"Let us dare to read, think, speak and write."—John Adams

University Center: Yesterday and Today

by G. Jeskie
news reporter

UAH's University Center marks its second anniversary on Friday, November 14, with several "birthday" festivities planned.

But did you know that the Student Union, in existence for three or four years before the new center was built, had been remodeled from a gymnasium, which was the original building on the site? The old student union was a 360 degree building and the office of the University Director in room 100, now sits on what was once the men's locker room of the old gym.

Steve Bruce, who recalls the construction days of the Center, says that the building committee went across the United States looking at other buildings selecting designs and combining ideas to get a composite aimed at meeting the needs of students. The architect firm selected was Doyle, Pearson and Prost.

Jim Clark, was the consulting architect.

The cost of building the Center, including furnishings, was approximately six million dollars.

Under the roof of the University Center today, there is a beehive of activities going on day and night. Besides housing the offices of Registration, Admissions, Records, Financial Aid, Academic Adviser, Career Planning and Placement, and Parking, there is also banquet facilities, a book store, Computer Services, Copy Center, an exhibit center (ballroom) and a mini-art gallery. An elevator serves the three floors.

The Exponent, UAH's newspaper, and Axis, the literary magazine, are on the first floor, as is the Student Government Association, Student Services, Testing Services, and the cafeteria, which serves three meals a day, Monday through Friday.

There is a very comfortable main lounge and there are meeting and conference rooms available to students with a faculty sponsor. At the Information Desk, there are local and national newspapers, stamps, ticket sales, and of course, all the information one needs to get anywhere on campus.

The special activities lined up for the "birthday" celebration begin at 11 a.m. when Goot, a nationally known character artist, will be in the UC lobby to do free cartoon sketches of interested students, faculty and staff.

From 11 a.m. to 3 p.m., the Birthday Exponent, UA Chronicle, a computer, will give a free printout of all the major world events on anyone's given birthday, and an airbrush artist, a UAH student, will be there to put designs on any tee shirt. Tee shirts will be available to buy or you may bring your own. There is a charge for the airbrushing.

Also from 11 a.m. to 3 p.m., free ice cream, chocolate chip cookies and punch will be served. All are invited to partake.

Wright's speech focuses on Title VI case

by Claus R. Martel
news editor

In a speech given last Tuesday before the weekly meeting of the Rotary Club here in Huntsville, UAH President John C. Wright stated that the purpose of Alabama A&M and the Nation as an integrated, comprehensive land-grant university is to have "UAH...eliminated or severely limited."

Providing a mountain of evidence in the forms of charts and graphs, Wright claimed that Alabama A&M and Alabama State University have admitted in Federal Court that their role is "to serve the State of Alabama and the nation in the forms of education, research and service."

Then at 8 p.m., "John McCutchen in Concert" will be presented by both the UC and the Fast Shop in the UC Exhibit Hall. McCutchen, an acclaimed instrumentalist and interpreter of Appalachian music, master of the hammer dulcimer, singer and songwriter had one of his eight albums nominated for a Grammy Award.

UAH students, faculty and staff members will be admitted free with one guest each, with a valid ID card.
New teacher education program offered

by Rick Mould
For The Exponent

Students who are working toward their master’s degree and want to teach but don’t have the necessary education courses as an undergraduate now have an alternative at UAH.

The state department of education has approved UAH for a non-traditional masters level program in teacher education. The program allows students to earn a Class A teaching certificate for grades 7 through 12 in biology, chemistry, English, history, math and physics.

The program requires 45 semester hours. A total of 24 semester hours of coursework work are spent in the subject field, 15 graduate hours in education and the final six hours are an internship. This is the first year UAH and other state universities have been able to offer such a program, said UAH education and developmental learning chairman Dr. Ted Butts.

Butts said the program is geared toward college graduates who earned a degree without going through a teacher education program. The program may also attract people interested in making a mid-career change or someone leaving military or government service.

“The state was motivated to do this because of a shortage of teachers, particularly in the math and science areas,” said Butts.

Ordinarily, students must have their Class B teaching certificate to be eligible for the Class A certificate. Through this program, a student will spend between 30 to 50 semester hours of undergraduate work normally required in reaching the master’s level certification.

UAH math majors have optimistic future

by Blancha Clanton
staff reporter

Looking for a good place to be? Try the UAH math department. The mathematics department here is one of the top-of-the-line, if not the top, math departments in Alabama.

The quality of this program is due to the type of mathematics taught. When a student studies math here at UAH, he is not just “taking a math course,” but learning how to apply math and how to reason.

Dr. Deva Doss, Professor of Mathematics, explains that studying math here at UAH serves to benefit almost all majors, not just those of math and computer science.

UAH mathematics especially benefits those students in areas of applied sciences. Doss explained that by studying applied mathematics, the student obtains usable skills for use in specific areas of study. Those skills provide a student with “employable” qualities.

Study reveals attitudes, buying habits of students

The nation’s college students are more conservative in their attitudes about a wide range of subjects than the generation which preceded them, according to the most penetrating survey of college student attitudes ever undertaken.

Student Watch ’86, conducted by Simmons Market Research Bureau for the College Stores Research & Educational Foundation, provided for the first time an in-depth look at a separate and important force in America’s social/political/economic picture—12.5 million students with over $20 billion in discretionary annual spending.

The Foundation that funded the $250,000 survey is the research arm of the National Association of College Stores, a trade association with more than 2,700 college store members and 1,000 associate members across the U.S., Canada, and other countries.

Based on responses from 4,349 randomly selected students who answered a 29-page questionnaire, the 1986 Student Watch used attitudinal data gathered from America’s college and university campuses.

Fifty-six percent think sex before marriage is always or sometimes wrong, while nineteen percent believe sex outside marriage is always or sometimes wrong, and sixty-nine percent believe premarital sex is always or sometimes wrong, and sixty-nine percent believe premarital sex is always or sometimes wrong.

Besides meeting regular UAH graduate entrance requirements, a student must also have taken more than 12 semester hours of coursework in education or be certified to teach; pass a state English language proficiency test and a state initial teacher certification test in your subject field.

For more information, call the UAH education office at 985-6180.

University Playhouse Presents Antigone

VBCC Playhouse
November 6, 7, & 8 (8:15pm) Sat., November 8 (3:00pm)

Free to UAH Students
$3.00 - Students & Senior Citizens
$5.00 - General Public

Tickets available at U.A. Information Booth & at VBCC on the dates of the shows.
Shields explores present through past

by Claus R. Martel

Note: As part of The Exponent’s continuing series profiling different professors from various disciplines, we focus this week on a professor from the School of Arts, Humanities, and Social Sciences. Professor Shields has just written her first book, and in the following transcript sent by the State of Alabama Unified Judicial System, she STUDIES and teaches (and breathes) history.

Professor Shields knows this because that is what she does for a living; she STUDIES and teaches (and breathes) history.

Shields received her B.A., M.A., and Ph.D. from the University of Alabama (what seems like) just a few years ago. That is the appearance one receives when talking to the full professor. That is the level of excitement the Alabama native exudes when a student sits in her fourth floor office in the Humanities Building and discusses history with her. I’m trying to catch up, Pete.

When asked why a student should consider studying history, the reply is quick: “Because it’s exciting...and no history graduate is unemployed.”

History students, Shields explains, have a well-rounded liberal arts education that employers are finding more and more desirable in today’s diversified and ever changing job market.

G.K., you may think that only a nut would consider studying history instead of Electrical Engineering. But that about plowing through Western Civilization, a GRR we might all consider the past.

“Study extremely hard, attend classes regularly (translated: EVERY CLASS), take good notes, make outlines, and ask questions” the author of one book and soon another advises.

Another word to the wise: “Read the hand-out that we give every HY 101/102 student.” Advice well taken. Ask any HY 101/102 “veteran.” Mr. Coburn can sleep well tonight....

Face the consequences of not buckling up

by Claus R. Martel

news editor

The Huntsville Comprehensive Highway Safety Project entitled “The Buckle-Up Season” officially concluded on November 24. Project promoters have sent The Exponent many promotional items, but the following transcript sent by the State of Alabama Unified Judicial System says it all:

WHAT HAPPENS IN HIGH-SPEED AUTO SMASH?

This is the slow-motion, split-second reconstruction of what happens when a car, traveling 50 miles an hour, crashes into a solid, immovable tree:

1/10 of a second - The front bumper and chrome “frosting” of the grillwork collapse. Slivers of steel penetrate the tree to a depth of 1 1/2 inches or more.

2/10 of a second - The hood crumples as it rises, smashing into the windshield. Spinning rear wheels leave the ground. The fenders come into contact with the tree, forcing the rear parts out over the front doors. The heavy structural members of the car begin to act as a brake on the terrific forward momentum of the 2 1/2 ton car. But the driver’s body continues to move forward, pinning the driver against the cruel steel of the steering shaft. Blood leaps from his mouth, shock has frozen his heart. He is now dead.

3/10 of a second - The entire, writhing body of the car is forced out of shape. Hinges tear, doors spring open. In one last convulsion, the seat rams through the windshield. The engine is ripped from his well-laced shoes. The steering column.

4/10 of a second - The car’s front 24 inches have been demolished, but the rear end is still traveling at an estimated speed of 35 miles per hour. The driver’s body is still traveling 55 miles per hour. The half-ton motor block crashes into the tree. The rear end of the car, like a bucking horse, rises high enough to scrape bark off low branches.

5/10 of a second - The driver’s frozen hands bend the steering column into an arch. The driver’s head smashes into the middle, shearing body bolts. The driver’s head smashes into the windshield. The rear of the car begins its downward fall, spinning wheels digging into the ground.

WANTED: PUBLICITY DIRECTOR

The position of Publicity Director will be vacant. Any interested student should contact Chris Jackson or Barry Simpson through the SGA office, UC 106 (895-6428).

Application deadline is November 12.

THERE ARE TWO SIDES TO BECOMING A NURSE IN THE ARMY.

And they’re both represented by the insignia you wear as a member of the Army Nurse Corps. The caduceus on the left means you’re part of a health care system in which educational and career advancement are the rule, not the exception. The gold bar on the right means you command respect as an Army officer. If you’re earning a BSN, write: Army Nurse Corps, Opportunities, PO. Box 7713, Clifton, NJ 07015. Or call toll free 1-800-USA-ARMY.
Heart-to-Heart with Kephart

by Jack Kephart

It's truly a lot of fun to write a column like this, though I don't know how many people read it. I took an opinion Pole - and he said I had six readers. I was surprised to discover that there were only two of you, but I can assure you that I am not writing for the masses. In fact, I am writing for the few. It is my hope that this column will provide some food for thought, and that it will help to create a stronger sense of community among those who read it.

For instance, today's column is about the importance of preserving the Civil War. That was began by men and women of every body that Mississippi has elected to congress since the Civil War. They were the men and women who fought for our country, and they were the men and women who died for our country. We must never forget their sacrifices.

It is also important to remember that the Civil War was not just a war between the states. It was a war between the North and the South, and it was a war between the rich and the poor. It was a war between the educated and the uneducated. It was a war between the blacks and the whites. It was a war between the rich and the poor. It was a war between the North and the South.

The Civil War was fought for many reasons, but the most important reason was to preserve the Union. The Union was the most important thing in the world, and it was worth fighting for. The Union was the most important thing in the world, and it was worth fighting for. The Union was the most important thing in the world, and it was worth fighting for.

We must never forget that the Civil War was fought for the Union. The Union was the most important thing in the world, and it was worth fighting for. The Union was the most important thing in the world, and it was worth fighting for. The Union was the most important thing in the world, and it was worth fighting for.

I want to tell a funny, poignant story about my bestArmy friend Nick, who fell in love with a pretty Viet-Namese lady who proved her undying love for him by giving him the clap. But my wife said no.

Remember that my motives are always pure. Most of the time.

Viewpoint: Decision '86
by Dan Pendergrass

"Jesus gives to those who give themselves," my grandmother has always been fond of telling me, and I find that it is statements such as these—vague and yet hopelessly applicable to most anything—that linger in my mind as the years fall away.

Four years have just fallen away for Charlie Graddick, the next governor of the great state of Alabama."

Graddick is a cunning manipulator, and will appear at the state level again in some political role.

Two Mysteries That I Would Like to See Solved : Several months back I wrote a English paper on feminism in John Milton and Shakespeare Quarterly. That's a little—maybe a whole lot—

I am apt to think, among the great broadened the campaign.

I mentioned earlier that Graddick was a desperate maniac. Allow me to qualify that. Graddick is a cunning manipulator, and will appear at the state level again in some political role. A man promising such sweeping reform in education (have everybody take a test to find out who the queer perverts are) and other areas assures himself a wide range of support. And his realistic method of dealing with such adversities means he will wade much political chum in the future (remember his plan to have the legislators work from 8 to 5 without pay).

The Ku Klux Klan proudly endorses Charlie Graddick, the next governor of the great state of Alabama."

The final announcement of his career with Hawaii certainly wasn't very happy. Charlie was the only one not howling out loud. The attorney general seemed stunned into speechlessness, an attribute sorely lacking in the candidate during most of the election.

The bed of tears dropped on his frock and my heart went out. The attorney general was amazed when the attorney general was amazed when the attorney general was amazed.

"It isn't just Bill. It's Joe Reed and all the other do-nothing legislators we have been sitting on their cans in Montgomery." Graddick widens the point of contact with his heart.

"I'm here now, and that should mean something," Graddick, after speaking at UAH recently, responds to a student's opinion that he would eventually drop his bid for office.

Later, when everyone finally agreed Graddick was a desperate maniac who would say anything to get elected, Charlie cooled down his campaign rhetoric. Talking about Bill Baxley obviously was much better reassures for the American people than Graddick's campaign. The idea of Charlie sticking it out just to get a few more shots in on the "hand-picked candidate," or Bill Baxley, certainly seemed viable. The last few days leading up to the drop-out of the write-in candidate left us with little indication of what he would do.

I would feel much comforted if you would put an 'instructive' arm around Mr. Steely's shoulder and admonish him to confine future tantrums to his staff room and his diary.

Dear Editor,

I am the editor of The Exponent have made it to the stands since Mr. Steely's history making commentary on the status of a Southern viewpoint, and I have yet to see anything printed that resembles a response. It is very likely that nobody, including myself, took too much abnormally 30. It's an old ax that has been reground so many times there is very little left. My censure of Mr. Steely's method of presentation. As an ex- student of his, I was of the impression that it behooves the editorial staff of a publication to express themselves clearly and lucidly. Mr. Steely's commentary contained so many blatant logical fallacies that I located an old philosophy textbook to identify the ones that I missed. I won't come back and do it again.

As an editor, I occasionally had to head over to circulation and lend the soap box, but not without careful consideration of the piece.

Editors can do that, it's a privilege of the job.

Dear Editor,

I have a suggestion: The Exponent would print an entire paper on feminism in John Milton and Shakespeare Quarterly. That's a little—maybe a whole lot—

I am apt to think, among the great broadened the campaign."

The winner of the Best Costume Contest was the trio, "The Wizard of Oz." When Dorothy clicked her heels, they will return to the identities of Anna Crystal, Kitty Hazzard, and Paul Harris.

The crew from the 4077 turned out for the UAH M*A*S*H party.

Bratz supplied the entertainment for the Halloween Dance.

Student attitudes

(continued from page 2)

percent prefer postponing marriage until they have achieved other goals. Seventy percent believe that cigarettes are harmful and forty-eight percent indicated they would not even date someone who smokes.

Eighty-four percent think cocaine is harmful and sixty-two percent believe marijuana is also unwise, but only ten percent feel that way about alcohol.

Seventy-three percent favor the death penalty, and almost seventy percent listed themselves as Democrats.

Doctors, scientists, and professors are highly respected by students. But reporters, government workers, and politicians had better mind their "public image," because sixty percent, forty-seven percent, and seventy percent, respectively, of students had little or no trust in these professions.

Sixty-nine percent of the students said religion was important to varying degrees in their lives, and twenty-six percent said they attended religious services at least once a week; fifty-one percent attend at least once a month.

The survey also provided an insight into financial habits of students, including the fact that forty-eight percent live off campus, and in effect run households.

Fifty percent of the respondents get more than half of their discretionary income from their own earnings, and fifty-eight percent of those said they earned over $2,000 last year, while twenty-five percent earned over $5,000.

When it comes to discretionary spending, sixty-one percent said they had $100 per month or more to spend. Nineteen percent in that group had between $100 and $225; another nineteen percent spend over $250 or more. Largest dollar expenditures by students during the school year were at the college store, with a median of $249.61.

Ninety-six percent said they spent more money on clothing during the past school year than on any other category—with a median expenditure of $187.40. Four percent of all discretionary income was spent on health and beauty aids.

In other survey highlights, fifty-six percent have and use bank credit cards, forty-one percent have borrowed money to attend college, and eighty-six percent have savings accounts.

College students are owners of high-priced items as well: sixteen percent have a new car, thirty-nine percent purchased a used car; seventy-eight percent own a television set, sixty-six percent own a stereo, and seventeen percent own a computer.
Auditions for UAH's first speaker's bureau slated for Nov. 17
by Rick Mould
for The Exponent

The UAH Department of Communication Arts will conduct auditions the week of November 17 for the first speaker's bureau on campus. The speaker's bureau is designed to showcase the talents of a select number of students who wish to gain expertise in public speaking. Those selected will receive individual instruction and coaching on the art of platform speaking by UAH debate coach Dr. Ritu Kirk Whillock. A brochure of the LEAGUE BOWLING and will take place November 17 through 21. League bowlers will bowl during their regular league time at Parkway Lanes or Jim's Palace. Individuals bowling in leagues will be distributed to area schools, civic groups and convention planners.

Each speaker selected will be eligible to compete for the "Outstanding Speaker" award. The winning speaker will receive a plaque, automatic admission into the speaker's bureau and a scholarship for their participation. Any UAH student can audition. Each student should prepare an 8 to 10 minute speech on a topic of their choice. Auditions will be held by the week of November 17 and appointments can be scheduled at the communication arts department offices in room 232 Morton Hall. For more information contact Dr. Whillock at 895-6645.

Chi Omegas to bowl in 'Love Bowl'
The Chi Omegas are busy getting ready to bowl for the 1987 "Love Bowl" to raise money for the Big Brother/Big Sisters of Huntsville. Chi Omega also annually auctions the "Swinging-A-Thon" yardwork for the highest bidders at the Big Brother/Big Sisters auctions. During Spring, the annual "Swinging-A-Thon" was held to raise money for Chi Omega's philanthropy, which is Progress Place (Home for abused and neglected children). The Chi Omegas said they were pleased with this year's effort. CONGRATULATIONS go to Stephanie Langley, Joanne Pich, and Rhonda Reden for being chosen as ATO Little Sisters. CONGRATS also to Julie Harris and Stephanie Langley for cheering on UAH as UAH cheerleaders. WE'RE PROUD OF YOU, GIRLS!

French club to meet Nov. 8
LE CERCLE FRANCAIS will hold a club meeting at 7 p.m. Saturday, November 8, at the Nooii House. Following the meeting, guest speaker, Dr. Jane Kramer, UAH Art History professor, will give a lecture on art. Refreshments will be served.

Chi Omega's presentation, segmentation refers to the separation of one so-called picture element (pixel). The problem is to develop algorithms which can separate the pixels of an object of interest from the background pixels. This presentation will be an elementary level and will begin with a basic overview of image processing. The various segmentation techniques will be discussed, including histogram analysis, edge tracking, and multithresholding.

Mathematical and statistical colloquium planned
The UAH Department of Mathematics and Statistics will hold its third annual "Love Bowl" a bowling tournament that will benefit Big Brothers/Big Sisters and the Junior Bowling Association. The collection of the Love Bowl is Brian Jeskie, The Exponent, 895-6090, room 438.

French club to meet Nov. 8
LE CERCLE FRANCAIS will hold a club meeting at 7 p.m. Saturday, November 8, at the Nooii House. Following the meeting, guest speaker, Dr. Jane Kramer, UAH Art History professor, will give a lecture on art. Refreshments will be served.

More than 40 million homes across the United States are receiving their 1988 Christmas Seals in the mail. Dr. Richard Mould, President of the American Lung Association of Alabama, said, "What began 79 years ago as an attempt to save one child's life has grown into a holiday tradition as widespread as gifts under the Christmas tree." The Christmas Seal Campaign represents the spirit of giving and sharing, and is a major source of funds for the American Lung Association's dedication to eliminating and controlling lung cancer, emphysema, asthma, chronic bronchitis and tuberculosis.

Lung disease is an ever-growing problem in America. It is the only major disease category in which death rates continue to rise, and is the third most common cause of death in the country. Twenty-nine percent of our population suffers from chronic respiratory illness ranging from the mild to the severe - and sometimes the fatal. Lung diseases, including lung cancer, kill over 248,000 Americans each year.

Opportunistic lung diseases - which attack patients with severely damaged immune systems - are responsible for over 66 percent of all AIDS deaths. Although the most common of these opportunistic infections is a form of pneumonia, recent reports indicate that tuberculosis is also being diagnosed among AIDS victims. In the general population, about 6,200 new cases of TB are reported yearly - figures that graphically demonstrate how far we have yet to go in our battle against this disease.

ATOMIC work with nursing group
Alpha Tau Omega of UAH is committed not only to involvement and service on campus, but also to the Huntsville community at-large.

Saturday, November 1, the Alpha Tau Omega Fraternity participated in the third Annual Casino Night which was hosted by the Association of Operating Room Nurses whose purpose is to meet the current, future, and constantly changing practice of operating room nurses.

The 15 ATO's served as blackjack dealers and roulette table runners for the affair. The proceeds from the affair, which amounted to about $4,500, were to benefit the education of the operating room nurses in our area. Everyone had a good time and the ATO's were pleased to have been of help to the Huntsville Nursing Association. GOOD JOB TAUB!!!
Vote in SGA elections
The candidates at near right are running unopposed and the candidates at far right are both running for AHSS Representative to the Student Advisory Board. Below are the twelve candidates vying for eight positions as twelve-month SGA legislators. November 11-12, 1986

Programs Board
Jack Egbert
English (Undergraduate)
40-46

Photo not available

I possess a beauty and wisdom that UAH needs in this dark hour. Without truly, for a university as diverse in population as UAH and totally sectional in environment, it is a near impossible task. But getting close would be our goal. I don't have to lie to something to know that other people do. Good quality is what I would like to see in my campaign. The only way we can help the student body is to make students aware of the problems and interests of the university and our campus, our influence will be felt more by the students, not just by a part of SGA because I will be more of a part of you.

SGA Senator
Six-month legislator
Patrick Minor
Math
Junior

Once upon a time was a SGA Senator. It was a story that would prove to be important, and I would like to continue the story. I feel that this story will continue if the right candidates are chosen. I would like to contribute to the SGA and be helpful to the students. I feel that I am the right person to do so. I plan to do so in the future on my part. I will not fail.

Student Affairs & Advisory Board (AHSS)

Kris Leyn Holley
Unofficial Independent

I want to represent UAH because I am willing and able to work for my fellow students as an active member of UAH. I have the drive to succeed and the determination to succeed. I believe that I have the qualities that are necessary and important to make a difference. My experience has involved a lot of self discipline and I believe that I can be a good legislator. As a legislator, I would like to continue serving you and furthering your interests.

Laurie Migma
ECE
Senior

Government is no place for politicians and that certainly qualifies me. Let me explain why I am not a political person. I have never been voted into any position of authority and I feel that I could best serve the students of UAH by being a SGA legislator. I would like to be a SGA legislator and help to make UAH a student oriented school.

Janice M. Shelly
History
Senior

As an SGA Legislator, I would vow to use the strength in each student's activity fee. I would vow to use the power of the student legislature to make UAH a better place to be. I would vow to make student fees not only a financial contribution, but a contribution to the student body. Students deserve to be treated with respect.

Robert Schumann
Political Science
Sophomore

Having served in the legislature during the past months, I have become aware of the problems and interests of the UAH student body. As a legislator, I would like to continue serving you and furthering your interests.

Tina Jacob
Pre-Med
Sophomore

Through my previous experiences in similar organizations, I have much to offer the SGA as a legislator. An active and more productive student government is what we need. More SGA activity would really benefit the University and our campus life. From the 2 years of UAH I know how the SGA activity would really benefit the student and more productive student government is what we need. More SGA activity would really benefit the University and our campus life. From the 2 years of UAH I know how the SGA activity would really benefit the student body.

Paige Brown
Secondary Education / History / English
Senior

I have been a student at UAH for 3 years and attended the University of South Alabama for one year. As a result, I have many opportunities and I have taken three classes that would diversify my perspective in action. The only way we can help the student body is to make students aware of the problems and interests of the university and our campus, our influence will be felt more by the students, not just by a part of SGA because I will be more of a part of you.

Anna Pech
Printing
Junior

After having attended classes at UAH for two years, I have encountered problems in the course of my activities at UAH. I feel that I would best serve the student by working to make their lives easier. I am a member of the SGA Legislative Committee and have been involved in the SGA activity for the past year. I would like to continue working with the SGA and would appreciate your vote.

Tony Jackson
Biological Sciences
Senior

In order for UAH students to have a stimulating environment for us, its student body, students' rights, as well as, wishes must be acknowledged by the administration. I believe I can ensure that the most is made of each student's activity fee. I feel that the SGA is the key to the student government. I will be there to help all students understand the importance of the SGA. I am willing to work for the betterment of UAH as a member of the Student Affairs Advisory Board. Thank you.

Anita Green
Nursing
Junior

I feel it's time that a UAH student takes pride in himself and the university. I feel that a UAH student's status change from a mere number in a list to a person. I feel that a UAH student should be respected and treated fairly. I feel that the money would go to the students and not the university. I feel that the money would go to the students and not the university. I feel that the SGA is the key to the student government. I will be there to help all students understand the importance of the SGA. I am willing to work for the betterment of UAH as a member of the Student Affairs Advisory Board. Thank you.

Monique Town
Accounting and Finance
Junior

I elect for UAH students to have input in the decision making of our university. I think that we need to have a strong student voice in our university. We need to be represented by the administration and the government. We need to have a strong voice in the SGA. I feel that I am the right person to do this. I feel that I am the right person to do this. I feel that I am the right person to do this. I support for my efforts of the SGA and I am a member of the Student Affairs Advisory Board.

Jennifer Kephart
Electrical and Computer Engineering
Junior

I feel that a Student Government Association is important part of any university’s operations. Other institutions have been established due to apathy. I do not believe that we should have an authoritarian system to occur here. The administration does not possess the RGA’s ability to accomplish goals. I feel that the SGA is not only representative of the students, but also a vehicle for the students to express their interests. I feel that the SGA is the key to the student government. I will be there to help all students understand the importance of the SGA. I am willing to work for the betterment of UAH as a member of the Student Affairs Advisory Board. Thank you.

Sonia Blaynahal
Math
Junior

For the past year, I have worked on a number of projects. One of which is the development of student complaints. Looking into the present system, I came up with the idea of using the student to be able to contact the office, getting Cable TV for off-campus housing issues, and many more. I have been a member of the Student Legislative Committee during Spring Quarter. I feel that I understood how the legislative works so that I can begin helping the student immediately.

Anthony Green
Computer Engineering
Junior

It has been my goal to be elected to the SGA organization, because I feel that the SGA is the key to the student government. I believe I can ensure that the most is made of each student's activity fee. I am willing and able to work for my fellow students. As an active member of UAH Choir, Circle K, and Kappa Delta Sorority, I think I am qualified to be your SGA Senator. My experience as a SGA legislator has involved a lot of self discipline and I believe that I can be a good legislator.

Diana Rogers
English (Graduate)
Senior

I have taken pride in myself and the school I go to. I consider my time at UAH as a golden opportunity. I feel that the money would go to the students and not the university. I feel that the money would go to the students and not the university. I feel that the SGA is the key to the student government. I will be there to help all students understand the importance of the SGA. I am willing to work for the betterment of UAH as a member of the Student Affairs Advisory Board. Thank you.
Brandon

by Boston Blue

Part 7 in a Series

Brandon approached Briarwood with trepidation. He still trembled at the thought of Ursula being... Brandon could not finish the thought. It was not possible, but the coincidences of everything that she had told him?? Brandon had suspected things, but nothing like this. He sat for a moment in the dark of his car, smoke spiraling toward the low rambling buildings. A red glow came and went from the cigarette of the night guard. The silhouette of a nurse passed a shaded window. The facility looked quiet and peaceful on the inside, but Brandon knew the turmoil within the hearts and minds of those inside.

Brandon reflected upon his own inner turmoil. The last 48 hours had turned his life upside down. First, he had lost a valuable microchip and still had no idea where it was. Then he had been chosen to head Westone and Blankenship until the return of its co-founder and president. Hucky, his best friend since their early Navy days together, had disappeared without a word to him. And Brandon had finally admitted to himself that he had found the woman he wanted to spend the rest of his life with, and now all indications pointed toward her being...

There in the dark hours of the morning, Brandon could still not make himself come to terms with that. He could not make the words congeal, not even in his mind. His mind would not accept the thought... nothing would be accomplished by waking his father, making accusations. Brandon knew that he would lose the calmness that he had forced upon himself since leaving Ursula if he faced his father just now.

Brandon stepped from his maroon Jaguar. Leaning against the door, he let another cigarette and looked toward the buildings of Briarwood. A red glow came and went from the cigarette of the night guard. The silhouette of a nurse passed a shaded window. The facility looked quiet and peaceful on the outside, but Brandon knew the turmoil within the hearts and minds of those inside.

Larry Linville speaks out on M*A*S*H

by Judith Baer

Larry Linville, who for several years played the part of forest-face Frank Burns on the hit television series M*A*S*H, will appear Thursday, November 6, at 8 p.m. in the University Center Exhibit Hall.

Linville, who has been nominated for Lecture Program of the Year by the National Association of Campus Activities (NACA), will speak on the M*A*S*H series and will also show a favorite episode.

"The response to Larry Linville coming to UAH has been tremendous," stated Lecture Director Gina Atkins.

"A lot of students have asked me about the program and have seemed very excited about it. We (SNC) are expecting a huge crowd, so my advice is to get your tickets now!"

Tickets are available at the Information desk in the UC. Student, faculty, and staff admission is $1, all off-campus admission is $3. The UAH community is urged to attend. Fatigue apparel is not required, but encouraged.

Multi-talented Michael John to perform

by Judith Baer

Michael John, who has been described as a "total entertainer" will perform Friday, November 7 at 7 p.m. in the University Center Exhibit Hall.

John, who has opened for numerous performers including David Brenner, Ray Charles, and B.J. Thomas, has received rave reviews from colleges all over the country for his expert vocals, keyboards, and guitar, as well as his spontaneous humor. He was featured on a PBS special entitled, "Straight to the Top, Starring Michael John," and has also been emcee for a wide range of events such as homecomings, dances, and beauty contests.

Described as "destined to be one of the big names in the business," John's greatest talent is his remarkable ability to gain the audience's attention and bring them into the show. He will "coax and tease audience members to join him on stage for spontaneous humor and crazy songs."

John's "superb" rendition of current songs and his unique ability to "tickles your funny bone", as described by one critic, promises for an evening of great entertainment -- something all students can appreciate after midterm last week.

John is exclusively represented by Dixie Trend Productions out of Coconee, Florida, and is proudly brought to you by Cabaret, a division of your Student Programming Council. Tickets go on sale at 10 p.m. Admission is $1 for students, faculty, staff, and $3 for all others. The UAH community is urged to attend.

Larry Linville

Hitchcock film festival gets thumbs up

by Jimmy Steely
features editor

Well, I noticed that The Exponent has not run a movie review in a long time so I thought I would see a current movie and do a review of it. Unfortunately, I didn't have any money so I went to the UAH Film Series and saw "Rear Window." It was a great movie!

When I was in high school my parents told me that old movies were much better than all the "trash" that had been released in recent years. I, of course, thought they were crazy. I saw all the modern releases that featured decapitation, machine guns, twenty gallons of blood, and hopefully some skin. Now that I am old (22) and sophisticated I have discovered that my parents were right. Old Hitchcock movies are much better than the slasher movies I saw when I was in high school.

"Rear Window" is about a photographer, jimmy Stewart, with a broken leg and the most beautiful woman in the world, Grace Kelly, for a girlfriend. All he does is watch people out of his window. Everyone is highly visible because there is a hot wave. Since air conditioning had not been invented, everyone more or less lives on their fire escape. James Stewart and Grace Kelly witness a murderer and have various exciting adventures. The movie was exciting and thrilling without anyone being blown-up, shot, or cut in half by a chainsaw.

The Color of Money has the right stuff

by James N. Reynolds
for The Exponent

Welcome to the entertainment editorial, in which I will critique an opinion and you're quite free to disagree with me. In fact, I encourage you to write a letter to the editor. My statement:

First up is the movie "The Color of Money." Take Paul Newman, add Tom Cruise, Martin Scorsese's innovative direction, a sure-fire screenplay, top writer and what do you get? Right ingredients for a hit movie, I think. But what happens? It works. Or that could easily sum up the style. And it has it by the truckload.

Newman plays the character northeast. Eddie Felson, whom older movies and classic film buffs may remember from the film "The Hustler." Eddie has quit playing since "The Hustler," and I am biased against Tom Cruise and I actually believe he is Vince... not just Tom Cruise with an uncharacter name. Perhaps working with an old-timer like Newman means something to do with this. If Newman doesn't get an award for performance in this movie a injustice is being done.

To say anything more about story itself would give away parts should be seen and not heard about. So, will say this though, "The Color of Money" is a good movie with an emphasis on character atmosphere. Some movies prefer fast-paced action movies and I am one of those. I prefer something that involves discipline to be the best. Eddie has definitely developed as an actor. He gives a performance in which you can actually believe he is Vince, not just Tom Cruise with an uncharacter name. Perhaps working with an old-timer like Newman means something to do with this. If Newman doesn't get an award for performance in this movie a injustice is being done.

I highly recommend "The Color of Money" to anyone who has a few bucks to spare.

UAH Cabaret presents

MICHAEL JOHN
Friday, November 7, 7:00 p.m.
University Center Exhibit Hall
Admission: $1 Students, $3 General Public

Michael's great variety musical skills on his guitar and piano are enhanced by his incredible and emotional vocals. His interpretations of current songs and standards are superb, but Michael's most notable attribute is his ability to tickle your funny bone with spontaneous humor and wit inspired by direct interaction with his audience. Michael's greatest strength is his uncanny and unmatched ability to grab your immediate attention and "bring you into the show." He will coax and tease audience "fans" to put him onstage for spontaneous humor and crazy songs.

Michael Johns is a total entertainer.

"I actually believe he is Vince... not just Tom Cruise with an uncharacter name. Perhaps working with an old-timer like Newman means something to do with this. If Newman doesn't get an award for performance in this movie a injustice is being done."

He will coax and tease audience "fans" to put him onstage for spontaneous humor and crazy songs. Michael Johns is a total entertainer."

"After I saw "Rear Window", I went and checked out "North by Northwest," and "Rear Window." Both of these movies were better than any movie I had seen in years. In a normal thriller the hero is typically about to fall off a cliff when he is either saved or falls to his doom."

"In "North by Northwest," Cary Grant hangs off of the nose of George Washington. Obviously, the cliff happens to be on Mount Rushmore. To say the least, it was not your normal cliff hanger."

"So everyone with a VCR go and rent these classic flicks, pop some popcorn, buy a six-pack, and watch some of the greatest movies of all time. This way you don't have to spend ten dollars to see Jason rise from the dead once again."

Antigone opens Nov. 6

University Playhouse opens its 1986-87 season with the production of Jean Anouilh's Antigone on Thursday, November 6, at 8:15 p.m. in the Von Braun Civic Center Playhouse. Based on Sophocles' tragedy, Antigone is a modern dress version of the Greek myth and was originally written and produced in France during the Nazi occupation.

Antigone's two brothers have killed each other in a bloody civil war for power over the city of Thebes. Creon, their uncle, has assumed power and has ordered one of the brothers to be given an heroic burial while the other is to rot on the plains where he fell. Antigone, an individualist clinging to a higher law, covers the body of her brother with earth in defiance of Creon's edict. Although her actions demonstrate a passionate belief in the existence of moral law and a regard for the sanctity of human dignity, Antigone must die under Creon's edict. Lorie Gill will create the title role and Joe Dress will portray the tyrant king. Other members of the royal court of Thebes include Zelda Coggins as Antigone's sister Iamene, Chris Shindelbom as Creon's son and finance of Antigone, and Susan Gill as Eurydice, wife of Creon. Jim Reynolds portrays Chorus, Gloria Jackkie appears as Antigone's Nurse and the palace Guards include Don Olson, James Spain and Todd Donahoo. David Jackson is the Page. Antigone will be presented on November 6, 7, and 8 at 8:15 p.m. and also at a matinee at 3 p.m. on November 8. The production will be directed by Stephen P. Scrafny.

The Bev翥 will be presented on November 8.

Tickets are available at the Von Braun Civic Center Box Office.

And the winner is ...

Kristi Stark, a resident of UAH Campus Housing, won the WEEK SIX Exponent-University Bookstore Football Contest. In a three way tie-breaker with two other entries having 12 of 16 correct selections, Stark was closest to the actual 41 points scored in the Alabama-Mississippi State game.

Several surprising weekend upsets clobbered most of the entries. Few prognosticators anticipated the Ole Miss victory at LSU or Syracuse's win over Pitt. And Stark was among the very few who predicted Auburn becoming "paper tigers" at Florida Field.

Stark wins an attractive UAH-Mickey Mouse t-shirt courtesy of the University Bookstore and will be eligible for the post season grand prize drawing.

Name of the Prize:

WEEKLY PRIZE: A Different Surprize each week!

TIE BREAKER:
Predict the total points scored in the Alabama-LSU game

NAME ____________________________
ADDRESS ____________________________
CITY ____________________________ STATE ____________________________
PHONE ____________________________

It's easy to enter. Test your football wizardry.

RULES

1) Select one winning team or a tie for each game listed. Two marks or no mark will be judged a missed game.
2) Estimate the combined points scored by both teams in this tie-breaker game. Weekly Winner will be determined by the most correct games selected. In case of a tie the tie-breaker will be used to determine which contestant is closer to the combined score of the two teams.
3) Decision of the judges is final.
4) Entries must be received at the UAH University Bookstore, ground floor of the University Center, by 5:00 p.m. Friday preceding the game day.
5) Only three entries per contestant per week are permitted.
6) Employees of the University Bookstore and the University Center as well as Exponent staff are ineligible.
7) Each weekly winner will be awarded a specially weekly prize by the bookstore, have their name announced as the weekly winner in the Exponent and be eligible for the grand prize drawing.
8) Only weekly winners will be eligible for the Grand Prize drawing at the end of the season.

Show your UAH student I.D. at our Jordan Lane or North Parkway locations and receive a medium soft drink free with purchase of any sandwich.
Korean National Soccer team to play UAH

by Cindy Rodriguez

The soccer match of the year is almost here! While on a world tour, the Korean National team has done UAH the honor of inviting the Chargers to a friendly game of soccer.

It was a surprise for Dr. Ostap Stromecky, the Chargers’ soccer coach, when he and his team were asked to play the Koreans. However, Mr. Choi, who is associated with the Korean National team, declared that it was the Chargers’ excellent record, and the Huntsville community’s growing support for soccer that earned them the right to play an Olympic caliber team. Choi also said that the Korean National team “has come to the U.S. to further promote the GoodWill Games.” They are not touring the world as merely Korean soccer players, but as human beings who wish to reach out beyond cultural barriers.

While reaching beyond cultural barriers, the Korean National team has also reached beyond their limitations. Right now, the Korean National team has been proclaimed number one in Asia after playing and beating the top Asian soccer teams, including the People’s Republic of China. Stromecky said, “We feel that our team has come to the U.S. to have the experience of playing against an international team.”

Sharing the athletic department’s excitement, the young Chargers are more than ready to play the internationally renowned team. “They are a very talented team. We are going to have our hands full,” reported Tommy Asquith. Another player, Frank Davies, said, “It will be tough, but we will do our best. This will be our first experience against an international team.”

When asked what the Charger’s chances of winning were, Stromecky stated, “The chances are good.” According to Stromecky, the Chargers will have two advantages: (1) the game will be played on the Chargers’ homefield, and (2) the Chargers will have the additional support of a home crowd. This will make a big difference, since the Chargers play very well at home.

As a very optimistic player, Chad Davis, said “We should give them a good game.”

Nevertheless, Stromecky is by no means underestimating the Korean team. He realizes that this team is high caliber, far beyond the collegiate level.

This once in a lifetime game will be played Friday, November 7, at Joe Davis Stadium. Tickets will be selling at $1 for UAH students, and $3 for the general public.

More than ever, the Charger soccer team will need both UAH’s and the Huntsville community’s support, so everyone is urged to attend.

The Korean National Soccer Team

Soccer team scores third consecutive win

by Cindy Rodriguez

Dr. Ostap Stromecky predicted the Chargers’ end of the season success in the August 13, 1986 issue of The Exponent. As Stromecky forecasted: “Initially it will be developing a new team, however, toward the middle and end of the season we should be quite good.”

Indeed the Chargers’ soccer coach was correct. So far, the Chargers have won three games in a row.

The Charger Soccer Team went all out in their match, Friday, October 31, against Tennessee Tech University’s Golden Eagles.

Quickly taking control during the first half of the game, the Chargers attempted 25 goal shots and scored twice. Assisted by Tony Sharpe’s corner kick, Raymond Aguero shot the first goal soon after, with Paschal Dunne’s assistance.

“It was great to win,” remarked Tony Sharpe. During the second half, the game was played fairly evenly. The Golden Eagles scored their first and final goal 17 minutes into the half, making the score 2-1. The Golden Eagles were pressing to tie the game, however, in the most daring play of the game. Sharpe, assisted by Tommy Asquith, dribbled the ball across the field; punching a hole in the Eagle’s already weakened defense, he went on to score the Chargers’ third and final goal.

As Stromecky said, “We played very well against a NCAA Division One team. Our defense and our offense played well together.”

In their match against Florida Institute of Technology, held November 2, the Chargers again trampled the competition. Though FIT dominated and scored once during the first ten minutes of the first half, the Chargers were able to dominate the rest of the game. With superb shooting and passing, Sam Onyeaka, David Richardson assisting, scored the first goal. This was done with only eight seconds remaining in the first half.

Considering that his position was a new one, Onyeaka did quite well. Scoring the Chargers’ second goal, with Ed Kelly’s assistance, Onyeaka made it look almost too easy.

The third goal was scored by Chad Davis on a penalty shot. Davis was able to quickly maneuver the ball past FIT’s goalie, thus scoring a beautiful shot for the Chargers.

Another excellent goal shot was made by Paschal Dunne. Assisted by Sharpe, Dunne leaped into the air, heading the ball into the goal with precision timing and accuracy.

As Charger player Frank Davies said of FIT, “They played a beautiful game of soccer.”

FIT dominated in the second half, but the Chargers were hot on the ball making the final score 4-2.

“This is the Chargers’ third win in a row,” Stromecky noted, “which will be a moral booster for the final two games.”

The Chargers have two more games to play before the end of the soccer season. Sports Information Director, Julie Grimes is calling them “spectaculars.” One will be played against the Korean National Team, and the other against Alabama A&M University. Good luck Chargers!

UAH hosts Korean soccer team

The UAH Charger Soccer Team will host the Korean National Team (featuring Young Moo Lee, Striker), Friday, November 7 at 6 p.m. The event will be at Joe Davis Stadium unless there is a football game there. If there is a football game then the Soccer match will be held at the Goldsmith-Shiftman Field at 7 p.m.

Admission is $3 for adults and $1 for students.

Support Charger Soccer - attend the game.

Alabama Shoot-out planned

The UAH Charger Soccer team will go against the Alabama A&M Bulldogs in an Alabama Shoot-Out, Sunday, November 9 at 2 p.m. at Joe Davis Stadium.

Admission is $3 for adults, $1 for students, and FREE to those youths in soccer uniforms.

Go support UAH and their mighty Soccer Chargers!
Exponent football forecaster predicts...

by Kelly Baldwin

sports reporter

This week promises a little excitement for football fans. A few really close games are on the slate and I am sure glad that I have my Canadian quarter here to help me pick some winners. I smell a few upsets in the making this week and my quarter agrees.

First game up, Cincinnati is at Auburn. If this one is televised, I am not going to waste my time watching it. The Tigers will scratch another win into their goal posts this week. Auburn 42 to 7.

Another yawner will be Miami at Pittsburgh. Upset here? Not likely.

Hurricane season is not over yet. Give the Panthers credit for a few points scored against the Hurricane's third string. This one is Miami's. Miami 35 to 12.

The Vanderbilt Commodores will descend on the Kentucky Wildcats this weekend. Kentucky is already woefully looking ahead to basketball season. I can see why. Not a very exciting game poll-wise, but it could be a good game otherwise. Vandy by a hair's width. Vanderbilt 28 to 20.

Down in Gainesville, the Florida Gators play host to the Georgia Bulldogs. The Gators are one MAD team. Sure, they have several losses, but those were to the likes of Miami, Alabama, and LSU. The $64,000 question - Can Vince's Bulldogs stand up to Florida? My crystal ball frosted sense an upset. Florida 27 to 24.

Then, there's SMU at Notre Dame. This one is not necessarily as cut and dried as the statistics might lead you to believe. Notre Dame has a bad habit of going two and six and then upsetting the best team in the nation. Never count out the Fighting Irish NEVER! Call it a good scare for the Mustangs. SMU 31 to 24.

North of the Mason-Dixon, Maryland is at Penn State. The Terrapins will be stepping into a lion's den; Nittany Lions, that is. Terrapins have been known to best rabbits (havin', to be exact), but lions really like turtle stew. Good time to exercise the spotlight game of the week. This week's spotlight is on LSU at Alabama. This will be a very good game and is a tough one to call. It is in Tuscaloosa, which is a plus for the Tide. My Canadian quarter landed on the moose, which was Alabama, so I pick Alabama by a moose. Alabama 35 to 26.

UAH cross country teams improving

by Spencer Glasgow, Jr.
sports reporter

On October 4, the UAH men's and women's cross country teams travelled to Carrollton, Georgia, to compete in the West Georgia Cross Country Invitational. Nine teams competed in the women's hilly 5K course, with UAH finishing fourth. The women's team was led by Sue Parker who placed fifth overall with a time of 21:02.

Other UAH participants in the race and how they finished included Anita McNiel (thirty-seventh), and Amy Simmons (forty-eighth). Fourteen teams competed in the men's 5K course, with UAH finishing tenth. The men were paced by Daryl Owens, who finished fifth-second with a time of 20:10. Other team members and how they finished included Jeff Poyssal (fifty-fifth), Glen Yates (fifty-seventh), Frederick Gant (sixty-fifth), and John Diehl (sixty-ninth).

On October 11, the UAH cross country teams competed in the Diet Pepsi Invitational held at the Running Park in Huntsville. For their three-mile course, the UAH women's team came in second behind UNA. UAH was led again by Sue Parker with a fourth place overall finish. Parker's time was 19:21.

Other UAH participants in the women's division also had good finishes. Anita McNiel, Ann Hampton, and Beth Rembert finished eleventh, twelfth, and thirteenth, respectively. Theresa Wolfeberger and Amy Simmons came in fifteenth and sixteenth, respectively.

The UAH men's team had one runner not participating due to injury, which caused a no-score in the meet. Followed by Jeff Poyssal's 32:51 time for a twenty-first finish. Showing considerable improvement was Frederick Gant, according to cross country coach Mike Allen. Gant finished twenty-sixth overall in 35:12. Daryl Owens, competing while fighting a virus, finished twenty-eighth overall with a 37:16 time.

UAH also competed in the Troy State Cross Country Invitational on Nov. 1. Neither the women's nor the men's team scored, though. Several members of both teams were unable to attend the match due to prior obligations.

Several runners did compete for UAH. Among the strong finishers for the women's team were Sue Parker and Ann Hampton. Both finished ninth and eleventh, respectively, out of approximately 35 runners.

Participants in the men's team included Daryl Owens, Glen Yates, Frederick Gant, and John Diehl.

Harvalla leads UAH in golf tournament

by Spencer Glasgow, Jr.
sports reporter

Recently, the UAH golf team competed in the three-day Hart Invitational Golf Tournament held at Territ Pine Country Club and Cullman Municipal Golf Course. A total of 36 teams in two divisions (junior college and four year college) competed in the tournament.

According to Coach Jim Krause, UAH started out well. After the second day of play when the four-year college teams were placed in two divisions, Coach Krause said that this division "was the top flight." At the close of the tournament, the Chargers finished eighth out of the 25 four-year teams. John Harvilla was the Chargers' best player, stated Krause. Harvalla's three-day totals were 75-75-78.

Other players for UAH included John Howard, Greg Seavers, Gary Craig, and Billy Cleveland.
UAH speaks out on the issues

Do you think pre-registration comes too early in the quarter?

Ward Bogert, 30
Junior
Pre-Med

A: "Yes. Not only does it come too early, but it comes at a bad time in the middle of the quarter. Students are jammed as it is with instructors thinking it is a prime time for papers being due in addition to midterms."

Joel Madison, 17
Senior
EE/Art

A: "Uh, yeah. I guess it does cause I wanna be able to drop the class right up to the last minute and it takes too much time of studying to go register."

Phil Ambrose, 24
Senior
ME

A: "No, I think it comes at a proper time because folks really ought to be thinking about what they're going to take in the next quarter in the middle of the previous quarter. It shouldn't be something they think of the last two weeks."

Robert Freese, 30
Senior
Math

A: "No, because I've already read the bulle'tin. I know before hand what I need to take, so for me it doesn't come too early."

Karen Kessler, 21
Senior
ED

A: "No."
