Bankston Receives Scholarship

Cheryl Bankston, an electrical engineering major here at UAH, received the 1990 Dr. Wernher von Braun Scholarship. A NASA cooperative education student, she is also the Principal Investigator for the Small Expendable Deployer System Earth Atmosphere and Space Imaging System. In addition to being inducted into Eta Kappa Nu and Tau Beta Pi, two engineering honoraries, she is involved in many University organizations.

During the summer of 1990, Ms. Bankston interned in Washington, D.C. with People to People, which briefs American students on Eastern European Cultures before they visit those countries. Ms. Bankston received her experience for this position while representing the United States as an Alabama Youth Ambassador to the Soviet Union. The UAH Junior was selected for the scholarship because of her goals in advancing space research and exploration.

The Dr. Wernher von Braun Scholarship is awarded to a deserving undergraduate student who demonstrates a desire to apply his/her talents in the field of rocketry and astronautics.

Committed to the future of the aerospace field, the scholarship was established with a $10,000 contribution from the National Space Club and was supplemented by contributions from GenCorp Aerojet and Rockwell International.

The award was created in 1988 by the National Space Club-Huntsville and is administered by The University of Alabama in Huntsville Foundation.

1990 Class Officers

1990 RESULTS OF ELECTION OF CLASS OFFICER AND THE WINNERS ARE:

Freshman President: Kaycee Lyn Martin
Freshman Vice President: Patty M. Ulmsted

Sophomore Treasurer: open
Sophomore Secretary: Maria G. Valdovinos
Sophomore President: Valerie Michelle Hase
Sophomore Vice President: Runoff between Rhonda L. Allen and Michael Dubbs
Sophomore Treasurer: open
Sophomore Secretary: Katherine Susan Carter

Junior President: Christie D. Dale
Junior Vice President: Rudy Setiawan
Junior Treasurer: open
Junior Secretary: Lisa R. Shannon

The run-off for Sophomore Vice President will be held at the same time votes will be taken for homecoming court, November 14 and 15 in the UC Lobby from 8:30 a.m. to 8:30 p.m.

Visualization And Simulation Lab Opens

by Christie Dale reporter

On Wednesday, October 24, UAH Research Institute's Visualization and Simulation Laboratory conducted its formal opening ceremony. Attending the ceremony were members of the UAH community, as well as representatives of NASA, Redstone Arsenal's MICOM, and Applied Dynamics. Carl Adams, coordinator of the Visualization and Simulation Lab, welcomed those attending the ceremony and talked about the functions of the new lab.

The award was created in 1988 by the National Space Club-Huntsville and is administered by The University of Alabama in Huntsville Foundation.

An open house for the Visualization and Simulation Laboratory in the Computer Science Building was held Oct. 24. Research of the lab. With cooperation from UAH, U.S. Army Missile Command, Marshall Space Flight Center and local industry the lab was equipped with some of the latest dynamics simulations and visualization hardware and software. Special thanks were given to Gene Graber, President of Applied Dynamic International Corporation (ADI), ADI was responsible for providing much of the equipment used in the laboratory. Pictured are: (from left to right) Dr. Lynn Russell, dean of the College of Engineering, Dr. Ken Harwell, vice president for research: associate provost, Gene Graber, president of ADI, UAH President Joe Moquin, Dr. Bill Vaughan, director of Research Institute, and Dr. Harold Wilson, dean of the College of Science.

Facility Recital Held

The Weaver-von Spakovsky Duo, consisting of classical guitarist Phillip Weaver and pianist Ingrid von Spakovsky will present a faculty recital at the UAH Recital Hall on Friday, November 2, at 8:15 p.m. The guitar-piano pieces to be performed include Ponce's Sonata for guitar and piano and Tedesco's Fantasia, Op. 145: Tres Danzas. Concertantes by Leo Brouwer, a contemporary Cuban composer, will also be featured. Ms. von Spakovsky will perform three solo piano works by Rachmaninoff and Scriabin and Mr. Weaver will also play a set of solo Spanish pieces by Albeniz.

Dr. George To Speak

Dr. Jack George, Department of Mathematics, University of Wyoming, will speak on "Convergence Acceleration of Computational Methods applied to Problems in Fluid Dynamics" on November 2, 1990 at 3:30 p.m. in Madison Hall 202. The Conjugate Gradient Solver is applied to several computational fluid dynamics problems. The method produces an exact solution at each step.

"Let us dare to read, think, speak, and write."—John Adams
Health Career Day

Alpha Epsilon Delta and the Medical Careers Club are hosting Health Career Day on Nov. 7. This event is in conjunction with the College of Science Career Information day. Invited speakers will talk to students about health careers such as medicine, dentistry, podiatry, optometry, pharmacy and veterinary medicine. Several of the speakers are representatives from various professional schools, so this is an excellent time to meet with them to ask questions. Any interested student is invited and a free lunch is provided with student ID. Health Career Day sessions will be in rooms 126 and 127 of the University Center. Come and get more information about your career choice!

Quarterly Trading Paper To Be Set Up

Have you ever felt like you were being forced to spend too much money in your textbooks? Have you ever been upset you were informed that the price the bookstore would pay for your used textbooks was less than you thought that it should be, due to "overstock", because the class was not going to be offered the next quarter, or for other reasons? Because of problems such as these, the Student Government Association is currently investigating the possibility of setting up and publishing a quarterly trading paper for used textbooks. This would allow students to bypass the bookstore and buy and sell textbooks without going through an intermediary. Hopefully this would have several beneficial effects, including the reducing of textbook costs to students, the increasing of money students would get back from the sale of used textbooks, and the bringing together of students who have taken a class with those who will be taking the same class at a future time. If you are interested in this idea, or have any suggestions about how it should be carried out, please call Eddie Ditto, Vice-President, SGA, 895-6375.

Petroleum Geologist To Speak

At 7pm on November 1, in meeting rooms A & B at the public library, John Fleming, petroleum geologist for Ground Engineering in Huntsville, will speak on the subject of OIL AND GAS POTENTIAL IN THE HUNTSVILLE AREA, and give a general overview of current explorations. In the last five years, John has conducted wildcat work in North Alabama, and has discovered oil in Blount and Cullman Counties. He is responsible for the deepest well in the Tennessee Valley (6500' at Falkville), and the deepest well in Madison County (3001' at New Hope). This will be a show and tell presentation with coreings. The public is invited to attend. For more information, call 539-3747 (evenings).

Recital continued from page I

a private studio at the Fret Shop. This past spring he performed two solo recitals in England, one for the Nonsuch Guitar Society in London, and one for the Old Malthouse Music Society in Sawbridgeworth. In 1988 he received an Artist Assistance Fellowship from the Alabama State Council on the Arts. Ingrid van Spakovsky teaches piano at UAH and privately. She holds a Master of Music degree from the University of Illinois where her instructors included Joel Shapiro, William Heiles, and Soulima Stravinsky. She also studied with Heinz Scholz at the Mozarteum in Salzburg, Austria. The Weaver-von Spakovsky Duo is one of a few such ensembles performing the guitar-piano repertoire. The Duo has performed for the Birmingham City Stages Festival and for Artsbridge in Parkersburg, West Virginia. This March they are scheduled to perform a program for the Arthurburst Concert Series in Birmingham.

Intro To Economics.

Learn How Our Thrifty Checking Account Can Help You Check For Less.

How can you enjoy basic low-cost checking and still have all the convenience of 24-hour banking? The answer is Thrifty Checking from First Alabama. It's simple economics. You pay a basic monthly fee of $1.50, plus 20 cents for every check clearing the bank. And when you need cash fast, your free Right Card gives you easy access to your money 24 hours a day — with no charge for transactions made at over 100 Right Place banking machines across the state. You can even use one free Right Call to check on your account any time day or night. So start with the basics. And sign up for Thrifty Checking at your nearest First Alabama office.

1991 BSN STUDENTS

Enter the Air Force immediately after graduation — without waiting for the results of your State Boards. You can earn great benefits as an Air Force nurse officer. And if selected during your senior year, you may qualify for a five-month internship at a major Air Force medical facility. To apply, you'll need an overall 2.50 GPA. Get a head start in the Air Force. Call USAF HEALTH PROFESSIONS STATION-TO-STATION COLLECT 615-889-0723.
Holistic Health

Holistic health care immediately brings to mind bizarre and painful treatments such as the ancient practice of bloodletting, or the primitive custom of using witch doctors.

As we approach the 21st century modern medicine and holistic health care are joining together to effectively treat the whole person. Rather than treating specific diseases we treat the whole person, which includes the physical, psychosocial, emotional and spiritual aspects of an individual within their environment. A holistic health care approach is the best preventative maintenance program an individual can have," said Dr. C. Fay Raines, dean of the University of Alabama in Huntsville College of Nursing.

"As nurses it is our responsibility to assist clients in identifying individual strengths and alternatives for a healthy lifestyle," said Rometta Hock, UAH nursing instructor. "In determining holistic health care assessments, we examine health practices, exercise, stress management, avoiding illness, and place special emphasis on self-responsibility for health, personal growth and personal change. "I think one reason people are approach," she added. "living longer, is because they are taking responsibility for their own health, using the holistic health care approach," she added.

Hock said among those methods being used to bring about positive lifestyle change are utilization of nutrition alternatives, relaxation techniques, bio-feedback, meditation, acupuncture, massage and accu-massage. But there are some who believe the current interest in holistic health care is a passing fad.

"Not so," says Marquerite Fedor, a UAH nursing graduate, who recently opened Holistic Health Care Consultants in Mobile, Ala. "Holistic health care is definitely not a passing fad - it is being rediscovered. It is the new wave of treatment in both the nursing and medical professions," Fedor said.

"Although its not common knowledge, nurses have been practicing holistic health care for years. Nursing has been a holistic science since the days of Florence Nightingale," she added.

Fedor, who also teaches preventive health to nursing students at Southwest College is employed at Huntsville College of Nursing. "I think that if we took a look at more primal people we would understand that our technology doesn't have all the answers. It is possible, using the holistic approach, to help heal people," Fedor said.

According to Fedor, imagery, a holistic modality can be used in conjunction with chemotherapy to help prevent nausea and is helpful in controlling pain, in obstetrics for getting through the discomfort of labor and delivery, in oncology cases for the treatment of tumors, for stress and hypertension, in group therapy sessions, and in cases of chronic illnesses, when medicine doesn't have a way to deal with the disease. A large percent of Fedor's clientele are her own peers. "Nurses and health care professionals are so busy taking care of others, they over look

In an honor rarely bestowed upon an outsider, the tribe chooses Dr. Collins to throw out the first head and officially open the season.

ALD

UAH's chapter of Alpha Lambda Delta held its spring initiation on May 30, 1990. Those initiated were Gurpreet Bhatia, Emily Bland, Jean-Hsiang Chen, David Clendenan, Don Jenkins, Deborah Durham, Matt Edmundson, Pamela Freeman, Gisela Froelich, Trevor Grombacher, Shellee Harris, Jeremy Hodes, Deletha Holcomb, Heather Huber, Megan Johnson, Nathaniel Johnson, Yu-Hsiang Kan, William Lunceford, Mary McGraw, Wendy Moss, Stephanie Nardella, Teresa Nelson, Nina Patel, Judith Pelger, Kevin Plue, Eric Rives, Debbie Roberts, Mikki Russell, Eric Schlegel, James Schutt, William Spadlin, and Tanya Wigley. Officers were also elected to serve the 1990-91 academic year. The new officers were: President...Alden Brand, vice-president; Wendy Moss, secretary; and Megan Johnson, treasurer. To be full-time students, all new members for your superior academic achievements!

IEEE

The UAH IEEE Student Branch has begun planning for this year's hardware project design competition to be held in Roanoke, Virginia. A number of schools compete regionally in the Student Conference to design and build a device that will accomplish a given task, which is changed annually. Of all the schools competing from the Southeast, UAH placed fifth two years ago and third last year. There is tremendous pressure for this university to place very highly once again.

This year the objective is to design, build, and test a vehicle, which will (1) receive instructions via a modulated infrared signal, (2) move away from an obstacle, (3) stop and (4) deposit the ball at a particular location. In addition to correctly meeting the technical requirements, each university will be concurrently contesting in a duplicate elimination race.

This winter the Department of Electrical and Computer Engineering will be offering EE443, Selected Topics in Electrical Engineering, for qualified students who are interested in designing and building the above-mentioned project. The course counts for three semester hours and counts for an EE elective. However, space is extremely limited and will consume a large amount of the student's time. The benefits, though, are very rewarding. In addition to research and design, the student will gain practical experience, which other courses cannot offer.

World Issues Society invites anyone interested or opinionated person to our next discussion meeting. Topic is "A Violation of Democratic Rights? Can you prove that you are sane?"

SOTA

The Student Over Traditional Age Society will meet from 12:15 to 12:45 in Room 127 of University Center on Thursday, Oct. 1. All students over age 24 are welcome.

Chi Omega

The women of Chi Omega would like to welcome our newest pledges, Katherine Canter and Mono Laws. We are sure that they will make a great addition to our chapter and to name its more well-known throughout the South.

SWE

The next meeting of the Society of Women Engineers will be on Thursday, Nov. 1, 9:30 a.m. in Room 103 of the University Center. This is a very small organization so we are recruiting new members. Everyone's help is needed to protect our environment, so every person will make a difference. Hope to see you there!

ATO

The brothers of Alpha Tau Omega would first like to thank all of the people who attended our Halloween party at the Kalea Park. The party was a blast, and we are already looking forward to next year's party! The entire chapter would also like to thank brother Joachim Thoenes for organizing a great evening for all interested in creating such a cool design for the haunted house. Everyone, anyone interested in being involved in designing our haunted house. We want to thank everyone who came by and participated.

Chi Omega

Congratulations to Becky Lovvorn from others interested, creates an important and unparalleled learning experience.

Delta Chi

The Student Branch encourages chapter to turn in cards with the name of a contact person who can be reached between Friday at 5 p.m. and Monday at noon in case we have any questions.

Sigma Nu

We would like to thank everyone who came out and helped to make our Halloween party on Saturday night a success. We enjoyed the presence of Wendy Sommers and DJ Erby. The canned food donations collected at the door will be given to the Bridge, a local charity. Our Halloween party is an annual thing, so mark next year's calendar now!

We also had a good time at the Alpha Tau Omega Halloween party last year. The Student Over Traditional Age Society looks forward to next year's party! The Student Branch encourages everyone to make a contribution to their community. We hope to see you there!

The Student Branch encourages everyone to make a contribution to their community. We hope to see you there!
Mariah Carey Can Actually Sing
by Eric Schlegel
reporter

Can you believe the luck? Yet another singer who is actually able to sing has come along. This is a trend that will hopefully continue. With her self titled debut album, Mariah Carey has established herself as one of those songbird trendsetters. As far as her voice goes, she is the best of the best. When you hear this girl sing, you know it from her characteristic mile high and infinity long notes.

Mariah Carey often sounds like a more passionate Whitney Houston. Every note from her lips is squeezed from her soul. When you listen to this album that is apparent; the singer throws herself into every song. Every word is her own personal story. The fact that she co-wrote all the tracks is apparent in her connection with the words. Pure emotion is achieved from a combination of skilled voice and heart wrenching lyrics.

Quite fittingly, love is a common theme throughout the album. Love gone good, "Vision of Love"; Love gone bad, "I Don't Wanna Cry"; Love gone away, "Vanishing"; and love gone world wide, "There's Got To Be a Way."

The album varies in its sound. Carey is best on the slower, passionate songs like "Vision of Love." However, she experiments with faster, funkier beats in songs like "Someday" and "You Need Me." The song "Prisoner" actually has a rap in it. But, she also goes the other way. "Vanishing" is simply composed of her lead voice, back vocals and a piano. It is very simple and emotional. Also, the sound of "There's Got To Be a Way" is very interesting. It starts off a slow and gentle groove. It then alters into a more complicated, energetic sound. A gospel feel can be heard in the lively background vocals.

The album is near perfection. There are no real losers of the eleven tracks on this album. How could you go wrong with that voice? The best cuts include "Vision of Love," "There's Got To Be a Way," "I Don't Wanna Cry" and "Love Takes Time."

Mariah Carey's debut effort is a powerful and effective work. I've heard that she intends to release a special five track mini-album, supposedly today. If this album is any indication the five track one is definitely worth getting. This album is near perfection.

Speech
continued from page 4
pursuit of truth and knowledge should be ideal forum to expose and defeat the ignorance that fuels racism.

The ACLU's John Powell forcefully argues, "The primary problem is that we haven't begun to seriously discuss racial issues." He is absolutely right. But the speech-restricting policies he seems to advocate will only have a chilling effect on the needed discussion.

PGA officials later reversed themselves and rescinded the decision to allow heckling at tournaments.
There are two sides to becoming a nurse in the Army.

And they're both represented by the insignia you wear as a member of the Army Nurse Corps. The caduceus on the left means you're part of a health care system in which educational and career advancement are the rule, not the exception. The gold bar on the right means you command respect as an Army officer. If you're earning a BSN, write: Army Nurse Opportunities, P.O. Box 7713, Clifton, NJ 07015. Or call toll free: 1-800-USA-ARMY, ext. 438.

AN AFFIRMATIVE ACTION/SEXUAL OPPORTUNITY INSTITUTION

PSEC810
The UAH soccer team had its best week to date with a 2-1 record. The Chargers were defeated by Birmingham Southern on Tuesday. Over the weekend, UAH captured two victories in the Southeastern Athletic Association Tournament. The Chargers came in second to Auburn Montgomery.

On Tuesday, the Chargers lost to Alabama rival Birmingham Southern 2-1. Scoring the lone goal for the Chargers was Edmundo Paz-Soldan. The goal was assisted by freshman Steve Anewalt.

"The team really put in a performance," said coach Carlos Petersen. "Our midfield controlled play and our strikers drove the goal." On Friday, the Chargers played Christian Brothers to open the Southeastern Athletic Association Tournament. UAH defeated Christian Brothers 4-2. Scoring goals for the Chargers were Jonathon Zecher, Steve Anewalt and Jonathon Fontenot. Fontenot scored two goals. The Chargers had a total of 27 shots on goal.

UAH had 7 penalties for a total of 10 minutes. Merrimack had 5 penalties for a total of 10 minutes. Merrimack out-shot UAH by only 37-28. The Hockey East Stars of the game were Jonathon Fontenot, Richard Cardin and Steven Anewalt. Goalie Adel Massoud had 5 saves. Christian Brothers had 14 shots on goal.

On Saturday, the Chargers took on the Lincoln Memorial Railplitters. UAH rolled to a 4-0 victory. The Railplitters were short on numbers with only 10 players. The Charger goals were scored by Carl Stewart, Jonathon Fontenot, Richard Cardin and Steven Anewalt. Goalie Adel Massoud had 6 saves. LMU had 12 shots on goal and UAH had 27.

"We had a good performance in the tournament," said coach Petersen. "Our strikers came through for us. The freshman now have a feel for college soccer."

The Auburn-Montgomery Senators won the tournament with UAH coming in a close second. Charger Edmundo Paz-Soldan was named the MVP of the tournament. The All-Tournament team included Jonathon Fontenot, Rob Kine, Chris Williams, Jonathon Zecher, and Jason Baradi of UAH; Marquis Asperdin and Troy Adams, AUM; Frederick Skoglund, Mohammad Ali, Jamal Baradi and Dan Burko, LMU; Brady Whitworth, Lee Van Eaton, Douglas Schenkel and Mark Cwienski, CBU.

The Chargers end the season this week with away games at Vanderbilt University and Memphis State University. The Chargers play Vanderbilt on Wednesday at 7 p.m. and Memphis State on Friday at 7:30 p.m.

The Hockey East Stars of the game went to Dan Gravelle and Howie Rosenblatt of Merrimack and Sean Kelly of UAH.

On Saturday, the Chargers lost to the University of Lowell 16-4. UAH compiled 81 penalty minutes during the game.

Scoring for the Chargers were Jean Marc Plante, Graham Fair, Todd Awender and Ken Thibodeau. The Chargers had 17 shots on goal.

Charger goalie Dennis Lang had 18 saves. The University of Lowell had 28 shots on goal.

The Chargers play at home this weekend against Windsor University at 7 p.m. UAH plays Friday and Saturday. UAH has never beaten Windsor. The Chargers will practice this weekend at the Ice Palace Monday thru Wednesday 1 p.m. to 2 p.m. and Thursday at the VBCC from 1 p.m. to 3 p.m.

The Chargers play at home this weekend against Windsor University at 7:00 p.m. UAH plays Friday and Saturday. UAH has never beaten Windsor.

The Charger volleyball team Wins Two

The Charger volleyball team captured two wins this past week with a win over Tennessee Temple and the University of the South. The Chargers picked up the Tennessee Temple win due to a forfeit.

On Wednesday, the Chargers rolled to a 15-5, 15-11, 15-6 victory over the University of the South Tigers. UAH played the match without starter LeAnn Hill. Hill was unable to play due to an ankle injury. Charger coach Connie Nicholson went to a 5-1 offense. Earlier in the season, the Chargers lost to Christian Brothers playing in the 5-1. However, UAH pulled together and defeated the Tigers in the 5-1 offense. Leading hitter for the Chargers was Tracy Mejdich with 12 kills. Korohen Smith compiled 36 assists during the match. Hill, Richards, Korohen Smith and Jennifer Grace all had perfect serving games for the Chargers.

HPE Classes Are Diverse

by Jennifer Grace

If you haven't signed up for winter term yet be sure to take a look at the Health and Physical Education section of the class schedule. Four new classes are being added to the already lengthy list of HPE courses. With the diversity of these courses you are sure to find at least one that interest you if not more than one.

Country Western Dance is one of the four new courses. Labeled as HPE 0199-06, Country Western Dance is taught by dance instructor Bonnie Henley on Thursdays from 6 p.m. to 8 p.m. In the course you will learn the ever-popular Texas Two-Step, Three-step, and other variations, as well as the Country Waltz, Heel-Toe Polka, Cotton-Eyed Joe and much more. HPE 0199-02 is a new course called Body Alignment Movement Therapy. Nancy Vorkhaus will help her students reduce strain and discomfort in both highly skilled activities and everyday acts, such as sitting, standing, walking, etc. by developing proper structural support and balance. This course is excellent for performers, athletes and anyone wishing to enhance their daily job movements. An introduction to Body Alignment is also taught by Ms. Vorkhaus. The course number is CER 1103-01 and it is absolutely free.

Learn the knowledge and techniques necessary to prevent and/or care for the common athletic injuries in HPE 0290-01, Care and Prevention of Athletic Injuries. Athletic Trainer Adrienne Pope will show how to treat injuries to the knee, ankle, shoulder, etc. This is a good class for parents, coaches and athletes in particular. It is a three hour credit course for a letter grade.

If you are more interested in outdoor activities, maybe try Paintball. HPE 0199-01, Paintball, is an action game for men and women. Continued to page II.
Karate Club

The UAH Karate Club held its first meeting of the year Monday at Spragins Hall. The Club itself is about 10 years old and is open to any student at UAH who is interested in martial arts. They do not have to be taking karate from the school or even at all.

The club has, in the past, done such things as: hold tournaments, give demonstrations and host clinics on self defense. Our faculty advisor is Berry Grizzard, who teaches karate here at UAH. He is also currently ranked number 1 in Alabama for super heavy weight blackbelts.

The club will meet every other Monday in Spragins Hall at 6 p.m. Our next meeting will be the first Monday in November. The Club is designed to help support martial arts here.

Plans for the future include possibly putting together a competitive team to represent UAH at tournaments, as well as holding a tournament here at the school, holding seminars, and doing demonstrations, so if you are interested in becoming a member of the club, or are just interested in martial arts come by our meeting on Monday.

Player Of The Week

Steve Anewalt men's soccer player has been named the UAH/Coca Cola Player of the Week for Oct. 22-29. Anewalt earned the award for his play in the Southeastern Athletic Association Tournament.

"Steve Anewalt has really come on strong in the past few weeks," said coach Carlos Petersen. "He has rid himself of freshman mistakes by giving us strong consistent offensive performances. Steve is a real team player. He leads the Chargers in assists (9). His assists records is double the assist of any of his teammates. I'm pleased for him for doing so well as a young player."

Anewalt is the son of Joanne and David Anewalt of Huntsville.

Schedule

Oct. 31
Soccer vs Vanderbilt Univ. A 7 p.m.
Nov. 3
Soccer vs Memphis State Univ. A 7:30 p.m.
Nov. 2
Hockey vs Windsor Univ. H 7 p.m.
Nov. 3
Tennis vs. UNA A 10 a.m.

Three new ways to survive college.

With Apple's introduction of three new Macintosh® computers, meeting the challenges of college life just got a whole lot easier. Because now, everybody can afford a Macintosh.

The Macintosh Classic is our most affordable model, yet it comes with everything you need--including a hard disk drive. The Macintosh Color combines color capabilities with affordability. And the Macintosh II is perfect for students who need a computer with extra power and expandability.

No matter which Macintosh you choose, you'll have a computer that lightens your work load without giving you another tough subject to learn. Every Macintosh® computer is easy to set up and even easier to master. And when you've learned one program, you're well on your way to learning them all. That's because thousands of available programs all work in the same, consistent manner. You can even share information with someone who uses a different type of computer thanks to Apple's versatile SuperDrive™ which reads from and writes to Macintosh, MS-DOS, OS/2, and Apple® II floppy disks.

See the new Macintosh® computers for yourself, and find out how surviving college just got a whole lot easier.

CITY/STATE/ZIP
PHONE

RULES
1) Select one winning team or a tie for each game listed. Two or no marks will result in a disqualification of the entry.
2) Estimate the combined points scored by both teams in the tie-breaker game.
3) Weekly winners will be determined by the most correct games selected. In case of a tie, the tie-breaker will be used to determine which contestant is closer to the combined scores of the two teams.
4) The decision of the judges is final.
5) Entries must be received at the UAH University Bookstore, ground floor of the University Center, by 5 p.m. Friday preceding the game day.
6) Only three (3) entries per contestant per week are permitted.
7) Employees of the University Bookstore and the University Center as well as The Exponent staff are ineligible.
8) Each weekly winner will be awarded a $10 gift certificate towards clothing and gifts from the University Bookstore, have their name announced as the weekly winner in The Exponent, and be eligible for the grand prize drawing.
9) Only weekly winners will be eligible for the Grand Prize drawing at the end of the season.
10) Only students, faculty and staff of UAH are eligible.
