL 35804-0168. Phone: (205) 535-2061; FAX: (205) 535-2050; e-mail: Smallbus@hsvchamber.org.

Executive Education Program

The executive education program is designed to assist the members of the business, industry and governmental communities in keeping abreast of changes in a complex environment. The College of Administrative Science in cooperation with the Division of Continuing Education's Office of Management and Computer Applications offers an interactive blend of
management educational programming ranging from one-session seminars on specific problems to a substantial sequence of classes custom tailored for corporate and governmental audiences. For more information, call the Division of Continuing Education, Business and Management (205) 890-6940 or 1-800-239-6940.

Degrees Offered

Bachelor's. The College of Administrative Science offers the Bachelor of Science in Business Administration (BSBA) degree. The BSBA encompasses majors in accounting, economics, finance, management, management information systems, and marketing.

The following BSBA majors are offered during the day: accounting, economics, finance, management-general business track, management-human resources management track, marketing, management information systems. The following BSBA majors are offered after 5:00 p.m.: accounting, management-general business track, management-human resources management track, marketing, and management information systems.

Students may obtain a second bachelor's degree in the College of Administrative Science if they:

1) Complete, in addition to credits earned while pursuing the first degree, in residence a minimum of 25 percent of the total degree requirements for the second degree;
2) Include a new major in the second degree;
3) Satisfy the College's general and major degree requirements in effect at the time they embark on the program leading to the second degree.

Master's. The Master of Science in Management (MSM) degree is a unique specialized management program, especially emphasizing the management of technology including the special needs of the Huntsville community. It was recognized by the National Research Council in 1991 as one of nineteen programs in the nation with a major thrust in the management of technology. It provides entry-level and mid-career managers with the practical and theoretical knowledge necessary to manage public and private organizations.

The MSM program is an interdisciplinary curriculum which develops skills in applying advanced technology and behavioral concepts crucial to management. This curriculum supplies students with critical knowledge about a wide range of organizations through coursework in accounting, economics, finance, management, quantitative methods, marketing, management information systems, the worldwide dimension of management of organizations and the legal-social-political-ethical environment of organizations.

Highly qualified science and engineering students seek the degree to broaden their educational background and prepare themselves for careers in management. Highly qualified students enrolled in the BSBA undergraduate program of the College of Administrative Science may be able to complete the requirements for a master's degree by completing one additional year of course work beyond the bachelor's level. Individuals who are interested in obtaining an MSM degree should contact the College's Assistant Dean in Room 102, Administrative Science Building (205) 890-6024. For more information on the MSM program, refer to the Graduate Catalog.

Business Administration Minors

Students from colleges other than Administrative Science may minor in business administration. The minor consists of at least 21 semester hours but not more than 30 semester hours in subjects available in the College of Administrative Science. A baccalaureate program with more than 30 semester hours (or 25 percent of degree requirements) in subjects commonly available in the College of Administrative Science must meet the AACSB curriculum content standard. Such a program will be reviewed by the Coordinator of Advisement to determine if it meets the BSBA degree requirements.

Students who choose business administration as a minor should take ECN 142 and ECN 143 or ECN 239 to meet their social science degree requirements since these hours are counted
within the 30 hour or 25 percent maximum rule. The approved business administration minors are shown below. The minor program must have the approval of the Coordinator of Advisement.

For most students: ACC 211 (Lab ACC 221), ACC 212 (Lab ACC 222), FIN 301, MGT 301, and 6 hours at the 300- or 400-level.

For pre-MBA students: ACC 211 (Lab ACC 221), ACC 212 (Lab ACC 222), BLS 211, FIN 301, MGT 301, MKT 301, and 3 hours at the 300- or 400-level.

For Pre-Law students: The work of successful lawyers has come to be more and more associated with the rendering of opinions and counsel on business matters such as banking, insurance, real estate titles, business contracts, etc. Corporations employ many lawyers full time for their contract and other legal work, and the young lawyer who has a degree in business will be at a distinct advantage in obtaining and doing such work.

Each law school determines its own requirements, such as admission criteria, number and type of semester hours required for entrance, etc. Students planning to enter a law school should be in communication with that school shortly after coming to college to insure the program they take will meet all requirements of the law school the students plan to attend. For more detailed information the student should read the Pre-Law Program section of this catalog.

Students who choose business administration as a pre-law minor should take ECN 142 and ECN 143 to meet their social science degree requirement. They should select the following courses: ACC 211 (Lab ACC 221), ACC 212 (Lab ACC 222), BLS 211, BLS 411, FIN 301, MGT 301, and MKT 301.

For International Trade students: The B.A. in Foreign Languages and International Trade (FLIT) is a composite major offered by the College of Liberal Arts’ Department of Foreign Languages and Literatures in cooperation with the College of Administrative Science. It is designed for students interested in specializing in a foreign area of the world or in international business, economics or affairs. The major prepares students for careers in international organizations within the U.S. government and in business firms. The administrative science portion of the FLIT program consists of 27 hours: ECN 142, ECN 143, ACC 211 (Lab ACC 221), ACC 212 (Lab ACC 222), BLS 211, FIN 301, MGT 301, MKT 301, and MGT 450. The foreign language component consists of 36 hours in one foreign language: French, German, Russian, or Spanish, including elementary, intermediate, conversation, advanced composition, business and professions, culture, literature, electives and a practicum. For additional information see the Foreign Languages Department’s section in the catalog.

Economics Minor
A student wishing to minor in economics may choose 21 semester hours of appropriate courses in economics and finance. The minor program must have the prior approval of the Chair of the Department of Management Information Systems, Economics and Finance.

Economics as a Second Area of Study
Students majoring in elementary education may choose economics as their second area of study. The area of study requires 18 hours of economics and finance courses and the prior approval of the Chair of the Department of Management Information Systems, Economics and Finance.

Policies, Procedures and Assistance

Course Numbers

Course numbers are coded by prefixes as follows:

- Accounting: ACC
- Business Legal Studies: BLS
- Economics: ECN
- Finance: FIN
- Management: MGT
Admission as a Freshman

Entering UAH freshmen interested in business administration must meet the general entrance requirements of the University. Students who intend to pursue the BSBA degree should read carefully the Admissions Information section of the catalog.

Students who have had inadequate high school preparation or who are placed in certain lower-level classes because of the results of placement tests may have to take one or more of the following courses:

- EH 003  Basic English  no credit
- MA 004  Basic Algebra  no credit
- MA 033  High School Geometry  no credit

These courses carry no academic credit and will appear on transcripts of students who successfully complete the courses.

Admission as a Transfer Student

Transfer students seeking admission to UAH should read carefully the "Admissions Information" section of the catalog. Students planning to transfer into the College of Administrative Science from a two- or four-year institution to obtain the BSBA are advised to follow the transfer program outlined below:

- English Composition 6 hours
- Humanities and Fine Arts:
  - Literature 3-6 hours *
  - Fine Arts 3 hours
  - Speech 3 hours
  - Elective 0-3 hours*
- Natural Sciences and Mathematics
  - Laboratory Science 8 hours
  - Mathematics with applications 6 hours
- History, Social and Behavioral Sciences
  - History 3-6 hours*
  - Elective 0-3 hours*
- Business
  - Principles of Micro and Macro Economics 6 hours
  - Business Statistics 6 hours
  - Legal Environment of Business 3 hours
  - Financial and Managerial Accounting 6 hours
  - Microcomputer Applications 3 hours
  - Elective 2 hours

*Must take a 6 hour sequence in either literature or history.

The specific credit for work done at other institutions which will apply toward the BSBA degree is determined by the College’s Coordinator of Advisement. Allowance of transfer credit by the Office of Admissions and Records does not necessarily mean that such credit will be applied toward a BSBA degree. All inquiries concerning the applicability of credit should be made to the College’s Coordinator of Advisement (205-890-6024).

Credit for business administration courses taken in schools with programs accredited by the American Assembly of Collegiate Schools of Business (AACSB) is transferable to UAH. Credit for courses taken in programs without AACSB accreditation may be accepted with validation or approval of the Dean.
Course work taken at a junior college after a student has earned more than 64 semester hours of credit may not be accepted for transfer. Courses taken at the lower-division at another institution which are upper-division courses at UAH will be accepted for transfer only after successful validation.

See the College's Coordinator of Advisement for the policy about specific transfer courses. These policies have been in effect since December 14, 1982.

Admission to the Upper-Division

Pre-Business Classification

All undergraduate students entering the College of Administrative Science are admitted with a pre-business classification (code L). Regular students remain in this classification until they are admitted to the upper division of the College of Administrative Science (code U). Any request for deviation from these requirements must be petitioned through the College's Office of Academic Assistance.

Students admitted into the pre-business classification may not attempt any business course number above 299.

To have the pre-business classification changed, students should apply through the College's Office of Academic Assistance for admission to the upper division of the College. The Office of Student Records cannot make this change.

Special Student Classification

Individuals admitted to the University as conditional/probational must have their status changed to regular through the Office of Student Records and complete all upper-division admission requirements before applying for admission to the upper division of the College and choosing a major. Special students may not attempt upper-division business courses.

Admission Standards.

Admission to the upper-division of the College of Administrative Science is available to students who have:

1. Completed 64 semester hours comprising the lower-division requirement.
2. Earned a minimum grade of “C” in both English Composition courses (EH 101-102).
3. Earned a minimum average of “C” (2.0) for the 26 hours comprising the pre-professional business administration core.

Note: For degree-seeking students in the College of Administrative Science, admission to the upper-division is a prerequisite for all upper-division courses (numbered 300-499) in the College. Degree-seeking students in the College registering in upper-division business courses without completing the prerequisites and being admitted to the upper-division will be administratively withdrawn from those classes.

Admission and Academic Standard for Accounting Majors

A student majoring in accounting must be admitted to the upper-division and make an acceptable score on the Accounting Program Admission Test (APAT) before enrolling in accounting courses above ACC 301. The student should contact the College's Coordinator of Advisement, Room 102, Administrative Science Building to register for the APAT the semester in which the student completes ACC 212. A student admitted to the upper-division accounting program is required to make a grade of at least a “C” on each accounting course to be applied toward the BSBA degree.

Student Advisement and Enrollment

Advising for BSBA degree candidates is handled through the College's Office of Academic Assistance and faculty members in the student's intended major. The College's Office of Academic Assistance is a student's contact point for information concerning possible majors, declaring a major, transfer credit and degree requirements.
First-year students are required to plan their course selection with the College of Administrative Science's Coordinator of Advisement in the College's Office of Academic Assistance (Administrative Science Building, Room 102; telephone 205-890-6024).

With certain exceptions, all College of Administrative Science undergraduate students must have their registration cards signed by the Coordinator of Advisement. Juniors and seniors who have met the following requirements do not need an advisor's signature:

1. A formal declaration of major (signed by the Coordinator of Advisement, the student and the faculty advisor) is on file in the UAH Records Office.
2. Satisfactory completion of the lower-division general education requirements and the pre-professional business administration core curriculum.
3. Attained a minimum grade of “C” (2.0/4.0) average in the combined lower-division general education requirements and the pre-professional business administration core curriculum.

Each student is responsible for registering for all required courses in their proper sequence and for fulfilling all requirements for admission and graduation.

Types of Advising Assistance Available

The focus of advising in the College of Administrative Science is to help students progress toward their educational objectives. Advising is designed to provide assistance where desired and appropriate. Students, especially those nearing graduation, are encouraged to make full use of the advising system. The College's advising system offers:

*Transcript Evaluation.* Two aspects of transcript evaluation affect students: (1) Evaluation of course work to be transferred to UAH for degree credit and (2) the continuing evaluation of completion of graduation requirements. The evaluation of transfer work is initially accomplished by the University’s Office of Admissions. Evaluation of business and economics course work is conducted by the College’s Coordinator of Advisement, Room 102, Administrative Science Building, working with various departments within the College.

The College’s Office of Academic Assistance also keeps a current record of each student’s progress at UAH.

*Schedule Building.* Schedule building is the determination of specific courses the student should take in a given semester. Students should refer to the UAH Timetable of Classes and the undergraduate catalog in consultation with the faculty advisor or staff of the College’s Office of Academic Assistance to determine a specific course of study. Selection of specific sections and of times for courses is the student’s responsibility. The tentative schedule must be approved by the Coordinator of Advisement, with certain exceptions explained above.

*Program Planning.* Students are encouraged to outline an entire plan of study early in their academic career. This program planning activity is provided by the College’s Coordinator of Advisement and includes suggested model programs for each of the major fields of study offered by the College.

*Referrals.* Students seeking career guidance, personal counseling or other types of assistance will be directed to the appropriate University office by the staff of the College’s Office of Academic Assistance.

Where to Find Advising Assistance

*College’s Office of Academic Assistance (102 Administrative Science Building).*

Students should come to this office for special advising assistance that cannot be resolved at locations described in this section and to file appeals and waiver requests relative to College and University regulations. This office will also refer students to the appropriate office should the student be unsure as to where to find assistance.

*University’s Student Records Office (116 University Center).* The student records office maintains a complete and up-to-date file for each student admitted to the University.
Management Information Systems Placement Policy

Prior to enrolling in sophomore or upper division administrative science courses, students are presumed to have acquired basic computer skills. These skills include the use of operating system software, spreadsheet software, word processing software, and data base software. Students will be advised to enroll in three hours of microcomputer applications before taking any 200-level business courses. The specific course is MIS 146, but other specific courses may be substituted depending upon the student's computer experience and major.

Probation and Dismissal

Students are placed on probation at the end of any semester in which they do not have a cumulative grade point average of 2.0. For more detail on the process, see the Academic Probation and Suspension section of the catalog.

When dismissed, the student must petition the College of Administrative Science for readmission. Application should be made in the Student Records Office, University Center.

Residence Requirement

At least 12 of the last 18 semester hours of a student's program and a minimum of 32 semester hours of the total degree program must be completed at UAH. For BSBA students, the hours taken in residency must include at least 50 percent of the BSBA program (core curriculum and major option) including a minimum of 12 hours in the major option and 3 hours in MGT 499, Business Policy. Students who are required to take additional courses within the College of Administrative Science in order to meet the residence requirement may be required to complete more than 128 semester hours in order to graduate.

Cooperative Education Program

The College of Administrative Science participates in the University's Cooperative Education Program. The program is designed to provide relevant paid employment experiences that integrate, complement and enhance the student's academic program. The students are placed in co-op positions in a variety of business settings, including government agencies, financial institutions, social agencies, accounting firms, entrepreneurial companies and many others. Co-op placements must be approved by the student's faculty sponsor. Participation in the co-op program requires completion of designated entry-level courses. The program is open to both undergraduate and graduate students in business. More information is available from the business coordinator in the Cooperative Education Office, University Center.

Internship Program Guidelines

The internship program is designed to provide professional work experience for students in a field relevant to their major.

The program consists of active involvement in a project in a business enterprise, professional organization or in a government agency that has particular interest and relevance to the student. The course grade will be given on a satisfactory (S)/unsatisfactory (U) basis.

The prerequisites are junior standing, 9 semester hours of upper-division work in the student's discipline, and approval of the department chair.

In addition to making a judgment on the merit, quality, and relevance of the proposed internship program, the chair will require the following academic prerequisites prior to approval:

1. completion of sufficient coursework in the major relevant to the internship project
2. a minimum GPA of 3.0 in all courses attempted in the College
3. completion of at least 15 semester hours at UAH

An internship may be elected only once, i.e. a maximum of 3 semester hours toward the BSBA degree. The internship may count as an elective within the major.

The current cooperative education activity does not qualify for an internship. However, in exceptional cases, a student may be allowed to do an internship at the "Co-op" organization during the study semester. The student must meet all the requirements for internship.
Interested students should contact the Coordinator of Advisement in Room 102 ASB and/or the internship coordinator in the Office of Career Services (University Center) for information on obtaining an internship and its requirements for satisfactory completion.

Catalog Requirements and Changes

The College of Administrative Science reserves the right to modify curricula and specific courses of instruction including course prerequisites, to alter requirements for graduation and to change the majors to be awarded at any time the College may determine. Such changes may be applicable to either prospective or currently enrolled students.

All official notices affecting the College of Administrative Science undergraduate students are posted in the College's Office of Academic Assistance (102 Administrative Science Building). The notices officially update the University catalogs and are binding as if published in the catalogs on students pursuing programs offered by the College.

All College of Administrative Science students enter the College under all University and College policies then in effect. Each student is responsible for meeting all catalog requirements for graduation, including taking courses in the proper sequence as shown in the catalog.

Due to rapid advancement in knowledge, a student is permitted seven years from the original date of entry to complete a four-year curriculum, after which time a re-evaluation of all work previously taken may be required. Each time a student changes a major or option, a re-evaluation of all work already taken is done in terms of that particular program's requirements. It may occasionally be necessary to revise the curriculum for the BSBA degree. However, any student may graduate under the catalog in effect at the time he or she entered the University, provided that all degree requirements are satisfied within seven years from the day of admission.

Any deviations from curricular and other College requirements (for example, substitution of courses) must be approved in writing in advance of the deviation. Such changes must normally be recommended by the student's assigned advisor and approved by the Assistant Dean.

Bachelor of Science in Business Administration

Degree Requirements

The Bachelor of Science in Business Administration degree program is a comprehensive four-year program which includes a liberal arts and science foundation, a business administration core curriculum, a major, and a choice of elective courses.

The undergraduate curriculum is divided into the lower and upper division. The lower division is the first two years of courses (courses numbered 100-299); the upper division is the last two years (courses numbered 300-499). Prior to taking their first courses in the upper division, students must administratively be approved in the Office of Academic Assistance. To prepare students for the challenges of the future, the College's program provides a solid foundation in the diverse academic disciplines which relate to the needs of business, industry, and government. At the undergraduate level students concentrate the first two years of study on general course work in composition, the humanities and fine arts, history, social and behavioral sciences, and natural and physical sciences and mathematics. Successful completion of these courses broadens intellectual awareness and enhances the development of cultural literacy and analytical thinking. This general education component, along with the pre-professional business administration core curriculum, prepares the student for admission to upper-division course work in the College of Administrative Science.

The remaining two years of course work develops the student's understanding of the diverse functions of business in the American and world-wide economy. This is accomplished by studying the essential concepts of business administration as well as focusing on one of the major disciplines. The student may declare a major in accounting, economics, finance, management, management information systems, or marketing. Students enrolling in the College's programs who have already chosen the major they wish to pursue may designate that major
when they register. Students who are undecided about what major they wish to pursue should mark management on the registration form.

To be awarded a BSBA degree, each student must meet the following degree requirements established by the University and the faculty of the College of Administrative Science:

1. Complete the lower-division general education requirement;
2. Complete the lower-division pre-professional business administration core curriculum;
3. Complete the upper-division general education requirement;
4. Complete the upper-division business administration core curriculum;
5. Complete the courses required for the major;
6. Complete a minimum of 128 semester hours of work with a minimum of 39 semester hours in courses numbered 300 and above;
7. Attain a minimum grade point average of 2.0 (C) in all course work attempted;
8. Attain a minimum grade point average of 2.0 (C) in the business administration core curriculum (50 hours);
9. Attain a minimum grade point average of 2.0 (C) in the major. Note: ACC majors must attain a C in each course in the ACC major.
10. Complete the business policy course (MGT 499) with a minimum grade of "C"; and
11. Comply with University and College of Administrative Science residence requirements.

Three levels of requirements must be completed in order to receive the Bachelor of Science in Business Administration degree: (1) University general education and graduation requirements, (2) College of Administrative Science core requirements, and (3) College major requirements. The recommended sequence of courses is presented in the following sections.

Lower Division Requirements: 64 Semester Hours

The lower-division courses provide a foundation for advanced study. While students broaden their intellectual background through the general education requirements, they also develop basic business skills in the pre-professional business administration core curriculum. The general education requirements expose students to composition, humanities and fine arts, natural sciences and mathematics, and history, social and behavioral sciences. The lower-division requirements are in the process of being standardized among all two-year and four-year colleges in Alabama.

I. Lower Division General Education Requirements

Total General Education Requirements ............................................ 38

* Must take a 6-hour sequence in either literature or history.

** Students who have completed 10 quarter hours (or 6.6 semester hours) of laboratory science will be considered to have met this requirement.

*** Students scoring below 21 on the quantitative section of the ACT will be required to pass MA 004 (Remedial Algebra) before enrolling in MA 117. Students scoring sufficiently high on a mathematics placement test at UAH may skip MA 004. Students placing at Level III should enroll in MA 171 and choose two hours of electives outside the College of Administrative Science. Students planning to emphasize quantitative methods, to minor in an area requiring at least two semesters of calculus, or to attend graduate school should choose the following mathematics track: MA 119, 121, 171.

* Refer to MIS placement policy.
** If the student requires MA 004, the lower-division requirement will be 67 hours. The student is encouraged to enroll in summer school in the freshman year to complete the mathematics sequence. MA 004, MA 117, and MA 145.

*** Must take a 6-hour sequence in either literature or history.

**** The student should apply for admission to the upper-division at the beginning of the spring semester of the sophomore year, or upon completion of 64 semester hours.

**Upper Division Requirements: 64 Semester Hours**

Work in the last two years of study builds upon the foundation established by the general education requirements and the pre-professional business administration core curriculum. Upper-division requirements include upper-division general education courses, the business administration core curriculum, and courses in the major. Registration for courses in the upper-division is restricted. Please read the College's section, “Admission to the Upper-Division,” to determine requirements to register.

**III. Upper Division General Education Requirements**

**Majors in the BSBA Degree**

The College offers the following majors: accounting, economics, finance, management-general business, management-human resources management, marketing, and management information systems. The economics and finance majors are offered only during the day. The other majors are offered during the day and after 5:00 p.m.

72
Department of Accounting and Business Legal Studies
Professors Morse (Chair), Porter; Associate Professor Bryson; Assistant Professors Maddocks, Spearing, Wampler, Woodward; Lecturers Swann, Whitten.

Admission and Academic Standards for Accounting Majors
For a student admitted as a candidate for a Bachelor of Science in Business Administration degree (BSBA) with a major in accounting, admission to accounting courses numbered above ACC 301 is predicated upon admission to the upper division of the College of Administrative Science and an acceptable score on the Accounting Program Admission Test (APAT). The student should contact the College’s Coordinator of Advisement, Room 102 ASB, to register for the APAT the semester in which the student completes ACC 212. A student admitted to the upper-division accounting program is required to make a grade of at least a “C” on each accounting course to be applied toward the BSBA degree.

The accounting major is offered during the day and during the evening.

Requirements for a major in accounting within the BSBA degree are as follows:

<table>
<thead>
<tr>
<th>Course No.</th>
<th>Title</th>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>

* Students planning to sit for the CPA examination are advised to take ACC 317 (Government Accounting) as an elective.

Careers and Certification
Careers in accounting are frequently identified as being in public accounting, management accounting, governmental accounting, and internal auditing. The undergraduate accounting curriculum provides students with the basic educational background necessary to pursue careers in their fields. Accounting majors are encouraged to consult with the faculty about the opportunities available and the preparation needed in the several career areas.

Students considering the professional certification examinations upon graduation, such as the Certified Public Accountant (CPA), the Certified Management Accountant (CMA), or the Certified Internal Auditor (CIA), will need course work in accounting beyond the minimum requirements for the BSBA degree. Since January 1, 1995, in keeping with a growing trend in the United States, the Alabama State Board of Public Accountancy has required 150 semester hours of credit in order to sit for the CPA examination. For additional information regarding the 150-hour requirement or regarding the other professional examinations, students should contact the Chair of the Department of Accounting and Business Legal Studies (205-890-6159).

*EHT 300, Strategies of Business Writing, is a co-requisite or prerequisite for administrative science courses with a number greater than 301 and a prerequisite for 400-level courses.

**At least 13 of the 18 semester hours of electives must be outside the College of Administrative Science.

Department of Economics and Finance
Professors Billings, Evans, Paul (Chair), Schoening, Wilhite; Associate Professor Schnell; Assistant Professors Allen, Burnett, Patel.

Economics
The BSBA degree in economics provides students with a broad range of analytical skills enabling them to function in a wide variety of organizational settings. The economics major prepares students for careers in both private business and government agencies where data analysis, forecasting and analytical problem solving are performed. The program also prepares students to pursue advanced degrees in business, economics and law. Students choosing to major in economics should see the Chair of the Department of MIS Economics and Finance.

To be successful, an economics student should possess superior analytical skills and be proficient in logic, algebra, elementary calculus, and statistics. The economics major is offered only during the day.

Requirements for the economics major within the BSBA degree are as follows:

<table>

Total: 21
Finance

The BSBA degree in finance acquaints students with the modern analytic principles of the discipline which prepares them to function in a wide variety of institutional settings. The finance major prepares students for careers in security analysis, portfolio management, banking, and corporate finance.

To be successful, a finance student should be proficient in economic analysis, algebra, elementary calculus, and statistics. The finance major is offered only during the day.

**Department of Management and Marketing**

Professors McCollum, Sherman (Chair); Associate Professors Gramm, Olsen, Simpson; Assistant Professors Seale, Wren; Visiting Instructor Berkowitz.

**Management**

A major in management enables the student to develop a better understanding of the social, political, and industrial society in which we live. Such an understanding complements the skills developed in the program which are necessary for the effective and efficient operation of a wide range of governmental, business, and industrial organizations.

This major generally describes the planning, organizing and controlling of a business, including organizational and human aspects, with emphasis on various theories of management, the knowledge and understanding necessary for managing people and functions, and decision making.

The management major is structured to provide the broad education students will need for flexibility and mobility as future managers in various possible types of organizations. This permits students to elect one of two tracks to assist them in more adequately fulfilling requirements of their planned initial employment and to prepare students for advanced studies in their chosen fields.

There are two tracks in the management curriculum. The general business track is offered for students whose career goals require a broad knowledge of the functional areas of management rather than the specialization of a major field. This major option would be used primarily by students planning to enter a small business where a specialization (such as accounting or management information systems) is not as appropriate an educational background as is extensive upper division coursework in three or four functional areas.
The human resource management track focuses on personnel administration, organizational behavior, and labor relations. This major option would be used primarily by students planning to enter positions as a personnel staff specialist, training director, wage and salary specialist, employment manager, benefits analyst, and industrial relations supervisor.

Requirements for a major in management within the BSBA degree are as follows:

General Business Track: Faculty Advisor, Dr. Sherman

The General Business Track shall consist of 21 hours at the 300- or 400-level in addition to courses in the core curriculum. At least 6 hours must be taken in at least 3 of the different disciplines shown below:

- Accounting
- Economics
- Finance
- Management
- Management Information Systems
- Management Science
- Marketing

Marketing

The marketing program studies the principles, practices and concepts involved in business activities which transfer products and services from the producer to the consumer. It includes the study of consumers and their behavior in the market, the channels of distribution, promotional consideration, and other related topics. In particular, this program focuses on the marketing research activities such as analysis of data on product and sales, the conducting of surveys and interviews, test marketing of new products, and preparation of recommendations to clients or internal management. A degree in marketing prepares the student for careers with manufacturers, distributors, retailers, government, and other business operations. The program places particular emphasis on marketing in a high technology environment.

The marketing major is offered during the day and the evening.

Requirements for a major in marketing within the BSBA degree are as follows:

<table>
<thead>
<tr>
<th>Course Number</th>

*EHT 300, Strategies of Business Writing, is a co-requisite for administrative science courses with a number greater than 301 and a prerequisite for 400-level courses.

**At least 13 of the 18 semester hours of electives must be outside the College of Administrative Science.

Department of Management Information Systems and Management Science
Professors Paul (Chair), Souder (Eminent Scholar), Stafford; Associate Professors Trueblood, Tseng; Assistant Professors, Floyd, Lai, Mahapatra, Patel; Adjunct Assistant Professors Ballenger, Jones; Lecturer Whitten.

Management Information Systems
The major in management information systems is designed for students who want to become designers of information systems that utilize computers in a business or administrative environment. Management information systems subject matter includes computer hardware, computer software, systems analysis and design methodologies, behavioral issues and the business or administrative context within which computer systems are applied. The management information systems curriculum can be characterized as follows:

a. The management information systems curriculum covers information system concepts and processes within the contexts of organizational functions, management activity and technical information systems knowledge.

b. The management information systems graduate is expected to work within the environment of an organization and to interact with both organizational functions and computer technology.

c. In technical expertise, the management information systems curriculum places a substantial emphasis on analysis and design methodologies appropriate to the business and administrative environment.

The management information systems major is offered during the day and the evening.
Requirements for a major in management information systems within the BSBA degree are as follows:

* EHT 300, Strategies of Business Writing, is a co-requisite for administrative science courses with a number greater than 301 and a prerequisite for 400-level courses.

** At least 13 of the 18 semester hours of electives must be outside the College of Administrative Science.

Possible Minors for the BSBA Degree

BSBA degree candidates may supplement their degree program by choosing a minor. Students electing a minor may use the courses completed in the general education requirements (the 13 hours of general education electives and 3 hours of free electives) as part of the required 21 hours. However, students who choose a minor may be required to complete more than 128 hours. Courses counted in a minor may not be applied to core or major course requirements for
a BSBA degree. Check with the College's Coordinator of Advisement (Room 102, Administrative Science Building).

Certificate In Accounting

Many individuals express a desire to pursue a career in accounting after having earned a bachelor's degree in a discipline other than accounting. In addition, persons with an undergraduate degree in accounting may not have sufficient hours or may not have all prescribed courses necessary to sit for the CPA examination under new requirements of many states. To sit for the CPA examination in Alabama, effective January 1, 1995, a person must have completed a total of 150 semester hours of postsecondary education, which includes certain prescribed courses. In order to meet the needs of both types of individuals, UAH offers a Certificate in Accounting program with three options, as described below:

1. General Accounting Option – For individuals with a career interest in accounting who do not plan to sit for professional certification examinations.
2. Management Accounting Option – For individuals with a career interest in management accounting who plan to sit for the Certified Management Accountant examination.
3. Public Accounting Option – For individuals with a career interest in public accounting who plan to sit for the Certified Public Accountant examination.

Admission and Academic Standards for Accounting Certificate Candidates

Admission to the certificate in accounting program requires that the student hold a bachelor's or master's degree in any discipline (including accounting) or be pursuing a bachelor's degree in accounting. The student must seek counsel from the College's Coordinator of Advisement, secure the approval of the Chair of the Department of Accounting and Business Legal Studies, and be admitted to UAH as a regular student before enrolling in the certificate in accounting program.

To receive a Certificate in Accounting, a student must complete the curriculum shown below for the applicable option with a grade of at least "C" in each course. Credit for work done on a prior degree may be accepted for any course in any option. However, a minimum of 18 hours must be taken at UAH for the General Accounting Option and a minimum of 24 hours must be taken at UAH for the Management Accounting Option and the Public Accounting Option. At least 12 hours of the required UAH hours for any option must be in accounting and business legal studies courses. If necessary to meet the 18 or 24 hour requirement, electives may be selected from any 300 or 400 level course in the College of Administrative Science or may be selected from outside the College with the approval of the department chair.

*Electives may be selected from any 300 or 400 level course in the College of Administrative Science or may be selected from outside the College with the approval of the department chair.

Completion of the Management Accounting Option, with a careful selection of electives, provides the basic educational background necessary to sit for the CMA examination. However, prior to taking the CMA examination, additional coursework or a rigorous preparatory course may be necessary in order to improve one’s ability to pass the examination.

Public Accounting Option

*Electives may be selected from any 300 or 400 level course in the College of Administrative Science other than accounting.

To receive the Certificate in Accounting – Public Accounting Option, a student must have a combined minimum of 150 semester hours from prior degree work and certificate work. If necessary to meet the total 150-hour requirement, electives may be selected from any 300 or 400 level course in the College of Administrative Science or may be selected from outside the College with the approval of the department chair. Completion of the Public Accounting Option meets the requirements of the Alabama State Board of Public Accountancy to sit for the CPA examination in Alabama. However, prior to taking the CPA examination, a rigorous review course may be necessary to improve one’s ability to pass the examination.
A student who does not have either an undergraduate or graduate business degree, and who has no course work from a prior degree that can be accepted toward the certificate program should seek counsel from the Coordinator of Advisement to determine whether a second bachelor's degree could be earned concurrently with the Certificate in Accounting.

A student pursuing an undergraduate degree in accounting may enroll in the certificate program concurrently with the degree program. A certificate may be awarded at the time of, or subsequent to, completion of the degree program. A certificate will not be awarded prior to completion of the degree program.

Courses of Instruction, Admission, and Descriptions

Lower Division. Courses numbered 100 to 199 are designed primarily for freshmen and courses numbered 200 to 299 are designed primarily for sophomores. Juniors, seniors and graduate students may be admitted for lower division credit. Graduate students may take these courses and receive lower division credit, but not graduate credit.

Upper Division. Courses numbered 300 to 499 are available only to juniors, seniors and graduate students. All students, both those admitted as majors in the College of Administrative Science and those admitted as majors in other colleges in the University, must meet College of Administrative Science general prerequisite requirements in order to be admitted to upper division College of Administrative Science courses in addition to the specific course prerequisites cited in the course descriptions.

General prerequisites for all upper division College of Administrative Science courses are the completion of English 101 and 102, upper division standing (completion of at least 60 semester hours) and admission to UAH as a regular student. See NOTE at end of this section.

Graduate students may take these courses for upper division credit, but not for graduate credit.

Offerings. The following abbreviations indicate the component of the calendar the course normally will be offered: Su-Summer Term, F-Fall Semester, and Sp-Spring Semester. Where courses are offered on alternate years only, the words "even" or "odd" will indicate which years the course will be offered. Course offerings by semester are subject to change dependent upon availability of faculty resources and to accommodate the needs of students.

NOTE: Any faculty member teaching an upper-division course in the College of Administrative Science may assume that all students have completed the specific courses listed under "Lower Division Requirements" above; and for courses with a number greater than 301, will have completed EHT 300.

Accounting (ACC)

Lower Division Courses

211 Principles of Accounting I 3 hrs.
Introduction to the accounting process, based upon the theory of double-entry bookkeeping. Particular emphasis upon the creation, content, and analysis of basic financial statements. Prerequisite: MIS 146 and sophomore standing. Parallel: ACC 221. F, Sp, Su.

212 Principles of Accounting II 3 hrs.
Basic external financial statements with special attention to the unique accounting problems of partnerships and corporations. Prerequisite: MIS 146, ACC 211. Parallel: ACC 222. F, Sp, Su.

221 Accounting Lab I 0 hrs.
Microcomputer laboratory setting reinforces lecture material from ACC 211 through computerized practice sets. Parallel: ACC 211. Lab Fee: $40. F, Sp, Su.

222 Accounting Lab II 0 hrs.
Microcomputer laboratory setting reinforces lecture material from ACC 212 through computerized practice sets. Parallel: ACC 212. Lab Fee: $40. F, Sp, Su.
Upper Division Courses (see prerequisites for upper division)

301 Managerial Accounting 3 hrs.
Introduction to basic principles of managerial accounting including manufacturing accounting, standard costing, budgeting, and cost-volume-profit relationships. Uses of accounting information for management decision making are emphasized. Prerequisite: MIS 146, ACC 212. Lab Fee: $10. F, Sp, Su.

307 Accounting Information Systems 3 hrs.
Design, operation, and analysis of accounting information systems with respect to data input, processing, storage, recall, security, internal control, and the audit trail. Emphasis is on computer-oriented systems. Prerequisites: ACC 212, MIS 301. (Same as MIS 307) Lab Fee: $40. F, Sp.

310 Intermediate Accounting I 3 hrs.
Financial accounting principles and practices. Introduction to theoretical concepts of professional organizations and their contributions to accounting thought and practice. Review of the accounting process, culminating in the basic financial statements. Concepts of present and future value, as well as the asset side of the balance sheet, are covered in depth. Prerequisite: ACC 212, MIS 146 and an acceptable score on the Accounting Program Admission Test (APAT). Lab Fee: $10. F, Sp.

311 Intermediate Accounting II 3 hrs.
In-depth treatment of the equities side of the balance sheet. Application of present value concepts to accounting problems: bonds, pensions, and leases. Other topics include earnings per share, accounting changes, and statement of cash flows. Emphasis is placed upon the unique characteristics of corporations. Prerequisite: ACC 310, MIS 146. Lab Fee: $10. F, Sp.

313 Income Tax Accounting I 3 hrs.

314 Cost Accounting 3 hrs.
Review of basic cost accounting concepts. Detailed study of advanced topics relating to job order and process costing systems, standard costing, and cost-volume-profit analysis, with special attention given to behavioral implications and ethical considerations of cost accounting, as well as international business. Prerequisite: ACC 212. Lab Fee: $10. F, Sp.

317 Government (Fund) Accounting 3 hrs.
Fund accounting at federal, state and local governments, hospitals and universities. Special accounting principles, budgeting, accounting for various funds and account groups, are emphasized. Prerequisite: ACC 212. Lab Fee: $10. F, Sp.

413 Income Tax Accounting II 3 hrs.
Tax accounting for partnerships, corporations, S corporations, estates, and trusts. Tax administration and research are emphasized. Prerequisite: ACC 313. Lab Fee: $10. F.

415 Advanced Financial Accounting 3 hrs.
Analysis of issues and alternatives in advanced problem areas including partnerships, intercorporate investments, business combinations, and foreign exchange. Prerequisite: ACC 311. Lab Fee: $30. Sp.

431 Principles of Auditing 3 hrs.
432 Advanced Auditing
Practical application of auditing concepts and standards. An understanding of auditing principles is reinforced and expanded by exposure to problems and cases. Prerequisite: ACC 431. Lab Fee: $10. Su.

450 Seminar in International Accounting
Current topics in international accounting. Prerequisite: ACC 311. Sp.

470 Seminar in Contemporary Accounting Issues
Current topics in professional accounting. Prerequisite: ACC 431 and senior standing. F, Sp.

490 Special Projects
Independent study in an area of interest to the student in the fields of accounting. Prerequisites: senior standing and approval of the Department Chair.

495 Internship in Accounting
Active involvement in a project in a business enterprise, professional organization, or government agency that has particular interest and relevance to the student. Prerequisites: Junior standing and approval of the department chair, and subject to the College's guidelines on internships. Course grade will be given on a satisfactory (S)/unsatisfactory (U) basis. F, Sp, Su.

599 Foundations in Financial Accounting
Graduate-level foundation course in financial accounting and reporting. Emphasis on analysis and use of accounting information in making economic decisions. Lab Fee: $10. Prerequisite: Permission of Assistant Dean. F.

Business Legal Studies (BLS)
Lower Division Courses

211 Legal Environment of Business
Legal environment of business including ethical, social, and political influences on both profit and non-profit organizations. F, Sp, Su.

Upper Division Courses (see prerequisites for upper division)

411 Business Law for Accountants
In-depth study of legal principles and problems encountered in practice by professional accountants. This course covers legal topics from a Uniform Commercial Code perspective. Prerequisites: BLS 211. F.

Economics (ECN)
Lower Division Courses

142 Principles of Macroeconomics
Economic analysis and its application in investigating the economic functional relation between business, consumers, and government. National income analysis, determination of employment and price levels, and introduction to market demand and supply analysis. Students who pass this course will not be eligible to take ECN 239 for additional credit. F, Sp, Su.

143 Principles of Microeconomics
Continuation of ECN 142. Advanced value theory and its application to analysis of market performance under conditions ranging from competitive to monopolistic, including consideration of distribution along functional lines, and economic growth. Students who pass this course will not be eligible to take ECN 239 for additional credit. F, Sp, Su.
239 Principles of Economics for Engineering & Science Students 3 hrs.
Basic concepts of microeconomics and macroeconomics for students with some degree of analytical capabilities. Major topics of study will include supply and demand, costs, industrial structure, resource pricing, national income accounting, determination of levels of GNP and other macroeconomic variables, and fiscal and monetary policy. Prerequisite: MA 171. Note: Students who complete this course cannot receive more than 3 hrs. degree credit from among this course, ECN 142 and ECN 143. Engineering, science, and Honors Program students who pass ECN 239 and who later decide to major in business should complete 3 additional hours of ECN at 300 level or above. Any deviations from this requirement must be approved by the department chair. F, Sp, Su.

Upper Division Courses (see prerequisites for upper division)

340 Macroeconomic Analysis 3 hrs.
Comprehensive study of the national economic system. Interdependent market processes in determining income, consumption, saving, investment, interest, employment, and the price level. Economic growth as influenced by institutional structure, technological change, business management, and government monetary and fiscal policy. Application of economic accounting structure and method. Prerequisite: ECN 142, and permission of the department chair. F.

345 Microeconomic Analysis 3 hrs.
Economic principles underlying the determination of prices in final goods and resource markets with additional training in application of these principles to problems of analysis. Prerequisite: ECN 143. Sp.

375 Labor Markets, Wages & Employment 3 hrs.
Economic analysis of labor market forces and institutions, focusing on compensation, employment, and industrial relations. Specific topics include home production, job search and matching, education investment and signaling, compensating wage differentials, and bargaining. Prerequisite: ECN 345 or permission of department chair. F.

440 Industrial Structure and Regulation 3 hrs.
Microeconomic analysis of the competitive environment in which firms operate and its implications for firm behavior, allocative efficiency, and welfare. Review of various forms of government regulation applied to industries and their implications for firm behavior are analyzed. Prerequisite: ECN 345 or permission of department chair. Sp.

454 International Economics and Finance 3 hrs.
Behavior of foreign-exchange rates under different monetary standards, methods of financing international trade, historical development of international financial institutions, current and proposed methods for fostering international trade, and problems of international liquidity. Prerequisite: FIN 301. Sp.

470 Seminar in Economics 3 hrs.
Extensive readings and reports reflecting current developments and trends in economic theory and its application to the decision-making process in business and government. Prerequisite: Permission of the department chair. F, Sp.

Finance (FIN)
Upper Division Courses (see prerequisites for upper division)

301 Principles of Finance 3 hrs.
In-depth study of the basic principles of modern finance. Time value of money, security valuation, portfolio theory and net present value. Prerequisites: ECN 143, MSC 287, ACC 212. F, Sp, Su.
352 Money and Banking 3 hrs.
Organization, operation, and economic significance of monetary and banking systems. Fractional reserve banking systems, money creation, the Federal Reserve System, U.S. financial intermediaries, introduction to monetary theory and international finance. Prerequisite: ECN 143. Lab Fee: $10. F.

361 Investments 3 hrs.
The various investment media and an overall view of the investment decision process. Topics include risk and return, valuation models, and fundamental portfolio theory. Prerequisite: FIN 301. Lab Fee: $30. F.

431 Short-term Capital Management 3 hrs.
Financial principles applied to financial management problems such as cash management; payables and receivables management; cost of short-term credit; and forecasting and financial planning. Prerequisite: FIN 301. Lab Fee: $30. F.

454 International Economics and Finance 3 hrs.
Behavior of foreign-exchange rates under different monetary standards, methods of financing international trade, historical development of international financial institutions, current and proposed methods for fostering international trade, and problems of international liquidity. Prerequisite: FIN 301. Lab Fee: $10. Sp.

461 Portfolio Management 3 hrs.
Continuation of FIN 361 with emphasis on theory, models, and functional application of investment portfolio management. Use of models in effective investment decision-making is stressed. Prerequisite: FIN 361. Lab Fee: $30. Sp.

470 Commercial Bank Management 3 hrs.
Financial management of commercial banks with emphasis on asset and liability management and techniques such as hedging and financial engineering to manage interest rate risks. Prerequisite: FIN 352. Lab Fee: $10. Sp.

478 Long-term Capital Management 3 hrs.
Financial theory as it relates to corporate policy, the efficient market hypothesis, capital structure theory, long-term financing and dividend policies. Prerequisite: FIN 301. Lab Fee: $20. F.

490 Special Projects 3 hrs.
Independent study in an area of interest to the student in the field of finance. Prerequisite: Senior standing and approval of department chair. F, Sp, Su.

495 Internship in Finance 1, 2, or 3 hrs.
Active involvement in a project in a business enterprise, professional organization or in a government agency that has particular interest and relevance to the student. Prerequisite: Junior standing and approval of department chair, and subject to the College's guidelines on internship. Course grade will be given on a satisfactory (S)/unsatisfactory (U) basis. F, Sp, Su.

Management (MGT)

Lower Division Courses

100 Introduction to Business 3 hrs.
Career options for students interested in business are stressed. Fundamentals of business organizations, effective management and the functions of business are explored.

101 Introduction to Entrepreneurship 3 hrs.
Introduction to the management of a small business and the entrepreneurial career. Focuses on elementary concepts of planning, financing, developing, and managing a new business.
Upper Division Courses (see prerequisites for upper division)

301 Managing Organizations: Theory, Behavior, and Communications 3 hrs.
Elements of the managerial process fundamental to successful operation of various types of enterprises including a study of organization theory, behavior, and interpersonal communication. Prerequisite: junior standing. F, Sp, Su.

361 Organizational Behavior 3 hrs.
Behavioral-science and social-systems approach to behavior of people at work in organizations. Behavioral decision-making, organizational theory, communication process, work motivation, groups, leadership, organizational climate, organizational development and other aspects of human behavior in organizations. Prerequisite: MGT 301. Sp.

362 Management and Labor Relations 3 hrs.
Psychological and institutional factors as well as economic analysis of major aspects of such problems as employment, wages, hours, unionism, labor-management relations, and social security. F, Sp.

Theories and practices related to personnel functions such as recruitment, selection, orientation and placement, training, evaluation, promotion, and compensation. Recent research in human resource management; valuable to students majoring in other areas related to these functions. Prerequisite: MGT 301. F, Sp.

401 Introduction to Contract Management 3 hrs.
General survey in contracting basics, covering procedures as prescribed by Federal Acquisitions Regulations, statutes, ethics, policies, and other pertinent authorities. Lab Fee: $10. Sp.

403 Contract Pricing and Cost Analysis 3 hrs.
Develops foundation and advanced skills of cost and price analysis. Sources of data, quantitative methods for cost and price analysis, profit analysis, ethics, pricing decisions and issues, negotiation process, techniques, strategies, tactics, negotiation workshop, computer applications, price/cost analysis integrating problems. Prerequisites: MGT 401, MSC 287, 325, FIN 301. Lab Fee: $20. F.

404 Negotiation Techniques 3 hrs.
Develops principles, skills, and techniques for effective negotiation of procurement actions. Includes verbal and nonverbal mannerisms, need to communicate, team approach, buyer's preparation for negotiations, and various tactics and strategies for negotiating. Prerequisite: senior standing. Lab Fee $20. F.

405 New Venture Strategies 3 hrs.

406 Government Contract Law 3 hrs.
Impact of government contract law on daily decision-making in acquisition. Basic legal principles and sources of contract law as they apply to the government's acquisition of supplies and services. Court cases and administrative decisions are discussed with emphasis on how the law affects the government/contractor interface, and how to avoid legal disputes. Prerequisites: MGT 401, BLS 211. Lab Fee: $10. F.

411 Pre-Award Contract Management 3 hrs.
Management functions in the pre-award phase of contracting, contracting problem analysis and resolution. Case studies and classroom activities on contracting problems and management functions in the pre-award phase help students develop decision-making skills relevant to managing a variety of government acquisitions. Prerequisites: MGT 401, 403. Lab Fee: $10. Sp.
421 Post-Award Contract Management 3 hrs.
Intensive examination of important areas of contract management. Topics include cost accounting principles, financial management, contract administration, organizations, terminations, disputes, quality assurance, labor relations, subcontractor controls, and environmental contract management. Prerequisites: MGT 401, 403. Lab Fee: $10. Sp.

440 Small Business Counseling 3 hrs.
Practical exposure to problems and opportunities of small business firms. Assignment of student teams as counseling unit to assist local business managers with identification of problems and formulation of alternative solutions, as well as identification of areas of opportunity within the organization. A selection of students with demonstrated ability to understand and apply knowledge from several disciplines to day-to-day operations of business enterprise. Prerequisite: approval of SBDC director. F, Sp, Su.

450 International Business 3 hrs.
Cross-discipline, team-taught course combining theoretical and practical aspects of doing business in the global market. Three modules consisting of international management, marketing and economics/finance cover topics including the legal, socio-political environment, negotiations/diplomacy, import/export mechanics, international distribution, balance of payments, hedging, trade agreements (GATT), and international business strategy. Prerequisites: MGT 301, MKT 301, FIN 301. F, Sp.

460 Employee Training and Development 3 hrs.
Introduction to the development of employee training and development programs, assessment of training needs, program evaluation, and organizational development. Prerequisites: MGT 361. F.

461 Wage and Salary Administration 3 hrs.
Introduction to compensation practices, legal constraints, wage and salary determination, and benefits programs. Prerequisites: MGT 301, MGT 363. Sp.

462 Government Regulation of Employment Relations 3 hrs.
Analysis of the impact of government regulation on the management of human resources. Examines the implications for employer responsibilities and employee rights of evolving public policies pertaining to unfair dismissal, equal employment opportunity, unemployment, occupational safety and health, employee privacy, and union-management relations. These topics will be analyzed from a multidisciplinary perspective. F, Sp.

470 Special Topics in Technology Management hrs.
Investigation of current theory, research, and practice on selected topics related to management in the high technology environment. Prerequisites: MGT 301 and senior standing. F, Su.

490 Special Projects 3 hrs.
Independent study in an area of interest to the student in the field of management. Prerequisites: senior standing and approval of department chair.

495 Internship in Management 1, 2, or 3 hrs.
Active involvement in a project in a business enterprise, professional organization or in a government agency that has particular interest and relevance to the student. Prerequisites: Junior standing, approval of the department chair, and subject to college’s guidelines on internships. Course grade will be given on a satisfactory (S) unsatisfactory (U) basis. F, Sp, Su.

499 Business Policy 3 hrs.
Integration of principles and methods acquired in the core curriculum of business strategy, policy, and management action. Involves the study of administrative processes under conditions of uncertainty including integrating analysis and policy determination.
Includes analysis of comprehensive business cases and the opportunity to acquire skills in diagnosing and solving complex business problems in local firms through one of the college's centers. Prerequisites: senior standing, ACC 301, FIN 301, MGT 301, MKT 301, EHT 300, and completion of 50% of major courses. F, Sp.

Management Information Systems (MIS)

Lower Division Courses

101 Introduction to Microcomputing 1 hr.
Introduction to the use of microcomputing hardware and software with an emphasis on microcomputer operating systems and Windows. Lab Fee: $10. F, Sp, Su.

102 Spreadsheet Applications I 1 hr.
Introduction to the use of MS-Windows spreadsheet software to create and manage spreadsheets and graphics (bar, line, and pie charts) and to the application of spreadsheets for data analysis. Prerequisite: MIS 101. Lab Fee: $10. F, Sp, Su.

103 Spreadsheet Applications II 1 hr.
Application of MS-Windows spreadsheets in advanced data analysis, graphical presentations, fundamentals of spreadsheet databases and macros, and the incorporation of spreadsheet data into other computer applications. Prerequisite: MIS 102. Lab Fee $10. F, Sp, Su.

104 Word-processing I 1 hr.
Introduction to MS-Windows based word-processing for creating, editing, and printing documents; font types and sizes; page formatting; spell and grammar checking. Prerequisite: MIS 101. Lab Fee: $10. F, Sp, Su.

105 Word-processing II 1 hr.
Advanced word-processing techniques such as tables, graphical figures, equations, headers, footers, editing multiple documents, mail merge, and integration of word-processing with other computer applications. Prerequisite: MIS 104. Lab Fee: $10. F, Sp, Su.

106 Presentation Graphics 1 hr.
Introduction to the fundamentals of MS-Windows presentation graphics with emphasis on freeform art, shapes, text, and animation. Integration of graphics, data and text to develop slide shows. Prerequisite: MIS 101. Lab Fee: $10. F, Sp, Su.

108 Database Applications 1 hr.
Introduction to MS-Windows database application software with emphasis on creating and managing simple databases, querying and modifying records, and report generation. Prerequisite: MIS 101. Lab Fee: $10. F, Sp, Su.

146 Computer Applications in Business 3 hrs.
Overall structure of computer problem solving and method of constructing computer solutions in a business environment. Overview of hardware/software systems. Data and information processing in organizations and other computer uses in management. Use of business software packages such as Windows, word processing, spreadsheets, and databases. Applications and examples will generally be from administrative areas. Lab Fee: $50. F, Sp, Su.

210 Introduction to Computer Programming in Business 3 hrs.
Fundamentals of structured design and programming using a procedural language such as COBOL. Table handling and hierarchical data structure. Prerequisites: MIS 146 or CS 108. Lab fee: $60. F.
Upper Division Courses (see prerequisites for upper division)

301 Information Systems in Organizations 3 hrs.
Understanding the role of information systems in organizations and how they relate to organizational objectives and organizational structure. Introduces information system applications. Prerequisites: MIS 146, MSC 287, ACC 211, 212. Lab Fee: $40. F, Sp.

307 Accounting Information Systems 3 hrs.
Design, operation, analysis of accounting information systems with respect to data input, processing, storage, recall, security, internal control, and the audit trail. Emphasis will be placed on computerized systems. Prerequisites: MIS 301, ACC 212. (Same as ACC 307). Lab Fee: $40. F, Sp.

310 Advanced Computer Programming in Business 3 hrs.
Advanced business language such as COBOL features, control language and file handling (sequential, random and indexed sequential), program structure documentation, and maintenance. Course project in development and documentation of significant business application. Prerequisite: MIS 210. Lab Fee: $60. Sp.

340 Data Bases for Management 3 hrs.
Management of data resources to effectively support the information systems of organizations. Concepts supported by use of current DBMS software on mainframe and/or PC. Prerequisites: MIS 210, 301. Lab Fee: $60. Sp.

350 Advanced Data Bases for Management 3 hrs.
In-depth investigation of data modeling, system development, and data administration in a database environment. Course project in development and documentation of significant business applications. Prerequisite: MIS 340. Lab Fee: $60. F.

Analysis of information system components and technologies which aid the manager in the decision making process. Concepts supported by use of current DSS/ES software. Prerequisites: MIS 301, MGT 301, MKT 301, FIN 301, and MSC 385. Lab Fee: $30. F. (Same as MSC 400)

412 Information Systems Design and Implementation 3 hrs.
Advanced coverage of the strategies and techniques of structured systems development. Emphasizes information analysis and the logical specifications of the system. Students prepare exercises and case studies to develop proficiency in information analysis techniques. Integrates computer technology, systems analysis, systems design, and organizational behavior in designing large scale application or decision support systems. Prerequisites: MIS 210, 301. Lab Fee: $60. F.

460 Telecommunications 3 hrs.
Overview of geographically distributed computer-communications facilities. Network design, structure and optimization are addressed. Regulated common carriers, data transmission, routine techniques, reliability, protocols, error detection, modems and controllers are included. Prerequisite: MIS 301. Lab Fee: $20. F.

480 Current Topics in Management Information Systems 3 hrs.
Selected topics in management information systems. Topics will reflect the contemporary issues and current technological advancements which impact the development, implementation and management of effective information systems in organizations. Prerequisites: senior standing and approval of department chair. Lab Fee: $50. F.

490 Special Projects 3 hrs.
Independent study in an area of interest to the student in the field of management information systems. Prerequisite: senior standing and approval of Department Chair. Lab Fee: $50. F, Sp.
495 Internship in Information Systems 1, 2, or 3 hrs.
Active involvement in a project in a business enterprise, professional organization or in a government agency that has particular interest and relevance to the student. Prerequisites: Junior standing and approval of department chair, and subject to College's guidelines on internship. Course grade will be given on a satisfactory (S)/unsatisfactory (U) basis. F, Sp, Su.

499 Systems Development Project 3 hrs.
Capstone course emphasizing the development of a computer application via the life cycle methodology. Semester projects will produce current system specifications, devise logical system design, develop a physical design for a new design and implement the design to the extent possible. Prerequisites: MIS 412, 310 or 350. Lab Fee: $60. Sp.

Management Science (MSC)

Lower Division Courses

287 Business Statistics I 3 hrs.
Introduction to the concepts of probability and business statistics. Topics include collection, classification, and presentation of data, measures of central tendency, and dispersion of data; probability distributions; confidence limits and hypothesis testing. Prerequisite: MIS 146, MA 117 and 145 or other Level III mathematics. Lab Fee: $20. F, Sp.

288 Business Statistics II 3 hrs.
Inferential statistics for business decisions. Topics include: review of sampling distributions and estimation; inferences about means, proportions, and variances with one and two populations; goodness of fit tests; analysis of variance and experimental design; simple linear regression; multiple linear regression; non-parametric methods. Prerequisite: MSC 287. Lab Fee: $40. F, Sp.

Upper Division Courses (see prerequisites for upper division)

325 Quantitative Methods in Business 3 hrs.
Statistical and quantitative modeling and problem solving methods used in business. Topics include correlation, Chi-square, analysis of variance, regression, linear programming, decision theory, simulation, and queueing analysis. Prerequisites: MA 151, MIS 201, MSC 287. Lab Fee: $50. F, Sp.

385 Production/Operations Management 3 hrs.
Survey of the concepts, processes, and institutions involved with the production function of a firm. Topics include forecasting, production planning, and control, materials management, and quality control. Applications of management science tools to production problems. Prerequisites: MA 145, MIS 146, MSC 287, and MSC 288 or 325. Lab Fee: $50. F, Sp.

Analysis of information system components and technologies which aid the manager in the decision making process. Concepts supported by use of current DSS/ES software. Prerequisites: MIS 301, MGT 301, MKT 301, FIN 301, and MSC 385. Lab Fee: $30. (Same as MIS 400)

470 International Production Management 3 hrs.
Current topics related to international production management, such as Japanese production management systems, "off shore" production arrangements, joint production systems, vertical quality management. Prerequisites: MSC 385.
Advanced Production/Operations Management 3 hrs.
Further examination of the concepts, processes, and institutions involved with the production function of a firm. Topics include forecasting, production planning and control, materials management, and quality control. Applications of management science tools to production problems. Prerequisite: MSC 385. Lab Fee: $30.

Special Projects 3 hrs.
Independent study in an area of interest to the student in the field of management science. Prerequisites: senior standing and approval of department chair.

Internship in Management Science 1, 2, or 3 hrs.
Active involvement in a project in a business enterprise, professional organization or in a government agency that has particular interest and relevance to the student. Prerequisites: Junior standing and approval of Department Chair, and subject to College's guidelines on internship. Course grade will be given on a satisfactory (S)/unsatisfactory (U) basis. F, Sp, Su.

Marketing (MKT)
Upper Division Courses (see prerequisites for upper division)

Principles of Marketing 3 hrs.
Integration and study of functional commodity, and institutional approaches from viewpoint of consumer and marketing manager. Prerequisite: junior standing. F, Sp, Su.

Sales Management and Professional Selling 3 hrs.
Integration of techniques and concepts of professional selling with problems of sales management. Objectives and policies for sales managers concerning managing sales force and methods of marketing analysis in terms of sales forecasts and budgeting. Problems faced by sales management in competition, pricing, and promotion. Prerequisite: MKT 301. F, Sp.

Retailing Policy and Management 3 hrs.
Policies, practices, and problem solutions in efficient operation of chain and independent retail stores. Store location, organizational layout, merchandise planning and control, buying, pricing, and promotion. Prerequisite: MKT 301.

Buyer Behavior 3 hrs.
Application of behavioral science concepts to understanding and influencing individual and organizational buying behavior. Prerequisite: MKT 301. F, Sp.

Promotional Strategy 3 hrs.
Promotional techniques available to marketing management. Consumer behavior and communication process means by which products can be effectively promoted. Specific tools of personal selling, advertising, sales promotion, and publicity as components of overall promotional strategy. Prerequisite: MKT 301. Su.

Marketing Research Design 3 hrs.
Introduction to the principles and purposes of marketing research; relationship to other marketing functions and marketing information systems, data sources, review of research methodologies and ethical considerations. Prerequisites: MKT 301, MSC 287, and MSC 325 or MSC 288. Lab Fee: $30. F, Sp.

Marketing Research Applications 3 hrs.
Application of the principles and purposes of marketing research; laboratory, field and historical research methodologies, experimental design, sampling procedures, questionnaire design, and data analysis. Prerequisites: MSC 287, 325 or 288, MKT 301, 343.
345 Market Channel Structure and Strategy 3 hrs.
Marketing channels as a functional area and the alternative choices available to marketing management in developing overall marketing strategy. Institutional structures and dynamic interrelationships in distribution logistics. Prerequisite: MKT 301.

414 Marketing Emerging Technologies 3 hrs.
Comprehensive review of the new product development process. Specialized application of marketing research and marketing strategy to new product development, concept development and concept testing. Prerequisites: MKT 301, 343. Sp.

415 International Marketing 3 hrs.
Procedures and problems associated with establishing and carrying out marketing operations in or with foreign companies. Institutions, principles, and methods involved in solving these business problems. Effect of national differences in business practices and regulation. Prerequisites: MKT 301 and senior standing. Su.

470 Advanced Marketing Seminar 3 hrs.
Investigation of advanced marketing topics to include marketing in a high technology environment, relationship marketing, channel design and strategy, retailing, transportation, and logistics. Prerequisites: MKT 301, 6 hrs. of MKT, and senior standing. F.

480 Marketing Management 3 hrs.
Management of marketing function of the firm; determination of objectives, organization and controls for effective utilization of marketing resources in coordinated effort with other major functional areas. Identification and selection of market opportunities. Competitive strategies and development of marketing policies and programs. Prerequisites: MSC 325 or 288, MKT 332, 343, and senior standing. F, Sp.

490 Special Projects 3 hrs.
Independent study in an area of interest to the student in the field of marketing. Prerequisite: senior standing and approval of the department chair.

495 Internship in Marketing 1, 2, or 3 hrs.
Active involvement in a project in a business enterprise, professional organization or in government agency that has particular interest and relevance to the student. Prerequisites: Junior standing, approval of department chair, and subject to college’s guidelines on internship. Course grade will be given on a satisfactory (S)/unsatisfactory (U) basis. F, Sp, Su.
College of Engineering

Dean Lynn D. Russell, B.S.M.E., M.S.M.E., Ph.D., P.E., Professor of Mechanical Engineering
Associate Dean Kenneth O. Thompson, B.S., B.A.E., B.B.A., M.S., Ph.D., Associate Professor Emeritus.
Assistant Dean for Student Affairs, Jerrod K. Young, B.S., Lecturer in Engineering

Engineering is the profession that translates scientific thought into reality. By combining synthesis, analysis and design in creative and innovative modes, the engineer produces systems, processes and products for the benefit of mankind. Those who desire to be part of this important effort can gain entry into the engineering profession by attending UAH. The UAH College of Engineering is located in an urban area and also in the state’s high technology area. Close proximity to the Marshall Space Flight Center, Redstone Arsenal and much of Alabama’s fastest growing technological industry gives the College of Engineering a special character that leads to outstanding educational opportunities for its students. This special setting, combined with a high quality faculty, affords maximum growth potential for those desiring to pursue a career in engineering.

The UAH College of Engineering is strongly committed to the advising of both undergraduate and graduate students. As such, students are requested to contact the Dean’s Office as soon as possible for initial advising.

Laboratory fees have been eliminated from engineering courses. A surcharge (presently $12 per semester hour) is assessed on all engineering courses. The proceeds are earmarked for the upgrading of engineering laboratories, and for the acquisition, maintenance, repair and replacement of instrumentation and equipment to support the various engineering programs.

Degrees and Programs
The College of Engineering offers the Bachelor of Science in Engineering degree with options in chemical engineering, civil engineering, computer engineering, electrical engineering, industrial and systems engineering, mechanical engineering, and optical engineering. The undergraduate engineering programs are built around a core consisting of courses in mathematics, the physical sciences, humanities, and engineering. Students then take additional engineering courses in the areas of their specializations. The net result is that at UAH, engineering students first develop breadth in important fundamental areas and then depth in their particular field of specialization. This gives an added dimension to UAH engineering graduates that enhances their professional performance. The UAH engineering student is also able to obtain “real world” engineering experience through the Cooperative Education Program or by part-time work with the many governmental and industrial facilities in Huntsville.

Graduate degrees offered in engineering include the Master of Science in Engineering, a Master of Science in Operations Research and the Doctor of Philosophy. Interaction with the
high technology area of Huntsville strongly enhances the high quality engineering graduate programs and, thereby, offers the candidate a degree that has added significance.

When desirable, as evidenced from continuous studies, the College of Engineering may modify its curricula and specific courses of instruction, alter requirements for admission or for graduation, and change degrees to be awarded.

**Requirements for an Engineering Cluster**

Students with non-engineering majors who choose a cluster in engineering must take a minimum of 21 hours in engineering courses exclusive of the prerequisites. Each engineering program director will maintain one or more lists of specific courses comprising an approved cluster. Students must have the intended cluster approved by the College of Engineering prior to enrollment in engineering courses.

**Requirements for a Non-Engineering Minor**

Engineering students may earn a minor in areas other than engineering. A non-engineering minor requires the approval of the department granting the minor, the student's engineering department, and the office of the Dean of Engineering. Forms for requesting the minor are available in the Engineering Advisement Center.

**Course Numbers**

Course numbers are coded for engineering by prefixes as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Prefix</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chemical Engineering</td>
<td>CHE</td>
</tr>
<tr>
<td>Civil Engineering</td>
<td>CE</td>
</tr>
<tr>
<td>Computer Engineering</td>
<td>CPE</td>
</tr>
<tr>
<td>Electrical Engineering</td>
<td>EE</td>
</tr>
<tr>
<td>Industrial and Systems Engineering</td>
<td>ISE</td>
</tr>
<tr>
<td>Mechanical Engineering</td>
<td>MAE</td>
</tr>
<tr>
<td>Optical Engineering</td>
<td>OPE</td>
</tr>
</tbody>
</table>

**Bachelor of Science in Engineering Degree Program**

The engineering program has as its primary objective the preparation of qualified students for careers in any one of many engineering disciplines, for research, and for advanced studies. It stresses a broad education in mathematics, physical sciences, humanities, social sciences, engineering science, and engineering design and synthesis.

The College of Engineering achieves this objective by offering a unified program of undergraduate engineering studies that serves as a foundation for creative participation in most areas of engineering, especially those associated with new evolving technologies. All engineering students follow a common curriculum with specialization in the junior and senior years in chemical engineering, civil engineering, computer engineering, electrical engineering, industrial and systems engineering, optical engineering, or mechanical engineering. The chemical engineering, civil engineering, computer engineering, electrical engineering, industrial and systems engineering, and mechanical engineering options are accredited by the Accreditation Board for Engineering and Technology (ABET). The degree awarded is the Bachelor of Science in Engineering (B.S.E.)
High School Preparation, Prerequisite Courses, and Transfer Credit

Students who intend to pursue the B.S.E. degree should read the section on undergraduate admissions information. Students who have had inadequate preparation or who are placed in certain lower-level classes due to results of placement tests will have to take one or more of the following courses.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EH 003</td>
<td>Basic English</td>
<td>No credit</td>
</tr>
<tr>
<td>CH 101</td>
<td>General Chemistry</td>
<td>3 hrs.</td>
</tr>
<tr>
<td>CH 105</td>
<td>General Chemistry Laboratory</td>
<td>1 hr.</td>
</tr>
<tr>
<td>MA 119</td>
<td>Precalculus I</td>
<td>3 hrs.</td>
</tr>
<tr>
<td>MA 121</td>
<td>Precalculus II</td>
<td>3 hrs.</td>
</tr>
</tbody>
</table>

These courses carry the academic credit indicated and will appear on transcripts of students who successfully complete the courses. Since these courses are prerequisites to courses required for the B.S.E., credit earned in one or more of these courses cannot be applied toward the minimum requirement for the B.S.E.

Credit for engineering courses taken in schools with ABET accredited programs is transferable to UAH. Engineering courses taken in non-ABET accredited programs may also be applied to a B.S.E. degree based on an appropriate examination (written or oral) at the discretion of the respective department. All inquiries concerning applicability of credit should be made to the Associate Dean of Engineering.

Each student in the College of Engineering, especially those transferring from other institutions, must assume the responsibility for registering for all required courses in their proper sequence and for fulfilling all requirements for admission and graduation. Failure to do so may extend the time required for graduation. Each student should seek counseling and advice from the appropriate department or from the office of the dean, typically through the Engineering Advisement Center (EAC). The EAC has primary responsibility for assisting and advising incoming engineering students until such time as they achieve upper division status. Upper division students will be assigned an advisor in their major.

The College of Engineering requires, after matriculation, that a grade of C or better be earned in each course that serves as a prerequisite to any course applied toward completing B.S.E. degree requirements. If a grade of less than C is received in a course taken at UAH which is a prerequisite course, the course must be repeated and a grade of C or better earned BEFORE a student enrolls in the subsequent course. At UAH, only one repeat attempt or a total of two attempts are allowed in any of these prerequisite courses.

Admission of high school graduates to one of the options in engineering is guided by the catalog section on Admissions Information. Engineering undergraduate students are in either the lower division (EGL) or the upper division (EGU). High school graduates will be admitted to the lower division. Students are eligible for the upper division when they have demonstrated proficiency by having completed a minimum of 45 hours of courses specified under the proficiency requirement listed below. Students wishing to transfer to engineering from other universities or from other programs within UAH will be admitted to the lower division until such time as their transcripts have been evaluated by the College of Engineering. These students will be phased into the upper division when the College determines they have satisfied the minimum 45 hours proficiency demonstration. Students will be notified in writing of their change of status.

Students normally register for the next semester prior to completion of the current semester. To prevent blocking engineering course progress, lower division students are allowed to enroll in 300-level engineering courses, assuming they have or are currently enrolled in the prerequisites. All 400-level engineering courses have a prerequisite of upper division status prior to enrollment in them.
**Proficiency Requirement for Upper Division Status**

To be admitted to upper division status, a student must complete a minimum of 45 hours, each with a grade of at least “C,” from the following list of courses which total 52 hours:

<table>
<thead>
<tr>
<th>Semester Hours</th>
<th>Course Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>18</td>
<td>Mathematics: MA 171, 172, 201, 244, 324</td>

</tr>
</tbody>
</table>

Any student who wants to take an engineering course and who is not in the College of Engineering must obtain prior approval from the College of Engineering either through a program of study which requires the course, through a cluster which lists the course, or by special permission (e.g. for transient students).

Any student admitted to the College of Engineering who is subsequently suspended from the University must, upon readmission to the University, reapply for admission to the College of Engineering.

**Course Requirements**

Students must successfully complete courses in each of six categories. The normally required courses are shown; however, the Dean of Engineering may approve other courses which also meet ABET guidelines.

<table>

<td>3. Humanities and social sciences</td>
</tr>
</tbody>
</table>

Engineering students are required to take a total of 18 semester hours (in addition to EH 101 and EHT 301) in the humanities and social sciences, including ECN 239 and PHL 392. The remaining 12 semester hours should be a balanced choice from the following areas: art history, literature, history, music appreciation, philosophy, sociology, psychology, political science, economics, and foreign languages other than a student’s native language(s). No more than six hours should be at the introductory level (courses with no prerequisites), and a two-course sequence in a given area is necessary to develop depth. Courses should be elected to fulfill an objective appropriate to the engineering profession. Courses treating subjects such as accounting, industrial management, finance, personnel administration, and ROTC normally do not fulfill this objective regardless of their general value in the total engineering curriculum.

A list of courses which satisfy the humanities and social sciences electives is maintained in the Engineering Advisement Center in EB 158.
4. Mathematics
   Calculus and Analytic Geometry - MA 171, 172, 201 ..................... 12
   Linear Algebra - MA 244 .................................................. 3
   Differential Equations - MA 324 ....................................... 3
5. Basic Sciences
   General Physics - PH 111,114,112,115.................................. 8
   Chemistry - CH 121, 125 ................................................. 4
Additional courses are listed under each option.

6. Engineering options
   Students are required to take one of the following options:
   Chemical Engineering
   Civil Engineering
   Computer Engineering
   Electrical Engineering
   Industrial and Systems Engineering
   Mechanical Engineering
   Optical Engineering
   Each of these options is described under the portion of the catalog devoted to the respective programs.

CHEMICAL ENGINEERING
Degree: Bachelor of Science in Engineering
Professor Emeritus Grohse; Professor Smith (Chair); Associate Professors Chen, Chittur, Nadarajah, Weimer; Assistant Professor Hayes.

Chemical engineering deals with any situation in which changes in the chemical composition or the physical state of matter (or both) are involved and, hence, finds unusually wide application. Heat and mass transfer, fluid mechanics, thermodynamics, chemical reaction kinetics, and process control constitute the heart of chemical engineering. Chemical engineers work in many diverse fields ranging from production of many basic chemical products required by our industrial society to research on major technical and social problems, including energy resources development, space applications, and pollution control.

Chemical Engineering Option
To obtain a Bachelor of Science in Engineering degree with the chemical engineering option, students are required to take:

<table>

99
Students applying for graduation in the chemical engineering option must show evidence of having taken the Fundamentals of Engineering (FE) Examination. The examination is offered by the State of Alabama Board of Registration for Professional Engineers and Land Surveyors, P.O. Box 304451, Montgomery, AL 36130-4451. Phone: (334) 261-5568. Contact the College of Engineering for further information.

**Undergraduate Chemical Engineering (CHE) Courses**

197  **Computer Methods for Chemical Engineering**  3 hrs.
Introduction to industrial processes used in the production of commodity chemicals important to chemical engineers. Computer programming, spreadsheets, symbolic math, and drawing packages to model fundamental stages of these processes will be presented. Prerequisite: MA 121 or parallel.

244  **Stoichiometry**  3 hrs.
Introduction to basic calculations of chemical engineering, emphasizing material and energy balances on physical and chemical processes. Prerequisites: PH 111, CH 123, CHE 197.

Structure of matter, basic concepts of phase transformation, mechanical, electrical, magnetic, and thermal properties, and corrosion. Basic properties of metals, plastics, elastomers, and ceramics with emphasis on methods of changing properties. Laboratory included. Typical experiments include microstructure analysis, hardness testing, mechanical-properties testing, equilibrium-phase diagrams, corrosion, creep behavior, and semiconductor analysis. Prerequisite: CH 121, PH 111. (Same as MAE 294).

344  **Chemical Engineering Thermodynamics**  3 hrs.
Thermodynamics of phase equilibria, chemical reactions and thermodynamic analysis of chemical processes, with emphasis on topics of special interest to chemical engineers. Prerequisites: CHE 244, MAE 341.

347  **Quantitative Modeling for Chemical Engineers**  3 hrs.
Modeling and analysis of physical phenomena that arise in chemical engineering and an introduction to computer-aided design. Prerequisites: CHE 197, MA 324.

352  **Fluid Mechanics I**  3 hrs.
Properties of fluids and fundamental principles governing fluid motion, including fluid statics, conservation of mass, momentum and energy with applications to pipe, and channel flows of incompressible fluids. Laboratory included. Prerequisites: MAE 341, 362, MA 324. (Same as MAE 352).

440  **Unit Operations Laboratory**  3 hrs.
Experimental studies covering topics from reaction kinetics, fluid flow, heat transfer, and chemical thermodynamics with emphasis placed on written and oral laboratory report presentation techniques. Prerequisite: CHE 443.

441  **Chemical Kinetics and Reactor Design**  3 hrs.
Fundamental principles of chemical kinetics and chemical reactor engineering along with the design of both thermal and catalytic reactors. Prerequisites: CHE 344; Parallel CHE 445. (Same as CHE 541)

442  **Introduction to Heat and Mass Transfer**  4 hrs.
Principles of heat and mass transfer: application of principles to problems in conductive, convective, and radiative-heat transfer, and mass transfer; laminar and turbulent flow processes; boiling and condensation: heat exchangers. One credit hour laboratory included. Prerequisites: MAE 341, CHE 352 and CHE 347; Parallel CHE 443. (Same as MAE 442)

443  **Mass Transfer Operations**  4 hrs.
Theory of mass transfer phenomena, with applications to both stagewise and diffusion controlled distillation, gas absorption/desorption, humidification and extraction processes. Prerequisites: CHE 344, 352. Parallel CHE 442.

445  **Chemical Process Control**  3 hrs.
Fundamental principles of chemical process control; control system design for chemical processes. Prerequisites: MA 324, CHE 244; Parallel CHE 441.
Analysis and Design of Transport Equipment 3 hrs.
Theory of transport phenomena from a unified approach to momentum, heat and mass transfer. Application of theory to the design of various transport equipment. Prerequisites: CHE 352, 442, 443.

Chemical Engineering Design 4 hrs.
Individual design of chemical engineering components, concluding with an overall team design effort, using modern computer-aided design techniques. Overall design requires a preliminary design, simulation, and economic evaluation of a chemical production flow sheet. Prerequisites: CHE 443, 441, 445.

Introduction to Environmental Engineering 3 hrs.
Engineering aspects of air, water, and thermal pollution. Hydrologic cycle, water sources and uses; industrial and other sources of primary and secondary pollutants. Transport process in environmental problems and in their control. Prerequisite: MAE/CHE 442. (Same as CHE 549.)

Environmental Control 3 hrs.
Engineering design and synthesis of environmental control systems. Control of multiphase systems with application to air and water pollution control. Prerequisite: MAE/CHE 442. (Same as CHE 550.)

Fluid Mechanics Laboratory 1 hr.
Introduction to experimental uncertainty analysis and statistical data analysis. Application to experiments concerning fluid properties, flow losses, pipe flows, lift and drag, compressible flow and other fluid phenomena. (Same as MAE 455). Prerequisite: CHE 352.

CIVIL AND ENVIRONMENTAL ENGINEERING

Degree: Bachelor of Science in Engineering

Professor Emeritus Kubitza; Professors Cruise, Schonberg (Chair); Associate Professor Campbell; Assistant Professor Leonard.

Civil engineers are involved in many aspects of modern life, such as structural engineering, transportation planning, environmental systems, and geotechnical analysis. The modern civil engineer uses traditional design and analysis methods as well as advanced experimental and computational techniques. At the University of Alabama in Huntsville students are exposed to all of these areas of civil engineering and introduced to techniques that will make them competent practicing professional engineers. The Bachelor of Science in Engineering degree from the Civil and Environmental Engineering Department at UAH can be obtained by completing either a broad civil engineering curriculum or by specializing either in structural or environmental engineering.

The civil engineering curriculum consists of general engineering classes (required of all engineering students), the civil engineering core, and the civil engineering concentration selected. See the "Undergraduate Student Handbook" from the Civil Engineering Department for more specific information.

The undergraduate structural engineering stem at UAH provides students with a strong background in many aspects of structural analysis, foundations, reinforced concrete, and advanced structural design. The student may take additional courses in such areas as concrete mix proportioning, construction materials, experimental mechanics, and finite element methods.

The undergraduate environmental engineering concentration at UAH provides an education necessary for many aspects of environmental management and remediation. Within the framework of the program, students will be introduced to many topics, including water quality, atmospheric pollution, environmental systems, and statistics.
Degree Requirements
To obtain a Bachelor of Science in Engineering, civil engineering students are required to take:

**General Civil Engineering:**

Choose 9 hours from CE 381, 403, 475, 456, 485, subject to satisfactory completion of prerequisite requirements. ........... 9

* Choose from CE 384, 458, 461, 474, 477, 478, 481, 482, 485, MAE 342, 376, 394, 442, 451, 454, 470, 485, 486, 489, or other 300-level or above course approved by a civil and environmental engineering program academic advisor.

Courses with a CE prefix are typically offered once a year, except for Statics, Dynamics, and Mechanics of Materials. Civil engineering students are encouraged to seek the advice of a full-time civil engineering faculty member as soon as possible after their enrollment at UAH to ensure the timely completion of their program of study.

Students applying for graduation must show evidence of having taken the Fundamentals of Engineering (FE) Examination. The examination is offered by the State of Alabama Board of Registration for Professional Engineers and Land Surveyors, P.O. Box 304451, Montgomery, AL 36130-4451. Phone: (334) 261-5568. Contact the College of Engineering for further information.

*HU/SS-12 hours in humanities/social sciences.

**Undergraduate Civil Engineering Courses (CE)**

### 271 Statics

*3 hrs.*  
Topics include: forces, resultant forces, moments, couples equivalent force systems, equilibrium, distributed loads, two force members, trusses, centroids, moments of inertia, shear and bending moment diagrams, static and kinematic friction. Prerequisite PH 111; or parallel MA 201. (Same as MAE 271).

### 284 Land Surveying I

*2 hrs.*  
Basic theory and practical field methods for engineering applications. Measurements and errors in surveying. Leveling, traversing, stadia, topographic surveys, mapping, and circular curves. 1.5 hour lecture and 2 hour lab. Prerequisite: Parallel MAE 198 or consent of instructor/advisor.

### 362 Dynamics

*3 hrs.*  
Kinematics and kinetics of particle and systems of particles with applications to central force motion, impact, relative motion, vibrations, and variable mass systems. Dynamics of rigid body in plane motion, relative motion in rotating coordinates, and gyroscopic motion. Prerequisite: MAE/CE 271 (same as MAE 362).
Mechanics of Materials 4 hrs.
Topics include: theory of stress and strain. Hooke’s law, analysis of stresses and deformations in bodies loaded by axial, torsional, bending and combined loads, and analysis of statically indeterminate systems. Required laboratory section includes: the determination of selected properties of various engineering materials, experimental verification of theories presented, use of strain measuring devices, test procedures, instrumentation, and interpretation of results. Prerequisites: MAE/CE 271, MAE/CHE 294 (Same as MAE 370).

Structural Analysis I 3 hrs.
Reactions, shears, moments in determinate structures. Influence lines, energy methods in computing deformations. Introduction to indeterminate structures. Prerequisites: MAE/CE 362, 370.

Soil Mechanics 3 hrs.
Index properties and characteristics of soils: compaction shear, compressibility and permeability. Application to analysis and design of foundation elements. Co-requisite: CE 373. Prerequisite: MAE/CE 370; Prerequisite or parallel CHE 352.

Soil Mechanics Lab 1 hr.

Civil Engineering Systems Analysis and Design 3 hrs.
Analysis, optimization, and design of civil engineering systems including structures, water resources, and transportation. Includes lab with design project. Initial and optimized designs will be developed. Prerequisites: MA 324, CE 271, EE 197.

Engineering Design Project TBA
Individualized design project under supervision of instructor. Prerequisite: Junior standing.

Structural Analysis II 3 hrs.
Reactions, shears, moments and deformations in complex structural systems. Statically indeterminate systems, advanced geometric and energy methods. Prerequisites: CE 371.

Land Surveying II 3 hrs.
Surveying public lands; topography, mapping, construction surveys, and boundary surveys. Topographic surveying project, computer applications and laboratory work included. Prerequisite: CE 284.

Reinforced Concrete Design 3 hrs.

Structural Steel Design 3 hrs.
Principles of design of steel structures using ASD methods. Analysis and design of structural elements including beams, columns, connection details. Prerequisite: CE 371.

Concrete Mix Proportioning 3 hrs.
Classification of concrete aggregates and their effects on concrete properties. Mixing, placing, and testing of normal weight, high strength, and lightweight concretes. Proportioning according to ACI methods. Laboratory included.

Introduction to Environmental Engineering 3 hrs.
Engineering aspects of air, water, and thermal pollution. Hydrologic cycle, water sources and uses; industrial and other sources of primary and secondary pollutants. Transport process in environmental problems and their control. Prerequisite: MAE 352. (Same as CE 549 and CHE 449/549)

481 Advanced Soil Mechanics
Continuum mechanics applied to soil behavior. Theoretical approaches to consolidation, shear strength, slope stability and soil stabilization. Prerequisite: CE 372. (Same as CE 581.)

482 Soil Dynamics
Behavior of soils under dynamic, earthquake and blast loading. Analysis of foundation vibration and isolation. Prerequisite: CE 372. (Same as CE 582.)

485 Foundation Engineering
Design of foundations with emphasis on reinforced concrete, footings, caissons, piles, retaining walls, and mat foundations. Effect of bearing pressure on foundations. Prerequisites: CE 372 and 403. (Same as CE 585.)

ELECTRICAL AND COMPUTER ENGINEERING
Degree: Bachelor of Science in Engineering

Distinguished Professor Johnson; Professors Abushagur, Audeh, Banerjee, Fork, Ho, Jarem, Kowel (chair), Porter, Poularikas, Singh, Stensby; Associate Professors Adhami, Katsinis, Kulick, Lindquist, Nordin, Shen, Shtessel; Assistant Professors Arabshahi (visiting), Boykin, Cohen, Gaede, Maier, Wells.

Electrical and computer engineering today is concerned with the broad problem of generating, transmitting, receiving, and processing information and energy. Emphasis in the department is on “information” related areas: antennas and microwaves, communications and signal processing, digital processing, computer architecture, software engineering, control and system theory, electronics, and solid state devices. New thrust areas under development include optical engineering and robotics.

Computer Engineering Option
The Department of Electrical and Computer Engineering offers a four-year program leading to a Bachelor of Science in Engineering degree with specialization in computer engineering. The purpose of the program is to produce a broadly educated individual, who qualifies as a professional in the analysis, design and application of computer systems. The computer engineering program provides a background in non-engineering areas such as English, mathematics, basic science, humanities and social sciences. A broad background in engineering is developed through the engineering core curriculum and further courses from electrical engineering. The program’s focus on computer engineering is developed through a blend of courses in computer engineering and computer science. The graduate computer engineer will be professionally qualified in a number of technical specialties which include computer architecture, interface design, communications and networking, and software engineering. In professional life the computer engineer considers carefully the role of the engineer in dealing with a broad spectrum of commercial, legal, and ethical issues.

Total Hours 140

*HU/SS - 12 hours in humanities/social sciences.
**May substitute ISE 390.
Undergraduate Computer Engineering Courses (CPE)

197 **Computer Methods in Engineering**  
3 hrs.  
Solution of engineering problems using a digital computer. Hardware structure of the stored-program computer; machine language programming, engineering approximation of dynamic systems; flowcharting and algorithms. Practice in solving engineering problems on the university computer using “C”. Prerequisite or parallel: MA 121.

201 **Digital Logic Design Lab**  
2 hrs.  
Experiments on logic gates, combinational logic circuit design, flip-flops, sequential circuit design, counter registers, and shift registers. Parallel with or follow EE 202.

203 **Fundamentals of Software Engineering**  
3 hrs.  
Introduction to structured programming using C++. Search and sort algorithm. Introduction to data structures. Applications to engineering related problems. Prerequisite: CPE 197.

302 **Design of Digital Computer**  
3 hrs.  
Functional organization of stored-program digital computers including number representation, computer hardware, micro-operations, and control logic; microprocessor architecture. Prerequisite: EE 202. (Same as EE 302)

325 **Principles of Digital Computer Systems**  
3 hrs.  
Introduction to minicomputers and microcomputers. Topics include: machine organization and operation; information control and transfer within a machine; data transfer and communication with external devices; computer response time; engineering applications of computers. Prerequisite: EE 311.

335 **High Level Languages and Computer Hardware**  
2 hrs.  
Application of high level languages in interrupt processing, real time clock management, device independent high level input/output operations, device drivers, microprocessor networks. Prerequisite: CPE 302.

355 **Software Design for Real Time Systems**  
3 hrs.  
Development and interfacing of software components using a major high level language and a representative assembly language. Applications in hardware support, high level I/O operations, interrupt processing and device drivers. Use of the UNIX operating system. Prerequisite: CPE 203, CPE/EE 302.

356 **Software Design for Real Time Systems Lab**  
2 hrs.  
Use of the UNIX operating system to develop high level and assembly language programs for hardware control. Parallel CPE 355.

403 **Software Design & Engineering**  
3 hrs.  
Basic concepts of software engineering. Software project management including specifications, design, implementation, testing, and documentation. Software tools for project management. Includes a major multi-student software project. Prerequisites: CS 317, CPE 203.

422 **Advanced Logic Circuits**  
3 hrs.  
Boolean algebra, consensus functions, star array, hypercube, Quine-McCluskey, Karnaugh maps, full transformations, partial transformations, synthesis of symmetric functions and multiple input adders, algebraic theory of flip-flops, the binary comparators, serial and parallel arithmetic. Prerequisite: EE 202. (Same as EE 502 and EE 422)

427 **Computer Engineering Design I**  
2 hrs.  
Senior design project course involving microcomputer based systems. First design course on digital system design. Prerequisite: CPE/EE 302, CPE/EE 429.
429 Microcomputers 3 hrs.
The microcomputer as a component in digital design. Laboratory experience in interfacing and design projects. Prerequisite: EE 202; Prerequisite or parallel EE 315; EE 436 recommended. (Same as EE 509 and EE 429)

433 Advanced Techniques in Computer Design 3 hrs.
Study of existing computer structures. Computer organization with emphasis on busing systems, storage systems, and instruction sets. Special purpose architecture, performance models and measures, VLSI influence on architecture. Fault-tolerant computer systems. Prerequisite: CPE/EE 302.

437 Computer Engineering Design II 2 hrs.
Senior design project course involving microcomputer based systems. Second design course on digital system design. Prerequisite: CPE 427.

454 Computer Systems Software 3 hrs.
System programming with emphasis on hardware support and applications. Interrupt processing, real-time clocks, device independent I/O, process management, memory management, file systems. Programming and basic concepts of UNIX. Operating system internals. Prerequisites: CPE 355. Parallel CPE 455.

455 Systems Software Laboratory 2 hrs.
Experience in UNIX programming. Analysis and design of process and memory management algorithms, and device drivers. Parallel CPE 454.

492 VLSI Design I 3 hrs.
Introduction to VLSI design using CAD tools, CMOS logic, switch level modeling, circuit characterization, logic design in CMOS, systems design methods, test subsystem design, design examples, student design project. Design project to be fabricated and tested in EE/CPE 493. Prerequisite: EE 202, EE 315. (Same as EE 492).

493 VLSI Design II 2 hrs.
Advanced experience with CAD tools for VLSI design, IC testing. Design Project from EE/CPE 492 to be fabricated and tested. Implementation and verification of test programs, IC testing and troubleshooting, legal, economic, and ethical design issue. Prerequisite: EE 492/CPE 492. (Same as EE 493).

Electrical Engineering Option.
The electrical engineering option offers a background that enables students to pursue careers in any of the many diverse facets of electrical engineering such as electronics, network, power systems, instrumentation, computers, communications, and controls. The student may also select advanced undergraduate courses to develop individual and specific interests.

Prerequisite: EE 202. (Same as EE 502 and CPE 422).</td>
<td></td>
</tr>
</tbody>
</table>
425 Introduction to Control and Robotic Systems 3 hrs.
Basic theories and analytical techniques for modeling, analysis and control of dynamical systems. Transfer functions, block-diagrams, frequency response, stability criteria, series and feedback controller design, digital control. Introduction to the dynamic analysis and control of robotic systems. Prerequisite: EE 382 or permission of instructor. (Same as EE 505.)

426 Communication Theory 3 hrs.
Transmission of information including effects of networks, modulation systems, noise, and use of statistics in analysis of information transmission. Prerequisites: EE 382 or permission of instructor. (Same as EE 506.)

429 Microcomputers 3 hrs.
The microcomputer as a component in digital design. Laboratory experience in interfacing and design projects. Prerequisite: EE 202; Prerequisite or parallel: EE 315; EE 436 recommended. (Same as EE 509 and CPE 429.)

436 Digital Electronics 3 hrs.
Electronic devices. Integrated-circuit logic families (DTL, TTL, etc.) and their design theory. MOSFET circuits and their design theory. Flip-flop, registers and counters. Arithmetic operations. Semi-conductor memories. Analog switches. Analog-to-digital conversion. Prerequisites: EE 202, 315. (Same as EE 516.)

439 Digital Electronics Laboratory 1 hr.
Experiments and reports related to logic circuit realization of digital hardware. RTL, DI, TT, ECI families for combinational and sequential switching circuits. Must parallel EE 436. (Same as EE 519.)

452 Optical Systems Design 3 hrs.
Introduction to the geometrical design and analysis of optical systems, and to the design principles of lens systems. Prerequisite: EE 461. (Same as EE 532.)

461 Optical Systems Design 3 hrs.
Intermediate geometrical optics, first-order optics, linear transformations, paraxial optics, reflection and transmission at an interface, polarized light, Jones and Mueller calculi, matrix methods, ray tracing, apertures and stops, third-order optics and aberrations. Prerequisite: OPT 342. (Same as OPT 441/PH 441/OPE 441.)

462 Interference and Diffraction 3 hrs.

492 VLSI Design I 3 hrs.
Introduction to VLSI design using CAD tools, CMOS logic, switch level modeling, circuit characterization, logic design in CMOS, systems design methods, test subsystem design, design examples, student design project. Design project to be fabricated and tested in EE/CPE 493. Prerequisite: EE 202, EE 315. (Same as CPE 492.)

493 VLSI Design II 2 hrs.
Advanced experience with CAD tools for VLSI design, IC testing. Design project from EE/CPE 492 to be fabricated and tested. Implementation and verification of test programs, IC testing and troubleshooting, legal, economic, and ethical design issue. Prerequisite: EE 492/CPE 492. (Same as CPE 493.)

494 DSP Senior Design Project 2 hrs.
INDUSTRIAL AND SYSTEMS ENGINEERING
Degree: Bachelor of Science in Engineering
Professors Schroer, Westbrook (Interim Chair), Wyskida; Professor Emeritus Brown; Associate Professors Messimer, Swain, Tippett; Associate Professor Emeritus Walker; Adjunct Associate Professors Dorsett, Safie; Assistant Professors Componation, Farrington, Utley; Adjunct Assistant Professors Evans, Fogle, Lawler, Mog, Thomas.

Industrial and Systems Engineering Option
Industrial and systems engineering is concerned primarily with integration of people, machines and materials, and operating procedures into a functional and economic whole called a system. Thus, the specialization includes consideration not only of the usual engineering science, but also requires some knowledge of social, psychological, and human values to identify and satisfy needs of ultimate users of engineering systems.

**Total Hours** 135

**Undergraduate Industrial and Systems Engineering Courses (ISE)**

224 **Introduction to Industrial & Systems Engineering** 3 hrs.
Overview of industrial engineering concepts. Includes history and development of classical industrial engineering; documentation and computational methods; basic work methods and measurement; manufacturing systems; and economic decision analysis. Prerequisite: MA 172.

321 **Engineering Economy** 3 hrs.
Economic evaluation of engineering alternatives. Interest, time-value of investments, depreciation and income taxes, break-even cost analysis, and replacement analysis. Prerequisite: MA 172; sophomore standing.

340 **Operations Research** 3 hrs.
Fundamental methods, models, and computational techniques of operations research. Linear programming including transportation, assignment, and simplex algorithms. Queueing theory. Prerequisite or parallel: ISE 390.

378 **Materials and Manufacturing Processes** 3 hrs.
Engineering properties of materials, sources of information for properties of materials, cost considerations for material selection, manufacturing processes, casting, forming, machining, cost considerations for machining operations. One or more field trips and shop laboratory included. Prerequisites: MAE/CE 370. (Same as MAE 378).

390 **Probability and Engineering Statistics I** 3 hrs.
Engineering uses of probability theory, discrete and continuous probability distributions including the binomial, Poisson, hypergeometric, normal, uniform, gamma, beta, log-normal, exponential, and Weibull distributions. Statistical sampling, distributions of means, variances, and proportions. Prerequisite or parallel: MA 201.
391 Probability and Engineering Statistics II  
Continuation of ISE 390 with regression analysis, analysis of variance, and nonparametric statistics. Design of engineering experiments, and computer-based solution of large-scale problems. Prerequisite: ISE 390.

423 Statistical Quality Control  
Statistical theory and techniques to control quality of manufactured products. Includes laboratory exercises. Prerequisite or parallel: ISE 391. (Same as ISE 523.)

424 Ergonomics and Methods Analysis  
Introduces students to basic principles of methods analysis and ergonomics. Methods analysis topics include: work measurement, work measurement tools, work sampling, job analysis, job evaluation, and the development and use of flow and activity charts for methods improvement. Ergonomics topics include anthropometric data, workplace design, design of the physical environment, work organization, and display and control design. Includes term project and laboratory exercises. Prerequisite: ISE 390. (Same as ISE 524).

426 Design and Analysis of Experiments  
Advanced topics in statistical experiments with emphasis on the design aspect. Confounding, fractional replication, factorial and nested design. Includes computer laboratory exercises. Prerequisite: ISE 390. (Same as ISE 526).

427 Management Systems Analysis  
Formal organization structures and functions. Analysis of informal organization function within formal organizations. Techniques for making decisions within formal organizations, together with ethical constraints. Prerequisite: ISE 390.

428 Systems Analysis and Design I  
Philosophy and methods of industrial and nonindustrial systems analysis and design. Methods of systems definition, analysis, simplification, evaluation, and optimization. Design project required. Prerequisites: ISE 340, 391, and senior standing.

429 Systems Analysis and Design II  
Continuation of design project begun in ISE 428. Prerequisite: ISE 428.

430 Manufacturing Systems and Facilities Design  
Overview of modern manufacturing systems design with emphasis on facility location and plant layout. Includes classical systems, just-in-time systems, basic principles of integrated manufacturing systems design, as well as analysis of process flow, process productivity, and available space to determine facility layout. Includes laboratory exercises. Prerequisite: senior standing. (Same as ISE 530).

433 Production and Inventory Control Systems  
Inventory models including classical optimal economic order quantity models, Manufacturing Resource Planning (MRP) systems, master production scheduling, material requirements planning, capacity planning, and purchase order control. Includes computer-based laboratory exercises. Prerequisite: ISE 390.

437 Electronics Manufacturing Processes  
Current concepts, facilities, and technology utilized in the manufacture of electronic components and products. Includes printed wiring board fabrication and component mounting methods, automation, quality and reliability, product testing and economic issues. Prerequisite: senior standing. (Same as ISE 537).

439 Selected Topics in ISE  
TBA

447 Introduction to Digital Simulation  
Philosophy and elements of digital, discrete-event simulation. Emphasis on the modeling and analysis of stochastic systems, including probabilistic models, output analysis, and the use of simulation software. Prerequisites: CPE/EE 197, ISE 391. (Same as ISE 547).
MECHANICAL AND AEROSPACE ENGINEERING

Degree: Bachelor of Science in Engineering

Eminent Scholar Coleman; Distinguished Professors Chung, Wu; Professors Cost, Gilbert, Harwell, Hawk, Hung, Karr (chair), Musielak, Russell, Shih, Wallace, Wessling; Associate Professors Bower; Associate Professor Emeritus Thompson; Assistant Professors Elrod, Feikema, Frederick, Landrum,

Mechanical Engineering Option

Mechanical engineering is a broad field that traditionally comprises three primary subfields: energy, mechanisms and machinery, and manufacturing. The work done by mechanical engineers includes the design, construction, and use of systems for the conversion of energy available from natural sources (water, fossil fuels, nuclear fuels, solar radiation) to other forms of useful energy (for transportation, heat, light, power); design and production of machines to lighten the burden of servile human work and to do work otherwise beyond human capability; processing of materials into useful products; and creative planning, development, and operation of systems using energy, machines, and resources.

*Technical Electives ..................................................................................... 7

*MAE courses at level 300 or above or other upper level courses approved by the Department of Mechanical and Aerospace Engineering.

Students applying for graduation in the mechanical engineering option must show evidence of having taken the Fundamentals of Engineering (FE) Examination. The exam is offered by the State of Alabama board of Registration for Professional Engineers and Land Surveyors, P.O. Box 304451, Montgomery, AL 36130-4451. Phone: (334) 261-5568. Contact the College of Engineering Advisement Center for further information.

**Science elective in chemistry, physics, or biology.

Aerospace Concentration in Mechanical Engineering

Aerospace engineering is a diverse and rapidly changing field which consists of four primary technology areas: aerodynamics, structures and materials, propulsion, and flight mechanics. These aerospace technologies are typically applied to the design and development of high performance flight systems such as aircraft, spacecraft, missiles and rockets. However, they are also applicable to ground transportation systems such as automobiles, trains and nautical craft. Therefore, the field of aerospace engineering is interdisciplinary in nature and draws upon knowledge from many of the traditional sciences. At UAH a student may obtain a B.S.E. degree option in mechanical engineering with a concentration in aerospace engineering. The curriculum for the aerospace concentration is essentially the same as that for the mechanical engineering option through the junior year. At that time the student takes a series of specialized aerospace engineering courses in aerodynamics, propulsion, structures, and flight mechanics. These courses can also be used as technical electives in other engineering and science programs.

included. Typical experiments include microstructure analysis, hardness testing, mechanical-properties testing, equilibrium-phase diagrams, corrosion, creep behavior, and semiconductor analysis. Prerequisites: CH 121, PH 111. (Same as CHE 294).

341 Thermodynamics I 3 hrs.
Basic laws of energy that apply in all branches of engineering and science. Properties of matter, state variables, reversible processes, first and second laws of thermodynamics with applications to closed and open systems. Availability of energy and irreversibility. Prerequisites: MA 201, MAE/CHE 294 (or parallel).

342 Thermodynamics II 3 hrs.
Continuation of ME 341. Thermodynamic cycles, thermodynamic relations among properties, chemical reactions, and phase and chemical equilibrium. Prerequisite: MAE 341.

352 Fluid Mechanics I 3 hrs.
Fluid properties and fundamental principles governing fluid behavior. Fluid statics, basic equations in integral form and differential form, potential flow, dimensional analysis, and internal incompressible viscous flows. Prerequisites: MAE 341, MAE/CE 362, MA 324. (Same as CHE 352).

362 Dynamics 3 hrs.
Kinematics and kinetics of a particle and of systems of particles with applications to central force motion, impact, relative motion, vibrations, and variable mass systems. Dynamics of rigid body in plane motion, relative motion in rotating coordinates, and gyroscopic motion. Prerequisite: MAE/CE 271 (Same as CE 362).

364 Kinematics and Dynamics of Machines 4 hrs.
Kinematics and dynamics of planar machinery. Principles of mechanisms, design of cams, fundamentals of gears and epicyclic gear trains, methods of determination of velocity and acceleration in mechanisms. Inertia forces in machines, balancing of rotating masses and reciprocating masses, and vibration analysis. Prerequisite: MAE/CE 362.

370 Mechanics of Materials 4 hrs.
Topics include: theory of stress and strain, Hooke’s law, analysis of stresses and deformations in bodies loaded by axial, torsional, bending, and combined loads, and analysis of statically indeterminate systems. Laboratory includes: determination of selected properties of various engineering materials, experimental verification of theories presented, use of strain measuring devices, test procedures, instrumentation, and interpretation of results. Prerequisites: MAE/CE 271, MAE/CHE 294. (Same as CE 370).

371 Aerospace Structures 3 hrs.
Analysis and design of lightweight aerospace structures including sandwich structures, stiffened panels, and tubing stress and deflection analysis. Design of members in tension, torsion and bending. Space structures. Prerequisites: MAE/CE 362, MAE/CE 370.

372 Aerospace Structures Laboratory 1 hr.
Experimental studies of the behavior of aerospace structures. Investigation of column and plate instabilities, stiffened thin panels, and composite structures. Prerequisite or parallel: MAE 371.

378 Materials and Manufacturing Processes 3 hrs.
Engineering properties of materials, sources of information for properties of materials, cost considerations for material selection, manufacturing processes, casting, forming, machining, cost considerations for machining operations. One or more field trips included. Prerequisite: MAE/CE 370. (Same as ISE 378).
394 Introduction to CAD/CAM  
Introduction to computer aided graphics. Representation of systems and bodies using computers, graphic file organization. Elements of computer graphics, manipulation of elements, rotation of views, and use of Intergraph CAD systems. Laboratory projects. Prerequisite: MAE 198, MAE/CE 271.

396 Numerical Methods and Computation  
Numerical techniques associated with complex problems. Evaluation of functions, finding roots of equations, solution of simultaneous algebraic and differential equations. Use of computers. Prerequisites: EE 197, MA 244, and prerequisite or parallel MA 324.

398 Selected Topics in Mechanical Engineering  
TBA

442 Introduction to Heat and Mass Transfer  
Principles of heat and mass transfer; application of principles to problems in conductive, convective, and radiative-heat transfer and mass transfer; laminar and turbulent flow processes; boiling and condensation; heat exchangers. One credit hour laboratory included. Prerequisites: MAE/CHE 352, MAE 396, MA 324. (Same as CHE 442).

444 Analysis and Design of HVAC Systems  
Analysis and design of heating, ventilation, and air-conditioning (HVAC) systems. Design requirements for human comfort, exterior weather conditions, and energy conservation. Calculation of heating and cooling loads for residential and commercial buildings, air and liquid distribution systems, selection and specification of system components, energy recovery and system efficiency, and commercially available systems. Prerequisites: MAE 342, MAE/CHE 442. (Same as MAE 544).

445 Aerospace Propulsion  
Introduction to the operation and analysis of liquid and solid rockets, nuclear and electric propulsion systems, and airbreathing engines used in aerospace applications. Prerequisite: MAE/CHE 352.

446 Design of Thermal Systems  
Principles of heat transfer, thermodynamics, and fluid mechanics applied to analysis and design of systems for storage and transport, and exchange of thermal energy. Modeling of thermal equipment, simulation of system performance, optimization of system design, and comprehensive design of thermal systems. Prerequisites: MAE 342, MAE/CHE 442; MAE 493 recommended.

447 Energy Conversion and Power Generation I  
Application of principles of thermodynamics, fluid mechanics and economics to analysis and design of conventional hydro and steam power plants. Energy sources and end uses, fossil fuels, combustion equipment, steam generators, and pollution control devices. Hydro, steam, and wind turbines. Prerequisites: MAE/CHE 352, MAE 442, 454, MAE 446 recommended. (Same as ME 547)

451 Atmospheric Fluid Dynamics  
Fluid dynamics in the atmosphere. Coriolis acceleration, scale analysis, and appropriate approximations of the complete governing equations. Numerical analysis and interpretation of weather phenomena. Prerequisites: MA 324, MAE 341, MAE/CHE 352 or equivalent. (Same as MAE 551/ES 551)

452 Experimental Techniques in Fluid Mechanics  
Overview of intrusive and nonintrusive experimental techniques in fluid mechanics for measurement of pressure, velocity, temperature, and species; Schlieren, interferometry, laser Doppler velocimetry, thermocouples, emission and absorption spectroscopy, laser-induced fluorescence. Laboratory included. Prerequisite: MAE 454 or consent of instructor. (Same as CHE 452 and MAE/CHE 552)
453 Propulsion Laboratory 1 hr.
Experimental investigation of the performance of various aerospace propulsion systems.

454 Fluid Mechanics II 2 hrs.
Continuation of MAE 352, External incompressible viscous flows, steady one-dimensional compressible flows, and fluid machinery. Concurrent registration in MAE 455 (Fluid Mechanics Laboratory) required. Prerequisite: MAE/CHE 352.

455 Fluid Mechanics Laboratory 1 hr.
Introduction to experimental uncertainty analysis and statistical data analysis. Application in experiments concerning fluid properties, flow losses, pipe flows, lift and drag, compressible flow and other fluid phenomena. Prerequisites: MAE 352, concurrent registration in MAE 454. (Same as CHE 455)

456 Aerodynamics Laboratory 1 hr.
Experimental investigation of airfoils and other bodies in subsonic flow. Pressure distributions, boundary layer studies, and vortex formation. Computer simulations. Prerequisite: MAE 342, 454.

457 Fundamentals of Aerodynamics 3 hrs.
Application of the principles of fluid mechanics and thermodynamics to the prediction of aerodynamic performance of aircraft, missiles, and other flight vehicles. Topics include lift and drag, thrust and power, and the influence of wing loading, power loading, zero-lift drag, wing geometry, high lift devices, and Mach number on the performance and design trades of flight vehicles. Prerequisites: MAE 342, 454. (Same as MAE 557/457)

459 Selected Topics in Engineering TBA

461 Vibrations of Elastic Systems 3 hrs.
Formulation of the equations of motion of discrete and continuous systems, analytical and numerical methods of solution, eigenvalue problems and dynamic response. Prerequisite: MAE 488. (Same as MAE 561 and CE 461/561)

464 Aerospace Design 3 hrs.
Senior design project. Prerequisite: MAE 493, senior standing and permission of instructor.

465 Mechanical Engineering Design 3 hrs.
Senior design project. Prerequisites: MAE 493, senior standing, and permission of instructor.

466 Mechanics and Design of Machine Elements 3 hrs.
Detailed design and selection of machine elements such as gears, shafts, and bearings. Analysis of stresses and deformations under combined static and dynamic loads, stress concentrations, and fatigue. Prerequisites: MAE 198, 364, MAE/CE 370.

468 Spacecraft Dynamics 3 hrs.
Introduction to fundamental spacecraft dynamics including kinematics and dynamics of rigid-body orbital motion. Orbital maneuvers relative to transfer orbits, lunar transfer, and interplanetary missions. Study of attitude maneuvers, control devices and design of automatic control. Prerequisites: MAE/CE 362, MA 324.

470 Mechanics of Materials II 3 hrs.
474 Applied Mechanics of Solids
Stresses and strains at a point, theories of failures, stress concentration factors, thick-walled cylinders, torsion of noncircular members, curved beams, unsymmetrical bending, and shear center. Prerequisite: MAE/CE 370. (Same as MAE 574 and CE 474/574).

476 Mechanics and Fabrication of Composite Materials
Introduction to the mechanics of advanced composite materials. Design and analysis of composite structures. Analysis of orthotropic and transversely isotropic materials and systems. Hands on fabrication of a composite structure. Prerequisites: MAE 370 and MAE 466.

477 Experimental Techniques in Solid Mechanics
Experimental methods to determine stress, strain, displacement, velocity, and acceleration in various media. Theory and laboratory applications of electrical resistance strain gages, brittle coatings, and photoelasticity. Application of transducers and experimental analysis of engineering systems. Prerequisites: MAE/CE 370 and junior standing. (Same as MAE 577 and CE 477/577).

478 Matrix Methods in Structural Mechanics
Matrix application to formulation and solution of linear problems in structural mechanics. Stresses, vibrations, and stability of engineering structures. Prerequisite: MAE 370. (Same as MAE 578 and CE 478/578).

480 Aircraft Stability and Control
The stability and control of aerodynamic vehicles. The design of aircraft to obtain good flying characteristics. The complete governing equations and analog solutions of linearized equations. Prerequisites: MAE 454, 488. (Same as MAE 580).

485 Numerical Methods and Computation II
Advanced topics in numerical methods and computation including Gaussian quadrature; interpolation, integration and differentiation using cubic splines; eigenvalue and eigenvector analysis of large systems; round-off error analysis; stability and convergence analysis of iterative methods. Prerequisite: MAE 396. (Same as MAE 585).

486 Numerical Engineering Analysis
Finite elements and finite differences in solving various engineering problems. Numerical applications to fluid mechanics, heat transfer, structural mechanics, and machine design. Prerequisite: MAE 396. (Same as MAE 586).

488 Analysis of Engineering Systems
Mathematical modeling of physical systems and determining their dynamic response. Mechanical, electrical, electromechanical, heat transfer, fluid-mechanical, and other engineering problems. Prerequisite: MAE 396.

489 Computer-Aided Engineering
Application of computer methods in the analysis and design of structural, thermal, and dynamical systems. Uses of state-of-the-art finite element and finite difference computer programs. Practical guidelines for discrete modeling; analysis of modeling errors. Comparison of exact and approximate solutions to boundary value problems. Use of microcomputers in engineering design and analysis. Prerequisite: MAE 396.

493 Introduction to Engineering Design
Application of basic design principles and concepts. Design methodology, decision making, creativity, product liability, human factors, patents, and others. Team design projects. Prerequisites: ISE 321, MAE/CE 362, EE 300.

496 Selected Topics in Mechanical Engineering
TBA

559 Selected Topics in Aerospace Engineering
TBA
OPTICAL ENGINEERING

Degree: Bachelor of Science in Engineering

The Department of Electrical and Computer Engineering administers the degree option in optical engineering. This program prepares students for careers in opto-electronics, including the design and application of systems for optical fiber communications, optical instrumentation, holography, image forming and processing, lasers and optical detection, as well as areas such as optical testing. Two routes are available, one based on the electrical engineering program and accredited as an electrical engineering program (Route A) and one based on the mechanical engineering program (Route B). These routes are described below.

### Optical Engineering Option

|               | OPE 459       |
|               |               |
|               | 17            |

#### Total Hours

- First Year: 17
- Second Year: 19
- Third Year: 19
- Fourth Year: 18
- Total Hours: 138

*HU/SS - 12 hours in humanities/social sciences*
Undergraduate Optical Engineering Courses (OPE)

441 Optical Systems Design 3 hrs.
Intermediate geometrical optics, first-order optics, linear transformations, paraxial optics, reflection and transmission at an interface, polarized light, Jones and Mueller calculi, matrix methods, ray tracing, apertures and stops, third-order optics and aberrations. Prerequisite: OPT 342. (Same as EE 461, PH 441 and OPT 441)

442 Interference and Diffraction 3 hrs.

451 Optoelectronics 3 hrs.
Basic concepts for understanding electro-optic devices and systems. Blackbody radiation; light sources; quantum and thermal detectors, noise in detectors; optical heterodyning; acousto-optic, magneto-optic, and electro-optic modulation. Prerequisite: EE 315. (Same as OPT 444 and EE 531)

453 Laser Systems 3 hrs.
Spontaneous and stimulated emission, population inversion, optical resonators, three- and four-level systems, Q-switching and mode-locking, semiconductor lasers, integrated optic waveguides and couplers, scanning systems, high-power industrial application. Prerequisite: EE 307. (Same as EE 533)

454 Optical Fiber Communications 3 hrs.
Introduction to optical fibers and their transmission characteristics, optical fiber measurements, sources and detectors, noise considerations for digital and analog communications, optical fiber systems. Prerequisite: EE 307 or PH 432. (Same as EE 534)

455 Optical Engineering Laboratory 2 hrs.
Introduction to physical optics phenomena, Young’s double slit experiment, Lloyd’s mirror, Fresnel biprism, Newton’s rings, intensity distribution in fringe systems, Michelson interferometer, Fabry-Perot interferometer, Fresnel and Fraunhofer diffraction, diffraction by circular, rectangular and multiple openings, diffraction gratings, curve generating, polishing and testing optical surfaces with emphasis on design aspects of these systems. Prerequisites: PH 116, OPT 342 and EE 382 or OPT 442. (Same as OPT 412)

456 Photonics Laboratory 2 hrs.
Intensive laboratory work with experiments and design projects on lasers, optical fibers, spatial light modulators, image processing, spatial filtering, optical fiber communication and optical computing. Prerequisites: OPE 453, 454.

459 Optical Engineering Design 3 hrs.
Senior design project. Analysis, design and testing of optical and optoelectronic systems. Prerequisite: Senior standing.
The College of Liberal Arts provides educational experiences and programs of study in the major fields of the arts, humanities, and social sciences. These programs are designed to contribute to the personal and intellectual development of students and to assist them in preparing for successful careers. These programs emphasize the development of communication skills, patterns of critical thinking, and problem solving capabilities. They contribute to the development of an understanding of the relationships among people, and between human beings and the elements of the physical and biological world.

The arts and the humanities, encompassing art, history, languages and literatures, music, and philosophy, lead to an understanding and appreciation of life as humankind has perceived it and as individuals have lived it. This study leads to a heightened critical faculty and a greater ability to use, evaluate and appreciate values and ideas; to the ability to be more effective in utilizing language; and to the cultivation of taste. The study of the arts and the humanities is essential to a broad and sensitive awareness of humankind as it has been, is, and aspires to be.

The social sciences encompass the knowledge that deals with the behavior of humankind and the culture it has created, knowledge that becomes more necessary as the world grows more complex and interrelated. Social scientists perform a dual function, assembling and ordering complex systems of technical knowledge related to human relationships and providing a continual appraisal of the value systems in our society. The social science programs at UAH-history, political science, psychology, and sociology—are designed to prepare the student to value and perform both of these roles. Since these disciplines are concerned with a social milieu that is both possible and desirable, the approach involves both the understanding and use of the scientific method and an appreciation of, and a sensitivity to, questions of values.

The College of Liberal Arts offers courses of study that provide its students, and those in the sciences, the preparation that is necessary to gain teacher certification. These programs include the in-depth study of at least one field in the liberal arts and sciences and intensive professional training in the field of education.

Throughout its curriculum, the College of Liberal Arts attempts to utilize and build upon the richness and diversity of our tradition and diverse talents of our faculty in preparing persons to be secure, productive, and successful in a free and humane society in a high technology age. Its goals are to aid in the development of more sensitive and successful scientists, more creative and powerful artists, and more disciplined students of the humanities. In sum, it seeks to contribute to the individual's development as a well-rounded and capable person and professional who is prepared to undertake successfully, and to provide leadership in effectively confronting, the many challenges of life.
Undergraduate Degrees and Study

The College of Liberal Arts awards a Bachelor of Arts degree. Each student must file an official program of study no later than the close of the sophomore year. This program of study must include a major and a minor or supporting cognate studies. The major may be chosen from the following disciplines: art, communication arts, elementary education, English, foreign languages and international trade, French, German, history, music, music education, philosophy, political science, psychology, Slavic Studies, sociology, or Spanish. Besides these majors, courses are offered in linguistics, physical education, Russian, statistics, women’s studies. The major will consist of a minimum of 30 semester hours in a program of study in a single department with at least 21 of these hours at the 300 level or above.

The supporting studies must include one of the following variations:
1. A minor drawn from any discipline with a minimum of 12 hours at the 300 level or above.
2. An approved cognate area from two closely related disciplines approved by the major department with 12 semester hours at the 300 level or above.
(See individual department programs for specific requirements of each minor, or consult with an advisor in the major department for the development of an approved cognate area.)

Any minor chosen by a student is subject to approval by the department offering the minor. Cognate studies are subject to approval of the chair of the student’s major department. All programs of study are subject to approval by the dean of the college.

Requirements for Programs of Study Leading to the B.A. Degree

General Education Requirements for B.A. Degree
(Note: Students seeking teacher certification should consult the Education Department section of the catalog for specific G.E.R.)

</tr>
<tr>
<td>Upper-level Humanities or Fine Arts:* One course chosen from English (excluding EH 300, 301 or 302), history, music, philosophy, art, foreign language literature and culture courses, or CM 309 or 322, outside the major and minor except for students completing all requirements for teacher certification</td>
<td>3</td>
</tr>
</tbody>
</table>

*Students in the Honors Program may substitute H399.
** WS 200 may be used as either lower-level social science or lower-level humanities.
Mathematics: One course at Level II or above............................................. 3

Science: Two courses in a single discipline and one course in a second laboratory science chosen from astronomy, biological sciences, chemistry, environmental science, or physics......................................................... 12

Social Science: Four courses chosen from PSC 101, PSC 102, SOC 100, SOC 200, PY 101, PY 102, ECN 142, ECN 143, WS 200. May be included in the major and minor. Students completing all requirements for teacher certification may substitute ED 230 and ED 263 for any two of these courses except one economics course and PSC 101 which is required for education students............................................................... 12

Upper-level Social Science:* One course chosen from political science, psychology, sociology, economics, outside the major and minor except for students completing all requirements for teacher certification.................................................... 3

*Students in the Honors Program may substitute H399.

Additional Requirement: One course chosen from MA 151 or above, PHL 201, ST 281, AHS 300, CS 100, 101, or 107. Students who complete all requirements for teacher certification may substitute ED 360 or ED 510................................................................. 3

**Major Requirements for B.A. Degree**.................................................. 30-37
A minimum of 30 semester hours in a program of study in a single department with at least 21 of those hours 300-level or above. Consult individual departments for specific requirements.

**Minor Requirements for B.A. Degree**.................................................. 18-21
A minimum of 18 semester hours in a single discipline with a minimum of 12 hours at the 300-level or above. Consult the Math and Foreign Language Departments for exceptions.

In lieu of a minor, students may choose a minimum of 21 semester hours in cognate studies drawn from two closely related disciplines.
A minimum of 12 hours must be 300 level of above. Cognate studies must be approved by the major department.

**Electives**
The student may select any elective courses outside the major and minor as needed to complete the university requirement of a minimum of 128 hours for graduation. A minimum of 39 hours of course work in the program of study must be upper level.

**Minimum Degree Requirements, Bachelor of Arts**.................................. 128

**Graduate Degrees and Study**
Graduate study in the College of Liberal Arts brings together faculty and advanced students to share the excitement of creative learning. All degree candidates plan a program of study with faculty members who share the student’s intellectual interests. Within the framework of the requirements established by the Department and the School of Graduate Studies, students design, in consultation with a faculty advisor, a graduate program fitted to their particular interests and needs.

The College of Liberal Arts offers programs of study leading to the Master of Arts Degree with concentrations in English, history, psychology, and public affairs. Class “A” teacher certification is available with concentrations in English and history in the College of Liberal Arts and biology, chemistry, mathematics, or physics in the College of Science. Certification may be achieved through either traditional or non-traditional “fifth year” approaches.
Interdisciplinary Course

The College of Liberal Arts offers an interdisciplinary course in statistics which is required of majors in communication arts, political science, psychology, and sociology, and satisfies the statistics requirement in the College of Nursing.

Arts, Humanities, and Social Sciences (AHS)

300 Statistical Analysis 4 hrs.
Collection, classification, and presentation of social science data, measures of central tendency and dispersion, introduction to probability distribution and sampling theory, confidence limits and tests of significance, chi-square and t-distribution, introduction to regression and ANOVA. Includes laboratory. Prerequisite: MA 105 or 119. Lab Fee: Level 4.

Art and Art History Department

Professors Crouse (Chair), Dasher; Associate Professors Farr, Marchlinski, Stewart; Assistant Professor Jones.

The Department of Art and Art History offers courses in the studio arts and art history leading to a Bachelor of Arts major, a minor, or as part of a program of cognate studies in art or art history. Three basic programs of study have been established for students majoring in art. They are the studio discipline, the art history discipline, and the studio discipline with teacher certification. The studio discipline allows a student to specialize at the upper division in drawing/painting, graphic design, photography, printmaking, or sculpture.

Most art courses do not require any previous experience and any student enrolled at the university is encouraged to consider taking art courses as a major, a minor, or simply as electives for personal enrichment through involvement with the visual arts.

Transfer students must submit a portfolio of representative samples of their work for review by the art faculty before registration. Credit for equivalent coursework and advanced placement in art courses will be determined by the art faculty. Art majors transferring to UAH must complete at least 12 semester hours of art courses at the 300 level or above. Art minors transferring in must take at least 6 semester hours of art courses at the 300 level or above.

I. The Studio Discipline: (Drawing, Graphic Design, Painting, Photography, Printmaking, Sculpture)

A. Lower Division Requirements (24 hours)

1. Art Studio Requirements
ARS 120-Two-Dimensional Design 3 hrs.
ARS 121-Color in Design 3 hrs.
ARS 140-Three-Dimensional Design 3 hrs.
ARS 160-Introduction to Drawing 3 hrs.
ARS 260-Intermediate Drawing 3 hrs.

2. Art History Courses
ARH 100-Art History Survey: Ancient to Medieval 3 hrs.
ARH 101-Art History Survey: Renaissance to Modern 3 hrs.
ARH 201-Contemporary Art and Issues 3 hrs.

Note: There are no prerequisites for ARH 100 and 101, ARS 120, 121, 140, and 160 which introduce the student to basic concepts and skills in the visual arts.

B. Upper Division Requirements (24 hours)
Six courses at the 300 level and two courses at the 400 level. A student choosing to specialize in a specific studio area may take up to five courses in it.

Graphic Design-ARS 330, 331 332, 430, 431
Painting/Drawing-ARS 375, 376, 377, 360, 475, 476, 477
To fulfill upper division elective studio requirements, a student may take two art studio courses at Alabama A&M. These courses must be selected from ART 305 Beginning Ceramics; ART 306 Advanced Ceramics; ART 307 Beginning Jewelry; and ART 308, Advanced Jewelry.

Note: 400-level courses are to be taken one at a time and only after successful completion of six 300-level courses.

ARS 330 and 331 should be taken in sequence. The remaining three ARS 332, 430, and 431 may be taken in any order after successful completion of ARS 330 and 331.

PORTFOLIO REVIEW: Studio majors must submit a portfolio of their work for review by an art faculty committee before undertaking any 400-level courses. No other studio courses can be taken while enrolled in a 400-level sequence.

II. The Art History Discipline

A. Lower Division Requirements (18 hours)
   1. Art History Courses
      ARH 100-Art History Survey: Ancient to Medieval
      ARH 101-Art History Survey: Renaissance to Modern
      ARH 201-Contemporary Art and Issues
      3 hrs.
      3 hrs.
      3 hrs.
   2. Art Studio Courses
      Any three 100-level foundation courses
      9 hrs.

B. Upper Division Requirements (24 hours)
   1. Art History Courses
      Seven courses at the 300-level or above.
      21 hrs.
   2. Art Studio Courses
      One 300-level course, selected in consultation with advisor
      (An additional 3 hr. upper level studio, art history, or approved related discipline is required for art history majors with a studio minor. Please consult with advisor or department chair.)
      3 hrs.

C. Total Number of Hours
   42 semester hours with the Department of Art and Art History
   39 hours if ARH 100 or 101 is applied to the fine arts GER

III. Studio Discipline with Teacher Certification

The program for teacher certification, available to students majoring in art, fulfills the certification requirements for teaching art in Alabama's nursery through secondary schools.

A. Lower Division Requirements (24 hours)
   1. Art Studio Courses
      ARS 120-Two-Dimensional Design
      3 hrs.
ARS 121-Color in Design 3 hrs.
ARS 140-Three-Dimensional Design 3 hrs.
ARS 160-Introduction to Drawing 3 hrs.
ARS 260-Intermediate Drawing 3 hrs.

2. Art History Courses
ARH 100-Art History Survey: Ancient to Medieval 3 hrs.
ARH 101-Art History Survey: Renaissance to Modern 3 hrs.
ARH 201-Contemporary Art and Issues 3 hrs.

B. Upper Division Requirements (27 hours)

1. Art Studio Courses
Choose two:
Choose two:
   Printmaking/Graphic Design-ARS 330,380,381,383 6 hrs.
Choose two:
   Sculpture-ARS 340,341,342,346 6 hrs.
   Photography-ARS 350 3 hrs.

2. Art History Courses
   One 300-level history of art before 1800 3 hrs.
   One 300-level history of art after 1800 3 hrs.

C. Total Number of Hours
51 semester hours with the Department of Art and Art History

Note: General education requirements for certification differ from those of the preceding programs. Students should consult the catalog description listed under the Education Department for course requirements and other relevant program information.

Minors and Cognate Studies Programs

1. Art History Minor
   21 semester hours within the Department of Art and Art History
   18 hours if ARH 100 or 101 is applied to the fine arts GER
   ARH 100 and ARH 101-Art History Surveys 6 hrs.
   ARH 201-Contemporary Art and Issues 3 hrs.
   One 300-level history of art before 1800 3 hrs.
   One 300-level history of art after 1800 3 hrs.
   Two 300-level or above art history electives 6 hrs.

   Note: Studio discipline majors are strongly encouraged to pursue a minor in art history which will give them a better understanding of the visual arts tradition.

2. Art History Cognate
   21 semester hours within the Department of Art and Art History and related discipline
   18 hours if ARH 100 or 101 is applied to the fine arts GER
   ARH 100 and 101-Art History Surveys 6 hrs.
   Three 300-level or above history of art electives 9 hrs.
   Two 300-level or above courses in a related discipline 6 hrs.

3. Studio Art Minor
   21 semester hours within the Department of Art and Art History
   18 hours if ARH 100 or 101 is applied to the fine arts GER.
   One 100-level ARH survey 3 hrs.
   Two 100-level studio foundation courses 6 hrs.
   Four 300-level studio courses 12 hrs.
4. **Art for Second Area of Study (with Elementary Education)**

21 semester hours within the Department of Art and Art History

Choose three:

ARS 120,121,140,160,260—Studio foundation courses 9 hrs.

Choose four:

ARS 375,376—Painting
ARS 380,383—Printmaking
ARS 340-346—Sculpture
ARS 350—Photography 12 hrs.

**Note:** ARH 100 and 101 should be taken to fulfill the general studies requirement for the elementary education program.

---

**Art Studio (ARS)**

**Lower Division Courses**

Lower division studio courses stress the development of visual and manual skills, problem-solving abilities, critical thinking, and an awareness of the tools and materials used in the making of art.

120 **Two-Dimensional Form in Design** 3 hrs.
Introduction to the elements and principles of two-dimensional design. Studio work exploring form and intuitive theories of composition. Lab Fee: $30.

121 **Color in Design** 3 hrs.
Physiological, psychological, and physical properties of color with studio work in subjective and objective uses of color. Lab Fee: $30.

140 **Three-Dimensional Design** 3 hrs.
Introduction to three-dimensional design through the investigation of a wide range of forms and processes. Problem-solving assignments address a variety of design approaches, while considering the traditional and non-traditional roles of materials and the proper use of tools. Lab Fee: $30.

160 **Introduction to Drawing** 3 hrs.
Introduction to the principles, tools, materials, techniques, and concepts of drawing. Through exercises in rendering from life, studies in perspective, and problem-solving, students develop strong visual skills, consider the role of aesthetics, and begin to explore a variety of means for artistic expression. Lab Fee: $30.

215 **Art for Elementary Teachers** 3 hrs.
Methods and media presented by lecture, demonstration, discussion, reading, and studio experience for elementary school teachers. Does not satisfy departmental core requirements. Lab Fee: $30.

260 **Intermediate Drawing** 3 hrs.
Further development of drawing skills and individual expression through the study and practice of selected drawing approaches. Prerequisites: ARS 120, 121, and 160. Lab Fee: $30.

**Upper Division Courses**

Upper division studio courses explore the specific nature of each area of specialization. Students are guided in their development of artistic facility and of a vocabulary of visual symbols for personal expression. They learn that the making of art is not solely the exercise of artistic skill, but that it requires the employment of reasoning and intellectual ability in entirely new and uniquely personal ways.
330 Graphic Design I 3 hrs.
Introduction to the tools, techniques, theories, and practices of graphic design. Emphasis is placed on visual and conceptual problem solving from a formalized and process oriented approach. Prerequisites: All lower division foundation requirements or approval of instructors. Lab Fee: $30.

331 Graphic Design II 3 hrs.
Continuation of ARS 330 plus an introduction to both production techniques and solutions. Included are the beginnings of computer assisted layout techniques using Adobe Pagemaker. Prerequisite: ARS 330 or approval of instructor. Lab Fee: $30.

332 Graphic Design III 3 hrs.
Layout and design on the Macintosh computer using Quark XPress. Problems include the experience of designing newsletters, brochures, ads, letterheads, resumes, and business cards for a client. Prerequisite: ARS 331 or approval of the instructor. Lab Fee: $30.

340 Sculpture: Assemblage 3 hrs.
Exploration of a variety of assemblage processes including wood construction and metal fabrication. Emphasis is placed on idea development and investigating a wide range of forms and materials. Prerequisite: None. Art majors and minors must have completed all lower division foundation requirements. Lab Fee: $30.

341 Sculpture: Carving 3 hrs.
Stone and wood carving are investigated with emphasis placed on developing the ability to see and release hidden form and on the unique relationship formed between maker and material. Prerequisite: None. Art major and minors must have completed all lower division foundation requirements. Lab Fee: $30.

342 Sculpture: Casting 3 hrs.
Investigation of foundry processes and materials involved in mold making and lost-wax bronze casting, metal chasing, and patination. Prerequisite: None. Art majors and minors must have completed all lower division foundation requirements. Lab Fee: $30.

346 Sculpture: Figure Modeling 3 hrs.
Human form through direct clay modeling from life including anatomical studies, armature construction, mold making and casting. Prerequisite: None. Art majors and minors must have completed all lower division foundation requirements. Lab Fee: $30.

350 Basic Photography 3 hrs.
Understanding and practice of photography through its use as a fine art medium. Introduction to camera use and darkroom techniques. Students will be required to provide their own 35mm. camera. Prerequisite: None. Art majors and minors must have completed all lower division foundation requirements. Lab Fee: $30.

352 Non-Silver Photography 3 hrs.
Investigation and use of alternative processes such as gum-bichromate, cyanotype, xerography, and related media to produce works of photographic art. Prerequisite: ARS 350 or approval of instructor. Lab Fee: $30.

353 Advanced Photography 3 hrs.
Advanced use of black/white and color photography as a means of expression in the production of fine art. Prerequisite: ARS 350 or approval of instructor. Lab Fee: $30.

360 Advanced Drawing 3 hrs.
Drawing as a vehicle for personal expression utilizing traditional and contemporary methods and materials. Prerequisites: ARS 260 and completion of all lower division foundation requirements. Lab Fee: $30.
375 Painting: Traditional Approaches  3 hrs.
Traditional painting approaches are investigated through selected techniques ranging from fresco and egg tempera to under-painting, glazing and alla-prima work with oils. Prerequisite: None. Art majors and minors must have completed all lower division foundation requirements. Lab Fee: $30.

376 Painting: Contemporary Approaches  3 hrs.
Contemporary approaches toward painting are explored as means of expression, through both spontaneous and deliberate handling of acrylics and other painting media. Prerequisite: None. Art majors and minors must have completed all lower division foundation requirements. Lab Fee: $30.

377 Painting: Mixed Media  3 hrs.
Exploration of painting with mixed and non-traditional media as vehicles of expression including the use of assemblage and collage processes, shaped or contoured canvasses, and related media. Prerequisite: None. Art majors and minors must have completed all lower division foundation requirements. Lab Fee: $30.

380 Printmaking: Intaglio  3 hrs.
Beginning studio practice in etching, engraving, aquatint, photo-etching and dry-point. Prerequisite: None. Art majors and minors must have completed all lower division foundation requirements. Lab Fee: $30.

381 Printmaking: Lithography  3 hrs.
Beginning studio practice in autographic and photographic lithography processes utilizing aluminum plate and stone. Prerequisite: None. Art majors and minors must have completed all lower division foundation requirements. Lab Fee: $30.

383 Printmaking: Screenprinting  3 hrs.
Investigation of silkscreen processes, including autographic and photographic methods. Prerequisite: None. Art majors and minors must have completed all lower division foundation requirements. Lab Fee: $30.

393 Multi-Media  3 hrs.
Study and practice of artistic approaches which freely combine elements of various art forms such as painting, printmaking, photography, sculpture, or performance, usually developed along strong conceptual or thematic lines. Prerequisite: None. Art major and minors must have completed all lower division foundation requirements. Lab Fee: $30.

PORTFOLIO REVIEW: Entry into a 400-level course sequence must be preceded by a departmental committee review of a student's work.

430 Advanced Graphic Design I  3 hrs.
Designing both graphics and illustrations using both Adobe Illustrator® and an introduction to designing electronic fonts using Altsys Fontographer®. Prerequisite: ARS 331 or approval of the instructor. Lab Fee: $30.

431 Advanced Graphic Design II  3 hrs.
Using Adobe Photoshop® as a tool for both illustration and for pre-press work, plus an introduction to Fractal Design's Painter® to make illustrations. Also included: final portfolio work. Prerequisite: ARS 331 or approval of the instructor. Lab Fee: $30.

440 Advanced Sculpture: Assemblage  3 hrs.
Continued exploration of assemblage processes. Prerequisites: ARS 340 and approval of instructor. Lab Fee: $30.

441 Advanced Sculpture: Carving  3 hrs.
Continued exploration of subtractive processes. Prerequisites: ARS 341 and approval of instructor. Lab Fee: $30.
442 **Advanced Sculpture: Casting** 3 hrs.
Continued exploration of casting and foundry processes. Prerequisites: ARS 342 and approval of instructor. Lab Fee: $30.

452 **Advanced Photography: Non-silver** 3 hrs.
Continued exploration of non-silver photographic processes. Prerequisites: ARS 352 and approval of instructor. Lab Fee: $30.

453 **Advanced Photography: Black/White and Color** 3 hrs.
Continued exploration of fine art photography. Prerequisites: ARS 353 and approval of instructor. Lab Fee: $30.

475 **Advanced Painting: Traditional Approaches** 3 hrs.
Continued exploration of oil painting processes. Prerequisites: ARS 375 and approval of instructor. Lab Fee: $30.

476 **Advanced Painting: Contemporary Approaches** 3 hrs.
Continued exploration of contemporary painting approaches. Prerequisites: ARS 376 and approval of instructor. Lab Fee: $30.

477 **Advanced Painting: Mixed Media** 3 hrs.
Continued exploration of mixed and non-traditional media. Prerequisites: ARS 377 and approval of instructor. Lab Fee: $30.

480 **Advanced Printmaking: Intaglio** 3 hrs.
Continued exploration of intaglio processes. Prerequisites: ARS 380 and approval of instructor. Lab Fee: $30.

481 **Advanced Printmaking: Lithography** 3 hrs.
Continued exploration of lithographic processes. Prerequisites: ARS 381 and approval of instructor. Lab Fee: $30.

483 **Advanced Printmaking: Screenprinting** 3 hrs.
Continued exploration of silkscreen processes. Prerequisites: ARS 383 and approval of instructor. Lab Fee: $30.

493 **Advanced Multi-Media** 3 hrs.
Continued exploration of multi-media art works. Prerequisites: ARS 393 and approval of instructor. Lab Fee: $30.

495 **Technical Problems** 3 hrs.
Technical problems in studio disciplines for which advanced courses are not available. May be repeated for a total of six hours credit. Prerequisite: Approval of instructor. Lab Fee: $30.

**Art History (ARH)**

**Lower Division Courses**

Lower division art history courses explore the major monuments of western art, ancient through contemporary, in their historical and cultural contexts. These courses introduce the student to the basic analytic tools of art history.

100 **Art History Survey: Ancient to Medieval** 3 hrs.
Survey of the major works of art and architecture produced in the Near East, Egypt, and Europe from the Paleolithic period to the end of the Middle Ages, within the contexts of the cultures which created them.

101 **Art History Survey: Renaissance to Modern** 3 hrs.
Survey of the major works of art and architecture produced since the Renaissance, their major themes, the artists, and the critical issues that affected the cultures in which they were created.
201 Contemporary Art & Issues
Major movements since World War II, including abstract expressionism, neo-dada, pop, photo-realism, minimalism, conceptual art, earth works, new realism, neo-expressionism, performance and post-modernism. Prerequisites: ARH 100, 101.

Upper Division Courses
Upper division art history courses present the art of specific periods in its historical, literary, philosophical, political, and social contexts. These courses guide the student in critical reading of selected art historical and interdisciplinary scholarship.

301 Ancient Greek Art
Major works of art and architecture produced in the ancient Greek world from the ninth through first century B.C. in their social and political context. Attention given to the relationship of art to other forms of cultural expression such as philosophy, religion, literature, and drama. Prerequisite: None. Art majors and minors must have completed ARH 100, 101, 201.

302 Art of the Medieval World, to AD 1000
The formation of medieval visual culture in western and Byzantine Europe during the early middle ages, studied through examples of art and architecture. Special attention to historic, religious, and social contexts. Prerequisite: None. Art majors and minors must have completed ARH 100, 101, 201.

303 Renaissance Art
Art and architecture within the context of fourteenth through sixteenth century western Europe, marked by the rise of art theory and criticism and new concepts of the artist's role in society. Prerequisite: None. Art majors and minors must have completed ARH 100, 101, 201.

304 Twentieth Century Art
Developments in European and American art from 1890 to World War II, covering major movements including Cubism, Dada, Surrealism, Expressionism, Russian Constructivism, and Abstract Expressionism. Prerequisite: None. Art majors and minors must have completed ARH 100, 101, 201.

305 Ancient Roman Art
Art and architecture of the ancient Romans, from the Etruscans through the fourth century AD in their religious, political, and social context. Special attention given to focused study of specific periods, such as the age of Augustus, or physical contexts, such as Pompeii. Prerequisite: None. Art majors and minors must have completed ARH 100, 101, 201.

306 Baroque
Development of Baroque art in Europe. The art and architecture of this period will be examined through the works of Borromini, Bernini, Gentileschi, Rubens, Rembrandt, Leyster, Velasquez, and Poussin. Prerequisite: None. Art majors and minors must have completed ARH 100, 101, 201.

307 Impressionism and Post-Impressionism
European and American art from 1860 to 1900 will be examined through historical, political, social, philosophical, and literary perspectives. Impressionism, Post-Impressionism, Symbolism, and the "Art for Art's Sake" movement will be studied through the works of artists such as Monet, Renoir, VanGogh, Rodin, and Whistler. Prerequisite: None. Art majors and minors must have completed ARH 100, 101, 201.

308 Art of the Medieval World, AD 1000-1400
Art and architecture of western Europe during the last four centuries of the middle ages in their historic, social, political, and religious context. Prerequisite: None. Art majors and minors must have completed ARH 100, 101, 201.
310 Nineteenth Century Art 3 hrs.
European and American art from 1780 to 1860 will be examined through historical, political, social, philosophical, and literary perspectives. Neoclassicism, Romanticism, the Hudson River School, and Realism will be studied through the works of artists such as David, Goya, Turner, Cole, and Courbet. Prerequisite: None. Art majors and minors must have completed ARH 100, 101, 201.

320 Special Topics in Art History 3 hrs.
Special topics on periods of art history selected from ancient to contemporary as offered. Prerequisite: None. Art majors and minors must have completed ARH 100, 101, 201.

400 Art History Seminar 3 hrs.
Directed study for the development of a scholarly research paper on special topics in art history as offered. Prerequisites: 12 semester hours of upper division ARH courses or approval of instructor.

500 Special Problems in Art History 3 hrs.
Directed reading and research. Prerequisites: 12 semester hours of upper division ARH courses and approval of instructor.

Communication Arts Department
Associate Professors Roundtree (Acting Chair), James; Assistant Professor Smith, Young; Lecturer Julia Langford.

The Department of Communication Arts offers a comprehensive program of study leading to a Bachelor of Arts degree. Effective communication is crucial to success in a variety of professional, interpersonal, and educational settings. The study of communication prepares students for professional careers, for social life, and for further academic studies. Majors and minors gain practical, critical, historical, and theoretical perspectives on human communication. Majors may elect to specialize in courses following two distinct tracks in communication arts: a rhetoric track and a technical communication track. The rhetoric track focuses upon how discourse—especially persuasive discourse—is adapted to various contexts. The technical communication track focuses specifically on the communication of technical information to non-technical audiences, particularly in written discourse. In addition, the department offers courses in theater, media writing, film, nonverbal communication, and in specialized communication contexts.

Major in Communication Arts
Students wishing to major in communication arts should make that declaration at or before the beginning of the sophomore year, filing the appropriate forms in the Office of Student Records, scheduling a meeting with the chair of the Communication Arts Department, and working closely with a faculty advisor to plan a program of study.

A major in communication arts consists of 36 hours of coursework within the department, at least 21 hours of which must be at or above the 300 level. Transfer students must take at least 12 hours of upper-level coursework in the major at UAH. Communication arts majors are required to take AHS 300 (Statistical Analysis) as part of their GER. All majors are required to take the following three core courses:

CM 113 Introduction to Rhetorical Communication
CM 231 Foundations of Human Communication
CM 309 History of Rhetoric

Additionally, majors must elect one of the following tracks and take the required core of courses listed under that track:

Rhetoric Track
CM 310 Persuasion
or CM 315 Argumentation and Debate
CM 331 Communication Theory (AHS 300 is a prerequisite)
CM 431 Senior Seminar in Communication Theory and Research
18 hours of electives from CM (one other approved course may be in an allied discipline)

Technical Communications Track
CM 301 Technical Writing
CM 302 Technical Editing
CM 320 Practicum in Writing
or CM 400 Communication Arts Internship
CM 501 Theory and Practice in Technical Communications
15 hours of electives from CM (one course may be approved from an allied discipline),
including 3 hours of coursework at the 400-level in CM (excluding CM 400 and CM
413) and 6 hours of technical courses (to familiarize students with the discourse prac­
tices of technical communities).

Minor in Communication Arts
Students in major courses of study which might be complemented by rhetorical or techni­
cal communication studies are invited to consult the chair of communication arts about develop­
ning a minor. Among those whose studies might be complemented by a minor in communi­
cation arts are: students seeking to enhance their career opportunities through an understanding
of practical discourse; English students interested in rhetorical perspectives on literature; psy­
chology and sociology majors who believe communication will be central to their work; sci­
ence students who need to know how to present their ideas effectively to both technical and
non-technical audiences (especially if they enter management positions); political science stu­
dents interested in understanding communication processes central to political life; and stu­
dents preparing for a career in law.

A minor in communication arts consists of 21 hours of coursework taken within the depart­
ment, at least 12 hours of which must be taken at or above the 300-level. At least half of the
upper-level requirement must be taken at UAH. All minors are required to take the following:
CM 113 Introduction to Rhetorical Communication
CM 231 Foundations of Human Communication
CM 309 History of Rhetoric
12 hours of electives from CM (one course may be approved from an allied discipline)

Those choosing a minor emphasizing technical communication should elect to take CM
301, 302, 320, and one approved technical course.

Communication Arts (CM)

110 Voice and Diction 3 hrs.
Language, speech, and hearing as part of developmental training in vocal skills. (Does
not satisfy College of Engineering HU/SS requirement.)

113 Introduction to Rhetorical Communication 3 hrs.
Develops public speaking skills through an examination of rhetorical theory, training,
and practice. (Does not satisfy College of Engineering HU/SS requirement.)

122 Theater Appreciation 3 hrs.
Introductory survey of theater art focusing on understanding performance components
and genres. (Satisfies fine arts elective.)

205 Media Writing 3 hrs.
Writing news articles, critical reviews, press releases, and advertisements. Includes con­
sideration of audience expectations, industry constraints, generic traditions in print and
broadcast media.

214 Oral Performance of Literature 3 hrs.
Theory and practice in intellectual, artistic, and communicative skills required to read
prose, poetry, and drama aloud effectively.

</tbody>
</table>
330 Psychology of Nonverbal Communication 3 hrs.
Investigates the processes of nonverbal communication such as body language, gestures, and paralinguistics through empirical studies and naturalistic observation. Prerequisite: 3 hrs. CM. (Same as PY 330)

331 Communication Theory 3 hrs.
Review and criticism of the major approaches to communication and the major theories that have been devised by scholars to examine the processes and effects of human communication. Prerequisites: AHS 300 and 12 hrs. CM.

334 History of American Cinema 3 hours
Investigates the American cinema as a cultural artifact by studying cultural and historical context of representations, audiences, aesthetics and industry practices in American cinema from its beginnings (1895) to present.

340 Special Topics in Communication Arts 3 hrs.
Topics announced in advance. Representative topics include Women and Minorities in Media, Intercultural Communication, Rhetorical Criticism, and Communication and Gender. May be repeated twice for credit.

350 Organizational Communication 3 hrs.
Investigation of formal and informal communication in organizations, with emphasis on the relational and cultural forces affecting communication in corporations and government agencies.

400 Internship 1-6 hrs.
Practical experience in the workplace allows the student to apply principles, theories, and skills learned in communication arts courses. Arranged by the student with consent of the chair, the student meets regularly with a faculty advisor, keeps a log of activities, and submits a report on the internship. Prerequisite: Senior standing with CM major.

410 Political Communication 3 hrs.
Investigation of the role communication plays in the political process. Examines the theories of communication and assesses their application in both election strategies and political maintenance functions.

413 Business and Professional Speaking 3 hrs.
Intensive investigation of communication theories and skills involved in the design, delivery, and evaluation of business, technical, and professional speeches. Examines individual and group presentations typically encountered in organizations. Discusses speechwriting techniques. Prerequisite: CM 113.

415 Contemporary American Public Address 3 hrs.
Examines public address in America during the twentieth century. Applies principles of rhetorical criticism to analyze selected examples and trends in public communication. Prerequisite: CM 309, 310, or approval of instructor.

416 Women Orators 3 hrs.
Critical examination of women's public address as it has developed through women's participation in movements for abolition, temperance, women's suffrage, and equal rights.

431 Senior Seminar in Communication Theory and Research 3 hrs.
Research and public presentation of original work demonstrating the ability to carry out a complete scholarly project. Prerequisites: 15 hours of CM including 331, senior standing and AHS 300. Offered spring semester.

450 Studies in Organizational Communication 3 hrs.
Examines various research methods and findings in the interpretive tradition. Special emphasis on investigations of symbolic inducement of meanings and ways in which the research and writing processes reflect them. Prerequisite: CM 350.
Education Department
Associate Professors Brindley, Piersma (chair); Assistant Professors Asundi, Carroll, Harwell.

HISTORY AND OBJECTIVES
The Department of Education at UAH has been concerned with programs for the preparation of public school personnel since the University's inception in 1949. The earliest teacher education programs were initially connected directly to the College of Education at the University of Alabama, Tuscaloosa; in effect the UAH programs were offered under the Extension Division of the University of Alabama. During the next 18 years, the Department of Education became more independent and autonomous as the demand for courses and programs expanded. Finally, by 1967 students could complete all coursework in teacher education at UAH. That spring the education program at UAH was officially approved, and the first independent Department of Education was established. The program has continued to prepare prospective elementary and high school teachers at the graduate and undergraduate levels to assume leadership roles in public and private schools. The faculty in the department is committed to a knowledge base for these programs which reflects the view that educators are reflective decision-makers who facilitate student learning.

ACCREDITATION
Teacher education programs at UAH are approved by the Alabama State Board of Education, according to standards of the National Association of the State Directors of Teacher Education and Certification (NASDTEC), for the issuance of appropriate professional certificates for service in public schools.

FACILITIES
The Department of Education utilizes the facilities and resources of the entire university, the community, and the schools. The department maintains a special partnership with the teachers and students at University Place Elementary School adjacent to the UAH campus. Classrooms and faculty offices are located in Morton Hall. The department also maintains a Teacher Materials Center and a Computer Education Laboratory in Morton Hall where current teaching materials are available and where laboratory classes are held. The Institute for Science Education, a resource center for teaching and research in science and mathematics, is also located in Morton Hall.

SERVICES
In addition to its teaching function, the department provides inservice education for schools, agencies, and institutions of higher learning; conducts and disseminates research to solve educational problems; and provides consultative service to all types and levels of educational institutions.

DEGREES AND PROGRAMS OFFERED
The Department of Education, in conjunction with the College of Liberal Arts and the College of Science, offers undergraduate certification programs in the following areas:
- Art Education (N-12)
- Elementary Education (1-6)
- Secondary/High School Education (7-12) with majors in biology, chemistry, English, French, general science (comprehensive), German, history, language arts (comprehensive), mathematics (comprehensive), physics, political science, Russian, social science (comprehensive), and Spanish
- Music Education (N-12)
ACADEMIC ADVISING

Students who plan to enroll in the Teacher Education Program and qualify for teacher certification should contact the chair of the Department of Education to be assigned an advisor as early as the freshman year. Students are expected to consult their advisors about curricular and degree requirements. In addition, students are expected to consult with advisors from their teaching field departments to coordinate the planning of programs of study.

CAREER PLANNING AND PLACEMENT

The Office of Career Services, located in the University Center, assists all students who have completed an approved Teacher Education Program at UAH and who are eligible for an Alabama professional certificate, in securing teaching positions. All teacher education students are encouraged to file their credentials with the Career Services office during their senior year.

THE STATE BOARD OF EDUCATION PERIODICALLY REVISES THE REQUIREMENTS GOVERNING CERTIFICATION IN THE STATE OF ALABAMA. THEREFORE, REQUIREMENTS FOR DEGREES LEADING TO CERTIFICATION ARE SUBJECT TO CHANGE FROM THOSE PUBLISHED IN THIS CATALOG. THE STUDENT IS REQUIRED TO SEEK ADVISEMENT FROM THE EDUCATION DEPARTMENT (AS EARLY AS POSSIBLE IN THE PROGRAM OF STUDY) TO ENSURE THAT BOTH DEGREE REQUIREMENTS AND CERTIFICATION REQUIREMENTS ARE MET.

ADMISSION TO AND ENROLLMENT IN THE TEACHER EDUCATION PROGRAM

General Regulations

Student Responsibility. Education students are expected to register for appropriate courses necessary to make reasonable progress toward completing program requirements by the expected date of graduation. They must familiarize themselves with the requirements contained in this catalog and initiate the application process for a program of study. Faculty advisors are available to assist students as needed.

Local Mailing Address. Students are expected to maintain a mailing address at which communication from the department will, with reasonable certainty, reach them. The address should be recorded in the department office.

Registration and Enrollment. Education students seeking an institutional recommendation from UAH for professional certification must complete all professional education coursework at UAH. Transfer students will have their credits evaluated on an individual basis to determine course equivalency. In cases of extreme hardship, students may petition for an exception to the policy.

Course Substitution. When a course substitution in professional studies or the teaching field is desired, permission from the State Department of Education must be obtained prior to enrolling in the course. Students should contact the Certification Officer in the UAH Department of Education to complete appropriate forms for such approval from the State Department of Education. This requirement is very crucial and must be adhered to. Courses taken without approval may prevent a student from completion as planned.

Course Repeat Policy. The UAH course repeat policy allows students to repeat courses on a limited basis in order to improve the grade in a course. Education students may take advantage of this policy in all subjects; however, grades received for courses repeated in the student’s teaching fields and in professional education courses will be averaged with the original grade. The student is reminded that all coursework attempted in professional education and teaching field courses will be used to calculate the grade point average. (This is in compliance with the Alabama State Code of Education, but differs from the UAH course repeat policy.) Both the original and the repeated grade will show on the transcript.
Program Completion. If a student does not complete requirements for the undergraduate degree within a period of seven years from the date of admission, the Department of Education will modify the student’s program to bring it into harmony with current degree and certification requirements. In addition, students in the teacher education program must complete their program’s requirements within four years from the date of formal admission to the program they must re-apply for admission.

Admission to and Enrollment in the Teacher Education Program

Admission to the university does not qualify a student for admission to the Teacher Education Program (TEP). Eligibility for admission to teacher education is determined upon completion of the sophomore year. Transfer students who have completed two years of undergraduate study may be eligible for admission if they have a grade point average of 2.5 on semester hours of work at UAH.

Criteria for Admission to the Teacher Education Program. Applications for admission to the Teacher Education Program are available in the department office or from the Certification Officer. Students who meet the following minimum criteria may apply for admission to the Teacher Education Program (TEP). However, meeting the minimum criteria does not guarantee admission. Students may not have accumulated more than 12 semester hours of coursework in education before they are admitted to the TEP. Special permission may be requested from the department chair to take courses beyond the 12 hour limit. In addition, meeting the following criteria, all students who are admitted to the Teacher Education Program must have an approved program of study on file in the department.

1. Submit a formal written application for admission to the Teacher Education Program after completion of at least 60 hours including 48 semester hours in the general education requirements.
2. Maintain a cumulative grade point average of 2.5 on all work attempted.
3. Achieve a passing score on the Alabama Basic Skills Test.
4. Pass ED 200 - Introduction to Education, which “shall include a minimum of 5 day: full-time structured field experience designed to meet specific objectives and relate one or more professional education courses.”
5. Successfully complete (with a grade of “C” or higher) ED 230, 261, or 263, or equivalent courses.
6. Submit a written summary of applicant’s strengths and weaknesses.
7. Complete a satisfactory interview(s) with faculty advisor in the Department of Education.

Admission by reciprocity. Students who have been admitted previously to a teacher education program at an accredited university or college in Alabama may apply for reciprocity admission to the TEP at UAH. To be considered for this option, the student must supply documentation of previous admission.

Retention and Completion of the Teacher Education Program.

Admission to the TEP implies continuous evaluation of the student’s progress and qualifications for teaching. A student may be removed from the program, after due process, at the time the advisor, area head, and others in a position to judge determine that the student’s potential for success as a teacher is minimal.

1. A grade of “C” or above must be earned in all professional education courses. A student who receives a grade below “C” in a required education course may repeat the course only one time. The student is required to repeat the course at UAH. In cases of hardship the student may petition the department for permission to repeat the course at another institution.
2. To remain in the program each student shall make satisfactory progress as determined by continuous evaluation. Students enrolled in the TEP at UAH must maintain the grade point average which was required for admission to the program. In addition, adv
ted students must maintain a 2.5 average in all professional education courses and a 2.5 average in the teaching field(s) courses. This grade point average is consistent with requirements for student teaching and certification.

3. Students whose grade point average in professional education courses falls below the 2.5 average at any time following admission to the TEP will be placed on probation for one semester. During the probationary semester the student may enroll in only one professional education course and progress will be closely monitored. Enrollment in courses outside of the education department will not be limited. Any student who fails to raise the grade point average to at least 2.5 during the probationary semester will not be permitted to continue in the TEP.

4. A student who wishes to apply for readmission should submit a letter to the chair of the Department of Education. A department committee will evaluate each request for readmission. Readmitted students who subsequently earn a grade lower than “C” in any professional education course will be permanently dismissed from the program.

Internship Requirements

The teaching internship (student teaching) is one of the most important experiences teacher education students have. It is generally regarded as the culminating activity of one’s preparation to become a teacher. At UAH the internship is a full-time, full-semester assignment. Students enrolling for an internship should not expect to be enrolled in other courses while interning. Applications for the internship are available in the department office. Students may apply for the internship according to the following deadlines:

January 30 for Fall semester internship
June 30 for Spring semester internship

Admission Criteria for Internship

1. Acceptance into the Teacher Education Program
2. A minimum grade point average of 2.5 on all work attempted
3. A minimum grade point average of 2.5 on all work attempted in each teaching field(s)
4. A minimum grade point average of 2.5 in all work attempted in professional education courses, with no grade lower than “C”
5. Satisfactory completion of all appropriate General Education Requirements,
6. Satisfactory completion of all appropriate professional education courses with no grade lower than “C”

In Elementary Education, completion of the following professional courses is required before enrolling in student teaching: ED 200, 230, 261, 263, 360, 374, 375, 371 or 400, 372 or 373, and 593. ED 490 is to be taken concurrently with student teaching. (Exceptions may be possible with the permission of the department chair.) In Secondary Education, completion of the following professional courses is required before enrolling in student teaching: ED 200, 230, 261, 263, 388, 408, 414 or 415, 410, and 593. ED 490 is to be taken concurrently with student teaching.

7. A passing score on Part I of the comprehensive exit examination. The examination covers concepts associated with (a) human growth and development, (b) educational psychology, (c) history and philosophy of education, and (d) special education.

Internship Placements.

All internship placements are coordinated by the Department of Education faculty. Placement sites are selected in a manner to assure the quality of the internship experience and of the supervision provided by the cooperating teacher. All internship placements are in the Huntsville-Madison County area, in order to facilitate supervision of students by UAH faculty.
Professional Licensure (Certification)

The issuance of an Alabama teaching certificate is the legal responsibility of the Alabama State Department of Education. Colleges and universities cannot issue a professional certificate. However, in order to be recommended for a professional teacher’s certificate, a student must complete an appropriate course of study at a college or university which has been approved by the State Board of Education. When the student has completed the course of study, the institution recommends to the State Department of Education that a certificate be awarded. **It is the responsibility of the student to initiate the application for initial certification.**

Programs offered by the Department of Education are designed to prepare teachers for professional certification at the Class B (bachelor’s degree) or Class A (master’s degree) level. The Department of Education, in accordance with the Alabama State Board of Education, also provides courses for persons who hold expired certificates and wish to reinstate them.

Students who expect to teach in states other than Alabama are responsible for a knowledge of the licensure requirements in those states. Some states have reciprocity with Alabama through interstate agreements of the State Department of Education. Such students should inform their advisor or the certification officer of their intentions, as the advisor and certification officer may be of assistance in ensuring compliance with other state’s requirements.

Applications for an Alabama professional teaching certificate are available in the certification office. Students should make application for a teaching certificate during the final semester of their program.

Exit Examinations.

Exit examinations are required of all teacher education students who began collegiate studies during or after the fall of 1989. In the near future, exit examinations will be required of all students, no matter when they initially earned college credit. Students in Class B certification programs at UAH must take Part II of the exit examination (Professional Teaching Abilities). This examination is taken at the end of the internship and consists of the submission of a portfolio and an oral presentation.

Students must also take a comprehensive examination over each teaching field. These examinations are designed by the teaching field department and use a variety of assessment techniques: oral examinations, multiple choice tests, performance assessments, and written examinations. Students should contact their teaching field department(s) to schedule these examinations.

Initial Certification.

Successful completion of the bachelor’s program in teacher education leads to Alabama Class B certification which is valid for eight years. This certification may be renewed upon verification of successful teaching for four of the eight years and completion of an approved professional development program; or earning upper division or graduate level credit in the certification areas. Teachers are encouraged to earn Class A certification which may be incorporated into their employer’s professional development program.

General Education Requirements (B.A.)

B.A. programs are available for the following certification programs: art, biology, elementary education, English, French, general science, German, history, language arts, mathematics, music, political science, Russian, social science, and Spanish.

Note: Teacher education students must have within major/minor and/or general education requirements, work in both biological and physical sciences.

HPE (HPE 294 plus 2 additional activity courses) 3

ELEMENTARY EDUCATION

The curriculum in elementary education provides a broad liberal education base, professional studies, and includes the study of a single discipline. It prepares the elementary teacher for the general responsibilities expected of all teachers and the specific competencies of the elementary classroom. In addition, this curriculum provides a base for movement into the middle school, if the teacher so desires.

Because of the scope of the elementary education program the student must inform the Education Department of this goal as early as possible. The student will be assigned an advisor to aid in planning an effective course of study. This planning also requires the student to seek counseling from an advisor in the department of the student’s cognate area of study.

Upon successful completion of the elementary education program, the student will be awarded a B.A. degree, will be recommended for the Alabama Class B Elementary Professional Teachers Certificate, and will be qualified to teach in grades 1-6.

58 hrs.
Cognate Area
A student planning to teach in an elementary field must select a cognate area consisting of 18 hours minimum (most are 21-24 hours) which must include 9-15 hours of courses at the 300-level or above. Available programs in the College of Liberal Arts are art, English, communication arts, history, French, German, Russian, Spanish, music, political science, psychology and sociology. Approved programs in the College of Science are biology, chemistry, mathematics and physics. Economics is offered in the College of Administrative Science. Other cognate fields may be approved by petitioning for special consideration.

SECONDARY/HIGH SCHOOL EDUCATION
The curriculum in high school education is planned to provide a broad liberal base, professional studies in high school teaching, and an in-depth study of two disciplines or of selected comprehensive fields (social science, language arts, general science, mathematics) for the purpose of preparing teachers for service in senior high schools. Students may, at their option, also seek certification in middle/junior high school education, with additional coursework and internships. Preparation will be rigorous and will equip the teacher to work in the high school setting and to deal with adolescents.

Students should seek counseling as early as possible. Advisors will be assigned in both professional education and in the teaching field(s). The student will earn a B.A. or B.S. depending on the field chosen. Upon successful completion of the program the student will be recommended for the Alabama Class B High School Certificate, and will be qualified to teach in grades 7-12.

</table>

In addition to the above, the student is required to have two teaching fields or one comprehensive teaching field. The one exception to this rule is mathematics which can stand alone.

Approved single teaching fields are French, German, Russian, Spanish, English, biology, chemistry, physics, history, and political science.

Approved comprehensive teaching fields are language arts, general science, social science, and mathematics.

The number of hours required varies from one teaching field to another. The student should seek advisement from the Education Department on this matter. The specific program of studies in the teaching field(s) will be developed with advisors from the teaching fields.
MIDDLE/JUNIOR HIGH SCHOOL ENDORSEMENT

Under the State of Alabama plan, there are five levels of certification of teachers, namely: N-3, 1-6, 4-8, 7-12, and N-12. UAH offers all options except N-3. The curriculum in middle/junior high school education is an endorsement that can be added to either an Alabama Class B Elementary or Class B Secondary program. Students may, at their option, add certification in the middle school, with additional coursework and an additional internship. This program is designed to prepare teachers especially trained in dealing with youngsters undergoing the developmental changes of late childhood, puberty, and early adolescence. The emphasis will be on preparing academic generalists rather than specialists in subject fields.

For a person certified for grades 1-6 under the new standards, adding middle school endorsement would also permit teaching in grades 7 and 8 in the teaching field(s) for which the person has completed the requirements as otherwise outlined in this catalog. Students with a major in elementary education (1-6 certification) must meet the following additional requirements: (1) ED 388 - Teaching Middle and High School Subjects, (2) ED 414 - Teaching Secondary Science & Mathematics or ED 415 - Teaching Secondary Humanities/Social Sciences, (3) cognate must be extended to 27-30 approved hours in a single subject area, (4) additional internship in grades 4-8.

For a person with high school certification, adding middle school endorsement would also permit teaching in grades 4-6 in the teaching field(s) for which the person has completed the requirements. Additional requirements for students enrolled in the high school program (7-12) and seeking middle school endorsement are as follows: (1) ED 375 - Teaching Reading in the Elementary School, (2) additional internship in grades 4-8.

STUDENTS SHOULD SEEK COUNSELING AS EARLY AS POSSIBLE. Advisors will be assigned in both professional education and in the teaching fields. The student will earn a B.A. or B.S. depending on the chosen field(s). Upon successful completion of the program the student will be recommended for the Alabama Class B Middle/Junior High School Endorsement and will be certified to teach in grades 4-8.

N-12 CERTIFICATION

Programs are available in art and in music leading to Alabama Class B Certification for grades N-12. There is one program available in art studio and two programs in music education (instrumental, and vocal/choral). These programs are also devoted to providing a broad liberal base of studies. Preparation in the arts has traditionally been rigorous and extensive and these programs are no exception. Students should expect to take more than the minimum of 128 hours required for graduation. Early counseling with advisors is strongly recommended.

Music Major: Instrumental or Vocal/Choral
The majors in music education (both instrumental and vocal/choral) are made up of some 48-51 semester hours of coursework, part of which may be counted as general studies. These programs of study should be planned with faculty in the Music Department providing advice and approval.

Education (ED)

111 Career Exploration
Educational and vocational planning. Lab Fee: $10.

115 Effective Reading and Study Skills
Basic reading-skill development in class activities to raise skills on literal, interpretive, critical, and creative levels of comprehension. Lab Fee: $10.

200 Introduction to Education
Initial practicum experience designed to provide the opportunity to explore the role of the classroom teacher and to help make decisions about the choice of teaching as a profession. Students will spend at least 5 consecutive days in a classroom in their designated field, followed by 20 hours of campus-based instruction. (Prerequisite for admission to Teacher Education Program.)
230 Human Development 3 hrs.
Overview of human development stressing continuity from conception to adulthood. Practical applications for teachers and parents. Prerequisite: ED 200.

261 Foundations of Education in the United States 3 hrs.
Survey of social, cultural, historical, and philosophical foundations of education; inter-relationships of society and education, effects of social change and influences of social-cultural values upon education; educational ideas and processes as they attempt to shape curricula. The perennial search for the meaning of education, perceived not merely as schooling, but as a process of enculturation and socialization. Prerequisites: ED 200 and ED 230.

263 Educational Psychology 3 hrs.
Psychological principles basic to an understanding of the learner, the learning process, and the learning situation. Prerequisites: ED 200, 230, and sophomore standing.

300 Group Processes 2 hrs.
Major principles of group dynamics and their effective use in education. Informal group counseling experiences for better understanding of self and others as an integral part of the course methodology. Course is graded S/U only. Prerequisites: ED 200 and ED 230 or 263.

325 The Sociology of Education 3 hrs.
Sociological approach to the study of education as a social institution; its structure, function and role in contemporary life. Prerequisite: SOC 100 or approval of instructor. (Same as SOC 325).

350 Technology in the Classroom 3 hrs.
Introduces prospective teachers to current state of the art in educational technology. Designed as a laboratory course providing extensive hands-on experiences with microcomputers and other emerging technology. Emphasis is on enabling the student to effectively integrate technology into instructional settings.

411 Guidance for Teachers 3 hrs.
Sociological, psychological, and philosophical bases for guidance in schools.

456 Mental Health in the School 3 hrs.
Dynamics of behavior, recognition of minor maladjustments, criteria for referral, and classroom practices supporting good mental health. Prerequisite: ED 263 or junior standing.

467 Tests and Measurements 3 hrs.
Survey of standardized and teacher-made evaluation instruments.

500 Special Problems in Education 3 hrs.
Independent study, special projects, and special in-service programs. Prerequisite: senior standing.

502 Environmental Education 3 hrs.
General nature of ecological life systems, relationships of humankind and environment, major conservation problems facing the world today, exploration of alternate solutions and the tasks for educators.

549 Audiovisual Instruction 3 hrs.
Audiovisual media in teaching and the selection, use, and maintenance of audiovisual materials in educational programs.

593 Education of Exceptional Children and Youth 3 hrs.
Introduction to the field of exceptional children and youth, including observations. Prerequisites: ED 200 and 230.
Elementary Education

215 Physical Education for the Elementary Teacher 3 hrs.
Basic understanding of body alignment, developmental exercises and movement exploration activities for physical education in elementary grades. Study of student needs to provide proper equipment, facilities, and leadership for the overall program.

231 Teaching the Young Child 3 hrs.
Total pattern of child development, curriculum, learning, methods, and guidance for the child from two to nine years of age.

360 Diagnostic and Prescriptive Teaching 3 hrs.
Strengths and deficiencies of student in academic area and a program to enhance strengths and remedy weaknesses. Group and individual processes. Prerequisites: ED 263, junior standing and admission to the Teacher Education Program. School-based practicum required.

371 Teaching Elementary Language Arts 3 hrs.
Introduction to current practices in language arts instruction with emphasis on the development of an integrated curriculum using children's literature as a foundation. Includes appropriate techniques for the teaching of grammar, spelling, and handwriting. Prerequisite: admission to the Teacher Education Program. School-based practicum required. To be taken concurrently with ED 375.

372 Teaching Elementary Social Studies 3 hrs.
Teaching social studies in grades 1-6. Helping beginning teachers acquire background skills in organizing and teaching units of work. Prerequisite: admission to the teacher education program. School-based practicum required.

373 Teaching Elementary Science and Health 3 hrs.
Integrates concepts from reflective practice with elementary science teaching. Opportunity to refine teaching skills in the planning, implementation, and evaluation of science lessons and units of instruction. Prerequisite: admission to the Teacher Education Program. School-based practicum required. To be taken concurrently with ED 374.

374 Teaching Elementary Mathematics 3 hrs.
Overview of the mathematics concepts and skills taught in grades K-6 with an emphasis on the principles, methods, and materials used in the teaching and evaluation of elementary school mathematics. Focuses on the attitudes and behaviors of students and teachers in the actual planning and implementation of mathematics instruction for an elementary school classroom. Prerequisite: admission to the Teacher Education Program. School-based practicum required. To be taken concurrently with ED 373.

375 Teaching Elementary Reading 3 hrs.
Introduction to the basic principles of reading instruction in the elementary grades including theoretical bases for instruction, methods of instruction, materials, and assessment of individual needs. Prerequisite: admission to the Teacher Education Program. School based practicum required. To be taken concurrently with ED 371.

400 Literature for Children and Adolescents 3 hrs.
Relationship between developmental stages and literature that young people find relevant at various stages of growth. Understanding and appreciation of interdependence of experience and literature. Knowledge of the literature and critical assessment including use of library resources in teaching reading. School-based practicum required.

408 Teaching Reading in the Content Area 3 hrs.
Provides knowledge of certain basic developmental and remedial reading skills, practices, and concepts. Extends those learned in previous, more fundamental, reading
courses and shows how to apply fundamental skill and knowledge to the classroom. This will include adapting fundamentals of reading instruction to the various subject-matter areas (i.e., the sciences, social studies, English, etc.). Survey of special reading programs such as remedial reading and reading instruction as practiced in special education. Prerequisite: admission to Teacher Education Program. School-based practicum required.

490 Senior Seminar in Education 1 hr.
Provides for reflection and discussion of the student teaching experiences in light of current trends and problems in education. To be taken concurrently with student teaching.

492 Observation and Participation in Teaching 3-6 hrs.
Selected observation and participation in elementary schools. For students in curricula designed for both elementary and secondary schools and for experienced teachers. Prerequisites: ED 230, 261, 263, 300, 360, three methods courses or equivalent approved courses, and an approved application for student teaching.

493 Elementary School Internship 9 hrs.
Focuses on apprenticeship training in a natural teaching-learning environment. During the assignment the role of the student teacher will vary from that of being an interested observer to that of being responsible for the day-to-day teaching and learning activities within an assigned classroom. The student teacher is expected to assimilate university training and on-site activities in order to synthesize methods and strategies for future professional use. A minimum of 100 clock hours of actual teaching is required. This corresponds to the State Department of Education requirement for 10 consecutive teaching days. Prerequisites: ED 230, 261, 263, 300, 360, 374, 375, 371 or 400, 372 or 373, and 593. (Exceptions may be possible with permission of the department chair.) ED 490 is to be taken concurrently with student teaching.

494 Elementary School Internship 3 hrs.
Essentially the same as ED 493. However, it will require a minimum of 100 total clock hours, including a minimum of some 30 hours of responsible teaching. It is to be used by persons seeking dual certification or by post-graduate students seeking additional areas of endorsement. Prerequisite: permission of the department chair.

Middle and High School Education

388 Teaching Middle and High School Subjects 2 hrs.
Building of curricula, methods of teaching, and classroom communication skills. (Major area of teaching to be designated.) Prerequisite: admission to Teacher Education Program. School-based practicum required.

408 Teaching Reading in the Content Area 3 hrs.
Provides knowledge of certain basic developmental and remedial reading skills, practices, and concepts. Extends those learned in previous, more fundamental, reading courses and shows how to apply fundamental skill and knowledge to the classroom. This will include adapting fundamentals of reading instruction to the various subject-matter areas (i.e., the sciences, social studies, English, etc.). Survey of special reading programs such as remedial reading and reading instruction as practiced in special education. Prerequisite: admission to Teacher Education Program. School-based practicum required.

410 Foundations of Education Evaluation 3 hrs.
Measurement process with emphasis on its relationship to problems of educational evaluation. Evaluation as an integral part of overall educational planning in addition to its use in measurement and evaluation of academic achievement. Prerequisite: admission to the Teacher Education Program.
414 Teaching Secondary Science and Mathematics 2 hrs.
Focuses on teaching knowledge and skills necessary for the secondary mathematics and science classroom. Planning, facilitating and assessing mathematics and science learning; implementing manipulatives and laboratory activities; current topics related to principles and methods of secondary science and mathematics. School-based practicum required. Prerequisite: admission to the Teacher Education Program.

415 Teaching Secondary Humanities and Social Sciences 3 hrs.
Focuses on knowledge and skills necessary for teaching the humanities and social sciences in secondary schools. Planning, facilitating, and assessing learning in the teaching field (English, history, art, etc.); opportunities for collaboration and integration of content; current topics related to principles of learning and effective methods in classroom. School-based practicum required. Prerequisite: admission to the Teacher Education Program.

490 Senior Seminar in Education 1 hr.
Provides for reflection and discussion of student teaching experiences in light of current trends and problems in education. To be taken concurrently with student teaching.

495 Middle School Internship 9 hrs.
Focuses on apprenticeship training in a natural teaching-learning environment. During the assignment the role of the student teacher/intern will vary from that of being an interested observer to that of being responsible for the day-to-day teaching and learning activities within an assigned classroom. The student teacher/intern is expected to assimilate university training and on-site activities in order to synthesize methods and strategies for future professional use. A minimum of 100 clock hours of actual teaching and some 300 hours overall is required. This corresponds to the State Department of Education requirement for 10 consecutive teaching days. Prerequisites: all required professional educational courses should be complete before admission to the program.

496 Middle School Internship 3 hrs.
Essentially the same as ED 495. However, it will require a minimum of 100 total clock hours, including a minimum of 30 hours of responsible teaching. It is to be used by persons seeking dual certification or by post-graduate students seeking additional areas of endorsement. Prerequisite: permission of the department chair.

497 High School Internship 9 hrs.
Students have opportunity to work with master teachers in authentic teaching-learning environment. The role of student teacher will vary from that of observer to full-time instructor responsible for the day-to-day teaching and learning activities within an assigned classroom. Students are expected to synthesize university instruction and on-site activities in a professional manner. A minimum of 100 clock hours of actual teaching and at least 300 hours overall is required. This corresponds to the State Department of Education requirement for 10 consecutive teaching days. Prerequisites: Ed 230, 261, 263, 388, 408, 414 or 415, 410, and 593, and approved application for student teaching. ED 490 is to be taken concurrently with student teaching.

498 High School Internship 3 hrs.
Essentially the same as ED 497. However, it will require a minimum of 100 total clock hours, including a minimum of some 30 hours of responsible teaching. It is to be used by persons seeking dual certification or by post-graduate students seeking additional areas of endorsement. Prerequisite: permission of the department chair.
Other Internships

499 N-12 Internship (Art, Music)  9 hrs.
Supervised teaching experience in local schools. A minimum of 100 clock hours of actual teaching and some 300 hours overall is required. Concurrent conferences arranged as needed. Prerequisite: an approved application for student teaching. ED 490 is to be taken concurrently with student teaching.

English Department

Associate Professors Early, Mebane, Moore, Munson, Neff, Nelson, Norman, Schenker (Chair), Szilagyi; Assistant Professors Bollinger, Dillard, Youmans, Young; Instructor Allen; Lecturers Bradburn, Lavan, Singer, Singh.

The Department of English offers courses to fulfill requirements for the major and minor in English at the bachelor’s degree level. It also offers a program leading to teacher certification, a cognate option in technical writing, and writing courses at a variety of levels, including English as a second language (ESL). A Master of Arts degree in English is described in the Graduate Catalog.

DECLARING THE MAJOR

Students wishing to major in English should make that declaration at the beginning of the sophomore year. The English Department office provides forms for this purpose and will let the student choose an advisor or will assign one.

English Major

<table>

</table>

Further requirements and conditions for the major:
1. One course devoted entirely to the novel; additional such courses count as English electives.
2. Two courses (6 semester hours) in 400- or 500-level courses.
3. For transfer students, 12 semester hours in upper-level English courses (numbered 300 or above) at UAH.
4. No more than one course in creative writing may count toward the major.

English Minor

A minor in English requires 21 semester hours above freshman composition courses; 12 semester hours must be upper level (numbered 300 or above), including at least 3 semester hours at the 400- or 500-level. Half of the upper-level requirement (6 semester hours) must be taken at UAH. Please note: courses in technical and business writing may not be used in the minor without special approval by the department chair.

Cognate Studies in Technical Writing
This unique cognate is available for students with majors in any school. Preparation for a career in the field of technical writing should combine intensive training in writing with practical experience and fundamental technical skills. The 21-hour cognate studies curriculum brings together all three. All students must take EHT 301 (Technical Writing), EHT 302 (Technical Editing), and EHT 320 (Practicum in Writing) in sequence. Students with non-technical majors should plan early to take courses in technical or scientific fields. Students with technical majors should consult the Business and Technical Writing Director for current requirements. A typical program for a non-technical major is:

English for Second Area of Study/Cognate
Students majoring in elementary education or seeking certification in secondary education may select English as their second area of study. This area consists of a minimum of fifteen hours beyond the freshman composition requirement (EH 101 and 102) and the sophomore literature requirement. These hours must be in courses numbered 300 or above and must be selected from the courses listed below with the approval of a faculty advisor in the Education Department and the chair of the English Department.

<table>
<thead>
<tr>
<th>Course</th>
<th>Semester Hours</th>
</tr>
</thead>

158
Courses below are open to students who have completed 6 hours of freshman composition, with exceptions as indicated.

205 **Survey of English Literature** 3 hrs.
Anglo-Saxon period through Milton.

206 **Survey of English Literature** 3 hrs.
Restoration through twentieth century.

230 **Survey of American Literature** 3 hrs.
Survey of writers, genres, and periods from the European discovery to the present day.

240 **World Literature I** 3 hrs.
Selected major contributions with focus on western civilization; Homer to the Renaissance.

241 **World Literature II** 3 hrs.
Selected major contributions with focus on western civilization; Enlightenment to the present.

242 **Mythology** 3 hrs.
Archetypal, metaphorical, and historical significance of deities and myths.

250 **Honors World Literature Seminar I:** 3 hrs.
Major texts from the ancient world to 1700. Prerequisite: EH 105 or admission to Honors Program.

251 **Honors World Literature Seminar II:** 3 hrs.
Major texts from 1700 to the present. Prerequisite: EH 105 or admission to Honors Program.

310 **Fiction Writing** 3 hrs.
Practice in writing of fiction from conception to revision. Prerequisites: GER literature requirement and approval of instructor.

Courses below are open to students who have completed the general education requirement in literature, with exceptions as indicated.

330 **Major American Writers** 3 hrs.
Major writers from the Colonial period to Whitman and Melville.

331 **Major American Writers** 3 hrs.
Dickinson to Eliot and Faulkner.

339 **Special Studies in American Literature and Culture** 3 hrs.
Topics announced in advance.

340 **Special Topics in Literature** 3 hrs.
Theme, writer, or historical movement to be announced in advance.

360 **Shakespeare** 3 hrs.
Renaissance background and at least six plays, including history, comedy, and major tragedies.

380 **Restoration and Early Eighteenth Century** 3 hrs.
Poetry, drama, and various emergent prose forms in the early modern period, 1660-1744, with attention to cultural contexts.

381 **Later Eighteenth Century** 3 hrs.
Poetry, drama, the novel, and other emergent prose forms in the early modern period, 1744-1799, with attention to cultural contexts.

<td></td>
</tr>
</tbody>
</table>
510 **Advanced Fiction Writing**
Workshop in advanced fiction writing. Prerequisite: approval of instructor.

520 **Modern Poetry**
American and British poetry from the 1890's to the present: Yeats, Pound, Eliot, Frost, Stevens, and others. Poets will be studied against the background of the social, political, and technological revolutions that characterize the present century.

522 **Modern Novel**
Considers responses to the experience of modernity; focus on English and American but in different years; texts will also be drawn from Continental, Latin American, Asian, or African traditions.

525 **Literature and Technology**
Considers the relation between technology and culture as it has been understood since the classical period through a broad range of literary texts.

530 **Special Studies in American Literature**
Topics announced in advance.

532 **Literature of the American South**
Selected figures and movements from colonization to the present.

533 **William Faulkner**
Biography, background, and critical study of the major novels.

540 **Special Studies in English Literature**
Topics announced in advance.

551 **Middle English Literature**
Emphasis on literature of later medieval England, excluding Chaucer, chosen from the Gawain poet, Piers Plowman, romance, drama, religious meditation, the short poem, and Margery Kempe.

571 **Renaissance Drama**
Major plays of the sixteenth and early seventeenth centuries, including Marlowe, Jonson, and others. Excludes Shakespeare.

572 **Seventeenth-Century Poetry**
Emphasis on major figures, excluding Milton, (Donne, Jonson, Herbert), their followers, and major themes and genres of the period.

592 **The Literature of the Transition**
Considers literature in all genres, including intellectual and philosophic works, from 1890-1915 to explore the transition from Victorianism(s) to Modernism.

**Linguistics and English Language Studies**
The department offers a variety of courses related to General Linguistics, English Language, Grammar, and the Teaching of English to Speakers of Other Languages (TESOL). For those who are interested in the Teaching of English to Speakers of Other Languages (TESOL), the department offers a certificate in TESOL in conjunction with the M.A. degree and an independent TESOL certificate at the graduate level. Interested undergraduates may take courses which would be helpful should they eventually want to go on for the TESOL certificate and M.A. degree. Such students should consult with the department chair or the director of the TESOL Program.
English Linguistics and TESOL (EHL)

307 Structure of Modern English 3 hrs.
Analysis and description of major aspects of the phonological, morphological, and syntactic components of modern English. An eclectic grammatical approach which includes traditional, structural, and transformational grammar. Emphasis is on analysis and practical application of grammar. Prerequisite: successful completion of basic English requirements or approval of the instructor.

A survey of the field of linguistics, including language typology, distribution of major languages of the world, cognition, topics in socio- and psycho-linguistics, theories of grammar, and an introduction to writing mini-grammars. Draws on comparative examples of English with other world languages.

506 Introduction to Old English 3 hrs.
Introduction to the phonology, morphology, and syntax of Old English; intensive reading of Old English prose and verse texts which characterize the Anglo-Saxons.

An advanced grammar course which includes traditional and contemporary analyses of major English syntactic patterns; dialect studies; analysis of style; selected socio- and psycho-linguistic topics.

508 History of the English Language: Applied English Linguistics III 3 hrs.
Phonological, morphological, syntactic, and semantic changes in the English language from the pre-Anglo-Saxon period to the modern English period; historical events that have influenced and effected these changes.

English Technical and Business Writing (EHT)

300 Strategies for Business Writing 3 hrs.
Practical business writing with emphasis on rhetoric, organization, and research. Prerequisites: 6 hours of freshman composition; CM 113, BIB 230, junior standing; open to all students in the School of Administrative Science or by permission of the Department of English. Does not count toward English minor. Lab Fee: $40.

301 Technical Writing 3 hrs.
Practical writing, especially technical or scientific reports and proposals, with emphasis on organization, research, and presentation. Prerequisites: EH 101 and junior standing; EH 102 recommended. Counts as elective in English major. Does not count toward English minor except for Cognate Studies in Technical Writing. Lab Fee: $40.

302 Technical Editing 3 hrs.
Clarifying, expanding, reducing, and rewriting technical reports and other documents created by others. Emphasis on elements of style and usage, revision, proofreading, and application of rhetorical techniques to the work of engineers, scientists, and technicians. Prerequisites: EHT 300 or 301. Counts as elective in English major. Does not count toward English minor except for Cognate Studies in Technical Writing. Offered spring semester only. Lab Fee: $40.

320 Practicum in Writing 1-3 hrs.
Writing and editing under the supervision of professionals. May be repeated up to three separate terms for no more than 3 hours total credit. Prerequisites: EHT 301, 302, enrollment for Cognate Studies in Technical Writing, permission of the Director of Business and Technical Writing, and a successful interview with the participating technical supervisor. Enrollment requires advance planning. Does not count toward English minor except for Cognate Studies in Technical Writing.
English as a Second Language (ESL)

The English Department offers courses in English as a Second Language (ESL) for those non-native speakers of English who need to improve their English language skills. ESL 101 and 102 are designed primarily to assist students to improve their oral production, aural comprehension, and vocabulary; ESL 103 and 104 are designed to assist students in improving their reading comprehension and composition skills. Placement tests are given prior to the commencement of terms; non-native speakers of English are advised to contact the Office of Admissions and Records or the English Department for time and place of testing.

100 ESL Spoken English I 3 hrs.
Basic spoken English emphasizing the sound system including pronunciation, intonation patterns, basic sentence structures, and vocabulary improvement expansion. Includes general conversational topics and special topics related to the academic environment. Prerequisite: minimum of mid-beginning ESL oral-aural English skills.

101 ESL Spoken English II 3 hrs.
Intermediate spoken English emphasizing refinement of aural comprehension and oral production skills. Students engage in a broad range of conversational topics and are introduced to individual oral presentations. Extended vocabulary applications and idiomatic usage are also included. Prerequisite: minimum of low intermediate ESL oral-aural skills.

102 ESL Spoken English III 3 hrs.
Advanced spoken English for extended practice in both formal and informal oral interaction. Emphasizes oral English used in the academic environment and prepares students to participate freely in classroom discussions, on panels, and in interviews. How to plan and deliver individual formal presentations is also included. Prerequisite: minimum of mid-intermediate ESL oral-aural skills.

103 ESL Composition I 3 hrs.
Basic composition emphasizing those skills necessary to write effective sentences and paragraphs. This course includes basic mechanics, vocabulary expansion, and the concepts of unity and coherence. Students receive an introduction to planning and writing compositions. Prerequisite: mid-beginning to mid-intermediate ESL composition skills.

104 ESL Composition II 3 hrs.
Advanced composition course designed to further the reading and writing skills of non-native speakers. Instruction and practice in critical reading and in writing full-length and extended essays. Focuses on both form and content and emphasizes expository composition that requires students to analyze and synthesize. Prerequisite: mid-intermediate to advanced ESL composition skills.

Foreign Languages and Literatures Department

Professor Emeritus Penot; Associate Professor Emerita Heller; Associate Professor Emeritus Stromecky; Associate Professors Buksa, Goebel, Maier, Meister, Nielsen (Chair), Winchell; Assistant Professor Emerita Traylor; Assistant Professor Wild.

The acquisition of a second language, and through it an understanding of another country's literature and culture, is a rich academic experience for students interested in the liberal arts or in a career in today's world of global markets, increasing political interdependence, and international scientific collaborations. The programs are designed to teach the effective use of foreign languages and cultures, both oral and written, in various areas of academic and professional life.
French, German, Japanese*, Latin*, Russian, Spanish

The department offers the B.A. in French, German, and Spanish, minors in French, German, Russian, and Spanish, and participates in the Slavic Area Studies Program, a B.A. degree program. A composite major in Foreign Languages and International Trade (in cooperation with the College of Administrative Science) with French, German, Russian, or Spanish is also available, and leads to a B.A. degree.

*Japanese and Latin courses can be taken to satisfy the language requirements or as electives.

General Education Requirements and Placement Procedures

Twelve semester hours of credit in one foreign language are required for the B.A. and can be an option in the B.S. degree unless the student can demonstrate a competence at a level more advanced than the beginning 101 course. French, German, Russian and Spanish courses at 100- and 200-level are taught at least twice each calendar year.

Students with a prior knowledge of French, German or Spanish may take the CLEP examination for the equivalent of 101 and 102. Irrespective of the resultant placement, the student will have to take a minimum of six additional hours of course work to fulfill the language requirement. The test is administered by the UAH Testing Services and must be taken prior to enrollment in foreign language classes. Tests are given once each semester and monthly during the summer, see Testing Services for dates. Interested students should contact the respective foreign language coordinator for further information. By taking the CLEP test, a student may receive credit hours with no quality points depending on placement level and score. Since there is no CLEP test for Russian, students of that language may take a special departmental test under the same conditions as the CLEP examination. See the Russian language coordinator.

Native and quasi-native speakers of foreign language may not take introductory and intermediate courses, nor the first advanced conversation course in that language. Students in this category must make an appointment with the appropriate language coordinator to take a departmental placement examination. They may earn up to fifteen hours of credit with no quality points and must still take a minimum of six additional hours of course work.

Students who studied a foreign language in high school will be placed according to the following scale:

<table>
<thead>
<tr>
<th>Placement Level</th>
<th>Language in High School</th>

*Minimum grade of C required for a unit to be counted.

If an interval of two years or more occurs between study of a language in high school and continuation of that language in college, placement levels may be adjusted downward to entry level.

The Foreign Language Department will award credit to students who have earned a score of three or higher on Advanced Placement (AP) Program examinations of the College Entrance Examination Board according to the following scale:

- Score of 3: 9 hours credit (i.e. through 201)
- Score of 4: 12 hours credit (through 202)
- Score of 5: 15 hours credit (through 301)

The credit thus awarded will be recorded without grades or quality points and will not therefore, be included in the calculation of the grade point average.

Moreover, regardless of the student’s AP score, he or she will be required to complete successfully two additional courses (6 credit hours) of the appropriate language.
Foreign Language Major
This major offers students a personally and academically enriching program in French, German, Slavic Area Studies, and Spanish. Firmly guided by principles of humanistic thinking, the curriculum places equal emphasis on communicative proficiency, literary criticism, and cross-cultural awareness.

A foreign language major consists of 24 semester hours above the basic course sequence in a single language. Students beginning the language on the 101 level must take a total of 36 hours.

A student majoring in a foreign language and seeking teacher certification in that language must take 36 semester hours of credit, including 9 hours at the 400 level. See further instructions under Programs involving Teacher Education/Certification.

A transfer student declaring a major or minor must have a minimum of six (6) hours of upper-level credit earned at UAH in the language studied.

Foreign Language Minor
A foreign language minor consists of 12 semester hours above the basic-course sequence in a single language. Students beginning the language on the 101 level must take a total of 24 semester hours. Conversation, advanced grammar and composition, and one of the introduction to literature courses are required. An additional course on the 300- or 400-level completes the requirement for the minor. Students beginning the language on the 300 level must still take a total of 15 hours.

Program of Study Models
Students majoring in a foreign language will find a program of study which enables them to develop depth and breadth in the major and related areas: other languages, humanities, social and behavioral sciences, mathematics, engineering, natural sciences, and elementary education. Students who wish to plan their own program of study should do so in consultation with a member of the particular language faculty. This Program of Study may also be used for teacher certification.

Program of Study with French Major
Required courses: FH 301, 302, 305, 306, three courses on the 400-level, and one elective from either the 300- or 400-level.

Program of Study with German Major
Required courses: GN 301, 302, 305, 306, three courses on the 400-level, and one elective from either the 300- or 400-level.

Program of Study with Spanish Major
Required courses: SH 301, 302, two of the introduction to literature courses (305, 306, 307, or 308), three courses on the 400-level, and one elective from either the 300- or 400-level.

Program of Study with Slavic Area Studies Major
The Slavic Area Studies major is an enrichment program which prepares students for careers in government, industry, international commerce and trade, and other related areas of work, while providing the necessary preparation for graduate level studies.

Drawing from three disciplines, foreign languages and literatures, history, and political science, the program places emphasis on Russian studies with strong supporting work in history and political science.

Slavic area studies offers the student intensive training aimed at the development of competency in more than one area. Requirements for the Slavic area studies major are:
Foreign Languages and International Trade

The department offers a degree program that combines the study of a foreign language, administrative science, history, political science and other disciplines related to international trade. Such a program of study opens up a broad variety of career opportunities in the multinational and multilingual business world of today.

In addition to the general education requirements for the B.A. degree, the student’s program must include the following courses:

**Foreign Languages**

Intermediate foreign language (French, German, Russian or Spanish) 6 hrs.
301 Conversation 3 hrs.
302 Advanced Composition 3 hrs.
303 Business and Professions 3 hrs.
304 Culture 3 hrs.
305, 306, 307, or 308 (Survey of Literature) 3 hrs.
400 Foreign language electives 6 hrs.
410 Practicum 3 hrs.

Total 30 hrs.

**Administrative Science Cognate**

ECN 142, 143 Principles of Economics 6 hrs.
ACC 211, 221 Principles of Accounting I 3 hrs.*
ACC 212, 222 Principles of Accounting II 3 hrs.*
BLS 211 Legal Environment of Business 3 hrs.
FIN 301 Principles of Finance 3 hrs.
MGT 301 Principles of Management 3 hrs.
MKT 301 Principles of Marketing 3 hrs.
MGT 450 International Business 3 hrs.

Total 27 hrs.*

* For these six hours a student may substitute ACC 300 Fundamentals of Accounting and one course selected from FIN 454 International Finance or MKT 415 International Marketing.

** In no case may the Administrative Science courses included in a student’s program of study exceed 25 percent of the student’s program. (pp. 74-75)

**Other Requirements**

Each of the following:

PSC 102 Comparative Politics 3 hrs.
PSC 362 International Law 3 hrs.
HY 392 Europe Since 1815 3 hrs.

One of the following appropriate to language studied:

HY 341 Modern France 3 hrs.
HY 343 Modern Germany 3 hrs.
HY 376 Soviet Russia 3 hrs.
HY 399 Special Topics 3 hrs.
One course from the following:  
HY 374 U.S. Foreign Relations  
HY 391 Europe 1500-1815  
HY 478 Europe in the Nineteenth Century  
HY 479 Europe in the Twentieth Century  

One course from the following:  
PSC 260 International Relations  
PSC 342 Western European Governments  
PSC 344 Eastern European Governments  
PSC 346 Third World Systems  
PSC 348 Asian Governments  

Total 18 hrs.

*These courses may be counted as part of the general education requirements where appropriate.

Programs Involving Teacher Education/Certification

A student majoring in elementary education may utilize French, German, Russian or Spanish for a cognate area (second area of study). The cognate area in foreign languages will total 27 hours and must include 15 hours of courses 300-level or above, 3 hours of which must be a survey of literature course and 3 hours which must be a 400-level course. A student seeking certification in Middle/Junior High School Education or High School Education who wishes to have a single teaching field in French, German, Russian or Spanish must conform to the requirements of a language major. For a second teaching field, a student needs 30 hours including one 400-level course. In teacher education/certification programs students are advised to seek help from a faculty advisor from the Department of Foreign Languages and Literatures for the selection and approval of courses. Students are also advised to see total degree requirements under the Education section of the catalog.

Foreign Languages & Literatures (FLL)

450 Comparative Cultures and Literatures  
3 hrs.  
Comparative study of literary texts crosses borders and boundaries, drawing upon more than one linguistic or national tradition. This pluralistic approach opens new critical perspectives. Through reading, lecture and discussion, the student comes to understand more profoundly such contemporary issues as identity, difference, genre, period, the sacred and the profane, tradition and modernity in two or more literatures. Conducted in English.

French (FH)

101 Elementary French I  
Lab Fee: $30.  
3 hrs.

102 Elementary French II  
Lab Fee: $30. Prerequisite: FH 101 or placement.  
3 hrs.

201 Intermediate French I  
Lab Fee: $30. Prerequisite: FH 102 or placement.  
3 hrs.

202 Intermediate French II  
Lab Fee: $30. Prerequisite: FH 201 or placement.  
3 hrs.

301 French Conversation  
Oral drills, pronunciation exercises, and oral reports. Prerequisite: FH 202, or approval of instructor.  
3 hrs.
302 Advanced French Composition 3 hrs.
Composition with emphasis on grammar review and idiomatic expression. Prerequisite: FH 202, or approval of instructor.

303 French for Business and Professions 3 hrs.
Reading and translation of materials, documents, and forms pertinent to commerce and professions. Prerequisite: FH 202 or approval of instructor.

304 French Culture: Identity, Difference, Mentalités 3 hrs.
What does it mean to “be French?” How does this determination change, according to what pressures and thought processes? Prerequisite: FH 202.

305 Survey of French Literature I: Middle Ages, Renaissance, Revolution 3 hrs.
Historical origins, flowering and proliferation of writing in French from Saint Eulalie to the Terror. Prerequisite: FH 301, 302, or approval of instructor.

306 Survey of French Literature II: Romanticism, Realism, Surrealism 3 hrs.
Advent and explosion of pre-eminently modern modes of expression, considered chronologically. Prerequisite: FH 301, 302, or approval of instructor.

403 Texts and Contexts 3 hrs.
Problems in periodization and interpretation. Relations between individual works, French society and historical tensions in one of four areas, offered on a rotating basis: Middle Ages, the ancien régime, Philosophical Enlightenment, or Modernism and the emergence of post-modern modes. Prerequisite: FH 305, 306, or approval of instructor.

404 Genres and Anti-Genres 3 hrs.
Pursues the emergence, proliferation and transformation of literary forms in cultural representation. Topics include: epic and lyric, tragedy and comedy, essay, philosophical dialogue, novel, conte fantastique, romantic drama, prose poem, automatic writing, and narrative film. Prerequisite: FH 305, 306, or approval of instructor.

405 Author and Culture 3 hrs.
Close reading of works by one or two authors (on rotating basis) in the context of French history, individual psychology and social upheaval. Problems of authorship, authority, ethics, and mastery will organize reading and discussion. Prerequisite: FH 305, 306, or approval of instructor.

406 Paris and the Mirror of History 3 hrs.
Advanced course in French cultural practices and mythography explores models for understanding French mentalités based on the history of the city: its origins, institutions, architecture, morphology and literary vision of the urban group and its component individuals. Prerequisite: FH 305, 306, or approval of instructor.

407 Topics in Modern Theory 3 hrs.
Introduction to major issues in French theory in relation to the development of the human sciences. From the first theoretician of modernity (Baudelaire) to Structuralist anthropology and its precursors (Durkheim, Saussure, Levi-Strauss) to Existentialism and such post-Structuralist figures as Foucault, Derrida, Lacan, Cixous, Lyotard, and Girard. Prerequisite: FH 305, 306, or approval of instructor.

409 Gender and Representation 3 hrs.
Women authors, philosophers, and reformers studied in relation to ideologies of sexuality and social justice. Aspects of women's images and self-fashioning from Marie de France to contemporary feminism, including modern media. Prerequisite: FH 305, 306, or approval of instructor.

410 Practicum 3 hrs.
Student oral presentations, guest speakers, periodicals and brochures are utilized for instructional purposes. Prerequisite: FH 303 or approval of instructor.

Spanish and Spanish American literature, concentrating on a specific author, theme, period, genre, or country. Topics will vary and be announced in advance. Prerequisite: One of SH 305,306,307,308, or approval of instructor.

499 Independent Studies 1-3 hrs.
Prerequisite: approval of department chair.

Health and Physical Education Program

Activity Courses
Fitness, active participation, and good health habits are essential in modern society. Through health and physical education courses (HPE 100 through 199), the student has the opportunity to improve fitness, learn skills, and participate in a variety of activities, as well as gaining a conceptual knowledge of healthful practices. These courses carry one or two semester hours credit, and no more than six hours may be counted toward graduation. A varsity athlete will not receive credit counting toward graduation when enrolled in a regular activity course in that sport. Courses may not be repeated for credit except for varsity sports credit. Grades of satisfactory (S) or unsatisfactory (U) are given, based primarily on a student's improvement in skill rather than on the level of ability.

Professional Training Courses
These courses (HPE 200 through 500) provide professional training in aspects of health, physical education or related fields. Many of these courses meet certification standards with certificates awarded upon satisfactory completion. They require both skills and academic training. Normal letter grades (A through F) and other academic standards apply to such courses.

Health and Physical Education (HPE)

Activity Courses
100 Fitness Enhancement. Lab Fee: $10. 1 hr.
101 Slimnastics. Lab Fee: $10. 1 hr.
102 Aerobic Dance I. Lab Fee: $10. 2 hrs.
103 Jogging for Fitness and Weight Control. Lab Fee: $10. 1 hr.

Professional Courses

210 Basketball Officiating 2 hrs.
Techniques, mechanics, and rules involved in officiating basketball for certification as an Alabama high school official. Experience and skill necessary to officiate basketball on elementary, secondary, and recreational levels.

211 Football Officiating 2 hrs.
Techniques, mechanics, and rules involved in officiating football for certification as an Alabama high school official. Experience and skills necessary to officiate football on elementary, secondary, and recreational levels.

212 Baseball and Softball Officiating 2 hrs.
Baseball and softball officiating techniques, mechanics, and rules for certification as an Alabama high school baseball official and an Amateur Softball Association umpire. Experience and skills necessary to officiate baseball and softball on various interscholastic and recreational levels.

213 Soccer Officiating 2 hrs.
Techniques, mechanics, and rules involved in the officiating of soccer. Experience and skills necessary to officiate soccer on elementary, secondary, and recreational levels. Lab Fee: $10.

220 Scuba 2 hrs.
Basic skills, theories, techniques, and fundamentals of scuba-diving introduced, practiced, and refined. Open water diving. Scuba certification upon successful completion of course. Prerequisite: Instructor approval. Lab Fee: $110.

221 Advanced Scuba 1 hr.
Lecture and dives necessary to earn a YMCA-Silver Star Water Rating. Lab Fee: $110.

223 Lifeguard Training 2 hrs.
Certification as a Red Cross approved lifeguard upon successful completion of classroom and in-water instruction and testing. Lab Fee: $60
224 Water Safety Instructor 3 hrs.  
Techniques for teaching infant and pre-school aquatics. Red Cross Learn to Swim Program, Basic Water and Emergency Water Safety courses. Includes pre-test and instructor candidate training course. Lab Fee: $60.

269 Private Pilot Ground School 3 hrs.  
Prepares student for FAA Private Pilot written examination. Provides student with necessary knowledge to progress into primary pilot flight training. Kit must be purchased.

279 Instrument Flying: Ground School 3 hrs.  
Provides student with knowledge needed for instrument flight instruction air training. Prepares student for FAA Instrument Flying Examination. Prerequisite: FAA Private Pilot Rating. Kit must be purchased.

280 History and Principles of Physical Education 3 hrs.  

290 Beginning Athletic Training 3 hrs.  
Knowledge and techniques necessary to prevent and/or care for the common athletic injuries. For coaches, athletes, parents and those working in recreation, physical education, or athletics. Lab Fee: $20.

291 CPR Instructor 1 hr.  
Basic techniques cardiopulmonary resuscitation, and methods of teaching these skills to others. An American Heart Association certificate is awarded. Lab Fee: $30.

294 Contemporary Nutrition for Today’s Lifestyle 1 hr.  

299 Field Work in Athletics, Physical Education, or Leisure Services 2 hrs.  
Planned supervised 80-hour work experience with a physical education, athletic, or leisure service program. Written reports, a major project, and final oral report are required. Lab Fee: $10.

390 Advanced Athletic Training 3 hrs.  
Advanced studies in the profession of sports medicine. Topics include care and prevention of injury, legal concerns, administration of sports medicine, and physiology of injury and exercise. Lab Fee: $10.

500 Boating Safety 3 hrs.  
Techniques for teaching boating safety to elementary and secondary students. The Alabama Better Boating Home-Study Course, The Alabama Young Boatmen’s Program, and water skiing safety will be stressed. Instructor’s rating in boating safety will be awarded upon successful completion. Lab Fee: $10.

History Department
Professors Boucher, Dunar (Chair), Ellis, Gerberding, Shields, Williams; Professor Emerita Roberts; Professor Emerita C. White; Professor Emeritus J. White; Associate Professors Severn, Waring; Associate Professor Emerita Parker; Assistant Professor Martin.

The Department of History offers the B.A. and M.A. degrees in history, and a minor in history. The M.A. degree program is described in the Graduate Catalog.

History Major
A student majoring in history must include in the academic program a minimum of 33 semester hours in history beyond HY 101-102 (GER). The U.S. survey courses, HY 221-222
are required. A student is required to take an additional 3 semester hours of sophomore work, but may take no more than a total of 12 semester hours in 200 level work including HY 221-222. A history major must take a minimum of 21 semester hours in courses numbered 300 or above; 9 semester hours must be 400-level courses, and must include HY 490. A history major is required to take a minimum of 6 semester hours in American history beyond HY 221 and 222 and a minimum of 6 semester hours in non-American history excluding HY 101-102 (GER). Students are encouraged to complete as many upper division courses as possible before enrolling in HY 490.

History students may also pursue an already approved and published composite major such as the Slavic Area Studies Program. As currently established, a composite major consists of a minimum of 36 semester hours, 24 of which must be upper division. In the Slavic Area Studies Program, history contributes six courses including HY 101-102 (GER), four of which must be upper division and include HY 490.

A student majoring in history will find a variety of programs of study enabling one to develop depth and breadth in history and some related areas from the other humanities, the social sciences, mathematics, and the natural sciences. Counseling is available in the History Department for programs of study including the following: graduate school preparation, general, preprofessional and prelaw preparation, international studies, secondary school teaching, and the fine arts. A student who wishes to plan an individual program of study can do so through a history advisor and with the coordination of the department chair.

History Minor
A student interested in establishing a history minor should include appropriate history courses involving a minimum of 21 semester hours beyond HY 101-102 (GER) and including 12 semester hours in courses numbered 300 or above. The minor program must have the approval of the History Department Chair. Appropriate history courses may also form a part of an area of cognate studies with other disciplines to support another major program. Such a program must be approved by the student's major department and must meet the requirement of a minimum of 12 upper division semester hours, of which 9 hours must be in history.

History for Second Area of Study
Students majoring in elementary education may select history as their second area of study (cognate). Major requirements can be found in the Education section of the catalog. Preliminary counseling is available in the Department of Education.

Advanced Placement Credit
Elective credit will be given to AP American History students who have earned a score of 4 on Advanced Placement (AP) Program examinations of the College Entrance Examination Board. This credit may be used in substitution for HY 221 and HY 222 at UAH. Under no circumstances may AP American History be used as a substitute for HY 101 and/or HY 102. Credit for the AP European History course (1470-Present) will be awarded to students who earn a score of 4 on the AP examination, and this credit may be used as a substitute for HY 102 only. A maximum of 3 hours credit will be granted for this examination. In order to fulfill GER requirements, such students will still have to take HY 101 or its equivalent as approved by the department.

Transfer Credit
Only in exceptional circumstances will the History Department accept transfer credit for non-interactive telecommunications courses or correspondence courses in HY 101, 102, 221, or 222. Students who wish to receive such credit should petition the department chair.

CLEP/Departmental Examination Credit
A student who makes a B or better on the CLEP examination for Western Civilization (HY 101 and/or HY 102) or U.S. History (HY 221 and/or HY 222) may petition the History
Department requesting an essay examination on the subject for which credit is desired. The petition will not be reviewed until a satisfactory CLEP score has been reported. After consultation with a faculty member designated by the department chair, the student may take an essay examination. If he or she also receives B or better on the essay, credit will be granted for the appropriate course(s).

History (HY)

101 Origins and Development of the Contemporary World, Part I 3 hrs. Major western civilizations to 1500. Taught every semester.

102 Origins and Development of the Contemporary World, Part II 3 hrs. Major western civilizations since 1500. Taught every semester.

Courses below are open to all students other than beginning freshmen, with exceptions as indicated.

202 Current World Issues in History 3 hrs. Selected topics in world history during the twentieth century designed to foster a historical awareness of present day problems.

221 The United States to 1877 3 hrs. Discovery of America through the Civil War and Reconstruction.

222 The United States Since 1877 3 hrs. United States from the end of the Civil War era to the present.

225 History of Alabama 3 hrs. The state’s past from colonial times to the present with emphasis on its place in United States history.

229 Survey of Ancient Times 3 hrs. Ancient Near East, Greece, and Rome. Prerequisites: HY 101-102 or approval of instructor.

230 The Rise of Medieval Civilizations 3 hrs. Survey of the origins and development of medieval society in the West, with attention also given to Byzantium and the Islamic world, as well as to the Latin west. Prerequisites: HY 101 and 102 or permission of instructor.

Courses listed below are open to students who have completed 9 semester hours in history or have junior standing.

318 Constitutional History of the United States 3 hrs. Growth and development of the American constitutional system with emphasis on those aspects which relate to the fundamental structure of American government and social order.

326 Colonial America 3 hrs. Political, social, economic, and religious developments in the North American colonies, 1607-1783.

329 Imperial Rome 3 hrs. Roman Empire from the Principate to the barbarian invasions.

341 Modern France 3 hrs. Political, economic, social, and cultural developments from the opening of the reign of Louis XIV to the post-de Gaulle era of the Fifth Republic. Prerequisites: HY 101-102.

343 Modern Germany 3 hrs. German history from mid-nineteenth century to the present, emphasizing the connections between Germany’s internal politics and its role in international affairs. Includes reunification and its consequences.
347 English History to 1660 3 hrs.
English history and society from Anglo-Saxon times to the Restoration with attention to the origins and evolution of governmental and legal institutions such as monarchy, common law, parliament, and the judiciary. Prerequisites: HY 101 and 102.

348 English History since 1660 3 hrs.
Impact of revolution, industrialization and war on English society, the expansion of English liberties, and the development of the cabinet, political parties, the empire and the welfare state. Prerequisites: HY 101 and 102.

364 The Westward Movement in American History since 1803 3 hrs.
Pioneering society, Indian relations, land policies, expansion, and politics of the trans-Mississippi frontier.

365 American Labor History 3 hrs.
American working class life from colonial times but concentrating on post-Civil War topics.

366 African-Americans in Twentieth Century America 3 hrs.
Interrelationship of the African-American and the industrial-urban environment of the United States.

369 Social and Cultural History of the United States to 1865 3 hrs.
Major themes in the development of American culture and society from the colonial period to the Civil War era.

370 Social and Cultural History of the United States since 1865 3 hrs.
Major themes in American culture and society since the Civil War.

373 Foreign Relations of the U. S. to 1920 3 hrs.
American foreign relations from the Revolutionary era through World War I. American territorial and commercial expansion, imperialism, and emergence as a world power.

374 Foreign Relations of the U. S. since 1920 3 hrs.
United States as a world power. American involvement in World War II, Vietnam, and the Cold War, and the growth of American presence in Asia, Latin America, and the Middle East.

375 Imperial Russia 3 hrs.
Survey of the social, political, and cultural history of Russia under the Romanov Dynasty from 1689 to 1917. Particular attention is paid to state-society relations periods of reform and counter-reform and the growth of Russia as a multi-ethnic empire.

376 Soviet and Post-Soviet Russia 3 hrs.
Russian history from the collapse of autocracy to the collapse of communism with special emphasis on the revolutions of 1917, the formation and evolution of the Soviet state in the 1920s and 30s, and the successes and failures of the post-1945 era. Prerequisites: HY 101 and 102.

391 Europe, 1500-1815 3 hrs.
Examination of the economic, scientific, social, political, and cultural developments in Europe from the Renaissance to the close of the Napoleonic Wars.

392 Europe Since 1815 3 hrs.
Europe from the end of the Napoleonic Wars to the present with equal emphasis on the nineteenth and twentieth centuries.

399 Special Topics in History 3 hrs.
Intensive examination of particular problems, periods, or topics in history. Courses listed below are open to students who have completed 12 semester hours in history or 12 semester hours in history with senior standing.
413 The Old South 3 hrs.
Southern society, economics, politics and culture concentrating on the nineteenth century south through Reconstruction.

414 The New South 3 hrs.
Post-reconstruction South emphasizing the economic, social, and political readjustments made during the twentieth century.

424 The Atlantic World 3 hrs.
Comparative survey of the western European colonial empires from 1450 to 1763, emphasizing the cultural interactions of African, Amerindian and European peoples in the Americas. This course meets the requirements for either American or non-American credit in the history major.

427 The Age of the American Revolution 3 hrs.
Politics, society, economy, culture, and international conflicts from 1754 through the Revolutionary War to 1815.

428 The Republic in Crisis 3 hrs.
Political, social, and economic changes in the United States and its sections from 1815 through the Civil War and Reconstruction.

437 The Rise of Modern America 3 hrs.
Economic and social changes, imperialism, and the growth in government in the United States from 1877 to the 1920s.

438 Modern America 3 hrs.
American society, politics, economics, and foreign affairs from the end of World War I to the origins of the Cold War.

439 Recent America 3 hrs.
Contemporary America from the 1950s to the present, analyzing both domestic and foreign affairs.

473 The High Middle Ages 3 hrs.
Political, economic, and cultural features of Europe when medieval civilization was at its height.

474 The Renaissance and Reformation 3 hrs.
Selected topics in the Italian Renaissance and European Reformation.

475 Crisis in Europe, 1560-1660 3 hrs.
Europe in an age of anxiety, religious wars, political upheaval, witch-hunts, and the early scientific revolution.

476 Absolutism and Enlightenment, 1660-1763 3 hrs.
Europe from Louis XIV to the Peace of Paris, an age of political stability and intellectual innovation.

477 The French Revolution and Napoleon 3 hrs.
European ideas, institutions, and events from the beginning of the French Revolution to the demise of the Napoleonic Empire.

478 Europe in the Nineteenth Century 3 hrs.
Major political, social, economic, and intellectual developments in Europe from the Congress of Vienna to World War I.

479 Europe in the Twentieth Century 3 hrs.
Major developments in Europe from 1914 to the present, including the two World Wars and post-war reconstruction.

490 Research Seminar in History 3 hrs.
Historiography, research and writing, and recent interpretations in the field of history. Required of all history majors. Taught once annually.
Music Department
Professor Emeritus Pales; Professor Boyer; Associate Professor Graves (chair), Sanders; Assistant Professors Hutson, McDuffie, Sneed.

The Department of Music seeks, as one of its principal goals, to provide for music majors a program of superior quality, one which will enable students to begin their musical careers upon graduation, or to pursue studies at the graduate level. It will also be a suitable program of study for those who have not established specific professional aspirations, but who desire the benefits of a broad liberal arts education.

The curriculum for music majors is designed to provide students with knowledge of their musical heritage and the great masterworks of music literature, a foundation in theoretical studies and musicianship skills sufficient to allow them to interact with music in an intelligent and competent way, and performance experiences which develop musical skills and artistic sensitivity. Additional curricular offerings provide music education students with knowledge of the appropriate materials, teaching strategies and organizational skills necessary to become successful music educators.

All the department’s programs are strongly based in the liberal arts, in the belief that a broad general education is an appropriate preparation for both the well-rounded musician and the educated individual.

Courses for the General Student (Non-Music Majors)
The following courses and ensembles are open to all university students; many require little or no musical experience. Upper-level credit is available for some courses. Students may also receive studio instruction (private lessons) in voice and in nearly every musical instrument.

- **MU 100** Introduction to Music Literature
- **MU 101** Introduction to Music Theory
- **MUE 215** Music for the Young Child
- **MU 310** American Music
- **MU 410** Music in Western Civilization
- **MUA 190/390** UAH Choir
- **MUA 199/399** UAH Wind Ensemble

Music Major
The major in music, with emphasis in either performance, church music, or music literature, is a degree program of 134 credit hours. To minimize degree hours, a music major should choose a minor from the disciplines represented in the GER. Students with dual interests and abilities will find many opportunities for combining the music major with other disciplines.

Music Education Major
The major in music education is a 152 credit hour degree program built upon a broad liberal arts base. The course of study integrates music and professional education courses to develop a superior music teacher, certified to teach at all levels N-12 (Class B Professional Teacher’s Certificate) with strength in either vocal or instrumental music. Students must demonstrate throughout their course of study competencies in both performance and teaching. Because of the demands of this program, there is little opportunity to elect courses other than those required and outlined below. With additional study of the principal instrument and a senior recital performance, music education students are eligible to receive a special performance certificate. Faculty approval is required.

Bachelor of Arts in Music and Music Education
Students wishing to pursue a music major should have pre-college training in their principal performing instrument or voice and have ability to read music fluently. Basic keyboard ability is helpful but not mandatory.
Entering freshmen and transferring students are required to take a placement examination in rudiments (scales, keys, intervals, triads, general notation), music reading and performance (principal instrument or voice). Deficiencies may be removed through remedial instruction.

I. General Education Requirement 66-72 hrs.

GER for the B.A. degree are listed in earlier in this section. The student should include MU 100 to fulfill the fine arts option. Music education students must include ED 230, ED 263, ED 510 and at least one course in both economics and political science for the social science requirement; other music majors should choose at least one course in philosophy. Music education students must also include three hours of HPE courses (including HPE 294 and two activity courses), and should fulfill the upper division Humanities/Fine Arts requirement with MU 312.

II. Major (select A or B)

A. Music

Music Education

MUE 200 Introduction to Music Teaching ................................. 1
( Equivalent to ED 200)
MUE 326 Teaching General Music in Elementary Schools ............. 3
MUE 327 Teaching General Music in Secondary Schools ............. 3
MUE 428 Vocal/Choral Methods .................................................. 2
MUE 429 Organizing and Directing Instrumental Groups in Secondary Schools .................. 2

Professional Education

ED 230 Human Development (GER) ........................................... 3
ED 261 Foundations of Education in U.S .................................... 3
ED 263 Educational Psychology (GER) ....................................... 3
ED 300 Group Processes .............................................................. 2
ED 408 Teaching Reading in the Secondary School .................. 3
ED 410 Foundations of Educational Evaluation (GER) ......... 3
ED 490 Principles of High School Teaching .............................. 1
ED 499 N-12 Internship******............................................... 9
ED 593 Education of Exceptional Children and Youth ................. 3

* Students electing the music literature or church music emphasis will be limited to 8 hours rather than 12 hours of studio instruction. Four hours of appropriate upper-level music literature and history courses replace studio work. For the church music emphasis, this 4 hours will include MU 415, MUE 428, and MU 412. MU 315 replaces MU 311 in the church music program. Other special projects replace junior and senior recitals.

** All or part of the secondary requirement may be satisfied by examination. In the church music emphasis, some organ study may be substituted for piano.

*** Students must complete a minimum of 8 terms of small or large ensemble experiences; however, a maximum of 4 hours may count towards the degree (8 in the music education emphasis).

**** Students must pass a piano competency examination before internship. ED 490 must be taken concurrently with internship.

Music Minor

Students may select music as a supportive minor to their major discipline. Generally 24 hours of music are necessary (12 hours upper-level), including the following courses:

MUA 1-1/1-4 Studio Instruction ........................................... 4
MU 201, 202, 301 Theory-Harmony ...................................... 9
MU 203, 204, 303 Musicianship Skills .................................... 3
MU 100 Introduction to Music Literature (include in GER) .... 3
MU 312 History of Music II .................................................... 3
Ensemble (300 level) ............................................................ 5

Music for Second Area of Study

Students majoring in elementary education may select music as their second area of study. See major requirements in Education section. Twenty-four hours in music are required:

MU 201, 202 Theory of Music ................................................. 6
MU 203, 204 Musicianship Skills ............................................ 2
MU 100 Introduction to Music Literature .................................. 3
MU 310 American Music ......................................................... 3
MU 312 Music History II .......................................................... 3
MUE 326 Teaching Gen. Music in Elementary School ............ 3
(Replacement for MUE 215 in the GER)
Ensembles (at 300 level) ...................................................... 4

</table>
416 Orchestration
2 hrs.
Instruments of the band and orchestra, their ranges, transpositions, and capabilities. Practical experience in arranging for instruments. Prerequisite: MU 302.

420 Piano Literature
2 hrs.
Music for string keyboard instruments from the pre-pianoforte period to the present. Representative works from all periods. Prerequisites: MU 302, 304, 312 or approval of instructor.

425 Advanced Conducting
2 hrs.
Review of basic conducting patterns. Emphasis on communication as the role of the conductor. Detailed score preparation. Prerequisite: MU 325.

510 Concert Band Literature and Conducting Critique
3 hrs.
Literature for concert band and wind ensemble. Variety of music (type, style, and difficulty) as well as in-depth study of a few scores by each student for critiques of rehearsal and conducting techniques. Prerequisite: MU 425; or approval of instructor.

511 Master Class in Piano Literature and Pedagogy
2 hrs.
Topic of course varies. Examination of selected forms.

Studio Instruction In Vocal and Instrumental Music (MUA)
Students must fill out a “Request for Studio Instruction” card in the Music Department prior to each semester they are enrolled. Transfer students who plan to take studio instruction for music credit must demonstrate their level of proficiency to the instructor before registration. Instruction varies from 30 to 50 minutes weekly.

Generally, students not intending to major in music should enroll in MUA 111, 121, 131, 141, 151, 161, 171, or 181; however, advanced students may enroll in MUA 211, 221, etc., with permission of the instructor. A special studio instruction fee is charged (see Fees). Students enrolled in studio music at the 100 level should enroll for the subsequent number each semester, i.e. 111-112-113-114, etc.

For those students enrolled at the 200 and 400 levels, advancement to the next level of studio instruction (i.e. from 231 to 232 or 242 to 243) is based on performance before a faculty jury. The jury may retain students at any level until proper achievement is reached for advancement or completion of degree performance competencies. The instructor’s grade may be raised or lowered one letter to reflect jury performance. Non-majors may enroll in studio instruction as long as the instructor agrees that satisfactory progress is made; no jury is necessary.

Students taking studio instruction must attend performances, the monthly student recital program and special performance classes. A student may be excused only with written permission of the department chair. As a part of studio instruction, students enrolled as full-time music majors must attend at least eight approved concerts a semester; other enrolled students must attend three. Prerequisites for each studio course include approval of the instructor and the previous level of instruction.

Numbering System. Courses which have numbers beginning with 2 or 4 are generally for music majors’ principal instrument, although other advanced students may enroll for these courses through departmental audition. Courses beginning with 1 are for non-majors, minors and music majors’ secondary instrument.

111-119 Studio Instruction in Voice
1 hr.
For non-music majors, music minors, and music majors’ secondary instrument. Studio instruction fee: $70.

211-219, 411-419 Studio Instruction in Voice
1.5 hr.
For music majors’ principal instrument. Studio instruction fee: $90.

121-129 Studio Instruction in Organ
1 hr.
For non-music majors, music minors, and music majors’ secondary instrument. Studio instruction fee: $70.

</tbody>
</table>
Ensembles (MUA)

The UAH music ensembles are open to all students; some ensembles require an audition. Ensemble participation is essential for all music majors and minors, and an appropriate ensemble must be selected each semester a student is enrolled for degree requirements. A maximum of 6 semester hours in ensemble courses (MUA 190-199, 390-399) may be applied as credit toward total degree requirements in any discipline except music education, where the maximum is 8 hours. Students may continue to enroll, however, and repeatedly participate in ensembles throughout their university career. Only students who have held membership in an ensemble for four semesters should enroll in 300-level instruction. Through audition students may receive upper-level credit after three semesters of membership.

190, 390 UAH Choir 1 hr.
Mixed voices singing the serious choral repertoire. Open to all students by audition. Required attendance at rehearsals and performances.

191, 391 Chamber Choir 1 hr.
Solo-ensemble performance specializing in early and contemporary music.

192 Tenor-Bass Chorale 1 hr.
The Tenor-Bass Chorale is the only non-auditioned choir at UAH. It also is an essential component of the comprehensive choral program. This ensemble will provide additional performance opportunities for music majors and non-music majors.

195, 395 Huntsville Symphony Orchestra 1 hr.
An orchestra of seventy-five players with international guest artists. Performance of major symphonic, operatic, and choral literature. By audition with the conductor. Required attendance at rehearsals and performances.

196, 396 Chamber Ensembles 1 hr.
Discussion, evaluation and performance of literature available for selected small ensembles. Piano trios, quartets, quintets, string quartets, woodwind, brass, percussion and vocal ensembles. Prerequisite: Approval of instructor.

198, 398 Jazz Ensemble 1 hr.
Open to all students with the permission of the director. Provides the participant with opportunities to perform a wide variety of jazz styles in varied settings. Individual instruction in arranging and composition available. Required attendance at rehearsals and performances.

199, 399 UAH Wind Ensemble 1 hr.
Preparation of the finest literature for wind ensemble and concert band. Open to all students by audition with the conductor. Required attendance at rehearsals and performances.

Music Education (MUE)

200 Introduction to Music Teaching 1 hr.
Designed to explore and provide answers to the following questions: What is music teaching? What abilities should a music teacher possess in order to be successful? Who are the students who will be taught? What comprises a music curriculum? Intended for music education majors as a substitute for ED 200 (Introduction to Teaching).

215 Music for the Young Child 3 hrs.
For elementary and special education teachers, recreational therapists, church school, or prospective teachers not trained in music. Preparation to teach children ages 3-12 through experience in singing, reading, planning, and presentation. Elementary education majors using music as their second area of study must select MUE 326 rather than MUE 215 for their GER.
326 Teaching General Music in Elementary Schools 3 hrs.
Materials and methods. Emphasis on developing teaching competencies. Prerequisites: MU 302, MUE 200 or permission of instructor.

327 Teaching General Music in Secondary Schools 3 hrs.
Materials and methods. Emphasis on developing teaching competencies. Prerequisites: MU 302, MUE 200 or permission of instructor.

428 Vocal/Choral Methods for Secondary Schools 2 hrs.
Includes basic principles of breathing, posture, and resonance. Diction guidelines for Latin, Italian, German, and French; repertoire for both vocal and choral students; organizational methods for leading choral programs; rehearsal techniques; classroom management skills. Prerequisites: MUE 326, 327, MU 425, or permission of instructor.

429 Organizing and Directing Instrumental Groups in Secondary School 2 hrs.
Repertoire, procedures for administering and teaching school bands, orchestras and instrumental ensembles. Prerequisites: MUE 326, 327, 425 or permission of instructor.

520 Arts in the Elementary School Curriculum 3 hrs.
Interdisciplinary approach to teaching the arts in elementary school, including music, movement, theater, and the visual arts. Practical experiences in playing instruments (percussion), moving, drawing, creating, singing, working in clay, play-acting and pantomime. Methodology for integrating the arts through active participation.

521 Philosophical Principles of Music Education 3 hrs.
Philosophical base of music education, its justification in the public school curriculum, and criteria for determining its objectives. Application of aesthetic theory to analysis and evaluation of music.

Philosophy Department
Professor Martine (Chair); Associate Professors Cling, Rochowiak; Assistant Professors Campbell, Hanks, Stegemoeller.

The world of ordinary experience is founded upon a great number of presuppositions about the nature and extent of knowledge, the character of reality, and the foundations of value. These interconnected presuppositions, though seldom exposed to critical reflection, form the basis for our judgments and actions in every area of human concern. The essential task of philosophy is to move beyond an uncritical acceptance of these presuppositions toward a reflective appraisal of the effect they have upon one's understanding of self and the world around one. By examining traditional philosophical positions as well as the ideas of influential contemporary thinkers, courses in philosophy offer students the opportunity to develop informed and responsible positions of their own.

Philosophy Major
Students majoring in philosophy must complete a minimum of 30 semester hours in philosophy with at least 21 hours at the 300-level or above. The following courses are required of all philosophy majors: PHL 201, 202, 301, 302, 395, and at least one course at the 400-level. Philosophy majors must also complete a minor consisting of a minimum of 18 hours in a single discipline (with other requirements as specified by the minor department) or a minimum of 21 semester hours in a cognate area of closely related courses approved by the Philosophy Department, with 12 of these hours at the 300-level or above.

Philosophy Minor
Students minoring in philosophy must complete at least 21 semester hours in philosophy including PHL 201 and 202. Recommendations concerning which courses might best complement a student's major and related interests are available from the philosophy faculty upon request. Appropriate philosophy courses may also be used as part of a program of cognate stud-
ies with other disciplines. Such a program must include at least 12 semester hours in courses numbered 300 or above.

Philosophy (PHL)

101  Being, Knowledge, and Value  3 hrs.
 Introduction to philosophical reflection focusing upon central problems in each of the major branches of the western tradition: metaphysics, epistemology and axiology.

201  Introduction to Logic  3 hrs.
 Methodology of correct formal and informal reasoning.

202  Introduction to Ethics  3 hrs.
 Major ethical positions in both classical and modern thought.

301  Ancient Philosophy  3 hrs.
 Survey of classical philosophy from the Pre-Socratics through Aristotle. Prerequisite: PHL 101 or permission of instructor.

302  Modern Philosophy  3 hrs.
 Survey of the British and Continental traditions from Descartes through Kant. Prerequisite: PHL 101 or permission of instructor.

303  Contemporary Philosophy  3 hrs.
 Examination of some of the most important trends in late nineteenth and twentieth century thought. Prerequisite: PHL 101 or permission of instructor.

310  Philosophy of Art  3 hrs.
 Major aesthetic theories of the western tradition, with emphasis on the relation between artistic and discursive expression. Prerequisite: PHL 101 or permission of instructor.

311  Philosophy of Science  3 hrs.
 Critical assessment of the historical and logical foundations of the natural and theoretical sciences. Prerequisite: PHL 101 or permission of instructor.

312  American Philosophy  3 hrs.
 Survey of American thought with emphasis upon the development of pragmatism in the work of Peirce, James, and Dewey. Prerequisite: PHL 101 or permission of instructor.

314  Philosophy of Eastern and Western Religions  3 hrs.
 Philosophical examination of eastern and western religious thought. Central tenets of some of the following traditions will be discussed: Buddhism, Christianity, Confucianism, Hinduism, Islam, Judaism, Taoism. Topics include: the roles of reason and faith in the religious life, proofs for the existence of God, the nature of God or the Absolute, mysticism, religious accounts of human nature or the self. Prerequisite: PHL 101 or permission of instructor.

320  Symbolic Logic  3 hrs.
 Symbolic deductive logic, including propositional calculus (truth-functional logic), predicate calculus (propositional functions and quantification), and the logic of relations. Prerequisite: PHL 201.

330  Classical Political Philosophy  3 hrs.
 (Formerly PHL 316) Careful analysis of the roots of political inquiry in selected works of ancient and medieval political philosophers such as Socrates, Plato, Aristotle, Cicero, Augustine and Aquinas. Major themes include the search for the just social order, the proper relationship between the citizen and the state, and other fundamental concepts of western political institutions. (Same as PSC 330).

332  Modern Political Philosophy  3 hrs.
 (Formerly PHL 317) Critical examination of the philosophical foundations for modern politics that emerged from the 15th through the 19th century in western Europe. Major
themes and theorists include the concepts of individual rights, property, representation, majority rule, limited government, and revolution discussed in selected writings of Machiavelli, Hobbes, Locke, Rousseau, and J.S. Mill among others. (Same as PSC 332).

385 **Selected Topics in the History of Philosophy**  
3 hrs.  
Intensive examination of particular problems, periods, or movements in the history of philosophy. Prerequisite: Determination in accordance with course content.

392 **Engineering Ethics and Professional Behavior**  
3 hrs.  
Examination of ethical aspects of decisions made by engineers, including consideration both of the kinds of professional and organizational situations confronting the engineer and philosophical bases of choosing and evaluation.

395 **Junior Research Seminar**  
3 hrs.  
Intensive examination of selected topics leading to the preparation of a substantial philosophical paper. Required of all majors. May be taken twice for credit. Prerequisites: 6 hours of PHL not including PHL 201.

399 **Directed Study in Philosophy**  
1-3 hrs.  
Independent study in an area of philosophy selected in consultation with faculty advisor. Prerequisite: Approval of department chair.

401 **Metaphysics**  
3 hrs.  
Critical examination of traditional and contemporary responses to questions about the nature of reality, the relation between determinate and indeterminate being, being and becoming, the infinite and the finite. Prerequisite: 6 hours of PHL not including PHL 201.

402 **Epistemology**  
3 hrs.  
Investigation of fundamental problems of knowledge such as the relation of knowledge and belief, truth, certainty and skepticism, perception, logic, explanation, and justification. Prerequisite: 6 hours of PHL not including PHL 201.

403 **Advanced Moral Philosophy**  
3 hrs.  
Critical examination of significant works in moral and political philosophy focusing on such issues as the relationship between morality and human nature, the individual and the state, and the consequences of actions. Prerequisites: 6 hours of PHL not including PHL 201.

**Political Science Department**

Professors Meek, Spitz (Chair); Associate Professors MacDougall, Pottenger, Williams; Assistant Professor Reeves; Adjunct Assistant Professors Moorman, Schumann.

The Department of Political Science offers the Bachelor of Arts in political science and the Master of Arts in public affairs.

**General Education Requirements**

PSC 101 (American Government) and/or PSC 102 (Introduction to Comparative Government) are the two courses to be used to fulfill General Education Requirements (GER) for non-majors. Political science majors must include AHS 300 (Statistical Analysis) in their GER.

**Political Science Major**

Students wishing to major in political science must complete a minimum of 36 semester hours in political science, including:

- PSC 101 - American Government
- PSC 102 - Introduction to Comparative Government
- PSC 260 - Introduction to International Relations
PSC 330 - Classical Political Philosophy or
PSC 332 - Modern Political Philosophy
PSC 484 - Senior Seminar in Political Science (during the junior or senior year)

Students must also take AHS 300 - Statistical Analysis, but may not count these hours toward the required 36. In addition to the 15 hours of required courses, students must take at least one course from any three of the following five sub-fields of political science:

1. International relations (PSC 362, 464, 468)
2. Comparative politics (PSC 342, 344, 346, 348)
4. American law (PSC 351, 452, 454)
5. Political theory (PSC 330,332,334,436,438)

Students may satisfy the remaining 12 hours of the 36 hour degree requirement by taking additional courses in the subfield(s) of their choice or by taking courses from the following "Optional" category:

Optional Courses
PSC 280 - Special Topics in Political Science I
PSC 311 - Scope and Methods in Political Science
PSC 382 - Political Sociology
PSC 480 - Advanced Topics in Political Science
PSC 484 - Senior Seminar in Political Science*
PSC 495 - Internship in Government
PSC 500 - The American Polity
PSC 501 - Approaches to Public Policy
PSC 510 - Public Management Profession
PSC 580 - Special Topics in Political Science

A student with a major in political science must choose either 1) a minor from another discipline; or 2) 21 hours of cognate studies involving courses from two or more disciplines, of which 12 hours must be in upper-level courses with a minimum of 6 hours from each discipline.

Freshmen considering a major in political science should consult with the chair of the department during their freshman year. Sophomores should file a program of study before the end of their sophomore year. Transfer students are advised to consult with the chair of the department before scheduling courses.

Guidelines for curriculum planning in political science are available in the department office. These guidelines are designed to consider such intellectual and vocational interests as prelaw training, international studies, public service, and graduate school preparation.

Political Science Minor

The student choosing a minor in political science must take 21 hours of course work including PSC 101, 102 and 484 (during the junior or senior year).

Political Science for Second Area of Study

Students majoring in elementary education may select political science as their second area of study. Major requirements can be found in the Education section. Students seeking certification in secondary education should seek advisement from the Education Department where a program of study leading to courses in political science and/or the social sciences can be developed.

Internship Programs

The Department of Political Science has an internship option for students in political science, public affairs and prelaw. Internships bridge the gap between learning experience and entry into professional life. Normally, students must have junior status or above in order to be admitted to this course.

</tbody>
</table>
government, and revolution discussed in selected writings of Machiavelli, Hobbes, Locke, Rousseau, and J.S. Mill among others. Prerequisite: 9 hours of PSC, PHL and/or HY. (Same as PHL 332).

**334 American Political Thought**  
3 hrs.  
In-depth study of theorists, concepts, and forces that have shaped American political values from the founding of the republic to the present. Major themes include the relationship between liberty and equality, rights and democracy, and industrialization and the public good. Prerequisite: PSC 101.

**342 Western European Governments and Politics**  
3 hrs.  
Examination of selected governments and politics of western Europe. Focus will vary but will always include Great Britain, Germany and France. Prerequisite: PSC 101, 102 recommended.

**344 Eastern European Governments and Politics**  
3 hrs.  
Examination of selected governments and politics of eastern Europe. Emphasis will be on the USSR and selected countries in process of transition from communism. Prerequisite: PSC 101, 102 recommended.

**346 Third World Systems**  
3 hrs.  
Growth and decay of third world nations, their socioeconomic problems and their political responses to the requirements of economic and social change. Prerequisite: PSC 102.

**348 Asian Governments & Politics**  
3 hrs.  
Examination of Asian governments and politics with focus on twentieth century China and Japan. Prerequisite: PSC 101, 102 recommended.

**351 Introduction to American Legal Systems**  
3 hrs.  
Structure, jurisdiction, procedures, and impact of the courts in administration of justice. Focus on the roles of the major participants in the legal system. Both criminal and civil justice topics are covered. Prerequisite: PSC 101 recommended.

**362 International Law and Organization**  
3 hrs.  
Contribution of international law and organization to world order since World War II. Role of the United Nations in the third world and to political and sociological origins of international law and its application to selected contemporary problems. Prerequisite: PSC 102 or PSC 260 recommended.

**382 Political Sociology**  
3 hrs.  
Examination of concepts, theories, and research findings related to the structure of political institutions in society and their relation to other societal institutions. Stratification, correlates, bases, legitimization, and change of power in society. Prerequisite: PSC 101 or 351 recommended. (Same as SOC 382)

**412 Public Administration**  
3 hrs.  
Administrative principles and practices in public organizations and agencies. Prerequisite: PSC 101.

**414 State Government and Politics**  
3 hrs.  
Introduction to state and local politics in America. Different governmental forms and their impact on public policies. Prerequisite: PSC 101.

**416 Alabama & Southern Politics**  
3 hrs.  
Surveys the government and politics of Alabama and provides an overview of the political culture in the American South. Prerequisite: PSC 101.

**418 Urban Politics**  
3 hrs.  
Examination of urban politics in America with attention given to urban problems, urban environment, governmental forms, power structures, and policy outputs. Prerequisite: PSC 101. PSC 306 or PSC 414 recommended.

Psychology Department

Professors Kirkpatrick, Rogers; Associate Professor Emeritus Sullins; Associate Professors Carpenter, James (Chair); Assistant Professors Bliss, Lohmeier, Torres.

The Department of Psychology offers the B.A. and M.A. degrees in psychology.

Psychology Major

The program of study for a psychology major includes 33 hours of psychology with at least 24 hours of these courses numbered 300 or above. In addition, the psychology major must be accompanied by a minor which meets the requirements designated by the selected discipline. Course work required for the major is specified below in Curriculum for Majors. Students planning to major in psychology are advised to 1) read and follow prerequisite requirements (see Prerequisites), 2) complete PY 101, PY 102, AHS 300, and PY 302 no later than the sophomore year, and 3) seek advice from the departmental chair in planning a program of study before enrolling in advanced courses.

Psychology Minor

A minor in psychology consists of 21 hours of psychology courses of which 15 hours must be numbered 300 or above. Course work required for the minor is specified below in Curriculum for Minors.

Psychology for Students Seeking Teacher Certification

Students desiring certification should obtain preliminary counseling in the Department of Education. A student majoring in elementary education may choose psychology as the second area of study. Certification requirements can be found in the Department of Education section. Curricula which include teacher certification may require more than the minimum total of 128 hours for the degree.

Prerequisites

All psychology courses numbered 200 and above require satisfactory completion of PY 101 and PY 102. Prior to enrollment in PY 302 and PY 311, a student must complete AHS 300, Statistical Analysis. PY 302 should be taken prior to enrollment in any Group A courses. Preferably, courses numbered 400 or 500 should not be taken prior to the senior year; in no case should a student enroll in these courses until the last semester of the junior year.

Curriculum for Majors

Required:

- PY 101-102 General Psychology I and II 6 hrs.
- PY 302* Experimental 3 hrs.
- PY 311* Ind Diff: Tests & Meas. 3 hrs.
- PY 426 History and Systems 3 hrs.
- PY 500 Human Research I 3 hrs.
- Group A (See below) 6 hrs.
- Group B (See below) 6 hrs.
- Electives 3 hrs.

* AHS 300 is a prerequisite for PY 302 and PY 311.

Group A:
- PY 314 Learning
- PY 316 Perception
- PY 380 Cognition
- PY 436 Biological Psychology

Group B:
- PY 301 Personality
- PY 310 Child Psychology
- PY 315 Developmental Psychology

33 hrs.
PY 330 Psychology of Nonverbal Communication  
PY 375 Social Psychology  
PY 433 Psychology of Abnormal Behavior

Social Science Composite for Secondary Education Majors

Students planning to teach psychology in secondary schools will need to complete the Social Science Composite which includes courses in history, psychology, sociology, political science, and economics. The psychology courses included in this cognate are PY 101, PY 102, and PY 375. Students seeking certification in secondary education should contact the Education Department for specific requirements.

Psychology (PY)

101 General Psychology I 3 hrs.  
First of a two-semester sequence. Introduction to methods and research findings in the field. Topics will include: historical perspectives, learning, memory, cognition, language, the biological and social basis of behavior, sensation, perception, motivation, emotion, human development, personality theories and assessment, and abnormal behavior and therapies. The student must engage in approved experiential activities such as subject participation in a current research study or laboratory, lecture, and video experiences designed to illustrate the development, testing, and validation of psychological knowledge.

102 General Psychology II 3 hrs.  
Second of a two-semester sequence. Prerequisite: PY 101.

PY 101 and 102 are prerequisites for all PY courses numbered 200 and above.

207 Psychology of Personal Adjustment 3 hrs.  
Application of basic principles in psychology to origin and resolution of personal conflicts. The student must engage in approved experiential activities such as subject participation in a current research study or laboratory, lecture, and video experiences designed to illustrate the development, testing, and validation of psychological knowledge. Prerequisite: PY 101 and PY 102.

301 Personality 3 hrs.  
Examination of various theories of personality with possible implications for research. Prerequisite: PY 101 and PY 102.
302 Experimental Psychology 3 hrs.
Design and execution of experiments in psychology. Data analysis and manuscript preparation. Prerequisites: PY 101, 102 and AHS 300. Lab Fee: $30.

310 Child Psychology 3 hrs.
The process of development in the human organism. Research, practical, and theoretical orientation used to explore developmental issues and processes will be examined. Prerequisites: PY 101 and PY 102.

311 Individual Differences: Tests and Measurements 3 hrs.
Individually unique patterns of behavior such as intelligence and personality will be discussed. Both social and biological influences are examined. Aspects of psychological testing and evaluation are included. Prerequisites: PY 101, PY 102, PY 302 and AHS 300.

314 Learning 3 hrs.
Analysis of learning principles from simple relationships with animals to the complexities of human language and problem solving. Prerequisites: PY 101, 102, 3 hrs. PY 300-level or above. PY 302 strongly recommended. (Offered once each year).

315 Developmental Psychology 3 hrs.
Cognitive, psychoanalytic, ethological, behavioral, and humanistic theories of development. Prerequisites: PY 101 and 102. PY 310 recommended.

316 Perception 3 hrs.
Exploration of structures and processes involved in perception, with special attention to the theoretical and methodological issues involved in perception research. Emphasizes visual perception and attention, with additional work in audition and the chemical senses. Prerequisites: PY 101, PY 102, 3 hrs. PY 300-level or above. PY 302 strongly recommended.

330 Psychology of Nonverbal Communication 3 hrs.
Investigates processes of nonverbal communication such as body language, gestures and paralinguistics through empirical studies and naturalistic observation. Prerequisites: PY 101, 102 or 3 hrs. CM. (Same as CM 330). AHS 300 recommended.

375 Social Psychology 3 hrs.
Examination of the social influences on both individual and group behavior. Topics may include attitudes, group processes, intergroup conflict, interpersonal attraction, aggression, altruism, and impression formation. Prerequisite: SOC 100 or PY 101, 102. (Same as SOC 375).

380 Cognition 3 hrs.
Information processing: how information is acquired, encoded, organized, stored, and retrieved. This process will be applied to specific areas of psychology such as language, learning, or personality. Prerequisites: PY 101, 102, 3 hrs. PY 300-level or above. PY 302 recommended.

Courses listed below are open to students who are seniors or those enrolled in the last semester of their junior year.

420 Seminar in Psychology 3 hrs.
Presentation and discussion of reports on psychological problems within a particular area. Prerequisites: 15 hours PY and approval of instructor. May be taken twice for credit.

422 Individual Research 3 hrs.
With advice of instructor, design and execution of original experiment in psychology. Prerequisites: 15 hours PY and approval of instructor. May be taken twice for credit.
426 History and Systems in Psychology 3 hrs.
Survey of psychological theory and experimentation regarding human behavior and mental processes from ancient times to the present. Prerequisites: 9 hrs. PY 300-level or above.

433 Psychology of Abnormal Behavior 3 hrs.
Survey of major psychological approaches to conceptualizing abnormal behavior, with discussion of present diagnostic categories of psychological disorders. Prerequisites: PY 301 and PY 311.

436 Biological Psychology 3 hrs.
Neural and endocrinological systems underlying behavior. Prerequisites (either a or b): (a) 15 hrs. of PY or approval of instructor; (b) BYS 119 and BYS 120 and 6 hours of PY or approval of instructor. PY 302 strongly recommended. (Same as BYS 436).

490 Readings in Psychology 3 hrs.
Supervised in-depth readings in area of particular interest to student. Prerequisites: 12 hrs. PY 300-level or above and approval of instructor. May be taken twice for credit.

491 Special Topic in Psychology 1 hr.
Pre-announced special areas in seminar discussion, laboratory work, or practicum. Prerequisites: 12 hours PY 300-level or above. May be taken twice for credit.

492 Special Topic in Psychology 2 hrs.
Pre-announced special areas in seminar discussion, laboratory work, or practicum. Prerequisites: 9 hours PY 300-level or above. May be taken twice for credit.

500 Human Research I 3 hrs.
Human behavior observation and/or experimentation. Students will design a study dependent upon previous coursework, engage in data collection and analysis, and report their findings in a research paper and an oral presentation. Includes development of computer and oral competencies. Prerequisites: PY 302, 15 hrs. PY 300-level or above and senior/graduate standing. Lab Fee: $30. (Offered Fall Semester)

501 Human Research II 3 hrs.
Continuation of PY 500. Prerequisite: PY 500 and approval of instructor. Lab Fee: $30. (Offered Spring Semester)

502 Industrial and Organizational Psychology 3 hrs.
Application of basic principles of learning, motivation, and perception to typical industrial and organizational problems. Prerequisite: Senior/graduate standing.

530 Psychometrics 3 hrs.
History and development of psychological testing with special emphasis given to both theory and process of effective evaluation. Prerequisites: AHS 300 and PY 311.

535 Theory of Abnormal Psychology 3 hrs.
Selected disorders such as depression, anxiety disorders, and personality disorders from different theoretical orientations with emphasis on cognitive behavioral theory. Prerequisite: PY 433 or approval of instructor and senior/graduate standing.

Sociology Department
Associate Professors: Colclough (Chair), Finley, Haralick; Assistant Professors: Berbrier and Sitaraman.

The Department of Sociology offers the B.A. with a major in sociology, a minor in sociology and sociology as a second area of study.

Sociology Major
In addition to the General Education Requirements (GER) for the B.A., students who major in sociology must complete 37 hours of sociology courses including:

1. SOC 100 Introduction to Sociology
AHS 300 Statistical Analysis
SOC 300 Research Methods
SOC 465 Sociological Theory

II. It is recommended that students take at least 6 hours from each of the following clusters:

Cluster 1
SOC 200 Introduction to Anthropology
SOC 315 Human Ecology
SOC 330 Race and Ethnic Relations
SOC 333 Sociology of the South
SOC 350 Social Stratification
SOC 380 Sociology of Science and Technology
SOC 382 Political Sociology
SOC 440 Sociology of Religion
SOC 450 Sociology of Health
SOC 455 Sociology of Work and Occupations
SOC 470 Social Organization
SOC 480 Historical Sociology

Cluster 2
SOC 106 Marriage and Family
SOC 306 Gender Roles
SOC 310 Sociology of Childhood
SOC 311 Life Span Development
SOC 319 Deviance and Social Control
SOC 325 Sociology of Education
SOC 345 Social Gerontology
SOC 375 Social Psychology
SOC 452 Sociology of Mental Health

III. A minimum of 21 hours should be taken in courses numbered 300 or above.

Sociology Minor
A student developing a minor in sociology with a major in another discipline must complete 21 hours of sociology courses including SOC 100. A minimum of 12 hours should be in courses numbered 300 or above. Sociology courses may also be used in conjunction with courses from other disciplines to form a cognate area of study. Such a program should be developed with the advice of the sociology faculty and approved by the chair of the student's major department.

Sociology for a Second Area of Study
Students majoring in elementary education may select sociology as their second area of study. See major requirement in the Education section. To meet university requirements, students must complete a minimum of 18 hours in sociology, 12 of which must be above the 300-level in sociology. Courses should be chosen with the help of the education advisor and approval of the chair of the Department of Sociology. The recommended program is:

1. SOC 100 Introduction to Sociology
2. SOC 102 Social Problems or SOC 106 Marriage and Family
3. SOC 325 Sociology of Education
4. 3 additional courses in sociology at the level of 300 or above

(The following courses are especially useful for teachers:
SOC 306, SOC 310, SOC 311, SOC 330, SOC 333, SOC 350,
SOC 375, SOC 452, SOC 470.)
Sociology (SOC)

100 Introduction to Sociology 3 hrs.
Perspective methods, concepts, and general findings of the sociologist. Historical and conceptual development of sociology.

Lower-division sociology courses listed below are open to students who have completed SOC 100.

102 Analysis of Social Problems 3 hrs.
Sociological interpretation of contemporary social problems as they relate to significant trends in complex societies.

106 Marriage and Family 3 hrs.
The family as a social institution, its structure and function in contemporary societies, dating, marital interaction, life cycle, and socialization process.

200 Introduction to Anthropology 3 hrs.
Origin and development of human ways of life. Analysis of preliterate societies.

230 Mass Media in America: Theory and Criticism 3 hrs.
Mass communication theory, history of American mass media, and criticism of contemporary forms and functions of mass media of communication in the United States. (Same as CM 230).

300-level sociology courses are open to students who have taken SOC 100.

300 Research Methods 3 hrs.
Broad and balanced background in various types of social research methods. Fundamental logic and specific techniques in conducting research. Prerequisite: AHS 300. Lab Fee: $40.

301 Qualitative Methods 3 hrs.
Explores the variety of qualitative approaches to theory development in sociology, including interviewing, participant observation, and content analysis, among others.

306 Sex Roles 3 hrs.
Social and sexual roles, their interrelationships, and articulation with societal institutions and agencies. Social upheaval that is both cause and effect of sex-role changes in societies in transition.

310 Sociology of Childhood 3 hrs.
Environmental influences on socialization of infants and children. Various family roles, school, peer group, and culture as they affect the growing child.

311 Life Span Development 3 hrs.
Major social influences on human development, change, continuity, and discontinuity from birth to old age. Turning points and role throughout life span. Prerequisite: SOC 310.

315 Human Ecology 3 hrs.
This course examines the interrelationships among population growth, environmental problems, and economic development on a global scale.

319 Deviance and Social Control 3 hrs.
Social construction of deviant behavior and societal reactions to it.

325 The Sociology of Education 3 hrs.
Education as a social institution; its structure, function, and role in contemporary life. (Same as ED 325).
330 Race and Ethnic Relations 3 hrs.
Focusing on the highly diverse society of the United States, examines such issues as prejudice and discrimination, racial/ethnic conflict, assimilation vs. pluralism, and immigration.

340 Special Topics 1-3 hrs.
Nontraditional topics of current sociological interest. Title of course and number of credit hours when offered, will appear in course schedule along with prerequisites necessary for admission to course. May be taken more than once for credit as long as subtitles differ.

345 Social Gerontology 3 hrs.
Theoretical and empirical approach to human aging process with its various social and cultural aspects. Major problems and issues in aging and current programs designed to meet needs of the elderly.

350 Social Stratification 3 hrs.
Social class, social status, and social mobility. Social power and prestige. Differential opportunities and resultant behaviors of upper, middle, and lower social classes.

375 Social Psychology 3 hrs.
Fundamental principles of group processes, social influence, and group structure. Development of group solidarity, cohesion, intergroup conflict and cooperation, communication, leadership, opinion, propaganda, and suggestion. Prerequisite: SOC 100 or PY 101,102. (Same as PY 375).

380 The Sociology of Science and Technology 3 hrs.
Survey of the social forces that shape the nature and direction of science and technology. Involves a critical look at modern science and technology. Prerequisite: SOC 100 helpful but not required.

382 Political Sociology 3 hrs.
Examination of concepts, theories, and research findings related to the structure of political institution in society and its relation to other social institutions. Stratification, correlates, bases, legitimization, and change of power in society. Prerequisite: SOC 100 or PSC 101. (Same as PSC 382)

390 Readings and Individual Research 3 hrs.
Supervised readings or in-depth research or both in area of specialized interest to student or instructor. Permission of instructor. May be taken twice for credit with advisor’s approval.

The department recommends that 400-level courses be reserved for junior or senior standing or by permission of instructor.

439 Complex Organization in Industrial Society 3 hrs.
Mainstream and critical sociological theories for understanding complex organization in industrial societies. Specific areas to be covered include: historical development, structure and processes, contradictions and conflict, and alternative forms. Prerequisite: Senior or graduate standing/permission of instructor. (Same as PSC 639)

440 Sociology of Religion 3 hrs.
Among other issues, examines sociological theories of religion, religious organization, religion and social change, and new religious movements.

450 Sociology of Health 3 hrs.
Survey of sociological issues relating to the recovery from illness and the maintenance of physical and mental health. Critical look at health care delivery systems and the need for social support systems in society.
452 Sociology of Mental Health 3 hrs.
Social construction of mental health and mental illness. Mental hospitals, community mental health center, and mental health movement.

455 Sociology of Work and Occupations 3 hrs.
Contemporary work situations and experiences. Alienation in work, impact of technological change and bureaucratization, primary work groups and work culture, professionalization, unionization, workers' self-management experiments, and work-leisure relationship.

465 Sociological Theory 3 hrs.
Development of discipline of sociology in terms of major trends of sociological theory, past and present, and major theoretical problem areas. Nature of sociological theory in relation to other disciplines.

470 Social Organization 3 hrs.
Introduction and critical exploration of the analysis of social units including groups, organizations, communities, societies, and the world system of societies. Various forms of analysis will be considered, from Marxist to network approaches. Prerequisite: SOC 100.

480 Historical Sociology 3 hrs.
Examines the past to develop general theories about how societies work and change. Sociological causes and consequences of modernization, the central concern of sociology since its beginning. Using a comparative approach, examines both western and non-western modernization in order to uncover the social factors that account for similarities and differences in the ongoing process of societal transformation.

Women's Studies Program
Dr. Rose Norman, Director
Morton Hall 215

The Women's Studies program brings together courses and faculty from several colleges of the university to provide an interdisciplinary experience leading to a minor in Women's Studies. As an area of scholarship, the principal focus is on the contributions, perspectives, and experiences of women in all areas of human endeavor. These include the status, portrayal, or achievements of women in areas such as art, history, science, and the professions. While the courses included as Women's Studies courses may be offered in various departments, the minor organizes these courses in a coherent structure such that the sum of the experiences provides a more comprehensive insight into the discipline of Women's Studies than the individual courses provide on their own.

Women's Studies Minor

A minor in Women's Studies consists of 21 semester hours, including two required courses (WS 200 and WS 460), four core classes, and one elective as shown in the following table. Note that 12 of the 21 semester hours must be at the 300-level or higher. A student interested in minoring in Women's Studies should contact the director of the program for advising.

1. Required courses (6 hrs.)
   WS 200 Introduction to Women's Studies
   WS 460 Feminist Theory
2. Core Classes - 4 courses required from the following (12 hrs.)

Notes: At least 6 hrs. within a single subject area and at least 6 hrs. outside that subject area; no more than two of the courses applied to the minor can be from the student’s major field of study. No course can be counted toward both a major and minor; WS 340 (Special Topics) or WS 499 (Independent Study) may count as core courses in various subject area.

**Humanities:**
- CM 416 Women Orators
- EH 418 Women Writers
- FH 409 Gender and Representation
- EH 340 Special Topics: African-American Women Writers
- HY 202/399 Special Topics: Women in U.S. History

**Social Sciences:**
- SOC 106 Marriage and Family
- SOC 306 Gender Roles
- PSC 480 Special Topics: Sex Discrimination
- PY 420 Special Topics: Psychology of Women

**Health, Sciences, Business and Technology**
- MGT 462 Government Regulation of Human Resource Management
- NUR 325 Human Sexuality

3. Elective Course - 1 course from the following (3 hrs.)

Total Hours: 21

New courses may be added to this list when approved for inclusion by the Women’s Studies Program Advisory Committee. The Women’s Studies section for each semester’s schedule of classes lists the courses that may be counted toward the minor. For descriptions of courses other than those with the WS prefix, see listings of individual departments.

**Women’s Studies Courses (WS)**

200 **Introduction to Women’s Studies** 3 hrs.  
Focusing on gender as a fundamental category of meaning, introduces methods and approaches to Women’s Studies in a variety of disciplines, examining the pervasive and often unacknowledged ways that gender changes our social institutions, individual knowledge, and interpersonal relationships.

340 **Special Topics** 3 hrs.  
Pre-announced special areas addressed in seminar format, laboratory work, or practicum. May be taken twice for credit. Prerequisite: WS 200.
460 **Feminist Theories** 3 hrs.
Introduces the epistemologies and methodologies currently developing in the area of feminist theory, leading to an understanding of the interdisciplinary nature of the enterprise of feminist theory. Exposure to major debates and concepts in feminist theory, such as post-modernism, deconstructionism, and essentialism. Prerequisite: WS 200 or permission of instructor. (Same as SOC 460).

499 **Independent Study** 3 hrs.
Readings and/or individual research in an area of specialized interest to both student and instructor. Prerequisite: WS 200 and permission of instructor.
Dean C. Fay Raines, B.S.N., M.S.N., Ph.D., Professor

Professor Raines; Associate Professors Anderson, Cash, Heaman, Henze, Lethbridge, Pearson, Rozell, Warren, Williamson; Clinical Associate Professor Herrin; Assistant Professors Estes, South, Tanner; Clinical Assistant Professors Brookman, George, Hamrick, Moquin-Germann, Spearman, Thomas, Young; Clinical Instructors Eddleman, Ernsberger, Foote, McLeod, Newman, Weed.

The College of Nursing offers the Bachelor of Science in Nursing and the Master of Science in Nursing. The professional components of the undergraduate and graduate programs are designed to give the student the theoretical and experiential base for current and future practice. The undergraduate curriculum also provides general education options which foster personal development. The graduate program offers opportunity for specialization for advanced nursing practice.

The undergraduate program in Nursing is approved by the Alabama Board of Nursing. Both the baccalaureate and the master’s programs in Nursing are accredited by the National League for Nursing.

Undergraduate Program

The undergraduate curriculum prepares graduates to assume entry level positions in a variety of health care settings. It is divided into two components, the lower and upper divisions. Lower division courses provide a broad general education and establish a foundation for the professional nursing component of the program. Upper division courses provide the theoretical and practical bases for nursing practice in an increasingly complex health care system. In addition to focusing on essentials of nursing in hospitals, the curriculum also emphasizes community based and primary care. The program prepares graduates for professional positions immediately after graduation and provides a foundation for graduate study.

Registered Nurses

Registered nurses who have previously earned diplomas or associate degrees in nursing are admitted to the undergraduate program to meet requirements for the Bachelor of Science in Nursing degree. Prospective students are encouraged to plan their programs of study with advisors in the College of Nursing Office of Student Affairs prior to enrolling in either lower or upper division courses. The program for registered nurse students offers opportunities for part-time study and non-traditional hours at UAH and off campus sites.

In recognition of prior learning and work experience, the College of Nursing will award 30 semester hours of validated nursing credit to each registered nurse student after successful completion of NUR 410: Transition into Professional Roles. Additionally, students who are
interested in earning the MSN degree may elect to take up to 9 semester hours of selected graduate coursework while completing the BSN degree; those courses are not repeated if the student is admitted to the MSN program. Please note that enrollment in graduate courses does not ensure or imply admission into the School of Graduate Studies nor into the College of Nursing at UAH.

More detailed information about opportunities for undergraduate students may be obtained from the College of Nursing Office of Student Affairs (205-890-6742).

Academic Advisement

Prior to admission to the upper division nursing major, students are advised through the College of Nursing Office of Student Affairs. Students enrolled in the lower division nursing major at UAH should meet with an advisor in planning a program of study; a nursing advisor’s signature is required for registration. All students, including registered nurse students, planning to apply for transfer admission from other institutions to the upper division nursing major at UAH are also encouraged to meet regularly with an advisor in the Nursing Office of Student Affairs.

After admission to the upper division nursing major, each student is assigned to a nursing faculty advisor.

Undergraduate Admission and Enrollment Requirements

Admission

1. Applicants for admission to the lower division nursing major must complete all requirements for admission to UAH as described elsewhere in this catalog and declare nursing as a major.

2. Admission to the upper division nursing major for non-registered nurses is competitive. Each year’s junior class is selected from applicants who meet the minimum requirements (2.0 GPA on all required coursework). Additionally, students who have earned 30 semester hours of coursework at UAH. An application for the upper division nursing major must be completed and submitted to the College of Nursing Office of Student Affairs by March 1 preceding the Fall Semester for which admission is sought. Applications received after March 1 will be considered on a space available basis. Applications are available from the College of Nursing Office of Student Affairs. Students are admitted once each year for fall semester.

3. Admission to the upper division nursing major for registered nurse students is selective. Each year’s class is selected from students who meet minimum requirements (2.0 GPA on all required coursework). Priority is given to students who have successfully completed all prerequisite coursework prior to beginning the required nursing curriculum in the College of Nursing. An application to the upper division nursing major for registered nurse students must be completed and submitted to the College of Nursing Office of Student Affairs in early Spring. Dates for submission of applications are available in the College of Nursing Office of Student Affairs. Applications received after the deadline will be considered on a space available basis. Registered nurse students must submit proof of current licensure in the state of Alabama. If a student is permitted to meet course clinical requirements in a state other than Alabama, the student must be licensed in that state, as well as Alabama. Recent graduates of associate degree or diploma nursing programs who are not yet licensed may be permitted to complete lower division coursework, but will not be admitted to the upper division clinical component of the program until they are licensed.

4. All lower division course requirements for the nursing major must be completed with a minimum grade of C prior to admission to the upper division. Only students admitted to the upper division may enroll in required clinical nursing courses.
Health Requirements
The clinical experiences of nursing students require a health screening program. The following steps are required as part of admission to the upper division nursing major and prior to enrollment in upper division courses:

1. Health examination by a physician or a certified nurse practitioner. Reports of the results of this examination must be submitted on forms provided by the College of Nursing and must be received by the College of Nursing Office of Student Affairs by published deadlines. Individual clinical agencies may require additional documentation for specific health requirements which must be met by students.

2. Immunization for Hepatitis B. Certification that the series of injections has begun or results of a recent titer must be received by the College of Nursing Office of Student Affairs by published deadlines. Immunizations and titers are at the expense of the student.

3. Immunization for Measles. Documentation of current immunization for measles or results of a recent titer must be received by the College of Nursing Office of Student Affairs by published deadlines. Immunizations and titers are at the expense of the student.

4. Documentation of current health insurance must be received by the College of Nursing Office of Student Affairs by published deadlines. Hospitals and health agencies provide emergency treatment to students for injury or illness occurring in the course of program requirements in their agencies. Such treatment shall, however, be at the expense of the student.

Other Requirements for Enrollment

1. Evidence of CPR certification must be received by the College of Nursing Office of Student Affairs by published deadlines. Certification must be maintained until graduation. Re-certification documentation must be received by the College of Nursing Office of the Associate Dean by August 1.

2. All unlicensed students must pay for required professional liability insurance by published deadlines. Unlicensed students are included on a blanket policy available through the College of Nursing and students receive information about the amount and method of payment in early summer. Liability insurance must remain current until graduation. Registered nurse students must individually obtain and present evidence of current professional liability insurance. This insurance must remain current until graduation.

Upper Division Progression and Graduation Requirements

1. Students must meet requirements for all UAH students. In addition, there are the following requirements for the College of Nursing.

2. A grade of C or above must be earned in required nursing courses. A student who receives a grade below C in a required nursing course may repeat the course only one time. The following courses are required nursing courses: NUR 302, 303, 304, 305, 306, 307, 308, 310, 401, 402, 403, 404, 405, 406, and 407. For registered nurse students, the following courses are required nursing courses: NUR 307, 410, 411, 412, and 413.

3. A student who receives two grades below C in required nursing courses at any time during the program, in either the same course or in separate courses, will not be permitted to continue. This requirement also applies to non-admitted students who enroll in courses with NUR prefixes prior to admission to the upper division nursing major. Students who earn two or more grades below C and wish to continue their nursing education may apply for readmission. The process for readmission is through letter to the College of Nursing’s Director of Student Affairs. Readmitted students who subsequently earn another grade below C in any nursing course will be permanently dismissed from the program.

4. An overall 2.0 (C) average on all courses taken at UAH is required for graduation.
5. Students must meet standards of professional conduct as described in the American Nurses’ Association Code of Ethics for Nurses and standards of student behavior as described in University handbooks.

6. Throughout the program, students must meet health and other requirements identified in Undergraduate Admission and Enrollment Requirements as well as those required for clinical agency contracts.

7. Registered nurse students must maintain active Alabama licensure in good standing throughout the program. Requests to meet clinical requirements in states other than Alabama cannot be considered unless the student has an active license in that state. Registered nurse students will not be eligible for continuance in the program if any license is suspended or revoked. Students must notify the College of Nursing if there is a change in licensure status.

8. Any requests for exceptions to progression and graduation requirements must be addressed in writing to the Associate Dean.

Responsibility to Clinical Agencies
Students are responsible for complying with policies and procedures required by clinical agencies. Failure to meet this requirement may lead to exclusion from required clinical educational experiences and prevent completion of the program.

Baccalaureate Program of Studies
The following lower division UAH courses or equivalent transfer courses are required for the baccalaureate degree in nursing for all students:

Lower Division: 59 semester hours

Natural science, mathematics, and statistics:
- College Algebra (MA 105)
- General Biology (BYS 119)
- Microbiology (BYS 214 or 221)
- Anatomy and Physiology (BYS 313, 314)
- Statistics (AHS 300)
- Chemistry (CH 101/105)

Social and behavioral sciences:
- Introduction to Sociology (SOC 100)
- General Psychology (PY 101)
- Human Growth and Development (ED 230)
- Elective (at least 3 semester hours)

Humanities:
- English Composition (EH 101, 102)
- History or Literature (6 semester hours)
- Being, Knowledge and Value, Introduction to Logic, or Introduction to Ethics (PHL 101, 210, or 202)

Free Electives (at least 6 semester hours)

The following Upper Division courses are required for a baccalaureate degree in nursing:

- Professional Practice in Nursing I (NUR 310)
- Nursing and Health Promotion (NUR 302)
- Health Assessment (NUR 303)
- Applied Pathophysiology Across the Lifespan (NUR 304)
- Nursing Process for Mental Health and Illness (NUR 305)
- Ethical and Legal Aspects of Health Care (NUR 306)
- Scholarly Inquiry in Nursing (NUR 307)
Nursing Care of Adults with Alterations in Health I (NUR 308)
Nursing Care of Adults with Alterations in Health II (NUR 401)
Population Based Health Care (NUR 402)
Family Centered Parent-Infant Nursing (NUR 403)
Family Centered Nursing Care of Children (NUR 404)
Community Health Nursing (NUR 405)
Leadership and Management in Nursing (NUR 406)
Professional Practice in Nursing (NUR 407)
Nursing Elective (3 semester hours)
Free Elective at 300-level or above (3 semester hours)
Total semester hours to graduate with a BSN........................................129

For Registered Nurse Students:
Health Assessment (NUR 303)
Scholarly Inquiry in Nursing (NUR 307)
Transition into Professional Roles (NUR 410)
Caring for Individuals and Families (NUR 411)
Caring for Aggregates and Populations (NUR 412)
Nursing Leadership in Professional Practice (NUR 413)
Electives at 300-level or above (9 semester hours)
Total semester hours to graduate with a BSN........................................129

Nursing (NUR)

302 Nursing and Health Promotion 3 hrs.
Focus on nursing, health, and wellness across the lifespan. Emphasis on health promotion and prevention of illness. Strategies to optimize health are presented. Perceptions and beliefs related to health, illness, disease, and cultural diversity are explored as are mechanisms for promoting health through politics and the health care delivery system. Open to admitted upper division students only. Lab Fee: $30. Fall.

303 Health Assessment 3 hrs.
Focus on holistic health assessment of culturally diverse clients across the lifespan. Communication and psychomotor skills are developed in clinical laboratory settings. Prerequisite: Successful completion of Anatomy and Physiology sequence. Lab Fee: $90. Fall.

304 Applied Pathophysiology Across the Lifespan 3 hrs.
Application of anatomy and physiology to specific pathophysiological processes within a nursing framework. Prerequisite: Successful completion of Anatomy and Physiology sequence. Lab Fee: $30. Fall.

305 Nursing Process for Mental Health and Illness 6 hrs.
Nursing process and promotion of mental health across the lifespan including restoration of mental health. Clinical laboratory experiences provide opportunities for application of individual and group interventions in a variety of settings. Pre or co-requisite: NUR 310, 302, 303, 304. Lab Fee: $180. Spring.

306 Ethical and Legal Aspects of Health Care 3 hrs.
Ethical and legal dilemmas related to health care are explored, focusing on issues impacting individuals, families, and society. Traditional and contemporary ethical philosophies are discussed in terms of society's values. Concepts of autonomy, veracity, fidelity, beneficence, justice, and advocacy are explored in relation to ethical decision-making. Models for ethical decision-making will be used to analyze ethical and legal dilemmas. Basic legal concepts related to contemporary health care are presented. Open to all university students. Lab Fee: $30. Spring.
307 Scholarly Inquiry in Nursing 3 hrs.
Focuses on the various modes of inquiry used in the development of nursing science. Emphasis on the critical examination of nursing research including methodologies, utilization, and theoretical bases. Prerequisite: Successful completion of undergraduate statistics course. Lab Fee: $30. Spring.

308 Nursing Care of Adults with Alterations in Health I 6 hrs.

310 Professional Practice in Nursing I 4 hrs.
Provides a foundation for professional nursing practice. Professional nursing practice, professional accountability, and clinical skills of nursing practice are addressed, with special emphasis on the development of interpersonal and psychomotor skills basic to professional nursing. College laboratory and clinical experiences are included. Open to admitted upper division students only. Lab Fee: $120. Fall.

324 Health Care and the Law 3 hrs.
Designed to integrate pertinent aspects of health care law into the study and/or practice of health care. Elective, open to all university students. Lab Fee: $30.

325 Human Sexuality 3 hrs.
Theory and issues related to human sexuality in health and illness. Emphasis on both theory and values; clarification of human sexuality issues. Prerequisite: sophomore standing. Elective, open to all university students. Lab Fee: $30.

332 Nursing Care of Perioperative Client 3 hrs.
The role of the nurse in providing nursing care for clients experiencing surgical intervention. The nursing process provides the framework for promoting quality perioperative nursing care for the client and his family. Elective. Prerequisite: junior standing. Lab Fee: $30.

334 Death and Dying 3 hrs.
Influence of death and dying upon attitudes and thinking gleaned from historical, cultural, philosophical, and scientific perspectives. Intimate reactions and beliefs concerning death and identifying coping resources. Elective, open to all university students. Lab Fee: $30.

337 Nursing as a Political Force 3 hrs.
Overview of the legislative process and legislation relative to health care issues. The role of the professional nurse in the political climate is explored. Elective, open to all university students. Lab Fee: $30.

338 Drug and Substance Abuse 3 hrs.
Issues arising from intentional or inadvertent abuse or misuse of drugs and food; legal and physical implications of such behavior. Emphasis is placed on theories of causation and treatment of methodologies. Elective, open to all university students. Lab Fee: $30.

339 Introduction to Computers in Nursing 3 hrs.
Provides experience in the use of basic and versatile software programs which have wide applicability within nursing practice and within the students' educational process. Elective, open to all university students. Lab Fee: $30.

390 Independent Study 1-4 hrs.
Individualized independent study of specific nursing problem under sponsorship of a nursing faculty member with special preparation in the field. Elective. Lab Fee: $10, $20, $30, or $40. Fall, Spring, Summer.
401 Nursing Care of Adults with Alterations in Health II 6 hrs.
Nursing process applied to clients experiencing alterations in health requiring complex and collaborative nursing management. Clinical experiences in the acute care environment. Prerequisites: NUR 310, 302, 303, 304, 305, 308. Lab Fee: $180. Fall.

402 Population Based Health Care 3 hrs.
Promotion of health, prevention of disease in at-risk aggregate populations. Examines complex problems and health care policy. Open to all university students. Lab Fee: $30. Fall.

403 Family-Centered Parent-Infant Nursing 3 hrs.
Nursing process used to promote health and facilitate adaptation for childbearing families. Clinical experiences in hospital and community settings. Prerequisite: NUR 301, 302, 303, 304, 308. Lab Fee: Level 9. Fall.

404 Family-Centered Nursing Care of Children 4 hrs.
Nursing process for promoting health and facilitating adaptation in childbearing families and care of children. Clinical experiences in selected agencies. Prerequisites: NUR 310, 302, 303, 304, 305, 308. Lab Fee: $120. Fall.

405 Community Health Nursing 6 hrs.

406 Leadership and Management in Nursing 3 hrs.
Describes and analyzes selected theories of management and leadership in health care systems. with focus on broadening students' knowledge base and skills as they relate to entry-level nursing management. Organization structures and dynamics as well as pertinent issues and trends are addressed. Prerequisites: NUR 310, 302, 303, 304, 305, 308. Lab Fee: $30. Spring.

407 Professional Practice in Nursing II 3 hrs.
Provides opportunities for professional nursing practice. Area of practice is determined jointly by student and faculty, guided by preceptor, and evaluated collaboratively by faculty and student. Seminars involve analyzing clinical experience utilizing the nursing process. Prerequisites: NUR 401, 402, 403, 404; pre-or co-requisites: NUR 405, 406. Lab Fee: $180. Spring.

410 Transition into Professional Roles 3 hrs.
For the registered nurse student, designed to synthesize previous experiences in nursing with selected theoretical knowledge. Examines the multi-dimensional role of the professional nurse in health systems. Through analysis of paradigm case(s) and development of a professional portfolio, the student evaluates his/her professional practice and develops goals designed to guide learning and professional development. Philosophical, social, political, legal, and ethical issues inherent in the practice of professional nursing in health systems. Thirty hours of nursing credit for prior learning will be conferred upon successful completion of this transition course. Lab Fee: $30.

411 Caring for Individuals and Families: Theoretical Applications 9 hrs.
Designed for registered nurse students to synthesize knowledge gained from previous nursing experience related to issues and concepts that influence professional nursing practice. Emphasis is on theoretical concepts and critical thinking applied to the nursing process when caring for culturally diverse individuals and families across the lifespan. Clinical experiences applying theory related to nursing care of individuals and families are tailored to meet individual learning needs and goals of the student. Open to students admitted to the upper division only. Prerequisite: NUR 410; Pre or co-requisite NUR 303. Lab Fee: $180.
412 Caring for Aggregates and Populations: Theoretical Applications 9 hrs.
Designed for registered nurse students to apply theoretical concepts related to primary, secondary, and tertiary care of aggregates. Emphasis is on application of the nursing process in promoting community health for at-risk aggregate populations. Clinical experiences are designed to meet the individual learning needs of the student in delivering and managing care of selected aggregates. Open to students admitted to the upper division only. Prerequisite: NUR 410; Pre or co-requisite: NUR 303, 307. Lab Fee: $180.

413 Nursing Leadership in Professional Practice 3 hrs.
Development and enhancement of leadership skills for the registered nurse student in a variety of culturally diverse health care systems. Exploration of theories related to organizational models, change, and critical thinking; leadership in directing and controlling care; ethical, legal, and political influences on leadership; and enhancing self-awareness of leadership concepts through a case study experience and in a clinical practice setting. Prerequisite: NUR 410. Lab Fee: $30.
Realizing that the acquisition of scientific knowledge and expertise is not only a profession but also a vital support to other disciplines, the College of Science offers programs designed to meet various educational, vocational and professional goals. Students may select programs of study for career opportunities in mathematical, life, and physical sciences or as background requirements for professional studies in medicine, engineering and education. In addition, the faculty assists students in preparation for advanced studies and in planning research projects to enhance course work. By encouraging intellectual as well as technical development, the faculty seeks to introduce students to scientific inquiry as an orderly thought process.

The College of Science consists of six academic departments: Atmospheric Science, Biological Sciences, Chemistry, Computer Science, Mathematical Sciences, and Physics. Programs are administered by these six departments and the Office of the Dean. The Optical Science degree is administered through the Physics Department, and the Atmospheric Science Department awards only graduate degrees. Specific departmental degree requirements along with course descriptions are listed in the sections that follow.

Graduate Degrees and Study

The College of Science offers graduate programs which lead to the Master of Science degree in atmospheric science, biological sciences, chemistry, computer science, mathematics, and physics and to the Master of Arts degree in mathematics. Doctoral programs are offered in applied mathematics, atmospheric science, computer science, materials science, optical science and engineering, and physics. The Doctor of Philosophy degree in chemistry is available through a cooperative program with the University of Alabama, Tuscaloosa. A certificate in environmental science is available in conjunction with graduate degrees in science and mathematics, and a significant number of graduate courses are offered in biochemistry. For graduate course offerings and programs, refer to the Graduate Catalog.

Undergraduate Degrees and Study

The College of Science awards the Bachelor of Science and the Bachelor of Arts Degree. Majors are offered in biological sciences, chemistry, computer science, mathematics, mathematics education, optical science, and physics. A certificate program in environmental science is offered to undergraduates majoring in sciences or mathematics and to graduates with these majors. In addition, courses are offered in atmospheric science and statistics.
Specific degree programs include:

- Biological Sciences: B.S., B.A.
- Chemistry: B.S.
- Computer Science: B.S.
- Mathematics: B.S., B.A.
- Mathematics Education: B.S., B.A.
- Optical Science: B.S.
- Physics: B.S.

Junior College Work (After 64 Semester Hours)

After a student majoring in the College has earned more than 64 semester hours of credit (UAH plus transfer), course work taken at a junior college will normally not be accepted for transfer. Exceptions to this policy must be approved prior to taking additional course work. Requests for exceptions must be in writing and approved by the chair of the UAH department where the course is taught, and by the Dean of the College of Science.

Health and Physical Education Courses

Students who major in the College may count up to three semester hours of health and physical education courses toward their requirements for graduation.

</table>
b) Coursework outside the major or the minor in any department or program in the Colleges of Science or Engineering. The coursework must include at least one lab.

Major Requirements for B.S. Degree: See specific disciplines
Minor Requirements for B.S. Degree: See specific disciplines
Cognate Requirements for B.S. Degree: See specific disciplines.
Electives: Sufficient courses to meet minimum 128 hour degree requirement.

Requirements for Programs of Study Leading to the B.A. Degree.
See the College of Liberal Arts section of the catalog.

Biological Sciences Department
Professors Campbell (Chair), Dimopoulos, Eley, Lawton, Modlin, Moriarity, Young; Associate Professors Garstka, Johnson; Assistant Professor Ross.
A student may elect a program leading to either a Bachelor of Arts or a Bachelor of Science degree. In most areas of biological interest, a Bachelor of Science degree is deemed more desirable; however, a Bachelor of Arts degree may be preferred in Programs of Study relating biological sciences to the humanities, social sciences, and economics. In either case, the biological sciences department is committed to high quality undergraduate instruction, with the ultimate goal to produce accomplished graduates who can pursue advanced degrees in the health or life sciences or who can develop meaningful careers in the various areas of biological science.

Biological Sciences Major
The biological sciences program is flexible and broad enough to permit the student to develop courses of study to meet a wide range of interests or career goals within the life sciences. Curricula are available for students who elect to pursue biochemistry, environmental science, graduate preparatory, microbiology, molecular biology, premedical technology, pre-health professional, or secondary education programs. Examples of programs of study which fulfill the University’s degree requirements and achieve diverse goals in the biological sciences are shown below. Any curriculum may be modified to fit individual aims with the approval of the biology faculty. It is strongly advised that the students electing a biological sciences major consult with a biology faculty member early in their academic career to formalize a plan of study (POS) to meet their academic and career needs.

A major in biological sciences requires a minimum of 36 semester hours of coursework and includes the following core courses:

a. BYS 119 and 120, to be taken in the freshman year
b. BYS 219, to be taken in the sophomore year
c. BYS 340, to be taken in the junior year
d. BYS 490, to be taken in the senior year.

Additionally, it is expected that the student will take an appropriate structural biology and physiology course within the area of emphasis. A course in biochemistry within the major or a chemistry minor is also strongly recommended.

All B.S. degree programs in biological sciences must include 15-16 semester hours in at least two other sciences outside of the major. Eight (8) hours must be taken in one laboratory science and a minimum of 4 hours must be included in a different laboratory science. Generally, this degree requirement is met by the coursework in a chemistry minor or the
ancillary chemistry courses needed for support of the major and 8 semester hours of general physics. One course of a Level III mathematics (calculus) is also required for a B.S. in biological sciences. Unless the student intends to pursue a course of study requiring more advanced mathematics background, MA 151 is recommended to meet this requirement. Biological sciences majors are encouraged to take a course in statistics.

### Biological Sciences Minor

A minor in biological sciences includes BYS 119, 120, and 219, plus at least 9 hours of advanced coursework. The minor also includes one course selected from an area of anatomy and one course selected from an area of physiology or biochemistry.

- **Anatomy options:** BYS 221, 317, 340, 372, 378, or 544
- **Physiology/biochemistry options:** BYS 301, 318, 361, 430, 435, 436, 519, 531, 532, or 543.
- BYS 313 and 314 taken together satisfy the distribution requirement.

Additionally, CH 101, 105, and 113 are required ancillary courses for a biological sciences minor. A course in biochemistry (BYS or CH 301) supports the minor but is not required.

### Example I

**B.A. degree with a psychology minor (psychobiology program)**

### NOTES:

1. This curriculum may require more than the minimum 128 total semester hours.
2. Students considering this curriculum should consult the Department of Education early in their program.
3. A general sciences composite major covering the areas of chemistry, biological sciences, environmental sciences and physical sciences is possible under this curriculum. Interested students should consult the Biological Sciences or Education Departments.

Example VI
B.S. degree, medical technology emphasis, preparatory for the Medical Technologist certification examinations of the National Certification Agency for Medical Laboratory Personnel and the Board of Registry of the American Society of Clinical Pathologists. This curriculum satisfies academic requirements for a B.S. degree in biological sciences with a medical technology emphasis. It is offered with the cooperating clinical laboratories in the School of Health Related Professions at the University of Alabama at Birmingham (UAB). The degree program is accomplished in three phases: (I) completion of academic prerequisite courses during the preclinical phase at UAH, (II) completion of medical technology courses at UAB during summer, fall and winter terms, with the transfer of credits back to UAH, and (III) completion of clinical practice courses at the cooperating clinical laboratories during the spring and summer terms, with transfer of credits to UAH. Upon satisfactory completion of these three phases of the program, the B.S. degree in biological sciences with emphasis in medical technology is awarded by UAH. The candidate is then eligible to apply for certification as a medical technologist. Enrollment in the UAH phase does not automatically grant admission to the UAB phase; however, a student who has earned a UAH grade point average of 2.5 or better, has earned a C or better in all BYS and CH courses, and has been recommended by the chair of the Department of Biological Sciences will automatically be accepted into the UAB phase upon
application. The application deadline is January 15. Applications received after January 15 are considered on a space available basis. The three phases of the curriculum are outlined below. Students must consult with an advisor during their first semester at UAH.

Courses in Marine Sciences
Select courses in marine sciences, available through the Marine Environmental Sciences Consortium, may be taken for credit at UAH toward a biological sciences major or minor, a minor in marine sciences, or a Master of Science degree in biological sciences. Biological sciences majors electing a marine sciences minor generally would not take MS courses in the minor that were principally biologically oriented. Courses for which credit is not given for a biological sciences major or minor can be taken as electives. All programs of study that involve marine sciences courses must be approved by the MESC-UAH liaison officer.

Biological Sciences (BYS)
100 Introduction to Health Professions 1 hr.
Career options for undergraduate students interested in health professions. Basics of health-care delivery systems and terminology of health care. Primarily for freshmen and sophomores. No BYS major or minor credit.

119 Principles of Biology 4 hrs.
Introduction to biological principles with a focus on cellular mechanisms. One two-hour lab per week. Lab Fee: Level 4.

120 Organismal Biology 4 hrs.
Discussion of biological function with special emphasis on contrasting strategies employed by organisms in meeting similar biological needs. Prerequisite: BYS 119. One two-hour lab per week. Lab Fee: Level 4.

214 Infection and Immunity 4 hrs.
Principles of microbiology with emphasis on infectious disease of humans; epidemiological and immunological aspects. No credit for students who have credit for BYS 221 or advanced microbiology courses. Recommended for students in the College of Nursing. Prerequisites: BYS 119, CH 101. Two 2-hour labs a week. Lab Fee: Level 5.

219 General Genetics 4 hrs.
Hereditary basis of all living organisms, including the study of (a) genes as the discrete nature of inheritance, (b) genes in organisms and (c) genes in populations. Mendelian principles and evolutionary processes. Includes replication, transcription and translation of DNA and RNA. Prerequisites: BYS 119, 120 and CH 121 Two 2-hour labs per week. Lab Fee: Level 5.
221 General Microbiology 4 hrs.
Cultivation and observation of microorganisms and their relation to foods, water, and industrial processes, environment and disease. Two 2-hour labs a week. No credit for students who have completed BYS 214. Take no later than sophomore year. Prerequisites: BYS 119, 120; CH 101 or 121. Lab Fee: Level 5.

238 Local Flora 2 hrs.
Laboratory course with basic taxonomical procedures and determination of local angiosperms, primarily dicots. Basics of classification techniques and process ofspecification. Field trips required. Lab Fee: Level 3.

301 Elementary Biochemistry 3 hrs.
Biochemistry and energetics of living cells, metabolism, structure and function of carbohydrates, lipids, proteins and nucleic acid. Enzymes, coenzymes, vitamins, blood, endocrine glands, DNA synthesis and gene expression, nutrition, drugs and biochemistry of specialized tissues. Prerequisites: BYS 119, 120 and CH 113 or 331. (Same as CH 301).

312 Principles of Ecology 4 hrs.
Ecological principles controlling plant and animal populations. Development of ecosystems, communities, and habitats. Prerequisites: BYS 119, 120, CH 121. One lab a week. Lab Fee: Level 4. Field trip required.

313 Anatomy and Physiology I 4 hrs.
Structure and function of the human body. Physiology and anatomy of major organs, organ systems, and their interactions. Not for students preparing for professional schools or graduate study in physiology or development. Prerequisites: BYS 119 and 120 or 119 and 214, CH 101 and 105 (CH 113 recommended). One lab a week. Lab Fee: Level 5.

314 Anatomy and Physiology II 4 hrs.
Continuation of BYS 313 stressing structural and functional relationships of major organs, organ systems, and their interdependent regulation. Not for students preparing for professional schools or graduate study in physiology or development. Prerequisite: BYS 313. One lab a week. Lab Fee: Level 5.

315 Ichthyology 4 hrs.
Classification, anatomy, physiology, and ecology of freshwater and marine fishes. Emphasis on fishes of north Alabama. Laboratory and field trips required. Prerequisite: BYS 120. Lab Fee: Level 4.

317 Vertebrate Zoology 5 hrs.
Morphology of vertebrate animals. Relationship of organs and systems and their phylogenetic significance. Prerequisite: BYS 120. Two three-hour labs a week. Lab Fee: Level 5.

318 Vertebrate Reproduction 3 hrs.
General treatment of the major concepts and controversial areas of comparative vertebrate reproduction: ecological and evolutionary aspects, development of reproductive functions and sexual behavior, seasonal breeding and other topics of current interest. Prerequisite: BYS 120 or 313.

340 Basic Cellular, Molecular, & Developmental Biology 4 hrs.
Introduction to cellular and molecular biology with special emphasis on embryogenesis. Prerequisites: BYS 119, 120, 219, and CH 113 or 331. One lab per week. Lab Fee: Level 5.

361 General Biochemistry 3 hrs.
Molecules that comprise living systems: their nomenclature, structure, properties, and functions in metabolism. Enzymatic properties and function, major and minor biosynthetic and catabolic pathways, their interrelations and control mechanisms. Glycolysis
and gluconeogenesis, Kreb's cycle, photosynthesis, lipids, amino acids, proteins, and nucleic acids. Prerequisites: BYS 120, CH 332, and CH 335. (Same as CH 361).

362 General Biochemistry Laboratory 1 hr.
Practical experience in isolation, qualitative identification, and quantitative estimation of biomolecules. Prerequisite or parallel: CH 361. Prerequisite: CH 223. One 3-hour lab a week. Lab Fee: Level 6. (Same as CH 362).

363 General Biochemistry II 3 hrs.
A continuation of BYS 361 to include biosynthesis of biomolecules, metabolism, DNA and RNA, the genetic code, protein biosynthesis, genes and molecular physiology. Prerequisite: BYS 361. (Same as CH 363).

364 Biogeography 3 hrs.
Principles of plant and animal distribution and dispersal, using the communities of North America as prime examples. Prerequisites: BYS 119, 120; 312 recommended.

365 General Biochemistry Laboratory II 1 hr.
Experimental course illustrating the topics in BYS 363. Prerequisite: BYS 361 and BYS 362. Parallel BYS 363. Lab Fee: Level 4. (Same as CH 364).

372 Biology of Vascular Plants 5 hrs.
Comparative anatomy and morphology of vascular plants and their relationship in various phylogenetic lines of development. Vascular cryptogams as well as ferns, gymnosperms, and angiosperms. Not a field course. Prerequisite: BYS 120. Two 3-hour labs a week. Lab Fee: Level 4.

378 Invertebrate Zoology 5 hrs.
Invertebrate phyla emphasizing anatomy, morphology, physiology, embryology, ecology, and phylogenetic relationships. Prerequisite: BYS 120. Two 3-hour labs a week. Lab Fee: Level 5.

421 Introduction to Medical Microbiology 5 hrs.
Medically significant microorganisms and their relation to human diseases. Bacterial, fungal, parasitic, and viral agents and their properties, pathogenesis, and laboratory diagnosis. Prerequisites: BYS 221, BYS or CH 361, and BYS 430 recommended. Two 3-hour labs a week. Lab Fee: Level 5.

430 Immunology 4 hrs.
Basic course in immunology. Immunoglobulins, antigens, immune responses, complement, immediate and cell-mediated hypersensitivities, transplantation and tumor immunology. Prerequisites: BYS 219, 221 and BYS/CH 361 strongly recommended. One 3-hour lab a week. Lab Fee: Level 5.

435 Microbial Physiology and Metabolism 4 hrs.
Aspects of microbial physiology such as nutrition, growth, energy, and biosynthetic mechanisms of microorganisms. Prerequisite: BYS 221. Biochemistry recommended. One 3-hour lab a week. Lab Fee: Level 5.

436 Biological Psychology 3 hrs.
Functional analysis of neural and endocrine systems underlying behavior. Prerequisites: (either a or b): (a) 15 hrs. of PY or approval of instructor; (b) BYS 119 and 120, or BYS 313, and 6 hrs. of PY or approval of instructor. (Same as PY 436).

464 Evolution 3 hrs.

222
490 Senior Seminar 1-2 hrs.
Student discussions and presentations of topical biological subjects using current scientific literature, monographs and journals. Pass/fail grading. Biological sciences major requirement, one seminar. May also be taken at the Marine Environmental Sciences Consortium. Prerequisite: Senior standing.

491 Special Topics in Biological Sciences 1-4 hrs.
Directed readings and/or written reports on topics of interest to individual students carried out under supervision of an instructor. Permission of instructor required before registration.

492 Undergraduate Research 2-4 hrs.
For advanced-level biological sciences students with biological sciences GPA of 3.5 or above. Individual investigations into biological problems under direct supervision of instructor. Permission of instructor required before registration. May also be taken at the Marine Environmental Sciences Consortium, Dauphin Island, Alabama. Lab Fee: Level 3 for 2 hours, Level 4 for 3 hours, and Level 5 for 4 hours.

499H Undergraduate Honors Research and Thesis 2-4 hrs.
Individual investigations into biological problems under direct supervision of instructor. For honors students majoring in the biological sciences. Prerequisites: Approval of instructor, chair, and director of honors program; Senior standing. Lab Fee: Level 3 for 2 hours; Level 4 for 3 hours; and Level 5 for 4 hours.

Advanced Undergraduate—Graduate Courses

501 Gravitational Biology 3 hrs.
Basic studies of responses of plants and animals to microgravity. Emphasis on effects of low-gravity at the cellular level, including cell physiology, metabolism, structure, signal transduction mechanisms of gravity sensing, and issues of human gravitational physiology. Description of organisms and summary of biological space flight experiments. Prerequisites: BYS 119, 120, 214 or 221, 301 or 361, and 543 recommended, or permission of instructor.

519 Gene Structure and Function 3 hrs.
Molecular basis for inheritance and gene expression. Advanced studies of replication, transcription, translation. Includes regulation of gene expression, gene cloning and recombinant DNA technology. Prerequisites: BYS 219 and BYS/CH 361.

521 Medical Mycology 4 hrs.
Basic studies of fungi and applied studies of various classes of fungi pathogenic to humans; reproduction, morphology, classification of disease states, pathogenesis, laboratory diagnosis, chemotherapy. Prerequisite: BYS 421, 430 or approval of instructor. Two 2-hour labs per week. Lab Fee: Level 4.

525 Medical Parasitology 4 hrs.
Basic and applied studies of the various classes of parasites pathogenic to humans and their laboratory identification. Arthropods and their relationship as vectors of parasites. Immunology and chemotherapy of parasitism. Prerequisite: BYS 221 or equivalent. Two 2-hour labs per week. Lab Fee: Level 3.

531 Plant Physiology 4 hrs.
General introduction to life processes of plants, including water relations, mineral utilization, metabolism, photosynthesis, digestion, respiration, assimilation, and growth as affected by growth hormones. Prerequisites: BYS 120, 372, CH 113 or 331. One 3-hour lab a week. Lab Fee: Level 3.
532 Animal Physiology 4 hrs.
Basic course in organismal function. Membrane physiology and transport phenomena, muscle, nerve, synapse, and sensory receptor physiology. Physiology of respiration, heart, circulation, kidney, and endocrine system. Emphasis on regulation. One 3-hour lab session a week illustrating physiological principles discussed in lecture. Prerequisites: senior standing; BYS 317 and BYS/CH 301 or 361, or graduate standing. Lab Fee: Level 5.

533 Endocrinology 3 hrs.
Anatomy, physiology, and biochemistry of endocrine glands. Emphasis on regulation of hormone secretion, hormonal integration of physiological function, and mechanism of hormone action. Prerequisites: BYS 313 and 314 or 532, BYS/CH 361.

543 Cellular and Developmental Biology 3 hrs.
Cellular structure and function including mitosis, meiosis, cell cycle, and cell signaling. Discussion of biological techniques such as tissue culture, hybridoma and monoclonal antibody production, gene cloning and recombinant DNA, radiotracer methodology, and specialized microscopy. Prerequisites: BYS 119, 120, 219, and 331 (may be taken concomitantly).

544 Cellular and Developmental Biology 3 hrs.
Gametogenesis and regulation of reproductive cycles, fertilization, cleavage, gastrulation and developmental mechanisms such as nuclear-cytoplasmic interactions and oocyte polarity in regulating gene expression during development, selective cell affinities, contact guidance, and embryonic inductions and fields. Selected morphogenesis of germ-layer derivatives discussed. Prerequisite: BYS 543.

545 Cellular and Developmental Biology Laboratory 2 hrs.

547 Biochemistry I 3 hrs.
Structural chemistry and function of biomolecules, mechanisms of biochemical reactions, enzyme kinetics, and energy transfer. Prerequisite: CH 333 or CH or BYS 363. (Same as CH 561).

548 Biochemistry II 3 hrs.
Metabolism, biosynthesis of macromolecular precursors, storage, transmission, expression of genetic information, and molecular physiology. Prerequisite: CH 561 or BYS 547. (Same as CH 562).

561 Physiological Ecology 4 hrs.
Physiological and behavioral responses of organisms to natural changes in their chemical and physical environment. Prerequisite: BYS 312 or approval of instructor. BYS 361 or 532 recommended. Lab Fee: Level 3.

562 Community Ecology 4 hrs.
Detailed consideration of ecological principles and concepts, as well as biotic and abiotic factors relative to development of plant communities and ecosystems. Prerequisites: BYS 312. One 3-hour lab a week. Lab Fee: Level 3. Field trips required.

563 Population Ecology 4 hrs.
Distribution, population dynamics and behavior of animal population in relation to environmental factors. Prerequisites: BYS 312. One 3-hour lab a week. Lab Fee: Level 3. Field trips required.

564 Limnology 3 hrs.
Fresh-water environments and organisms exemplified by lakes, ponds, and streams in north Alabama. Prerequisites: BYS 312, 315 and/or 378 recommended.
571 Plant Anatomy 4 hrs.
Ontogeny, differentiation, and maturation of tissues and organs of angiosperms. Problems in growth and development of an angiosperm, using histological techniques. Prerequisite: BYS 372 or approval of instructor. Two 2-hour labs a week. Lab Fee: Level 4.

578 Aquatic Arthropod Biology 4 hrs.
Systematics, physiology, ecology and importance of the crustacea, insecta and arachnida that inhabit freshwater and estuarine ecosystems. Particular attention will be given to those arthropods common to the aquatic systems in and around Alabama. Since all field trips are required, prospective students should consult with the instructor prior to registration. Prerequisite: BYS 378. Lab Fee: Level 4.

Marine Sciences (MS)
Courses are offered only at the Marine Environmental Sciences Consortium Sea Lab at Dauphin Island, Alabama. The following courses can be included in a biological sciences major or minor:

202 Marine Biology 4 hrs.
Survey of invertebrates, vertebrates, and marine plants as communities with local examples of groups. Examination of marshland, estuarine, beach, dune inlet and neritic habitats, and niches. Lectures, laboratory, and field work. Prerequisite: general biology.

304 Coastal Zone Management 2 hrs.
Examination of ecological features and physical management policies design for coastal communities and a review of the federal and state programs that impinge upon coastal ecological communities.

502 Marine Botany 4 hrs.

503 Marine Invertebrate Zoology 4 hrs.
Local examples of principal groups of marine invertebrates. Reproduction, distribution, taxonomy, systematics, and ecology. Lecture, laboratory, and field work. Opportunity to acquire collection of local fauna. Prerequisite: General biology.

505 Marine Vertebrate Zoology 4 hrs.

506 Marine Zoogeography 4 hrs.
Physical, chemical, and biological factors influencing distribution of marine organisms. Importance of continents, open oceans, and species competition on animal distribution. Zoogeographical patterns in Gulf of Mexico, western North Atlantic, and Caribbean regions. Prerequisite: 12 semester hours of biological sciences.

507 Physiology of Marine Animals 4 hrs.
Environmental adaptations of marine animals. Biochemical, osmotic, respiratory, and temperature responses of both invertebrates and fish. Prerequisite: 12 hours in biological sciences. Biochemistry recommended.

508 Marine Plankton 4 hrs.
509 Marine Ecology 4 hrs.
Bioenergetics, community structure, population dynamics, predation, competition, and speciation in marine ecosystems. Lecture, laboratory, and field work. Students admitted without previous marine courses. For engineers and other non-biologists interested in marine environment. Individual species as they relate to ecological principles exemplifying taxonomic and ecologic backgrounds. Prerequisites: Introductory ecology. Chemistry and physics recommended; marine invertebrate zoology or marine biology helpful.

510 Marsh Ecology 4 hrs.
Basic understanding of ecology of salt marsh. Habitat analysis, natural history studies, and population dynamics of selected vertebrates. Specific field problem terminated by a technical paper assigned to each student. For advanced undergraduates and graduate students. Prerequisite: Introductory ecology.

511 Benthic Community Structure 4 hrs.
Patterns of benthic macroinvertebrate abundance and distribution along Alabama coastline. Field sampling, taxonomy, and data analysis in lectures and labs. Major taxa such as polychaetes and crustaceans. Prerequisite: Invertebrate zoology.

512 Fisheries Science 4 hrs.
Principles and methods of marine fishery biology and their application to conservation. Lecture and laboratory work. Prerequisite: General biology.

513 Fisheries Economics 4 hrs.
Physical and biological environment of commercial marine organisms and its effect on distribution and natural fluctuations in abundance. Man’s impact on population through fishing and habitat alteration. Ecology and life history of major groups. Problems of managing fishery resources through regulation, mariculture, and preservation of specialized habitats. Prerequisite: General biology.

515 Coastal Ornithology 4 hrs.
Coastal and pelagic birds with emphasis on ecology, taxonomy, and distribution. Food habits, field identification, and population dynamics. Prerequisite: Introductory zoology.

525 Marine Biology for Teachers 6 hrs.

599 Research 1-4 hrs.
Enrollment by special arrangement in any subjects listed. Prerequisite: Arrangements with and approval of project supervisor and liaison officer. Students should note which semester to take special topics in a particular subject. Only Marine Science Program resident faculty are available for special topics both terms. Other instructors available only time listed for their courses.

The following courses cannot be taken for credit toward a biological sciences major or minor but can be used for a marine science minor.

204 Commercial Marine Fisheries of Alabama 2 hrs.
Biology, harvesting technology, and processing of commercially valuable fish and shellfish species of Alabama.

301 Marine Technical Methods I 2 hrs.
Research equipment, methods, and techniques in marine science. Training in operation and field maintenance of major pieces of sampling gear. Prerequisite: Introductory biology, chemistry, or physics.

302 Marine Technical Methods II 2 hrs.
Equipment and techniques in laboratory analysis of water and other marine samples. Emphasis on water quality parameters. Prerequisite: Introductory biology, chemistry, or physics.
303 **Coastal Climatology**  
2 hrs.  
Physical factors that result in climatic conditions in and near coastal region. Emphasis on northern Gulf of Mexico.

501 **Introduction to Oceanography**  
4 hrs.  
Physics, chemistry, biology, and geology of oceans. For graduate students and those preparing for graduate school or intending to enter marine sciences professionally. Prerequisites: College algebra, general physics, and general chemistry.

514 **Estuarine Science**  
4 hrs.  
Physical, chemical, and biological parameters of estuarine ecosystems. Field experience and lecture material. Mobile Bay in detail. Prerequisite: Introductory zoology, chemistry, physics, or geology.

516 **Scientific Data Management**  
2 hrs.  
Key techniques and principles in evaluating and expressing experimental data. Mapping, profiling, contouring, applied statistics, and graphical and tabular representation of results. Not a substitute for basic statistics courses.

520 **Marine Geology**  
4 hrs.  
Sampling techniques, laboratory analysis of sediments, application of research process to problems in identifying sedimentary environments, topography, sediments, and history of world oceans. Beneficial for understanding sedimentary substrate on or in which a large percentage of marine organisms live. Lecture, laboratory, and field work. Prerequisite: physical geology.

521 **Recent Marine Sedimentation**  
4 hrs.  
Investigations in properties of marine sediments, coastal sedimentary environments, continental margin sediments, reef and associated sediments, deep-sea sediments and marine geophysics. Erosional and depositional effects of waves and currents. Prerequisite: marine geology or oceanography.

522 **Marine Paleoecology**  
4 hrs.  
Principal marine fossil groups in gulf coastal plain sediments, their paleoecology, and paleogeography. Recent and ancient marine communities and individuals in them. Prerequisite: marine geology or advanced geology.

---

**Chemistry Department**

Chemistry Department

Professors Baird, Gregory, Harris, Loo, McManus, Riley (Chair); Associate Research Professor Van Alstine; Associate Professors Coble, Leslie, Lumpkin, Meehan, Setzer, Weimer; Assistant Research Professor Kaukler.

The academic program in chemistry at the University of Alabama in Huntsville has received the approval of the American Chemical Society in recognition of its strong faculty and excellent facilities for high quality undergraduate instruction. The Chemistry Department offers courses leading to the B.S. degree with major in chemistry and supports undergraduate programs in other disciplines.

Six chemistry major curricula are offered which provide preparation for: (1) medical school, dental school, or veterinary school; (2) the Alabama Class B High School Teacher’s Certificate; (3) graduate study in chemistry and/or employment as an industrial chemist; (4) general education in chemistry; (5) graduate study combining chemistry and physics; and (6) employment as a biochemist or clinical chemist.
Chemistry Major

Requirements for the chemistry major include:
1. The minimum total semester hours required for the B.S. is 128. Of these, at least 39 semester hours must be in courses numbered 300 or higher.
2. Mastery of elementary calculus by successful completion of MA 171 and 172.
4. Completion of the university’s General Education Requirements (GER). For a chemistry major, the GER requirement (see note [a] below) consists of the following:
   - English (6 hours of composition and 6 hours of literature) 12 hours
   - History (HY 101 and HY 102) 6 hours
   - Social Science (one discipline) 6 hours
   - Fine Arts 6 hours
   - Mathematics (MA 171) (see note [b] below) 4 hours
   - Foreign Language and Communication Skills
     - Either
       - (1) Foreign language  up to 12 hours
         - One language, usually German or Russian. If the language has not been studied previously, the full 12 hours will be required.
       - or
       - (2) Communication skills (CS 107, CM 113; EH 301) 10 hours
   - Laboratory Science and Technical Studies (see note [c] below)
     - (1) Two courses in a single laboratory 8 hours
       - science outside the major and the minor (see note [d] below)
     - and
     - (2) Coursework (to include at least one laboratory science) in any department or program (outside the major and the minor) in the Colleges of Science and/or Engineering (see note [e] below) 7-8 hours

Notes

[a] The section of the catalog dealing with the GER requirements for B.S. degree should also be consulted for details.
[b] If the student’s minor is mathematics, this requirement is waived.
[c] Applicable laboratory sciences are astronomy, biological sciences, environmental science, physics, and some courses in the College of Engineering.
[e] Ordinarily met by taking PH 113 and 116 and 3-4 hours of an applicable laboratory science or mathematics. If the minor is not mathematics, then PH 113, 116, and MA 172 satisfy this requirement.
5. Completion of a minor consisting of at least 21 hours of course work in any subject other than chemistry. The course requirements for minors can be found in the sections of this catalog dealing with the various departments. An educationally compatible combination of courses from more than one department can be substituted for the minor. This is called Cognate Studies.
6. Completion of sufficient electives to meet the overall minimum hour requirements for the degree.
7. Completion of one of the six chemistry curricula shown below, or another developed in consultation with a Chemistry Department advisor. The student is allowed considerable
flexibility in planning an individual program, but all course patterns that differ from those listed below require faculty approval.

Curriculum I Premedical Program (See Curriculum VI for Alternate Premedical Curriculum)

The premedical program conforms to the requirements of most medical schools and contains sufficient chemistry to meet the requirements of a chemistry major. Prospective medical students should explore their areas of interest outside of the sciences and strive for maximum scholastic achievement. Students should consult with the Preprofessional Advisory Committee early in their college program and prepare to take the Medical College Aptitude Test during the spring of their junior year. (For alternative premedical curricula, see Chemistry Curriculum VI and Biological Sciences Example IV.)

NOTES:
1. This curriculum will probably require more than the minimum total of 128 hours.
2. Students pursuing this curriculum should consult with the Department of Education early in their program.
3. A general sciences composite major covering the areas of chemistry, biological sciences, environmental science and physical sciences is possible under this curriculum. Interested students should consult the Education Department.

Curriculum III Graduate Preparatory Program

This curriculum is approved by the American Chemical Society’s Committee on Professional Training. It is designed for a student who plans to do graduate work or desires an industrial position that requires a strong chemical background. German is the recommended language for this program.

Curriculum VI Biochemistry Curriculum

This curriculum is approved by the American Chemical Society’s Committee on Professional Training. It constitutes a typical chemistry-biological sciences program appropriate for employment in biochemistry or clinical chemistry and for admission to some Ph.D. granting graduate departments of biochemistry. Although less dependent on quantitative skills, this curriculum also provides a satisfactory foundation for admission to medical school.

Curriculum VI meets the minimum requirements of the American Association of Clinical Chemistry. A person completing one year of acceptable experience in clinical chemistry subsequent to the B.S. degree may apply for certification as a clinical chemical technologist. Further successful experience may lead to certification as a clinical chemist.

Notes applying to all curricula above:

(a) Credit may be obtained for Chemistry 121, 123, 125, and 126 by making a satisfactory score on the CLEP examination. This examination is offered at various times during the year through the Office of Testing Services. Students pursuing credit by examination should consult the Chemistry Department before taking the examination. Credit is also granted to a student who submits a score of 3 or higher on the Advanced Placement Programs of the College Entrance Examination Board.

(b) Transfer students wishing to major in chemistry must complete at least 9 semester hours of chemistry at the level of 300 or above at UAH. Courses in organic chemistry completed at the junior college level may be used to satisfy prerequisite requirements for upper level chemistry courses at UAH but do not count toward the upper level (300+) hour requirements of the major.

(c) No credit toward the chemistry major is given for CH 101, 105, or any mathematics course numbered lower than MA 171. A student requiring these courses should under-
stand that the total credit hours of course work required to meet all the degree requirements may exceed the minimum of 128 hours required for the B.S. degree.

(d) Unless attention is given to the sequence in which courses are scheduled, chemistry majors may experience difficulty in completing the required courses within a four year period. Students should plan to complete all the mathematics and physics courses required by their chosen curriculum before the fall semester of their junior year.

Chemistry Minors

Course sequences for students wishing to minor in chemistry require at least 21 hours of chemistry including 6 or more hours numbered 300 or above. Courses in organic chemistry completed at the junior college level may be used to satisfy hour and prerequisite requirements for upper level chemistry courses at UAH but do not count toward the 300-level requirements of the minor. Approved sequences are shown below. Others are subject to Chemistry Department approval.

1. CH 121, 125, 123, 126, 223, 331, 332, 335, 336, and 361 for premedical and predental students.
2. CH 121, 125, 123, 126, 223, 331, 332, 335, 361, 362 for some biology and medical technology majors.
3. CH 121, 125, 123, 126, 331, 332, 335, 341, 342, 343 for physics and mathematics majors.
4. CH 121, 123, 125, 126, 223, 331, 332, 335, 347 for biology majors taking BYS 361 and 362.

Chemistry (CH)

101 Introduction to Chemistry 3 hrs.
Properties of solids, liquids, gases, and solutions, atomic theory and bonding, concentration concepts, and physical and chemical properties of the more common elements and their compounds. CH 101 does not count toward the chemistry major or minor. Chemistry majors or minors taking CH 101 get elective credit only. CH 101 may be used with CH 105 and CH 113 to fulfill the laboratory science requirement of the GER. No placement examination is required for enrollment in CH 101. The student may opt to take CH 101 even if he has achieved a satisfactory score on the placement examination for enrollment in CH 121. Prerequisite or parallel: MA 105 or 119 or mathematics Level II placement. Parallel: CH 105.

105 Introductory Chemistry Laboratory 1 hr.
Laboratory fundamentals and basic chemical principles. A student enrolled in a B.S. degree program who plans to take CH 121 and CH 125 and has had chemistry laboratory experience may be exempt from CH 105 by permission of Chemistry Department chair. CH 105 may not be counted toward the chemistry major or minor. Chemistry majors or minors receive only elective credit. Parallel: CH 101. Lab Fee: Level 4.

113 Elementary Organic Chemistry 4 hrs.
Nomenclature, structure, functional groups, and properties of organic compounds. Recommended for nursing majors, some biology minors, and as a sequence to CH 101 and 105 for an 8-hour laboratory science requirement for non-science majors. Not open to chemistry majors and minors. Laboratory included. Prerequisite: CH 101, 105; equivalent or placement examination. Lab Fee: Level 4.

121 General and Inorganic Chemistry 3 hrs.
For science and engineering majors. Properties of gases, liquids, solids, and solutions. Nature of the chemical bond, kinetics, chemical equilibrium, electrochemistry, thermocheristry. Chemical properties of elements, their periodic groups, and their compounds. Prerequisites or parallel: CH 101 or placement test and MA 105 or MA 119 or placement Level II mathematics: parallel: CH 125.

</tr>
</tbody>
</table>
342 Physical Chemistry II 3 hrs.
Kinetic theory of gases, theory and formulation of rate equations, mechanisms of chemical reactions, electrochemistry, and surface processes. Prerequisite: CH 341. Credit in CH 342 precludes credit in CH 348.

343 Introduction to Quantum Chemistry 2 hrs.
Quantum mechanical treatment of atoms, molecules, and spectroscopy. Prerequisites: CH 341, PH 113, and MA 324.

345 Experimental Physical Chemistry I 1 hr.
Laboratory investigations into thermodynamics. Prerequisite: CH 223 and 341 or 347. Lab Fee: Level 5.

346 Experimental Physical Chemistry II 1 hr.
Laboratory investigations into kinetics and spectroscopy. Lab Fee: Level 5.

347 Biophysical Chemistry I 3 hrs.

348 Biophysical Chemistry II 3 hrs.

361 General Biochemistry I 3 hrs.
Detailed study of molecules that comprise living systems. Their nomenclature, structure, properties, and functions in metabolism. Enzymatic properties and function; major and minor biosynthetic and catabolic pathways, their interrelations and control mechanism. Glycolysis and gluconeogenesis, Kreb's cycle, photosynthesis, lipids, amino acids and protein, and nucleic acids. Prerequisites: BYS 120, CH 332, and CH 335. (Same as BYS 361).

362 General Biochemistry Laboratory I 1 hr.
Practical experience in isolation, qualitative identification, and quantitative estimation of biomolecules. Prerequisite or parallel: CH 361. Prerequisite: CH 223. One 3-hour lab a week. Lab Fee: Level 6. (Same as BYS 362).

363 General Biochemistry II 3 hrs.
A continuation of CH 361 to include biosynthesis of biomolecules, metabolism, DNA and RNA, the genetic code, protein biosynthesis, genes and molecular physiology. Prerequisite: CH 361. CH 348 is recommended. (Same as BYS 363).

364 General Biochemistry Laboratory II 1 hr.
Experimental course illustrating the topics in CH 363. Prerequisites: CH 361 and CH 362. Parallel CH 363. Lab Fee: Level 5. (Same as BYS 365).

401 Inorganic Chemistry 3 hrs.
Fundamental topics in inorganic chemistry. Atomic structure, chemical bonding, periodic relationships, acid-base theories, nonaqueous solvents, and reaction mechanisms. Prerequisite or parallel: CH 342 or 348.

402 Inorganic Chemistry Laboratory 1 hr.
Laboratory techniques of inorganic chemistry including synthesis, purification, isolation, and identification of inorganic compounds. Prerequisite: CH 401. Lab Fee: Level 6.

421 Instrumental analysis 4 hrs.
Introduction to modern analytical instrumentation including IR, UV and atomic absorption spectrophotometers, nuclear magnetic resonance, electroanalytical equipment, and gas and liquid chromatographs. Lecture and laboratory. Prerequisite or parallel: CH 346. Lab Fee: Level 6.
Selected Topics in Chemistry

Special offerings to students in areas of interest not covered in present curriculum. Prerequisite: senior standing and approval of instructor.

Introduction to Chemical Research

Personalized programs to round out the undergraduate curriculum of students with various goals. Prerequisite or parallel: CH 345 and senior standing. Approval of supervising faculty member and chemistry chair required. Registration utilizes last digit of course number to designate semester-hour credit. Student normally may elect only up to 6 hours. Lab Fee: Level 4 for CH 492, Level 5 for CH 493. No lab fee for CH 491.

Computer Science Department

Professors Amin, Davis (Chair), Graves, Johannes, Richards, Shiva; Associate Professors Delugach, Hinke, Ranganath, Rochowiak; Assistant Professors Newman, Reed, Wang, Weisskopf; Lecturers Allen, Bansiya, Etzkorn, Orme.

The computer science program at UAH prepares students to contribute to the rapidly changing world of computing. The program combines mathematical foundations with laboratory experiences to build a base of practical knowledge that provides the graduate with a knowledge of fundamentals combined with effective computing skills. The program is fully accredited by the Computer Science Accreditation Board (CSAB).

In support of this program the campus has a variety of computing equipment. The UAH campus is fully networked with a fiber optics backbone interconnecting all computing facilities and providing easy external access to the INTERNET. The department has four file servers, providing support to the networked Sun and PC labs within the department. PC labs are also distributed across the campus for easy access. The department has a microcomputing laboratory used for instruction in logic design and computer architecture.

A B.S. degree with a major in computer science includes general education requirements, the core computer science courses and electives, a minor in mathematics, and general electives. Computer Science electives can be chosen from a variety of areas, including artificial intelligence, graphics, object oriented design and development, databases, formal foundations, and architecture. Students have the opportunity to be exposed to a number of languages and systems, such as UNIX, Ada, C, and C++. A double major in computer science and mathematics or a second minor in engineering or another field can be accommodated in the curriculum. Computing lab fees are associated with most computer science courses. Extensive lab work is required in nearly every course. Lab scheduling is flexible.

Computer Science Major

The minimum number of hours required for the B.S. degree with a major in computer science is 131, divided as follows:

General Education Requirements

<table>
<thead>
<tr>
<th>Course Description</th>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>English Composition (EH 101 and EH 102)</td>
<td>6</td>
</tr>
<tr>
<td>Origin and Development of Contemporary World (HY 101 and HY 102)</td>
<td>6</td>
</tr>
<tr>
<td>Foreign language/communication skills</td>
<td>10</td>
</tr>
<tr>
<td>Literature (any one of the following sequences)</td>
<td></td>
</tr>
<tr>
<td>EH 205 and 206; EH 205 and 241; EH 205 and 230; EH 206 and 240; EH 230 and 240; EH 240 and 241; EH 250 and 251</td>
<td>6</td>
</tr>
</tbody>
</table>
Fine arts (6 hours from two of the following options) ARH 100 or 101 or ARS 160; CM 122; MU 100 or 101; PHL 101, 202, or 311 ..................... 6
Social & behavioral sciences (6 hours in one discipline) economics, political science, psychology, sociology .......................................................... 6
Mathematics (MA 171) .................................................................. 4
Laboratory science
a. Physics 111/114 and 112/115 ........................................... 8
b. Coursework including at least one lab in any department in the Colleges of Science or Engineering, excluding computer science and mathematics .......... 7-8

Computer Science Major Core
CS 207, 214, 308, 309, 317, 413, 424, 490, 499 ............. 28
Computer Science Seminar-CS 105 ............................. 1

Computer Science Electives
(Designed to add in-depth knowledge to the core courses and must be pre-approved by the computer science advisor.) 3 electives (two at 300-level or above, one at 400-level or above) ............... 9

Mathematics Minor
MA 172, 201, 244, 385, 415, 442 or 324 ......................... 20
Electives (to bring total number of hours to 131) ............ 13-14

Computer Science Minors
The department offers two minors which are described below. The minors contain a minimum of 24 credit hours in computer science courses. The request for a minor should be initiated in the student's major department.

Computer Science Minor (suitable for students with a major in a technical field): CS 105, 107, 207, 214, 308, 317, and two CS electives, one at the 300-level or above, one at the 400-level or above.

Computer Languages and Systems Minor (suitable for students with non-technical majors and minimal mathematics background): CS 101 or 100, 105, 107, 207, three CS electives at the 300-level or above, one CS elective at the 400-level or above.

Students should observe prerequisite requirements when choosing elective courses.

Computer Science (CS)
100 Introduction to Computers and Programming 3 hrs.

101 Processing Information on the Personal Computer 3 hrs.
Fundamentals of computer usage with a focus on the processing of information. Topics include the operating system, introduction to elementary hardware, electronic storage and retrieval of information, INTERNET access, word processing, database fundamentals, and presentation graphics. Students will learn to access libraries and will get hands-on experience in producing documents which incorporate graphics, tables, charts, etc. Lab Fee: Level 4.
105 Computer Science Seminar - Ethics and Professionalism 1 hr.
Covers issues associated with the ethical use of computers in the current information age. Ethics, professionalism, software piracy, copyrighting software, ethical standards and the impact of computers on society will be covered. Familiarization with the local computing environment will also be covered.

107 Computer Science I 4 hrs.
Overview of hardware and software components of computer systems. Techniques of problem analysis and algorithm development. Principles of program design, coding, and testing. Introduction to C programming language. Extensive experience in program design and development. Laboratory provides structured demonstrations of the application of design and implementation principles. Lab Fee: Level 4. Prerequisite: MA 119. Corequisite: MA 121.

113 Problem Solving using FORTRAN 3 hrs.
Introduction to the FORTRAN programming language. Components of algorithms such as assignment, looping, conditional branching, and input/output. Problem analysis and algorithm development. Basic algorithms for sorting, searching, table look-up. Definition and use of functions and subroutines. Lab Fee: Level 4. Prerequisite: MA 121 (or Level III placement).

207 Computer Science II - Data Structures 4 hrs.
Continuation of CS 107, with emphasis on advanced features of the C programming language, including pointers and recursion. Introduction to elementary data structures including linked lists, stacks, queues, and simple binary trees. Basic sort and search algorithms. Practical experience in the design and implementation of larger programs. Laboratory provides structured demonstrations of the applications of design and implementation principles. Lab Fee: Level 4. Prerequisites: CS 107. Corequisite: MA 171.

214 Introduction to Discrete Structures 3 hrs.
Review of set algebra including mappings and relations. Algebraic structures including semigroups and groups. Elements of theory of directed and undirected graphs; Boolean algebra and propositional logic and applications of these structures to various areas of computer science. Lab Fee: Level 4. Prerequisites: CS 107. Corequisite: MA 171.

307 Object-Oriented Programming in C++ 3 hrs.
Emphasis upon object-oriented concepts and design in developing student programs in C++. Comparison with other object-oriented languages. Inheritance. Lab Fee: Level 4. Prerequisites: CS 107 and MA 171.

308 Computer Organization and Assembly Language Programming 3 hrs.
Computer hardware organization; representation of numbers and characters; memory and memory addressing techniques. Functions of central processing unit; instruction representation and execution. Overview of software systems: loaders, assemblers, compilers, interpreters, operating systems. Functional description of input/output and mass storage devices. Structure and operation of assemblers. Programming experience in a representative assembly language. Lab Fee: Level 5. Prerequisite: CS 207.

309 Switching Theory 3 hrs.
Boolean algebra, Boolean function minimization techniques, design and analysis of combinational circuits, design and analysis of sequential circuits, asynchronous circuits, timing and loading problems, designing with integrated circuits. A lab section must be scheduled for this course. Lab Fee: Level 5. Prerequisite: CS 214.
311 Advanced Software Development using COBOL 3 hrs.
Business systems and data-processing procedures and impact of data-processing methods on economic structure of business. User communications, file design, report control, documentation. Data bases, information collection, planning and control, and systems design concepts. COBOL. Lab Fee: Level 4. Prerequisite: CS 207.

312 System Software Development Using C 3 hrs.
The role of major system software components and the interfacing and integration of these components in the process of program development and execution. The C language and the UNIX system will be used to develop the class of software. Lab Fee: Level 4. Prerequisite: Programming experience and knowledge of data structures. No credit for students who have received credit for CS 107.

313 Advanced Software Development Using FORTRAN 3 hrs.
Introduction to the FORTRAN language. Programming in FORTRAN, programming support environments, basic principles of design and implementation using FORTRAN. Use of FORTRAN in a CRAY XMP environment. Optimizing and vectorizing compilers. Lab Fee: Level 4. Prerequisite: CS 207.

314 Data Organization and File Processing 3 hrs.

317 Introduction to Design and Analysis of Algorithms 3 hrs.
Introduction to complexity analysis of algorithms with emphasis on efficient methods for searching, sorting, finding spanning trees and shortest paths in graphs. Basic algorithm design techniques such as divide & conquer, dynamic programming, and backtracking. Introduction to the classification of problems; i.e. NP, intractable, and unsolvable. Lab Fee: Level 4. Prerequisites: MA 244, CS 207 and 214.

330 Symbolic Programming with LISP and PROLOG 3 hrs.
Use of the LISP language. Computing with symbolic expressions; e.g. algebraic expressions, logical expressions, patterns, graphs, and computer programs themselves. Building and controlling abstractions. Object oriented programming, prototyping. Introduction to PROLOG. Lab Fee: Level 4. Prerequisite: CS 207.

350 Software Design and Development Using Ada 3 hrs.
Introduction to the syntax and semantics of Ada, comparison to the Pascal language, data encapsulation, data abstraction, recursive data structures, parallel tasks, Ada program design languages. Introduction to Ada program support environments and concepts of correct software system design and development using Ada. Lab Fee: Level 4. Prerequisite: CS 317.

390 UNIX Programming 3 hrs.
Strategies for the design and development of systems and programs in the UNIX environment. UNIX operating system fundamental concepts including file and terminal I/O, processes, interprocess communication and signals. Pattern searching, filter and pipes. Shell programming, including control flow and interrupt handling. Program and system development tools awk, C, make, sed, yacc, and others. Lab Fee: Level 4. Prerequisite: CS 207.

403 Introduction to Formal Languages and Automata Theory 3 hrs.
Introduction to concepts and formalisms of formal languages and automata theory. Includes fundamental mathematical concepts, grammars and corresponding automata, and deterministic parsing of programming languages. Lab Fee: Level 4. Prerequisite: CS 317.

<tr>
<td>499</td>
<td>Senior Project: Team Software Development</td>
<td>3 hrs.</td>
<td>A combination of lectures on proven software engineering approaches, and team working sessions. Each student will participate in a sizable, complex software development project based on a team approach. Each team will be required to provide oral and written documentation on their work. Lab Fee: Level 4. Prerequisite: CS 317.</td>
</tr>
<tr>
<td>530</td>
<td>Introduction to Artificial Intelligence</td>
<td>3 hrs.</td>
<td>Basic introduction to AI concepts and methods for problem solving, heuristic search, planning, hypothesis formation, modeling and knowledge representation, knowledge acquisition (learning), and AI's programming methodologies and tools. Applications of AI in areas of automatic programming, theorem proving, game playing, machine vision, natural language systems and robots. Lab Fee: Level 4. Prerequisites: CS 317, CS 424.</td>
</tr>
<tr>
<td>537</td>
<td>Introduction to Neural Networks</td>
<td>3 hrs.</td>
<td>Introduction to neural networks, covering the most prominent neural network models. Hands-on experience with neural networks through an individual or group project. Lab Fee: Level 4. Prerequisite: CS 530.</td>
</tr>
<tr>
<td>545</td>
<td>Introduction to Computer Graphics</td>
<td>3 hrs.</td>
<td>Introduction to the underlying theory and mechanics of computer graphics. Brief historical perspective, progressing through extended discussion on topics such as display hardware technology, 2D raster operations, 2D and 3D geometric transformations, and 3D projection and viewing techniques. A significant number of programming projects are assigned. Lab Fee: Level 4. Prerequisites: CS 312 (or proficiency with the C programming language), MA 244.</td>
</tr>
</tbody>
</table>
550 Ada Program Support Environments 3 hrs.
A study of advanced development concepts and support tools centered around Ada as the implementation language. Design and implementation concepts as part of the software life cycle. Lab Fee: Level 4. Prerequisite: CS 350 or equivalent introductory course in Ada.

551 Object Oriented Methodologies 3 hrs.
Object oriented methods and design concepts, languages and systems for object oriented development, object oriented programming environments, application of object oriented techniques. Lab Fee: Level 4. Prerequisite: CS 207.

552 Object-Oriented Design 3 hrs.
Introduces "design patterns" as elements of reusable object-oriented software development and advanced C++ programming and techniques, concepts and styles to realize and make object-oriented designs more reusable, extendible and simple. Lab Fee: Level 4. Prerequisites: CS 551 and CS 307.

555 Theory of Program Development 3 hrs.
Propositional and predicate calculi, reasoning about programs, weakest precondition, program development, developing invariants, efficiency consideration, and program documentation. Lab Fee: Level 4. Prerequisite: CS 424.

586 Microprocessor Architecture 3 hrs.

590 Programming Environments with UNIX 3 hrs.
Advanced strategies for the design and development of systems and programs in the UNIX environment. Emphasis on automated tool and system development using UNIX tools. Parallel and supercomputer issues as treated by UNIX and C. Advanced shell concepts and programming including control flow and interrupt handling. Process and interprocess communications. Lab Fee: Level 4. Prerequisite: CS 390 or two years experience in UNIX.

595 Selected Topics in Computer Science 3 hrs.
Special topics requested by students. Prerequisites: Approval and consent of instructor.

Environmental Science

Professors McNider, Modlin, Perkey; Research Professor Essenwanger; Associate Professors Christy, Knupp.

Environmental science courses are taken for several purposes: as a minor, to earn an environmental science certificate, as part of a composite major, and as electives. The certificate program is designed to prepare scientists, mathematicians, and engineers to solve problems relating to man's interaction with the natural environment. The certificate is a supplement to the bachelor's degree and signifies that the holder has broadened his or her perception of the physical and organic environment by studying the entire spectrum of natural science (atmosphere, biosphere, hydrosphere, and lithosphere), and by specializing in environmental aspects of his field.

Many courses necessary to earn the certificate are automatically taken as part of the student's major or GER. Other required courses can be taken as electives, permitting the fully prepared bachelor's candidate to complete requirements for a degree and the certificate with the usual number of credit hours required for the bachelor's degree alone.
## Composite Major in Environmental and Biological Sciences

**Requirements for the Environmental Science Certificate**

Basic science courses (unless exempted by advanced placement and/or testing in each case): BYS 119, 120; CH 121, 123, 125, 126; ES 101, 102; PH 111, 112; two basic courses in statistics and/or computer science.

Environmental certificate core courses:
- BYS 312 Principles of Ecology
- ES 321 Pollution Problems
- ES 521 Environmental Data Analysis (or other approved course)

Advanced level specialization (9 hours required in courses in student’s major or area of interest chosen from the following):
- BYS 526 Microbial Ecology
- BYS 561 Physiological Ecology
- BYS 562 Community Ecology
- BYS 563 Population Ecology
- BYS 564 Limnology
- MS 502 Marine Geology
- MS 509 Marine Ecology
- MS 510 Marsh Ecology
- CH 526 Environmental Chemistry
- ISE 427 Management Systems Analysis
- ISE 524 Introduction to Ergonomics: Work Development
- CE 476 Water Quality Control Processes
- CE 549 Introduction to Environmental Engineering
- CE 550 Environmental Control
- CE 559 Selected Topics in Civil Engineering
- ES 303 Climatology
- ES 305 Hydrology
- ES 504 Survey of Atmospheric Science
- ES 593 Directed Studies in Environmental Science

240
### Requirements for a Minor in Environmental Science

A student in any area of study may build a minor in environmental science with approval of the advisor in the major department. A minor is tailored to the student’s needs through consultation with the department advisor and the Environmental Science Coordinator.

### Environmental Science (ES)

<table>

Mathematical Sciences Department

Professors Chang (Chair), Gibson, McNider, Morales, Slater; Associate Professors Ames, Cook, Dow, Epperson, Friedman, Howell, Li, Siegrist; Assistant Professors Cobb, Huang, Janik, Kunin, Zhang; Lecturers Johnson, Presson, Reeder.

The mathematical sciences faculty offers courses in mathematics and statistics for a Bachelor of Arts or Bachelor of Science degree in mathematics, a Bachelor of Arts or Bachelor of Science degree in mathematics education, and a minor or second major in mathematics for students majoring in other areas of study. Courses also satisfy individual needs to supplement other areas of study and to satisfy general education requirements (GER).

General Education Requirements

Students who are not planning to continue in mathematics but who need 3 to 9 hours to satisfy GER should make their choice from the sequence MA 105, 143, 151, 244, ST 281, MA 333, and 385 beginning with the course indicated by their placement level.

Students who plan to continue in mathematics and need 3 to 9 hours to satisfy GER should make their choice from the sequence MA 119, 121, 171, 172, 201, 244, beginning with the course indicated by their placement level.

Placement

No student may enroll in his or her first MA course at UAH before determination of his placement level. Students are placed at the appropriate level according to their high school mathematics background, their ACT scores in mathematics, their previous college credit (if any), and a placement test.

Students with various placement levels must begin their MA courses for credit as follows:

- Level I-MA 105, 117 or 119;
- Level II-MA 121, 143 or 117;
- Level III-MA 151 or 171.

No credit can be obtained for an MA course below a student's placement level, no more than 3 hours credit is awarded at Level I and II, and no more than 4 hours credit is awarded at Level III.

Mathematics Major

All majors in mathematics must include MA 171, 172, 201, 244, 330, 385, 442, and 452 (basic core - 27 semester hours). Only MA courses numbered 171 or above may be included in a mathematics major, and an overall average of C is required for all MA courses taken at UAH and included in a mathematics major. Information on other MA course requirements are given in Curricula I and II below. Students who think that substitutions in those curricula can produce a program better suited to their needs should consult their faculty advisor about the feasibility of such substitutions. All MA electives must be approved by the student's faculty advisor prior to registering for the courses. Majors in mathematics must also include CS 107 (or CS 113), PH 111, 112, 114, and 115.

Mathematics Minor or Second Major

Students majoring in other academic areas who wish to minor in mathematics may select, in consultation with and approval of the mathematical sciences faculty, at least 21 semester hours of appropriate courses in mathematics, including 6 semester hours in courses numbered 300 or above. Only MA courses numbered 171 or above may be included in a mathematics minor, and an overall average of C is required for all University of Alabama in Huntsville MA courses included in a minor. A typical mathematics minor consists of MA 171, 172, 201, 244, and two approved MA courses numbered above 300. All minors must include MA 171 and 172.

Students majoring in other academic areas who wish to obtain a more solid background in mathematics than is provided by a minor may pursue a second major in mathematics rather than a minor in mathematics. The courses required for the second major are used to replace the minor courses and some of the free electives in the requirements for programs of study leading to a B.A. or B.S. degree.

242
Curriculum I
B.A. or B.S. degree with a major in mathematics

Mathematics—MA basic core, MA 324, 465, and 9 hours
of electives numbered 300 or above, including at
least one 500 level course, preapproved by student’s
mathematics advisor................................................................. 42
Computer Science—CS 107 or CS 113........................................... 3-4
Physics—PH 111, 112, 114, 115...................................................... 8
Minor ....................................................................................... 21-24
General Education Requirements and Electives (to total
128 semester hours) .................................................................. 50-54

(GER for the B.A. and B.S. degrees are listed in the Academic Information section.)

Curriculum II
B.A. or B.S. degree with a major in mathematics that meets requirements for an Alabama
Class B Middle/Junior High School Teacher’s Certificate or an Alabama Class B High School
Teacher’s Certificate.

Mathematics—MA basic core, MA 333, MA/ST 487 and 6 hours
of electives numbered 300 or above, including at
least one 500 level course, preapproved by student’s
mathematics advisor................................................................. 39
Computer Science-CS 107 or CS 113........................................... 3-4
Physics—PH 111, 112, 114, 115...................................................... 8
Professional education courses....................................................... 33
General Education Requirements and electives.......................... 44-45

NOTES:
1. See Education Department section for general education requirements and professional
education courses.
2. Students pursuing this curriculum should consult with the Education Department early
in their program.

Curriculum III
B.A. or B.S. degree with a double major in mathematics education and elementary educa­
tion. This plan meets requirements for an Alabama Class B Elementary Teacher’s Certificate.
Mathematics education (minimum requirements applicable to
this program only) MA 171, 172, 201, 244, 333, 385, 442 and
two MA electives numbered 300 or above which have been
preapproved by student’s mathematics advisor ............................ 27

NOTES:
1. See Education Department section for general education requirements and professional
education courses.
2. Students pursuing this curriculum should consult with the Education Department early
in their program.
3. Students who elect this curriculum will not be adequately prepared for graduate study in
mathematics.
4. This curriculum will probably require more than the minimum total of 128 hours.
**Appropriate Minors for Mathematics Major**

A student who majors in mathematics is strongly encouraged to select a minor in science or engineering. Typically, such a student minors in computer science, physics, chemistry, or engineering, but other options are available. Any minor must include at least 21 hours in one discipline, with a minimum of 6 hours at 300-level or above. All courses in a minor must be approved by the department concerned and the student's mathematics faculty advisor.

**Mathematics (MA)**

**NOTE:**

1. No student may receive more than 6 hours credit for MA courses numbered below 150 or more than 3 hours credit for MA courses numbered below 120.
2. Students placed at Level II may receive no more than 3 hours credit for MA courses numbered below 150.
3. Students placed at Level III will receive no credit for MA courses numbered below 150.
4. Students with deficiencies of high school algebra or high school geometry credit must remove these deficiencies before enrollment in MA courses numbered 100 or above.
5. No student may enroll in his or her first MA course at UAH before determination of a placement level.

For students with a deficiency in high school credit in algebra or who need an algebra review.

For students with a deficiency in high school credit in geometry. Prerequisite: Basic algebra.

Rational expressions, roots and radicals, algebraic and absolute value equations, inequalities, relations, functions, inverse functions and their graphs, systems of equations, conic sections, exponential and logarithmic functions. No credit given to students who have received credit for another MA course or who place at Level II or above. Prerequisite: Level I placement or removal of mathematics deficiencies.

A single semester review of differential and integral calculus, together with Taylor's Theorem. Intended for those students (graduate as well as undergraduate) who have completed a calculus sequence, but who need a review before taking further courses. Not intended to replace the calculus sequence. Graded on a pass/fail basis only. Prerequisite: Completion of a full calculus sequence (12 hours) with grade of C or better.

Algebra review, functions and graphs, linear models, mathematics of finance, systems of linear equations, matrices, linear programming. No credit given to students who have received credit for another MA course. Prerequisite: Level I or Level II placement.

Should be taken only by students who are going on to the calculus sequence (MA 171, 172, ...). Real number systems, exponents, radicals, factoring, absolute value, inequalities, function notation, functions, inverse functions, graphing techniques, polynomial and rational functions, operations with complex numbers, conic sections, and theory of equations. No credit given to students who have received credit for another MA course or who place at Level II or above. Prerequisite: Level I placement or removal of mathematics deficiencies.
121  Precalculus II 3 hrs.
Should be taken only by students who are going on to the calculus sequence (MA 171, 172,...). Exponential and logarithmic functions, trigonometric functions of angles and real numbers, graphing trigonometric functions, inverse trigonometric functions, solving trigonometric equations, verifying identities, laws of sines and cosines, vectors, trigonometric form of complex numbers, DeMoivre's theorem, summation notation, arithmetic and geometric sequences and series. No credit given to students who have successfully completed an MA course numbered above 121 or who place at Level III. Prerequisite: Level II placement or MA 119 with a grade of C or better.

143  Finite Mathematics 3 hrs.
Linear models, matrix theory, linear programming, graphical and simplex methods of solving systems, sets, counting, probability, decision theory and algebra review. No credit given to students who have successfully completed MA 121 or a higher level MA course or who place at Level III. Prerequisite: Level II placement or MA 105.

145  Mathematics with Applications II 3 hrs.
Exponential and logarithmic functions, continuity, differentiation, applications of the derivative, integration, the fundamental theorem of calculus, applications of the integral. No credit given to students who have already received credit for a calculus course. Prerequisite: MA 117.

151  Survey of Elementary Calculus 3 hrs.
Limits, continuity, derivatives, chain rule, derivative tests, logarithm and exponential functions, applications of the derivative, antiderivatives, fundamental theorem of calculus, applications of the integral. No credit given to students who have received credit for any other calculus course. Designed for students who do not plan further study in calculus. Students planning to continue in calculus should begin with MA 171 instead of this course. Prerequisite: Level III placement or MA 143.

171  Calculus A 4 hrs.
Limits, derivatives, applications of the derivative, definite and indefinite integrals, exponential and logarithmic functions, and inverse functions. Prerequisite: Level III placement or MA 121 with a grade of C or better.

172  Calculus B 4 hrs.
Techniques of integration, applications of the integral, polar coordinates, sequences, series, and conic sections. Prerequisite: MA 171 with a grade of C or better.

201  Calculus C 4 hrs.
Vectors, vector-valued functions, partial derivatives, multiple integrals, vector fields, line and surface integrals. Prerequisite: MA 172 with a grade of C or better.

244  Introduction to Linear Algebra 3 hrs.
No credit given to students who have successfully completed either MA 442 or MA 452. Such students must substitute MA 544. Systems of linear equations, matrices, matrix operations, determinants, vector spaces, bases, dimension of a vector space, inner product, Gram-Schmidt process, linear transformations, change of basis, similar matrices, eigenvalues and eigenvectors, diagonalization, symmetric matrices, and applications. Prerequisite: MA 172 or MA 143, 151.

324  Introduction to Differential Equations 3 hrs.
Elementary introduction to differential equations: first-order differential equations, Euler's numerical method, basic theory of higher-order linear differential equations, equations with constant coefficients, Cauchy-Euler equations, variation of parameters, the Laplace transform, introduction to linear systems of differential equations. Prerequisite: MA 201 and 244 (corequisite)
330 Foundations of Mathematics
Symbolic logic and methods of proof, set theory, combinations and permutations (equivalence) relations and functions, mathematical induction and recurrence relations, cardinality (finite, countably infinite, and uncountable sets), and decimal representation of the rational and real numbers. Prerequisites: MA 172 and either MA 201 or MA 244.

333 Introduction to Geometry
Axiomatic development of geometry. Introduction to non-Euclidean geometries with emphasis in elliptic and hyperbolic geometries. Selected topics in Euclidean geometry. Prerequisite: MA 244 or approval of instructor.

385 Introduction to Probability
No credit given to students who have successfully completed MA 585. Finite probability spaces, conditional probability, random variables, expectations, variances, covariances, introduction to binomial, Poisson, uniform, exponential, and normal distributions. Prerequisites: MA 151 or 172, and one MA course at the 200-level or above.

415 Introduction to Numerical Methods
Derivation and analysis of approximate methods for the solution of nonlinear equations, interpolation and integration of functions, and techniques for the solution of systems of linear equations and for approximating solutions of elementary differential equations. Prerequisites: MA 244, 201, CS 107 or CS 113, and one MA course at the 300-level or above. Lab fee: Level 4.

442 Algebraic Structures with Applications
Logic and mathematical proofs, mappings, binary operations, equivalence relations, groups and subgroups, Lagrange’s theorem, homomorphisms and isomorphisms, normal subgroups and quotient groups, rings, integral domains, fields, error correcting codes, linear codes, decoding, partially ordered sets, lattices, Boolean algebras, and applications. Prerequisites: MA 244 and at least one MA course at 300-level or above.

452 Introduction to Real Analysis
Sequences, limits, continuity, differentiation of functions of one real variable, Riemann integration, uniform convergence, sequences and series of functions, power series, and Taylor series. Prerequisite: MA 324 or 442 or approval of instructor.

460 Introduction to Fourier Analysis
Brief development of trigonometric and exponential Fourier series, derivation of the classical Fourier transform from Fourier series, classical properties of Fourier transforms, transforms of functions, convolution, elementary development of the delta function, transforms of periodic functions, use of transforms to solve systems, introduction to the discrete transform and/or multidimensional transforms, as time permits. Prerequisites: MA 244, 324.

465 Introduction to Mathematical Modeling
Applying mathematics by formulating, analyzing, and criticizing mathematical models of various phenomena. Examples will be chosen from the physical, biological, and social sciences. Emphasizes development and use of simple mathematical models by having students study general modeling principles and case studies (some open-ended) drawn from various sources. Prerequisites: MA 244, 324.

487 Introduction to Mathematical Statistics
Brief review of basic probability theory, sampling distributions, estimations, hypothesis testing, experimental design, correlation and regression, analysis of variance, and nonparametric statistics. Prerequisites: MA 201 and either MA 385 or ISE 390. Lab Fee: Level 4. (Same as ST 487)
490 Selected Topics in Undergraduate Mathematics
1-3 hrs.
Requested undergraduate topics. Prerequisite: Approval of instructor.

499 Mathematics Project
1 hr.
Individualized special projects in mathematics and its applications for superior undergraduate students. No credit allowed toward a major or minor in mathematics. S/U grading. Prerequisite: approval of department chair.

502 Introduction to Real Analysis
(See MA 452)
3 hrs.

503 Introduction to Complex Analysis
3 hrs.
Complex algebra, analytic functions, Cauchy-Riemann equations, exponential, trigonometric, and logarithmic functions, integration, Cauchy integral theorem, Morera's theorem, Liouville's theorem, maximum modulus theorem, residue theory, Taylor and Laurent series, and applications. Prerequisite: MA 452 or approval of instructor.

504 Intermediate Differential Equations
3 hrs.
Elementary introduction to more advanced topics in differential equations: linear systems of differential equations, nonlinear autonomous systems, critical points, Liapunov's method, limit cycles, Poincare-Bendixson theorem and strange attractors, power series solutions, Frobenius series solutions. Prerequisites: MA 244, 324.

506 Methods of Partial Differential Equations
3 hrs.
Survey of theory and methods for solving elementary partial differential equations. No credit given to students who have successfully completed MA 526. Topics include first-order equations and the method of characteristics, second-order equations, reduction to canonical form, the wave equation, the heat equation, Laplace's equation, separation of variables, and Fourier series. Prerequisites: MA 244, 324.

508 Applied Linear Algebra
3 hrs.
Solving systems of equations, finding inverses of matrices, determinants, vector spaces, linear transformations, eigenvalues and eigenvectors, normal matrices, canonical forms of matrices, applications to systems of linear differential equations, and use of computer software such as MATLAB. No credit given to students who have successfully completed MA 544. Prerequisites: MA 244, 324.

515 Introduction to Numerical Analysis
3 hrs.
Analysis and derivation of numerical methods for: the approximate solution of nonlinear equations; interpolation and integration of functions; approximating solutions of ordinary differential equations. Prerequisites: MA 201, 244, 324, CS 107 or CS 113, plus one 500-level (or higher) MA course. Lab Fee: Level 4.

524 Dynamical Systems I
3 hrs.
Scalar autonomous equations; existence, uniqueness, stability, elementary bifurcations; planar autonomous equations; general properties and geometry, conservative systems, elementary bifurcations linear systems, reduction to canonical forms, stability and instability from linearization. Liapunov functions, center manifolds, Hopf bifurcation. Prerequisites: MA 244, 324, 452.

526 Partial Differential Equations I
3 hrs.
Introduction to the theory for solving partial differential equations. No graduate credit given to students who have completed MA 506 for graduate credit. Topics include second-order equations, reduction to canonical form, well-posedness, the classical equations (wave, heat, and Laplace's) in one and several dimensions, separation of variables, Fourier series, general eigenfunction expansions, Sturm-Liouville theory, first-order linear and quasilinear equations, and shocks. Prerequisites: MA 502, one other 500-level MA course. (MA 506 is NOT a prerequisite.)
538 Metric Spaces with Applications  
Metric spaces, continuous functions, compactness, connectedness, completeness, Arzela-Ascoli theorem, Stone-Weierstrass theorem, Hilbert spaces, contraction mappings, applications to existence and uniqueness of solutions of differential and integral equations. Prerequisites: MA 502 and at least one other MA course at the 500-level or above.

540 Combinatorial Enumeration  
Counting, pigeonhole principle, permutations and combinations, generating functions, principle of inclusion and exclusion, Polya’s theory of counting. Prerequisite: MA 442 or approval of instructor.

542 Algebra  
Topics from group theory and ring theory: subgroups, normal subgroups, quotient groups, homomorphisms, isomorphism theorems, ideals, principal ideal domains, Euclidean domains, fields, extension fields, elements of Galois theory. Prerequisite: MA 442 or approval of instructor.

544 Linear Algebra  
Vector spaces, bases, linear transformations, matrices, determinants, eigenvalues, similarity, Jordan canonical forms, dual spaces, bilinear forms, quadratic forms, orthogonal and unitary transformations. Prerequisites: MA 244 and at least one MA course at 300-level or above.

560 Intermediate Fourier Analysis  
Brief review of classical Fourier analysis, Parseval’s equality, Gaussian test functions. Introduction to generalized functions, the generalized transform, the generalized derivative, sequences and series of generalized functions, regular periodic arrays of delta functions, sampling, the discrete transform, the fast Fourier transform (other topics as time and interest permit). Prerequisites: MA 244, 324, acquaintance with classical Fourier analysis (such as covered in MA 460).

565 Intermediate Mathematical Modeling  
Designed for beginning graduate students. No prior experience in formal mathematical modeling is required. In-depth discussion of some types of models from physics, the life sciences, and/or the social sciences, with formulation, analysis, and criticism of the models. Process of and factors involved in formulating a model is of prime importance. Content is divided into approximately one-half deterministic modeling and one-half stochastic modeling. Prerequisites: MA 244, 324, 385, one MA course at 400-level or above, and CS 107 or equivalent.

585 Probability  
Probability theory and its applications. Independent trails, discrete and continuous random variables, law of large numbers, basic distributions, sums of independent random variables, sequences of random variables, central limit theorem, and convergence in distribution. Prerequisites: MA 201 and one of MA 385, ISE 390, MA/ST 487, or approval of instructor.

590 Selected Topics in Mathematics  
Requested selected topics.
Statistics (ST)

281 Elements of Statistical Analysis I
Descriptive statistics, fundamentals of probability theory, fundamentals of statistical inference, including estimation and hypothesis testing, and use of a typical statistical package such as MINITAB. Prerequisite: MA 172 or 151. Student cannot receive credit for more than one of ST 281, MSC 287, or AHS 300. Lab Fee: Level 4.

381 Elements of Statistical Analysis II
Analysis of variance and multiple comparisons, analysis of covariance, multiple regression and correlations, nonparametric methods, and use of a typical statistical package such as MINITAB. Prerequisite: ST 281 or approval of instructor. Lab Fee: Level 4.

487 Introduction to Mathematical Statistics
Brief review of basic probability theory, sampling distributions, estimations, hypothesis testing, experimental design, correlation and regression, analysis of variance, and nonparametric statistics. Prerequisites: MA 201 and either MA 385 or ISE 390. Lab Fee: Level 4. (Same as MA 487)

Optical Science Program

Professors Dimmock, Duthie, Emslie (Chair), Sung; Research Professor Barr; Associate Professors Chipman, Gregory, Hillman.

Optical Science Major
Optics is a multidisciplinary field that requires knowledge in both the physical sciences and engineering. The B.S. degree in optical science consists of a major in optics with background courses in physics, computer science, and mathematics. The program produces professionals who are able to move immediately into government or private industry and work in many of the areas of optics such as optical system analysis and design, image processing, optical sensors, laser development and holography. Optical science graduates are also well prepared for graduate work in optics, physics or related fields.

Optical science majors receive a strong exposure to geometrical and physical optics, then select from a range of contemporary electives such as electro-optics, lasers, polarimetry, and radiometry. An advanced series of laboratories taken in the senior year provides exposure to contemporary equipment and modern optical techniques.

The following table shows the curriculum requirements and a typical program of study. Students are encouraged to file a Program of Study, in consultation with their faculty advisor, at the earliest opportunity.

Curriculum for B.S. Degree in Optical Science
1. General Education Requirements (Consult the catalog section dealing with GER for B.S. degree for details.)
EH 101-102 .................................................. 6 hrs.
Literature (See options in GER section of catalog.) .................................................. 6 hrs.
HY 101-102 .................................................. 6 hrs.
Social Science (One discipline) .................................................. 6 hrs.
Fine Arts .................................................. 6 hrs.
Foreign Language .................................................. 6-12 hrs.
or Communication Skills (CS 107 or 113; CM 113; EHT 301) .................................. 10 hrs.
TOTAL 36-42 hrs.
2. Areas of Concentration

#Select two from OPT 444, 446, 447, OPE 453, 454.

Courses in parentheses are suggested electives, especially for those considering entry into graduate school.

**Minor**

A minimum of 21 semester hours of course work is required for a minor in optical science. A request for the minor should be initiated by the department in which the student is majoring. The courses should include: OPT 341, 342, 411, 412, 441, 442, OPE 456, plus one of the following: OPT 444, 445, 446, or 447.

**Optical Science (OPT)**

**341 Geometrical Optics**

Introduction to the concepts and principles of geometrical optics. Rays and wave fronts, Fermat’s principle, Snell’s law, dispersion, systems of plane mirrors and prisms, paraxial rays, paraxial design, thin lenses and thick lenses, introduction to aberrations and ray tracing. Prerequisite or parallel: PH 113. (Same as PH 341.) Fall.

**342 Physical Optics**

Electromagnetic waves, simple harmonic motion, superposition of waves, interference of light, Young’s double slit experiment, diffraction gratings, diffraction, speed of light, light sources and their spectra, absorption and scattering, dispersion, polarization. Prerequisites: OPT 341, PH 205. (Same as PH 342) Spring.

**411 Geometrical Optics Laboratory**

Introduction to optical laboratory techniques, focus and alignment with incoherent and coherent sources, the nodal slide, thin lenses, thick lenses, and lens systems, the effects of apertures and stops, reflection, refraction and dispersion, aberrations, elements of radiometry. Prerequisite: PH 116, OPT 341. Prerequisite or parallel: OPT 441. Lab Fee: Level 5. (Same as PH 411.) Fall.

**412 Physical Optics Laboratory**

Introduction to physical optics phenomena, Young’s double slit experiment, Lloyd’s mirror, Fresnel biprism, Newton’s rings, intensity distribution in fringe systems, Michelson interferometer, Fabry-Perot interferometer, Fresnel and Fraunhofer diffraction, diffraction by circular, rectangular and multiple openings, diffraction gratings. Prerequisite: PH 116, OPT 342, OPT 442 (may be taken in parallel) or EE 382. Lab Fee: Level 5. (Same as PH 412 and OPE 455.) Spring.
441 Optical Systems Design 3 hrs.
Intermediate geometrical optics, first-order optics, linear transformations, paraxial
optics, reflection and transmission at an interface, polarized light, Jones and Mueller cal­
culi, matrix methods, ray tracing, apertures and stops, third order optics and aberrations.
Prerequisite: OPT 342. (Same as PH 441, OPE 441 and EE 461.) Fall.

442 Interference and Diffraction 3 hrs.
Two beam interference, multiple beam interference, optical testing. Fraunhofer diffraction,
fresnel diffraction, the Fourier transform, Fourier methods in optics, Coherence,
Holography. Prerequisite: OPT 441 OR PH 431. (Same as PH 442, OPE 442 and EE
462.) Spring.

444 Optoelectronics 3 hrs.
Review of polarized light and the Jones and Mueller calculi. Propagation of light in bire­
fringent material, modulation of light using electro-optic effect, Kerr effect, acousto­
optic effect, and Faraday effect. Elements of photodetection and detectors, signal pro­
cessing, and signal-to-noise. Design and analysis of beam scanners, optical rf-spectrum
analyzer, optical sensors, and optical communication systems. Prerequisite: OPT 342.
(Same as PH 544 and OPE 451.) Fall.

445 Introduction to Lasers 3 hrs.
Introduction to the concepts and principles of lasers. Stimulated emission, light amplifi­
cation, optical pumping, optical resonator theory, cavity modes, gas lasers, solid state
lasers, laser applications, gaussian beams, coherence, holography. Prerequisites: PH
432, PH 451. Spring.

446 Radiometry 3 hrs.
Theory and practice of radiometry and photometry. Blackbody radiation and Lambertian
sources. The propagation of radiant energy in free space and through optical systems.
Detector classes, responsivity, bandwidth, and noise. Fluctuations and statistics of elec­
tromagnetic fields. Prerequisite: OPT 342. (Same as PH 546.) Spring.

447 Polarized Light 3 hrs.
Linear, circular, and elliptical polarization of light. Stokes vectors, Measuring polarized
light. Polarizers and retarders. Mueller and Jones calculi. Interference of polarized light,
Polarization properties of crystals and thin films, Polarization ray tracing. Prerequisites:
OPT 341, 342. Fall, even years.

Physics Department

Professors Dimmock, Duthie, Emslie (Chair), F. Franz, J. Franz, Horwitz, F. Rosenberger,
Smalley, Sung, van Paradijs; Research Professors Barr, Comfort, Paciesas, Takahashi;,
Associate Professors Alexander, Chipman, Gregory, Hillman; Assistant Professors Lieu,
Miller; Assistant Research Professors Pendleton, Wilson; Lecturer Seeley, Strong.

The undergraduate program in physics is designed to provide the foundation necessary for
either continued study in graduate school or for a terminal degree leading to professional
employment. The curriculum contains additional options for those wishing to place increased
emphasis upon optics, materials science, engineering physics, astrophysics, or secondary
school teaching.
Physics Major

The basic courses for a B.S. degree with a major in physics include PH 111, 112, 113, 114, 115, 116, 205, 301, 302, 305, 310, 311, 337, 416, 421, 431, 432, 451, 452. Six approved curricula are listed. Other programs may be approved after consultation with the student’s faculty advisor. Students are encouraged to file a Program of Study, in consultation with their faculty advisor, at the earliest opportunity.

Physics Minor

Curriculum I

For working professionally at the B.S. level or preparation for graduate school.

</tbody>
</table>

NOTES:

1. This curriculum will probably require more than the minimum total of 128 semester hours.
2. Students pursuing this curriculum should consult with the Department of Education early in their program.
3. It is possible for the general education requirements to count toward the second teaching area. Early academic advisement is recommended for students who wish to pursue this option.
4. A general sciences composite major covering the areas of chemistry, biological sciences, environmental science and physical sciences is possible under this curriculum. Interested students should consult the Education Department.
Curriculum VI

B.S. degree with a major in physics for students interested in astrophysics.

**Astronomy (AST)**

**106 General Astronomy I**

Introduction to astronomy and astrophysics with emphasis on quantitative aspects of physical phenomena occurring in the universe. The solar system, motion of the earth, seasons, the sun, the moon and tides. Telescope systems and their uses, positional astronomy and navigation. Laboratory included. AST 106 and 107 satisfy GER laboratory science requirements. Prerequisite: high school algebra and trigonometry. Lab Fee: Level 4. (Same as PH 106.) Fall.

**107 General Astronomy II**

Continuation of AST 106. Stellar structure and evolution. Galactic structure. Dynamics of the universe-cosmology. End products of stellar evolution-white dwarves, neutron stars, black holes. Laboratory included. Prerequisite: AST 106. Lab Fee: Level 4. (Same as PH 107.) Spring.
371 Introduction to Astrophysics 3 hrs.
Description and general properties of astrophysical objects; radiation theory, spectral classification and the Hertzsprung-Russell diagram; determination of physical properties, luminosity classes, properties of solar and stellar atmospheres, the astronomical distance pyramid; introduction to cosmology. Prerequisites: PH 113, MA 201. (Same as PH 371.) Fall.

471 Stellar Atmospheres and Interiors 3 hrs.
Classification of stellar spectra; radiative transfer; stellar atmospheres; spectral line profiles; curve of growth. Equations of stellar structure; hydrostatic equilibrium and stability; theory of polytropes; structure of "real" main-sequence stars; stellar evolution; compact stellar objects (white dwarves, neutron stars, black holes). Prerequisite: AST 371. (Same as PH 471.) Spring, odd years.

472 Galactic Structure and Cosmology 3 hrs.
Galactic structure. Oort's constants and rotation curve; clustering and superclustering; special and general relativity; Friedmann cosmologies; observational tests; physics of the early Universe-Grand Unified Theories; symmetry breaking; inflationary models; relation to particle physics. Prerequisite: AST 471. (Same as PH 472.) Fall, odd years.

473 High Energy Astrophysics 3 hrs.
Observational techniques; radiation processes; physics of X-ray and gamma-ray sources; low-mass and high-mass X-ray binaries; cataclysmic variables; high-energy aspects of solar flares; gamma-ray bursts; origin and composition of cosmic rays; neutrino emission and detection. Prerequisite: AST 471. (Same as PH 473.) Spring, even years.

Physics (PH)
Prerequisites for physics courses listed may be waived by instructor or department chair for auditors or students with equivalent experience.

100 Conceptual Physics 4 hrs.
Survey course for non-science majors as well as science majors seeking to improve their understanding of physics laws and their application. Approach is conceptually based, with essentials and physical meaning of the laws of nature being emphasized over a rigorous mathematical interpretation. Topics include the development of experimental investigation; classical physics and the concepts of motion, force, energy, gravitation, electricity and magnetism, and light; modern physics and the quantum mechanical revolution; as well as the physics of everyday phenomena, and a few philosophical implications. Lab Fee: Level 4. Spring.

101 General Physics 4 hrs.
Introductory course for non-science student. Phenomenological in nature with emphasis on understanding basic ideas of physics and ability to apply these ideas to specific problems. Newtonian mechanics, conservation laws, electrostatics, and currents. Laboratory included. PH 101 and 102 satisfy laboratory science requirement. Prerequisite: high school algebra. Lab Fee: Level 4. Fall.

102 General Physics II 4 hrs.

106 General Astronomy I 4 hrs.
Introduction to astronomy and astrophysics with emphasis on quantitative aspects of physical phenomena occurring in the universe. The solar system, motion of the earth, seasons, the sun, the moon and tides. Telescope systems and their uses, positional astronomy and navigation. Laboratory included. PH 106 and 107 satisfy laboratory science requirements. Prerequisite: high school algebra and trigonometry. Lab Fee: Level 4. (Same as AST 106.) Fall.

431 Intermediate Electricity and Magnetism I
Basic concepts of electrostatics, electric potential theory, electric fields and currents, field of moving charge including relativistic treatment, magnetic fields, Maxwell's equations. Prerequisites: PH 205, MA 201. Prerequisite or parallel: MA 324. Fall.

432 Intermediate Electricity and Magnetism II
Continuation of PH 431. Development of Maxwell's equations for time-varying fields, basic concepts of AC circuit theory, electric fields in matter, magnetic fields in matter, modern applications. Prerequisite: PH 431. Spring.

441 Optical Systems Design
Intermediate geometrical optics, first-order optics, linear transformations, paraxial optics, reflection and transmission at an interface, polarized light, Jones and Mueller calculi, matrix methods, ray tracing, apertures and stops, third-order optics and aberrations. Prerequisite: PH 342. (Same as OPT 441 and OPE 441.) Fall.

442 Interference and Diffraction
Two beam interference, multiple beam interference, optical testing, Fraunhofer diffraction, Fresnel diffraction, the Fourier transform, Fourier methods in optics, coherence, holography. Prerequisite: PH 431 or 441. (Same as OPT 442, OPE 442 and EE 462.) Spring.

451 Introductory Quantum Mechanics I
Waves and particles; Bohr's model of the atom; deBroglie waves, wave-packets and the uncertainty principle; postulates of quantum mechanics; Schroedinger's equation; simple systems in one, two and three dimensions; the hydrogen atom. Prerequisites: PH 205, 301, MA 244, 324. (Same as PH 551, CH 553, and MTS 651.) Fall.

452 Introductory Quantum Mechanics II
Angular momentum and spin; atomic structure and spectrum; time-independent perturbation theory, variational methods; time-dependent perturbation theory and interactions of light with matter; scattering theory; electronic structure of solids; relativistic quantum mechanics. Prerequisite: PH 451. (Same as PH 552, CH 554, and MTS 652.) Spring.

471 Stellar Atmospheres and Interiors
Classification of stellar spectra; radiative transfer; stellar atmospheres; spectral line profiles; curve of growth. Equations of stellar structure; hydrostatic equilibrium and stability; theory of polytropes; structure of "real" main-sequence stars; stellar evolution; compact stellar objects (white dwarves, neutron stars, black holes). Prerequisite: PH 371. (Same as AST 471.) Spring, odd years.

472 Galactic Structure and Cosmology
Galactic structure. Oort's constants and rotation curve; clustering and superclustering; special and general relativity; Friedmann cosmologies; observational tests; physics of the early Universe-Grand Unified Theories; symmetry breaking; inflationary models; relation to particle physics. (Same as AST 472.) Fall, odd years.

473 High Energy Astrophysics
Observational techniques; radiation processes; physics of X-ray and gamma-ray sources; low-mass and high-mass X-ray binaries; cataclysmic variables; high-energy aspects of solar flares; gamma-ray bursts; origin and composition of cosmic rays; neutrino emission and detection. (Same as AST 473.) Spring, even years.
Library

Dean Wilson Luquire, Ph.D.
Professor Luquire; Associate Professors Herring, Kendrick, Pollard, Warren;
Assistant Professors Freeman, McNamara; Lecturer Mead.

Library research courses provide students with the skills necessary to complete their academic studies and to prepare for successful professional lives. The method and material covered here would support students in a lifetime of research and learning.

Library research courses are offered as electives only, with the exception of BIB 230 (Library Research in Business and Economics) which is a required course for students in the College of Administrative Science.

Bibliography (BIB)

100 Introduction to Library Research 2 hrs.
Introduces students to the organization and use of university libraries and their collections. Focuses on successful research techniques utilizing reference materials, indexes and abstracts, government documents, and computerized information sources. Includes practical applications of both traditional and computerized resources. Lab Fee: $10. Offered Fall and Spring.

230 Library Research for Business and Economics 1 hr.
Library research methods and information sources in business and economics; the organization of the UAH Library, basic business and economics research materials, and introduction to basic sources of information about corporations and industries. Lab Fee: $10. Offered Fall and Spring.

310 Library Research for Languages and Literature 2 hrs.
Library research methods in the subject areas of language and literature; reference and research materials.

320 Library Research in American and European History 2 hrs.
Library research methods in American and European history; reference and research materials. Lab Fee: $10.

355 Library Research in the Physical Sciences and Engineering 2 hrs.
Research methods and materials in science and engineering. Examines information flow in the professional literature. Focuses on the use of reference materials, indexes and abstracts, and computerized sources specific to the sciences and engineering. Includes practical applications of both traditional and computerized tools and resources. Lab Fee: $10.

Division of Continuing Education

Director: C. Michael Oliver, B.S., M.S., Ed.D.

The mission of the Division of Continuing Education is to administer special activities which respond to the University’s internal and external needs by providing the highest quality opportunities for credit and non-credit program development. Such programs are designed to assist attendees to become more effective in their personal and professional lives by building on the strengths and expertise of the University’s faculty, departments, and colleges. The Division serves to stimulate lifelong learning through identifying educational needs in the region and providing access to such curricula at different times and locations. This accountability is carried out through the departments of Distance Learning; Science and Engineering; Business and Management; Personal Development; Sports and Fitness; and Teaching the Future.

Distance Learning

Distance Learning at UAH meets the changing environment’s demand for more convenient educational delivery. UAH offers courses to distant locations using both interactive telecommunications and video tape.

The Intercampus Interactive Telecommunication System (IITS) is a full-service video-conferencing network within the University of Alabama System. Currently the IITS comprises more than 20 video-conferencing rooms across Alabama, with sites in Auburn, Atmore, Birmingham, Brewton, Eufaula, Gadsden, Huntsville, Jasper, Montgomery, Phil Campbell, Tuscaloosa, Tuscumbia, and other locations. The IITS also offers connectivity to other video-conferencing rooms within Alabama, other states, and other countries.

Participants at UAH see, hear, and speak to individuals at other locations as if they were all sharing one classroom. One of the room’s two video monitors continuously shows the UAH room, while the other monitor switches by voice activation between distant rooms.

The IITS facility at UAH is located in Room 205 of the Administrative Science Building. All cameras, monitors, fax machines and other items necessary for video-conferencing are installed in the room. Room coordinators manage equipment for all activities, and also assist in planning courses and meetings.

IITS courses are listed in the UAH semester Timetable of Classes and are also advertised internally by host departments. For more information, call 1-800-239-6013 or (205) 890-6015.

Science and Engineering

This department develops and presents professional training and educational activities in the areas of science, engineering, engineering management, computer applications, and technical programming languages. Using University faculty and top industry personnel as
instructors guarantees high quality seminars and customized training for organizational clients in business, industry, and government. Science and Engineering strives to increase the productivity and effectiveness of its clients by offering courses on current trends and latest technological breakthroughs in industry. This department is a supplier of training with specific emphasis focused in the following categories: programming languages, databases, and operating systems; advanced technology; space and missile systems technology; systems engineering and quality assurance/control; network engineering certification and training; professional engineering certification and training; computing for business applications; multimedia certification and training; software engineering; simulation technology; information technology, and environmental technology and compliance. For more information, call (205) 890-6015 or 1-800-239-6015.

**Business and Management**

The department of Business and Management offers public and in-house courses and certificate programs in the areas of business, management, and staff development. Seminars and customized training activities are provided for individual or organizational clients in business, industry, and government. Certificate programs and professional review series are offered in areas such as contract management, project management, supervisory development, ISO9000, and secretarial and administrative skills.

The department is also responsible for the development and coordination of University conferences and workshops in cooperation with industry, professional associations, government agencies, and UAH colleges and research centers. Programs primarily highlight the specialized interests and research thrusts of the University and the north Alabama region. Conferences include Aerospace Environmental Technology, Information Currents, and the Wernher von Braun Exploration Forum.

For more information on Business and Management programs or UAH conferences, call (205) 890-6372 or 1-800-448-4035.

**Personal Development**

The Personal Development Department offers non-credit and credit courses designed to enhance and improve the quality of life for people of all ages in the area. Courses are developed to respond to the special interests and scheduling needs of non-traditional students. Courses meet on the UAH campus and at convenient off-campus centers.

Non-credit programs include Elderhostel and the Academy for Lifetime Learning (the Academy) for mature adults, academic Kids’ College for ages 5-17, self-enrichment courses in a variety of academic areas, certificate programs in photography and interior design, certificate series in horticulture, gerontology, computer graphics, and antiques and collectibles. In cooperation with academic departments of the University, credit courses are scheduled both on and off campus, late night, early morning, and weekends. For more information, call (205) 890-6355 or 890-6007.

Personal Development also coordinates the Listener’s License program, which allows participants who have or have not been previously admitted to the University to attend regular credit classes. Listeners are not required to take tests or satisfy attendance requirements. The Listener’s License fee is $59 per course for undergraduate courses and $89 per course for graduate courses. Some courses have associated laboratory fees. Listeners have UAH Library privileges while participating in the program, but must purchase a UAH parking decal. Only select courses are available through the Listener’s License program, and no academic or CEU credit is awarded. Students under disciplinary or academic suspension from any college or university are ineligible to register as listeners. A course taken as a Listener’s License participant may not be petitioned for credit by examination. To determine which courses are available for Listener’s License, call (205) 890-6355.
Sports and Fitness
Fitness, active participation, and good health habits are essential in today’s society. Through health and physical education course offerings, one can improve one’s fitness level, learn lifetime leisure skills, and participate in a wide variety of sports and fitness activities. Some of these courses provide professional training and/or meet certification standards. A variety of sports camps and programs are offered for youth, ages 6 months through 17 years.

Domestic and foreign travel programs are also offered. These programs are based on an educational theme and study in such areas as art, music, history, and sports. The study of local culture is emphasized. Professional training courses in travel are also offered. For additional information, call (205) 890-6077.

Teaching the Future
Teaching the Future develops and conducts in-service, graduate credit programs that provide hands-on experience for elementary and secondary professional educators in the fields of science, mathematics, and social studies. In an effort to improve science education in the nation’s schools, several of the programs acquaint educators with all dimensions of current developments in space science, including social and international implications. Programs include Space Orientation for Professional Educators (SOPE), Capital-Area Space Orientation (CASO), and International Aerospace Education: Russian Space Studies. For more information, call (205) 890-6835 or 1-800-448-4032.

Marketing
A Continuing Education catalog (published each term) and brochures of complete course descriptions are available by calling the Division of Continuing Education’s Marketing Department at (205) 890-6274. The Marketing Department provides the creation and production of promotional material, in addition to functioning in a market research capacity for the Division. This support group has the responsibility for working with each programming department to create the best strategy, message, delivery method, and follow-up analysis to facilitate the Division’s mission.

Registration and Course Information
Registration for Continuing Education is handled by the Division of Continuing Education’s Business Office located in Wilson Hall, Room 124, or by calling (205) 890-6010 or 1-800-448-4031. Registration in non-credit courses does not require admission to UAH as a regular student; however, admission may be required in order to register for certain credit courses. Policies governing credit and non-credit courses taken through the Division are as follows:

Credit Courses
If a student wishes to apply a continuing education credit course towards a degree, the student must first be admitted to UAH as a degree candidate; and second, the credit must be approved by the appropriate academic department chair.

If a student does not wish to receive academic credit for a credit course, he or she may choose to audit the course. The audit option has no grading, testing, or attendance requirements. This request must be made at the time of registration.

Non-Credit Courses
Continuing Education Units (CEUs) are awarded to students who satisfactorily complete non-credit courses. One CEU is equal to 10 contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction. The number of CEUs awarded for each class is designated in each course description. A record of CEUs is kept by the Division of Continuing Education, and an official transcript may be obtained upon written request to the Business Office. A $3 fee is charged per transcript.
Training and Meeting Facilities

The Division of Continuing Education utilizes the auditoriums, training facilities, class­rooms, and residential accommodations located on the UAH campus. In addition, the division has its own computer training facilities equipped with three PC laboratories. Sports and fitness activities are centrally located in Spragins Hall, an on-campus facility that contains an indoor pool, racquetball courts, gymnasium, weight room, and aerobic area. Other continuing education activities are held at various locations throughout the community.

The Division of Continuing Education’s central offices are located in Wilson Hall.

Full Time and Emeritus Faculty

(Date refers to original appointment to the university; asterisk designates Graduate Faculty.)

ABUSHAGUR, MUSTAFA, B.Sc. (Tripoli University), M.Sc., Ph.D. (California Institute of Technology). Professor of Electrical Engineering, 1984.*

ADHAMI, REZA, B.S.E., M.S.E., Ph.D. (University of Alabama, Huntsville). Associate Chair and Associate Professor of Electrical Engineering, 1984.*

AHMAD, ANEES, B.Sc. (University of Engineering and Technology, Bangalore, Pakistan), M.Sc. (University of New Brunswick, Canada), Ph.D. (University of Houston). Associate Research Professor of Optical Science and Engineering, 1989.*

ALEXANDER, J. IWAN D., International Baccalaureate (United World College of the Atlantic, Wales) B.Sc. (University College Swansea, Wales), Ph.D. (Washington State University). Associate Director of the Center of Microgravity Materials Research and Associate Professor of Physics, 1991.

ALLEN, W. DAVID, B.A., M.A. (Eastern Illinois University), Ph.D. (University of Arkansas), Assistant Professor of Economics, 1994.

AMES, KAREN K., B.S. (Stanford University), Ph.D. (Cornell University). Associate Professor of Mathematical Sciences, 1990.*

AMIN, ASHOK T., B.S. (University of Baroda, India), M.S. (University of Tennessee), Ph.D. (Northwestern University). Professor of Computer Science, 1984.*

ANDERSON, ELMER E., A.B. (Occidental College), M.S. (University of Illinois), Ph.D. (University of Maryland). University Professor Emeritus, 1979.*

ANDERSON, GLORIA J., R.N. (Mobile General Hospital School of Nursing), B.S.N. (Indiana University), M.S.N. (University of Alabama, Birmingham). Associate Professor of Nursing, 1972.*

ARABSHAHI, PAYMAN, B.S.E.E. (University of Alabama, Huntsville), M.S.E.E., Ph.D. (University of Washington). Visiting Assistant Professor of Electrical and Computer Engineering, 1994.*

ARENDALE, WILLIAM F., B.S. (Middle Tennessee State University), M.S., Ph.D. (University of Tennessee). Professor Emeritus, 1964.

ASUNDI, MANEESHA, B.S., M.S. (S.N.D.T. University), M.S., Ph.D. (University of Oklahoma). Assistant Professor of Education, 1995.*

AUDEH, NADEEM F., B.S. (South Dakota State College), M.S., Ph.D. (Iowa State University). Professor of Electrical Engineering, 1964.*

BAIRD, JAMES K., B.S. (Yale University), M.A., Ph.D. (Harvard University). Professor of Chemistry, and Director, Joint Materials Science Doctoral Program. 1982.*
BANERJEE, PARTHA P., B.Tech (Indian Institute of Technology), M.S., Ph.D. (University of Iowa). Professor of Electrical and Computer Engineering, 1991.*

BANSIYA, JAGDISH, B.S. (University of Roorkee), M.S., Ph.D. (University of Alabama, Huntsville). Lecturer in Computer Science, 1995.*

BARR, THOMAS A., B.S. (University of Chattanooga), M.S., Ph.D. (Vanderbilt University). Research Professor of Physics, 1982.*

BIGGS, ALBERT W., B.S. (Southwest Missouri State University), M.S. (Stanford University, Ph.D. (University of Washington), P.E. Professor Emeritus, 1984.*

BILLINGS, C. DAVID, B.S. (Southwest Missouri State University), Ph.D. (University of Missouri, Columbia). Dean of the College of Administrative Science and Professor of Finance, 1981.*

BLISS, JAMES P., B.A., M.S., Ph.D. (University of Central Florida). Assistant Professor of Psychology, 1993.*

BOLLINGER, LAUREL A., B.A. (St. Olaf College), Ph.D. (Princeton University). Assistant Professor of English, 1993.*

BOWER, MARK V., B.S.E., M.S.E., Ph.D. (University of Michigan), P.E. Associate Professor of Mechanical Engineering, 1984.*

BOYER, D. ROYCE, B.M. (Butler University), M.A. (Catholic University of America), D.M.A. (University of Texas, Austin). Professor of Music, 1966.

BOYKIN, TIMOTHY B., B.S.E.E. (Rice University), M.S.E.E., Ph.D. (Stanford University). Assistant Professor of Electrical and Computer Engineering, 1992.*

BRAINERD, JEROME J., B.S., M.S. (University of Notre Dame), Ph.D. (Cornell University), P.E. Associate Professor Emeritus, 1965.

BROWN, ROBERT A., B.S. (U.S. Naval Academy), M.S., Ph.D. (Ohio State University), P.E. Professor Emeritus, 1967.

BRYSON, ROSCOE E., JR., B.B.A. (Memphis State University), M.B.A., Ph.D. (Georgia State University), C.P.A. Associate Professor of Accounting, 1976.*

BUKSA, IRENA, M.A. (University of Warsaw, Poland), D.A. (Syracuse University). Associate Professor of Slavic Languages, 1990.
BURNETT, JOHN E., B.S. (University of New Mexico), M.A. (Claremont Graduate School), Ph.D. (University of Alabama, Tuscaloosa). Assistant Professor of Finance, 1992.*

BUTTS, TED M., B.S. (Mississippi State University), M.A., Ph.D. (University of Alabama, Tuscaloosa). Assistant Professor Emeritus, 1968.

CAMPBELL, MELINDA, B.F.A. (California State University, Northridge), M.A., Ph.D. (University of California, Davis). Assistant Professor of Philosophy, 1993.

CAMPBELL, P. SAMUEL, B.S. (Marietta College), M.S. (Ohio University), Ph.D. (Purdue University). Chair and Professor of Biological Sciences, 1973.*

CAMPBELL, WARREN C., B.S. (University of Alabama, Tuscaloosa), M.S. (University of Alabama, Huntsville), Ph.D. (Colorado State University). Associate Professor of Civil Engineering, 1991.*

CARPENTER, SANDRA L., B.A. (California State University), Ph.D. (University of California). Associate Professor of Psychology, 1989.*

CASH, JANE T., B.S.N., M.S.N. (University of Alabama, Birmingham). Ph.D. (University of Alabama, Tuscaloosa). Associate Dean and Associate Professor of Nursing, 1979.*

CHANG, MOU-HSIUNG, B.S. (Chung-Hsing University), M.S., Ph.D. (University of Rhode Island). Chair and Professor of Mathematical Sciences, 1974.*

CHEN, CHIEN P., B.S. (National Taiwan University), M.S., Ph.D. (Michigan State University). Associate Professor of Chemical Engineering, 1986.*

CHIPMAN, RUSSELL A., B.S. (Massachusetts Institute of Technology), B.S. (California Institute of Technology), M.S., Ph.D. (University of Arizona). Associate Professor of Physics, 1988.*

CHITTUR, K. K., B.Tech. (Indian Institute of Technology, Bombay, India), Ph.D. (Rice University). Associate Professor of Chemical Engineering, 1991.*

CHRISTY, JOHN R., B.A. (California State University), M.Div. (Golden Gate Baptist Theological Seminary), M.S., Ph.D. (University of Illinois). Associate Professor of Atmospheric Science, 1991.*

CHUNG, T.J., Engineering Diploma (Seoul National University), M.S., Ph.D. (Oklahoma State University). Distinguished Professor of Mechanical Engineering, 1970.*

CLING, ANDREW D., B.A. (University of Missouri), M.A., Ph.D. (Vanderbilt University). Associate Professor of Philosophy, 1988.

COBB, SHANNON S., B.S. (Florida State University), M.S., Ph.D. (University of Southwestern Louisiana). Assistant Professor of Mathematical Sciences, 1990.*

COBLE, HAROLD DWAIN, B.S., (Kearney State College), M.S., Ph.D. (University of Nebraska). Associate Professor of Chemistry, 1966.*

COFFIELD, KENNETH E., A.B. (University of Kansas), M.A. (DePaul University), M.A., Ph.D. (University of Missouri). Associate Professor Emeritus, 1966.

COHEN, WILLIAM E., B.S. (University of Kansas), M.D., Ph.D. (Purdue University). Assistant Professor of Electrical and Computer Engineering, 1994.*
COLCLOUGH, GLENNA, B.A., M.A. (Kent State University), Ph.D. (University of Georgia). Chair and Associate Professor of Sociology, 1984.*

COLEMAN, HUGH W., B.S. (Mississippi State University), M.S., Ph.D. (Stanford University). Eminent Scholar in Propulsion and Professor of Mechanical Engineering, 1991.*

COMFORT, RICHARD H., A.B. (Harvard University), M.S., Ph.D. (University of Alabama, Huntsville). Director of the Institute for Science Education and Research Professor of Physics, 1977.*

COOK, F. LEE, B.S., M.S., Ph.D. (Georgia Institute of Technology). Associate Dean, College of Science and Associate Professor of Mathematical Sciences, 1967.

COST, THOMAS L., B.S.A.E. (University of Alabama, Tuscaloosa), M.S.A.E. (University of Illinois), Ph.D. (University of Alabama, Tuscaloosa), P.E. Professor of Mechanical Engineering, 1985.*

CRUISE, JAMES F., B.S., M.S. (Virginia Polytechnic Institute and State University), Ph.D. (University of Virginia). Professor of Civil and Environmental Engineering, 1996.

DAVIS, CARL G., B.A. (Georgia Institute of Technology), M.S., Ph.D. (University of Alabama, Tuscaloosa). Chair and Professor of Computer Science, 1986.*

DELUGACH, HARRY S., B.A. (Carleton College), M.S. (University of Tennessee), Ph.D. (University of Virginia). Associate Professor of Computer Science, 1990.*

DILLARD, NANCY F., B.A., M.A., (University of South Carolina), Ph.D. (University of Tennessee). Assistant Professor of English, 1972.*

DIMMOCK, JOHN O., B.S., Ph.D. (Yale University). Director, Center for Applied Optics and Professor of Physics, 1993.*

DIMOPOULLOS, GEORGE T., B.S., M.S. (Pennsylvania State University), Ph.D. (Michigan State University). Professor of Biological Sciences, 1980.*

DUNAR, ANDREW J., B.A. (Northwestern University), M.A. (University of California, Los Angeles), Ph.D. (University of Southern California). Chair and Professor of History, 1984.*

DUTHIE, J. GRAEME, B.Sc. (University of Aberdeen, Scotland), Ph.D. (University of Bristol, England). Dean, College of Science, and Professor of Physics, 1985.*

ELEY, MICHAEL H., B.A. (West Georgia College), M.S., Ph.D. (University of Georgia). Professor of Biological Sciences, 1974.*

ELLIS, JACK D., B.A. (Baylor University), M.A., Ph.D. (Tulane University). Professor of History, 1992.*

ELROD, DAVID A., B.S. (Louisiana State University), M.S., Ph.D. (Texas A&M University). Assistant Professor of Mechanical and Aerospace Engineering, 1992.*

ELSHAMY, MAGED A., B.S. (Ain Shams University, Cairo, Egypt), B.S. (Al-Azhar University, Cairo, Egypt), M.S. (Washington University), Ph.D. (University of Georgia). Associate Professor of Mathematical Sciences, 1990.*

EMSLIE, A. GORDON, B.Sc., Ph.D. (University of Glasgow, Scotland). Chair and Professor of Physics & Interim Chair, Atmospheric Science Program, 1981.*

EPPERSON, JAMES F., B.S. (University of Michigan), M.S., Ph.D. (Carnegie-Mellon University). Associate Professor of Mathematical Sciences, 1987.*

ESSENWANGER, OSKAR M., B.S. (Technical University of Danzig), M.S. (University of Vienna), Ph.D. (University of Wuerzburg). Research Professor of Atmospheric Science, 1989.*

ESTES, MARTHA I., B.S.N. (Troy State University, Montgomery), M.S.N. (University of Alabama, Birmingham), Ed.D. (University of Alabama, Tuscaloosa). Assistant Professor of Nursing, 1984.

ETZKORN, LETHA M., B.S., M.S. (Georgia Institute of Technology), M.S. (University of Alabama, Huntsville). Lecturer in Computer Science, 1993.*

EVANS, DORLA A., B.S. (University of Texas, Austin), M.B.A. (University of Houston, Clear Lake), Ph.D. (University of Arkansas). Assistant Dean, College of Administrative Science and Professor of Finance, 1991.*

FARR, CAROLA., B.A., M.A., Ph.D. (University of Texas, Austin). Associate Professor of Art History, 1990.

FEIKEMA, DOUGLAS A., B.S. (Calvin College and Seminary), B.S.E., M.S., Ph.D. (University of Michigan). Assistant Professor of Mechanical and Aerospace Engineering, 1992.*

FINLEY, NANCY, J., B.A., M.A., Ph.D. (University of Oklahoma). Associate Professor of Sociology, 1982.*

FLOYD, STEPHEN A., B.A. (Northeastern University), M.S.B.A. (University of Massachusetts), Ph.D. (University of Georgia). Assistant Professor of Management Information Systems, 1985.*

FORK, RICHARD L., B.S. (Principia College), Ph.D. (Massachusetts Institute of Technology). Professor in Electrical and Computer Engineering, 1994.*

FORTE, ALDO, D.Sc. (University of Havana, Cuba). Associate Professor Emeritus, 1966.*

FRANZ, FRANK A., B.S. (Lafayette College), M.S., Ph.D. (University of Illinois). President of The University of Alabama, Huntsville and Professor of Physics, 1991.

FRANZ, JUDY R., B.A. (Cornell University), M.S., Ph.D. (University of Illinois). Professor of Physics, 1991.*

FREDERICK, ROBERT A., B.S., M.S., Ph.D. (Purdue University). Assistant Professor of Mechanical Engineering, 1991.*

FREEMAN, ROBERT S., B.A. (University of Arizona), M.A. (University of North Carolina at Chapel Hill), M.S. (University of Illinois at Urbana-Champaign). Assistant Professor of Bibliography, 1994.

FRIEDMAN, MARK J., B.S. (Moscow Physical Technical Institute, USSR), M.A., Ph.D. (Cornell University). Associate Professor of Mathematical Sciences, 1987.*

GAEDE, RHONDA K., B.S.E.E., (Southern Methodist University), M.S.E.E., Ph.D. (University of Texas, Austin). Assistant Professor of Electrical and Computer Engineering, 1992.*

GARSTKA, WILLIAM R., B.A. (University of California), Ph.D. (Harvard University). Associate Professor of Biological Sciences, 1982.*

GERBERDING, RICHARD A., B.A. (University of Minnesota), M.A. (University of Manitoba), D.Phil. (Oxford University, England). Professor of History, Adjunct Professor of Latin, 1984.*

GILBERT, JOHN A., B.S., M.S. (Polytechnic Institute of Brooklyn), Ph.D. (Illinois Institute of Technology). Professor of Mechanical Engineering, 1985.*

GRANT, SILAS W., B.A. (University of Texas), M.D. (University of Texas Medical Branch at Galveston). Professor Emeritus, 1973.

GRAVES, SARA J., B.S., M.A. (University of Alabama, Tuscaloosa), Ph.D., (University of Alabama, Huntsville). Director of the Information Science and Technology Laboratory and Professor of Computer Science, 1978.*

GREGORY, DON A., B.S., M.S., Ph.D. (University of Alabama, Huntsville). Associate Professor of Physics, 1992.*

GREGORY, JOHN, B.Sc., A.R.C.S., Ph.D. (Imperial College of Science and Technology, London). Professor of Chemistry and Director of Alabama Space Grant Consortium, 1973.*

GROHSE, EDWARD W., B.Ch.E., M.Ch.E. (Cooper Union Institute of Technology), Ph.D. (University of Delaware). Professor Emeritus, 1960.

GUINN, GERALD R., B.S. (Auburn University), M.S. (Purdue University), Ph.D. (University of Alabama, Huntsville). Professor Emeritus, 1990.*

HAMRICK, JUDY H., B.S.N., M.S.N. (University of Alabama, Huntsville). Clinical Assistant Professor of Nursing, 1994.

HARALICK, JOY G., A.B., M.A. (George Washington University), Ph.D. (University of North Carolina). Associate Professor of Sociology, 1978.*

HARRIS, J. MILTON, B.S. (Auburn University), Ph.D. (University of Texas, Austin). Distinguished Professor of Chemistry and Adjunct Professor of Biological Sciences, 1973.*

HARWELL, KENNETH E., B.S. (University of Alabama, Tuscaloosa) M.S., Ph.D. (California Institute of Technology). Associate Provost and Senior Vice President for Research and Professor of Mechanical Engineering, 1989.

HARWELL, SHARON H., B.S.Ed. (Georgia Southern College), M.Ed., Ed.S. (University of Georgia), Ed.D. (George Peabody, Vanderbilt University). Assistant Professor of Education, 1990.*

HAWK, CLARK W., B.S. (Pennsylvania State University), M.S., Ph.D. (Purdue University). Professor of Mechanical Engineering and Director of Propulsion Center, 1991.*

HAYES, DOUGLAS, G., B.S. (Iowa State University), Ph.D. (University of Michigan). Assistant Professor of Chemical Engineering, 1994.*

HEAMAN, DORIS, R.N. (Deaconess Hospital, Missouri School of Nursing), B.S.N. (University of Alabama, Huntsville), M.S.N., D.S.N. (University of Alabama, Birmingham). Associate Professor of Nursing, 1975.*

HELLER, HERTHA D., Perm. Teachers Certificate (Teachers College for Women, Hanover, Germany), M.A. (Vanderbilt University). Associate Professor Emerita, 1965.

HENZE, REET L., B.S.N. (Gustavus Adolphus College), M.S.N. (University of Colorado), D.S.N. (University of Alabama, Birmingham). Associate Professor of Nursing, 1973.*

HERRIN, DONNA M., B.S.N. (University of the State of New York), M.S.N. (Vanderbilt University). Clinical Associate Professor of Nursing, 1996.*

HILLMAN, LLOYD W., B.S. (University of Arizona), Ph.D. (The Institute of Optics, University of Rochester). Associate Professor of Physics, 1989.*

HINKE, THOMAS H., B.S. (University of California, Berkeley), M.B.A. (Oklahoma City University), M.S. (University of California, Los Angeles), Ph.D. (University of Southern California). Associate Professor of Computer Science, 1990.*

HO, FAT DUEEN, B.S.E.E. (South China Technological Institute, China), B.A. (Chu Hai College, Hong Kong), M.S.E.E., Ph.D., (Southern Illinois University, Carbondale). Professor of Electrical Engineering, 1980.*

HODGES, H. EUGENE, A.B., M.A. (University of Georgia), Ph.D. (University of Minnesota). Associate Professor Emeritus, 1968.

HOWELL, KENNETH B., B.S. (Rose-Hulman Institute of Technology), M.A., Ph.D., (Indiana University). Associate Professor of Mathematical Sciences, 1981.*

HUANG, WENZHANG, B.A. (Fu Yang Teachers College), M.S. (Anhui University), Ph.D. (Claremont Graduate School). Assistant Professor of Mathematical Sciences, 1994.*

HUNG, RU J., B.S. (National Taiwan University), M.S. (University of Michigan), P.E. Professor of Mechanical Engineering, 1972.*

JAMES, ROBERT E., B.S. (Carnegie Institute of Technology), M.A. (Hollins College), Ph.D. (University of Tennessee). Associate Professor of Psychology and Communication Arts and Acting Chair of Communication Arts, 1971.*

JANIK, TADEUSZ J., M.Sc., Ph.D. (Technical University of Warsaw). Assistant Professor of Mathematical Sciences, 1992.*

JAREM, JOHN M., B.S., M.S., Ph.D (Drexel University), Professor of Electrical and Computer Engineering, 1987.*

JOHANNES, JAMES D., B.S. (Arizona State University), M.S. (University of Alabama, Huntsville), Ph.D. (Vanderbilt University). Dean of Graduate Studies and Professor of Computer Science, 1974.*

JOHNSON, ADRIEL D., A.B. (Washington University in St. Louis), M.S. (Tennessee Technological University), M.S. (University of Alabama in Huntsville), Ph.D (North Carolina State University). Associate Professor of Biological Sciences and Campus Director, Alabama Alliance for Minority Participation, 1989.*

JOHNSON, CARROLL D., B.S., M.S. (University of Tennessee), Ph.D. (Purdue University). Distinguished Professor of Electrical Engineering, 1963.*
KARR, GERALD R., B.S.A.E., M.S., Ph.D. (University of Illinois). Chair of Mechanical and Aerospace Engineering and Professor of Mechanical Engineering, 1972.*

KATSINIS, CONSTANTINE, B.S. (National Technical University of Athens), M.S., Ph.D. (University of Rhode Island). Associate Professor of Electrical Engineering, 1985.*

KAUKLER, WILLIAM F., B.A.Sc., M.A.Sc., Ph.D. (University of Toronto). Assistant Research Professor of Chemistry and Lecturer in Mechanical Engineering, 1987.*

KENDRICK, AUBREY WAYNE, B.A. (Georgia Southern College), M.S.L.S., M.B.A. (Florida State University). Associate Professor of Bibliography, 1985.

KILGO, REESE D., B.A. (University of Alabama, Tuscaloosa), M.Ed. (University of Florida), Ph.D. (University of Texas). Associate Professor Emerita, 1966.

KIRKPATRICK, SUE W., B.Sc., M.Sc., Ph.D. (Ohio State University). Dean, College of Liberal Arts and Professor of Psychology, 1972.*

KNUPP, KEVIN R., B.S. (Iowa State University), M.S., Ph.D. (Colorado State University). Associate Professor of Atmospheric Science, 1991.*

KOWEL, STEPHEN T., B.S.E.E. (University of Pennsylvania), M.S.E.E. (Polytechnic University), Ph.D. (University of Pennsylvania). Chair and Professor of Electrical and Computer Engineering, 1990.*

KUNIN, BORIS I., B.S., M.S. (Leningrad University, Russia), M.S. (Yale University), Ph.D. (University of Illinois, Chicago). Assistant Professor of Mathematical Sciences, 1992.*

LAI, VINCENT S., B.S.S. (Chinese University of Hong Kong), M.B.A. (Ohio University), Ph.D. (University of Texas, Arlington). Assistant Professor of Management Information Systems, 1993.*

LANDRUM, BRIAN D., B.S., M.S. (Texas A&M University), Ph.D. (North Carolina State University). Assistant Professor of Mechanical and Aerospace Engineering, 1992.*

LAVAN, OLGA, B.A. (University of Texas), M.A. (University of Iowa). Lecturer in English, 1978.

LAWTON, ROBERT O., B.S. (Duke University), Ph.D. (University of Chicago). Professor of Biological Sciences, 1980.*

LEONARD, KATHLEEN M., B.S., M.S. (University of Wisconsin), Ph.D. (University of Alabama, Huntsville). Assistant Professor of Civil Engineering, 1991.*

LESLIE, THOMAS M., B.S. (Rider College), Ph.D. (University of Notre Dame). Associate Professor of Chemistry, 1990.*

LETHBRIDGE, DONA J., B.Sc.N. (University of British Columbia), M.A., Ph.D. (New York University). Associate Professor of Nursing, 1992.*
LI, JIA, B.S. (Hunan University), M.S. (Huazhong University of Science and Technology), Ph.D. (University of Tennessee). Associate Professor of Mathematical Sciences, 1990.*

LIEU, RICHARD, B.Sc., Ph.D. (Imperial College London). Assistant Professor of Physics, 1995.

LINDQUIST, ROBERT G., B.S.E.E., Ph.D. (Pennsylvania State University). Associate Professor of Electrical and Computer Engineering, 1992.*

LOHMEIER, JILL H., B.A. (University of Kansas), M.S., Ph.D. (University of Massachusetts). Assistant Professor of Psychology, 1995.*

LOO, BOON, B.S., M.S. (University of Wellington, New Zealand), M.A., Ph.D. (University of Illinois, Chicago). Professor of Chemistry, 1982.*

LORSBACH, ANTHONY W., B.A., M.S. (University of Missouri, St. Louis), Ph.D. (Florida State University). Assistant Director, Institute for Science Education and Assistant Professor of Education, 1993.*

LUMPKIN, RICHARD S., B.S. (University of Texas, Austin), Ph.D. (University of North Carolina). Associate Professor of Chemistry, 1990.*

MAC DOUGALL, JOHN J., B.A. (Boston College), B.S. (Georgetown School of Foreign Service), M.S. (Massachusetts State College), M.A., Ph.D. (University of Michigan). Associate Professor of Political Science, 1975.*

MACDOUGALL, JOHN J., B.A. (Boston College), B.S. (Georgetown School of Foreign Service), M.S. (Massachusetts State College), M.A., Ph.D. (University of Michigan). Associate Professor of Political Science, 1975.*

MACDOUGALL, JOHN J., B.A. (Boston College), B.S. (Georgetown School of Foreign Service), M.S. (Massachusetts State College), M.A., Ph.D. (University of Michigan). Associate Professor of Political Science, 1975.*

MACDOUGALL, JOHN J., B.A. (Boston College), B.S. (Georgetown School of Foreign Service), M.S. (Massachusetts State College), M.A., Ph.D. (University of Michigan). Associate Professor of Political Science, 1975.*

MAIER, LINDA S., A.B. (Washington University), M.A., Ph.D. (University of Virginia). Associate Professor of Spanish, 1993.

MAIER, MARK W. B.S., M.S. (California Institute of Technology), Ph.D. (University of Southern California). Assistant Professor of Electrical and Computer Engineering, 1992.*

MC ELROY, ELLEN C., B.S.N. (University of Alabama, Huntsville), M.S.N., D.S.N. (University of Alabama, Birmingham). Assistant Professor of Nursing, 1993.*

MC KNIGHT, WILLIAM B., B.S. (Purdue University), Ph.D. (Oxford University). Research Professor Emeritus, 1974.*

MC MANUS, SAMUEL P., B.S. (The Citadel), M.S., Ph.D. (Clemson University). Provost and Vice President for Academic Affairs and Professor of Chemistry, 1966.*

MC NIDER, RICHARD T., B.S. (University of Alabama, Tuscaloosa), M.S. (Florida State University), Ph.D. (University of Virginia). Professor of Mathematical Sciences, Adjunct Professor of Atmospheric and Environmental Science, and Director, Earth System Science Laboratory, 1985.*

MEBANE, JOHN S., B.A. (Presbyterian College), M.A., Ph.D. (Emory University). Associate Dean, College of Liberal Arts, and Associate Professor of English, 1984.*

MEEHAN, EDWARD J., JR., B.S. (Birmingham Southern College), Ph.D. (University of Alabama, Birmingham). Associate Professor of Chemistry and Adjunct Associate Professor of Biological Sciences, 1978.*

MEISTER, Peter W., B.A. (University of Pennsylvania), M.A., M.A., Ph.D. (University of Virginia). Associate Professor of German, 1990.

MESSIMER, SHERRI L., B.S., M.S. (University of Texas, Arlington), Ph.D. (Texas A & M). Associate Professor of Industrial and Systems Engineering, 1989.*

MILLER, JAMES A., B.S. (Gannon University), M.S., Ph.D. (University of Maryland, College Park), Assistant Professor of Physics, 1994.*

MODLIN, RICHARD F., B.S., M.S. (University of Wisconsin, Milwaukee), Ph.D. (University of Connecticut). Professor of Biological Sciences, 1976.*

MOORE, RICHARD S., B.A. (Brown University), M.A., Ph.D. (Duke University). Director of Humanities Center and Associate Professor of English, 1975.

MOQUIN-GERMANN, MARGARET, R.N. (Washington University), B.S.N. (University of Alabama, Huntsville), M.S.N. (University of Virginia). Clinical Assistant Professor of Nursing, 1994.

MORALES, CLAUDIO, B.A., (University of Chile), M.S., Ph.D. (University of Iowa). Professor of Mathematical Sciences, 1982.*

278
MORIARITY, DEBRA M., B.S. (Pennsylvania State University), Ph.D. (Temple University School of Medicine). Professor of Biological Sciences and Adjunct Professor of Chemistry, 1984.*

MORSE, WAYNE J., B.B.A. (Siena College), M.B.A. (Cornell University), Ph.D. (Michigan State University). Professor of Accounting and Chair of Accounting and Business Legal Studies, 1996.

MUNSON, WILLIAM F., B.A. (Oberlin College), M.A., Ph.D. (Yale University). Associate Professor of English, 1974.*

MUSIELAK, ZDZISLAW E., M.S. M.S. (A. Mickiewicz University, Poland), Ph.D. (University of Gdansk, Poland), Professor of Astronautics, 1989.*

NADARAJAH, ARUNAN, B. Tech. (Indian Institute of Technology), M.S., Ph.D. (University of Florida), Associate Professor of Chemical Engineering and Adjunct Assistant Professor of Materials Science, 1990.*

NAUMANN, ROBERT J., B.S., M.S., Ph.D. (University of Alabama, Tuscaloosa). Professor of Materials Science, 1990.*

NEFF, DAVID S., III, B.A., M.A. (Wayne State University), Ph.D. (University of Illinois). Associate Professor of English, 1979.*

NEWCHURCH, MICHAEL J., B.S. (Colorado State University), Ph.D. (Georgia Institute of Technology). Associate Research Professor of Atmospheric Science, 1994.*

NEWMAN, TIMOTHY S., B.S. (Bowling Green State University), M.S., Ph.D. (Michigan State University). Assistant Professor of Computer Science, 1994.*

NEWMAN, KATHY L., B.S.N. (Jacksonville State University), M.S.N. (University of Alabama, Huntsville). Clinical Instructor in Nursing, 1990.*

NELSEN, SANDRA L., B.A. (University of Chicago), M.A. (Loyola University), Ph.D. (University of Chicago). Chair of Foreign Languages and Literature and Associate Professor of Spanish, 1988.

NORDIN, GREGORY P., B.S. (Brigham Young University), M.S. (University of California, Los Angeles), Ph.D. (University of Southern California). Associate Professor of Electrical and Computer Engineering, 1992.*

NORMAN, ROSE L., B.A. (Judson College), M.A. (University of Alabama, Tuscaloosa), Ph.D. (University of Tennessee). Associate Professor of English, 1983.*

PACIESAS, WILLIAM S., B.S. (Seton Hall University), M.S., Ph.D. (University of California, San Diego). Research Professor of Physics, 1982.*

PAUL, CHRIS W., II, B.S. (Southwest Missouri State University), Ph.D. (Texas A&M University). Chair of Economics and Finance/ Management Information Systems and Professor of Economics, 1986.*

PEARSON, BONNIE C., R.N. (St. Joseph's Hospital School of Nursing), B.S., M.Ed. (University of Minnesota). Associate Professor of Nursing, 1974.*

PENDLETON, GEOFFREY N., Sc.B. (Brown University), Ph.D. (Case Western Reserve University). Assistant Research Professor of Physics, 1995.

PENOT, DOMINIQUE M., B.A. (University of Aix-France), License (University of Montpellier), Ph.D. (Yale University). Professor Emeritus, 1970.

PERKEY, DONALD J., B.A., B.S., M.S. (University of Kansas), Ph.D. (Pennsylvania State University). Professor of Atmospheric Science and Director, Institute for Global Change Research and Education, 1994.*

PETTIS, JOYCE OWENS, B.S. (Winston Salem State University), M.A. (East Carolina University), Ph.D. (University of North Carolina, Chapel Hill). Interim Director, Honors Program and Associate Professor of English, 1994.*

PIERSMA, MARY L., B.S. (Dordt College), M.A., Ed.D. (University of South Dakota). Chair and Associate Professor of Education, 1988.*

POLLOCK, DAVID B., B.S., M.S. (University of Louisville), M.S. (University of Arizona). Associate Research Professor of Electrical and Computer Engineering, 1994.*

PORTER, GROVER L., B.S. (University of Tennessee), M.S. (University of North Carolina), Ph.D. (Louisiana State University), C.P.A. Professor of Accounting, 1985.*

POTTENGER, JOHN R., B.A., M.A. (Arizona State University), Ph.D. (University of Maryland). Associate Professor of Political Science, 1986.*
POULARIKAS, ALEXANDER D., B.S. (Technical School, Greece), B.S., M.S., Ph.D. (University of Arkansas). Professor of Electrical Engineering, 1985.*

RAINES, C. FAY, B.S.N., M.S.N. (University of Virginia), Ph.D. (University of Maryland). Dean, College of Nursing, and Professor of Nursing, 1991.*

RANGANATH, HEGGERE S., B.S.E. (Bangalore University, India), M.S. (University of Louisville), M.S.E. (Birla Institute of Technology and Science), Ph.D. (Auburn University). Associate Professor of Computer Science, 1982.*

REED, TERENCE J., B.A., M.A. (Rice University), Ph.D. (University of Minnesota). Assistant Professor of Computer Science, 1985.*

REEDES, ANDRÉE E., A.B. (University of North Carolina), M.A., Ph.D. (Rice University). Assistant Professor of Political Science, 1992.*

RICHARDS, PHILIP G., Trained Secondary Teachers Certificate (Melbourne Secondary Teachers College), B.S., Ph.D. (La Trobe University). Professor of Computer Science, 1986.*

RILEY, CLYDE, B.S. (University of Rochester), Ph.D. (Florida State University). Chair and Professor of Chemistry, Campus Program Director of Materials Science, 1967.*

ROACH, CAROLA., B.A. (McNeese State College), M.A. (Texas Women’s University), M.A. (University of Alabama, Tuscaloosa), Ph.D. (North Texas State University). Assistant Professor Emerita, 1967.

ROACH, MERLE D., B.S. (Livingston State College), M.S. (North Texas State College), Ph.D. (University of Alabama, Tuscaloosa). Associate Professor Emeritus, 1966.

ROCHOWIAK, DANIEL M., B.S. (St. Bonaventure University), Ph.D. (University of Notre Dame). Associate Professor of Cognitive Science, 1990.*

ROGERS, JON G., A.B. (Kansas State Teachers College), M.A. (University of Arkansas), Ph.D. (University of New Mexico). Professor of Psychology, 1968.*

ROSENBERGER, FRANZ E., B.S., Diploma (University of Stuttgart, Germany), Ph.D. (University of Utah). Professor of Physics and Director, Center for Microgravity Research, 1986.*

ROSS, SUZANNE E., B.S., M.S., Ph.D. (University of Alabama, Birmingham). Assistant Professor of Biological Sciences, 1992.*

ROUNTREE, J. CLARKE III, B.A. (University of Alabama, Huntsville), M.A., Ph.D. (University of Iowa). Associate Professor of Communication Arts, 1993.*

ROZELL, BILLIE R., R.N. (St. Mary’s Memorial Hospital), B.S.N., M.S.N., D.S.N. (University of Alabama, Birmingham). Associate Professor of Nursing, 1989.*

RUSSELL, LYNN D., B.S., M.S. (Mississippi State University), Ph.D. (Rice University). Dean, College of Engineering and Professor of Mechanical Engineering, 1987.*
SANDERS, CAROLYN I., B.M. (University of New Mexico, Albuquerque), M.M. (University of Missouri, Columbia), D.M. (Florida State University), Associate Professor of Music, 1990.

SANGHADASA, MOHAN, B.Sc (University of Colombo, Sri Lanka), M.S. (Bowling Green State University), Ph.D. (University of Alabama, Huntsville). Assistant Research Professor of Physics, 1996.

SCHENKER, DANIEL, B.A. (Brandeis University), M.A., Ph.D. (Johns Hopkins University). Chair and Associate Professor of English, 1984.*

SCHNELL, JOHN F., B.S., M.A. (Pennsylvania State University), Ph.D. (University of Illinois). Associate Professor of Economics, 1990.*

SCHOENING, NILES C., B.A. (Columbia University), M.C.P. (Ohio State University), Ph.D. (University of Tennessee). Professor of Economics, 1983.*

SCHONBERG, WILLIAM P., B.S.E. (Princeton University), M.S., Ph.D. (Northwestern University), P.E. Chair and Professor of Civil Engineering, 1986.*

SCHROER, BERNARD J., B.S. (Western Michigan University), M.S. (University of Alabama, Tuscaloosa), Ph.D. (Oklahoma State University) P.E. Professor of Industrial and Systems Engineering and Associate Vice President for Research, 1985.*

SEELEY, FREDERICK B., B.S. (University of Texas, El Paso), M.S. (Southeastern Institute of Technology). Lecturer in Physics, 1992.

SETZER, WILLIAM N., B.S. (Harvey Mudd College), Ph.D. (University of Arizona, Tucson). Associate Professor of Chemistry and Adjunct Associate Professor of Biological Sciences, 1985.*

SEVERN, JOHN K., B.A. (University of Minnesota), M.A., Ph.D. (Florida State University). Associate Professor of History, 1991.*

SHEN, DASHEN, B.S. (Shanghai University), M.S., Ph.D. (Princeton University). Associate Professor of Electrical and Computer Engineering, 1991.*

SHERMAN, J. DANIEL, B.S. (University of Iowa), M.A. (Yale University), Ph.D. (University of Alabama, Tuscaloosa). Chair of Management and Marketing and Professor of Management, 1981.*

SHIH, CORNELIUS C., B.S. (National Taiwan University), M.S., Ph.D. (Michigan State University), P.E. Professor of Mechanical Engineering, 1965.

SHIVA, SAJJAN G., B.E. (Bangalore University, India), M.S.E.E., Ph.D. (Auburn University). Professor of Computer Science, 1978.*

SHTESSEL, YURI B., M.S.E.E., Ph.D. (Chelyabinsk Polytechnical Institute, Russia). Associate Professor of Electrical and Computer Engineering, 1993.*

SIEGRIST, KYLE T., B.S., M.S., Ph.D. (Georgia Institute of Technology). Associate Professor of Mathematical Sciences, 1980.*

SIMPSON, JAMES T., B.S., M.B.A., (University of Southern Mississippi), Ph.D. (University of Alabama, Tuscaloosa). Associate Professor of Marketing, 1990.*

SINGH, NAGENDRA, B. Tech (Indian Institute of Technology Kanpur), B.S., M.S., Ph.D. (California Institute of Technology). Professor of Electrical Engineering, 1986. *

SINGH, VANITHA S., B.A. (Mysore University, India), M.A. (University of Iowa). Lecturer in English, 1986.

SITARAMAN, BHAVANI, B.A. (Stella Maris College), M.A. (Ohio University), Ph.D. (University of Massachusetts, Amherst). Assistant Professor of Sociology, 1993.*

SLATER, PETER J., B.S. (Iona College), M.S., Ph.D. (University of Iowa). Professor of Mathematical Sciences, 1981.*

SMALLEY, LARRY L., B.S., M.S., Ph.D. (University of Nebraska). Professor of Physics, 1967.*

SMITH, JAMES E. JR., B.S.E., Ph.D. (University of South Carolina). Chair and Professor of Chemical Engineering, 1982.*

STEWART, DAVID A., B.A., M.A. (University of South Carolina), Ph.D. (Boston University). Associate Professor of Art History, 1989.

SULLINS, WALTER R., A.B. (Stetson University), B.D. (Southern Baptist Seminary), M.A., Ph.D. (Emory University). Associate Professor Emeritus, 1966.

SUNG, CHI-CHING, B.A. (National Taiwan University), Ph.D. (University of California, Berkeley). Professor of Physics, 1972.*

SWAIN, JAMES J., B.A., B.S., M.S. (University of Notre Dame), Ph.D. (Purdue University). Associate Professor of Industrial and Systems Engineering, 1992.*
SWANN, ALLIE C., B.S. (Mississippi State University), M.A.S. (University of Alabama, Huntsville). Lecturer in Accounting, 1979.

SZILAGYI, STEPHEN J., B.A. (Clark University), M.A., Ph.D. (Lehigh University). Associate Professor of English, 1988.*

Takahashi, Yoshiyuki, B.S. (Saitama University, Japan), M.S. (Kanazawa University, Japan), Ph.D. (Osaka University, Japan). Research Professor of Physics, 1986.*

TANNER, ELIZABETH K.W., B.S., M.S. (University of Maryland, Baltimore), Ph.D. (University of Maryland, College Park). Assistant Professor of Nursing, 1993.*

TARTER, DONALD E. B.S. (Middle Tennessee State College), Ph.D. (University of Tennessee). Associate Professor Emeritus, 1966.

TORRES, AURORA, B.S. (University of Oklahoma), M.S., Ph.D. (University of Oklahoma Health Sciences Center). Assistant Professor of Psychology and Lecturer in Biological Sciences, 1995.*

TRUEBLOOD, ROBERT P., B.S. (Auburn University), M.S. (University of Tennessee), Ph.D. (Virginia Polytechnic Institute and State University). Associate Professor of Management Information Systems, 1991.*

TSENG, FAN-TSONG, B.S. (National Chiao Tung University), M.S., Ph.D. (University of Texas, Dallas). Associate Professor of Management Science, 1984.*

UTLEY, DAWN R., B.S. (Tennessee Technological University), M.S. (University of Tennessee), Ph.D. (University of Alabama, Huntsville). P.E., Assistant Professor of Industrial and Systems Engineering, 1992.*

VAN ALSTINE, JAMES M., B.Sc., M.Sc., Ph.D. (University of British Columbia). Associate Research Professor of Chemistry, 1990.*

VAN PARADIJS, JOHANNES A., Ph.D. (University of Amsterdam). Pei-Ling Chan Chair in Physics and Professor of Physics, 1994.*

VAUGHAN, WILLIAM W., B.S. (University of Florida), Ph.D. (University of Tennessee). Research Professor of Atmospheric Science, 1989.

VIKRAM, CHANDRA S., B.Sc. (Agra University, India), M. Tech. (Kampur Institute, India), M.Sc., Ph.D. (Indian Institute of Technology, Delhi, India). Research Professor of Optical Science and Engineering, 1989.*

WALKER, JACK R., B.S. (Mississippi State University), M.S. (Georgia Institute of Technology), Ph.D. (Oklahoma State University), P.E. Associate Professor of Industrial and Systems Engineering, 1982.*

WALLACE, DONALD B., B.S., M.S., Ph.D. (University of Wisconsin) P.E. Professor of Mechanical Engineering, 1974.*

WAMPLER, BRUCE M., B.S. (Louisiana Technological University), M.B.A. (University of Texas, Austin), D.B.A. (Louisiana Technological University). Assistant Professor of Accounting, 1994.*

WANG, HUI, B.S., M.S. (Bucharest Polytechnic Institute), M.S. (University of Minnesota), Ph.D. (University of California, Santa Barbara). Assistant Professor of Computer Science, 1992.*

WARING, STEPHEN P., B.A. (Doane College), M.A., Ph.D. (University of Iowa). Associate Professor of History, 1988.*

WARREN, IRIS, R.N. (Georgia Baptist Hospital School of Nursing), B.S.N. (Louisiana State University), M.S.N. (University of Alabama, Birmingham). Associate Professor of Nursing, 1973.

WEED, DIANE, B.S.N. (Troy State University), M.S.N. (University of Alabama, Huntsville). Clinical Instructor in Nursing, 1996.

WEIMER, JEFFERY J., B.S. (Pennsylvania State University), Ph.D. (Massachusetts Institute of Technology). Associate Professor of Chemistry and Chemical Engineering, 1990.*

WEISSKOPF, MARY E., B.A. (Vanderbilt University), M.S., Ph.D. (University of Alabama, Huntsville). Assistant Professor of Computer Science, 1983.*

WELLS, B. EARL, B.S.E.E., M.S.E.E., Ph.D. (University of Alabama, Tuscaloosa). Assistant Professor of Electrical and Computer Engineering, 1992.*

WESSLING, FRANCIS C., B.S. (Washington University), M.S. (University of New Mexico), Ph.D. (University of Minnesota). Professor of Mechanical Engineering, 1988.*

WESTBROOK, JERRY D., B.E. (Vanderbilt University), M.S. (University of Tennessee), Ph.D. (Virginia Polytechnic Institute and State University). P.E., Professor, Director of Engineering Management Programs and Interim Chair of Industrial and Systems Engineering, 1991.*

WHARRY, RHODA E., B.S.E. (University of Arkansas), M.S. (Memphis State University), Ph.D. (Purdue University). Professor Emerita, 1967.

WILD, FLORIANNE, B.A., M.A. (University of Iowa), Diplôme de l’Institut des professeurs de français a l’étranger (Sorbonne), Ph.D. (University of Minnesota). Assistant Professor of French, 1992.

WILLIAMS, LEE E., II, B.A. (Knoxville College), M.A. (East Tennessee State University), Ph.D. (Mississippi State University). Director of Multicultural Affairs and Professor of History, 1972.*

WILLIAMSON, JOAN, R.N. (Birmingham Baptist Hospital), B.S.N. (University of Alabama, Tuscaloosa), M.S.N., D.S.N. (University of Alabama, Birmingham). Associate Professor of Nursing, 1973.*

WILSON, GORDON R., B.S., Ph.D. (Brigham Young University) Assistant Research Professor of Physics, 1992.*

WOODWARD, WILLIAM B., JR., B.A. (University of North Alabama), J.D. (Cumberland School of Law at Samford University), LL.M. (New York University). Assistant Professor of Business Legal Studies, 1989.*

WREN, BRENT M., B.S., M.B.A. (University of Alabama, Birmingham), Ph.D. (University of Memphis). Assistant Professor of Marketing, 1994.*

WRIGHT, JOHN C., B.S. (West Virginia Wesleyan College), Ph.D. (University of Illinois), University Professor Emeritus, 1978.

WU, SHI TSAN, B.S. (National Taiwan University), M.S. (Illinois Institute of Technology), Ph.D. (University of Colorado). Distinguished Professor of Mechanical Engineering, Adjunct Professor of Chemical and Materials Engineering, and Director of Center for Space Plasma and Aeronomic Research, 1967.*

WYSKIDA, RICHARD M., B.S.E.E. (Tri-State College), M.S.I.E. (University of Alabama, Tuscaloosa), Ph.D. (Oklahoma State University) E.E. Professor of Industrial and Systems Engineering, 1968.*

YOUNG, CONNIE F., B.S.N. (Jacksonville State University), M.S.N. (University of Alabama, Birmingham). Clinical Assistant Professor of Nursing, 1995.

YOUNG, JERROD K., B.S. (Mississippi State University). Assistant Dean for Student Affairs in the College of Engineering & Lecturer in Engineering, 1995.

YOUNG, RONALD B., B.S. (University of Tennessee), Ph.D. (Iowa State University). Professor of Biological Sciences, 1981.*

ZHANG, GUO-HUI, B.S. (Northeast Normal University, P.R. China), M.S., Ph.D. (Southern Illinois University, Carbondale). Assistant Professor of Mathematical Sciences, 1993.*

Adjunct Faculty and Part-time Lecturers

ACOFF, VIOLA. Adjunct Assistant Professor of Materials Science, 1996.

ACOSTA, PATRICK, B.S.E. (Catholic University, Ecuador), M.S.E. (University of Virginia), P.E. Lecturer in Civil and Environmental Engineering, 1995.*

ADAMS, GARY, B.S. (Jacksonville State University), D.M.D., M.D. (University of Alabama, Birmingham). Adjunct Associate Professor of Nursing, 1996.

AGRESTI, DAVID G., Adjunct Associate Professor of Materials Science, 1988.

AHMED, NESAR U., B.S.E., M.S.E. (Bangladesh University of Engineering and Technology), Ph.D. (Vanderbilt University). Lecturer in Civil and Environmental Engineering, 1993.*

ALEXANDER, CHESTER JR., Adjunct Professor of Materials Science, 1988.

ANDREWS, BARRY J., Adjunct Professor of Materials Science, 1988.

ANDREWS, ROSALIA, Adjunct Associate Professor of Materials Science, 1988.

ASHLEY, PAUL, B.S. (Baylor University), M.A., M.S., D.Sc. (Washington University). Adjunct Professor of Physics, 1993.

BAILEY, CARMINE, B.A. (Rutgers University), M.S. (University of Dayton), Ph.D. (Lehigh University). Lecturer in Mathematical Sciences, 1991.*

BARNARD, JOHN A., Adjunct Associate Professor of Materials Science, 1993.

BARNETT, TIMOTHY, B.S.E., M.S.E. (University of Alabama, Huntsville), P.E. Lecturer in Civil and Environmental Engineering, 1996.

BECK, MARY JIM, B.S. (Samford University), M.S., Ph.D. (Auburn University). Adjunct Professor of Biological Sciences, 1991.

BERINATO, ROBERT J., B.S.E. (Georgia Institute of Technology), M.S.E., Ph.D. (University of Alabama, Huntsville). Lecturer in Electrical and Computer Engineering, 1995.

BOWDEN, CHARLES M., B.S. (University of Richmond), M.S. (University of Virginia), Ph.D. (Clemson University). Adjunct Professor of Physics, 1976.

BRADT, RICHARD. Adjunct Professor of Materials Science, 1996.

BRINKHURST, RALPH O., B.Sc., Ph.D., D.Sc. (Kings College, University of London). Adjunct Professor of Biological Sciences, 1993.*

BROWN, LINDA, M.S.N. (University of Alabama, Huntsville). Adjunct Associate Professor of Nursing, 1996.

BRUCE, J. W., B.S.E. (University of Alabama, Huntsville), M.S.E.E. (Georgia Institute of Technology). Lecturer in Electrical and Computer Engineering, 1996.

BURKETT, SUSAN. Adjunct Assistant Professor of Materials Science, 1996.

BURKS, PAT, M.S.N. (University of Alabama, Huntsville). Adjunct Assistant Professor of Nursing, 1996.

BURLESON, JOHN D., B.S. (University of Alabama, Tuscaloosa). Lecturer in Computer Science, 1993.*

CAVA, MICHAEL P., Adjunct Professor of Materials Science, 1988.

CHRISTENSEN, ERIC R., B.S. (University of Maryland), M.S. (California Institute of Technology), Ph.D. (University of Maryland). Lecturer in Mechanical and Aerospace Engineering, 1993.*

CLARK, PETER E., Adjunct Associate Professor of Materials Science, 1988.

COLLINS, BETTY JO, B.S. (Mississippi State University), M.A. (Wright State University). Lecturer in English, 1993.

CORNELISON, JACK. Lecturer in H.P.E., 1982.

DELEUCAS, L. J., Adjunct Associate Professor of Materials Science, 1988.

DIETERICH, ROBERT, (Shortline Community College). Lecturer in Civil and Environmental Engineering, 1993.

DIXON, HERBERT, B.B.A. (University of Texas at El Paso), M.S. (Shippensburg State College), Ph.D. (Nova University). Lecturer in Management, 1996.

DORSETT, MICHAEL J., B.S. (University of Georgia), M.S.E., Ph.D. (University of Alabama, Huntsville). Adjunct Associate Professor of Industrial and Systems Engineering, 1980.*

DOYLE, WILLIAM D., Adjunct Professor of Materials Science, 1993.

EL-KADDAH, NAGY H., Adjunct Associate Professor of Materials Science, 1988.

EVANS, JOHN L., B.E.E. (Auburn University), M.S.E., Ph.D. (University of Alabama, Huntsville). Lecturer in Finance and Adjunct Assistant Professor in Industrial and Systems Engineering, 1991.*

FAIRCLOUGH, PAMELA, B.S.N. (University of Alabama, Huntsville), M.S.N. (University of Alabama, Birmingham). Adjunct Associate Professor of Nursing, 1996.

289

FELDMAN, DALE S., Adjunct Associate Professor of Materials Science, 1988.

FOGLE, FRANK R., B.S.E., M.S.E., Ph.D. (University of Alabama, Huntsville). Adjunct Assistant Professor in Industrial and Systems Engineering, 1990.

GRAY, GARY M., Adjunct Associate Professor of Materials Science, 1988.

GREGG, MARCUS W., B.S. (Mississippi State University), M.S. (Stanford University). Lecturer in Mechanical and Aerospace Engineering, 1995.

GRIFFIN, ROBIN S., Adjunct Assistant Professor of Materials Science, 1993.

HAMILTON, TRACY P., Adjunct Assistant Professor of Materials Science, 1993.

HARRELL, J.W., Adjunct Professor of Materials Science, 1988.

HARRISON, JOSEPH G., Adjunct Associate Professor of Materials Science, 1988.

HARTLEY, CRAIG, Adjunct Professor of Materials Science, 1988.

HEDAYAT, ALI, B.S. (Tabriz University, Iran), M.S. (University of Tennessee, Chattanooga), Ph.D. (University of Tennessee Space Institute). Lecturer in Mechanical and Aerospace Engineering and Civil and Environmental Engineering, 1994.

HILL, JAMES L., Adjunct Professor of Materials Science, 1988.

HOUGH, GARY R., B.S. (Queen's University, Canada), M.S. (Cornell University), Ph.D. (University of Michigan). Lecturer in Mechanical and Aerospace Engineering, 1995.*
HOWARD, TRUMAN, B.S., M.E. (Southern Methodist University), M.I.E. (Texas A&M University), M.S.E. (University of Virginia). Lecturer in Industrial and Systems Engineering, 1996.

HUDSON, JAMES R. JR., B.S., M.S. (University of Alabama, Tuscaloosa), M.S. (University of Alabama, Huntsville). Adjunct Professor of Biological Sciences, 1993.

HUNTER, MARY, B.A. (Cameron University), M.S. (University of California). Lecturer in English, 1993.

IZATT, J. R., Adjunct Professor of Materials Science, 1988.

JAMSHIDI, HOSSEIN, B.S. (North Carolina State University), M.S. (North Carolina A&T State University), M.S. (Clemson), Ph.D. (University of Alabama, Huntsville). Lecturer in Industrial and Systems Engineering, 1990.*

JANOWSKI, GREGG M., Adjunct Assistant Professor of Materials Science, 1993.

JEDLOVEC, GARY J., B.S., M.S. (St. Louis University), Ph.D. (University of Wisconsin, Madison). Adjunct Associate Professor of Atmospheric Science, 1991.*

JEFCOAT, IRVIN A., Adjunct Associate Professor of Materials Science, 1988.

JOHNSON, THOMAS M., B.A. (Emory University), M.A. (University of Georgia), Ph.D. (University of Florida). Adjunct Associate Professor of Psychology, 1996.

JONES, ALBERT, B.S. (North Georgia College), M.S., Ph.D. (Clemson University). Lecturer in Management Information Systems, 1992.*

JONES, CLYDE, B.S. (Tennessee Technological University), M.S. (Massachusetts Institute of Technology). Lecturer in Electrical and Computer Engineering, 1994.

JONES, STANLEY E., Adjunct Professor of Materials Science, 1988.

KEIF, MARK. Adjunct Assistant Professor of Materials Science, 1996.

KELLEY, SISTER JANE, B.S.N. (College of St. Catherine). Affiliate Faculty - Nursing, 1996.

KHAZANOV, GEORGE V., M.Sc., Ph.D. (Irkutsk State University). Adjunct Professor of Mathematical Sciences, 1996.*

KIM, YEON-TAIK. Adjunct Assistant Professor of Materials Science, 1996.

KISPERT, LOWELL D. Adjunct Associate Professor of Materials Science, 1988.

291

KRAMER, RICHARD D., B.S. (Auburn University), M.S. (University of Alabama, Tuscaloosa), M.S., Ph.D. (University of Alabama, Huntsville). Lecturer in Mechanical and Aerospace Engineering, 1992.

KRELL, JANIS, B.S. (Auburn University), M.A. (University of Alabama, Huntsville). Lecturer in English, 1996.

LACEFIELD, WILLIAM R., Adjunct Associate Professor of Materials Science, 1988.

LAMMERTSMA, KOOP, Adjunct Professor of Materials Science, 1988.

LAPENTA, WILLIAM M., B.S. (State University of New York, Oneonta), Ph.D. (Pennsylvania State University). Adjunct Assistant Professor of Atmospheric Science, 1993.*

LAWLER, PATRICK B., B.S.I.E. (Mississippi State University), M.S.E. (Texas A&M University), P.E. Adjunct Assistant Professor of Industrial and Systems Engineering, 1974.*

LAWSON, CHRIS. Adjunct Assistant Professor of Materials Science, 1996.

LAWTON, MARCY, B.A. (Chatham College), Ph.D. (University of Chicago). Adjunct Assistant Professor of Biological Sciences, 1989.*

LEMOMS, JACK E., Adjunct Professor of Materials Science, 1988.

LEWIS, MARIAN, B.A. (Georgia State College for Women), M.S. (University of Arizona), Ph.D. (University of Houston). Adjunct Assistant Professor of Biological Sciences, 1993.*

LOLLAR, LOUIS F., B.S. (Auburn University), M.S.E. (University of Alabama, Huntsville). Lecturer in Electrical Engineering, 1983.

LONG, RANDY, B.S., M.Ed. (Middle Tennessee State University). Lecturer in Mathematical Sciences, 1987.

LOVELACE, CYNTHIA, B.S.I.E. (Auburn University), M.S.E., Ph.D. (University of Alabama, Huntsville). Lecturer in Industrial and Systems Engineering, 1995.*

LUCAS, LINDA C., Adjunct Associate Professor of Materials Science, 1988.

LUNDQUIST, CHARLES, B.S. (South Dakota State University), Ph.D. (University of Kansas). Lecturer in Management, 1984.*

MAJUMDAR, ALOK K., B.E., M.E. (Calcutta University), Ph.D. (Burdwan University). Adjunct Professor of Mechanical and Aerospace Engineering, 1987.*

292
MARSH, CHANTELL, B.S. (University of Houston). Lecturer in English, 1993.

MARTIN, JAMES, Adjunct Associate Professor of Materials Science, 1988.

MAYS, JIMMY W., Adjunct Assistant Professor of Materials Science, 1988.

MC CRACKEN, EDWARD, B.S.N., M.S.N. (University of Alabama, Birmingham). Adjunct Associate Professor of Nursing, 1996.

MEANS, DEBRA, B.S.N., M.S.N. (University of Alabama, Huntsville). Lecturer in Nursing, 1996.*

METZGER, ROBERT M., Adjunct Professor of Materials Science, 1988.

MILLER, TIMOTHY L., A.B. (Case Western Reserve University), M.S., Ph.D. (University of Arizona). Adjunct Assistant Professor of Mathematical Sciences, 1986.*

MOG, ROBERT ALAN, B.S. (University of Illinois, Urbana), M.S., M.S.E., Ph.D. (University of Alabama, Huntsville). Adjunct Assistant Professor in Industrial and Systems Engineering, 1990.*

MOHLERE, DOLORES, B.S., M.S.M. (University of Alabama, Huntsville). Lecturer in Accounting, 1993.*

MOHRI, MAMORU, B.S., M.S. (Hokkaido University), Ph.D. (Flinders University). Adjunct Professor of Physics, 1994.

PRESTON, KEVIN R., B.S. (Eastern Kentucky University), M.S. (University of Alabama, Huntsville). Lecturer in Computer Science, 1990.*

PUSEY, MARC L., B.S., Ph.D. (West Chester State College). Adjunct Professor of Biological Sciences, 1993.

RAMACHANDRAN, N., B.E. (University of Madras, India), M.S., Ph.D. (University of Missouri-Rolla). Lecturer in Mechanical and Aerospace Engineering, 1995.

REDMON, MELINDA W., B.S.N. (University of Alabama, Tuscaloosa), M.S.N. (Vanderbilt University). Lecturer in Nursing, 1996.

REYNOLDS, NATHANIEL D., B.A. (University of Kansas), M.S. (University of Wisconsin), Ph.D. (Florida State University). Adjunct Assistant Professor of Atmospheric Science, 1993.*

RIGNEY, DOUGLAS, Adjunct Assistant Professor of Materials Science, 1993.

RIGSBEE, J. MICHAEL, Adjunct Professor of Materials Science, 1993.

ROBEY, LAWRENCE, B.S. (University of Kentucky), M.D. (University of Kentucky, College of Medicine). Adjunct Professor of Nursing, 1996.

ROMINE, PETER L., B.S. (University of Alabama, Tuscaloosa), M.S., Ph.D. (University of Alabama, Huntsville). Lecturer in Electrical and Computer Engineering, 1994.*

RYDER, BRADLEY, B.S.B.A. (University of Alabama, Huntsville), J.D. (Samford University, Birmingham, AL). Lecturer in Business Legal Studies, 1995.

SAFIE, FAYSSAL, B.S. (Ohio University), M.S., Ph.D. (Cleveland State University). Adjunct Associate Professor of Industrial and Systems Engineering, 1986.*

SARKER, SANJOY K., Adjunct Assistant Professor of Materials Science, 1988.

SCHUMANN, J. PAUL, B.A., M.A. (University of Mississippi), Ph.D. (University of Oklahoma). Adjunct Assistant Professor of Political Science, 1981.*

SCHUTZENHOFER, LUKE A., B.S. (Parks College of St. Louis University), M.S. (University of Alabama, Huntsville), Ph.D. (University of Alabama, Tuscaloosa). Lecturer in Mechanical and Aerospace Engineering, 1980.

SHEA, DANIEL, B.S., B.S.E., M.S. (University of Alabama, Huntsville). Lecturer in Civil and Environmental Engineering, 1995.*

SHEALY, DAVID L., Adjunct Professor of Materials Science, 1988.

SHUTT, GAIL, B.S.N. (Texas Women's University), M.S.N. (University of Alabama, Huntsville). Adjunct Assistant Professor of Nursing, 1996.

SMITH, SYLVIA, B.S.N., M.S.N. (University of South Carolina). Adjunct Assistant Professor of Nursing, 1996.

STANFIELD, ELIZABETH, B.S.N. (University of Florida), M.S.N. (University of Alabama, Huntsville). Adjunct Associate Professor of Nursing, 1996.

STEFANESCU, DORU M., Adjunct Professor of Materials Science, 1988.

STERN, HENRY E., B.E. (Tulane University), Ph.D. (University of Alabama, Huntsville), P.E. Lecturer in Industrial and Systems Engineering and Mathematical Sciences, 1982.

STINETT, GAYLE, B.S.N., M.S.N. (University of Alabama, Birmingham). Adjunct Associate Professor of Nursing, 1996.

STRICKLAND, RICHARD C. Adjunct Professor of Biological Sciences, 1991.

TAYLOR, ANDREW, M.D. (University of Alabama School of Medicine, Birmingham). Adjunct Associate Professor, 1996.

TEOH, NIHAL, B.Sc. (University of Istanbul, Turkey), M.Sc. (Clarkson University). Lecturer in Mathematical Sciences, 1995.

THOMAS, CRISTY D., B.S.N., M.S.N. (University of Alabama, Huntsville). Adjunct Assistant Professor of Nursing, 1996.

THOMAS, DANIEL L., B.S., Ph.D. (Brigham Young University). Adjunct Associate Professor of Chemical and Materials Engineering, 1993.*

THOMAS, LAWRENCE DALE, B.S.E. (University of Alabama, Huntsville), M.S.E. (North Carolina State University), Ph.D. (University of Alabama, Huntsville), P.E. Adjunct Assistant Professor of Industrial and Systems Engineering, 1984.*

THOMPSON, RAYMOND G., Adjunct Associate Professor of Materials Science, 1988.

TUEBERT, BETH, B.S.N. (Vanderbilt University), M.S.N. (University of Alabama, Birmingham. Adjunct Assistant Professor of Nursing, 1996.

URRY, DAN W., Adjunct Professor of Materials Science, 1988.

VEKILOV, ROUMYANA, B.S.E., M.S.E. (University of Architecture, Civil Engineering and Geodesy, Bulgaria), M.S. (Technical University in Bulgaria). Lecturer in Civil and Environmental Engineering and Mathematical Sciences, 1994.

VISSCHER, P.B., Adjunct Professor of Materials Science, 1988.

VOHRA, YOGESH, Adjunct Associate Professor of Materials Science, 1993.

VON TIESENHAUSEN, GEORG, JR., Ph.D. (University of Alabama, Tuscaloosa). Lecturer in German, 1986.

WALCK, SCOTT D., Adjunct Assistant Professor of Materials Science, 1988.

WARREN, GARRY W., Adjunct Associate Professor of Materials Science, 1988.

WELSTEAD, STEPHEN T., B.S. (University of Notre Dame), M.S. (State University of New York, Stonybrook), Ph.D. (Purdue University). Adjunct Assistant Professor of Mathematical Sciences, 1987.*

WENDT, RICHARD L., B.S. (Florida State University), M.S., Ph.D. (University of Houston). Lecturer in Electrical and Computer Engineering, 1993.*

WERKHEISER, ARTHUR H., JR., B.S. (Lafayette College), M.S., Ph.D. (University of Tennessee). Lecturer in Physics, 1969.

WHITE, ELIZABETH, B.S.N. (Birmingham Southern), M.S.N. (University of Alabama, Birmingham). Adjunct Assistant Professor of Nursing, 1996.

WILLIAMSEN, JOEL, B.S. (University of Nebraska), M.S.E., Ph.D. (University of Alabama, Huntsville). Lecturer in Industrial and Systems Engineering, 1994.*

ZAHORCHAK, ROBERT. Adjunct Professor of Biological Sciences, 1996.

ZEHRT, WILLIAM, B.S.E., M.S.E. (University of Illinois, Urbana-Champaign), P.E. Lecturer in Civil and Environmental Engineering, 1994.*
