UAH receives over $1 million for SDI

by Melissa Thornton

The Center for Applied Optics at UAH has just received an award of over one million dollars to carry out work for the Strategic Defense Initiative (SDI) on optical computing. The SDI contract, which was administered through the Office of Naval Research, will enable UAH to set up a laboratory to perform theoretical work on future optical computing.

According to Dr. John Caulfield, director of UAH's Center for Applied Optics, the laboratory program will concentrate on two ways to use optics and electronics together to accomplish tasks neither alone could do. Optical computing combines the rapidity of optics with the accuracy of electronics. Under the direction of professor Mustafa Abushagur, a second program to perform powerful "nonlinear" image processing tasks optically will be undertaken in the lab. This involves flowing data past flashing light beams and gathering the results to form new images. Some of the tasks lead to so-called "cellular array processors," while others lead to expansion, contraction and image sharpening.

"Electronics is the science of the twentieth century, and optics is the science of the twenty-first," said Caulfield. "UAH's Center for Applied Optics is paving the way to the twenty-first century today in Huntsville. The international acclaim of the University's program in optical computing has now resulted in this major award."
UAH receives powerful industrial laser

by Melissa Thornton
for The Exponent

The most powerful industrial laser on any university campus in the world recently was donated to the UAH Center for Applied Optics. The laser is one of two donated to the Center by a Combustion Engineering, Inc. subsidiary, C-E Industrial Lasers, Inc. (CEIL).

The larger of these is an HPL-200-1 twenty kilowatt cw carbon dioxide laser, which is one of the world's most powerful metalworking lasers. The laser will be used by the University for experiments on the optical control and utilization of lasers in metalworking applications, material damage research, and for improving laser performance.

"The lasers will create a unique resource for Alabama to support research for academia, industry, and government," said Barry Johnson, associate director of the UAH Center for Applied Optics. According to Johnson, one possible future use for the laser might be to produce components for laser propulsion rockets.

The smaller, 10 kilowatt laser has been delivered, and is being temporarily housed in the Rexham Speedring building on Bradford Avenue. The twenty kilowatt laser is due to arrive later this month.

"This gift represents a significant vote of confidence in UAH as an international center for excellence in optics," Johnson stated. "It will move some of our theoretical work into the hands-on, experimental realm, which should have significant impact for Alabama industry."

Graddick visits UAH

Graddick concluded by saying that he is more determined than ever and hopes for and needs an intelligent voter turnout on November 4.

The people voted for a change in June and he thinks they should get it, as he sees the politicians in Montgomery only looking out for selfish interests.

Though a write-in vote has never been elected governor, Graddick believes it can be done.

Graddick concluded by saying that the most serious problem Alabama has "is under the Capitol dome" in Montgomery. He wants to put integrity back in Alabama government, he said.

Though a write-in vote has never been elected governor, Graddick believes it can be done.

Graddick concluded by saying that he is more determined than ever and hopes for and needs an intelligent voter turnout on November 4.

Political Science useful for career

Jimmy Steely features editor

Everyone has heard that the government and business are complaining about the fact that many recent graduates from universities are getting an education which is too narrow. A degree in Political Science offers a well-rounded education and many varied career opportunities.

A graduate in Political Science can pursue a career in law, the federal government, state and local government, special interest groups, business, and journalism.

Although a degree in Political Science is not the only degree which prepares an undergraduate for law school, it is good preparation for the type of work which will be required of a student once he or she enters law school. For those who plan to enter politics after getting a law degree, an undergraduate degree in Political Science is particularly useful.

In an interview, Dr. Tom Williams, the Chairman of the Political Science Department, stated that an interest in government and the way it functions can be very useful once a person enters law school.

Government service offers a vast variety of jobs for the Political Science graduate from teaching children of diplomats to gathering information for the Central Intelligence Agency. Political Science can help a student prepare for the Civil Service Exam which is required for many jobs in the federal government.

However, Williams stated that in recent years the largest growth in jobs has been at the local and state level of government service. Thus, a UAH graduate in Political Science could find an excellent position in the Huntsville area or at least in the state of Alabama.

There are also many opportunities for the Political Science major in the private sector. The recent growth of special interest groups and lobbyists has meant a vast increase in demand for people who have the background which a Political Science degree provides. Also, many corporations which deal with the government hire Political Science majors as government relations experts.

The Political Science Department offers internships in law or campaign offices to qualified students. The department also works through various agencies to set up internships with lobbyists or government officials in Washington.

Thus, a degree in Political Science offers many different chances for an exciting and rewarding career. Williams pointed out that good grades, while important, are not the only thing that a Political Science student should worry about. A student should establish contacts and gain experience while still an undergraduate by being active in the Student Government Association and local or national political campaigns.

GER designed to broaden overall knowledge base

The Academic Advisement and Information Center is continuing the series of questions and answers to assist UAH students understand some of the policies and procedures which affect them. Students are encouraged to write to or stop by the Academic Advisement and Information Center (118 University Center) with questions.

Q. I am a Computer Science major, but I am required to take English, foreign language, history, literature and social science courses. Why are all of these other areas required?

A. Many students view their General Education Requirements (GER) with some degree of dislike. To be a successful individual in today's world, a person needs more than just "job training."

Part of your educational experience at UAH is designed to broaden your overall knowledge base and to make you a well-rounded individual. The GER for most undergraduate students is designed to allow you to explore a variety of fields of study. You are encouraged to seek knowledge and understanding in these areas with the same enthusiasm as you approach course work in your major.

Heart-to-Heart with Kephart

Bell towers and First-Kiss Funnies

by Jack Kephart

for the Exponent

I am not going to preach to all you First Baptists about what
Christianity is. You know. And it's not the success that you measure by
and therefore harder to do. "Smooth Talk" is a movie about a sixteen
year old girl that loses her innocence and her virginity all during one
shot of the front end of a 1969 CTO convertible. It's based on a story by
Joyce Carol Oates, but except for the occasional terrible line ("I look
in your eyes and see nothing but trashy daydreams") the moviemakers
overplay the theme.

The first one would be First Kiss Funnies. You write a few
poems and tell of an experience and the song that goes along with it.

This bell tower... will stand out like a pimple on Brooke Shield's butt.

I had decided to let religion alone for awhile and concentrate on
being a secular humorist and a true southern genitalman. But I can't.
Maybe I can. This is not so much about religion as it is about human
nature, and therefore harder to do. "Smooth Talk" is a movie about a sixteen
year old girl that loses her innocence and her virginity all during one
shot of the front end of a 1969 CTO convertible. It's based on a story by
Joyce Carol Oates, but except for the occasional terrible line ("I look
in your eyes and see nothing but trashy daydreams") the moviemakers
overplay the theme.

"This bell tower... will stand out like a pimple on Brooke Shield's butt."

And in the past I have made rude sounds about the local TV
newspaper-people mainly because the whole concept is that TV news
programs should be based on ratings created by the public adulation of
some puffball like Missy or Don whose sole talent is that they can read the
news without burping.

Next time I'll write about my first kiss and tell a war story that will be so
embarrassingly dumb that you'll won't feel bad about yours.

I was inundated with scientism here at UAH, maybe our Exponent editor could send out one
of her bright young reporters to find out from this brainy elite as to why this is so. Inquiring minds want to know.

But that's boys. Coming of age for girls is the same, but different,
and therefore harder to do. "Smooth Talk" is a movie about a sixteen
year old girl that loses her innocence and her virginity all during one
shot of the front end of a 1969 CTO convertible. It's based on a story by
Joyce Carol Oates, but except for the occasional terrible line ("I look
in your eyes and see nothing but trashy daydreams") the moviemakers
overplay the theme.

And in the past I have made rude sounds about the local TV
newspaper-people mainly because the whole concept is that TV news
programs should be based on ratings created by the public adulation of
some puffball like Missy or Don whose sole talent is that they can read the
news without burping.

Next time I’ll write about my first kiss and tell a war story that will be so
embarrassingly dumb that you’ll won’t feel bad about yours.

Dear Students:

I am sure you are aware by now of UAH's acceptance into the NCAA, transition to excellence in athletics, and the formation of the UAH Athletic Association. This letter addresses the latter.

As a student at UAH in the mid 70's, my business professors taught me to be supportive of whatever company or organization that I went to work for. To be that shining star employee, go extra mile, be supportive of whatever endeavors the company undertook and you would be rewarded in the long run. Well, I am an example that those professors were right. And now I am asking you to be supportive of UAH by becoming a member of the Athletic Association.

The athletes deserve your support. The Association. This letter addresses the formation of the UAH Athletic Association. This letter addresses the following:

- The second saw Baxley go down by some small margin in the runoff.
- The third phase of the election sees him struggling to regain the popularity of the first two phases.
- So he's changed his approach to campaigning. Sort of the same way a hamburger joint like Wendy's or McDonald's changes the way they make their foot every now and then, just to keep the public coming back for that fresh product that their stomach will accept. A product they can digest. A candidate when all this started, if you can measure that in time, Graddick made things known by not liking some things. His angle was to make things better by changing some stuff. He would make that prison in Limestone County safer by firing prison commissioner Freddie Smith.
- "My first day of office will be Freddie's last," Graddick said, and that kind of thing makes for good newspaper copy.
- Charlie also said he would make the legislators in Montgomery work. Just like everyone else. He intimated Thursday that working without pay might be a good idea for those legislators gays. He asked the standing-room only crowd if they wouldn't like a $25 fee to go where we got to come in around 10 a.m., or even 3 p.m., and go home early. The kind of job that offered long weekends and paycheck block.
- Everybody agreed that would be a fine.
- When that's Charlie told us that the legislators in Montgomery had been doing that kind of thing while we thought they were working.
- Everybody agreed that was a pretty good thing to do.
- But even with the occasional gruff statements he let slip on campus, Graddick has intentionally softened his tone, trying to disassociate himself with the politics of Baxley, or the "hand-picked" nominee, as Graddick would say.

After his speech, Graddick responded to a reporter's question by saying that he wasn't planning for coming to the game, thanks for coming to the game, thanks for coming to the game. How exciting.

You see, we have a lot of great students at UAH, a few of them just say they represent us well. Their face and their opinions.

I do not plan to attend any more movies until I can verify that some staff members who are not UAH Athletics Association member today.

Sincerely,
Bob Duke
Chair Class of '77
Director of Membership
UAH Athletic Association

A few of our great students are the athletes who put on the blue and white for us.

Dear Editor,

I have attended weekend games at UAH and I have enjoyed the selection as well as the price.

For years I have attended weekend games at UAH and I have enjoyed the selection as well as the price.

I do not plan to attend any more movies until I can verify that some staff members who are not UAH Athletics Association member today.

Sincerely,
Gail Hopson

All announcements for publication in the Exponent should be submitted by 5:00 p.m. on Friday before publication deadlines.

Announcements must be typed and have all available information included.
Neff achieves success through motivation

by Claus R. Martel
news editor

Note: As announced in the Exponent last week, we will interview different professors from various disciplines in an attempt to determine what their expectations of students are, as well as receive valuable tips on how to survive their classes.

When one asks Dr. David S. Neff III, Associate Professor of English here at UAH, why he chose to study English for a living, the response is quick and straight forward: "I enjoy it."

"Some of you might ask, "How could anyone enjoy, much less like English?" If you talk to the Michigan native, you might feel differently.

Neff started out at Wayne State University in Michigan as a psychology major. So why isn't Dr. Neff, English professor, Dr. Neff, local shrink? "In my senior year, I took a modern poetry class." He stayed at Wayne State an extra year to graduate with a double major in Psychology and English. Neff received his MA in English at Wayne State before moving on to receive a Ph.D. at the University of Illinois in Urbana-Champaign.

According to Neff, the key to survival and/or success in English 101 and 102 has little to do with being a young Shakespeare.

"The best preparation needed is having a background in reading."

And who are those who succeed in English 101/102?

"Some of my best students, regardless of major (English, Engineering, Math, etc.), were readers familiar with written expression."

The bottom line? "Anyone with motivation and clear thinking can succeed."

At exam time, Neff doesn't focus exclusively on whether or not students give that ever elusive "correct" answer.

"I look to see if the student can provide an effective argument for their responses."

Why should one consider to study English?

"First, one must have an affection for English."

Neff continued by stating that corporations today are hiring more and more English majors for their communicative skills. Neff also noted that openings for teachers are very little constructive criticism.

When asked for any last words of wisdom to pass along to the student body, Neff offered this word to ponder:

"I told you this guy doesn't pull any fast punches.

Rock classics must stand test of time

by Bruce Hagood
for the Exponent

Raw Power

The journalist career of Mr. Dennis Nichols, although much too short, set new standards at the Exponent for rock criticism. But while Mr. Nichols,1965-80 gleefully demolished various sacred cows, he rarely told us about what he liked in today's rock and roll music. The "Yawners of the Week" were quite entertaining, but contained very little constructive criticism.

Allow me to offer my own list of top ten rock and roll albums, in the hope that it might provide a touchstone by which to measure the quality of today's "product." To borrow a term from David Letterman's favorite lounge lizard, Any album must, necessarily, be arbitrary. But I emphasize the words "rock and roll" and "album." That is to say, the music must be rock and roll, as opposed to pop; this proviso excludes such fine groups as the Beatles. Moreover, each album must be a coherent whole which is greater than the sum of its parts, and represents a distinctive artistic vision.

And finally, each album must have changed decisively the subsequent course of rock music. Without further ado, here 'tis:

Jimi Hendrix Experience, Are You Experienced?
Rolling Stones, Beggars Banquet
Rolling Stones, Exile on Main Street
Bob Dylan, Highway 61 Revisited
The Who, Live at Leeds
Velvet Underground, Loaded
Velvet Underground, 1969 Velvet Underground Live
Derek and the Dominos, Layla and Other Assorted Love Songs
Led Zeppelin, Led Zeppelin I
The Stooges (with Iggy Pop), Raw Power

Some of my readers might object that I'm living in the past, to the detriment of the present. And it is true that all of my albums were released in the sixties or early seventies. We know that, in the past ten years, groups as diverse as Talking Heads, Pretenders, Elvis Costello, The Clash, King Crimson, XTC, Magazine, R.E.M., and our latest hope, Husker Du have released some superb albums. However, I cannot emphasize enough that the only truly infallible test of a classic is:

Today's rock fan must work much harder to find quality music. It's there, mind you, but the days are over when one could, while listening to AM radio, witness the climb up the charts of a "Like a Rolling Stone" or a "Street Fighting Man." The best music on the radio today--rock and otherwise--comes from the college stations. In Huntsville, we lack this luxury. And good live music is practically nonexistent here.

Yes, Mr. Nichols, the likes of WZYP and MTV are offering us the aural equivalent of junk food. But nobody is forcing us to listen to such garbage, and I suspect that laziness accounts for the failure of many people to search for alternatives. Laziness, and an insufficient knowledge of a better way.

Many are called, but few are chosen. The very best rock music is a potent drug, like Plato's "pharmakon," which simultaneously heals and poisons. In the words of the Rev. Iggy Pop: "Raw power got a healing hand, raw power can destroy a man."

Verily, verily he spakeeth.

Early registration begins October 23
Science Employment Information Day provides tips, interview sessions

A Science Employment Information Day will be held in the University Center from 9 a.m. until 5 p.m. The disciplines included are Mathematics, Computer Science, Biology, Chemistry, Optical Science, Physics, and Environmental Science. Coordinators Andrea Clements and Jacqueline McMorrow of the Career Planning and Placement Office, along with the School of Science, have arranged this to make students aware of what these areas of study are like and what types of job opportunities are available for students who major in these areas. Displays with information, instructions on how to write resumes, search for jobs, and present oneself at an interview will be given.

Approximately 1000 UAH Science Students have been invited. A reception for Science students and faculty will be held in the University Center deli from 11 a.m. to 1 p.m. Students from area high schools who are interested in majoring in these sciences will be invited from 3:30 to 5 p.m.

The displays will be provided by each department describing each field of the work for which it prepares students. Lists of local companies who have hired UAH graduates from the School of Science will also be given to students an idea of the job opportunities for them.

Job search techniques will be taught by Glenn Grady of the Alabama Army National Guard. He will also instruct students on resume writing and the Do’s and Don’ts of interviewing. For example, smoking, chewing gum, and/or wearing flashy clothes may make a negative impression. Dressing conservatively, as much like the people currently in the position as possible, and appropriately for the job is advised.

Two appropriately dressed mannequins from Parisian will be displayed to give students an idea that they should dress to appear in a professional job interview. Practice interview sessions will be held between 10 a.m. and 2 p.m. This provides the opportunity for students to have their interviewing style critiqued before an actual job interview. To sign up for mock interviews, please call 895-6612 before November 4. You may also call this number to find out about other events at the Science Employment Information Day.

The Owl and the Pussycat set for UAH

James Allen Brock, Jr. for the Exponent

The battle of the sexes reaches new heights in Bill Manhoff's Broadway comedy, The Owl and the Pussy Cat, which will be presented at the UAH University Center, October 28 at 6:30 p.m.

Model UN club schedules meeting for October 23

A meeting of the UAH Model United Nations Club will be held on Friday, October 24 at 12:15 p.m. in room 127 at the University Center. Any student interested in attending a model United Nations at Auburn University or the University of Alabama in Huntsville student newspaper

Winter PE courses provide skills for a lifetime of activity

Are you looking for a different type of physical activity, fulfilling and healthful, yet will give you the opportunity to meet other students? Then, consider registering for one of the many physical education courses that will be offered during the winter term.

Two of these that have a definite winter emphasis are ice skating and hockey, both credit courses. Ice skating will be taught by World Champion skaters and UAH students, Jim and Editha Dolson Hower, while hockey instruction will be provided by Charger Hockey Coach Doug Ross.

Both courses will be conducted at the Ice Palace on Governor's Drive. Other winter term physical education offerings include: Horseback Riding (in an indoor arena), Yoga, Karate, Karate Aerobics, Badminton, Jazz Dance, Racquetball, Volleyball, Bowling, Slimanastics, Aerobic Dance, Scuba, Social Dancing, Basketball, Basketball Office and Training, and CPR. Daily instruction, practice, and participation are stressed in UAH's Physical Education Classes. According to Dr. Joe Manjone, HPE, director, "Most of the courses provide the skills necessary for a lifetime of enjoyable involvement in the activity, while increasing the student's present fitness level."

A listing of the Physical Education Winter Credit Schedule can be found on the back page of this issue. Additional information may be obtained from the Physical Education Office at 895-6355.

Engineering early registration nears

Early registration for the Dean's Office for freshmen, sophomores, and transfer students in Engineering will be held from October 23-October 31.

Stromecky optimistic

UAH soccer team going through ‘dilemma’

by Cindy Rodriguez

Chargers lost 1-3. Berry College scored early in the game, with Wiah Sipley kicking their first goal point 10 minutes into the first half.

Soon after, the Chargers Raymond Oguno kicked the first goal point with Frank Davie’s assistance.

Although the Chargers played very well during the first 20 minutes by executing the strategy they had prepared for the tournament, they ran into a number of problems.

First, the Charger’s defense was weakened by the absence of their sweeper, Mikke Jeten, who was not able to play in this game. Due to a couple of injuries, the Chargers also fell into a trap by trying to compete with the Berry system of hit and run.

As player Pochal Dume stated, “The game was too fast, we should have slowed it down.” This fast pace was totally uncharacteristic of the Charger’s usual deliberate and slow passing game.

Dr. Ostap Stromecky, UAH soccer coach, said, “We did not play up to our capabilities, everyone seemed tired.” Overall the Chargers attempted five goal shots, scoring only once.

Stromecky added that “the young Charger team still makes mistakes, which is very common with only one senior on the team.”

During the second game of the tournament, the Chargers went against Anderson Brandtus College. Scott Henry, the manager-player, summed up the game when he stated, “the game was pretty even, until our players started getting injured.”

Due to a loss of five key players to injuries, the Chargers lost 5-0. Stromecky explained “that trying to overcome their deficiencies only multiplied the injuries when the UAH soccer team is so heavily plagued with this season.”

However, after two losses, the Chargers had not lost their optimism. Spirit unbroken, the Charger went on to defeat King College. In the third and final game of the tournament, the Chargers won 2-0. As Jolie Al-Tarlese, a King College player said, “It was a hard fought battle.”

During the first half, it was Raymond Oguno, with Tony Sharpe’s assistance, who scored the first goal. Following the first goal point, Chad Davis quickly scored the second point with Tommy Aseigui’s timely assistance.

Soccer team awarded first place in local tournament

by Barry Hill

for The Exponent

The UAH Chargers hosted the University of Alabama in Huntsville Soccer Tournament October 10 and 11. The teams participating in the tournament were King College of Bristol, Tennessee, and Birmingham Southern.

The first game was on the 10th at 4:00 p.m. between King College and Birmingham Southern. The Tornadoes of King College showed why they were 8-0-1 when they beat Birmingham Southern rather handily 4-1.

The second game took place at 10 a.m. on the 11th. The Chargers had to face 9-0-1 King College. The Chargers rose to the occasion and defeated the Tornadoes easily, 4-1.

After the mental and physical draining that morning, the Chargers had to face the Panthers of Birmingham Southern. Birmingham gave the Chargers all they could handle, and at the end of regulation play, the score was 0-0. (In soccer overtime, there are two mandatory ten minute halves.) In the first overtime, the Chargers scored with 20 seconds left to play when Raymond Oguno punched the ball through.

But it was not enough, for with one second on the clock, the Panthers hit a long direct kick to tie the game 1-1.

Since the game ended in a tie, the tournament committee selected the winner by tournament record. UAH was 1-0-1, so they were awarded the first place. King College was 1-1 so they were awarded second, and Birmingham Southern (0-1-1) finished third.

Selected to the all-tournament team from UAH were: Tarmo Tikka, Mikkku Jeten, Steve Little, and Aston Rhoden. UAH’s Raymond Oguno was named All-Tournament M.V.P.

The Soccer Team’s record now stands at 1-3-1.
Four Score plays in UC

On Thursday, Oct. 16, the University Center Exhibit Hall was the site of a concert by Four Score. Beginning at 9:30 p.m. the band performed songs by such recording artists as INXS, Van Morrison, U2, ZZ Top, Rolling Stones, and the Beatles.

The following photographs are scenes from the concert.

Tryouts slated for cheerleader alternates and mascot

by Tammy Gregg
sports editor

Tryouts for the 1986-87 UAH Cheerleaders are being held this week. The cheerleading clinic is in Spragins Hall from 8:45 p.m. until 10:30 p.m.

There are five girls and four guys currently on the cheerleading squad. Gwen Artis, cheerleader advisor, has yet to pick alternates for the group.

The new UAH mascot, Charger Blue, is unnamed. Anyone interested in this position should be at the clinic.

Participants of the cheerleading clinic will be taught partner stunts, sideline cheers, dance routines, gymnastics, and tumbling.

The final tryout day will be Saturday, October 25 at 10 a.m. Cheerleader alternates and the UAH mascot will be chosen at that time.

For more information, contact Gwen Artis at Spragins Hall, 895-6144.

Those interested are strongly encouraged to participate in the clinic and become involved in the fast growing UAH athletic program.

At the summer 1986 cheerleading camp, held at Memphis State, UAH competed with squads from all across the United States. The Charger squad brought home two gold superior ribbons, four superior ribbons, two excellent ribbons, and a third place trophy.

Volleyball team loses close AU game

The UAH Volleyball Team hosted the Tigers of Auburn University on the 14th. The Chargers looked like they were going to pull out a victory when they beat the Tigers in the first game 15-12. The Chargers then fell to the Tigers in the next three games, with scores of 3-15, 11-15, 11-15.

Intramural golf tourney Oct. 25

The Intramural Golf Tournament will be held at the Huntsville Madison County Jetport Golf Course on October 25 at 1 p.m. To register or for more information, call Spragins Hall at 895-6589 or come to the Manager's Office.

The tournament will be open to the first 40 students who register only.

AXIS Editor Needed

AXIS the UAH Literary magazine is seeking an editor for the 1986-87 year.

Submit resumes to:
Ann Davidson
Morton Hall, rm. 232

Deadline - October 24, 1986
Brandon sat down again and leaned toward his father. "Dad, you have lived as a dead man for five years. You need your partner and friend turned on you. How can you sit there and still believe in things that you cannot control?"

"I still have you, Brandon. You sit in the middle of the line's ten every day. I know you and I know that we will win one day. I will be cleared and my love will be better for this diversity. And judging just at this rehabilitation I am seeing."

Brandon smiled. His father was always the one who could crack a joke in the darkest time.

"Western has gone to the Bahamas."

"The old man's eyes lit up. "Well, did our friend finally take a vacation?"

"I don't know. He did not elaborate, but guess who he left in charge?"

"I'm just thankful that I look like mother and that I stayed away all those years. Otherwise, Western might have gotten away with his ill gotten gains. He thinks there is a leader among us."

"A traitor?" A smile worked its way across Brandon's lips at his father's jest.

"No. I don't know just what he is up to, but I really think he has someone in the company that is working with him. I just can't figure out who."

"He careful Brandon. Do not trust anyone at this time. I realize that you are going to get hurt if you play your hand."

"I will Dad."

"Yes, Brandon. They trust you more here. Will you play your hand."

Brandon took his father's hand and sat in a chair beside him. "Are they trying to play me?"

"Yes, Brandon. They trust me very well here. Will you try to have a little more faith in the program and the people here?"

"Faith? Faith?" Brandon stood up and looked out across the rolling grounds. "Father, Dad, how can you have faith after what has happened to you?"

"Brandon, I was dealt a heavy blow not so much the last of material things, but the loss of what I considered a dear and trusting friend, but I cannot judge the entire world by what a few men have done. There are good men left in the world. Perhaps some of them have gotten away with his ill gotten gains."

"I don't know. He did not elaborate."

"And the judge's decision is final."

"Yes, Brandon. They trust me very well here. Will you try to have a little more faith in the program and the people here?"

Brandon looked down at his father. It had just been the two of them for twenty years. Brandon's mother had died when he was six years old. His father had been more than a parent, he had been a friend, a confidante, someone Brandon could always turn to. Even though Brandon had been away at school they were still close.

And the winner is...
CLASSIFIEDS

1980 Chevette 2-door hatchback. 4-speed on floor. 1 owner. $1000.00. Call 895-3319 or 883-8953 evenings.

BLOOM COUNTY by Berke Breathed

QUICKLY, THE ILLEGITIMATES RETURN TO THE SCHOOL BASEBALL DIAMOND. A WANDERING BASSLOPE OR PRAWN TURNS UP IN THE PITCHER'S MOUND, SPITTING Payload.

BASSLOPE!! IN THE FLESH!! IT'S HUGE!! AWW!!

Milo! The Basslope! He's near! I can sense it!

Do something... Milo, He's going to attack. I can sense it!

On grass, oh God... what should I do?

Oh! The encounter with the Basslope will be exciting!!

We have returned from the hills and mountains recording evidence of the elusive Basslope on film!

Milo! The Basslope was exciting!

Remember, my assistant here is suffering from siberian sickness and exposure...

They want me to witness a twenty-foot anaconda!!! Please tell them of Omaha. No one can do it.

Milo Bloom...

When asked if the beat might not appreciate all the publicity, Bloom said that while basslopes do eat minnows...
