MADISON COUNTY 150 YEARS AGO

SARAH FISK, Contributor

EDUCATION

The Subscriber respectfully informs his friends and the patrons of science in general, that he has now settled himself in Huntsville, where he intends to keep a permanent School. In this seminary will be carefully and critically taught the English, Latin and Greek languages, with the usual course of academical sciences. His school being his principal interest, he flatters himself that nothing will be wanting on his part to render it respectable and extensively useful. Eight or ten students can get boarding with the teacher on accommodating terms. Young gentlemen who may think proper to avail themselves of this opportunity can have access to an excellent library
