UAH faculty gets spaced out at Space Camp

by Morgan Andriulli

Thirty-one representatives of all facets of UAH faculty and administration recently spent a warm fall weekend staring at small computer screens and attending lectures.

They were participating in the Adult Space Academy at the Alabama Space and Rocket Center as part of an effort to enhance overall faculty and administration understanding of space and the U.S. space program. The Space Camp fell, coincidentally, on the weekend preceding Space Awareness Week here on campus.

The group spent the weekend of Oct. 30 through Nov. 1 following an itinerary that included hands-on experience with astronaut training materials, lectures on space related subjects, guest speakers, tours of the Space Museum and Marshall Space Flight Center, several simulated space missions, and a chance to wear really nifty-looking blue jumpsuits.

University President John C. Wright, who could be seen at certain times dangling upside-down from a five-directions-of-freedom chair, said, "Everybody had a ball."

"It was a very unique experience," reflected Dr. Grover Porter of Accounting. "As a longtime Flash Gordon, Buck Rogers, and Star Trek fan, I was glad to get a chance for a flight in space, even though it was only simulated."

The cost of the Space Camp was shared by the University and the Alabama Space and Rocket Center.

Space Awareness Week brings visual displays

by Traci Collins

Bill Carswell and the Space Awareness program began their quest last week for student support and education concerning the Space Initiative project. "We've got a foot in the door, now we've got to continue encouraging students to get involved," he said.

The Space and Rocket Center volunteered visual displays last week in assisting the University Space Initiative here at UAH. "We've developed a great deal of community support, now it's time to get our students involved," encouraged Gartska. "As a bonus, members receive an opportunity for everyone in our space program and it's our objective to convey that message to the students," concluded Carswell.

Daniels and Russell awarded research grants

by Beth Gonsowski

The Alabama Academy of Science recently awarded research grants for the proposed work of two students from UAH.

James Daniels, an undergraduate student studying the Strangling Fig, a parasitic vine, received a grant for his work done in Costa Rica. In addition to doing his own research he is assisting UAH biology professor Dr. Robert Lawton in his work.

David Russell, a graduate student studying the sexual behavior of baboons, received a grant for his work at the Brookfield Zoo, located just outside of Chicago. He also is partly funded by Sigma Xi, a national scientific research society.

According to UAH biology professor Dr. William Garteka, the Academy has several programs for funding student members. For example, the Academy donated money for travel to their meetings and awards a student prize for the best research of the year. "It costs very little to become a student member of the Academy," said Garteka. "As a bonus, members receive the journal of the Academy."

Garteka was the chairman of the Academy's Research Committee which awarded prizes and grants to the students for their research proposals this year.

"UAH has progressed to the point where University Advancement requires leadership at the vice president level," said Wright. "Dr. Tenbrunsel has done an outstanding job over the past year and a half. I'm confident the university will benefit even more from his future leadership and UAH's first Vice President for University Advancement."

Wright announces Tenbrunsel promotion

President John Wright announced this week Tenbrunsel joined UAH in 1986 as Executive Director of University Advancement. He supervises the UAH division responsible for Alumni Affairs, Development, Governmental Relations and University Relations. He also serves as Executive Director of the UAH Foundation.

"UAH has progressed to the point where University Advancement requires leadership at the vice president level," said Wright. "Dr. Tenbrunsel has done an outstanding job over the past year and a half. I'm confident the university will benefit even more from his future leadership and UAH's first Vice President for University Advancement."

Campus police offer vehicle safety tips

While operating your vehicle avoid danger by:

- Locking all doors
- Not picking up hitchhikers
- Checking the back seat before getting into your car.

Lucas defines Space Initiative

Space program will improve quality of education

by Traci Collins
intern reporter

Dr. William Lucas defines the Space Initiative program at UAH as a “focused, comprehensive, interdisciplinary program involving the maximum practical number of disciplines, faculty, students, and staff of the University in a balanced program of education, research, training and advisory services in fields related to space.”

The UAH staff and faculty have committed to a Space Initiative that will hopefully help us be recognized as a Space Grant University that will enhance our University as a whole. Lucas has joined the University as director of the Space Initiative Program.

By this definition the Space Initiative is not a single degree program or specialized course of study, nor is it an isolated function nor an activity confined to science and engineering. “No matter what your area of study is at this University, there is a place for you in the space program,” explained Lucas. Rather, the Space Initiative will encompass the broad range of university activities.

“Some students think that you can only be involved in the space program if you’re a scientist. Well they’re wrong. Just because you’re a good scientist doesn’t mean you’re good at communicating to the general public,” commented Bill Crevell, Student President of the Space Initiative program.

Lucas added, “One of the major problems with the Space Program is that we’re not communicators. We need communication majors, business majors, and psychology majors in our Space Program. We need people who can inform the public what we are doing and why we are doing it.”

The proposed Space Grant College legislation defines fields related to space as: physical, natural- and biological sciences, engineering, space technology, education, economics, sociology, communications, law, public administration, and other fields that are concerned with or likely to improve the understanding, assessment, development, and utilization of space.

Although UAH neither has, nor expects to institute all of the programs stated in the legislation, it is Lucas’ goal to assess that practically every major academic and research area at UAH includes disciplines and activities that can provide significant space-related education, research, and advisory services as part of the Space Initiative.

Lucas pointed out, “The Space Initiative would not interfere with the education of people who choose to pursue careers not directly related to space programs, but would improve their educational opportunities. Regardless of career expectations, students in all disciplines would have the opportunity, and should be encouraged to acquire an appreciation for space activity because of the growing integration of science and technology in every aspect of life.”

“What we are doing is to offer a more broad education for all persons at the University that is being driven by a theme of space. . .that’s where this community’s competitive advantages lie. We have an advantage in space to ride that horse into a bright future as a University, but more importantly as well educated individuals,” concluded Lucas.

Vote for Homecoming King, Queen this week

Call your mummy.

You remember. She was always there when you were frightened. And if you got hurt, she was standing by with bandages. Wouldn’t it feel good to talk to your mother again right now?

Calling over AT&T Long Distance Service probably costs less than you think, too. And if you have any questions about AT&T rates or service, a customer service representative is always standing by to talk to you. Just call 1 800 222-0300.

Sure, your schoolwork and your friends keep you busy. But call home and find out what she’s wrapped up in.

The right choice.
UC Art Gallery to display pottery by Goodman

by Sherhonda Allen
for The Exponent

"His style is strong and real aggressive. When I saw his work I was really attracted to it." So UAH University Gallery Director Alan Davis approached Malcolm Goodman, the Huntsville potter with whose work Davis was so impressed. An idea had formed in Davis' mind. "I asked him if he wanted to work together," Davis explained. "I was working with my painting and thought it would be interesting if we combined our work."

Goodman agreed and the University Center Gallery will be the first to exhibit their art. The exhibition will include vessel forms, platters, bowls and slab pictures that emphasize bold shapes and textures. The exhibition will be on view from Nov. 13 through Dec. 5 from 9 a.m. to 9 p.m. Monday through Saturday.

The public is also invited to attend an opening reception for the artists Friday, Nov. 13 from 7-8:30 p.m. at the Gallery.

"We are both interested in raw clay texture and pottery as a sculptural form," said Goodman. Indicating one long-neck, round bottle of bold earth color he added, "It's crazy, it's exciting, working with the clay and the colors. We never knew, really, what each color would look like after it was baked. Lots of things changed (while in the kiln)."

Goodman has been working with clay for approximately seven years. Painting has been Davis' medium since 1972. About ten collaborative pieces will be on view. Another ten will include the individual works of both artists.

Malcolm fashioned each piece from the clay. The two men would then layer the ceramic elements and Davis would brush on a white porcelain "slip" before scratching through it to create bold, primitive drawings of buildings, flowers and figures.

"We've both been pretty open with our ideas," Davis said, when asked if he and Goodman had any "artistic differences" during their work. "There were no real problems. We worked together well and are looking forward to working together in the future," said Davis.

Campus police recertified to carry weapons

According to UAH Campus Police Chief Bud Nayman, campus police officers were recently recertified to carry their firearms. Campus police officers must be qualified annually to ensure competency. Out of ten UAH officers using a .38 caliber pistol, three qualified as experts, four as sharpshooters, and three as marksmen.

The Exponent is looking for a few good writers. For more information, call 895-6090.

Nightmares. I crossed the word, first time, many years ago, as a child. It was surrounded by all of the mystique of something from out of a myth. Those tales that, as a child, clapped you (and suspended you) in gripping fear. They were always a wishful fancy of mystery. Like unicorns. The unicorn rideth in beauty, transcending even the heights - beyond the restrictions of this lower earth. Yet unicorns were different from nightmares. You see horses are not built to gallop at night. Mysteries dark horses streaking, unrelenting, like a shot through the emptiness of the night. In the still more mysterious deep of the starless night, in the blinding fastness of their mad and aimless rush, they would bump into things. Their main streaming after them in a teemed scream and crashing over their lofty head as they screech into abrupt turns... they will explode again, as if possessed, and bumD into things. Their main streaming after them in a teemed scream and crashing over their lofty head as they screech into abrupt turns... they will explode again, as if possessed, and bumD into things.

I wonder what type of society Mr. Harris would like to live in. Would he prefer to live in a society such as Nazi Germany, the ultimate manifestation of Germany’s white supremacy movement? Would Mr. Harris prefer a system such as South Africa where the press must have all questions screened before a press conference? Perhaps Mr. Harris would like to try in the Middle East to exercise the civil liberties he has become accustomed to in the United States. Perhaps democracy by its very nature is too liberal a system for Mr. Harris. At least in the United States which we know today, everyone is allowed to express their opinion.

Sincerely,
Andy Hope

Footnote: On a lighter note, here’s a thought for the UAH Chargers: One thing is certain about bumps—they confound. As a Chargers’ supporter, I say, well Chargers “Go bumper.” Confound them.

“In the News, Judge Keys, the Latest Supreme Court Nominee, withdrew his nomination after new evidence showed that the Judge picked his nose as a child.”

Pssst
“Things that go bump in the night” — part two
by Stephen Aouzouni

Night-time occurs for a few people when they are cruising smoothly and steadily down the highway: one firm hand on the wheel, the other hand close by... The all-too-familiar bump often snaps them back to reality! And then there is a characteristic of bumps — they jolt you. You see, bumps occur unexpectedly and suddenly. It is like being struck by a spontaneous lightning, not the kind you can anticipation. For you cannot ever rapture a 7-foot-tall man... with the tiny tip of a tiny pin.

Then there is a moment when you are feeling right high, however it may be that you have attained that ‘highness’... You are drifting a night of uncensored elation. Like, for instance, riding a remarkable success. Come now, for yet now a right little bump can toss a rapid into that steady sea. For instance, that steady sea... You can only capture an inflated balloon... with the tiny tip of a tiny pin.

Between a Hitler and the likes of a Tojo Hidasshi would yield a towering form of Einstein... Bumps bother us, and it is all the more pathetic when you alone, among many, hear or feel the bump. The realization exists though that ‘bumps’ that we hear in the ‘night’ are very rarely capable of harming us more than we are frightened by them.

Letter to the editor:

In last week’s Exponent, Larry Harris wrote a letter denouncing the U.S. as a “propaganda machine” which is, “pro-Israel, anti-Semitic.” To the editor, I

Homecoming '87 election is this week

Vote for your King and Queen candidates

by Kim Glasgow
Exponent staff

Homecoming '87 is here with many exciting plans this week. From the pencil guessing contest to the Hot Legs Competition, UAH students will have a chance to take part in the homecoming celebration.

The big event that everyone seems to be waiting for is the naming of the Homecoming King and Queen. The results have been narrowed down to the top five male students and the top five female students.

### Kristi Heathley

**Advisory Board/Liberal Arts**

Kristi Heathley's honors include the UAH Music Departmental Scholarship, the Kappa Delta Alumnae Association Award, and designation as an Honor Scholar. Her leadership experience includes UAH Choir, president; president, Alpha Delta Tau; assistant finance officer, the College Republicans; the Accounting Club, and the PRCA, treasurer.

Heathley's reasons for wanting to be homecoming queen are as follows: "I believe the opportunity to be Homecoming Queen and the opportunity to help other students become involved and active, but they don't know how. Active students, such as the members of the Homecoming Court, can be the key to getting these students into campus activities, creating a unified student body. I would like to help others have a successful UAH experience." Below is a brief biological sketch of each candidate and why she or he should be your Homecoming King or Queen.

### Stephanie Langley

**Public Relations Council of Alabama**

Stephanie Langley's activities include UAH intramurals, cheerleading, and volunteer work for the Adult Education Center where she teaches general math classes. She lists her memberships at UAH as Chi Omega fraternity; Alpha Lambda Delta, freshman honor society; Omicron Delta Kappa, academic/leadership honor society; Elta Kappa.

Her reasons for wanting to be homecoming queen are as follows: "I believe the opportunity to be Homecoming Queen and the opportunity to help other students become involved and active, but they don't know how. Active students, such as the members of the Homecoming Court, can be the key to getting these students into campus activities, creating a unified student body. I would like to help others have a successful UAH experience." Below is a brief biological sketch of each candidate and why she or he should be your Homecoming King or Queen.

### Rea McLeod

**Public Relations Council of Alabama**

Rea McLeod has been a UAH Lancer, as well as a member of the Public Relations Council of Alabama, 1987 Student Chapter, 1987 President's Council, 1987 Psi Chi, 1987 Speaker's Bureau, and 1987 Association for Campus Entertainment (ACE). McLeod's experience includes ACE, publicity director; Lancer; Public Relations Council of Alabama, president; Lancer Entertainment, committee co-chairman; Alpha Lambda Delta, vice president; and communications major junior.

Her reasons for wanting to be homecoming queen are as follows: "I believe the opportunity to be Homecoming Queen and the opportunity to help other students become involved and active, but they don't know how. Active students, such as the members of the Homecoming Court, can be the key to getting these students into campus activities, creating a unified student body. I would like to help others have a successful UAH experience." Below is a brief biological sketch of each candidate and why she or he should be your Homecoming King or Queen.

### Jeanne Pich

**College Republicans, Biology (pre-med) major**

Jeanne Pich has been a member of the College Republicans, Chi Omega, Biology (pre-med) major, Home U.N. Medical Career Club, Alpha Epillon Delta, and Omicron Delta Kappa. Her honors include Vietnam Veterans Scholarship, Omicron Delta Kappa, leadership honors, Dean's List, and Scholar/Honor Scholar each quarter.

Pich's leadership experience consists of SGA legislator-revisions chair, appropriations chairman, and rules committee; UAH Commence-ment Committee; College Republicans, secretary; Chi Omega, social chair, and treasurer.

Her reasons for wanting to be homecoming queen are as follows: "I would wish to serve as an example of a balanced student— one who exhibits leadership qualities, high academic standards and maintains an active social life as well." Below is a brief biological sketch of each candidate and why she or he should be your Homecoming King or Queen.

### Monique Towne

**Financial Management Association**

Among her honors, Monique Towne lists the National Merit Corporate Scholarship, the UAH Honor Scholarship, and the Dean's List. She is a member of the Chi Omega fraternity, the College Republicans, the Accounting Club, and the Financial Management Association.

Towne would like to be homecoming queen because "At UAH, homecoming queen isn't just who's pretty and popular. It is a reflection on how you've developed the leadership and communication skills that will help you in the future. Besides, I want to be just like Vana White, and I'll bet this is how she got her start (ha, ha)" Below is a brief biological sketch of each candidate and why she or he should be your Homecoming King or Queen.

### Jeanne Pich

**College Republicans, Biology (pre-med) major**

Jeanne Pich has been a member of the College Republicans, Chi Omega, Biology (pre-med) major, Home U.N. Medical Career Club, Alpha Epillon Delta, and Omicron Delta Kappa. Her honors include Vietnam Veterans Scholarship, Omicron Delta Kappa, leadership honors, Dean's List, and Scholar/Honor Scholar each quarter.

Pich's leadership experience consists of SGA legislator-revisions chair, appropriations chairman, and rules committee; UAH Commence-ment Committee; College Republicans, secretary; Chi Omega, social chair, and treasurer.

Her reasons for wanting to be homecoming queen are as follows: "I would wish to serve as an example of a balanced student— one who exhibits leadership qualities, high academic standards and maintains an active social life as well." Below is a brief biological sketch of each candidate and why she or he should be your Homecoming King or Queen.

### Frank Wesseling

**Financial Management Association**

Wesseling's honors include the National Dean's List (1985-87) and being first runner-up Co-op Student of the Year. Among his leadership experience, he lists Phi Kappa Alpha, president (88-89), financial campus chairman, and pledge educator (1987). Wesseling lists his reasons for wanting to be homecoming king as "Put simply, I would like to be Homecoming King for fun. Everyone knows the pulse of UAH is a pulse for life. I would like to see that pulse change. Through involvement in athletics, The Lancers, clubs, and the Greeks a pulse can be found. Through involvement I believe that I have the experience to represent our University well and it would be an honor to represent you as Homecoming King. I encourage everyone to become involved and looking back, we will know we have done our best, have no regrets, and did not miss a thing." Below is a brief biological sketch of each candidate and why she or he should be your Homecoming King or Queen.

Magic Maze

PLAY: do the words in all capitals — horizontally, vertically, diagonally, backwards. Draw a circle around each letter of a word found in the puzzle, then strike it off. Coloring it will show a caller has been called but all words printed should be a part of any new word that could be formed. Locked letters are letters in the puzzle that can't be used. Return the word to your local newspaper, you'll have the greatest number of letters left over. They'll spell out the answer.

Society of Women Engineers

The next club meeting for the Society of Women Engineers (SWE) will be held on Thursday, Nov. 19, in room 118 of the Engineering Building at noon. New members, male or female, are always welcome. If you would like to assist in making a banner for homecoming, please come to room 118 of the Engineering Building on Wednesday, Nov. 11.

Kappa Alpha Psi

The UAH Karate Club will hold a pledging information session on Thursday, Nov. 12, 1987, at 7:30 p.m., in Spragins Hall, second floor. The club will be holding a self defense seminar.

For additional information please contact Maurice Vargas, Karate Club President, at 895-6673.

Students Over the Traditional Age

Students Over the Traditional Age, S.O.T.A., meets on Thursdays at 12:15 p.m. in the University Center, room 146. Bring your lunch and join us for an informal meeting with your peers.

Kappa Alpha Psi Fraternity, Inc.

Kappa Alpha Psi Fraternity, Inc. will hold a pledging information session on Thursday, Nov. 12, 1987, at 8:30 in the Formal Dining Room of the University Center. Kappa Alpha Psi invites all interested young men to come and learn more about the fraternity and how the pledging period is outlined for this year. The fraternity has many plans and activities for the upcoming quarter and plans to keep the university community informed on events and projects.

Alpha Tau Omega

The Brothers of Alpha Tau Omega would like to thank Chi Omega and Delta Zeta for a great time at our recent mixer. The "Psychopathic 90's" party with the Chi-Os was really groovy and the Delta Zetas were fantastic once again. The Theta Pi Chapter would also like to congratulate all the pledgers and initiate them into the Chi Omega, Delta Zeta and Kappa Delta.

The Exponent is the student newspaper of the University of Alabama in Huntsville. Editorial opinions reflect the views of the editorial board and do not necessarily reflect those of the University or any associated organization. Information on the program, you can call the NSF in Washington. The telephone number is (202) 357-5109.

Smith to give free public lecture on 'Colon Problems, Abdominal Pain'

"Everyone has abdominal pain or an intestinal problem occasionally," Charles W. Smith, Jr., M.D., says. "But many people are bothered by frequent recurring problems that may interfere with daily activities."

The seminars are held in the UAH Clinical Science Center Lecture Hall, he will give a free public seminar on "Colon Problems and Abdominal Pain." "Patients who are bothered by frequent abdominal pain or bowel problems," Smith says, "are often uncertain about whether they need to see a doctor. In the seminar, we'll talk about how the treatment of recurrent abdominal pain, irritable bowel syndrome, and the common cause of recurrent abdominal pain, irritable bowel syndrome, and what you can do yourself to treat it."

"Abdominal pain can be related to both diet and stress. We'll discuss those factors and also the relationship of bowel habits to abdominal pain. Because abdominal pain in children is often perplexing and worrisome for parents, we'll give that problem attention. We'll also talk about how the treatment of recurrent abdominal pain, irritable bowel syndrome, and the common cause of recurrent abdominal pain, irritable bowel syndrome, and what you can do yourself to treat it."

The seminars are held in the UAH Clinical Science Center Lecture Hall, 7:30 p.m., in the University Center, room 146. Please phone the UAH Development Office at 895-6675 for further information.

The Forum, itself, will be conducted on the week leading up to Halloween. The topic will be THE PERSIAN SPACE (SEDS), and is opened to the public.

Born in Austria, Rosenberger was selected at Stanford University, before coming to the United States where he was awarded a Ph.D. in Physics from the University of Utah in 1970. He taught at Utah until 1988 when he came to Huntsville. At UAH, Rosenberger is world renowned for his expertise in crystal growth.

Dr. Franz Rosenberger, Director of the Center for Microgravity and Materials Research at UAH will be giving a lecture titled "Materials Processing in a Microgravity Environment," on Wednesday, Nov. 11, at 8:15 p.m. in the University Center, room 104.

The seminar will be open to anyone who has ever been to graduate school.

To apply you must either be a U.S. citizen or a resident alien of the U.S. on the closing date, which is Feb. 1, 1988.

If you have any problems in getting information on the program, you can call the NSF in Washington. The telephone number is (202) 357-5109.
Candidates prepare for SGA elections

by James Spain
interner reporter

Student Government Association elections will be held on Nov. 17 and 18. Students will elect nine legislators and a Student Affairs Advisory Board Representative from the School of Primary Medical Care. Three positions will be appointed.

In this election a new voting procedure will be introduced. In order to prevent anyone from voting more than once, each student's ID number will be written on the ballot. At the end of elections, the ballots will be arranged in numerical order and the ID numbers will be checked to make sure that no student has voted twice. If a student's ID number appears on more than one ballot, those votes will be thrown out.

Students may vote either day from 9 a.m. until 8:30 p.m. in the Engineering Building, University Center, Library, or Morton Hall.

Each candidate was asked to give a statement on why he or she is running for SGA legislator. The statements were taken verbatim from the statements and no grammatical or editorial corrections have been made.

Bill Chandler
Engineering
Freshman

Being very interested in the affairs of UAH, I decided I would like to take a more active role in the decisions which affect us and our campus. I feel that being more active in my chosen college can make the college experience more pleasurable, while still keeping with the college high standards. I feel UAH is one of the top schools in the nation, and I will work to keep it as such. I feel it is important for all students to have a voice in the Student Government Association, and I would like to speak for you over the next twelve months as your legislator.

Ed Dravecky III
Communication Arts
Freshman

I believe that my experience as Junior Class President in high school and my involvement in campus activities qualify me for this highly important position.

Valerie D. Green
Communications
Sophomore

I want to be elected to the position of twelve month legislator because I know that I will be effective in this capacity. I want the position and I want to serve as a representative for ALL UAH students. I want to help enact your policies and to ensure that your ideas are acknowledged. Most importantly, I will do an excellent job and I want to be active in university politics.

Daryl W. Dunker
Engineering - Electrical
Senior

I have served the students as an SGA Legislator for one year now. I feel that the work done by the SGA is important. I wish to continue doing a good job for the students as a legislator. Given the opportunity, I can continue work on several important matters which are in front of the SGA at this time, such as lighting on campus and smoking in the cafeterias. Thank you.

Tim Funston
Management Information Systems
Senior

For the past few months I have been serving out the term of a legislator that transferred to another school. I feel I have learned much about how the SGA works. This combined with the years of experience I have gained at UAH will help me to serve the students well. I would greatly appreciate your vote on election day. Thank you.

Jeanne Picht
Biology (Pre-Med)
Senior

I have spent the past year serving as a SGA legislator and I have thoroughly enjoyed my term. For the past six months I have served as the Appropriations Chairman. In this position I have worked closely with clubs and organizations on campus to assure that they obtain proper funding. I would like to continue to serve the student body in this capacity. I would greatly appreciate your support on November 17 and 18. Thank you, Jeanne Picht.

Michael Gene
Marketing
Junior

I'm running for twelve month legislator to take a more active role in the UAH campus. Living and working at UAH has kept me in close touch with campus life and problems. I feel that I can actively help the campus grow and improve with your support and interaction. I would appreciate your vote on November 17th and 18th. Thank you.

Tommy Patterson
Accounting
Freshman

I would like to be elected to the SGA Legislative position, because I feel that I can help the students and the faculty develop a better program here at UAH. I will try and do my best to attend all meetings and functions of the SGA and try to help improve the school.

Robert T. Stagg (Tim)
Finance
Sophomore

I am seeking the position of twelve month legislator due to the fact that I want to be involved in what goes on at UAH. I want to help UAH become a more student-oriented university as well as help change things for the benefit of both the students and the university. I won't waste anymore of your time because I'm sure you want to hurry up and read "Bloom County," but I feel I can make a difference and would appreciate the opportunity to serve the students of UAH as an SGA Legislator.

Vote in SGA legislator election Nov. 17, 18

Emergency first aid workshop offered for child care workers

The first course in the Huntsville area on "Emergency First Aid for Child Care Workers" will take place on Saturday, Nov. 14, from 8 a.m. to 4:30 p.m. at the UAH Clinical Science Center.

The UAH Division of Continuing Education is presenting the workshop for child care providers who must respond to the emergency medical needs of children in their care.

"Airways Emergencies" - Kathleen Throckmorton, Paramedic and Lecturer, Emergency Medicine Programs, School of Primary Medical Care (SPMC).

"General Medical Emergencies" - Dr. Lusanne McKenzie, Clinical Professor of Pediatrics, SPMC.

"Hazards of Medication Administration" - Beverly Ketchum, Pediatric Nurse Practitioner, SPMC.

"Emotional First Aid for Children" - Pam Castellano and The Kids of Huntsville.

"Head Injuries - When are They Serious?" - Dr. Patrice Knight, Assistant Professor of Pediatrics, SPMC.

"Communicating With the Ill/Injured Child" - Dr. Theresa Spalding, Fellow in Family Medicine, SPMC.

"Trauma Emergencies: Mechanisms of Injury" - Kathleen Throckmorton.

"Infectious Diseases in Day-Care Facilities" - Dr. John Montgomery, Professor and Chief of Pediatrics, SPMC.

"Child Abuse: Role of the Day Care Worker" - Dr. Debra Williams, Clinical Assistant Professor of Pediatrics, SPMC.

"Explanation of Child Abuse Reporting Law" - Mrs. Carolyn Nixon, Supervisor, Protective Services, Department of Human Resources.

"Medical/Legal Concerns for Child Care Workers" - Dr. Sylvia Morris, Epidemiology Coordinator, Area I, State Dept. of Public Health.

"How to Provide Critical Information and What to Do Until the Parent/Ambulance Arrives" - Kathleen Throckmorton.

The workshop fee is $25. Pre-registration is required because enrollment is limited.

For more information, please call Kathleen Throckmorton, 536-5511, extension 425, or Jean Porter, 895-6355.

UAH gives Cotton standing ovation

by Kim Glasgow
Exponent staff

Through the University Center halls, a guitar and a voice could be heard coming from the cafeteria. A small audience gathered for a concert by singer/songwriter Gene Cotton.

Cotton performed at UAH last Friday night as a part of the Association for Campus Entertainment Cabaret Series. Some of the audience heard Cotton for the first time, while several others were regulars to his concerts, attending as many as they could.

"The people really enjoyed themselves," said Sheree Barnes, one of many who saw Cotton perform for the first time.

"I went to the concert and had never heard of him before, but by the end of the concert, I felt I had heard his songs before," she said. "It was really a good concert."

Cotton performed his hits, which include "You Got Me Runnin'," "Sunshine Rose," "Before My Heart Finds Out," "Like a Sunday in Salem," and "You're a Part of Me," a duet that he recorded with Kim Carnes. After his closing number, Cotton received a standing ovation and came back to perform his encore, a song he had written, "Me and The Elephant." Singer Bobby Goldsboro had a hit with the song, which he changed to "Me and The Elephants," according to Cotton.

For the encore, Cotton led the audience almost by the hand by teaching them the words to the song and getting them to clap in time with the song. At one point, since the audience seemed to have no sense of rhythm, Cotton broke up laughing on stage, commenting on the audience's lack of rhythm.

After the concert, Cotton remained to greet fans and to talk about children.

November 12 Lecture at 8:15 p.m. U.C. Exhibit Hall

$1 for students; $3 for general public

Special thanks to AB Stephens for donating a set of drums and to Sunburst Records for donating a compact disc
**Your Horoscope**

**Aries** (Mar. 21 to Apr. 19) This is your week to spiff up your surroundings and make improvements at home. However, in doing so, don't be too extravagant. Some of the things you have in mind are just not possible at this time. Beware a cranky loved one.

**Taurus** (Apr. 20 to May 20) Those around you seem to be brimming with good ideas, but there may be trouble brewing with a certain contentious co-worker. Be careful when relating events to others. You have a tendency to exaggerate.

**Gemini** (May 21 to June 20) Although you're making terrific headway at work, you've been far too heedless when it comes to your social life. Take time to think things through and sort out what's been happening in your life.

**Gemini** (May 21 to June 20) (An Association for Campus Entertainment Drama Board Production)

---

**A Series of One Acts**

**DEATH KNOCKS**

**MONKEY'S PAW**

**IF MEN PLAYED CARDS AS WOMEN DO**

November 13 (8:00 p.m.),
November 15 (2:00 p.m.) &
November 16 (8:15 p.m.)

Humanities Building Recital Hall

Free to UAH students; $3 for adults;
$2 for senior citizens and students

(An Association for Campus Entertainment Drama Board Production)

---

**Libra** (Sept. 23 to Oct. 22) Things are definitely looking up for you financially and you can breathe a bit more easily. However, stop planning on how to spend this money. Think of ways to invest it instead. Your social life will begin to pick up and a new romance looms.

**Scorpio** (Oct. 23 to Nov. 21) While you're looking forward to that pleasant trip, don't let thoughts of it interfere with your everyday activities. You will be asked to complete something at work which will require all your talents and efforts, but you succeed.

**Sagittarius** (Nov. 22 to Dec. 21) You find yourself at odds with a loved one. They are meaningless.

---

**Capricorn** (Dec. 22 to Jan. 19) Any venture taken in conjunction with another person is particularly favored this week. However, don't let tempers flare when minor disagreements arise.

**Aquarius** (Jan. 20 to Feb. 18) A friend who seems to be constantly in crisis is merely seeking your attention and you may find yourself somewhat manipulated by this. Think this through and gain some perspective. Don't quarrel at work.

**Pisces** (Feb. 19 to Mar. 20) This week is a potentially tempting one in terms of you pulling out all the stops and going hog-wild socially. Remember, moderation is the best path for anyone to travel. During the weekend you may find yourself at odds with a loved one.

---

**John Dukakis featured in presidential forum today**

by Traci Collins

The departments of Communication Arts, Political Science, and Sociology present the first in a series of 1988 Presidential Forums featuring John Dukakis, son and Southern campaign director of Michael Dukakis, governor of Massachusetts. Dukakis will speak today at the UAH University Center.

Born in 1958, John Dukakis was raised in Brooklyn, Massachusetts, attending the same high school where his parents met twenty-five years earlier. After attending Brown University, John began a successful acting career, appearing in Anne II, Family Ties, Hart to Hart, Little House on the Prairie, and Taxi. In 1985, he left acting to become a legislative assistant to Massachusetts Senator John Kerry. He left Washington last May to move to Atlanta to assume the task of Southern Campaign Director.

John Dukakis will address the audience at noon today in the University Center and then be available for questions concerning the Dukakis campaign issues. The public is invited to attend.

For more information, contact Dr. Bita Kirk Willock, 895-6645.

---

**ATTENTION BSN CLASS OF 1988.**

The Air Force has a special program for 1988 BSNs. If selected, you can enter active duty upon graduation - without waiting for the results of your State Boards. To qualify, you must have an overall "B" average. After commissioning, you'll attend a five-month internship at a major Air Force medical facility. It's an excellent way to prepare for the wide range of experiences you'll have serving your country as an Air Force nurse officer. For more information, call T Sgt Greg Penny Toll Free 1-800-423-USAF.
All My Children: Natalie told the DA she was raped by Ross Chandler. Lazare, realizing that Silver really loves Jeremy, decided that when the time was right, he'd let her go. Erica, who believed Silver did not kill Goldie, was shocked to hear Lazare say he was married to Silver. Silver, conditioned by Lazare to believe she married him, backed up his story. However, Erica overheard Silver saying she loved Jeremy. Travis insisted that Jackson account for the use of his campaign money. Mitch arrived in time to find Estaban threatening to kill him. Wait To See Nina becomes increasingly restless in her marriage to Matt.

Another World: Michael learned the truth about the night of Victoria's accident. He confronted Donna, who begged for forgiveness, but he walked out on her instead. He asked Jamie to do a blood test to determine who is the real father of the twins. Richard was shocked when Peter turned down an offer of a business in payment for the work Peter did for him. Case and Nicole escalated their "dating" to set up their marriage in an effort to make Peter and Reginald believe they were marrying for love, not for convenience. Sam and Amanda shared their first kiss. Rachel fretted that Amanda was falling in love with Sam. Wait To See A choice is made that affects Vicki's future.

As The World Turnes: Holden fretted that Lily might decide not to re-establish their relationship. Taylor continued to look for ways to push her own plans. Emma's condition continued to cause concern for her family, as Jamie decided to push his operations forward. Wait To See Lily is confused by mixed signals.

The Bold & The Beautiful: Donna worried that her growing interest in Bosnia would cause Katie great pain. Meanwhile, Mark seemed unaware of Donna's growing disinterest in being with him. Although Dr. Turner testified that Caroline had been a virgin, Robin's cross-examination got Turner to admit the examination only showed recent intercourse, not rape. Clarke felt confident he'd win overtime. Brooke continued to think about Ridge more than about Dash. Wait To See Ron's testimony opens new questions about Caroline.

Dallas: J.R. tried to reassure Miss Ellie who fretted that Clayton might not make it through the surgery. J.R. later started an investigation into Westar Chief Wilson Cryder's wife. Ray checked Charlie in on his proposal to Donna. Sue Ellen tried to get the truth from her daughter about her and J.R.'s life back in the bad old days. Wait To See: Travis wants to take over Bobby's business.

Days Of Our Lives: Bill and Janice sensed their growing attraction to each other. Maggie had a relapse. Justin was shocked to learn Stavros killed his father, and that Alan had hidden the truth from her. Samo's realized she might have to fight for Josh's love. Meredith realized she might have to fight to keep her secrets hidden. Wait To See: Richard's murderous plans begin to take effect.

Falcon Crest: Richard realized Cariton is a man who won't listen to reason. How does he react when Angela, Mark, and Cariton decide to kidnap and learn that Cole had remarried. Donna's nurse worked on her patient to death with determination. Wait To See: Richard's office at the New Globe was firebombed. Wait To See: A love triangle forms under the strain of desperation. Wait To See: Keith finds a new way to add to his crusade against the Capwells.

Guiding Light: Nina becomes increasingly restless in her marriage to Matt. Wait To See: Nina could make a move to divorce Matt if and when they are determined that they are marrying for love, not for convenience. Sam and Amanda share their first kiss. Rachel fretted that Amanda was falling in love with Sam. Wait To See A choice is made that affects Vicki's future.

The Young & The Restless: Paul noticed a change in Lauren once she decided to go into her late father's business. Joanna noted how proud Neil would have been of her. Leanna tracked Newe down. Victor felt confident he would win Victoria's custody and later marry Ashley. Jill and Kay risked a dangerous backfire in their attempts to buy off Nina. Wait To See: Faren's act of desperation takes its toll.

Loving: Clay was determined to make Gwyn pay for what she did to Harry and Ann, but Cabot talked him out of it. Ava wanted to wear a white wedding gown until a society matron reminded her it was Ava's third marriage and the last thing she wanted to do was appear socially gauche. Now that Jim's memory was coming back it could seriously affect his marriage to Shana. If he remembered more about his previous commitment to the priesthood, Clay told Gwyn to fire Rick Stewart, the young man with whom everyone assumed she was having an affair. Wait To See: A major decision for Gwyn could have far-reaching after effects.

One Life To Live: Patrick put a bug in Kate's head by suggesting Cord still loved Tina. Meanwhile, Cord got a passport for Tina and Max in New Orleans. Delleiah told Rafe she was leaving for a fashion show in New York and invited him to come along. Roberta Coleman told Walt it was Maria, not Tina, who stole the poison. After learning the truth, Clint and Viki went to Monk's Hallow to tell Tina she was now a free woman. Meanwhile, Jamie and Buzzy planned to take Viki and Tina hostage after tying up Max. As Clint walked in he was shot in the head by Jamie. Wait To See: Tina learns why her life is still very much in danger.

Ryan's Hope: Nancy Don continued to be a thorn in the side of both the Ryan and SHELLY plans. She decided to set her cap for John Reed Ryan, but John's mum, Dee, who was also her co-conspirator, forbade it, reminding her she was in New York to break up Lizanne and Ben. Jack thought nothing would ever go his way again until Zena showed she had a talent for making things right. Delia played "Dr. Rath" for Mave and Johnny whose "communication" problems stemmed from Mave's discovery that Johnny had fathered Dakota. Wait To See: Dee finds Nancy Don won't take orders anymore.

Santa Barbara: Kelly was shocked to learn Jeffrey had invited Pamela, his mother, to their wedding. Tori, who was taking cocaine, was futuristic at the idea of Julia and Mason having an affair. Mel and Sonja are happy to have married. Wait To See: Kim and Marlena give the only woman he ever loved, was still alive. The jury returned a guilty verdict for Cruz, C.C. accused Gina, whom he accused of causing all of the Capwells troubles. Pamela left her husband to see Shockwaves. Wait To See: Keith finds a new way to add to his crusade against the Capwells.

The World Turns: Nina is kidnapped by the Islamic Jihad but uses her karate skills to escape. Judy's attempt to turn Kim into a pirate fails. Hajar recovers from his car wreck and Ricky recuperates from his honeymoon. Former Exponent editor Nancy Parker enjoys an afternoon of Crimson Tide football. Wait To See. Will Daisy be the main ingredient in next Monday's shish kabob? Will Nancy ever formally and legally recognize Cindy, Judy, Sherro, and Jim as her daughters?

SEC games damage forecasters spirit

by Kelly Baldwin
sports editor

It was them! The SEC did it! Just look at what I am about to show you. The SEC did the forecasters in.

First, Joe Manjone went 11-4, Doug Ross went 9-6, and Eric Ward went 10-5. But, the SEC did it to them. "What happened?" you are asking now.

Bluntly? FSU stomped Auburn. Alabama stunned LSU. Vanderbilt shocked Kentucky. Georgia squashed Furman at FSU. The SEC did the forecasters in.

BUT, the SEC did it to them.

Ross went 9-6 and Eric Ward went 10-5. They both picked Georgia's big win. But I am about to show you.

Soccer team loses finale with tough loss on road

by Cindy Rodriguez

"Too close" is how one spectator referred to the UAH Soccer Team's near victory against Birmingham Southern on November 4. The match, the last one of the 1987 season, was lost to Southern 5-4.

Said Dr. Ostap Stromecky, UAH's soccer coach, of the final match of the season: "Overall the young UAH Soccer Team, composed primarily of Huntsville players, performed in many instances excellently. Although the unusually heavy injuries created many difficulties as far as the execution of our strategy is concerned; nevertheless, I am extremely pleased with their enthusiasm, dedication, hard play, and the very noticeable technical and strategical improvements of almost all members of the team."

Getting off to a great start, the Chargers scored the first goal only a few minutes into the half. But, Southern came back strong to score three more goals. Jody Joiner scored the best shot against Southern, heading the ball into Southern's net only minutes before the match ended.

Both Aston Rhoden and Frank Davies, ending their soccer careers at UAH, scored their final goal for old Charger Blue.

Freshman Ernie Bertin also managed to slip one past Southern.

Summing up the season, Stromecky commented: "The 1987 soccer season was one of the toughest as far as the competition is concerned. The majority of the teams we played were NCAA Division I and nationally ranked NAIA soccer teams."

Presently the team is looking forward to a much better 1988 season. Already efforts are underway to recruit members (locally, nationally, and internationally) for the 1988 team.

The Exponent is looking for a few good writers. For more information, please call 895-6090.
The Association for Campus Entertainment Special Events presents:

New and exciting events are happening during this year's "Homecoming Week" November 9 - 14.

The events are as follows:
