Results in on student government elections

by Marian Delaney Sampson

Over 400 students, or approximately six percent of the spring enrollment, participated in the recent elections for the UAH Student Government Association Officers and Legislators, and representatives to university committees.

Running unopposed, Michael A. Conn was elected president and Michael C. McCracken was elected vice president.

Several other candidates ran unopposed and were elected. The new SGA Legislative Secretary is Yvette D. Garner. Mohana R. Mullapudi will be a member of the Committee for Student Affairs Advisory Board representing Graduate Studies, and Rebecca S. Dalzell will represent Liberal Arts on the same committee. Pam Mooring was elected to serve on the Publications Board.

In other races, Milo Chang won a hotly contested race for finance officer. The 10 12-month legislators elected are Andrew Darrell Byrd, Tim Cobb, Ed Ditto, Doug Jones, Dena Livingston, Trisha Loring, Ben Masters, Cheryl Millard, Kevin Smith, and Carol Ann Vaughn.

The two six-month legislators elected are Michael S. Gillispy and Steve Guzman. In the last contested race, Amy Teresa Dickson was selected as the Administrative Science representative to the Student Affairs Advisory Board.

In an interview with The Exponent, current SGA President John Ortiz said, "I want to wish the next administration a lot of luck. I have every confidence that Mike Conn will do a good job. I want to thank Dr. Padulo for working so closely with the SGA. I would like to thank all of the students for giving me the opportunity to serve them."

In his first interview as president-elect Michael Conn said "I would like to thank the student body for the confidence and support they have shown by electing me to this position. I am looking forward to a very active presidency. I intend to see that our administration accurately conveys the concerns of the student body to the faculty, staff and administration of UAH."

Conn stated that he wants to encourage cooperative participation among all branches of SGA.

"This will provide a unified effort which will enhance SGA's ability to convey students' needs, wants and criticisms accurately and expeditiously," he said.

Conn's office hours during the summer term will be 1:30 p.m. to 3:30 p.m., Monday through Friday. He added that he will have an open door policy" and he encourages students to take advantage of it.

Barrier Awareness Day observed at UAH May 8

by James E. Spain

Barrier Awareness Day was held at UAH Monday, May 8, from 8 a.m. until 3 p.m. The day's events included the "Adopt a Disability" simulation, workshops, and a public forum sponsored by Teledyne Brown Engineering, the UAH Foundation, and Student Development Services.

Throughout the day, the University Center lobby was filled with exhibits and display booths from several agencies which help individuals with various handicaps. One of the exhibits, provided by the Huntsville Public Library, featured braille literature and recordings of books and magazines. The exhibit also displayed books with information on disabilities. All of the items displayed are available at the library.

The UC Deli was the location for the Technology Room, which was open throughout the day to display the latest devices available to make life easier for the disabled. Some of these devices included hearing aids, phones for the deaf, computers with larger displays for those with visual difficulties, and speaking devices which allow those who are unable to speak to communicate more easily.

Two simultaneous workshops were held at 10 a.m. One of these workshops featured the Kids of Huntsville Puppets, a group which travels to schools and other groups to present a program which informs children about various types of handicaps while also entertaining them. The puppets featured in this workshop included a....
Academic Honors Convocation held Friday, May 12

by Marian Delaney Sampson
news reporter

The UAH Academic Honors Convocation was held Friday, May 12, in the University Center Exhibit Hall. The Convocation began with a robed procession by the faculty to music played by the UAH Wind Ensemble under the direction of Dr. David Graves.

Dr. Allan Spitz, provost and vice president for Academic Affairs welcomed the standing room only crowd and introduced the Wind Ensemble. He said, "Today we gather for a very important moment in the life of this university. We gather to acclaim and celebrate the achievement of academic excellence and the promise it represents for the future.''

Spitz added, "It is appropriate to begin this occasion with music that was written for a celebration. Handel wrote the "Water Music Suite" for about 50 players... This music is especially fitting because we, too, gather to celebrate and because the music has a collaborative aspect that reminds us, as we are honoring and being honored, of the importance of human communication and the special role that music plays in enabling us to strengthen that exchange.''

After the Wind Ensemble performed, Spitz introduced UAH President Louis Padulo. He said, "It is vitally important to life of the university that we gather to celebrate academic excellence." Padulo introduced the convocation speaker, Dr. George Everett Cooper, executive assistant to the president at University of Alabama A&M.

Cooper said he was instructed to keep his remarks "brief and useful" and he did so. He gave students a five point program for success: (1) plan purposefully; (2) proceed positively; (3) pursue persistently; (4) attend to punctuality count; and (5) be a part of the solution: don't be a squeaky wheel.

Cooper quoted two football coaches, John McKay who said, "I am a big believer in the mirror test...all that matters is if you can look in the mirror and say 'I did my best,'" and Vince Lombardi, who said, "The quality of a person's life is directly proportional to their commitment to excellence.''

After Cooper spoke, Spitz recognized students who had been included in Academic Honors Convocation held Friday, May 12 National Honor Societies and on the Deans' Lists as groups.

Administrative Science Honor Society: Dana Adkins, Gunars Balodiis, Terry Brown, Deborah Davis, Susan Duram, Thomas Griffin Vickie Heaser, Nina Johnson, Regina Lewis, Donna Mason, Kathleen McNaughton, Kirsten Muller-Lindemann, Angela Nall, Kathy Roberts and Virginia Satterfield.

Alpha Kappa Delta (international sociology honor society): Carole Hopper.

Alpha Lambda Delta (freshmen national honor society): Josh Gentry, Harry May, Sharon McIntyre, Robert Newhill, Bruce Payne, Steven Vest and John Wallace.

Handicapped and master's degrees by telephone.

Dr. George Everett Cooper, executive assistant to the president at University of Alabama A&M.

Cooper quoted two football coaches, John McKay who said, "I am a big believer in the mirror test...all that matters is if you can look in the mirror and say 'I did my best,'" and Vince Lombardi, who said, "The quality of a person's life is directly proportional to their commitment to excellence.''

After Cooper spoke, Spitz recognized students who had been included in Academic Honors Convocation held Friday, May 12

Openning for Exponent editor for 1989-90 year

Qualifications include good writing, editing, and organizational skills.

Interested students should:

1--Fill out an application available at the Exponent office, University Center, Room 104; and

2--Send completed application, resume, and cover letter to:

Dr. Lee Williams
University of AL in Huntsville
Department of History
Roberts Hall, Room 403
Huntsville, AL 35899

Deadline for applications is May 31, 1989

Barrier Awareness Day observed at UAH May 8th

The Public Forum was held at 11:30 a.m. in the UC Exhibit Hall. The keynote speaker for this event was Daryl Smith, who, in spite of a severely disabling skin and muscle disorder, still managed to receive his bachelor's degree by telephone.

Other members of the panel for the forum were Dr. Gene Bryson, assistant dean of Administrative Sciences, who served as master of ceremonies; UAH President Louis Padulo; Steve Hedrick, director of the Huntsville Rehabilitation Center; and Rick Rice and Dick Altman from Teledyne Brown.

Rice began the program by stating that Barrier Awareness Day was a celebration of the fact that there is a better quality of life today for people with disabilities and working with people of all ages to remove barriers. Johnson concluded his speech with a salute to Smith, saying, "Once you've met Daryl Smith, you'll never be the same.''

Johnson spoke about the work of the Rehabilitation Center to help disabled children and adults. He said that their number one value was the dignity, worth and rights of disabled people. He said that this value is put into action by making sure that all people with disabilities are made to feel that they are already working.

Johnson spoke about the work of the Rehabilitation Center to help disabled children and adults.

Coalition for the Betterment of UAH to be formed  

by Marian Delaney Sampson  
news reporter

Members of the UAH community — students, staff, and faculty — met in the University Center, Room 131, from 1 until 3:30 p.m. on May 12 for the purpose of forming a coalition for the betterment of UAH.

Rosemary Schexnayder, SGA student grievance officer, addressed the meeting first. According to Schexnayder, the Student Government Association was acting on a directive from UA Board of Trustees President Pro Tem Winston Whoult in sponsoring the formation of the coalition. She said, “According to Mr. Whoult, we need to be more organized in bringing this issue to the Board of Trustees for the June 15 meeting.”

Schexnayder said, “SGA’s formed this coalition so that students will have a direct voice to the Board of Trustees...This is not a head-hunting operation, but a chance for faculty, staff, and students to have a channel to the Board of Trustees.”

Norman Mason, president of IEEE, stated that included in the proposed tuition proposal was a reduction of one percent in both student activity fees (the source of funding for SGA, The Exponent, “Shadows,” and intramurals) and the University Center.

Schexnayder began the information-sharing portion of the meeting by displaying viewgraphs of UAH President Louis Padulo’s memo of April 20, 1989 to Acting Chancellor Sam Earl Hobbs with UAH’s proposed in-state tuition hike.

Barriers Awareness Day

continued from page 2

arrangements necessary to go out in public. He stated that there are millions of disabled people, especially senior citizens, and that the older you get, the more likely you are to become disabled.

that IEEE did about the proposed change to semesters. Mason said that an ACT Student Opinion Survey in 1989 showed that 70 percent of the student body favored the current term or a quarter system. He said that The Exponent telephone poll in winter 1989 found 86 percent in favor of the current term. The IEEE survey indicated 83.95 percent in favor of the current system, 14.66 percent favoring semesters, and 1.4 percent with no opinion.

Students in attendance at the meeting presented some of their concerns. Lance Kirby stated that he would like to see something done about the elevator situation in Roberts Hall. He said that he has had to miss class several times. “That is one thing that should be taken care of ASAP,” he said.

Another student stated, “All the charts you’ve shown point to the fact that someone is prejudiced against part-time graduate students. That is the purpose of this school, to support the technical and engineering community.”

A political science major said, “Our students are tired of being called kids. We’re not all kids.

There was a vigorous discussion about the quality of teaching offered by part-time and full-time faculty.

Questions raised by other students were, “I want to know under what circumstances Dr. Padulo left his last job.”

“Does his son drive a system car to school?”

“What about the conversion of the apartment?”

“Is he spending all kinds of money on brochures and mailouts?”

One student said, “His office budget has gone up by $115,000.”

“Iss it true he had a $15,000 booze bill go through Finance?”

“When Dr. Padulo decides he wants to spend money on something, who approves it?”

“Is it true that Dr. Padulo had a party and invited A&M and UAH SGAs and had John Ortiz sign a letter endorsing the semester system?”

In order to set an agenda for a community fact-finding mission, the coalition agreed to meet again at 4 p.m., Friday, May 19, in the University Center. Membership in the coalition is open to any member of the UAH community and interested parties are invited to attend Friday’s meeting.
Dear Ms. Glasgow,

This past Friday [May 5] I went to the University Center to follow up on President Padulo's "State of the University Address." I did not go to protest. I went to gain a better understanding of why students had organized the protest. While at the University Center, I picked up a discarded poster that read "Say No to Tuition Increase." "I was approached by one of the Exponent's photographers and asked if I would like to have my picture taken with the poster," I said yes, and I turned the poster over to display what was written on the other side "We Love Padulo"

Was my picture taken? No, it was not taken because the photographer would not take a picture of a poster offering support to President Padulo. I do not know how you will report on the student protest, but I think that what is reported will be done in the same classless manner demonstrated by recent issues of the Exponent.

Sincerely,
Thomas Jones

SGA seemed to be the logical answer...for involvement...

One Year with UAH SGA

Upon my arrival in Huntsville on January 1, 1988, I had no idea that SGA would allocate my valuable time at UAH to benefit myself as a student, as well as the UAH student body and the community. While studying as a part-time student and working as a part-time salesperson, SGA seemed to be the logical answer to fulfilling my interest in community involvement with the campus community.

While the previous twelve months I have spent at UAH have been a challenge, the large Student Legislature has been a mostly great fun. I must admit I've enjoyed the fellowship and the learning experience in political science in the first degree. I've enjoyed the attendance of many of the available lectures, workshops, etc., provided by the UAH student government. While the Exponent has firmly etched its niche as the student newspaper, we all have chosen to attend.

I had the honor of representing UAH as a delegate to the 1988 Alabama State SGA Convention, as well as the 1989 National Convention of SGA's. It was an experience I will never forget. While attending this meeting and working closely with several of the University's finest student leaders, along with other members of the UAH student government, the hard-working group whose overall goal was fair, impartial, and just government.

As fact, the record will show this year proved to be the most productive in the history of the UAH SGA. From record fund raising to needed administrative policy changes, the UAH SGA has worked hard. The sound institution of honest representation it proudly bestows upon its members.

In the near future, all people involved with UAH will, via the Honorable John Ortiz, receive the many accomplishments secured by the SGA during this administration. Hence, the challenge is made to make the upcoming political year even more productive. Due to the past six months of the first capacity-filled Legislature, UAH students proved their earnest commitment to community participation.

With these thoughts in mind, I have chosen not to seek re-election this term. I pray and certainly believe in another way the student body will be filled by responsible and sober representation. I plan to support and lend work effort with the new administration in an unofficial manner and urge all students to also become involved. Remember, we can shape our way of college life in the mold we choose.

Sincerely,
Bill Motley
SGA Legislator

---

Letter Policy

The editorial board of The Exponent has established the following policies concerning letters to the editor for the 1988-89 year:

The Exponent welcomes concise letters to the editor for publication in the following Wednesday's newspaper. All letters dealing with current events and UAH-related concerns or issues. All submissions should be typed, double-spaced, and signed. Unsolicited letters will not be accepted. Letters will not be corrected for spelling, grammar, or punctuation.

The deadline for letters to the editor is Friday, 5 p.m., the Tuesday following Wednesday's newspaper. All letters will be verified as authentic before they are printed, and authors must present some type of identification upon request.

The Exponent will not alter the content or meaning of a letter. The editorial board reserves the right to edit lengthy letters. All letters must be 500 words or less. The editor has final approval of all letters to be published.
Alpha Tau Omega

The brothers of Alpha Tau Omega would like to announce their spring pledge class, the Alpha Tail Omega. Warm congratulations go to Barrett Appleton, Mike Eblevins, and Bo Williams. They were formally pledged Sunday, May 7. We are looking forward to having these fine young men become a part of our brotherhood.

Brother Kevin McClure was invited to join the Engineering Students’ Honor Society. Little sister Karen Haley and brother Chris Hamilton were also invited as bass soloists, respectively, in the UAH Chorus’ Magnificat. Brother Joe Ploetl won the Greek Week Sub-Eating Contest. We are proud that our members are so involved in campus events.

The Theta Pi chapter was recognized by the Alpha Tau Omega national fraternity three times in its last report. Our chapter was singled out for scholarship, social service, and for our outstanding dribble-marathon project last winter.

AIAA

The UAH student branch of the American Institute of Aeronautics and Astronautics will be attending the AIAA Awards Program on Thursday, May 25, at the Redstone Arsenal Officers’ Club. Test pilot Scott Crossley will be the guest speaker. In the days before NASA and the Mercury program, Crossfield flew the X-15 and other experimental rocket planes to the very edge of space. His presentation, entitled “Ordway and Upward,” promises to be fascinating.

All students interested in the aerospace industry and related topics are encouraged to attend. We will meet at 7:30 p.m. in the Engineering Building, Room 107, with departure scheduled for 8:00 p.m. The program will begin at 8 p.m. Suggested attire is shirt and slacks (tie is optional).

For more information, contact Robert Goodwin at 895-6238 or Dr. Tom Cost at 895-6543.

AIChe

The American Institute of Chemical Engineering held a May 10 meeting. The major topics of business were the election of new officers for next year and an upcoming plant tour.

The new officers are Lee Rogers, president; Bob Lowery, vice president; Christie Hanes, secretary; and Staci Hokker, treasurer.

There will be a tour of NASA Marshall Space Flight Center Materials and Process Laboratory on Wednesday afternoon, May 17. Call Dr. Thomas at 895-6190 for further information. The annual AIChe picnic will be May 27 at 3 p.m. The location will be announced later.

Baptist Student Union

The Baptist Student Union will have their weekly lunch today at 12:15 p.m. The cost is $2, which goes to summer missions.

Tomorrow night, we will have Bible Study at 8:15. Celebration is Tuesday at 8:15 p.m.

The First Annual BSU Snipe Hunt will be this Saturday night at 8:15 p.m. in the field.

Announcement policy

All clubs and organizations’ announcements must be kept to 150 words or less. This is to allow room for all announcements.

Clubs and organizations are prohibited from exceeding the 150-word limit; however, The Exponent cannot guarantee that all of the announcements will be printed exactly as submitted. You must give us new material to include all of the announcement not exceeding the 150-word limit. The editor has final approval of all announcements in regards to length, newsworthiness, questionable content, and poor taste.

Clubs and organizations are permitted to submit photos to accompany announcements; however, the photos must be printed on a space-available basis. All photos should contain the following information: name of club submitting photo, names of all individuals in photo, photo credit, if photo can be returned, and if the photo can be printed.

On Saturday, May 20, Delta Zeta will hold a yard sale on the lawn of the University Center. The sale will begin at 8 a.m., and raffle tickets will be sold during the day for various prizes. All items will be donated to the Salvation Army.

The prizes, which will be announced at a later date, will be awarded to participants who attend. Applications may be obtained at the University Center Information Desk, Spragins Hall, Alumni House, and the music department office. The deadline for submissions is Friday, June 2, 1989.

UAH Fight Song Competition

The UAH community is invited to participate in the UAH Fight Song Competition.

The competition is for lyrics and/or a tune. There will be a room set aside for the competition. Applications must be filled out and submitted to the Music Department by Friday, May 18.

All submissions will be judged by a panel of judges.

For further information, call Dr. Glenna Colcough at 895-6190.

World Issues Society

There will be a meeting of the World Issues Society on Wednesday, May 17, at 5 p.m. in the Student Union Conference Room. All interested students are encouraged to attend.

New mathematics course, MA 620, will be taught fall quarter

A new mathematics course will be offered in the fall 1989 term. Analysis and Perturbation Methods, MA 620, will be taught during the Tuesday/Thursday 6 to 8 p.m. class, in Morton Hall, Room 307.

The course, instructed by Dr. Joseph D. Fehrbach, will cover the following topics: Asymptotic Series, Regular and Singular Perturbation Theory, Asymptotic Matching, Laplace’s Method, Stationary Phase, Steepest Descents, and Birkhoff Theory, Applications of These Topics.

The course is intended for students in science courses who have completed an advanced course in further mathematics. Students planning to take this course should be familiar with linear algebra, complex variables, and basic knowledge of differential equations. The material is also of particular interest to computer scientists in applied analysis and differential equations.

For further information, contact Fehrbach at 895-6470.
Philips satisfies crowd with clean comedy

by Penelope Holmes
features reporter

Friday, May 12, brought a lot of Emo Philips fans to the Von Braun Civic Center.

As the newcomers in Friday's audience found out, Philips' comedy routine is a weave of one-liners and outrageous stories. Most of the audience knew what to expect, as they had been fans long before they ever stepped into the VBCC Concert Hall on Friday.

In fact, at the beginning of the two-hour show, there was a brief chanting of "Emo...Emo..." from one section of the audience, a section that did not show as much interest in the two comedians that performed before Philips.

It seemed like most of the audience viewed the first two comedians, Chris Kelley and Dan Wilson, as an extra treat rather than as a working part of the show.

The audience wanted Emo.

Philips' one-liners were funny. His outrageous tales of childhood and his personal life were unbelievable, but hilarious. One of his stories began with a short joke about a pit bull he had as a pet when he was a child.

"My pit bull used to do a cute little dance...when I would hold the leash up real high," Philips said, demonstrating how he would hold up his dog's leash. He then said that he once catapulted the dog over the fence into the street just as a car was passing by. The distraught motorist came up to Philips and said, "I'm sorry, I didn't see your dog," and gave him $10.

At this point in the story Philips looked at the audience and said, "An entrepreneur was born."

The planned scheme went very well for awhile, he said, until one day the same guy drove back along the street.

"You monster," Philips told him. "Do you want to kill the third triplet, too?"

"I want to see your parents," said the suspicious man.

"I'd need a bigger shovel," Philips spat back.

Other stories dealt with how he had once been stuck in dried cement and his experiences with a high school principal and school psychiatrist. Only a very small portion of his material dealt with public issues. One joke he told that did deal with a couple of current issues was "Do you know that in New York City they give free needles to heroin addicts? Like, they're too lazy to go down to the beach themselves."

Towards the end of the show he took questions from the audience. One of the questions was from a man who had noticed Philips' apparent preoccupation with his family. "Does your mother cut your hair?" this man asked.

Philips came out on top with this one. "No, I do it," he said. "I move my mom's hands."

One interesting point about Philips, Kelley, and Wilson is that not one used crude language to tell their jokes, and in fact very little of the material the three comedians used could be called lewd. In today's comedy circles when four-letter words hold up every sentence, listening to these three comedians was refreshing.

Philips said he tries to hit every city in the United States once a year. After the show, Philips spoke about Huntsville and about the South.

"You need more law offices in Huntsville, but other than that it's a nice place," he said. Earlier, during his performance, he had made the comment that "for hospitality and warmth, you can't beat the slave states."

"I was in the Comedy Club about five years ago, but it seems like half a decade," he continued. "Huntsville is a good place to raise a family (pause) about forty miles up into the air, 'cause of all the nice rockets you have here."

Philips will be on the David Letterman show on May 18. He will also be at the American Comedy Awards on May 30, "for all the five fanniest mammals in America."

Kid's College program offering summer excitement

by Pat Newcomb
features reporter

UAH's Department of Continuing Education has an exciting and varied program planned for this summer. The selection of classes is called Kid's College and ranges from sports and fitness programs to the arts and sciences.

The emphasis of the continuing education program is on both learning and strengthening academic skills in a fun environment.

Kid's College is offering many unique classes beyond the expected tennis camps and swimming lessons. One interesting session to be offered is Dinosaur Camp. Children 6 to 8 years old will have an opportunity to learn about the extinct giants by studying fossils and other skeletal remains. The kids will also make a plastic model of a Tyrannosaurus Rex. A daily snack and a camp t-shirt are also included in the course fee.

A fascinating sounding class in Robotics is offered for the scientifically minded 13-and-up group. The class introduces teen-agers to the basic engineering principles that are fundamental to the analysis, design, and control of robotic manipulators. This class requires a familiarity with BASIC programming language.

Other classes offered this summer include magic and art classes as well as academic enrichment courses. There will also be a class offered in harmonica playing, where teen-agers can learn to play blues, rock 'n' roll, and folk music.

Responsible pet care and dog obedience courses are offered for the animal lovers.

A wide array of sports and fitness programs will be available. Basketball camps for both girls and boys will be offered. Other sports featured include several types of baseball camps, bowling, golf, soccer, and tennis.

A cheerleading camp will be offered for children 6 to 17 years of age.

Language courses are a new offering this summer. Classes in French, German, Japanese, and sign language will be available for children of various ages.

Courses will also be offered that include preparation for test taking, grammar skills, and geography. Taping for a computer keyboard is also among the classes listed under Academic Techniques.

For more information on sports and fitness courses, call 885-6007, or for art, science, or math courses, call 885-6355.

Space is limited for Kid's College courses so plan on registering early.
George "Mr. Sulu" Takei: a man of many occupations

Every "Star Trek" fan is familiar with the seven main characters that comprised the starship Enterprise. There were always enough major characters showing up now and then to give viewers the illusion of a large ship, but it was always clear who the stars of the show were.

One of those stars was Mr. Sulu, the San Francisco-born helmsman of the Enterprise who was played by George Takei. Students at UAH will have the chance to speak to Takei this Friday, May 19, when he appears in the University Center Exhibit Hall at 7:30 p.m.

Students will be able to ask Takei questions about himself, about "Star Trek" and about the latest of the "Star Trek" movies, "Star Trek V: The Final Frontier," which will be coming out this June.

Not much has been revealed to the press about "The Final Frontier," except that it was directed by William Shatner, who also plays James Kirk in the movie. Also, although its title might signify otherwise, "The Final Frontier" is not necessarily the last movie that will be made in the "Star Trek" series.

"The Final Frontier" cost about $32 million, as the fourth of the "Star Trek" movies each earned about $50 million. The last was "The Voyage Home" directed by Leonard Nimoy (Mr. Spock).

The four other actors who portray main characters in Star Trek are DeForest Kelley (Dr. McCoy), Nichelle Nichols (Uhura), Walter Koenig (Chekov), and James Doohan (Scotty).

Takei studied architecture at the University of California in Berkeley before he went to UCLA to pursue a career in acting. His first experience in a movie was being the voice of 12 different characters in the Japanese "Rodan" when the movie was dubbed into English ("It was a horrible sci-fi movie," Takei explained).

Since then, he has had many parts in movies and television, including his famous role as Mr. Sulu of Star Trek, which began in 1966. Takei will star in another motion picture this year alongside "Star Trek V: The Final Frontier." "This movie is "Return From The River Kwai."

Acting is not the only occupation Takei is involved in. He is also involved in civic duties in Los Angeles. He is presently serving on the Board of Directors of the Rapid Transit District (RTD), working on what is called the Metro-Rail project, a subway system being built in Los Angeles. His duties are with the visual aspects of the subway system.

Takei claims his involvement in civic affairs is a result of his childhood memories of World War II, when his family was moved along with other Japanese-Americans to an internment camp in Arkansas.

"It was my father's feeling that the internment would not have happened if more of us had been involved in the larger community, which then would have come to our defense," Takei once said. "This is a participatory democracy."

"You must participate."

Takei has also written one science fiction novel, "Mirror a Friend, Mirror a Foe," and is currently working on a second book.

One medical and two nursing students at UAH have received scholarships from the Madison County Medical Society Auxiliary.

Jeanette Watson, chairman of the Auxiliary scholarship committee, presented scholarship checks to Gail Hackney of Huntsville, a junior in the UAH School of Primary Medical Care, and Teresa Kerbo of Huntsville, and Jennifer Pridmore of Decatur, both juniors in the UAH College of Nursing.

The Auxiliary awards scholarships every year to students in health professions. Proceeds from fund raising events such as the Auxiliary's annual spring fashion show are used to fund the scholarships. The Auxiliary also designates a major portion of the proceeds from its fund raising projects each year for the UAH School of Primary Medical Care medical student programs through the American Medical Association Education and Research Foundation.

Through its fund raising activities, the Auxiliary also provides support for a number of community health education programs. These include its organ donor awareness program in public high schools, its CPR (cardiopulmonary resuscitation) program, Hospice of Huntsville, the Huntsville Police Department's DARE drug education program in elementary schools, the hospital Hospitality House, Harris Home for Children, and the Help Line Rape Response Program.

Honors Convocation
continued from page 2

Phi Sigma Iota (international foreign language honor society): Anne Adams, Linda Bagley, DeAnn Burt, Lillian Ellis, Angela Goodwin, Mararete Kennel, Maria Lazzetti, and Edith Phillips. Pi Sigma Alpha (political science national honor society): Micah Daniels, Anita Krutsinger, Maria Lazzetti and Cheryl Williams. Sigma Pi Sigma (Society of Physics Students): William Adams, Kenny Burns, Jeffrey Cites, Lori Couch, Peter Erbach, Thomas Fienenworth, Rodney Fuller, Mark Johnson, Alan Kathman, Douglas Lampert, Gerald Larson, Peng Li, Yi Qiang Li, Kan Liou, Michael Murray, Thomas Peddycoart, Laura Richardson, Mirjelankange Sanghadha, Deborah Serda, Andrew Thies, Thomas Tomillo, Renee Wahba, Dale Wakefield, Ai-Hua Wang, Sandra Woodall and Muamer Zukic.

Students named to the Dean's Lists in the Colleges are Administrative Science: Dana Adkins, Cheryl Bauer, Donna Berger, Terry Brown, Deann Bur, Teresa Callaway, Michael Cantrell, Maureen Clark, Deborah Cleveland, continued to page 8
Misleading “Fast Food” best left untasted

by Laurence F. Specker
features reporter

I don’t think I ever want to see another PG-13 movie, because I’ve finally figured out what PG-13 is all about. I didn’t figure this out all by myself, though. I had a little help from what could be described as a consummate PG-13 movie — “Fast Food.”

“Fast Food” is a story based on a uniquely American tradition: burger wars. However, in this case we’re not talking about McDonalds vs. Burger King vs. Wendy’s vs. Taco Bell vs. everybody else; we’re talking about “Cowboy Bob” Bundy vs. a group of young upstarts located in a broken-down gas station.

“Cowboy Bob” is played by Jim Varney of “Hey Vern!” fame. That, along with the rating, gives a pretty clear picture of who “Fast Food” is aimed at: 15-year-olds in high schools all across the country: people too young to care what a piece of junk they’re looking at.

Granted, “Fast Food” has its share of humor, mostly in the form of snappy one-liners. The humor of the movie didn’t sit too well with me for the simple reason that I am a college student. I might have loved it a few years ago, but not now. Since most of the readers of The Exponent are also college students, this dissatisfaction will probably apply to you as well.

Let me explain. Movies on this level tend to rely heavily on one tired comic device, the stereotype. Some, like the “Police Academy” movies, have nothing but stereotypes for characters. Stereotypes can be funny, and they’re almost always good for a cheap laugh, but they’re one step away from ethnic jokes and can damage the real-life reputations of people.

What makes “Fast Food” especially bad in this respect is that it is aimed squarely at the high school audience, and it is based almost entirely on negative stereotypes of the college life. That’s us. We’re all there, from the Greek system that is nothing but a party and sex machine for depraved slobs and nymphomaniacs to the rest of the alcoholic, irresponsible, or nerdy college population.

The Greeks are hardest hit in this movie, as the old “Animal House” legend is once again called to life, but the rest of the student body doesn’t get off much easier. Add to that the fact that “Fast Food” is practically a commercial for loose, hit-and-run sex, and you’ll begin to wonder who makes such a movie in this day and age.

“Fast Food” is designed purely to titillate high school (and younger) kids with a ridiculous and misleading view of college life and sex. We college students should be looking for something a little more meaningful than this throwaway entertainment. I feel I can safely rate “Fast Food” as a must-miss for my fellow students.

Student achievements recognized at Convocation

Becky Crane, Timothy Culberson, Noma Daily, Donna Davis, Susan Dunham, Kimberly Duran, Gayle Franklin, David Gallagher, Margaret Hale, Michelle Hales, Pamela Hasty, Vickie Heuser, Deborah Jacobs, Nona Johnson, Lori Jones, Mary King, Stefanie McAlpine, J. Doug McDonald, Barbara McLemore, Kathleen Naughton, Kirsten Mullindemmn, Angela Nall, Angela Overstreet, Darla Owens, Paul Patterson, Kenneth Prince, Diana Provancha, Anisaa Rivera, Belinda Wallingsford, Tina Weatherly, Kathleen Wilson, and William Wise.

Engineering: Robin Buckelew, Marsha Cook, Jong Gyu Kim, Gary Kobet, Terry Koelbl, Floyd Parker Jr., Brian Strickland, and Eve Jane Walker.

Liberal Arts: Kathleen Anderson, Vera Bachtel, Milo Cameron, Elvira Ceci, Angel Chaney, David Crouch, Micah Daniels, Elaine Hester, Shirley Kirk, Maria Luzietti, Kathy Selvidge, Tanya Stone, Mark Sproles, and Vicki Wilson.

Nursing: Luann Brewer, Suzanne Brothers, Teresa Casaday, Thomas Gruba, Peggy Hofer, Cherrie Kordani, Jennifer Pridmore, Marlena Primeau, Susan Steinboff, Susan Turbyfill, and Angela Willis.

Science: Helga Alexander, Norma Burns, Karen Carl, Jyoithika Chadaga, Curtis Davis, Peter Erbach, Rodney Fuller, Denise Garcia, Patricia Harris, Jason Hinson, Scott Howard, Cathy Jenkins, Lori McCoin, Tracey Morrison, Peggy Murray, Roy Murray, Christopher Price, Till Rosenberger, Cathy Shrader, Kathrina Sommers, Jonna Tomlinson, Scott Wright, and Xingbin Zhang.

With the assistance of convocation organizer Dr. Anne Boucher, Spitz presented certificates to students who were called forth by various people. It continued to page 14

Two positions available beginning Summer Term

One in Southeast Campus/On-Campus Housing

Up to ten positions available beginning Fall Term

Four in Southeast Campus/On-Campus Housing

APPLICATION DEADLINE: FRIDAY, MAY 26

Interviews: May 30 - June 2 (before finals)

2.5 cumulative GPA required

Remuneration: Private room (in Southeast Campus Housing) or equivalent rent credit (in University Circle Family Housing) and $125 at the end of each term.

Susan Dickey (center) accepts a $3500 National Association of Accountants/Stuart Cameron and Margaret McLeod Scholarship from Dr. Gower Porter (left), chairman and professor, Accounting, and Dr. Walter Batchelder, advisor to the UAH Accounting Club and assistant professor, Accounting. Dickey received one of three scholarships awarded for 1989-90 by NAA. NAA has 325 chapters in the United States. Each chapter is eligible to nominate a scholarship candidate.

$1000 a Month for Graduate Study

In

at Mississippi State University

The Diagnostic Instrumentation and Analysis Laboratory (DIAL) at Mississippi State University has established a graduate assistantship program. The assistantship will include a tuition waiver plus a stipend starting at one thousand dollars ($1000) a month for outstanding applicants. The graduate assistant will work on the DIAL research project and pursue a graduate degree in one of the Programs Listed above.

For more information please write:

Mississippi State, Mississippi 39762

Mississippi State University is an Affirmative Action/Equal Opportunity Employer.
Robert Parker, UAH Co-op of the Year 1989, accepts a plaque from General Turnmeyer and Dr. Padulo.

**Barrier Awareness Day**

Smith spoke about this project in which an ordinary house will have the usual barriers removed and other technology, such as guidance systems, will be installed and researched. This house will eventually become a dormitory for disabled students at UAH.

When Smith concluded his speech, he received a standing ovation and opened the floor for questions. When asked how soon the Experimental House can be developed, Smith said that the first stages are already being worked on, and Padulo added that the house for the project has already been found. He said that work will begin on the house, which is owned by UAH, as soon as the current occupant's lease runs out.

The forum was followed by a reception which gave participants a chance to talk to Smith and other members of the forum panel.

At 2:15 p.m., the three students who

**Parker named 1989 Co-Op of the year by ACCPA**

by Sherhonda Allen
for The Exponent

Richard Parker, an electrical engineering student co-oping with Phase IV Systems, Inc., has been named the 1989 Co-Op of the Year.

Parker is a senior engineering student with a 3.77 GPA and has been a co-op student since the winter 1986-87 term. He is one of over 300 UAH students to benefit from the co-op program and was one of eight UAH co-op students to be nominated for the honor. Parker will now compete at the state level for the Alabama Co-op Student of the Year, recognized each year by the Alabama College Co-op Placement Association (ACCPA). Gen. George Turnmeyer, director of the Co-op Education Program at UAH, said UAH students have been selected at the state level two years in a row.

"UAH has the finest co-op students in the state of Alabama," Turnmeyer said during the university's award presentation. He added that Parker received a unanimous vote from the co-op of the year selection committee.

Dr. Michael Fashey, Phase IV Systems, Inc., president, and George O'Reilly, were on hand during the presentation, as were Parker's parents and wife, Tammy.

**SPRING BREAK.**

IBM wants to give you a break on the IBM Personal System/2 computer. A PS/2 can help you organize notes, write and revise papers, produce high-quality graphics, and more. It's easy to learn and easy to use. And now, if you buy one of our specially-configured packages, you'll get some great software, too.

For a limited time, purchase one of the packages described below, and you'll also get a mouse, DOS 4.0, Microsoft Windows/286 or 386, Microsoft Word (academic version), and HDC Windows Express.

With the purchase of a PS/2 Model 50Z or Model 70, you'll also get Microsoft Excel (academic version) - the hot, new spreadsheet package. And we'll even pre-load the programs for you.

So have a great time at the beach... or on the slopes... or with the folks. Your new PS/2 will be ready to help you make it to Summer when you get back.

You don't need a computer to calculate these savings!

Dear Students, Faculty and Staff:

The University of Alabama in Huntsville, like other universities, truly benefit from the contributions of outstanding students, faculty, and staff. The Student Government Association feels fortunate to serve this growing university and takes pride in giving their time and undivided attention to benefit the well-being of the student body. As your Student Government Association, we were able to implement several services/benefits which have greatly improved student life here at UAH. Reflecting over the 1988-89 academic year, we are happy to announce some of our contributions. The most significant of these contributions are as follows:

**STUDY DAY FOR STUDENTS** The new academic schedule for calendar years 1989-1990 and 1990-1991 now include a study day before finals. Now, students will be able to get some relief before finals.

**FREE LEGAL COUNSEL FOR UAH STUDENTS** The "Free Legal Services Program" was approved by the Student Body, Faculty/Staff, and Student Government Association (SGA) and placed into operation on January 27, 1989. Today, currently enrolled students can seek Free Legal Counsel in the SGA Office in the University Center, Room 106 on Fridays from 10:00 to 11:00 AM and 2:00 PM.

**COMPUTER LAB** Since the Computer Lab Committee's inception, we have found a home for the computers in the UAH Library. Our goal is to have 20 Macintosh and 2 IBM PCs in the University Center and Library by Fall quarter of 1989.

**NATIONAL COLLEGE NEWSPAPER** Since the Student Government Association is partly responsible for trying to improve campus life by providing programs/benefits, we took it upon ourselves to provide the student body with a National College Newspaper called the "U." Because the UAH community will be able to read about other campuses, we felt that UAH students could gain valuable information by learning about other students from other universitites.

The "U" was first distributed on the UAH campus January 22, 1989. Over the next eight months, students will receive 3000 copies every month of this National College Newspaper "U" absolutely free.

**ELECTION/SPONSORSHIP OF CLASS OFFICERS** The program works by having elections of class officers each year during the fall quarter. In fall of this past year, the election of Freshman Class Officers has taken place to promote the freshman class. Each succeeding fall we will add an additional class until we have elections of all classes. So, by the 1991-1992 academic year we will have elections of Freshman, Sophomore, Junior, and Senior Class Officers.

SGA has been instrumental in instituting the sponsorship of $500.00 for each new class. These monies will act as an agent to help the promotion of each class. These monies can be used for social functions that each class feels is appropriate. Our Freshman Class Officers for the 1988-89 school year are Mathew D. McGary-President, Rudy C. Tijh-Vice President, Christie D. Dale-Treasurer, Julie E. Preston-Secretary. You can contact your Freshman Class Officers by leaving a message in their mailbox located in the SGA office in University Center, Room 106.

**OTHER SGA PROJECTS:**

**SEXUAL HARASSMENT ISSUES**
**CONDON MACHINES ON CAMPUS**
**UNIVERSITY BUYERS GUIDE**
**SGA OPEN HOUSE**
**FUNDED INTRAMURALS**

As your 1988-89 Student Government Association, we have had the opportunity to implement key programs and benefits which SGA feels will make a positive impact on UAH student life for years to come. We consider SGA lucky to have been entrusted with this position, and we are proud of the contributions that we have implemented this year. Should you have any questions or concerns, please don’t hesitate to call an SGA representative at 895-6428 or 895-6429 or stop by the SGA office at the University Center room 106.

Sincerely,
John M. Ortiz II
SGA President
Two students to visit France for Space University

Two UAH students will travel to France this summer to attend the prestigious International Space University.

Joel Williamsen and Cynthia Fry are two of approximately 25 Americans chosen to attend this year's session. Williamsen is working toward a master's degree in industrial and systems engineering at UAH. He is also an aerospace design engineer in Marshall Space Flight Center's structural development branch.

Fry is a doctoral candidate at UAH in systems engineering. She is employed as a manned systems engineer and the Starlab Training Manager at Marshall.

"This is truly an honor to have two of our students selected," said UAH President Louis Padulo. "Those chosen for ISU are a unique and talented group."

International Space University was founded in 1987. It brings together an international faculty of space experts from industry, academia, and government to present a breadth and depth of space related studies not available anywhere else. The ISU will conduct its nine-week session in July at Louis Pasteur University in France.

Only 104 graduate students were selected from 21 nations to attend last summer's session at the Massachusetts Institute of Technology. During the session, each student attended more than 240 hours of lectures and spent approximately 280 hours working on a design project.

Through 1992 the ISU summer session will be conducted at a prominent academic institution in a different nation. In 1992, in conjunction with International Space Year the ISU will expand to a full-year format with degree-granting status, a full-time faculty, and a permanent facility.

Students are selected according to excellence in academic studies and leadership ability. Fry earned her bachelor's degree in industrial engineering from Texas A&M University in 1984, and her master's degree in systems engineering from UAH in 1989. At Texas A&M, she was a University Undergraduate Fellow and was named the Dean of Engineering Outstanding Senior Student. She was the university's representative to the Student Conference on U.S. Affairs at West Point.

She also is the chairman of the Huntsville Association of Technical Societies, an engineering duty officer in the U.S. Navy Reserve and the young member director of the American Institute of Aeronautics and Astronautics.

Williamsen graduated from the University of Nebraska. He attended the university on a four-year full tuition scholarship. He has a perfect 4.0 grade point average at UAH. Williamsen holds three U.S. patents related to missile structures. The patents were earned while he worked as a mechanical engineer with the U.S. Army from 1983-87.

He is a member of the American Institute of Aeronautics and Astronautics (AIAA) and its national Design Engineering Technical Committee.

One position in Ad Sales is now open at The Exponent. Job responsibilities include selling ads to local and/or national companies, ensuring that ad copy is ready for Ad Designer on Fridays at 2 p.m., and preparing tearsheet for Business Manager.

Ad Sales position is paid by commission only, 15 percent of all ads sold. For more information, contact The Exponent at 895-6090 or come by UC Room 104 to fill out an application.

Applications available for 1989-90 UAH Lancers

The students pictured are some of the members of this year's Lancers, the official student ambassadors for UAH. Applications are now available for students interested in becoming members of the 1989-90 group. Selection will be based on leadership potential and communication skills. Any student with a 2.5 GPA who will have attended UAH for three quarters by this summer is invited to apply.

The deadline for applications is Monday, May 22. Applications are available at the University Center Information Desk and in the Alumni House. For more information, call Virginia Sollie, director of Annual Giving and advisor to the Lancers, at 895-6500.

Barrier Awareness Day continued from page 9

has adopted disabilities returned to
discuss their experiences. During the
day, these students were asked to go
through their normal routines with a
simulated disability and a packet of
checklists of activities to perform.

Sam Cherian, a junior in math
education, adopted a learning
disability, so that he was not able to
take notes in class and had to depend
on what he heard.

I always wanted to know how other
people did things," he said. "I never
really knew or thought about it before." According to Cherian, his "disability"
did not attract much attention. Judy
Fisher, director of handicapped
students at UAH, said that this is
significant since learning disabilities
are not as visible as other types of
disabilities. Cherian also added, "You
find yourself paying more attention in
class.

Michael Quenneville, a senior in
procurement management, spent his
day in a wheelchair.

I had a lot of people come up to me
and say 'What happened?' People
asked if I needed a push and opened
doors for me," he said. Quenneville
said he did not try using the restroom
because, as he put it, "I didn't know
how to go about it." He did however, try
using a chairlift, which he found to be
quite a meticulous maneuver.

Quenneville said that the day's
experiences had changed his
perspective, although he had worked
with disabled people before. He
observed that people do not treat the
disabled with respect, and he
mentioned that some of the disabled
students he had spoken to were
frustrated about handicapped parking
spaces being used by those who aren't
disabled, such as Padulo.

SGA President John Ortiz adopted a
hearing impairment for the day by
wearing earplugs and he was not
allowed to speak. He said that this was
especially difficult for him because he
had to keep office hours, receive phone
calls, and hold meetings during the
day. He said that when he informed
people of his "disability" they were
generally sympathetic and talked
slowly, using various forms of sign
language.

Ortiz also said that he felt limited
because writing things down slowed
down the flow of information. He said he
almost got run over twice because he
did not realize that he depended on his
hearing to check for traffic, and he also
had difficulty driving because he could
not hear when to shift gears. He also
stated that it would be much more
difficult to be a manager with a hearing
impairment.

"Friends thought I was ignoring
them," said Ortiz. "Some of them made
fun of me by yelling or pretending to
tell and not saying anything." Ortiz
added that many thought that he had
lost his hearing by going to a rock
concert. "People who thought I had the
speech impairment treated me
differently. They were superficial.
They were nice, but they didn't go into
any depth."

Oisher mentioned that she
appreciated the help she had received
during this event from Alpha Tau
Omega, who had assisted in bringing
in devices for the Technology Room
and stayed in the University Center
throughout the day to help people find
exhibits.
Travelers beware of tough foreign laws

Over 2500 American citizens were arrested abroad in 1988. More than 900 of those arrested were held on charges of using or possessing drugs.

As we approach the busy travel season, many Americans are getting ready for that long awaited trip abroad. For some, the trip will become a nightmare.

The global war on drugs is heating up and there are increased efforts by all countries to stop the flow of illegal narcotics. Those Americans who assume there is no real danger in buying or carrying just a small amount of drugs on their overseas trip may be in for a very unpleasant surprise. Americans have been arrested for possessing as little as a third of an ounce of marijuana.

Many travelers assume that, as American citizens, they are immune from prosecution under foreign laws. But the truth is, Americans suspected of drug violations can face severe penalties, even the death penalty, in some foreign countries. It is not uncommon to spend months or even years in pre-trial detention, only to be sentenced to a lengthy prison stay without parole.

Once an American leaves American soil, American laws and constitutional rights no longer apply. U.S. consular officers can visit jailed Americans to see that they are being fairly and humanely treated but cannot get them out of jail nor intervene in a foreign country's legal system on their behalf.

Travelers should be particularly wary of persons who ask them to carry a package or drive a car across a border. They might unknowingly become narcotics traffickers.

If required for medical reasons to take a medication containing narcotics, travelers should carry a doctor's certificate attesting to that fact and should keep all medications in original and labeled containers.

“Town Crier” returns

continued from page 11

staff. Details in the newsletter appear to come from an inside source. SGA President John Ortiz indicated to The Exponent that the primary response of Padulo, and others accused of various and sundry charges in the newsletter, was “It is impossible to respond to the charges.”

The “Huntsville Town Crier” is published anonymously and irregularly on the UAH campus. Incidentally, according to persons interviewed for this article, the quality of the “news” in the publication has declined since the first issue.

Students honored for individual achievements at Honors Convocation

Col. Lemarre Washington presented Gregory Smith as the ROTC Program Scholar. Major Gen. George Tarnmeyer presented Richard Parker as the student with the highest achievement in Cooperative Education. In addition, Tarnmeyer presented the following cooperative education program scholars in each college: Administrative Science—Kirsten Muller-Lindemann, Engineering—Gary Kobet; Liberal Arts—Glenna Springer, Nursing—Susan Steinhoff; Science—Karen Vandel, School of Graduate Studies—Elizabeth Matthey.

The Deans then named students being honored for individual achievement. Dr. David Billings named Dana Adkins as Administrative Science’s student with the highest academic achievement. Departmental honors in the college went to Donna Davis, Jonathan Knoe, Susan Dunham, Deborah Cleveland, Nina Johnson, Kirsten Muller-Lindemann and Angela Nall. Special recognitions went to three additional students. The Wall Street Journal Award was won by Susan Dunham. The Alabama Society of Certified Public Accountants award was presented to Patricia Ann White and the National Association of Accountants Scholarship Award went to Susan Dickey.

Dr. Lynn Russell named Eve-Jane Walker as the highest academic achiever in Engineering. In addition departmental honors went to Kimberly Turner, Daniel Shea, David McGuire, Michelle Willis and Diane Powers.

Dr. Roy Meek named Claudia Anderson as the student with the highest academic achievement in Liberal Arts. Departmental honors went to Angel Chaney, Beth Gomewski, Vickie Wilson, Victoria Hofmann, Shannon Sadler, Cecelia Schlagebeck, David Crouch, Elizabeth Fontaine, Kristi Heather, Tami Winkelman, Elvira Ceci, Johanna Bowling, Cindy Rodrigues and Joanna Miller.

Interim Dean Reet Henze named Teresa Cascady as the student with the highest academic achievement in Nursing. Students with excellent academic achievement are Teresa Leonard, Susan Steinoff and Angela Willis. Honor Scholars for the college are Marquette Fedor, Kathy Potter and Marlena Primeau. In addition the Dean’s Award was given to Angela Willis the Faculty Award to Marlena Primeau and the Graduate Faculty Award to Ernest Degenhardt.

Dr. Harold Wilson named Lori McCain as the Science student with the highest academic achievement. Departmental honors went to Donna Brown, Scott Howard, Christopher Price, Rebecca Romine, Rodney Fuller and Peter Erbach. Special recognitions were received by Terry Kolni as the American Chemical Society’s Undergraduate of the Year in Analytical Chemistry and Elizabeth Cacioppo winner of the American Institute of Chemist’s Foundation Student Award.

Dr. Nadeem Audeh presented the outstanding students in the School of Graduate Studies. Named for Graduate Academic Achievement in Administrative Science—Karen Moseley, Engineering—Robin Buckelew, Liberal Arts—Millic Anglin, Nursing—Lenee Hattie; Steven Smith. In addition departmental honors in graduate studies went to Deborah Hood, Natalee Jackson, Qin Guo, Mary Weishopf, Gary Cooper, Terry Kowih, Charles Smith, Sharon Watkins, Richard Swope, Steven Paley, Douglass Lampert, Xudong Zhang, Diane Pratt, Mary Monroe, Muamer Zukic and Stephen Maulsby.

Saying these students had been honored for their individual achievements, Spitz said: “You have been recognized today because of the excellence of your attainment. Let me emphasize to you the importance of maintaining and even strengthening your commitment to excellence."

The UAH Concert Choir, under the direction of Dr. Paul Crabb, sang Ron Nelson’s “Fanfare for a Festival.” The faculty recessed to music from the Wind Ensemble. After the ceremony, a reception was held in the University Center Lobby.

Athletic Department holding cheerleader tryouts

The UAH athletic department will hold cheerleading tryouts May 22-26 for the 1989-90 UAH Charger cheerleading squad.

A clinic for all interested persons will be from 7 to 9 p.m., Monday — Thursday, May 22-25, upstairs in Spragins Hall. The actual tryout will be Friday, May 26, from 2 to 4 p.m., also in Spragins Hall.

Five women and five men will be chosen. Prior experience is not necessary but is encouraged. Women will be required to perform cheers, chants, gymnastic and partner stunts, and a dance routine. Men will be required to perform cheers, chants, gymnastic and partner stunts.

All interested students should contact the UAH athletic department at 800-6444 or come by and fill out an application.

Now hiring restaurant and banquet servers. Morning and evening shifts available immediately. Very flexible hours. Call 721-9428.

**Pro-Am Disc Golf Tournament to be held May 27-28**

By Jennifer Grace

On May 27 and 28, a Pro-Am Disc Frisbee Golf Tournament will be held at the UAH Disc Golf Course.

The tournament is open to players of all ages with different divisions for varying skill levels. Divisions include Pro-open, Pro-women, Advanced (intermediate skill level), Amateur (beginners), Masters (35 and older), and Juniors (16 and under).

Professional disc golfers from all over the Southeast and Midwest will be on hand to compete for approximately $3000 in cash prizes and a portion of the points required to earn an invitation to the 1989 Professional Disc Golf Association's world Championships. Trophies and prizes will be provided by nationally ranked pro for the benefit of new and experienced tournament participants and interested spectators.

Registration begins Saturday, May 27, at 9 a.m. and the tournament begins at 10:15 a.m. The UAH Disc Golf Course is one of the most challenging courses in the United States and is the finest permanent disc golf course located on a university campus in the world. This will provide the entire necessary to draw a large field of players to the event.

For additional information, contact Paul Galloway at 533-1214.

**Intramurals--Week 5**

Spring intramurals were in full swing last weekend as both softball and volleyball teams played May 7. The results of Week 5 in the intramural softball games are as follows:

In the men's division, Delta Chi defeated ATO Busters 11-1.

Winnebago Warriors defeated Brothers Johnson 17-4.

MCCC defeated Old Swillers 9-5.

Champs defeated Kettle 18-10.

Kettle defeated Mixed Breed 24-8 in a make up game.

Tabernac's defeated Dolphins by forfeit.

ATO Gattis defeated Sigma Chi Gamma 10-8.

Champs defeated Loose Tolerances 23-6 in a make up game.

McCracken defeated Delta Zeta 14-11.

In co-ed softball, ATO Gattis defeated Brothers Johnson 19-4.

McCredrick defeated BSU by forfeit.

There was also a full slate of volleyball games played May 7, and the results are as follows:

In the men's division, Old Swillers defeated Brothers Johnson 15-1, 15-2.

Champs defeated Dolphins by forfeit.

Bombers defeated Loose Tolerances 15-8, 14-16, 15-11.

**Division Standings -- Intramural Volleyball**

**Women**

- Delta Zeta: 5-0
- Spikers: 4-1
- Chi Omega: 4-1
- KD Ladies: 0-5

**Men**

- Delta Chi: 4-0
- Higgins: 4-0
- Scrum: 4-0
- Kappa Delta: 3-2
